

EMERGENCY MANAGEMENT COUNCIL (EMC) QUARTERLY MEETING AGENDA

November 18, 2020 – 1:30 p.m.

MEETING HELD REMOTELY ONLY

***** Pursuant to the provisions of California Governor's Executive Order N-29-20, issued on March 17, 2020, this meeting will be held by Zoom only.
To attend and participate in the meeting, please follow the instructions, below. *****

Register in advance for these meetings; you need only register once to attend all three meetings. Register at: https://zoom.us/meeting/register/JMvc-itqjsoG9w6H-D726DKrQHUKKu_HDTX

After registering, you will receive a confirmation email containing information about joining the meeting.

Agenda: This agenda contains a brief general description of each item to be considered. Except as otherwise provided by law, no action shall be taken on any item not appearing in the following agenda. The Emergency Management Council encourages your participation.

This agenda is available in alternative formats to persons with a disability in compliance with the Americans with Disabilities Act. To request an alternate format you may contact the Emergency Management Division from 8:00 a.m. to 5:00 p.m. by calling (714) 628-7054 or e-mailing the Emergency Management Division at OAdmin@ocsd.org.

- 1. Call Emergency Management Council Meeting to Order**
- 2. Self Introductions**
- 3. Public Comments for EMC**
At this time, members of the public may address the EMC regarding any matter within the subject jurisdiction of the EMC provided that NO action may be taken on off-agenda items unless authorized by law. Comments shall be limited to two minutes per person and twenty minutes for all comments, unless different time limits are set by the Chairman subject to the approval of the EMC.
- 4. Approve Minutes-August 12, 2020 Emergency Management Council Meeting**
Recommended Action: Review, make corrections if necessary, and approve minutes.
- 5. Emergency Management Council Subcommittee Report**
Recommended Action: Hear report; receive and file.
- 6. Mandatory Ethics Training AB1234**
Recommended Action: Hear report.
- 7. Holy Fire Debris Flow Plan**
Recommended Action: Approve discontinuance of plan.
- 8. Hazard Mitigation**
Recommended Action: Hear report
- 9. EOC Facility Update**
Recommended Action: Receive and file.
- 10. EOC Training**
Recommended Action: Receive and file.
- 11. National Incident Management System (NIMS) Update**
Recommended Action: Receive and file.
- 12. Emergency Management Council Chairperson Comments**

EMERGENCY MANAGEMENT COUNCIL (EMC) QUARTERLY MEETING MINUTES

Virtual Conference Call
August 12, 2020

Attendees

Voting Members:

Cymantha Atkinson, Orange County Community Resources
Doug Chaffee, Orange County Board of Supervisors, Fourth District
Clayton Chau, Orange County Health Care Agency
Brian Fennessy, Orange County Fire Authority
Jeff Hallock, Orange County Sheriff's Department
Frank Kim, County Executive Office
Tom Koutroulis, Orange County Waste and Recycling
Lance Larson, Orange County Transportation Authority
Kevin Onuma, Orange County Public Works
Brian Prieto, Orange County Probation Department
Richard Steele, John Wayne Airport
An Tran, Orange County Social Services Agency

Orange County Sheriff's Department Emergency Management Staff:

Miriam Aldana
Michelle Anderson
Donna Boston
Ethan Brown
Janell Harriman
Lee Kaser
Chelsea McConnell
Fred Selayandia
Grace Zambrana-Sutton

Guests:

Randy Black, Orange County Fire Authority
Luis Estevez, City of Placentia representing City Engineers' Association of Orange County
Richard Farfan, Orange County Intelligence Assessment Center
Katrina Faulkner, Orange County Transportation Authority
Phillip Gonshak, Seal Beach Police Department representing Police Chiefs' and Sheriff's Association
Phil Johnson, Orange County Fire Authority
Tom Kisela, Orange Police Department representing Orange County Chiefs' and Sheriff's Association
Christine Laehle, Orange County Department of Education
Sarah Limones, City of Aliso Viejo representing Orange County Emergency Management Organization
Tammi McConnell, Orange County Health Care Agency
Mark Monin, El Toro Water District representing Independent Special Districts of Orange County
Richard Nelson, Orange County Sheriff's Department, Mutual Aid
Vicki Osborn, Municipal Water District of Orange County representing the Independent Special Districts of Orange County
Nicole Sims, Office of the County Counsel
Scott Stiles, City of Garden Grove representing Orange County City Manager's Association
Steve Thronson, Orange County Health Care Agency
Jordan Young, Orange County Waste and Recycling

1. Call Emergency Management Council Meeting to Order

Orange County Board of Supervisor Doug Chaffee called the Emergency Management Council meeting to order at 1:30 p.m.

2. Self-Introductions

Roll call for participants and guest speakers.

3. Public Comments for EMC

No comments were made.

4. Approve Minutes – May 13, 2020 Emergency Management Council Meeting

Motion made by Brian Prieto and seconded by Supervisor Doug Chaffee. *Minutes were approved.*

5. Emergency Management Council Subcommittee Report

Document was received and filed.

6. Mandatory Ethics Training AB1234

Michelle Anderson reported that California Government Code and County Policy requires specific County officials to complete 2-hours of Ethics Training each year. If you have not yet completed it this year and are required to do so, you should have received an e-mail at the end of June from the County's Office of Campaign Finance and Ethics regarding the need to complete this online training by December 31st of the year you are appointed and every two years thereafter. Please be sure to complete this training as soon as possible. If you have any questions, please reach out to Chelsea McConnell in the Emergency Management Division.

7. Hazard Mitigation

Ethan Brown reported that the 2020 Hazard Mitigation kickoff meeting took place in July to discuss the County of Orange and Orange County Fire Authority Hazard Mitigation Plan update project. An overview of the first Hazard Mitigation Plan from 2005 took place along with what took place over the last 20 years. The group laid out the action plan moving forward in order to get an approved and adopted plan well in advance of the deadline of August 2021. One of the big items is to form a core group for the planning team. The Orange County Public Works, the Clerk of the Board, Office of the County Council, Orange County Animal Control, and Orange County Waste and Recycling were commended for their feedback and support. All other county agencies interested in getting involved—especially if they have had projects in the 2015 plan or would like to add projects to the 2020 plan - please reach out to Ethan Brown. Please include contact information of one or more members of your respective organizations that would like to be part of the monthly working group meetings and to help shepherd this process along. The goal is to have a draft of the plan for this executive group to review by February 2021. An update will be provided in the November meeting.

8. EOC Facility Update

Document was received and filed.

9. EOC Training

Document was received and filed.

10. National Incident Management System (NIMS) Update

Document was received and filed.

11. Emergency Management Council Chairperson Comments

Orange County Board of Supervisor Doug Chaffee thanked everyone for their great work during these trying times and for staying strong. The meeting was adjourned.

The next meeting of the Emergency Management Council will be November 18, 2020 at 1:30 p.m. via Zoom, Virtual Conference Call.

Continue with Joint EMC/OA Executive Board Portion of Meeting

Emergency Management Council

Date: November 4, 2020

Agenda Item: # 5

TO: Chairperson and Members of the Emergency Management Council

FROM: Emergency Management Division

SUMMARY: Emergency Management Council Subcommittee

Narrative:

During this last quarter, the Emergency Management Council Subcommittee (EMCSub) continued to focus on and address the needs of County agencies and departments to plan for, respond to, and recover from emergency and disaster events.

Key Items and Activities:

- Discussed the Emergency Operations Center (EOC) Support Pool staffing.
- Received an update on the County COVID-19 financial recovery.
- Discussed the potential impact on readiness due to COVID-19.
- Discussed continuity response.
- Discussed job code for COVID-19.
- Discussed COVID-19 activity log transition.
- Discussed temporary plan for modified physical presence for an EOC activation.
- Reviewed the Public Safety Power Shutoff (PSPS) Standard Operating Procedures
- Continue to provide update on the Hazard Mitigation Plan.

Recommended Action: Receive and file.

Report Prepared By: Grace Zambrana-Sutton, Senior Emergency Management Program Coordinator

Emergency Management Council

Date: November 11, 2020

Agenda Item: # 7

TO: Chairperson and Members of the Emergency Management Council

FROM: Orange County Sheriff's Department – Emergency Management Division

SUMMARY: Discontinue the Holy Fire Debris Flow Plan

Background:

After a large wildfire, there is a chance for debris flows due to loss of vegetation holding material within burn areas. Following the August 2018 Holy Fire, a Post-Fire Debris Flow Task Force was convened to plan and prepare for possible and eventual debris flows over and near the Holy Fire Burn Area. The task force consisted of county agencies, local affected jurisdictions, as well representatives from U.S. Geological Survey (USGS), National Weather Service (NWS), U.S. Forest Service, and the California Office Emergency Services (CalOES). The plan was completed and approved by Emergency Management Council in November 2018 and a community town hall meeting was held with residents to share the plan and address concerns. The Holy Fire Debris Flow Plan was activated numerous times during the rainy season between 2018 and 2020.

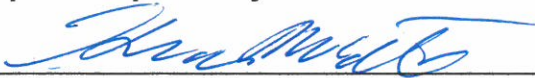

Each year, the USGS and NWS re-analyze the burn area and adjust the rainfall intensity rates based on the regrowth and recovery of the affected area. This year, both the USGS and the NWS indicated the burn scar has made a significant recovery along with making the recommendation to return the area to normal National Weather Service Flash Flood Warning criteria thresholds.

Members of the Holy Fire Debris Flow Unified Command (including the Orange County Fire Authority, Orange County Sheriff's Department and Orange County Public Works) are in concurrence with the above recommendation to discontinue the Holy Fire Debris Flow Plan.

Fiscal Impact: None.

Recommended Action: Approve discontinuation to the County of Orange Holy Fire Debris Flow Plan.

Report Prepared By:

Kevin McArthur, Senior Emergency Management Program Coordinator

Report Approved By:

Donna Boston, Director

Emergency Management Council

Date: November 18, 2020

Agenda Item # 9

TO: Chairperson and Members of the Emergency Management Council

FROM: Emergency Management Division

SUMMARY: EOC Facility Update

Silverado Fire Pole Vulnerability:

Following the Silverado Fire, a power pole was identified with mounted equipment that might be a possible source of ignition. As plans developed to remove the equipment, potential impacts to law and fire communications capabilities were identified. Private utilities, the Orange County Fire Authority, Orange County Information Technology, and Orange County Sheriff's Department Communications, Information Services, Emergency Communications Bureau, and Emergency Management Division (EMD) formed a working group to identify impacts and establish contingency plans. The work is currently planned for the week of November 9th.

Road Widening (Including Utility Undergrounding):

This project is being led by Orange County Public Works (OCPW). The EMD and OCPW investigated possible funding through the federal Building Resilient Infrastructure and Communities (BRIC) program; however, the project was determined to be ineligible by the California Office of Emergency Services (CalOES). Work continues on this project to provide the Loma Ridge facility with easier and safer access as well as the undergrounding of utilities, power, and conduit cabling. Recent planning changes, geology and conservation work was completed along the Loma Ridge access road. Planning changes saw the need to widen the entrance security gate to accommodate newer access easements for responding fire personnel. Geologists took measurements and samples of surrounding hillsides to be dug out and removed or to be shored up for the future widening of the road. Local conservationists from the University of Irvine and Irvine Ranch Conservancy continue to monitor any environmental impacts to wildlife or native vegetation. This project is ongoing for the next few years.

EOC Generator Replacement and Uninterrupted Power Supply Project:

Orange County Sheriff's Department (OCSD) Research & Development has completed the engineering and design phase of the Emergency Operations Center (EOC) Generator Replacement Project. Several meetings have occurred with electrical engineers through the course of this project for the replacement generators to be more efficient in providing emergency back power for the entire Loma Ridge facility. Completion of this project is slated for the fall of 2021. This information is also in the EOC facility update receive and file. Note: As described in the August 2020 update, this project now includes the Uninterrupted Power Supply (UPS) project.

EOC Audio Visual Upgrades:

The Operational Area EOC has been working closely with OCSD Communications on the scope of services for upgrading the Emergency Operations Center. OCSD Communications has assisted in the planning process with plans to tour various City and County EOC's, equipment, and vendors that would best suit the Orange County Operational Area. This project is being pushed back due to some COVID-19 restrictions and multiple EOC activations.

VOIP Phone Upgrade:

The Loma Ridge facility completed the Voice over Internet Protocol (VOIP) phone upgrades on August 30th, 2020. This upgrade allows phone service to use the internet instead of a pair of direct connect copper wires to provide telephone service, giving greater mobility, interoperability, and connectivity.

Recommended Action: Receive and file

Report Prepared By: Lee R. Kaser, Assistant Emergency Manager

Emergency Management Council

Date: November 18, 2020

Agenda Item: # 10

TO: Chairperson and Members of the Emergency Management Council

FROM: Emergency Management Division

SUMMARY: Emergency Operations Center Training

Narrative:

Due to the Coronavirus Pandemic and activation of the County and Operational Area EOC, training was suspended for the period of July 2020-November 2020.

During this suspension the Emergency Management Division explored alternate methods to deliver training in a safe, responsible, and effective manner to prepare responders to function in their EOC positions. These efforts resulted in a new three tiered training plan that includes a blend of web based self-paced courses, virtual live instructor lead courses, and in class courses.

This first tier of this new training plan has ten courses. These courses focus on building foundational knowledge by providing the student with an overview and an introduction to the fundamentals of disaster and emergency response at the County and Operational Area Emergency Operations Center (EOC). The courses are web based allowing the student to complete as their schedule permits. These courses will prepare the student to participate in position specific and advanced training in preparation for assignment to the EOC. This tier is targeted for release in January 2021.

Recommended Action: Receive and file

Report Prepared By: Frederick B. Selayandia, Senior Emergency Management Program Coordinator

Emergency Management Council

Date: November 18, 2020

Agenda Item: #11

TO: Chairperson and Members of the Emergency Management Council

FROM: Emergency Management Division

SUMMARY: National Incident Management System (NIMS) Update

Narrative:

1. NIMS Alert 26-20:

FEMA's National Integration Center was seeking public feedback on four NIMS resource typing definitions under the Emergency Medical Services core capability including Emergency Medical Responder, Emergency Medical Technician, Emergency Medical Technician - Advanced and Paramedic.

2. NIMS Alert 29-20:

FEMA's National Integration Center was seeking public feedback on resource typing documents including [18 various positions and teams for public works](#) that enhance interoperability and the effectiveness of mutual aid.

3. NIMS Alert 33-20:

FEMA released "[Consideraciones para la Planificación: Vivienda por Desastre](#)," the Spanish version of "Planning Consideration: Disaster Housing" in May. The document provides guidance on national housing priorities, types of housing, key considerations and housing-specific planning recommendations that jurisdictions can apply when developing or improving housing plans.

Recommended Action: Receive and file.

Report Prepared By: Pei Lee, Senior Emergency Management Coordinator

**EMERGENCY MANAGEMENT COUNCIL/OPERATIONAL AREA EXECUTIVE BOARD
JOINT MEETING AGENDA**

November 18, 2020 – 1:30 p.m.

MEETING HELD REMOTELY ONLY

***** Pursuant to the provisions of California Governor’s Executive Order N-29-20, issued on March 17, 2020, this meeting will be held by teleconference only. To attend and participate in the meeting, please follow the instructions, below. *****

To attend the meeting, please call in to the toll free number below:

Toll-Free:	877-336-1828
Access Code:	5180323

Agenda: This agenda contains a brief general description of each item to be considered. Except as otherwise provided by law, no action shall be taken on any item not appearing in the following agenda. The Emergency Management Council encourages your participation.

This agenda is available in alternative formats to persons with a disability in compliance with the Americans with Disabilities Act. To request an alternate format you may contact the Emergency Management Division from 8:00 a.m. to 5:00 p.m. by calling (714) 628-7054 or e-mailing the Emergency Management Division at OAdmin@ocsd.org.

13. **Call Joint Meeting of Emergency Management Council and OA Executive Board Meeting to Order**
14. **Public Comments for EMC and OA Executive Board**
At this time, members of the public may address the EMC and Operational Area Executive Board regarding any matter within the subject jurisdiction of the EMC and OA Executive Board provided that NO action may be taken on off-agenda items unless authorized by law. Comments shall be limited to two minutes per person and twenty minutes for all comments, unless different time limits are set by the Chairperson subject to the approval of the EMC.
15. **Approve Minutes-August 12, 2020 Joint Meeting**
Recommended Action: Review, make corrections if necessary, and approve minutes.
16. **Operational Area Manager Report**
 - **Emergency Management Report**
 - COVID-19 Update
 - Operational Area Agreement Update
 - Undergrounding EOC Utilities Update
 - EOC Generator Replacement Update*Recommended Action: Hear report.*
 - Orange County Winter Weather Workshop and Department of Water Resources Workshop
 - Mutual Aid Regional Advisory Committee (MARAC) Update
 - Citizen Corps
 - COAD
 - Control One Report*Recommended Action: Receive and file.*
17. **Multi-Year Training and Exercise Plan**
Recommended Action: Approve plan.
18. **Alert & Warning**
 - AlertOC System Update
 - 2020 Regional AlertOC Test
 - Public Outreach Status
 - LECC Meeting Recap*Recommended Action: Hear report.*
19. **Emergency Management Technology**
 - WebEOC
 - GIS*Recommended Action: Hear report.*

20. **San Onofre Nuclear Generating Station (SONGS)**
 - Interjurisdictional Planning Committee Update
 - Decommissioning Update*Recommended Action: Hear report.*
21. **Disabilities, Access, and Functional Needs Working Group**
Recommended Action: Receive and file.
22. **Terrorism Working Group Update**
Recommended Action: Receive and file.
23. **Orange County Intelligence Assessment Center (OCIAC)**
 - Information Sharing Update*Recommended Action: Hear report.*
24. **Grants Update**
 - Homeland Security Grants*Recommended Action: Receive and file.*
25. **Health Medical Mutual Aid Update**
Recommended Action: Hear report.
26. **Fire Services Mutual Aid Update**
Recommended Action: Hear report.
27. **Law Enforcement Services Mutual Aid Update**
Recommended Action: Hear report.
28. **Public Works Mutual Aid Update**
Recommended Action: Hear report.
29. **Emergency Management Legislation**
Recommended Action: Receive and file.
30. **2021 EMC/OA Executive Board Meeting Dates and Location**
February 10, May 12, August 11, November 10 , 2021 locations to be determined based on COVID-19
Recommended Action: Approve 2021 meeting dates.
31. **Next Meeting**

The next meeting of the Emergency Management Council will be February 10, 2021 at 1:30 p.m., either virtually or at the County Administration South Building, Conference Center Room CC104, 601 N. Ross St., Santa Ana, CA 92703.
32. **Adjourn Emergency Management Council**

Continue with OA Executive Board Portion of Meeting

12. Call Joint Meeting of Emergency Management Council and OA Executive Board Meeting to Order

Supervisor Doug Chaffee called the joint meeting of the Emergency Management Council and the Operational Area Executive Board to order at 1:45 p.m.

13. Public Comments for EMC and OA Executive Board

There were no public comments made.

14. Approve Minutes of May 13, 2020 Joint Meeting

Motion made by Supervisor Doug Chaffee and seconded by Brian Prieto. *Minutes were approved.*

15. Operational Area Manager Report

Emergency Management Report

- **COVID-19 Update**

- **Reactivating the EOC**

Donna Boston reported that the Orange County Operational Area (OA) Emergency Operations Center (EOC) resumed its activation for the COVID-19 Emergency on Tuesday, July 14, 2020 in support of the continuing response. The OA EOC is at a Level 2 activation and will operate 9:00 a.m. to 4:00 p.m. Monday through Thursday for planning and response activities. The OA EOC can be contacted through the EOC Liaison desk at 714-628-7060 or at EOCLiaison@ocsd.org. The OA EOC Public Information Hotline operation is mirroring the Orange County Health Care Agency's hotline hours of Monday through Friday 8:30 a.m. to 5:00 p.m. to assist in providing non-medical information related to health orders and recommendations of the County of Orange Health Officer.

The EOC is producing a weekly Situation Summary Report on Thursdays for distribution to OA partners. In addition to this weekly update, the EOC Liaison is sending daily emails with timely information to assist our response partners in staying up-to-date with situational and informational changes. The EOC is also hosting two different conference calls—one for Operational Area response partners, which is held each Thursday at 11:00 a.m. and one for Public Information Officers held on Fridays at 11:00 a.m. The Friday call is hosted by Molly Nichelson from the County Executive Office, Public Information Office.

In terms of major developments since the last meeting of this group, the County has been working through major areas such as school reopening, business support and reopening guidance, support and coordination for assisted living facilities, and public information coordination. The County EOC has also been implementing enhancements to the WebEOC crisis management system and it remains a major component of information sharing in our response. In the months ahead, we anticipate the EOC activation to continue in support of the Covid-19 response. In addition to this existing situation, we expect to face an active fire season and the complexity of Public Safety Power Shutoffs during extreme fire weather. We appreciate all of the coordination and support of our Operational Area partners. I have seen more teamwork and support through this event than any time before and we truly appreciate the work of all of our partner agencies and organizations.

- **Civil Unrest Activation**

- **June 23rd County Emergency Proclamation**

Donna Boston reported that in May and June there was significant protest and civil unrest activity in southern California as well as many other areas of the nation. The County EOC activated on May 30, 2020 to support the response coordination for planned protests and civil unrest. Over the course of the next week, seven cities proclaimed emergencies and the County Proclaimed an emergency on June 16, 2020 and it was ratified on June 23, 2020. The EOC assisted with launching several AlertOC messages and issued Wireless Emergency Alerts on behalf of some requesting cities. The EOC Public Information Hotline was activated to support the community members and this was helpful with providing community information after emergency messages were delivered via AlertOC. The EOC maintained situational awareness, monitored impacted jurisdictions within the Operational Area, and produced five Situation Summaries over the activation period. Overall, 14 cities activated their Emergency Operations Centers. The WebEOC system again proved its worth in this very dynamic situation and allowed information to be shared with the entire Operational Area. Though the County has requested the State to provide California Disaster Assistance Act funding, the only jurisdictions that were granted CDAA were the County and the City of Los Angeles. Both Lieutenant Rich Nelson and the Orange County Intelligence Assessment Center will be able to provide additional information from the Law Enforcement Operations perspective.

