Custody Mission Statement

The Orange County Sheriff's Department's Custody Operations Command is dedicated to providing safe and secure facilities for those entrusted to our care. It is ingrained in our departmental character to uphold the law and is professionally delivered with the utmost integrity. We remain ever diligent to the citizens of the County of Orange with the confidence our staff remain professional in the performance of their duties and vigilant in their efforts to safeguard the community.

Courts Mission Statement

The Mission of the Orange County Sheriff's Department Court Operations Division is to protect and to serve the Orange County Judiciary and the public with integrity and dedication by ensuring a safe environment with an unparalleled commitment to providing Professional Civil Services and executing all orders of the Superior Court in the most efficient and courteous manner.

Custody and Court Operations Manual (CCOM)

The Custody and Court Operations Manual (CCOM) has been prepared and published for the Orange County Sheriff's Department. The CCOM is intended to provide all sworn, non-sworn, and professional staff members in both Custody Operations Command and Court Operations Division with current and applicable rules and regulations.

Although Custody and Courts fall under different commands, the two are inherently linked in their daily operations. This association and relationship warrants the continuance of this adjoined policy that respects the combined mission of both commands.

This manual has been prepared to aid sworn personnel in performing their duties. It is not intended to be used as a substitute for training requirements, nor does it relieve any deputy of the responsibility of seeking answers to questions from an authoritative source. It is incumbent upon each deputy to keep abreast of all changes in the laws, departmental regulations and procedures. Finally, this manual is offered for reference and is not intended to stifle discretion or initiative when appropriate. All deputies should exercise their responsibilities in an efficient and professional manner. In so doing, the public's trust and confidence in the Orange County Sheriff- Coroner Department will be enhanced. The policies contained in this manual are subordinate to the Orange County Sheriff's Department Policy Manual. If there is any perceived or real contradiction between the two manuals, the Department Manual policy supersedes the CCOM. The contradiction from the CCOM is to be brought to the attention of a supervisor and notice shall be made via the chain of command to resolve the conflict. Additionally, any facility and/or assignment specific sections of the CCOM (ie: 3000 through 19999) will be subordinate to CCOM sections 1100 through 2999.

Disclosure of the material contained in this manual may compromise facility security, harm public safety, and place personnel in danger. The contents of this manual are not to be released to any member of the public or outside agency without authorization from the Custody and Court Operations Assistant Sheriff. Loss of this manual should be reported immediately to a facility shift commander.

Portions of the policy contained within these sections are recognized as confidential or sensitive information by the California Code of Regulations Title 15 Section 1029 and are not to be distributed to the general public or the media.

1600.5 - Inmate Grievance Procedure

a) Purpose

1. The Department endeavors to meet the legitimate needs of the inmates in its custody. It also recognizes that problems relating to conditions of confinement can and do arise, and can seem especially significant to inmates who have limited control over their own circumstances.
2. The grievance procedure is a formal process for an inmate to address a specific issue or condition of confinement that personally and directly affects him/her. It provides a positive outlet for the expression of concerns, and facilitates their fair and appropriate resolution. It

also reduces the likelihood that inmates will resort to misconduct as a means of handling their real or perceived problems. In these ways, the grievance procedure improves custody operations.

3. In order to exhaust administrative remedies as required by the Prison Litigation Reform Act (PLRA), the inmate must follow the grievance procedure outlined in this section.

b) Allowable Grievances

1. Any inmate may file a grievance related to any condition of confinement, including but not limited to:
 - i. Medical Care
 - ii. Classification Actions
 - iii. Program Participation
 - iv. Telephone, Mail, and Visiting Procedures
 - v. Food, Clothing, and Bedding Issues
 - vi. Disability accommodations and/or discrimination
2. The grievance procedure is not to be used for disciplinary appeals. For more information about the disciplinary appeal process, reference CCOM Policy 1602.6 - Appeal Procedure.
 - i. Staff will accept disciplinary appeals even if they are on the wrong form and will forward them pursuant to CCOM Policy 1602.6 - Appeal Procedure.
3. An inmate may not file a grievance on any issue which the Department has no control over, such as
 - i. Federal, State, or Local Laws
 - ii. Judicial Proceedings or Decisions of the Courts
 - iii. Probation or Parole Actions
4. If a grievance is invalid, staff will document the specific reason on the form. Staff will provide the inmate with a copy and forward the original to Inmate Records for inclusion in the inmate's records file.
 - i. Invalid grievances will not be entered into the grievance database and will be kept only for documentation purposes.
 - ii. Staff may act on an invalid grievance if it is in the best interest of the Department.