- **Operational Area Agreement Implementation**

Ethan Brown reported that as previously mentioned, immediately after the May meeting of this executive group, the Operational Area Agreement formally rolled into the approval phase. Once executed by the County of Orange and the Orange County Fire Authority, the six-month transition period timeline began. As of today, just over 15 jurisdictions have signed on to the new Operational Area agreement. There are over 100 jurisdictions that make up the entirety of the Operational Area and it is expected that with the regular rhythm of monthly board and city council meetings, there will be another wave of approvals. The goal is to be ready to transition at the end of September. The working group is working with our Operational Area coordinator, Chelsea McConnell, on the Emergency Management Division staff and the rest of the team to make sure that process is as seamless as possible for the jurisdictions—more to come.

The following items were received and filed:

- Mutual Aid Regional Advisory Committee (MARAC) Update
- Citizen Corps
- COAD
- Control One Report

16. Public Safety Power Shutoff Standard Operating Procedure

Janell Harriman reported that provided in the agenda packet, was the final draft of the Public Safety Power Shutoff (PSPS) Standard Operating Procedures (SOP). The document was developed to assist with response to a PSPS event in the Operational Area. The SOP provides a response Matrix to help guide personnel on critical actions that may need to occur depending on the level of a PSPS activation. The SOP also mirrors the procedures used throughout the state as well as mirrors a pending legislation that is currently in process with the California Public Utilities Commission. The executive group was asked to approve the final draft.

A motion was made by Vicki Osborn and seconded by Cymantha Atkinson. The Public Safety Power Shutoff Standard Operating Procedure was approved.

17. Alert & Warning

Lee Kaser reported that from the onset of the March 13th Emergency Operations Center (EOC) COVID-19 activation, the Alert and Warning position was staffed by both Orange County Sheriff's Department, Control One and Emergency Management Division personnel. Representatives worked closely with Public Information Officers (PIO) on site to provide information to the communities in Orange County. Residents were given the opportunity to opt-in to receive COVID-19 daily updates via the Everbridge, AlertOC and Nixle platforms. Some of the messaging included social distance guidelines, cleaning and sanitizing mask recommendations provided by the Health Care Agency. During the activation operational period, 77 alert warning messages were sent. Messages reached about 48,000 Orange County residents daily. Public Information Officers, Carrie Braun and Molly Nichelson as well as their teams were commended for their support.

In June, the operation shifted to a Civil Unrest emergency event. This required more involvement from the alert and warning role to support the use of wireless emergency alerts (WEAs) to inform residents of specific curfews in areas of Orange County, unlawful assemblies and areas of police activity.

The WEAs were used to reach the most amount of residents and visitors to certain areas within Orange County—alerting up to 100,000 people at a time. The Alert and Warning Coordinators assisted cities wishing to send their own messaging to residents within their jurisdiction and ensuring they adhered to the Federal Emergency Management Agency (FEMA) Integrated Public Alert & Warning System (IPAWS) procedures.

Some challenges from messaging took place, mainly an overlap from one city to the next. Some Orange County residents received messages from as far as Los Angeles and San Bernardino Counties. Residents would then call into the EOC Public Information Hotline or to their local jurisdictions with questions as to why they received such wide-ranging messages. The state's Alert and Warning Administrator who is responsible for setting guidelines for the alert and warning procedures is aware and in communication with FEMA and IPAWS Task Force to solidify a solution with their users and with cell phone company carriers. The goal is to have a solution from FEMA, prior to the new 3.0 software coming out this year.

18. Emergency Management Technology

Janell Harriman reported that the COVID-19 situation has allowed great improvements to be made within the WebEOC system using Geographic Information System (GIS) integration. The Emergency Management Division is currently working on integrating new features into the Jurisdictional Information Management System (JIMS) board. These new features include; uploading emergency proclamations to the JIMS board and jurisdictions are now able to input their EOC or DOC hours of operation. The system will allow easier printing and sorting features and the ability to run data and integrate information into GIS and develop a dashboard that will help provide a more visual picture. The goal is to move forward with implementing WebEOC Enterprise, which would allow jurisdictions to control the end users and passwords for the WebEOC system.

19. San Onofre Nuclear Generating Station (SONGS)

Michelle Anderson reported that on the San Onofre Nuclear Generating Station.

Decommissioning Update

- All spent fuel was transferred to dry storage/ Independent Spent Fuel Storage (ISFSI) on Friday, August 8th.
- On Monday, August 10, 2020 at 2:15 pm, Southern California Edison (SCE) completed the implementation of the new Independent Spent Fuel Storage (ISFSI) Only Emergency Plan (IOEP) and Security Plan.
- SCE provided copies to IPC jurisdictions of the ISFSI Only Emergency Plan (IOEP) documents (the Plan, EAL Technical Bases, Manual of Emergency Events (MOEE) and the Emergency Notification Form).

Randy Harper has been selected to replace Michelle Anderson as the Chair. The group has continued to meet on a monthly basis. At the August meeting, SCE presented on the transition to ISFSI-only status, the inspection and maintenance program, and aging management program. Of note: the Unit 1 spent fuel was already stored in an ISFSI which is configured and licensed separately from the Units 2 and 3 fuel. Unlike the Unit 2 and 3 fuel where monitoring and repair processes have been identified, this was a not required back when Unit 1 was decommissioned (it is still not technically required by the NRC). When the Unit 1 ISFSI permit is renewed by the Nuclear Regulatory Commission (NRC) and Coastal Commission within the next 2-5 years, the issue of monitoring and repairs is expected to be a concern. SCE is working to develop and implement these processes.

On July 9th, the Emergency Management Division facilitated a training and full-scale exercise of the Off-site Dose Assessment Center and Radiological Monitoring Team training and exercise. Participants included the Health Care Agency, Orange County Fire Authority, Camp Pendleton Marine Corps, California State Parks, San Diego County Office of Emergency Services, and City of Oceanside Fire Department. The exercise tests the ability to deploy field teams to take radiological readings, and communicate back to the ODAC for analysis and situational awareness.

Legislation Update (SB465)

SB465 remains in the Assembly Appropriations Committee. No action is anticipated on it this legislative cycle given the successful execution of the MOU.

MOU Update

On June 2, 2020, the Orange County Board of Supervisors approved the Successor Memorandum of Understanding with Southern California Edison to provide financial support for emergency preparedness and response activities related to San Onofre. The MOU has been signed by all parties and will run through June 30, 2049. The Emergency Management Division has executed sub-agreements with the Orange County Fire Authority and the Capistrano Unified School District in support of the MOU.

20. Disabilities, Access, and Functional Needs (DAFN) Working Group

Document was received and filed.

21. Terrorism Working Group (TWG) Update

Document was received and filed.

22. Orange County Intelligence Assessment Center (OCIAC)

Richard Farfan and Alberto Martinez reported that the Orange County Intelligence Assessment Center (OCIAC) will continue to support law and fire agencies throughout the County in regards to protests. The information sharing between the private sector, law and fire has been tremendous. Unfortunately, more demonstrations are expected.

Rumors continue on attacks on 5G cellular sites and how they relate to COVID-19. The rumors are believed to have begun in Europe. As a result, there have been attacks or attempted attacks against 5G cellular sites in the country. If you hear such rumors, please share the information with OCIAC.

The intelligence team continues working on suspicious activity reports ranging from radically motivated hate groups, to individuals claiming to observe suspicious activities to critical infrastructures. Also, the critical infrastructure team continues to work with physical security directors to ensure timely and relevant information is shared.

Lieutenant Chris Hayes retired on July 2nd and effective July 3rd, Administrative Manager, Alberto Martinez was appointed Director of OCIAC.

As it relates to the demonstrations over a two-week period, there were about 140 events occurring in Orange County with about 31,000 people attending the events. Great coordination took place and between partners including; fire, law enforcement, public health, and OCIAC developed a Homeland Security Information Network (HSIN) chatroom. It was an opportunity for at least 200 representatives from various agencies to come together and share information using one platform.

As Election Day approaches, concerns from law enforcement agencies across the County has increased. Social media is exacerbating the concern as many people continue sharing and re-posting information that is not accurate.

The OCIAC team is working closely with Neal Kelley from Registrar of Voters to support him by conducting physical assessments at local election sites—ensuring the integrity of our democratic process. Another concern is potential cyber-attacks on the election infrastructure nationwide as well regionally. A third and major concern with the election is foreign influence—specifically foreign powers who are intending to influence our policy and distort our political sentiment. The intelligence team is aware of certain individuals from foreign states that are targeting the election and attacking political parties and campaigns. Therefore, as public officials, remember to be cognizant of the information seen online,

which may not be accurate. Currently, the intelligence team is coordinating with the Federal Bureau of Investigation Counter Intelligence and Cyber Division on the foreign influence and public letters from the FBI were sent out; the OCIAC is happy to share the information on the letters as requested.

23. Grants Update

Document was received and filed.

24. Health Medical Mutual Aid Update

Tammi McConnell reported that the Medical Health Operational Area Coordinator (MHOAC) is a program responsible for developing and implementing the Disaster Medical Plan for the County. The COVID-19 event is the most current event and the medical team has been working on this project since early January.

The Health Care Agency (HCA) Agency Operations Center was formally activated on February 18th reaching a record of 190-day activation. The HCA continues to distribute large quantities of personal protective equipment (PPE) and supplies to hundreds of providers in Orange County. So far, over 8.3 million units have been distributed to providers including, hospitals, skilled nursing facilities, clinics, first responders, and hundreds of individual medical providers.

The Region One MHOAC and the counties of Los Angeles, Ventura, San Luis Obispo, Santa Barbara, and Orange maintain weekly contact to share overall situational awareness, best practices and shared interests. The information is also duplicated at the state level including the California Department of Public Health. Orange County continues to receive state mutual aid in the form of PPE and registered nursing resources. Prior to COVID-19, one local large hospital was using approximately 3,095 masks per month. With the current COVID-19 event, the hospital is now using 100,000 masks per month—proving the gravity of the amount of resources being used by hospitals. It is also important to share that the state disease recording system backlog did not affect the COVID-19 hospitalization numbers and ventilator rates. The health team maintains real-time data and these numbers include 441 hospitalizations as of August 10th. That is about 13% of all people patients in our hospitals, which is down from the highest of 722 hospitalizations. On July 14th, of those hospitalized currently there are 141 patients in the Intensive Care Unit (ICU) and 34% of those patients are on ventilators. The ICU bed and ventilator availability is good. The HCA is receiving and processing both positive and negative reports and expect to be current with the backlog by the end of this week. This will provide more sound data that will accurately represent the current state of COVID-19.

25. Fire Services Mutual Aid Update

Phil Johnson reported that the fire season has begun and Fire Services Mutual Aid has been supporting surrounding counties as well as around the state by providing equipment and overhead or research. The Apple Fire in Riverside County is one of the events where mutual aid support is being rendered by providing equipment and overhead. Most personnel that were deployed have returned.

With the upcoming heat wave, there is a brush fire prediction throughout the County especially during peak fire season, through October and normal fire season, through December depending on rain activity.

On August 3rd, a 3.5 magnitude earthquake occurred centered in the City of Yorba Linda. No special actions were needed as there were no reports of injuries or damages within the County. The Orange County Fire Authority COVID-19 related responses have remained steady over the last 30 days and no major uptick on open suspected responses.

26. Law Enforcement Services Mutual Aid Update

Rich Nelson reported that the Law Enforcement Mutual Aid Bureau consists of Lieutenant Rich Nelson, two sergeants, and one deputy. So far, the team has deployed over 2,400 Orange County Sheriff's Department deputies to handle 53 protests in the County of Orange with only two injuries. The team has handled 91 Code Charlie's including "Checkmate" in the Cities of Santa Ana, Garden Grove, and Anaheim, where they all worked well and were handled professionally.

A total of 1,884 Special Response Team (SRT) deputies were deployed to assist and restore peace to city streets. An additional platoon has been added in preparation for the upcoming November elections, which consists of 50 bodies.

The mutual aid team conducted Mobile Full Force Training for law enforcement agencies across Orange County on August 1st and a total of 30 personnel were trained. Another training will be conducted on August 23rd as well as additional SRT training on August 19th from 0700 to 1700 hours at the Tustin Training Academy. This will provide an opportunity to collaborate with other agencies and continue to build upon our ability to protect the citizens we serve.

In July, Lt. Nelson hosted a mutual aid meeting with outside agencies in Orange County to build relationships and discuss lessons learned at each protest to ensure everyone's rights are protected as well as to reduce injuries and follow policy.

27. Public Works Mutual Aid Update

Kevin Onuma reported that during the last quarter, the Public Works Mutual Aid received one mutual aid request from the City of Anaheim in early June related to the protests. The request was for assistance with water filled barriers to help with crowd and vehicle control. The team is currently working on billing the City for that effort as well as for additional recovery efforts including past and current events, related to COVID-19.

So far, the agency has received \$1.8 million dollars in reimbursements and just over \$685,000 in pending reimbursements. For the current COVID-19 event, information on eight projects has been submitted to the Federal Emergency Management Agency (FEMA) totaling approximately \$15 million dollars. FEMA is currently reviewing the information and has obligated no funds of disbursement at this time. The team continues to work with FEMA on this effort.

28. Emergency Management Legislation

Document was received and filed.

29. Next Meeting

The next Emergency Management Council and Operational Area Executive Board Joint meeting will be November 18, 2020 at 1:30 p.m. via Zoom, Virtual Conference Call.

30. Adjourn Emergency Management Council

No additional comments were made.

Continue with OA Executive Board Portion of Meeting

Emergency Management Council and Operational Area Executive Board

Date: November 10, 2020

Agenda Item: # 16

TO: Chairperson and Members of the Emergency Management Council and Operational Area Executive Board

FROM: Emergency Management Division

SUMMARY: Operational Area Manager Report

Orange County Winter Weather Workshop

On November 10, 2020, the Orange County Public Works and Orange County Sheriff's Department Emergency Management Division hosted the annual Winter Weather Workshop virtually. This pre-storm season workshop featured informative sessions on weather trends, resources, storm preparations and infrastructure. Topics included current weather conditions, weather outlook, flood control channel systems, potential regional "hot spots", flood fight resources and County storm preparation and procedures.

Mutual Aid Regional Advisory Committee (MARAC):

Please see the attached meeting agenda and handouts.

Citizen Corps:

Citizen Corps met August 25th and November 17th virtually. The focus of the meetings was on volunteer programs response and adaption during COVID19, updates on the Citizen Corps sections of the ReadyOC website, current grant projects for the Community Emergency Response Team Mutual Aid Program (CMAP) and Radio Amateur Communications Emergency Services (RACES).

Collaborating Organizations Active in Disaster of Orange County (COAD-OC):

Since its initial activation in March due to COVID19, COAD-OC member organizations continue to support the County and Operational Area in multiple fields including managing the virtual Emergency Volunteer Center (EVC), monetary donations management and food distribution.

On July 16th COAD-OC met virtually and had presentations from Southern California Edison and San Diego Gas & Electrical on information about the Public Safety Power Shut off Program (PSPS). The next COAD-OC general meeting will be held on December 12th virtually.

Control One:

Control One is an integral part of the emergency management system. The following statistics identify how Control One's communication and notification efforts are incorporated into Orange County's mobilization, coordination and response on a daily basis. Below are Control One's statistics from July through September 2020.

	3rd Quarter Stats
After Hour Callouts (Public Works, Health Care Agency, EOC)	249
Emergency Radio Activations	1,643
General Broadcasts	413
Hospital Emergency Administration Radio Broadcasts	95
Paramedic-Hospital Communication Coordination	4,726
Pre-Established Mutual Aid Requests	28
Red Channel Emergency Traffic (Pursuits, Officer Assistance)	141
Sigalerts	432
Wants and Warrant Checks (800 MHz/ Purple Channel)	43,060

Recommended Action: Receive and file

Report Prepared By: Emergency Management Division

Governor's Office of Emergency Services

Mutual Aid Regional Advisory Committee (MARAC) Agenda

Southern Mutual Aid Regions I & VI

Thursday, October 22, 2020, 0900-1200

0900–0915	Welcome & Roll Call (O/A, CalOES, Speakers only)	Greg McKeown, CalOES
0915	Southern Region Updates MARAC Representative Positions	Jim Acosta, CalOES Sherri Sarro, CalOES Dan Weiss, CalOES
0930	CalOES Recovery	Peter Crase
1000	CSTI Update	Justin Freiler Al Lehenbauer
1015	Hazard Mitigation	Anthony Roggio
1030	SCE	Breanna Medina
1045	California Earthquake Warning California Program	Emily Holland
1100	California Adaptation Planning Guide	Kendall Skillicorn
1115	Round Table: County by County North to South (Order: O/A, Tribes, Special Districts)	All
1130	Closing Remarks & Future Meetings	Dan Weiss, CalOES

The next MARAC meeting will be: January 28, 2021

Please contact Greg McKeown at Gregory.McKeown@caloes.ca.gov to suggest future agenda topics and meeting locations.

**MUTUAL AID REGION SOUTHERN REGION I & VI
MUTUAL AID REGION ADVISORY COMMITTEE (MARAC MEETING)**

Thursday, October 22, 2020
9:00am – 11:00am
BlueJeans Conference Call

Sherri Sarro	Assistant Director of Response, Southern Region
Jim Acosta	Acting Regional Administrator
Dan Weiss	Deputy Regional Administrator
Greg McKeown	Emergency Services Coordinator (Orange County)
Southern Region Staff	
Peter Crase	Cal OES Recovery
Justin Freiler	CSTI Training & Exercise
Al Lehenbauer	CSTI Training & Exercise
Anthony Roggio	Cal OES Hazardous Mitigation
Breanna Medina	SoCal Edison
Emily Holland	Cal OES CA Earthquake Warning Program
Kenall Skillicorn	Cal OES California Adaptation Planning Guide

0900hrs. – Roll Call

Southern Region Updates

Jim Acosta, Acting Southern Regional Administrator

- Update on interviews
- Assisting recovery
- Elise Arata replacing Doug Huls for ESC in Santa Barbara

Sherri Sarro, Assistant Director of Response

- State Operations Center (SOC) Status
- Joint Field Office (JFO) Status
- Vaccine Task Force continuing participation

- Presidential Election, monitoring civil unrest prior to the election and will be monitoring after. Stay in touch with local law enforcement for threat assessments. Be sure to reach out to your local law enforcement

Dan Weiss, Deputy Regional Administrator

- The purpose of MARAC meetings is to increase efficiency between counties and information sharing/resource requests to the State (SEMS). We want to try to get back on track with future meetings.
- Current list of vacancies for MARAC positions

CalOES Recovery: Peter Crase, CalOES Program Manager

- 4558 FEMA Wildfire briefing
- 4569 FEMA Wildfire briefing
- Bobcat Fire and San Bernardino receiving FMAGs
- Webinar available for updates and information on additional categories
- COVID-19 – Ongoing Recovery
- disasterrecovery@caloes.ca.gov for questions and concerns

California State Training Institute (CSTI): Al Lehenbauer, Exercise Operations

- Registration opening up soon for CSTI courses and exercises.
- Exercises dedicated to significant power outages (Black Sky events)
- Virtual courses being offered
- Virtual drills under consideration
- EMPG Exercise requirements

CSTI/Cal OES have received many inquiries about approved virtual exercise opportunities for the FY 2019 EMPG performance period. The following three categories of exercise examples and resources are described below:

1. Scheduled exercises: Earthquake Country Alliance, EarthEX 2020
2. Examples of drills that a jurisdiction can quickly develop and conduct virtually
3. Homeland Security Exercise and Evaluation Program (HSEEP) templates/Prep Toolkit

(EMPG FUNDED PERSONNEL. To receive credit for an exercise, you must acquire one of the following from the host of the exercise: a certificate of participation, an exercise roster with your name on it, or a letter/email stating that you participated.)

1. Scheduled Exercises that can be applied to the FY 2019 EMPG Performance Period Exercise Requirement (These are only a few opportunities. The CSTI Exercise Division is working to send out more information like this in the near future.)

Earthquake Country Alliance:

The Earthquake Country Alliance (ECA) *Safer At Home Webinar Series* includes webinars for each of the: [Seven Steps to Earthquake Safety](#). Upcoming webinars are listed below:

Step 6: Improve Safety (October 28, 11 am): Registration opening soon

Step 7: Reconnect and Restore (November date TBA): Registration opening soon

EarthEX 2020 is now open and available!

The ability for communities, public/private partners and government agencies at all levels to conduct disaster exercises that validate response capabilities is severely limited during the coronavirus pandemic. EarthEX 2020 is a virtual tabletop exercise (VTTX) conducted annually by the Electric Infrastructure Security (EIS) Council. It is free, self-facilitated, requires minimal work to prepare, you can participate anywhere there is internet and you can schedule it anytime between September 1 and October 31, 2020. The format is extremely flexible, allowing individuals and families to play, public/private groups of any size, single agencies or jurisdictions, regional groups, state and federal government. Jurisdictions can even play multiple times to address different aspects of a disaster like Logistics, Response, Utilities, etc. As long as each iteration of the exercise has its own objectives and AAR, it can be applied separately toward the EMPG exercise requirement.

The scenario centers on a very large (potentially multiple states), very long-term (months rather than days) power outage that causes cascading impacts to all infrastructure systems. To learn more and register, click here:

<https://www.eiscouncil.org/EarthEx.aspx>

Cal OES/CSTI will host a four-hour EarthEX 2020 VTTX on October 29th, 0830-1230 for Operational Areas, Local Partners and Regions. The number of participants is limited. TO REGISTER, please send an email to: [Cal OES Exercise Division](#)

2. Examples of virtual drills:

As long as the jurisdiction establishes the exercise scope (what it will and will not test during the exercise), creates specific objectives, measures and records performance, tracks personnel participation and develops a exercise summary or After-Action Report, that is a valid EMPG exercise. Video conferencing and

similar collaboration tools like Skype, MS Teams, Zoom, BlueJeans, WebEOC and WebEx can be leveraged to virtualize exercises for many aspects of an emergency plan.

This is not an exhaustive list, just some suggestions for drills that can be developed quickly and conducted virtually:

- Connectivity and communications systems drills: Test back up comms systems, vehicle radios, HAM radios, satellite phones, VOIP systems, etc.
- Situational awareness drills: Virtually activate parts or all of the EOC Planning/Intelligence Section and measure how long it takes for them to create a situation report or incident action plan.
- Resource management drills: Virtually activate parts or all of the EOC Section responsible for procuring and distributing resources during a disaster to determine how quickly they can arrange shipments of certain supplies.
- Devolution of statutory authorities to a secondary staff and/or location.
- Activation of secondary EOCs or other hot sites/warm sites.

Another way for jurisdictions to identify virtual exercise opportunities: review your After-Action Reports and Corrective Action Plans for the last three years. Consider which of the listed corrective actions can be measured by a virtual exercise?

3. FEMA HSEEP Templates/Prep Toolkit: Sample documents and guidance for developing and conducting exercises <https://preptoolkit.fema.gov/web/hseep-resources>

Justin Freiler & Kelly Rogers, CSTI

- Still providing courses virtually and working towards in person courses
- In person courses can be requested but must follow health guidelines
- The full catalog is not available at this time
- New training bulletin will be sent out, following an updated website
- Question: The old earthquake class, is the new version online? Yes

CalOES Hazard Mitigation Grant Program: Anthony Roggio, CalOES

- [Slides attached in email invitation]
- Brief overview of the Hazard Mitigation Program
- Program is focused on Natural Disasters and not Man-Made Disasters (ex. Terrorism)

- Question: FEMA GO Application process; experiencing glitches
 - Advised to contact HM for the detailed process
 - <http://www.caloes.ca.gov/hmgrp>
 - Anthony.roggio@caloes.ca.gov

Southern California Edison: Breanna Medina, Senior Manager PSPS Compliance/Incident Operations Business Resiliency

- [Slide presentation attached to email invite]
- SoCal Edison overview
- Preparing for and preventing a PSPS Event
- Edison filing 2022 emergency plan
- 180 Wildfire Cameras have been installed
- Fire Season outlook – Notifications will be made over the weekend
- Contact information: Breanna.medina@sce.com
- Alert Wilfire (cameras): www.alertwildfire.org

Earthquake Warning California: Emily Holland, Public Policy Specialist

- Early earthquake warnings
- Safety precautions during and post-earthquake
- Alerts are available on cell phones
- Myshake App available
- Offering presentations to agencies
- Visit: www.earthquake.ca.gov
- Email: EarthquakeInfo@CalOES.ca.gov

California Adaptation Planning Guide: Kendall Skillicorn, Cal OES

- [Attachment sent with email invitation]
- Adaptation Planning Guide overview
- Kendall.skillicorn@caloes.ca.gov

Round Table

- San Luis Obispo
- Santa Barbara, Kelly Hubbard
 - Reaching out to the community
 - Seeking guidance and practices to assist with the colleges
- Los Angeles, Jennifer Lazo
 - Remain activated for COVID-19
 - Will remain activated for Presidential Election and civil unrest
- Riverside, Mark Bassett

- Orange to Purple
- EOC Deactivated
- Medical Health remains activated
- Apple, Colorado, Snow fires
- Continuing to watch burn areas
- Elections arriving – plans for reaction to civil unrest
- San Bernardino, Dan Munoz
 - COVID-19 – Integrating with local public health
 - Formulating a watershed task force to watch burn areas
 - Preparing for civil unrest due to presidential election
- Inyo County, Kelley Williams
 - Currently experiencing unhealthy air quality – smoke
 - Outputting public information about masks, group gatherings; Halloween, holiday gatherings, etc.
- Imperial County, Salvador Flores
 - Remains activated in preparation for borders opening
 - Continuing to slowly reopening county
- State Agencies/Cal OES Sections
 - Cindy Logan, Cal OES Grants
 - Grants updated statuses
 - Application deadline is October 30th for grants
 - Added staff to PSPS team
 - Question: Will only 1 city per county be approved again similar to last year? – Contact them for further details in the near future.
 - Benton Best
 - Hi folks, we need to hop off for another meeting, however...Cal OES Community Planning Unit (CPU) is now accepting submissions of Best Practices/Lessons Learned for LOCAL EMERGENCY OPERATIONS PLANS. Please send any submissions to CommunityPlanning@CalOES.ca.gov if you would like us to share best practices with others in the state.

Closing Remarks: Dan Weiss, Deputy Regional Administrator

- Open positions for MARAC
- Next MARAC Meeting is **January 28, 2021**

1124hrs., Meeting Adjourned

CalOES Branch Updates

October 22nd, 2020

Southern Region

- Acting Deputy Director of Response Eric Lamoreaux left us in August, and is now working for Pacific Gas and Electric.
- As a result, Cal OES Response's Organization Chart was changed, with an Assistant Director of Response Sherri Sarro inserted over Southern Region.
- Another Assistant Director of Response, Mike Massone was inserted over Coastal and Inland Regions.
- Sr. ESC Doug Huls has begun his journey toward retirement, which will occur in December.
- San Bernardino, Los Angeles, and San Diego were included last week in a Presidential Declaration of Major Disaster for their recent fires.
- The Southern REOC remains in standby for any Southern California disaster.

Earthquake Early Warning Update

- Cal OES launched Earthquake Warning California's – "Don't Get Caught Off Guard" education and outreach campaign October 1, 2020. The campaign launched with comprehensive communications support. The "Don't Get Caught Off Guard" campaign directs Californians to no-cost tools, resources, and information, including the smartphone MyShake App, Android Earthquake Alerts, Wireless Emergency Alerts (WEAs), third party educational resources, and the Earthquake Warning California website, www.earthquake.ca.gov
 - Campaign elements include:
 - Research - Focus groups and quantitative surveys
 - Paid media - Direct online paid advertising, accompanied by television to extend reach to broader and hard to reach audiences, and targeted use of social media to increase awareness of the early warning system
 - PR/Earned Media - Public relations, earned media, and organic social media will support, augment and expand messaging.
 - Community Engagement and Partnerships – Partnerships with third party organizations; providing them with tools and messages to expand reach to key audiences, including coordinating virtual events and providing ongoing news and information.

- Cal OES continues to support the build-out of the backbone of the California earthquake early warning system with PSC, UC Berkeley, USGS and other partners.

Regional Disaster Medical Health Coordination

Region I:

- Region I continues to implement the Salesforce/CalOES med/health resource request system.
- Region I is involved with COVID vaccine and Flu vaccine planning.
- The Remdesivir COVID medication is no longer considered a scarce resource allocated by public health. Hospitals are ordering directly from the manufacturer.
- Federal partners from Operation Warp Speed are facilitating public outreach efforts to encourage people who have recovered from COVID to donate their plasma.

Region VI:

- Revising the Region I and VI inter-regional mutual agreement originally signed in 1997. The Agreement is currently being circulated for approval signatures.
- Region VI working closely with California Department of Public Health (CDPH) to integrate use of Salesforce as a resource request tool at the facility level. Region VI has developed a concept of operations (CONOPS) in order to facilitate a smooth transition for medical and health partners.
- Region VI continues to house Federal Medical Stations (FMS) and will retain as regional assets.
- Currently working with Region VI MHOACs distributing allocations of the Abbott BinaxNOW testing kits.

Alert and Warning

General Information:

- A number of Alerts and or Warnings sent out for fires, COVID and multitude of other incidents over the last few months.
- In some cases the alerts did not go out as planned, some had bleed over into other jurisdictions and some were received multiple times by the same device.
- The Cal OES Alert and Warning program is tracking those instances and is currently working with the FCC, FEMA and the cellular carriers to address these issues.
- If you have experienced any of these issues please contact the Alert and Warning Coordinator so we can gather some information and pass on to our SME's that researching the anomalies.
- Remember to do your Mandatory Monthly testing of your IPAWS system, if you have any questions on how to complete the testing please reach out to the Alert and Warning Coordinator and we would be happy to provide assistance.

Training Opportunities:

- The CalOES California State Warning Center and FEMA will host a series of alert and warning webinars and training.
- The training is based on the two overviews attached and will be made available to 30 participants at a time virtually throughout the state.
- FEMA is providing a registration for the trainings through an Eventbrite link and we will be tracking each jurisdictions participation.
- This opportunity will help better educate the Alerting Authorities in our state, the training will be instrumental in helping to ensure that our Jurisdictions are trained and ready to Alert their constituents should the need arise.

The dates are listed below for the first training efforts.

- Pre-Workshop Webinar: Wednesday, November 18th from 10 to 11am Pacific.
- Two Day Workshop Delivery: Wednesday and Thursday, December 2nd and 3rd from 8am to 12:30 Pacific.
- Post-Workshop Webinar: Wednesday, December 16th from 10 to 11am Pacific.
- Here is the registration link: <https://fema-alert-and-warning-ta.eventbrite.com>

Training Overview:

- To help jurisdictions implement more effective notifications to the public, the Federal Emergency Management Agency (FEMA) National Integration Center (NIC) has developed a technical assistance workshop to support jurisdictions with improving the speed, reach, and effectiveness of A&W messages.
- The A&W Workshop is an interactive process that succeeds through the commitment from FEMA and the TA participants.
 - FEMA will support participating jurisdictions through a structured applied-learning process, with access to subject matter experts, technical feedback, and coaching.
 - Participant success is dependent on active engagement in all TA sessions, completing research assignments, and peer-to-peer discussions.
 - Participants should include those with a role in communicating protective action guidance to the public immediately preceding and during an event. Including emergency managers, public information officers, social media communicators, and public outreach coordinators.
 - This TA is designed to support participants from a mix of jurisdictions.

At the conclusion of this TA, participants will have developed jurisdiction-specific strategies to:

- Reduce process delays in issuing A&W messages, including clarifying issuing authorities and approvals for pre-scripted templates.
- Leverage the range of available communication channels to reach everyone in the community, including those with access and functional needs.

- Incorporate social science research on how to structure an alert message to maximize public action, including vulnerable populations.
- Develop a social media plan with trusted community leaders to maintain accurate public information and correct misinformation.
- Coordinate with neighboring jurisdictions.

Format and Timeline:

Adapted for a virtual delivery, this TA includes:

- A pre-TA webinar to review the delivery objectives and to explain participant assignments.
- Two half-day TA sessions with breakout activities and discussions.
- A post-TA webinar to share implementation strategies.

If you have questions or want to learn more about participating in this TA opportunity, please contact FEMA-TARequest@fema.dhs.gov.

CSTI – Emergency Management

- 95% complete on updates to all curriculum
 - Updates to examples, activities, and case studies.
 - Update to PowerPoint Presentations
 - 508 Compliance
- Developed Virtual Training Plans for all EM Courses
- Successfully delivered 2 Virtual Courses, G626 EOC Action Planning and G290/291 Basic PIO JIC/JIS, and currently conducting a BPIO for Sacramento County OES Virtually.
- Scheduling the delivery of courses throughout the regions with available funding.
- Scheduling additional Virtual Instructor Lead Courses throughout the State.
- Reopening Plan in place and practicing
 - piloting the Delivery of a G775 and G191 with the reopening plan requirements
 - piloting the Delivery of a G205 Recovery with the reopening plan requirements
- Virtual Requirements for Virtual Instructor Lead course for Outreach established and sent out
- Piloted the virtual instructor lead ICS 300 course
- Continue working with Utilities on Training and Exercises
- EOC Positions Credentialing applications are still being submitted, reviewed, and approved.
- Specialist Certificate Program is still receiving applications

Emergency Management Systems Unit

- Request for Information (RFIs) for the COVID AAR and 2020 July/August/September Statewide Fires have been sent out to the OAs, State agencies, ESF partners, and Cal OES internal partners. Any questions related to the AARs can be sent to SharedMail.CalAAR@CalOES.ca.gov.
- Emergency Management Systems Unit (ESMU) AAR team is currently developing the framework for the COVID AAR and will be using the phased approach for the first six months of the response phase and then continue to update the AAR thereafter based on the guidance from Cal OES Executives.
- Assembly Bill 3267 has been approved by the Governor filed with Secretary of the State. Beginning January 1, 2021, the requirement for a state AAR has been increased from 120-days to 180-days. See Section 8607 (f) for the Government Code amendment.

Law Branch

- Assisted Imperial County with coroner's mutual aid for COVID-19/mass fatality
- Assisted Imperial County on the Niland Fire
- Assisted Riverside/San Bernardino County with the Apple Fire
- Participated in debriefing/lessons learned training on the June 2020 Riots
- Assist San Diego Sheriff's Office with multi day SAR
- Assisted San Bernardino/Riverside counties with the El Dorado Fire
- Valley Fire in San Diego County with evacuations
- Snow Fire in Riverside County with evacuations
- Bobcat Fire in Los Angeles County threatening communities in San Bernardino County, monitoring

Fire Branch

- Fire Management Assistance Grants applicant briefings (FMAG) are ongoing currently virtual meetings only.
- California Wildland Coordination Group will advertise for Incident Management Teams participation 2021 in November.
- Current ongoing assignments include personnel assisting wildland fires throughout the state. We also have personnel assigned for the COVID-19 Response at Headquarters.
- The Cal OES Preposition Program has been very successful and the Fire & Rescue Division is prepared for the upcoming Santa Ana season.
- The California Fire Assistance Agreement (CFAA) Committee continues to meet and discuss potential changes to the agreement.
- Fire & Rescue Division are finalizing agreements for assignees for additional fire apparatus to the California State Mutual Aid System. There will be 27 Type 3 wildland engines and 79 Type 6 wildland and all hazard engines added to the Fire & Rescue Division fleet. Delivery of new apparatus is ongoing.

- Personnel news announcement the Deputy Chief, Northern Operations, Vernell Brothers and Deputy Chief Fleet, Mitch Higgins started in their new positions on August 17, 2020.

Legislative

- The California Senate and Assembly 2019-20 Session ended on 8/30/20. As of 9/30/20 Governor Newsom signed and/or vetoed all bills that came across his desk.
- A total of 428 bills made it to Governor Newsom's desk this year. 372 were signed and 56 were vetoed.
- Cal OES Legislative Affairs and External Affairs (OLEA) submitted a total of 14 Enrolled Bill Reports (EBR's) to the Governor's Office.
- OLEA continues to hold COVID-19/Wildfire Statewide Coordination Calls on Monday's and Thursday's each week.
- OLEA sends out a Key Messages document Monday-Friday with updated information on all ongoing disasters.
- OLEA continues to report out and participate in all relevant SOC meetings for both COVID-19 and the wildfires.
- If there are any questions or if additional information is requested, please reach out to legislativeaffairs@caloes.ca.gov

Private Sector/NGO

- Led the Contributions Working group within the Logistics and Commodities Movement Task Force. Working group was instrumental in the development and implementation of the Salesforce / Cal OES website for PPE procurement, validation, shipping and tracking. Reviewed incoming offers for procurement and donation from the State of California COVID-19 website and delegated to partner state agencies.
- In coordination with the GO-Biz Office of Small Business Advocate, reviewed and processed PPE requests for California workers from eligible statewide trade associations, small business / economic development centers and chambers of commerce.
- Coordinated 94 large corporate donations of PPE related to COVID-19 response with an estimated value of approximately \$43,000,000.

Tribal

- The Office of Tribal Affairs (OTC) has been monitoring fire and PSPS activity in Regions I and VI.
 - No specific action were required from OTC for the Apple, El Dorado, or Valley fires.
- OTC continues to monitor for new fires and PSPS events that will impact tribes in both regions.
- OTC has been monitoring COVID-19 infections and activity throughout the state.

- PPE resource distribution to tribes within both regions continues in a limited capacity.
- OTC is holding Tribal Assistance Coordination Group (TAC-G) calls weekly to keep tribes throughout the state current on emergency-related activities that impact them.
- OTC is currently working on transitioning to the JFO. Pamela Joe will be primary for the JFO; James Griffith will be primary for the SOC.

Grants Management

Public Safety Power Shutoff (PSPS)

Counties

- County award letters and funding went out the first week of October for the FY 2020-21 PSPS Community Power Resiliency Program.
- \$13 M was shared among all 58 counties.
- Awards were non-competitive and based on population. Counties received ½ of what they received last year.
- Counties are required to use at least 50% of their award to support PSPS resiliency for schools, election offices, food storage reserves, and/or Covid-19 testing sites.
- Counties are required to collaborate with their cities to support critical infrastructure and resiliency county wide
- A progress report is required by 11/30/2021

Other Local

- Cities, tribes and special districts will be a competitive process
- RFPs will be released soon

Additional PSPS Info

- Questions on PSPS should be directed to PSPS@caloes.ca.gov
- Andrea McKee (SSM I) and Joseph Fong (AGPA) hired to complete PSPS assignments and answer PSPS inbox

HSGP/EMPG

- Award letters coming out this month
- Working on a supplement
- Securing dates for workshops. Dates will be announced soon.
- Work with your program representatives

Hazard Mitigation

- Cal OES HMA is working on project reviews under several funding allocations. We are in various stages of our processes for the following: DR4407 Round III, 2020 BRIC/FMA, Post-Fire FMAG 5293 Round I and II, and DR4558

- 11/20/2020 – DR4558 HMGP NOI deadline. To submit your interest in the program, please visit www.caloes.ca.gov/hmgp to submit a Notice of Interest for your project.
- 12/03/2020 – BRIC/FMA sub applications due by noon – Submission via eGrants for sub applicants with approved NOIs
- 1/27/2021 – PF5293 Round II sub applications due for sub applicants with approved NOIs

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Hazard Mitigation Grant Program Overview

What is Hazard Mitigation?

- **Hazard mitigation** is defined as any sustained action taken to reduce or eliminate long-term risk to life and property from natural hazard events.
- This is an on-going process that occurs before, during, and after disasters and serves to break the cycle of damage in **hazard-prone** areas.

MITIGATE HAZARDS

Hazard Mitigation Grant Program (HMGP) Overview

- Goal:
 - To implement mitigation measures that reduce loss to life and property from future disasters
- Projects must implement long-term stand alone risk reduction strategies
- Creation of or updating current single jurisdiction or multi-jurisdiction Local Hazard Mitigation Plans (LHMP)

Where does HMGP come from?

1. Major disaster declaration is first approved by the POTUS
2. Damages are assessed and valued
3. As an *Enhanced State*, Cal OES will receive 20% of the total eligible damages to put towards HMGP projects
4. Funding is allocated to the State (Cal OES) by FEMA, then to local jurisdictions when projects are approved

Example:

Eligible Disaster Damages = \$100M

HMGP Total Available = \$20M (20%)

- Planning Project Category = \$1.4M (7%)

- Initiative Project Category = \$1M (5%)

Cal OES HMA Priority List

(In Order of Importance)

1. Local Hazard Mitigation Plans (LHMP)
 - I. New LHMPs or updates to LHMPs that will expire within 24 months
 - II. All other LHMP updates
2. Shovel ready projects with a high level of design that can begin construction within 90 days of FEMA approval, in declared counties.
3. Shovel ready projects with a high level of design that can begin constructions within 90 days of FEMA approval, in all other counties.
4. Whole community risk reduction/large critical infrastructure projects
 - I. Wildfire risk reduction will receive higher prioritization
 - II. All hazard types eligible
5. Wildfire projects in DR-4558 declared counties
6. All hazard type projects in DR-4558 declared counties
7. Wildfire projects in any county
8. All hazard type projects in any county
9. Planning related activities
10. Five percent (5%) Initiative projects

Fire Mitigation Project Types

Related to Before & After Effects of Wildfires

- Ignition-resistant construction
- Defensible space measures
- Hazardous fuels reduction
- Flood diversion and storage
- Replanting/reforestation
- Drainage improvements
- Soil stabilization
- Erosion control

Post-Wildfire Mitigation

- Soil stabilization measures
- Erosion control
- Flood control and drainage improvements
- Storm water management
- Increase debris basin capacity
- Removal of standing burned trees
- Replacement of burned/contaminated water systems
- Installation of warning signs
- Noxious weed prevention

Wildfire Mitigation

- Hazardous fuels reduction/vegetation management
 - Within two miles of improved property or critical infrastructure/facilities
- Defensible space
 - Public facilities and infrastructure
 - Private property defensible space programs
- Ignition resistant construction
 - Public facilities
 - Private property programs (eave vents, fire resistant roofing, fire resistant siding)

Green Solutions to Mitigation

- Building Community Resilience with Nature-Based Solutions
 - Flood diversion and storage
 - Floodplain and stream restoration
 - Aquifer storage and recovery
 - Green Infrastructure
- Climate Adaptation Projects
 - Sea level rise
 - Green space for Wildland Urban Interface (WUI) areas

Building Community Resilience with Nature-Based Solutions

- Floodplain and stream restoration
- Aquifer storage and recovery
- Flood diversion and storage
- Green infrastructure

Other Eligible Project Types

- Localized/Non-localized flood risk reduction
- Structural retrofitting of existing buildings
- Post-disaster code enforcement
- Floodplain/stream restoration
- Aquifer storage and recharge
- Flood diversion and storage
- Elevations and acquisitions
- Infrastructure retrofitting
- Critical facility generators
- Mitigation reconstruction
- Drainage improvements
- Green infrastructure
- Culvert upsizing
- Floodproofing
- Flood control

5% Initiative

- Project types that cannot be evaluated using traditional cost effectiveness methodologies
- 5% relates to the percentage of total HMGP funds made available for these project types
- Must be consistent with goals and objectives of State mitigation plans
- Must meet all HMGP eligibility requirements
- Benefit Cost Analysis (BCA) not required
 - **BUT a narrative of cost effectiveness is required**
- 5% Wildfire Examples: Early Warning Systems, LiDAR, Risk/Hazard Identification and Mapping

WIRELESS
EMERGENCY
ALERTS

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Most Common 5% Initiative Projects

Earthquake Early Warning System

Critical Facility Generators

Ineligible Activities

- **Projects for which actual physical work has occurred prior to approval and obligation**
- Projects that do not implement a long term stand alone risk reduction strategy
- Projects contingent upon another project or action to be effective
- Projects that cannot be completed within 36 months
- Studies or investigations

Ineligible Activities

- Emergency response activities or equipment (e.g. fire engines)
- Flood control projects related to the repair or replacement of dams and other flood-control structures
- Projects that address the operation, deferred/future maintenance, rehabilitation, restoration, or replacement of existing structures, facilities, or infrastructure, without increasing the level of protection

Eligibility Requirements

- Eligible Subapplicants:
 - State Agencies
 - Local Governments: Counties, cities, towns, etc.
 - Special Districts
 - Federally Recognized Tribes
 - Private Nonprofit Organizations (PNPs)

Eligibility Requirements

- MUST have a FEMA-approved and adopted Local Hazard Mitigation Plan (N/A to PNPs)
- 75% Federal Share / 25% Local Cost Share
 - Cal OES does not contribute to the local cost share requirement for HMGP
- 36 month Period of Performance (POP)
 - Begins once the project is approved by FEMA
- Obtain environmental clearances under California Environmental Quality Act (CEQA)
- **NO CONSTRUCTION PRIOR TO APPROVAL**

Cal OES Divisions

- Recovery
 - Disaster Mitigation & Technical Support
 - 404 Hazard Mitigation Grant Program**
 - 406 PA Hazard Mitigation
 - Technical Assistance

Mitigation is the effort to reduce loss of life and property by lessening the impact of disasters. Mitigation is taking action now—before the next disaster—to reduce human and financial consequences later. Effective mitigation requires that we all understand local risks, address the hard choices and invest in long-term community well-being and resilience. Without mitigation actions, we jeopardize our safety, financial security and self-reliance.