c) Initiating a Grievance

1. Inmates may utilize the grievance procedure regardless of disciplinary status, housing location or classification.
2. Grievance forms are available in all housing locations.
3. Any staff member who receives a verbal or written request for a grievance form shall, as soon as practical, provide one to the requesting inmate.
4. The grievance procedure is to address the specific concerns of the individual inmate filing the grievance.

- i. The inmate shall place a single complaint with related issues on a single grievance form. If multiple, unrelated issues are included on a single form, staff will return the form to the inmate and instruct him/her to submit a separate form for each unrelated complaint.
 - ii. An inmate shall not submit a grievance on behalf of another inmate or group of inmates. Petitions or joint grievances involving multiple inmates will not be accepted.
 - iii. This shall not prevent an inmate from obtaining assistance in preparing or filing a grievance (e.g., family, attorney, or other inmates).
5. Illiterate, disabled, or non-English speaking inmates shall be provided assistance, upon request.
6. All properly completed grievance forms shall be submitted within 14 calendar days of the alleged incident. Any grievance form submitted after 14 days will be considered invalid. The inability to obtain assistance is not a valid reason for exceeding the time limit for submissions.

 - ii. The inmate may submit the grievance form directly to sworn staff.

 - C. The receiving staff member will legibly print his/her name and PID number and enter the date/time of submission on the “Received By” line of the grievance form.
 - D. If the sworn staff member can resolve the grievance upon receipt from the inmate, he/she shall document the resolution in the appropriate sections of the grievance form and assign the grievance a jail incident number (JI number). The staff member will write his/her name and PID number and the date/time of return on the “Response Returned to Inmate” line of the grievance form. The staff member will provide the inmate a completed copy, and place the original completed and signed form in the area’s grievance box for supervisor review, database upload, and distribution.

The original grievance with the written response will be forwarded to the facility Administrative Sergeant for review, distribution, and will be filed in administration at the originating facility.

4. Grievances that are denied or cannot be resolved will have written reasons for the denial from each level of review which acted upon the grievance.

1606 - Inmates with Disabilities

The Federal Americans with Disabilities Act (ADA) and the California Disabled Persons Act (CDPA) provide, in general, that qualified individuals with disabilities shall not be excluded from participation in, denied the benefits of, or subjected to discrimination in a public entity's services, programs, or activities, based upon a disability. The ADA and CDPA apply to all OCSD jail facilities.

For the purpose of this policy, when referring to the term “inmate,” the Orange County Sheriff’s Department is referring to incarcerated individuals within our custody, including but not limited to: sentenced and un-sentenced inmates, civil detainees, US Marshals inmates, CPC 1170(h) inmates, etc.

Inmates with disabilities are entitled to the same rights, privileges, and services as other inmates of the same classification level. While the ADA does not specify specific impairments, an inmate is covered by the ADA when the inmate has a permanent, temporary, or intermittent condition that impacts a major life activity. Some examples of major life activities include bathing, caring for one’s self, moving from place to place, understanding or interpreting instructions, and eating.

Each inmate covered under the ADA must be reasonably accommodated through some means, such as modified housing for wheelchair access, or closed-captioning on the television for someone with a hearing impairment.

DEFINITIONS:

Disability: An individual has a disability if there is a physical or mental impairment that substantially limits one or more major life activities; or the individual has a record of such an impairment; or the individual is regarded as having such an impairment.

a) Physical or mental impairment:

2. Has a physical or mental impairment that substantially limits major life activities but only as a result of the attitudes of others toward such impairment or, has none of the impairments defined in paragraph 1 of this definition, but is treated by a public entity as having such an impairment.

 2. Compulsive gambling, kleptomania, or pyromania; psychoactive substance use disorders resulting from current illegal use of drugs.