As the result of a Presidential Disaster Declaration, FEMA's Hazard Mitigation Grant Program (HMGP) funds plans and projects that reduce the effects of future natural disasters. In California, these funds are administered by the Cal OES HMGP Unit. Eligible subapplicants include state agencies, local governments, special districts, and some private non-profits. To learn more about the HMGP, visit: [FEMA Hazard Mitigation Assistance Guidance](#).

Subapplication Development and Benefit-Cost Analysis Workshops

- Workshops offering training and assistance regarding HMGP subapplications and FEMA Benefit Cost Analysis (BCA) tool for jurisdictions with approved NOIs
- Dates, times, and locations to be determined
- Stay tuned for more information on our website

Additional Funding Opportunities

- Available Fall 2021
- Building Resilient Infrastructure & Communities (BRIC) and Flood Mitigation Assistance (FMA)
- Annual appropriations from Congress
- Competitive nationwide
- Notice of Funding Opportunity (NOFO)
- All subapplications submitted online

PSPS 2020 UPDATES

BREANNA MEDINA

Senior Manager
PSPS Compliance/Incident Operations
Business Resiliency

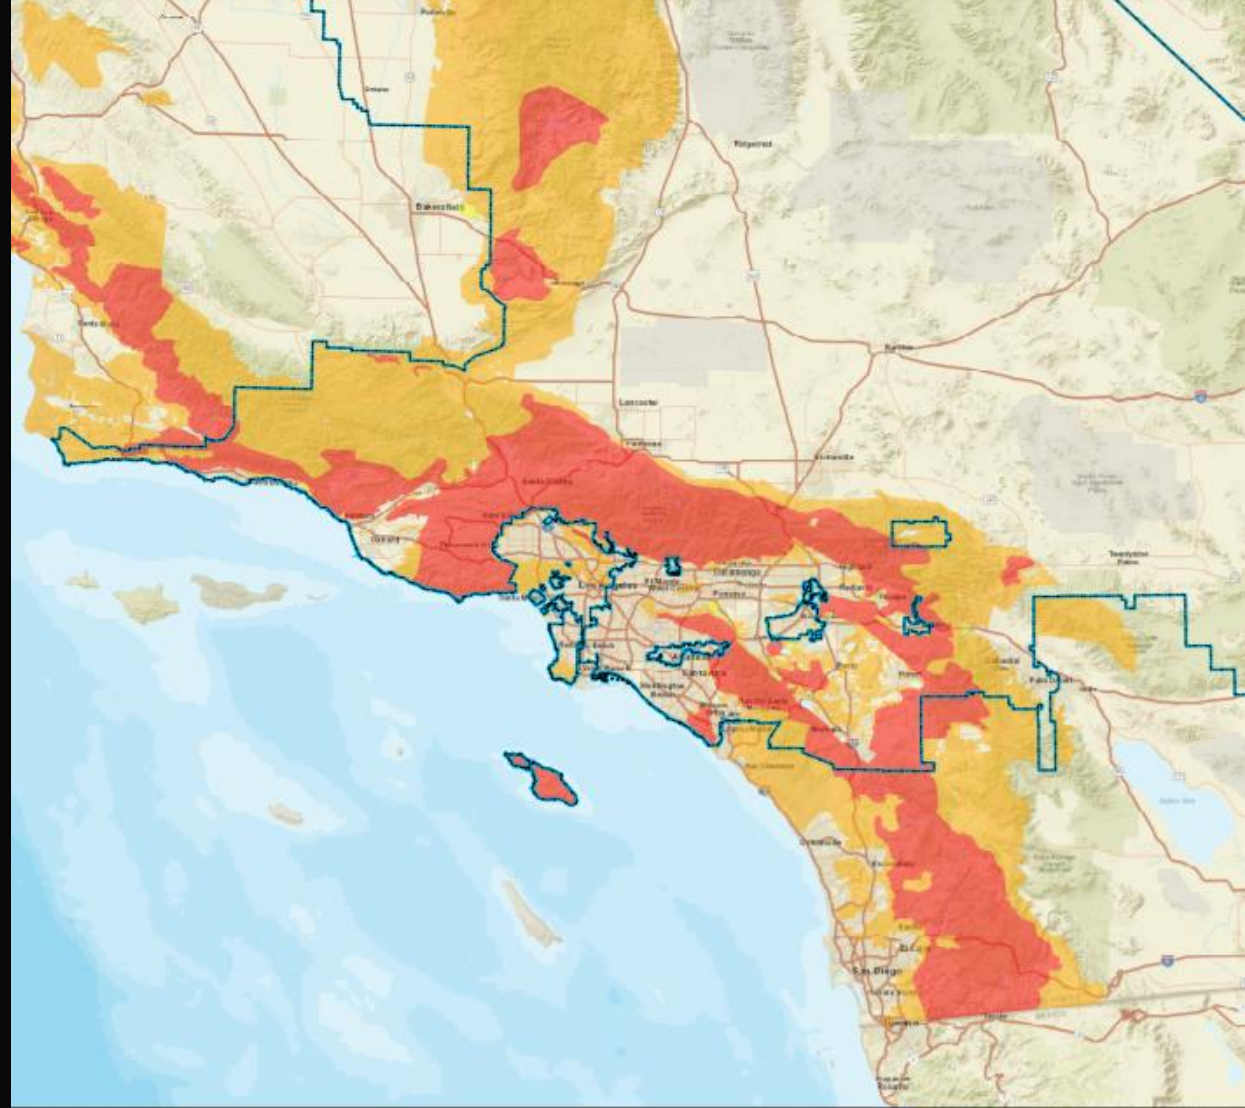

OUR TOP PRIORITY

- The safety and well-being of our **employees, customers** and **communities**
- We can't control the weather, but we can control **how we prepare and respond**

CLIMATE CHANGE

- About a **quarter** of our service territory is considered high fire risk area (HFRA)
- **Five** of the Top 20 largest wildfires in California history have occurred in **2020**
- **Drier** and **hotter** weather increases wildfire impact
- More **fuel** and **longer** fire seasons

SCE High Fire Risk Area (HFRA)

OUR FOUNDATIONAL STRATEGY: TO PREVENT, COMBAT & RESPOND

Bolster Situational
Awareness Capabilities

Enhance Operational
Practices

Harden the
Electric Grid

WHAT OUR WILDFIRE MITIGATION PLAN INCLUDES

Our WMP includes an **actionable**, **measurable** and **adaptive** plan to:

- Reduce the risk of potential **wildfire causing ignitions** associated with SCE's electrical infrastructure in high fire risk areas
- Reduce the **impact of PSPS** to our customers and communities
- Incorporate **risk analysis** to guide planning and prioritization
- Advance **new technologies** and data analytics capabilities
- Effectively **engage the public** about how to prepare for, prevent and mitigate wildfires
- Improve **coordination** between utility, state and local emergency management personnel

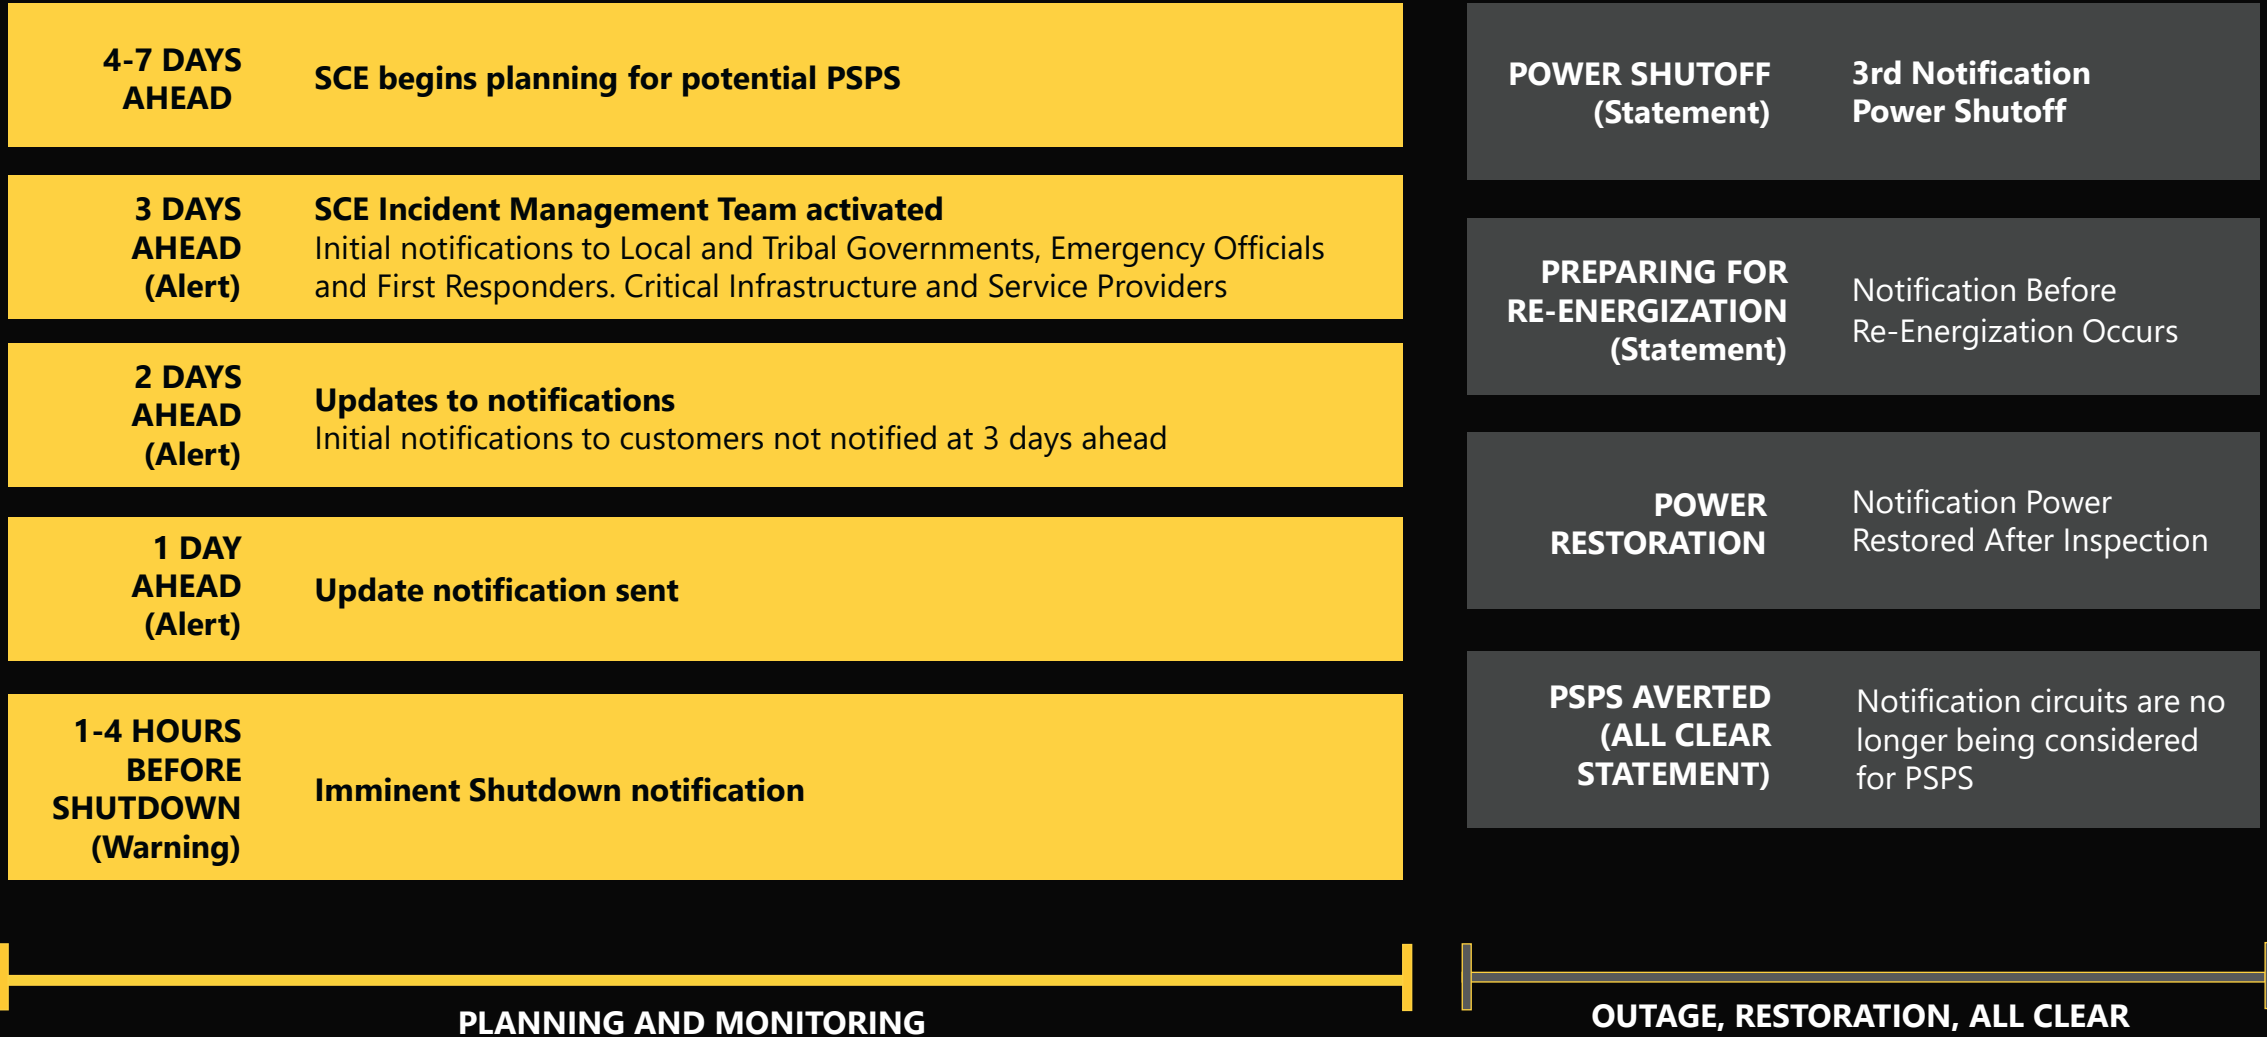

WHAT IS A PUBLIC SAFETY POWER SHUTOFF?

When there are potentially dangerous weather and fuel conditions, we may need to call a **Public Safety Power Shutoff (PSPS)** event. During a PSPS event, we will proactively turn off power in high fire risk areas to reduce the threat of wildfires.

- PSPS **reduces wildfire threat** during dangerous weather and fuel conditions by shutting off the power to individual circuits to prevent ignitions
- Intended to **keep communities safe** in high fire risk areas
- Multiple notification methods to notify impacted customers — before, during and after the event

PSPS PROTOCOL TIMELINE

SCE will target the schedule above to notify customers. Sudden onset of hazardous conditions that jeopardize public safety may impact SCE's ability to provide advanced notice to customers. Notifications can be provided via email, text, voice call, and TTY formats; zip code-level alerts; and NextDoor.

EARTHQUAKE
WARNING
CALIFORNIA

Don't Get Caught Off Guard

A Walkthrough of Earthquake Warning California
Tools and Resources

“Don’t Get Caught Off Guard” Campaign

- 2-year campaign to promote earthquake warning tools and Cal OES resources:
 - Advertising to promote Earthquake Warning California
 - Public education
 - Outreach to business and community partners
 - Media engagement
- Cal OES is engaging with a variety of partner organizations to present Earthquake Warning California information, share materials, and distribute information as widely as possible.
- Sample sector specific newsletters and factsheets are available on the website in addition to general materials about the systems and earthquake preparedness.

Earthquake Warning California

Earthquake Warning California is the state's **earthquake early warning system**, which provides tools and resources to warn Californians before they feel shaking.

The system relies on **innovative technology** that sends warnings to smartphone applications, operating systems, and Wireless Emergency Alerts (WEA).

The app is **not an earthquake predictor**, it signals when seismic sensors pick up on shaking.

It can help the public, first responders, utility providers, transit systems and other key industrial and business sectors **take actions to save lives**.

Visit www.earthquake.ca.gov to learn more.

MyShake App

MyShake is an app for mobile devices that uses ground motion sensors from across the state to detect earthquakes before humans can feel them.

It warns Californians to “**Drop, Cover, and Hold On**” in advance of an earthquake, if they are near where the shaking is happening.

Download the app for free via Google Play or the Apple App store.

Location services must be set to “always on” to allow the app to provide warnings.

Data is collected by UC Berkeley to show trends and improve app earthquake monitoring, with **no personal or identifying information taken from users**.

The screenshot shows the 'NOTIFICATIONS' section of the MyShake app. At the top right, there is an 'EDIT' link. Below the header, the section is titled 'EARTHQUAKE WARNINGS'. The main content area contains the following text: 'Alerts delivered in California for Magnitude 4.5 and higher earthquakes in light to heavy shaking areas.' Below this, it states: 'Locations services must be on to receive alerts, only approximate locations are used (currently off)'. A green button labeled 'Click for Alert Sound' is positioned below the text. At the bottom of the content area, it says 'Powered by' followed by the 'EARTHQUAKE WARNING CALIFORNIA' logo and the 'ShakeAlert' logo. Below the main content area, there is a section titled 'RECENT EARTHQUAKE EVENTS'. Underneath, it says 'Events may take a few minutes to hours to arrive'. There is a toggle switch for 'Global' which is currently turned on. Below the toggle, it says 'MAGNITUDE 3.5 and above'. At the bottom of the app interface, there is a navigation bar with five icons: 'Recent', 'MyShake Data', 'My Log', 'Notifications', and 'More'.

Android Earthquake Warnings

- Google partnered with the United States Geological Survey (USGS) and Cal OES to include built-in **earthquake warning technology** in its Android phones beginning in August 2020.
- The capability is included in **new phones** and **operating system updates** so warnings will be sent out to all California Android phones unless the user chooses to “opt-out”.
- Android Earthquake Warnings are generated by the same system powering Earthquake Warning California.

Wireless Emergency Alerts

ALERTING THRESHOLDS

INTENSITY	SHAKING
I	Not felt
II	Weak
III	Weak
IV	Light
V	Moderate
VI	Strong
VII	Very Strong
VIII	Severe
IX	Violent
X	Extreme

 **WIRELESS EMERGENCY ALERTS**
WEA used in response to magnitude 5.0 earthquake to people who will experience shaking level IV (light) or greater.

 **MyShake**
MyShake alerts used in response to magnitude 4.5 earthquake to people who will experience shaking level III (weak) or greater.

android 
Android alerts used in response to magnitude 4.5 earthquake to people who will experience shaking level III (weak) or greater.

Wireless Emergency Alerts (WEA) send geographically targeted, text-like messages to mobile devices to warn users of imminent threats in their area.

Authorized national, state, or local government authorities can send WEA warnings for incidents such as Amber Alerts, severe weather warnings, or **earthquakes with a magnitude greater than 5.0.**

Users must **“opt-in”** on their mobile device settings to allow WEA notifications.

Using Earthquake Warning California Resources

1

Download the MyShake App and **enable WEAs** and/or **Android Earthquake Alerts** on mobile devices. Be among the first “citizen scientists” to receive earthquake warning information and help build a comprehensive seismic monitoring network.

2

Visit www.earthquake.ca.gov to see the latest news and information to help promote earthquake warning resources across California.

3

Help spread the word by signing up to receive our partner toolkits and materials to share – email earthquakeinfo@caloes.ca.gov. Toolkits contain newsletter content, social media posts, imagery, and the latest news from Cal OES that organizations can tailor for their audiences.

**EARTHQUAKE
WARNING
CALIFORNIA**

CALIFORNIA ADAPTATION PLANNING GUIDE

MARAC – Region I & VI

October 22, 2020

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Case for Climate Adaptation

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

What is the APG?

- Originally released in 2012. This version (June 2020) is the first update.

What is the APG?

- Adaptation planning resource for city, county, tribal, and regional agencies and collaboratives in California.
- Designed to support communities to integrate adaptation and resilience planning into their planning efforts.

What is the APG?

- References the most recent climate science and provides resources to obtain data and use California-specific climate science tools.
- Resource to complete a vulnerability assessment and develop and implement an adaptation framework that can be used in a variety of local government plans.
- Integrates equity and outreach into all phases of climate adaptation planning.

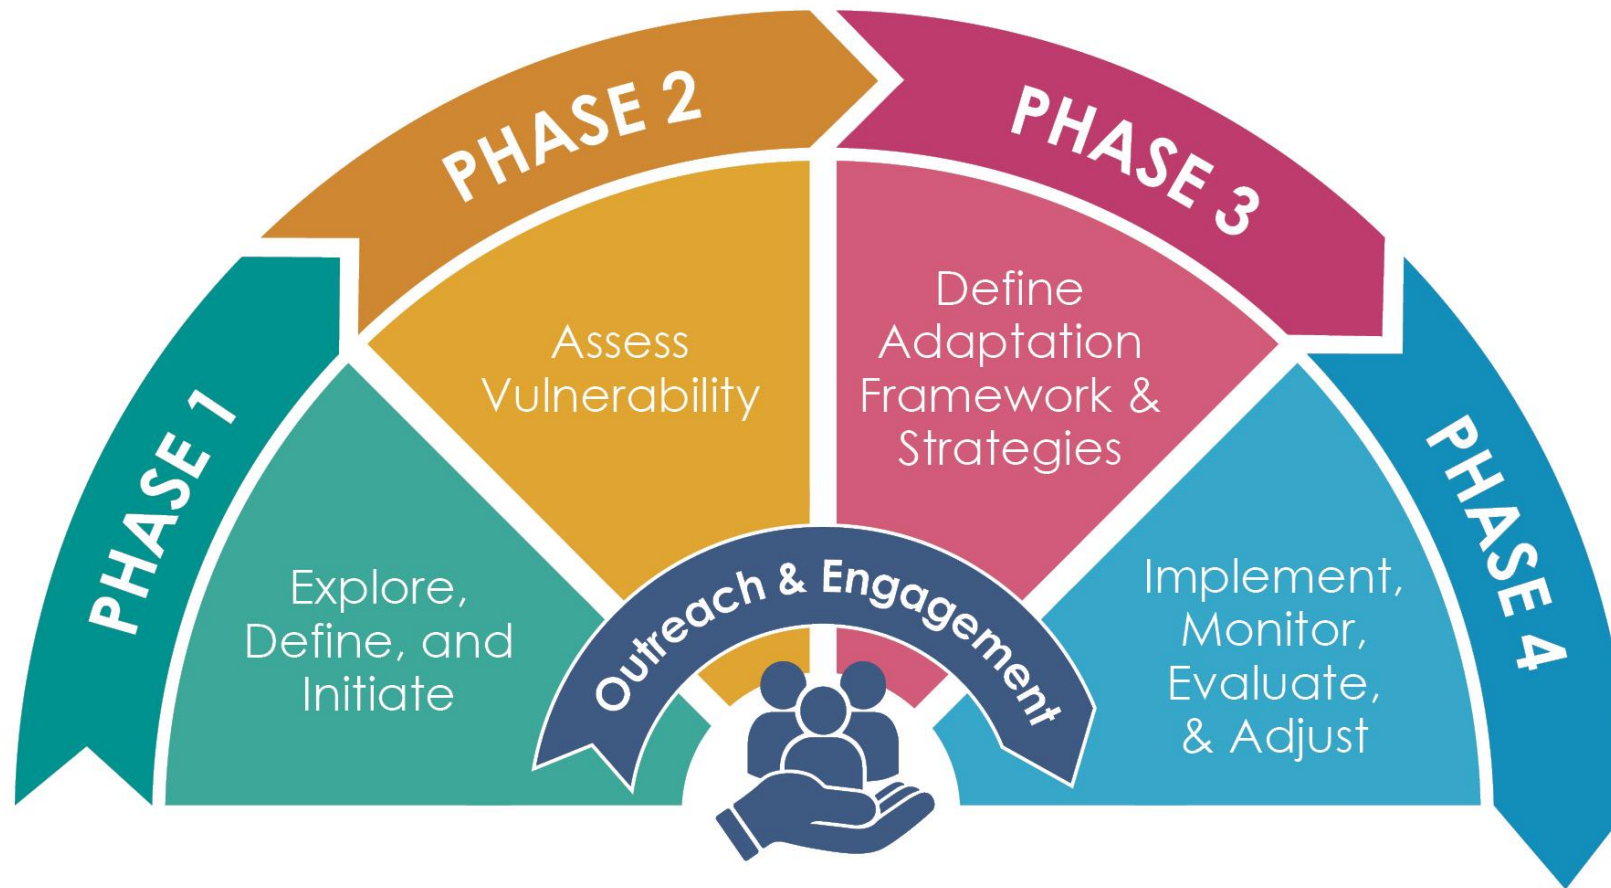

Goals for updated APG

- Update and integrate new state resources, updated science, and best practices into adaptation planning process.
- Provide resources on alignment and integration with other local and state adaptation planning efforts.
- Present options, consistent with state process and best practices, to meet newer state requirements like Senate Bill 379 and 1035.
- Integrate equity and outreach into all phases.
- Integration into the Adaptation Clearinghouse.

APG – Four-Phased Planning Process

Resource for All

- Easy to Use
- Step-by-Step Process
- Latest research and science
- Highlights planning overlaps, and how to incorporate adaptation planning into other plans

Where to find it

- The Adaptation Planning Guide can be found here: www.caloes.ca.gov/climate
- California Adaptation Clearinghouse: <https://resilientca.org/>
- Preview it here: dev.resilientca.org

Emergency Management Council and Operational Area Executive Board

Date: November 18, 2020

Agenda Item: #17

TO: Chairperson and Members of the Operational Area Executive Board

FROM: Fred Selayandia, Emergency Management Division

SUMMARY: Multi-year Training and Exercise Plan

Narrative:

The Orange County Operational Area (OA) and Anaheim/Santa Ana Urban Area Security Initiative (UA) are committed to a consistent and inclusive approach to ensuring that all stakeholders have the training they need to save lives, protect public health and safety, and to protect property and the environment.

One tool to accomplish this goal is the Multi-year Training and Exercise Plan (TEP). The Multi-year TEP lays out a combination of progressive knowledge, skills, and ability building exercises along with the associated training requirements which address the priorities identified by local response agencies. The U.S. Department of Homeland Security (DHS) requires that every State and Urban Area receiving grant funds conduct an annual TEP Workshop (TEPW) and create a TEP. The OA and UA conducted its annual TEPW on August 6, 2020 to revise the TEP.

Attached is the final document which compiles feedback from jurisdictions within Orange County regarding emergency management related training and exercises they anticipate conducting during the next five years. In compliance with established state deadlines, this Multi-year TEP was submitted to the California Office of Emergency Services on October 1, 2020.

Fiscal Impact: Not Applicable

Recommended Action: Receive and file

Report Prepared By:

//Fred Selayandia//
Fred Selayandia, Senior Emergency Management Program Coordinator

Report Approved By:

Donna Boston, Director of Emergency Management

Orange County Operational Area & Anaheim/Santa Ana Urban Area

Multi-year Training and Exercise Plan

2020-2024

PREFACE

Orange County Operational Area (OA) and Anaheim/Santa Ana Urban Area Security Initiative (UA) are committed to a consistent and inclusive approach to ensuring that all stakeholders have the training they need to save lives, protect public health and safety, and protect property and the environment. One tool to accomplish this is the Multi-year Training and Exercise Plan (TEP). The U.S. Department of Homeland Security (DHS) requires that every State and Urban Area receiving grant funds conduct a TEP Workshop (TEPW) and create a TEP and annually. The OA and UA conducted their 2020-2024 Multiyear TEPW on August 6, 2020 to revise the TEP and identify program area priorities for the plan period.

Training

A core set of National Incident Management System (NIMS) based training is supported on an ongoing basis. These include Federal Emergency Management Agency ICS courses, Incident Management Team courses, and department/emergency operations center position specific training. Additionally, discipline-specific, group training is presented for consideration to the Urban Area Working Group (UAWG). These trainings are compiled into the TEP.

Exercises

The OA/UA endeavor to develop and deliver a robust program of exercises to enhance first responder skills in preparing for, preventing, mitigating, responding to, and recovering from local hazards. The types of exercises may include facilitated policy discussions, seminars and workshops, tabletop exercises, modeling and simulation, drills, functional exercises, and full-scale exercises. By including them in the TEP, jurisdictions within the OA/UA can avoid competing exercises and coordinate participation to leverage learning opportunities.

Multi-year Training and Exercise Plan

The TEP is jointly administered by the OA and UA. Once completed, the TEP assists to prepare the OA/UA to optimally address both the natural and technological hazards it faces. This is a living document; it is not intended to be the exclusive listing of training and exercises available or permitted. Flexibility in hosting classes and exercises to incorporate current events and hazards is required to ensure that first responders have the skills they need to save lives, protect public health and safety, and protect property and the environment.

ADMINISTRATIVE HANDLING INSTRUCTIONS

The information gathered in this plan is “For Official Use Only” and should be handled as sensitive information. Reproduction of this document, in whole or in part, without prior approval by the County of Orange or the Anaheim/Santa Ana Urban Area Security Initiative is prohibited. The attached materials will be disseminated only on a need-to-know basis.

This document was prepared under a grant from FEMA’s Grant Programs Directorate, U.S. Department of Homeland Security. Points of view or opinions expressed in this document are those of the authors and do not necessarily represent the official position or policies of FEMA’s Grant Programs Directorate or the U.S. Department of Homeland Security.

POINTS OF CONTACT (POCs)

Orange County Operational Area (OA) Training and Exercise Point of Contact:

Name: Frederick B. Selayandia
Office: Orange County Sheriff’s Department, Emergency Management Division
Title: Senior Emergency Management Program Coordinator
Address: 2644 Santiago Canyon Road, Silverado, CA 92676
Phone: 714-628-7054

Anaheim/Santa Ana UASI Training and Exercise Point of Contact:

Name: Sergeant Roland Andrade
Office: Santa Ana Police Department, Homeland Security Division
Title: UASI Training and Exercise Coordinator
Address: 60 Civic Center Plaza, Santa Ana, CA 92701
Phone: 714-245-8720

PURPOSE

The purpose of the TEP is to document an organization's overall training and exercise program priorities for a specific multi-year time period. It is considered to be a living document that can be updated and refined annually. These priorities are linked to corresponding core capabilities, and, if applicable, a rationale based on existing strategic guidance, threat assessments, corrective actions from previous exercises, or other factors. This Multi-year TEP identifies the training and exercises that will help the organization build and sustain the core capabilities needed to address its training and exercise program priorities.

The Multi-year TEP lays out a combination of progressively building exercises – along with the associated training requirements – which address the priorities identified by local response agencies during the TEPW. A progressive, multi-year exercise program enables organizations to participate in a series of increasingly complex exercises, with each successive exercise building upon the previous one until mastery is achieved. Further, by including training requirements in the planning process, organizations can address known shortfalls prior to exercising capabilities. A Multi-year TEP also serves as a follow-on companion document to the OA/UA Homeland Security Strategy, and can provide a roadmap for OA/UA to follow in accomplishing the priorities described therein.

Included in this Multi-year TEP is a training and exercise schedule, which provides a graphic illustration of the proposed activities scheduled for the years 2020-2024.

PROGRAM PRIORITIES

This document integrates existing strategy documents (e.g., OA/UA Homeland Security Strategy), threat and hazard identification and risk assessments, capabilities assessments, and past After-Action Reports (AARs) and Improvement Plans (IPs) to inform the development of the priorities. Specifically, during the August TEPW, participants reviewed:

- County and Operational Area Hazard Identification and Analysis, Unified County of Orange and Orange County Operational Area Emergency Operations Plan, February 2019
- FEMA Mission Areas and Core Capabilities, <https://www.fema.gov/emergency-managers/national-preparedness/mission-core-capabilities>, updated July 20, 2020
- Orange County Operational Area & Anaheim/Santa Ana Urban Area: Multi-year Training and Exercise Plan, 2019-2023

These documents allowed the group to meet the following activity objectives:

- Review and discuss core capabilities and select capabilities to develop
- Identify future training and exercises based on selected capabilities
- Develop a training and exercise schedule

Terrorism Prevention

Enhance information sharing and coordination between Federal, State, and local law enforcement jurisdictions to respond effectively to terrorist threats.

Corresponding Core Capabilities:

- Intelligence and Information Sharing
- Situational Assessment
- Screening, Search, and Detection
- Risk Management for Protection Programs and Activities
- Physical Protective Measures

Rationale:

- FY2020 HSGP Investment Justifications Area 1) Enhancing cyber security (Including election security 2) Enhancing the protection of soft targets/crowded places (including election security 3) Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS, and 4) Addressing emerging threats (e.g. transnational criminal organizations, weapons of mass destruction [WMDs], unmanned aerial systems [UAS], etc.)
- 2019/2018/2017/2016 Threat and Hazard Identification and Risk Assessment
- 2013 Anaheim/Santa Ana Urban and Orange County Operational Area Homeland Security Grants Strategy
- President's Commission on Law Enforcement and the Administration of Justice Homeland Security Working Group
- FBI Public Testimony: Counterterrorism Division (CTD) Assistant Director Jill Sanborn, House Committee on Homeland Security, Subcommittee on Intelligence and Counterterrorism. "Orange County Fusion Center assisted in identifying members of a Racially Motivated Violent Extremists group. 27 February 200
- White House: National Cyber Strategy

Supporting Training Courses and Exercises:

- 2-Day EOC's Role In Community Cyber Security (AWR-136 & MGT-384)
- Terrorism Liaison Officer Training (varies)
- Countering Violent Extremism: Fusion Center Outreach
- California Specialize Training Institute (CSTI) Terrorism Series
- Sovereign Citizen Extremists
- Policing Violent Extremism
- Behavioral Threat Assessment: Prevention and the Active Shooter
- Cyber Terrorism and Cyber Threats
- Funding Terrorism and Domestic Sex Trafficking
- Targeted Violence Prevention
- DHS Communications Exercise

Emergency Operations Center Management

Enhance the OA/UA's ability to successfully manage EOC/DOC operations

Corresponding Core Capabilities:

- Operational Coordination
- Operational Communications
- Situational Assessment
- Threats and Hazard Identification
- Risk & Disaster Resilience Assessment

Rationale:

- 2020 COVID-19 Pandemic
- 2020 OC Protests
- 2020 County Functional Exercise
- 2019 AlertOC Regional Test
- 2019 Red Flag-PSPS Event
- 2019 PSPS Event
- 2019/2018/2017/2016 Threat and Hazard Identification and Risk Assessment
- 2019 Power Outage
- 2019 Winter Storms
- 2018 Winter Storms
- 2018 Recovery Functional Exercise
- 2018 Public Information Officer Workshop
- 2018 Southern California Edison Resilient Grid Exercise
- 2018 Holy Fire
- 2018 Aliso Fire
- 2018 Excessive Temperature (Heat) Event
- 2018 Alternate EOC Exercise
- 2018 Mareblu Incident
- 2018 Santiago Incident
- 2019/2018/2017 AlertOC Regional Test
- 2018/2017/2016 Tsunami Communications Drill
- 2018 Excessive Temperature (Cold) Event
- 2018 Tsunami Watch
- 2017 Terrorism Functional Exercise
- 2017 The Great California Shakeout
- 2017 Canyon and Canyon 2 Fires
- 2017 RACES Exercise
- 2017 Cristianitos Fire
- 2017 DHS Recovery Series

- 2017 Health Care Preparedness Exercise
- 2017 Southern California Edison Resilient Grid Exercise
- 2017 Alternate EOC Exercise
- 2017 South Coast Plaza Full Scale Exercise
- 2017 Winter Storms (DR-4305)
- 2016 Quake Ex
- 2016 Newport Beach Maritime Exercise
- 2016 Capstone
- 2016 Vigilant Guard
- 2013 Anaheim/Santa Ana UA and OC OA Homeland Security Grants Strategy

Supporting Training Courses and Exercises:

- OA EOC Orientation, Introduction to SEMS/NIMS Training
- OA EOC Management-Policy Group Section Training
- OA EOC Public Information Officer Training
- OA EOC Operations Section Training
- OA EOC Care and Shelter Branch Training
- OA EOC Medical-Healthcare Branch
- OA EOC Planning and Intelligence Section Training
- OA EOC Situation Analysis Support Staff (SASS) Training
- OA EOC Logistics Section Training
- OA EOC Finance and Administration Section Training
- OA EOC Support: Messengers, Hotline, and Documentation Training
- WebEOC Training
- AlertOC Training: Group/Contact Management and Internal Notification, Public Notification, & Incident Communications
- OC Family Assistance Center (FAC) Training
- OC Local Assistance Center (LAC) Training
- San Onofre Nuclear Generating Station (SONGS) Emergency Planning Overview
- Psychological First Aid
- California Specialized Training Institute Courses:
 - Advanced Public Information Officer (L0388)
 - Basic Public Information Officer and JIC/JIS (G290-291)-DHS-011-RESP
 - Community Mass Care & Emergency Assistance (G108)
 - Emergency Planning (G235)
 - Enhanced Exercise Design, Conduct, and Evaluation (EEDCE/G120)
 - EOC Action Planning (G626E)-CA-007-COMM-1
 - Emergency Management Concepts-All Hazards (E)-CA-040-RESP
 - EOC Management and Operations (G775)
 - EOC Section Overview: All Positions (G110-A)-DHS-095-RESP
 - EOC Section Overview: Finance and Administration (G110-F) -DHS-095-RESP
 - EOC Section Overview: Logistics (G110-L) -DHS-095-RESP
 - EOC Section Overview-Management (G110-M) -DHS-095-RESP

- EOC Section Overview-Operations (G611-O) -DHS-095-RESP
- EOC Section Overview-Planning and Intelligence (G110-P) -DHS-095-RESP
- EOC Section Overview: Water/Waste Water (G611W)
- Evacuation and Re-entry Planning (G358)
- Homeland Security Exercise Evaluation Program (HSEEP) (L0146)
- ICS/EOC Interface (G191)
- ICS for Executive Staff (ICS402)
- Integrating Access & Functional Needs into Emergency Management (G197)-CA-056-RESP
- Managing Sustained Operations (MSO)-CA-010-RESP
- Management of Spontaneous Volunteers (G489)
- Mass Care-Emergency Assistance (MC-EA) Planning and Operations (G418)
- Medical Health Operations Center Support Activities (MHOCSA)-CA-010-RESP
- Mitigation for Emergency Managers (G393)
- Multi-Hazard Emergency Planning for Schools (G364)-DHS-093-RESP
- Rapid Assessment Workshop (G557)
- Recovery from Disaster-The Local Community Role (G205)
- SEMS Introductory Course (G606)
- SEMS Executive Management Course (ICS402 Included) (SEMSX)-CA-039-RESP
- Volunteers and Donations Management (G288)
- CalOES Recovery Course; PA, IA, IDE, PDA, Cost Recovery
- MGT-310 Threat and Hazard Identification and Risk Assessment and Stakeholder Preparedness Review
- MGT-314 Enhanced All-Hazards Incident Management/Unified Command
- MGT-346 EOC Operations and Planning for All Hazards
- ICS-300 Intermediate ICS for Expanding Incidents
- ICS-400 Advanced ICS Command and General Staff-Complex Incidents
- Orange County Functional Exercise (annual)
- SONGS Exercise Series (annual)
- Alternate EOC Drill (annual)
- WebEOC/CalEOC Drill (monthly)
- AlertOC Drill (monthly)
- Operational Area Radio Drill (monthly)
- Satellite Phones Drill (monthly)

- Homeland Security Conference

Public Health/Medical

Coordinate regional and local health strategies with EMS, hospitals, clinics, and other public health entities to plan and train effectively in response to all-hazards events; including pandemic influenza, and mass fatality/mass casualty incidents.

Corresponding Core Capabilities:

- Public Health and Medical Services
- Health and Social Services
- Environmental Response/Health and Safety Core Capability

Rationale:

- 2020 PHEP/HPP Exercise (ACTUAL EVENT: COVID-19)
- 2020 County/OA EOC Functional Exercise
- 2019 Statewide Medical Health Exercise & After Action Reports
- 2019 Health Care Coalition of Orange County Full Scale Exercise & After Action Reports
- 2019 Health Agency Operations Center Training
- 2019 BioWatch Exercise
- 2019 PHEP/RAND Drill
- 2018 Point of Dispensing Exercise (POD)
- 2018 Statewide Medical Health Exercise
- 2018 Healthcare Preparedness Series FSE
- 2018 Healthcare Preparedness Series TTX
- 2018/2017/2016 Threat and Hazard Identification and Risk Assessment
- 2017 Points of Dispensing Exercise
- 2017 Vector Borne Disease Response Exercise (Zika)
- 2017 Statewide Medical and Health Tabletop Exercise
- 2016 Statewide Field Exercise FPC
- 2016 Points of Dispensing Ex
- 2013 Anaheim/Santa Ana Urban Area and Orange County Operational Area Homeland Security Grants Strategy

Supporting Training Courses and Exercises:

- Healthcare Agency Operations Center (AOC) Logistics Section Training
- H-EOC Management Section Training
- H-EOC Intelligence Section Training
- H-EOC Finance Sections Training
- H-EOC Finance & Planning Section Training
- Southern Region Public Health Exercise and Emergency Response
- State-wide Health & Medical Field Exercise
- Points of Dispensing Exercise

- Local Distribution Center (LDC) Forklift Training & Certification
- LDC Operations & Incident Command Training
- LDC Operations & Stacker Training
- Medical Reserve Corp (MRC) Active Shooter Awareness
- MRC Huntington Air Show

On-Scene Operations

Enhance the ability of first responders/on scene responders to effectively communicate to support agencies and the EOC, and ensure responder safety during an emergency response

Corresponding Core Capabilities:

- Situational Assessment
- Screening, Search, and Detection
- Forensics and Attribution
- Access Control and Identity Verification
- On-scene Security and Protection
- Operational Communications

Rationale:

- 2020 Floyd Protest/Civil Unrest
- 2020 Open California Protests
- 2020 COVID-19 Pandemic
- 2018 Winter Storms
- 2018 Holy Fire
- 2018 Orange County Sherriff's Department, North Operations Division TTX
- 2018 Aliso Fire
- 2018 Mareblu Incident
- 2018 Santiago Incident
- 2018/2017/2016 Threat and Hazard Identification and Risk Assessment
- 2017 South Coast Plaza FSE

- E/L 975: NIMS ICS All-Hazards Position Specific Finance/Admin Unit Leader Course
- OC Sheriff's Department SRT-Mobile Field Force Training Exercise
- OC Sheriff's Department Mutual Aid Bureau-Mobile Field Force Training Exercise

Mass Care Services

Provide life-sustaining and human services to the affected population, to include hydration, feeding, sheltering, temporary housing, evacuee support, reunification, and distribution of emergency supplies.