Reasonable Accommodation: Any change in the facility or field environment, policies, procedures, or the manner in which tasks are completed that enables a qualified individual with a disability to participate in and receive the same benefits from a program or service. This includes ensuring a qualified individual's opportunity to receive the same benefit of service. Reasonable accommodation does not require fundamental alteration of the nature of a program or activity.

Auxiliary Aids and Services: Includes, but is not limited to, assistive communication devices for the deaf, hard of hearing, and visually impaired (e.g., TDD/TYY, closed caption video as necessary and appropriate, Braille, audio technology, large print); a qualified interpreter (or, in some circumstances, an interpreter who demonstrates proficiency adequate to the task); providing a reader or note taker; use of an elevator by mobility-impaired inmates to enable access to programs; and modification or acquisition of adaptive equipment and devices.

An accommodation will not impose undue hardship on the Department or compromise the safety or security of staff, inmates or others at facility or field sites.

Qualified Individual With a Disability: An individual with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services or the participation in programs or activities provided by a public entity.

The decision as to what type of accommodation/modification is appropriate is made on a case-by-case basis. For more information about inmates with disabilities, reference CCOM Policy 1201.13 – Inmates with Disabilities.
3. Inmates with disabilities may arrive with an assistive device, such as a cane, crutch, walker, wheelchair, etc. Unless a Captain or Watch Commander determines and documents, based on an individualized assessment, that the said device constitutes an immediate risk of bodily harm to inmates, staff or threatens the security of the facility, the inmate shall be allowed to retain the device. If there is a security issue with a specific device (e.g. metal tipped cane), the inmate will be provided a County-approved substitute device. These inmates will be permitted to possess their assistive device in a temporary holding cell at all times.
4. Triage Medical Staff will contact the Operations Sergeant and the ADA Deputy whenever a qualified inmate with a disability enters triage. If the Sergeant is not available, the telephone call will automatically transfer to the Receiving Guard Station Deputy (available 24 hours-a-day).

The deputy will checkmark “yes” or “no” in the boxes provided and place his/her initials and PID number next to each activity. Completed forms will be delivered to the IRC Operations Sergeant’s Office by the assigned deputy. Completed forms will be collected by the Administrative/ADA Deputy.

If there is a security issue with a specific device (e.g., metal tipped cane), the inmate will be provided a CHS-approved substitute device. If an inmate arrives to an Orange County Jail facility with a prosthetic or assistive device, the inmate will have their device returned to them after it is searched, or a CHS approved substitute device will be provided to them, prior to the completion of the booking process. These inmates will be permitted to possess their prosthetic or assistive device in their housing location at all times.
4. When an inmate requiring an assistive device is moved outside of their assigned housing location for court, visiting, chow hall, medical appointment, etc., while being moved between floors, up or down stairs and/or escalators, a deputy may escort the inmate on a case-by-case basis in order to maintain the inmate's safety.

f) Use and Restrictions of Strip Searches

1. No strip search will be conducted on an inmate until at least six hours have elapsed from the time of booking, which is sufficient time for inmates to post bail or be released on their own recognizance. 4. Inmates may be strip searched under the following conditions:
5. All inmates going into housing upon completion of the booking process requirements noted above.
 - i. Inmates returning from court, out of facility work assignment, hospital appointment, contact visit, or any event that caused the inmate to be removed from the secure area of the facility should be strip searched.
 - ii. Inmate workers returning to their housing locations after performing their assigned duties.
6. In addition to those times when strip searches are authorized by this policy, an inmate may be strip searched before it is determined he or she will be placed in housing, or at any other time whenever there is reasonable suspicion to believe the inmate is concealing contraband or weapons. In those instances, deputies are to follow section “Strip Searches Requiring Reasonable Suspicion” (CCOM 1710.4(n)).

3. Persons conducting or otherwise present or within sight of the inmate during a strip search must be sworn peace officers and the same gender as the inmate(s) being searched, except for physicians or licensed medical personnel. 1716 - Safety Checks

1716.1 - Definition and Purpose

- a) A safety check is a direct visual observation of each inmate located in an area of responsibility. The purpose of conducting safety checks is to maintain the safety and health of inmates and the security of our facilities.