Corresponding Core Capabilities:

- Planning
- Operational Coordination
- Infrastructure Systems
- Situational Assessment

Rationale:

- 2019 COVID-19 Pandemic
- 2018 Holy Fire
- 2018 Aliso Fire
- 2018 Mareblu Incident
- 2018 Santiago Incident
- 2017 Cristanitos Fire
- 2017 Canyon & Canyon 2 Fire
- California Department of Social Services – Sheltering Guidance, July 2020
- California Department of Public Health & Cal OES - State Mass Care and Shelter Operations During a Communicable or Infectious Diseases Environment, June 2020

- 2017 Terrorism Functional Exercise

METHODOLOGY AND TRACKING

Overview

The OA/UA Training and Exercise Schedule includes the proposed training and exercise events occurring during the five-year period 2020 through 2024. The events depicted include discussion-based and operations-based exercises that serve to validate the training provided prior to each exercise. The training and exercise schedule adheres to the building block approach as shown in Exhibit 1. Although each exercise type (workshop, tabletop, functional and full-scale) can be executed as a single activity, greater benefit is achieved through a building-block approach that exposes OA/UA participants to a graduated process of increasing levels of complexity. The training and exercise events depicted within the schedule were selected based on the State of California Homeland Security Strategy, Anaheim/Santa Ana UASI/Orange County Operational Area Homeland Security Grants Strategy, OA/UA Threat and Hazard Identification and Risk Assessment, OA/UA stated priorities, AAR/IP recommendations, and other suggestions received from OA/UA functional area subject matter experts. Each successive year will begin with a Training and Exercise Planning Workshop that will validate the following year’s training and exercise events. The training and exercises depicted in the timeline are subject to change and will be updated throughout the year.

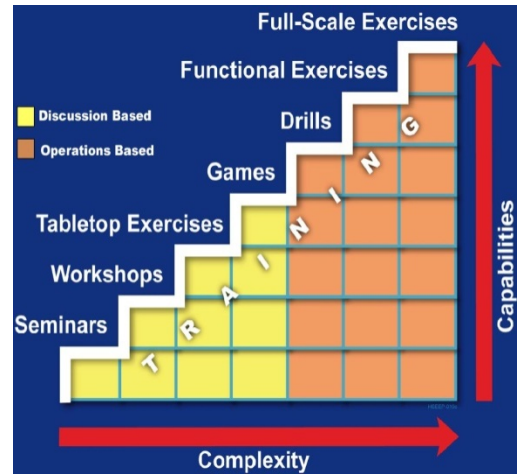

Exhibit 1

Approach

The OA/UA Multi-year TEP is a capabilities and performance-based regional program that follows the standardized methodology and terminology for training development and delivery and exercise design, development, conduct, evaluation, and improvement planning found within the Homeland Security Exercise and Evaluation Program (HSEEP). Exhibit 2 illustrates the HSEEP cycle which guides all facets of the OA/UA exercise program. The following paragraphs describe the linkage between the OA/UA Multiyear TEP and the HSEEP cycle.

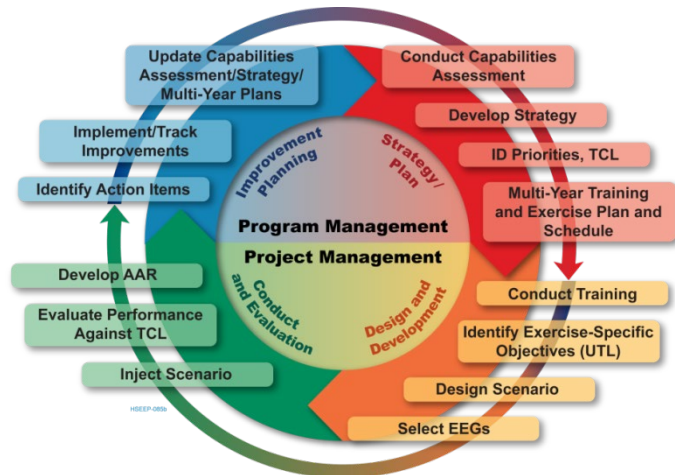

Exhibit 2

Approach: Strategy and Planning

The OA/UA follow the process illustrated in Exhibit 3. The TEPW was conducted on August 6, 2020. Invitations to participate were extended to members of the Urban Area Working Group (UAWG) and all Operational Area jurisdictions, and other private, not-for-profit organizations in Orange County, via the Emergency Management Division OAdmin distribution list. TEPW participants have participated in previous drafts and revisions of the TEP, THIRA, and Strategy so as to fully understand the requirement to link the OA/UA's preparedness training and exercise efforts to the Strategy's goals and objectives. TEPW participants reviewed the current OA/UA TEP priorities and core capabilities and agreed they were still valid.

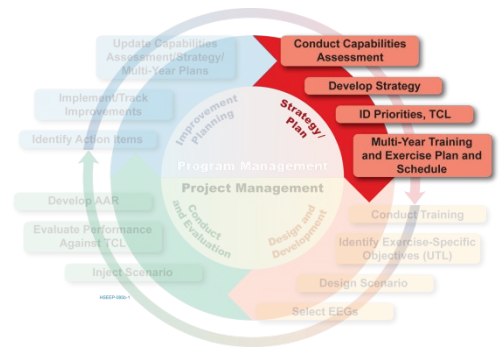

Exhibit 3

Training and exercises occur at multiple levels within the OA/UA. At the highest level, the OA/UA will participate in the State of California Capstone exercise series. In between these exercises, the OA/UA will develop a countywide discussion or operations-based exercise and will recruit maximum jurisdictional and agency participation. The training and exercises conducted at the jurisdictional/agency level utilize the HSEEP building-block approach and normally culminate with participation in the OA/UA focused operations-based exercises.

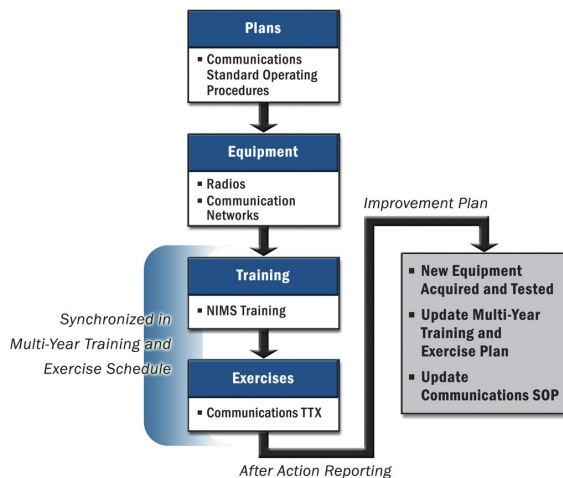

Exhibit 4

The exercises conducted under the OA/UA TEP are designed to validate the plans written, equipment purchased and training provided under the Department of Homeland Security Grant Program (HSGP) and the Emergency Management Performance Grant (EMPG). Jurisdictions requesting monies from the State Homeland Security Program (SHSP) and/or UASI grants to develop plans or procure equipment are required to identify how they will train personnel and evaluate the effectiveness of plans and equipment before an award is made. Exhibit 4 demonstrates the cycle and flow of activity that improves plans and evaluates equipment purchases.

Approach: Design and Development

Exercise planning teams (EPT) within OA/UA are task organized according to exercise objectives/scenario and follow the HSEEP exercise design methodology, Exhibit 5. OA/UA planning teams are kept to a manageable size but represent the full range of participating entities, as well as other relevant stakeholder organizations. Within the OA/UA, the EPT oversees, and is ultimately responsible for exercise design, development, conduct, and evaluation. Moreover, the team determines exercise objectives, tailors the scenario to meet jurisdictional needs, and develops documentation used in evaluation, control, and simulation. The EPT seeks to incorporate newly developed plans and procured equipment into the exercise design to the greatest extent possible. Additionally, EPT members assist with developing and distributing pre-exercise materials and conducting exercise planning conferences, briefings, and training sessions. EPT members are highly involved in the exercise and as a result, they often serve as exercise facilitators, controllers, and/or evaluators during exercise conduct.

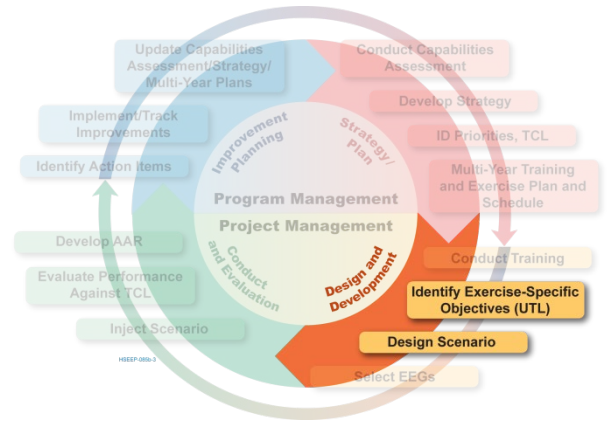

Exhibit 5

Approach: Conduct and Evaluation

OA/UA discussion and operations-based exercises are conducted and evaluated in accordance with *HSEEP Volume II: Exercise Planning and Conduct*. All discussion and operations-based exercises conducted throughout the OA/UA are evaluated. Evaluation criteria is developed through a combination of exercise evaluation guides (EEGs) and the target capabilities list (TCL), Exhibit 6. Stock EEGs are tailored to meet the needs of the exercising agencies and augmented with TCL evaluation

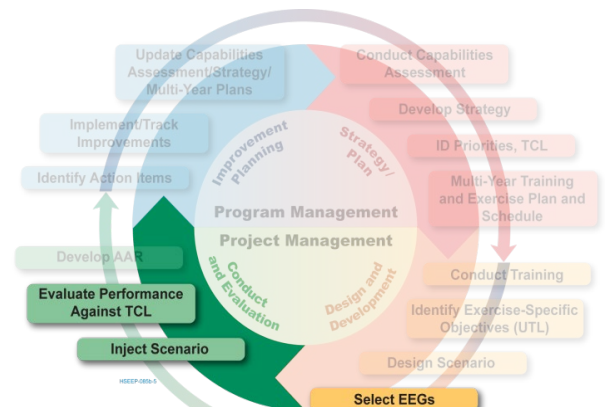

Exhibit 6

Exhibit 7

elements to ensure a thorough evaluation is conducted. Exhibit 7 demonstrates how the TCL is used by OA/UA EPT personnel to derive exercise evaluation material. Exercise evaluators are drawn from the participating agencies and provide a peer evaluation of the exercise. Contractor support for exercise evaluation is used during some exercises but the vast majority of exercise evaluation is done by the participating agencies.

Approach: Improvement Planning

The final phase of the HSEEP cycle of activity is improvement planning. After-action reports (AARs) and improvement plans (IPs) are developed for all discussion and operations-based exercises, Exhibit 8. AAR/IPs ensure the lessons learned from OA/UA training and exercise events are documented, reviewed, and evaluated for follow on action. The OA assists jurisdictions with forwarding final AAR/IPs to the California Office of Emergency Services. During the annual TEP preparation, AARs/IPs are reviewed to identify lessons learned/areas for improvement that should be carried forward into the next OA/UA TEP exercise year.

The attachments provide a graphical depiction and listing of the OA/UA’s scheduled training and exercise events for 2020-2024. This list is current as of the time of publishing and will be updated throughout the year.

Emergency Management Council and Operational Area Executive Board

Date: November 18, 2020

Agenda Item: # 21

TO: Chairperson and Members of the Emergency Management Council and Operational Area Executive Board

FROM: Emergency Management Division

SUMMARY: Disabilities, Access and Functional Needs (DAFN) Working Group

Narrative:

Due to the COVID-19 pandemic and other regional emergencies, the DAFN Working Group was unable to meet during the reporting period of July through October. Conditions have stabilized to allow meetings to resume with next meeting scheduled for Thursday, November 19, 2020 from 1 to 2 p.m. via Zoom.

Recommended Action: Receive and file.

Report Prepared By: Frederick B. Selayandia, Senior Emergency Management Program Coordinator

Emergency Management Council and Operational Area Executive Board

Date: November 4, 2020

Agenda Item: # 22

TO: Chairperson and Members of the Emergency Management Council and Operational Area Executive Board

FROM: Emergency Management Division

SUMMARY: Terrorism Working Group Update

Narrative:

The Emergency Management Division continues to work with members of the group monitoring all material distributed by the Orange County Intelligence Assessment Center (OCIAC). The Emergency Management Division (EMD) has spent time evaluating the recent coordination of intelligence, communication, and direct access to systems used by members of the Terrorism Working Group assigned to the Emergency Operations Center (EOC) during recent civil unrest activations and has identified areas where digital interface between agencies can be improved. The Emergency Management Division will work with the Orange County Sheriff's Department Systems Division to facilitate improvements. In addition, EMD has worked in the weeks leading up to the 2020 Presidential Election to monitor and assist in evaluating threats directly related to the potential for activation needs to support law efforts. The EMD has also imbedded staff into the DOC to promote situational awareness in anticipation of civil unrest support.

Recommended Action: Receive and file

Report Prepared By: Randy Harper, Assistant Emergency Manager

Emergency Management Council and Operational Area Executive Board

Date: November 10, 2020

Agenda Item: # 24

TO: Chairperson and Members of the Emergency Management Council and Operational Area Executive Board

FROM: Homeland Security Division

SUMMARY: Homeland Security Grant Report

Narrative:

1. Administrative Updates

The 2020 Homeland Security Grant Notice of Federal Opportunity (NOFO) was released by the Department of Homeland Security. According to the 2020 NOFO, there will be four Federal priorities. Recipients of grant funding will be required to allocate funding to support each priority area in order to obtain a full allocation of HSGP funds:

- 1) Enhancing cybersecurity (including election security) – 5% percent
- 2) Enhancing the protection of soft targets/crowded places (including election security) – 5% percent;
- 3) Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS – 5% percent;
- 4) Addressing emergent threats (e.g., unmanned aerial systems [UASs], etc.) – 5% percent.

2. State Homeland Security Grants Update

The 2019 State Homeland Security Grant application in the amount of \$3,389,080 was reviewed and approved by CalOES. The Orange County Board of Supervisors accepted the grant award on October 29, 2020. Projects funded by this award will start early 2021.

A. State Homeland Security Grant (SHSP)

Grant Year	2018
End Date	May 31, 2021
Amount	\$3,270,462

Summary	The 2018 State Homeland Security Program (SHSP) award in the amount of \$3,270,462 was issued to the Orange County Operational Area. The award was accepted by the Orange County Board of supervisors on October 8, 2019. All projects in this grant year are moving
----------------	--

forward and some sustainment projects are moving ahead of schedule. So far we have claimed \$1,834,917, which is roughly 56% of the entire award. All Subrecipient's award letters have been mailed and Transfer Agreements have been finalized. We expect to have this grant year closed before the end of the performance period.

Grant Year	2019
End Date	May 31, 2022
Amount	\$3,389,080
Summary	The 2019 State Homeland Security Grant application was approved by CalOES. On October 29, 2020 The Orange County Board of supervisors accepted the award and authorized the budget process to move forward. All sub-awards and Transfer Agreements are currently being processed and we will submit our first claim to CalOES by February 2021.

B. Urban Area Security Initiative (UASI)

Grant Year	2017 (Santa Ana)
End Date	2020
Amount	\$7,577.00
Summary	On June 26, 2018 the Orange County Board of Supervisors accepted the 2017 UASI Award. The award was issued to support training activities. All awarded funding has been used and we submitted our final claim to the City of Santa Ana.

Recommended Action: Receive and file.

Measure	Author	Topic	Introduced	Status	Brief Summary
Approved					
AB 1426	Boerner Horvagh D	Public resources: San Onofre State Beach: Richard H. and Donna O'Neill Conservancy: road construction.	2/22/2019	9/25/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 168, Statutes of 2020.	Would prohibit certain joint powers agencies from constructing, funding, or operating a major thoroughfare within a specified area of Southern California, and would restrict the authority of the Department of Transportation to approve, permit, take possession of, or otherwise authorize the construction of a major thoroughfare in that same area, as specified. The bill would prohibit a state agency, city, county, joint powers authority, regional transportation agency, or other local government entity, or any other person or entity, from constructing, funding, approving, or otherwise authorizing the building of a street, road, or highway in or on, or that encroaches on, San Onofre State Beach or lands that are part of the Richard H. and Donna O'Neill Conservancy, with specified exceptions.
AB 1945	Salas D	Emergency services: first responders.	1/17/2020	9/11/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 68, Statutes of 2020.	Would, for purposes of the California Emergency Services Act, define "first responder" as an employee of the state or a local public agency who provides emergency response services, including a peace officer, firefighter, paramedic, emergency medical technician, public safety dispatcher, or public safety telecommunicator.
AB-2213	Limón D	Office of Emergency Services: model guidelines.	2/12/2020	9/18/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 98, Statutes of 2020.	Would require the Office of Emergency Services to develop model guidelines for local governments, operational areas, and nonprofit, community-based, faith-based, and private sector organizations active in disasters to identify, type, and track community resources that could assist in responding to or recovering from local, tribal, regional, national, or international disasters, as specified. The bill would require the OES to publish and distribute the initial model guidelines by May 1, 2021, and to update and distribute the guidelines
AB 2386	Bigelow R	Office of Emergency Services: disaster council plans.	2/18/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 254, Statutes of 2020.	Current law authorizes cities, cities and counties, and counties to create disaster councils, by ordinance, to develop plans for meeting any condition constituting a local emergency or state of emergency, including, but not limited to, earthquakes, natural or manmade disasters specific to that jurisdiction, or state of war emergency. The law requires a disaster council to supply a copy of those plans to the Office of Emergency Services. This bill would require the Office of Emergency Services to annually review 10 plans described above to determine if the plans substantially conform to or exceed specified recommendations made by the Federal Emergency Management Agency. The bill would require the office to prioritize in its review a plan submitted from a county determined to be at a high risk of wildfire disaster.

Measure	Author	Topic	Introduced	Status	Brief Summary
<u>AB 2421</u>	<u>Quirk D</u>	Land use: permitting: wireless communications.	2/19/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 255, Statutes of 2020.	Would, until January 1, 2024, require local agencies to adopt specified approval procedures for an application to install an emergency standby generator, that meets specified standards, within the physical footprint of a macro cell tower site. Because this bill would impose new duties on local agencies, it would impose a state-mandated local program.
<u>AB 2730</u>	<u>Cervantes D</u>	Access and functional needs: local government: agreement for emergency management, transportation, and paratransit services.	2/20/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 256, Statutes of 2020.	Would require a regional transit district, county transportation commission, or other local transportation authority that provides paratransit services to enter into an agreement with adjacent regional transit districts, county transportation commissions, or local transportation authorities, upon request of the adjacent district, commission, or authority, for purposes of permitting the adjacent district, commission, or authority to borrow, for compensation, paratransit vehicles and drivers in the event of an emergency that requires the evacuation and relocation of the access and functional needs population in the jurisdiction or service area of the adjacent district, commission, or authority.
<u>AB 2960</u>	<u>Gipson D</u>	Shelter crises: fire and life safety standards.	2/21/2020	9/25/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 148, Statutes of 2020.	Would authorize a city, county, or city and county to permit the operation of an emergency housing facility year round when the facility does not comply with state building standards for local fire and life safety standards if they submit reasonable standards to the State Fire Marshal that do certain things. The State Fire Marshal would be required to review the standards within 30 days and either approve them or respond as to why they do not meet the threshold requirements. If the standards do not meet the threshold requirements, the city, county, or city and county would not be able to use them.
<u>AB 2968</u>	<u>Rodriguez D</u>	County emergency plans: best practices.	2/21/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 257, Statutes of 2020.	Would require the Office of Emergency Services to, by January 1, 2022, establish best practices for counties developing and updating a county emergency plan. The bill would require the office to, by January 1, 2022, establish a review process for a county to request the office to review a county's emergency plan. The bill would require that review process to provide technical assistance and feedback regarding, among other things, an emergency plan's consistency with the office's proposed best practices.

Measure	Author	Topic	Introduced	Status	Brief Summary
AB 3074	Friedman D	Fire prevention: wildfire risk: defensible space: ember-resistant zones.	2/21/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 259, Statutes of 2020.	Current law requires a person who owns, leases, controls, operates, or maintains an occupied dwelling or structure in, upon, or adjoining a mountainous area, forest-covered land, brush-covered land, grass-covered land, or land that is covered with flammable material that is within a very high fire hazard severity zone, as designated by a local agency, or a building or structure in, upon, or adjoining those areas or lands within a state responsibility area, to maintain a defensible space of 100 feet from each side and from the front and rear of the structure, as specified. A violation of these requirements is a crime. This bill would require a person described above to use more intense fuel reductions between 5 and 30 feet around the structure, and to create an ember-resistant zone within 5 feet of the structure, as provided.
AB 3267	Smith D	Office of Emergency Services: State Emergency Plan.	2/21/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 260, Statutes of 2020.	The California Emergency Services Act, among other things, requires the Office of Emergency Services to update the State Emergency Plan on or before January 1, 2019, and every 5 years thereafter. The act also requires the office to complete an after-action report within 120 days after each declared disaster. This bill would require the office to coordinate with representatives of the access and functional needs population, as specified, when the office updates the State Emergency Plan. The bill would, instead, require the office to complete an after-action report within 180 days after each declared disaster.
AB 685	Reyes D	COVID-19: imminent hazard to employees: exposure: notification: serious violations.	2/15/2019	9/17/2020-Approved by the Governor. Chaptered by Secretary of State - Chapter 84, Statutes of 2020	Would authorize the Division of Occupational Safety and Health, when, in its opinion, a place of employment, operation, or process, or any part thereof, exposes workers to the risk of infection with severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2, also known as COVID-19), so as to constitute an imminent hazard to employees, to prohibit the performance of that operation or process, or entry into that place of employment. The bill would require the division to provide a notice thereof to the employer, to be posted in a conspicuous place at the place of employment. The bill would require such a prohibition to be limited to the immediate area in which the imminent hazard exists, as specified. The bill would require such a prohibition to be issued in a manner so as not to materially interrupt the performance of critical governmental functions essential to ensuring public health and safety functions or the delivery of electrical power or water.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 1044	<u>Allen D</u>	Firefighting equipment and foam: PFAS chemicals.	2/18/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State. Chapter 308, Statutes of 2020.	Would, commencing January 1, 2022, require any person, including a manufacturer, as defined, that sells firefighter personal protective equipment to any person or public entity to provide a written notice to the purchaser at the time of sale if the firefighter personal protective equipment contains perfluoroalkyl and polyfluoroalkyl substances (PFAS), and would provide that a violation of this requirement is punishable by a specified civil penalty. The bill would require the seller and the purchaser to retain the notice on file for at least 3 years and to furnish the notice and associated sales documentation to the State Fire Marshal within 60 days upon request, as provided.
SB 1159	<u>Hill D</u>	Workers' compensation: COVID-19: critical workers.	2/20/2020	9/17/2020-Approved by the Governor. Chaptered by Secretary of State. Chapter 85, Statutes of 2020.	Would define "injury" for an employee to include illness or death resulting from the 2019 novel coronavirus disease (COVID-19) under specified circumstances, until January 1, 2023. The bill would create a disputable presumption, as specified, that the injury arose out of and in the course of the employment and is compensable, for specified dates of injury. The bill would limit the applicability of the presumption under certain circumstances. The bill would require an employee to exhaust their paid sick leave benefits and meet specified certification requirements before receiving any temporary disability benefits or, for police officers, firefighters, and other specified employees, a leave of absence. The bill would also make a claim relating to a COVID-19 illness presumptively compensable, as described above, after 30 days or 45 days, rather than 90 days.
SB 1196	<u>Umberg D</u>	Price gouging.	2/20/2020	9/30/2020-Approved by the Governor. Chaptered by Secretary of State. Chapter 339, Statutes of 2020.	Would make it a misdemeanor for a person, during the pendency of the emergency period and continuing for a period of 30 days following the expiration of the period of the emergency, to sell or offer to sell certain goods or services for a price 10% greater than the prevailing price for that item or service offered by similarly situated sellers in the county during the 3 months immediately prior to the proclamation or declaration of the emergency, or the price charged by that person immediately prior to the proclamation or declaration of emergency, whichever is greater. The bill would make a greater price lawful under these provisions if, in the case of a seller who did not sell the goods or services prior to the emergency, the price is only 10% greater than the total of the cost to the seller plus the markup customarily applied by a similarly situated seller.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 909	Dodd D	Emergency vehicles	2/3/2020	9/29/2020-Approved by the Governor. Chaptered by Secretary of State. Chapter 262, Statutes of 2020.	Current law prohibits any vehicle, other than an authorized emergency vehicle, from being equipped with a siren. Current law requires an emergency vehicle to be equipped with a siren that meets requirements set forth by the Department of the California Highway Patrol. This bill would authorize an emergency vehicle to be equipped with a “Hi-Lo” audible warning sound and would authorize the “Hi-Lo” to be used solely for the purpose of notifying the public of an immediate need to evacuate.
Vetoed					
AB 2004	Calderon D	Medical test results: verification credentials.	1/28/2020	9/26/2020-Vetoed by Governor.	Would require the Medical Board of California to establish a pilot program to expand the use of verifiable health credentials for communication of COVID-19 test results or other medical test results in this state. The bill would require the board to convene a working group of representatives from the public and private sectors to develop methods, using a verifiable credential model, to provide access to medical test results, as specified.
AB 2054	Kamlager D	Emergency services: community response: grant program.	2/3/2020	9/30/2020-Vetoed by the Governor	Would enact the Community Response Initiative to Strengthen Emergency Systems Act or the C.R.I.S.E.S. Act for the purpose of creating, implementing, and evaluating the C.R.I.S.E.S. Act Grant Pilot Program, which the act would establish. The bill would require the Office of Emergency Services to establish rules and regulations for the act with the goal of making grants to community organizations operating in a minimum of 10 cities, over 3 years, for the purpose of expanding the participation of community organizations in emergency response for specified vulnerable populations. The bill would require a community organization receiving funds pursuant to the program to use the grant to stimulate and support involvement in emergency response activities, as specified. The bill would
AB 3164	Friedman D	Fire prevention: wildland-urban interface wildfire risk model: model use guidelines.	2/21/2020	9/29/2020-Vetoed by Governor.	Would require the Department of Forestry and Fire Protection, by July 1, 2022, to develop a wildland-urban interface wildfire risk model to determine the risk for a community or parcel within a local responsibility area or state responsibility area and guidelines for the proper use of the model, as provided. The bill would require the department to establish, and consult with, an advisory workgroup, with specified members, to develop the model. The bill would require the department to update the model and guidelines when fire hazard severity zones are revised.

Measure	Author	Topic	Introduced	Status	Brief Summary
<u>AB 826</u>	<u>Santiago D</u>	Emergency food assistance: COVID-19.	2/20/2019	9/29/2020-Vetoed by Governor.	Current law establishes and requires the State Department of Social Services to administer the CalFood Program to provide food and funding to food banks whose primary function is to facilitate the distribution of food to low-income households, as specified. This bill would establish a program to provide emergency food assistance. The program would require, upon the appropriation of funds by the Legislature for this purpose, or upon a determination by the Governor that specified funds available to the Governor may be used for this purpose, the department to contract with a Feeding America partner state organization with the capacity to provide a food assistance benefit statewide, or another nonprofit entity that the department deems appropriate, to issue food assistance benefits in the form of a one-time use, prepaid card preloaded with \$600 for use at retailers that sell groceries.
<u>SB 182</u>	<u>Jackson D</u>	Local government: planning and zoning: wildfires	1/29/2019	9/30/2020-Vetoed by the Governor	Current law requires that the Office of Planning and Research, among other things, coordinate with appropriate entities, including state, regional, or local agencies, to establish a clearinghouse for climate adaptation information for use by state, regional, and local entities, as provided. This bill would require the safety element, upon the next revision of the housing element or the hazard mitigation plan, on or after June 1, 2022, whichever occurs first, to be reviewed and updated as necessary to include a comprehensive retrofit strategy to reduce the risk of property loss and damage during wildfires, as specified, and would require the planning agency to submit the adopted strategy to the Office of Planning and Research for inclusion into the above-described clearinghouse.
<u>SB 912</u>	<u>Beall D</u>	California Fostering Connections to Success Act.	2/3/2020	9/28/2020-Vetoed by the Governor. In Senate. Consideration of Governor's veto pending.	Executive Order No. N-53-20, signed by the Governor on April 17, 2020, authorizes temporary waivers of certain foster youth program requirements to ensure continuity of care in response to the COVID-19 pandemic. Under this bill, a nonminor dependent who turned 21 years of age between March 4, 2020, and April 18, 2020, or who turns 21 years of age during the 2020–21 fiscal year, or who receives funding after turning 21 years of age pursuant to the executive order, would be eligible to continue receiving extended foster care support through June 30, 2021. The bill would also, during the 2020–21 fiscal year, require a nonminor dependent who is unable meet certain participation conditions to continue to receive that foster care support through June 30, 2021.

Measure	Author	Topic	Introduced	Status	Brief Summary
Outstanding					
AB 1034	Friedman D	Health and care facilities: emergency and disaster plan.	2/21/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require community care facilities, including a resource family, certified or licensed foster family home, or a small family home, residential care facilities for persons with a life-threatening illness, and child daycare facilities, to have an emergency and disaster plan that includes specified requirements, including plans for transportation needs and evacuation procedures.
AB 1151	Daly D	Fire damages: civil actions: pecuniary damages and ecological and environmental damages.	2/21/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would provide that in a civil action seeking damages caused by a fire, pecuniary damages must be quantifiable and not unreasonable in relation to the prefire fair market value of the damaged property or the prefire market value of similar property. The bill would require that recoverable pecuniary damages be calculated pursuant to specified categories that include property damages, as provided, and short-term costs, as provided, and would also authorize the award of environmental and ecological damages.
AB 1425	Gallagher R	Residency: displacement by natural disaster.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would specifically guarantee that a person who leaves the person's home for temporary purposes because of a natural disaster, who has the intention of returning to the home or to another address within the same jurisdiction, does not lose the person's domicile at that home. The bill would specifically authorize the person to provide a temporary address for mailing purposes without losing their domicile.
AB 1499	Flora R	Interoperability systems	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require the Office of Emergency Services to establish and operate a grant program, upon appropriation of adequate funds by the Legislature, to provide assistance in obtaining, retrofitting, purchasing, and maintaining interoperability systems in K-12 school, community college, and California State University campuses, and University of California campuses, and to enable local fire agencies to enable their systems of communications to be connected to, and coordinated with, communications and security technology systems installed and operating on K-12 school, community college, and California State University campuses, and University of California campuses, as specified.
AB 1601	Ramos D	Office of Emergency Services: behavioral health response.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would establish a behavioral health deputy director within the Office of Emergency Services to ensure individuals have access to necessary mental and behavioral health services and supports in the aftermath of a natural disaster or declaration of a state of emergency and would require the deputy director to collaborate with the Director of Health Care Services to coordinate the delivery of trauma-related support to individuals affected by a natural disaster or state of emergency.

Measure	Author	Topic	Introduced	Status	Brief Summary
<u>AB 1609</u>	<u>Chen R</u>	Public utilities: fireproofing programs.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require the Public Utilities Commission to direct each electrical corporation and gas corporation to file an application for programs to provide financial assistance to owners of residential properties in fire-prone areas within their respective service territories to install improvements to reduce or eliminate wildfire impacts on those properties or to purchase emergency equipment or supplies for use in case of a deenergization event. The bill would require that the programs be funded through voluntary contributions from customers of the corporations.
<u>AB 1711</u>	<u>Santiago D</u>	Homeless populations: disease outbreak.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require a city or city and county to take certain actions if a homeless population of 4,500 persons or more residing on the streets of a city or city and county is currently experiencing a disease outbreak, or is at risk of a disease outbreak, as determined by the local health officer based on an unspecified minimum incidence rate. The bill would require that those actions include, as applicable, cleaning streets, providing free and voluntary disease testing and vaccination, and developing a systematic plan for outreach to the affected homeless population.
<u>AB 1722</u>	<u>Kiley R</u>	School safety plans.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require a comprehensive school safety plan, and the school safety plan of a charter school, to include a targeted violence prevention plan that, among other things, establishes a multidisciplinary threat assessment team of school personnel who will direct, manage, and document the threat assessment process, as prescribed. The bill would authorize, upon a preliminary determination by the threat assessment team that an individual poses a threat of violence to himself or others, any state or local agency or program that provides services to the individual to share with any other state or local agency or program records or information that are confidential or exempt from disclosure if the records or information are reasonably necessary to evaluate the threat, ensure access to appropriate services for the individual, or ensure the safety of the individual or others.
<u>AB 1759</u>	<u>Salas D</u>	Institutions of higher education: liability for COVID-19-related injuries.	2/22/2019	8/18/2020-Failed Deadline pursuant to Rule 61(b)(14). (Last location was S. JUD. on 8/17/2020)	Would exempt the public and independent institutions of higher education, and their officers, employees, and governing bodies from monetary liability and damages for injury relating to COVID-19 infection, any condition in existence because of the COVID-19 pandemic, or any act or omission by those institutions, their officers, their employees, or their governing bodies in response to the COVID-19 pandemic, as provided.

Measure	Author	Topic	Introduced	Status	Brief Summary
AB 1789	Flora R	Electrical corporations: high firethreat areas: electrical grid monitoring equipment.	2/22/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require each electrical corporation to install monitoring equipment on transmission and distribution lines in high fire threat areas as designated by the Public Utilities Commission by December 31, 2020. The bill would require that the monitoring equipment be installed between each set of poles or towers, generate raw data on line temperature, ambient temperature, electrical current, line movement, and barometric pressure, access satellite communication for connectivity, and be noninvasive at point of installation.
AB 183	Wood D	Telecommunications service: natural disasters: reports.	1/10/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require the Public Utilities Commission to collect specified information from telecommunications service providers relating to the provider's efforts and resources used to restore telecommunications service outages caused by, and to repair or replace related network infrastructure or facilities that were damaged as a result of, certain emergencies or natural disasters.
AB 1837	Smith D	School safety: emergency response team.	1/6/2020	8/18/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was S. ED. on 7/1/2020)	Current law requires school districts and county offices of education to be responsible for the overall development of a comprehensive school safety plan for its schools operating kindergarten or any of grades 1 to 12, inclusive. This bill would require the Superintendent of Public Instruction, subject to an appropriation, to establish a an emergency response team in the State Department of Education to serve as a liaison and provide guidance and support to school districts, county offices of education, and charter schools, as provided. The bill would require the emergency response team to guide the process for, and facilitate expedited processing of, requests for allowance of attendance due to specified emergency conditions, and to coordinate with the State Department of Public Health and other federal, state, and local agencies, as applicable.
AB 191	Patterson R	Building standards: exemptions: rebuilding after disasters.	1/10/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Current law, the State Housing Law, establishes statewide construction and occupancy standards for buildings used for human habitation, including energy conservation and fire prevention requirements relating to energy efficiency and the installation of interior sprinklers. This bill would, until January 1, 2030, exempt homes that meet specified requirements and are being rebuilt after wildfires or specified emergency events that occurred on or after January 1, 2017, from meeting certain current building standards.

Measure	Author	Topic	Introduced	Status	Brief Summary
AB 1923	Salas D	Residential structures: natural gas shutoff devices.	1/14/2020	8/21/2020-Failed Deadline pursuant to Rule 61(b)(15). (Last location was S. APPR. SUSPENSE FILE on 8/13/2020)	Would require the Department of Housing and Community Development, in consultation with the Office of the State Architect and the State Fire Marshal, to consider whether to propose for adoption and approval by the California Building Standards Commission, in the code adoption cycle that begins after January 1, 2022, the requirement that seismic gas shutoff devices or excess flow gas shutoff devices, installed on customer-owned gas piping, be installed in all or a portion of dwelling units, motels, hotels, and lodging houses.
AB 1958	Cooper D	State Plan of Flood Control: facilities.	1/17/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. N.R. & W. on 6/23/2020)	Would prohibit a person from concealing, defacing, destroying, modifying, cutting, altering, or physically or visually obstructing any levee along a river or bypass at any of those specified places, any levee forming part of any flood control plan, or any other facility of the State Plan of Flood Control, including, but not limited to, any and all associated rights of way, without permission of the board. By expanding the behavior that would be punishable as a misdemeanor, the bill would impose a state-mandated local program.
AB 2047	Aguiar-Curry D	Emergency services: Alzheimer's disease: dementia.	2/3/2020	8/18/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was S. G.O. on 6/23/2020)	Would require a county, as part of its update of its emergency plan, to address the Alzheimer's disease and dementia population by addressing how the Alzheimer's disease and dementia population is served by the following: emergency communications, including direct communications to those who may, due to their condition, be unable to follow emergency guidelines, and emergency stay-at-home orders, including dissemination of specified information. By increasing the duties of local officials, this bill would impose a state-mandated local program.
AB 2076	Bigelow R	Public lands: Department of Parks and Recreation: wildfire management plan: fire hazard severity zones	2/5/2020	8/18/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was S. N.R. & W. on 6/23/2020)	Would require the Director of Parks and Recreation to develop, in specified phases, and implement a wildfire management plan for all property under the jurisdiction of the Department of Parks and Recreation that is located within a high or a very high fire hazard severity zone, as provided. The bill would require the wildfire management plan to outline the department's fire prevention goals and future projects for prescribed fire, defensible space, fire resilient restoration projects, and the fire hardening of the department's structures, among other things.

AB 2126	O'Donnell D	Temporary school closures: notification.	2/10/2020	8/21/2020-Failed Deadline pursuant to Rule 61(b)(15). (Last location was S. APPR. SUSPENSE FILE on 8/13/2020)	Would require the State Department of Education to develop and implement an internet website and a web-based application for the purpose of collecting information from a county office of education, school district, or charter school about temporary school closures, as specified. The bill would require the department to have the internet website and web-based application operative no later than July 1, 2022. The bill would require a county superintendent of schools, superintendent of a school district, or charter school administrator to notify the department through the internet website or web-based application of all temporary school closures each day the school is closed.
AB 2178	Levine D	Emergency services.	2/11/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. G.O. on 6/23/2020)	Current law defines the terms "state of emergency" and "local emergency" to mean a duly proclaimed existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by, among other things, fire, storm, or riot. This bill would additionally include a deenergization, defined as a planned public safety power shutoff, as specified, within those conditions constituting a state of emergency and a local emergency.
AB 281	Frazier D	Transmission and distribution lines: undergrounding and fire hardening.	1/28/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require the Public Utilities Commission to require electrical corporations to develop and administer programs to replace overhead electric facilities along public streets and roads, and on other public or private properties in high fire threat districts, as determined by the commission, with underground electric facilities.
AB 486	Limón D	Disaster preparedness: local government: animal wildfire evacuation plan.	2/12/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require a city or county that requires a kennel license or permit to operate a kennel within its jurisdiction, to require, as a condition for obtaining the kennel license or permit, that the kennel owner create and submit to the city or county an animal natural disaster evacuation plan for any kennel covered by the license or permit. By imposing a new duty on local government, this bill would impose a state-mandated local program.
AB 511	Nazarian D	Mobile telephony service: earthquake early warning	2/13/2019	2/3/2020 - From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Under current law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Existing law establishes various service requirements applicable to mobile telephony service providers. This bill would require, on and after December 1, 2020, that any mobile telephony service communications device sold in California incorporate earthquake early warning technology to function as part of the wireless emergency alerts system and that this function be activated unless the purchaser expressly exercises the option to deactivate the function.

Measure	Author	Topic	Introduced	Status	Brief Summary
AB 868	Bigelow R	Electrical corporations: wildfire mitigation plans.	2/20/2019	2/3/2020-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.	Would require each electrical corporation that deenergizes portions of the distribution grid as a wildfire mitigation measure to adopt protocols for when deenergization will be undertaken and for providing notice and other steps to be taken to minimize any adverse effects from deenergization, as specified. The bill would require that the electrical corporation, in developing the protocols, consult with persons and institutions that are reasonably likely to be affected by a deenergization, including local schools, water suppliers, wastewater agencies, disability rights advocates, consumer groups, fire departments, law enforcement agencies, local government officials, local elected officials, hospitals, and communications providers.
SB 1099	Dodd D	Emergency backup generators: critical facilities: exemption.	2/19/2020	9/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. NAT. RES. on 6/29/2020)	Would, consistent with federal law, require air districts to adopt a rule, or revise its existing rules, to allow critical facilities with a permitted emergency backup generator to use that emergency backup generator during a deenergization event or other loss of power, and to test and maintain that emergency backup generator, as specified, without having that usage, testing, or maintenance count toward that emergency backup generator's time limitation on actual usage and routine testing and maintenance. The bill would prohibit air districts from imposing a fee on the issuance or renewal of a permit issued for those critical facility emergency backup generators.
SB 1154	Nielsen R	Fire prevention: very high fire hazards.	2/20/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. RLS. on 2/20/2020)	Current law requires the Director of Forestry and Fire Protection to identify areas in the state as very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Current law provides that the purpose of this law relating to the classification of lands is so that public officials are able to identify measures that will delay the rate of spread, and reduce the potential intensity, of uncontrolled fires that threaten to destroy resources, life, or property, and to require that those measures be taken. This bill would make a nonsubstantive change to this latter provision relating to the purpose of the law.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 1185	Moorlach R	Emergency backup generators: emergency variance: operation during deenergization events.	2/20/2020	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. NAT. RES. on 6/29/2020)	Current law generally designates air pollution control and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Current law requires the State Air Resources Board to identify toxic air contaminants that are emitted into the ambient air of the state and to establish airborne toxic control measures to reduce emissions of toxic air contaminants from nonvehicular sources. Current law establishes one or more hearing boards with a specified membership in each air district for the purposes of performing specified functions, including, among others, issuing specified emergency variances without notice or a hearing. This bill would require a facility permittee applying for an emergency variance with an air district hearing board to demonstrate that the permitted emergency backup generator is using the cleanest, feasible, available backup power source sufficient to meet the facility's electrical service demand during a deenergization event, as specified.
SB 1284	Nielsen R	Fire prevention activities: local assistance grant program.	2/21/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. RLS. on 2/21/2020)	Current law requires the Department of Forestry and Fire Protection to establish a local assistance grant program for fire prevention activities in California. Current law defines "fire prevention activities" for these purposes to mean those lawful activities that reduce the risk of wildfire in California, as provided. This bill would make a nonsubstantive change to the definition of "fire prevention activities."
SB 1285	Nielsen R	Local health emergencies: navigable waters.	2/21/2020	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. HEALTH on 6/18/2020)	Would authorize a local health officer to declare a local health emergency in the jurisdiction whenever the local health officer determines that there is an immediate threat to the public health due to the presence of waste within the navigable waters of the state.
SB 1312	McGuire D	Electrical corporations: deenergization.	2/21/2020	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. U. & E. on 6/29/2020)	Would require the Public Utilities Commission to develop a standard against which to measure the prudence of an electrical corporation's conduct of a public safety power shutoff, as defined, and an electrical corporation's hardening of distribution or transmission infrastructure that motivated the public safety power shutoff. The bill would require an electrical corporation that conducts a public safety power shutoff to report specified information about the shutoff and its infrastructure hardening efforts to the commission. The bill would require the commission to hold hearings to determine whether a public safety power shutoff was conducted prudently. The bill would require the commission, if it determines a shutoff or related hardening was not conducted prudently, to levy fines and penalties against the electrical corporation.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 1313	McGuire D	Electrical corporations: deenergization.	2/21/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. RLS. on 2/21/2020)	Would require an electrical corporation to notify the Public Utilities Commission, the Office of Emergency Services, and the Department of Forestry and Fire Protection of a potential public safety power shutoff, as defined. The bill would also require an electrical corporation, on or before July 1, 2021, to identify and report to the commission at least 15% of its transmission and distribution infrastructure that is most likely to cause a public safety power shutoff and to need grid hardening.
SB 133	Galgiani D	Wildfires: detection.	1/14/2019	2/3/2020-Returned to Secretary of Senate pursuant to Joint Rule 56.	Current law establishes various programs for the prevention, detection, and mitigation of wildfires. This bill would state the intent of the Legislature to enact legislation to create and fund a program for installing remote infrared cameras that can help in detecting wildfires.
SB 1348	Stern D	Fire prevention: vegetation management: public education: grants: defensible space: fire hazard severity zones: forest management.	2/21/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was A. THIRD READING on 8/25/2020)	Current law requires the Director of Forestry and Fire Protection to identify areas of the state as very high fire hazard severity zones based on specified criteria. Current law requires a local agency, within 30 days after receiving a transmittal from the director that identifies very high fire hazard severity zones, to make the information available for public review, as provided. This bill, among other things, would also require the director to identify areas of the state as moderate and high fire hazard severity zones and would require a local agency to make this information available for public review and comment, as provided.
SB 1410	Caballero D	COVID-19 emergency: tenancies.	2/21/2020	8/21/2020-Failed Deadline pursuant to Rule 61(b)(15). (Last location was A. APPR. SUSPENSE FILE on 8/18/2020)	The Tenant Protection Act of 2019 prohibits, with certain exceptions, an owner of residential real property from increasing the gross rental rate for a dwelling or unit more than 5% plus the percentage change in the cost of living, as defined, or 10%, whichever is lower, of the lowest gross rental rate charged for the immediately preceding 12 months, subject to specified conditions. This bill would authorize an owner of real property and a tenant to sign and execute a tenant-owner COVID-19 eviction relief agreement that, during a state of emergency related to the COVID-19 pandemic, and unspecified additional days, would allow the tenant to defer the tenant's
SB 1448	Bradford D	Fire prevention: electrical corporations: wildfire mitigation plans: workforce diversity.	2/21/2020	6/18/2020-Referred to Com. on U. & E.	Would require an electrical corporation's wildfire mitigation plan to include a description of how the electrical corporation and its contractors will develop a diverse workforce to complete the vegetation management, system hardening, and grid modernization work that it and its contractors are undertaking currently and in the future.
SB 1455	Hertzberg D	Emergency services: state of emergency: local emergency: electromagnetic pulse attack.	2/21/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. RLS. on 2/21/2020)	Would include an electromagnetic pulse attack among those conditions constituting a state of emergency or local emergency.

Measure	Author	Topic	Introduced	Status	Brief Summary
<u>SB 231</u>	<u>Galgiani D</u>	Local emergencies: port districts.	2/7/2019	2/3/2020-Returned to Secretary of Senate pursuant to Joint Rule 56.	Would revise the definition of a local emergency to include conditions of disaster or extreme peril to the safety of persons and property within the territorial limits of a district established under the Harbors and Navigation Code and would authorize a port district to declare a local emergency on the same basis as a city, county, or city and county. The bill would require review of a local emergency by the governing body, as described above, to occur at least once every 30, rather than 60, days. The bill would also provide legislative findings in support of these provisions.
<u>SB 261</u>	<u>Wilk R</u>	Office of Emergency Services.	2/12/2019	2/3/2020-Returned to Secretary of Senate pursuant to Joint Rule 56.	The California Emergency Services Act, among other things, establishes the Office of Emergency Services for the purpose of mitigating the effects of natural, manmade, or war-caused emergencies and makes findings and declarations relating to ensuring that preparation within the state will be adequate to deal with those emergencies. This bill would make nonsubstantive changes to these provisions.
<u>SB 378</u>	<u>Wiener D</u>	Electrical corporations: deenergization events: procedures: allocation of costs: reports.	2/20/2019	6/18/2020-Referred to Com. on U. & E.	Would require each electrical corporation to annually submit a report to the Wildfire Safety Division and, after June 30, 2021, to the Office of Energy Infrastructure Safety, that includes the age, useful life, and condition of the electrical corporation's equipment, inspection dates, and maintenance
<u>SB 46</u>	<u>Jackson D</u>	Emergency services: telecommunications.	12/3/2018	2/3/2020-Returned to Secretary of Senate pursuant to Joint Rule 56.	Current law authorizes each county, including a city and county, to enter into an agreement to access the contact information of resident accountholders through the records of a public utility or other agency responsible for water service, waste and recycling services, or other property-related services for the sole purpose of enrolling county residents in a county-operated public emergency warning system. Current law requires any county that enters into such an agreement to include procedures to enable any resident to opt out of the warning system and a process to terminate the receiving agency's access to the resident's contact information. Current law prohibits the use of the information gathered for any purpose other than for emergency notification. This bill would expand these provisions to authorize a city to enter into an agreement to access the contact information of resident accountholders through the records of a public utility, as specified.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 474	Stern D	Very high fire hazard severity zone: state responsibility area: development prohibition.	2/21/2019	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. L. GOV. on 6/29/2020)	Would, in furtherance of specified state housing production and wildfire mitigation goals, prohibit the creation or approval of a new development, as defined, in a very high fire hazard severity zone or a state responsibility area. By imposing new duties on local governments with respect to the approval of new developments in very high fire hazard severity zones and state responsibility areas, this bill would impose a state-mandated local program. The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.
SB 584	Moorlach R	Electricity: undergrounding of electrical wires.	2/22/2019	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. DEAD on 2/3/2020)	Would require the Public Utilities Commission to require electrical corporations, by July 1, 2020, to develop and administer programs to provide matching funds to local jurisdictions for conversion projects to replace overhead electrical infrastructure with underground electrical infrastructure in Tier 3 High Fire Threat Districts. The bill would require the commission to direct electrical corporations to reallocate credits provided to a jurisdiction under the Rule 20A program for purposes of those conversion projects, as specified.
SB 801	Glazer D	Electrical corporations: wildfire mitigation plans: deenergization: public safety protocol.	1/7/2020	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. U. & E. on 6/29/2020)	Would require an electrical corporation to deploy backup electrical resources or provide financial assistance for backup electrical resources to a customer receiving a medical baseline allowance if the customer meets those conditions.
SB 811	Committee on Budget and Fiscal Review	Unemployment compensation benefits: COVID-19.	1/10/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was A. BUDGET on 6/18/2020)	Would, for the duration of all federal unemployment benefit programs specifically created to respond to the COVID-19 pandemic, would prohibit unemployment compensation benefits paid to an unemployed individual from being charged against the reserve account of a tax-rated employer, unless the employer or an agent of the employer was at fault, as prescribed. Under the bill, this prohibition would become inoperative on January 1, 2021, unless the Director of Employment Development makes a specified determination.
SB 862	Dodd D	Planned power outage: public safety.	1/16/2020	8/14/2020-Failed Deadline pursuant to Rule 61(b)(13). (Last location was A. U. & E. on 6/29/2020)	Current law defines the terms “state of emergency” and “local emergency” to mean a duly proclaimed existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by, among other things, fire, storm, or riot. This bill would additionally include a planned deenergization event, as defined, within those conditions constituting a state of emergency and a local emergency.

Measure	Author	Topic	Introduced	Status	Brief Summary
SB 884	Dodd D	Education finance: emergencies: public safety power shutoffs.	1/23/2020	8/21/2020-Failed Deadline pursuant to Rule 61(b)(15). (Last location was A. APPR. SUSPENSE FILE on 8/18/2020)	If the average daily attendance of a school district, county office of education, or charter school has been materially decreased during a fiscal year because of a specified emergency, current law requires the Superintendent of Public Instruction to estimate the average daily attendance in a manner that credits to the school district, county office of education, or charter school approximately the total average daily attendance that would have been credited to the school district, county office of education, or charter school had the emergency not occurred. This bill would add public safety power shutoffs to the list of emergencies for which the above-described provisions apply.
SB 915	Leyva D	Mobilehome parks: emergency relief: coronavirus (COVID-19).	2/3/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(15). (Last location was S. INACTIVE FILE on 9/1/2020)	Would prohibit the management of a mobilehome park from terminating or attempting to terminate the tenancy of a resident who is impacted by the coronavirus (COVID-19) pandemic during a declared state of emergency or local emergency related to the COVID-19 pandemic, and during a 120-day time period after the declared emergency order is lifted. The bill would also prohibit the management of a mobilehome park from issuing a 60-day notice of termination of tenancy during this timeframe.
SB 939	Wiener D	Emergencies: COVID-19: evictions.	2/6/2020	8/31/2020-Failed Deadline pursuant to Rule 61(b)(18). (Last location was S. APPR. SUSPENSE FILE on 6/9/2020)	Would prohibit the eviction of tenants of commercial real property, including businesses and non-profit organizations, during the pendency of the state of emergency proclaimed by the Governor on March 4, 2020, related to COVID-19. The bill would make it a misdemeanor, an act of unfair competition, and an unfair business practice to violate the foregoing prohibition. The bill would render void and unenforceable evictions that occurred after the proclamation of the state of emergency but before the effective date of this bill. The bill would not prohibit the continuation of evictions that lawfully began prior to the proclamation of the state of emergency, and would not preempt local ordinances prohibiting or imposing more severe penalties for the same conduct.

OPERATIONAL AREA EXECUTIVE BOARD QUARTERLY MEETING AGENDA

November 18, 2020 – 1:30 p.m.

MEETING HELD REMOTELY ONLY

***** Pursuant to the provisions of California Governor's Executive Order N-29-20, issued on March 17, 2020, this meeting will be held by teleconference only.**

To attend and participate in the meeting, please follow the instructions, below. ***

To attend the meeting, please call in to the toll free number below:

Toll-Free:	877-336-1828
Access Code:	5180323

Agenda: This agenda contains a brief general description of each item to be considered. Except as otherwise provided by law, no action shall be taken on any item not appearing in the following agenda. The Emergency Management Council encourages your participation.

This agenda is available in alternative formats to persons with a disability in compliance with the Americans with Disabilities Act. To request an alternate format you may contact the Emergency Management Division from 8:00 a.m. to 5:00 p.m. by calling (714) 628-7054 or e-mailing the Emergency Management Division at OAdmin@ocsd.org.

33. Additional Items and Public Comments for OA Executive Board

At this time, members of the public may address the Operational Area Executive Board regarding any matter within the subject jurisdiction of the Operational Area Executive Board provided that **NO** action may be taken on off-agenda items unless authorized by law. Comments shall be limited to two minutes per person and twenty minutes for all comments, unless different time limits are set by the Chairperson subject to the approval of the Operational Area Executive Board.

34. Approve Minutes- August 12, 2020 OA Executive Board Meeting

Recommended Action: Review, make corrections if necessary, and approve minutes.

35. Election of 2021 Chair and Vice Chair

Recommended Action: Elect Chair and Vice Chair.

36. Emergency Management Performance Grant

- 2019
- 2020
- 2020-Supplemental

Recommended Action: Receive and File

37. Orange County All Hazards Incident Management Team

Recommended Action: Hear report.

38. Independent Special Districts of Orange County Quarterly Report

Recommended Action: Hear report.

39. OCEMO Report

Recommended Action: Hear report.

40. Operational Area Financial Report

Recommended Action: Receive and file.

41. Operational Area Executive Board Chairperson Comments

42. Adjourn Operational Area Executive Board/Next Meeting

The next meeting of the Operational Area Executive Board will be February 10, 2021 at 1:45 p.m., either virtually or at the County Administration South Building, Conference Center Room CC104, 601 N. Ross St., Santa Ana, CA 92703.

OPERATIONAL AREA EXECUTIVE BOARD QUARTERLY MEETING MINUTES

Virtual Conference Call

August 12, 2020

Immediately following the Joint EMC/OA Executive Board Meeting

Attendees

Voting Members:

Doug Chaffee, Orange County Board of Supervisors, Fourth District
Clayton Chau, Orange County Health Care Agency
Luis Estevez, City of Placentia representing City Engineers' Association of Orange County
Brian Fennessy, Orange County Fire Authority
Jeff Hallock, Orange County Sheriff's Department
Tom Kisela, Orange Police Department representing Orange County Chiefs' and Sheriff's Association
Lance Larson, Orange County Transportation Authority
Christine Laehle, Orange County Department of Education
Kevin Onuma, Orange County Public Works
Vicki Osborn, Municipal Water District of Orange County representing the Independent Special Districts of Orange County
Scott Stiles, City of Garden Grove representing Orange County City Manager's Association

Orange County Sheriff's Department Emergency Management Staff:

Miriam Aldana
Michelle Anderson
Donna Boston
Ethan Brown
Janell Harriman
Lee Kaser
Chelsea McConnell
Fred Selayandia
Grace Zambrana-Sutton

Guests:

Cymantha Atkinson, Orange County Community Resources
Randy Black, Orange County Fire Authority
Richard Farfan, Orange County Intelligence Assessment Center
Katrina Faulkner, Orange County Transportation Authority
Frank Kim, County Executive Office
Phillip Gonshak, Seal Beach Police Department representing Police Chief's and Sheriff's Association
Phil Johnson, Orange County Fire Authority
Tom Koutroulis, Orange County Waste and Recycling
Sarah Limones, City of Aliso Viejo representing Orange County Emergency Management Organization
Tammi McConnell, Orange County Health Care Agency
Mark Monin, El Toro Water District representing Independent Special Districts of Orange County
Richard Nelson, Orange County Sheriff's Department, Mutual Aid
Brian Prieto, Orange County Probation Department
Nicole Sims, Office of the County Counsel
Richard Steele, John Wayne Airport
Steve Thronson, Orange County Health Care Agency
An Tran, Orange County Social Services Agency
Jordan Young, Orange County Waste and Recycling

31. Additional Items and Public Comments for OA Executive Board

Chief Phil Johnson called the meeting to order at 2:20 p.m. There were no additional public comments.

32. Approve Minutes – May 13, 2020 OA Executive Board Meeting

Motion made by Supervisor Doug Chaffee and seconded by Vicki Osborn. ***Minutes were approved.***

33. 2019 Emergency Management Performance Grant Extension

Michelle Anderson reported that typically, the Emergency Management Program Grant (EMPG) runs for a single fiscal cycle, from July through June. With the COVID-19 activation, both the County and cities were unable to completely expend their 2019 EMPG allocations. Fortunately, this grant has a two-year performance period so the County was able to seek CalOES approval to push the deadline for the County and cities to complete their work by December 31st. The County is also waiving the local requirement for participating cities to attend 50% of OCEMO meetings as some cities were unable to attend meetings in January through June due to COVID-19, and counting any future meetings would create a conflict with the 2020 EMPG grant requirements.

34. 2020 Emergency Management Performance Grant Application

Michelle Anderson reported that the Emergency Management Performance Grant (EMPG), as mentioned in Agenda Item 33, is an annual grant that runs July 1st through June 30th. The 2020 EMPG Application is the approval of the 2019 EMPG Extension (the goal is for a one-year cycle). What is different this year and reflected in Agenda Item 35 is that Congress passed a supplemental EMPG as part of the Cares Act. Today, it is proposed that both the normal annual allocation as well as the supplemental funds be managed in the same way as traditionally managed, which is essentially as follows: Emergency Management Division (EMD) takes 5% of the award of management and strict administrative costs. Then, split the remaining balance 50% 50% between the County to support EMD activities on the Operational Area's behalf as well as 50% going to participating cities. At this point in time, the EMPG supplemental application, which is Agenda Item 35, is due sooner than Agenda Item 34, which is the normal allocation and due by September 8th. Currently, 15 cities are interested in participating in that award. It is unknown how many cities are interested in participating in Agenda Item 34; however, it would be good to move forward with the allocation of 50% of the award to interested cities.

The proposal to keep the same requirements remains, as some are required by the federal government and need to be National Incident Management System (NIMS) compliant and complete a transfer agreement with the County. If funding personnel is preferred, there are 11 required courses that the selected personnel must take. The same personnel must complete three exercises during the grant period and participate in at least 50% of Orange County Emergency Management Organization (OCEMO) monthly meetings. Finally, in expanding their funds, meet a match requirement set by the federal government, which is essentially \$1 for dollar match. A motion was made to approve the three grants.

A motion was made by Doug Chaffee and seconded by Katrina Faulkner. The 2019 Emergency Management Performance Grant Extension and the 2020 Emergency Management Performance Grant Application were approved.

35. 2020 Emergency Management Performance Grant Supplemental Application

See Agenda Item 34. 2020 Emergency Management Performance Grant Application above.

A motion was made by Doug Chaffee and seconded by Kevin Onuma. The 2020 Emergency Management Performance Grant Supplemental Application was approved.

36. Orange County All Hazards Incident Management Team

Phil Johnson reported that the Orange County All Hazards Incident Management Team had no activations since May. The team remains ready to go as an all hazards team and focused on wildfires during this time of the year.

37. Independent Special Districts of Orange County Quarterly Report

Vicki Osborn reported that collaborative coordination continues amongst the Special Districts with communications and coordination related to COVID-19. The Independent Special Districts of Orange County (ISDOC) is happy to report there has been no significant impacts to any operations or services that Special Districts provide. They continue to work closely with each other and want to thank the Operational Area, Donna Boston and her team, for their support and assistance.

ISDOC held the quarterly meeting on July 23rd and the executive committee continues to meet monthly. Items of interest for this group include:

- Orange County Local Agency Formation Commission (LAFCO) is developing the Municipal Service Reviews on Special District agencies for the fourth cycle (2018-2022).
- Special Districts continue to work closely with the California Special District Association (CSDA) and the California Municipal Utility Association (CMUA) on legislation efforts related to Special Districts. ISDOC issued letters of support for California SB 138, and federal HR 7073.

The Water Emergency Response of Orange County (WEROC) continues to meet regularly with its members, virtually that is, and besides COVID-19 has been working on the following emergency management activities:

- American Water Infrastructure Act of 2018 project.
- New Training and Exercise Plan to be incorporated in the Operational Area Training and Exercise Plan.

- Public Safety Power Shutoff Procedures to work in conjunction with the Operational Area Public Safety Power Shut-off Standard Operating Procedure.
- Approval obtained for operator continuing education and contact hours during this unique time for new projects.
- Seeking state approval for a virtual offering of ICS 300 & 400 trainings to be conducted by WEROC.

38. OCEMO Report

Sarah Limones reported that the Orange County Emergency Management Organization resumed their monthly virtual meetings. In June, guest speaker, Mike Martine, an expert and consultant on economic recovery answered questions regarding FEMA and CARES Act financial assistance. In July, the group had representatives from the California Public Utilities Commission and Southern California Edison (SCE). They each presented on Public Safety Power Shut-off during COVID-19. SCE also presented on wildfire preparedness efforts. During the August meeting, two presentations on the different models for COVID-19 testing within Orange County took place. The Emergency Manager from the City of Irvine presented on their City's funded model that is happening at the Great Park. The Public Information Officer for the City of Anaheim presented on their City/County model and partnership with the Anaheim Convention Center.

Some subcommittees have been able to meet virtually including the Care and Shelter and Technology subcommittees. The OCEMO Leadership will meet next week to plan for September and October meetings and potential speakers. The next OCEMO meeting is scheduled for September 10th.

39. Operational Area Financial Report

Document was received and filed.

40. Operational Area Executive Board Chairperson Comments

Fire Chief Phil Johnson thanked everyone for the collaborative effort since the last meeting and for the things that everyone has had to deal with throughout the County—the biggest item being COVID-19. It is not only throughout the County but around the world, all while preparing for fall prevention. COVID-19 has gone on a lot longer than anticipated so for those parents with small kids and with the current school situation, keep smiling and there will be an end at some point. Thank you so much! The meeting was adjourned at 1:45 pm.

41. Adjourn Operational Area Executive Board/Next Meeting

The next meeting of the Operational Area Executive Board will be November 18, 2020 at 1:30 p.m. via Zoom, Virtual Conference Call.

Operational Area Executive Board

Date: November 3, 2020

Agenda Item: # 36

TO: Chairperson and Members of the Operational Area Executive Board

FROM: Emergency Management Division

SUMMARY: Operational Area Financial Report

Narrative:

Emergency Management Performance Grant (EMPG) Timelines:

- FY 2019: Due to the COVID-19 incident and response, this grant cycle has been extended from May 31, 2020 to December 31, 2020 for cities to finish their projects.
- FY 2020: This grant application is due to California Office of Emergency Services for approval in the next quarter. The deadline to expend this grant is currently June 30, 2021. If COVID-19 continues to impact the Operational Area, the close out could potentially be extended.
- FY 2020 Supplemental: This grant is anticipated to be accepted by the Board of Supervisors in December. The deadline to expend this grant is currently June 30, 2021. If COVID-19 continues to impact the Operational Area, the close out could potentially be extended.

Recommended Action: Receive and file.