1716.2 - Conducting Safety Checks

- a) Correctional Services Assistants (CSAs) and Sheriff's Special Officers (SSOs) may conduct safety checks for Special Management Unit (SMU) cells only. Deputies will conduct safety checks in all other areas.
- b) Staff will conduct timely, thorough safety checks. Due to the variety of housing designs within our facilities (modules, tanks, barracks, dorms, tents, holding cells, and SMU, etc.), methods of conducting safety checks may vary. Safety checks must be conducted from a location which provides a clear, direct view of each inmate. Staff shall be close enough to each inmate to ascertain their presence and apparent physical condition. Staff shall investigate any unusual circumstances or situations.
- c) Safety checks may not be conducted from a guard station. For linear style housing units, safety checks must be conducted from the beach and the upper tier within the housing unit. In addition to the beach and upper tier, other locations for the safety check may need to be utilized (e.g.: the

inner, outer and rear guard corridors) in order to ascertain the presence and apparent physical condition of every inmate.

- d) Audio/visual electronic surveillance systems shall not be used to conduct safety checks, but may be used to supplement and verify checks.
- e) Staff will pay special attention to areas with low visibility. Diligent enforcement of the jail rules will help prevent inmates from covering lights or placing items which obstruct staff's view. This will increase staff's ability to do comprehensive visual checks.
- f) Activities which provide staff with a clear, direct view of all inmates in the area of responsibility will meet the safety check requirement.
- g) Facility specific safety check information is located in the following sections:
 - 1. Intake Release Center – 3002
 - 2. Central Men's Jail – 4000
 - 3. Central Women's Jail – 5000
 - 4. Theo Lacy Facility – 7000

1716.3 - Frequency of Safety Checks

- a) Staff will conduct safety checks to verify the status of inmates in their area of responsibility within the following timeframes. More frequent checks are encouraged.
 - 1. Special Management Unit Cells – Each check must begin within thirty minutes of the beginning time of the previous check.
 - 2. Central Men's Jail Sheltered Living, Central Women's Jail Medical Floor and Intake Release Center Module "L" – Each check must begin within thirty minutes of the beginning time of the previous check.
 - 3. Intake Release Center Module "S" - Each check must begin within thirty minutes of the beginning time of the previous check. When there are no inmates housed in Module "S-2" checks can be conducted within sixty minutes of the beginning time of the last check for "S-1" housing.
 - 4. In all other areas, each check must begin within sixty minutes of the beginning time of the last check.
 - 5. Safety Cell checks are covered in CCOM 2104.3 – Safety Cell.
 - 6. Restraint Chair checks are covered in CCOM 1800.5 – Restraint Chair.
 - 7. Mental Health Unavailable Housing checks are covered in CCOM 2100.4 – Mental Health Transfers.
 - 8. Medical Observation checks are covered in CCOM 3000.5 – Medical Observation

1716.4 - Documentation of Safety Checks

- a) Every safety check will be documented in the most appropriate documentation log, (e.g., guard station log, module log, area log, or door log.) The entry will include the name(s) of the personnel

who conducted the safety check and the actual starting and ending times of each check. In areas where there are multiple ways to conduct a proper safety check as detailed in CCOM 1716.2, the entry will also include the location from where the check was conducted.

- b) The entry will include appropriate details of the check and the conditions observed. Some examples:
 1. No problems to report.
 2. No unusual activity noted.
 3. No suspicious activity observed.
 4. Roof leaking in G-East. Sgt. X and facility maintenance notified.
 5. Light burned out in N-28-13. Maintenance request submitted.
- c) Each sergeant will check the logs in their area of responsibility to verify staff is properly documenting safety checks. A notation will be made in the log with the sergeant's name and time the log was checked.

1716.5 - Late Safety Checks

- a) If it appears a safety check cannot be conducted within the required time frame, the area sergeant will be notified as soon as possible, preferably prior to the time the check will be due. The sergeant will locate and assign available staff to complete the check.
- b) If a safety check is not completed within the required time frame, staff must:
 1. Complete the check as soon as possible.
 2. Notify the area sergeant as soon as possible. If staff is still not available to conduct the check, advise the sergeant of the apparent conditions, including any unusual circumstances or activity, and continue to observe the area.
 3. Make an entry in the guard station log describing the circumstances which caused the check to be delayed, which sergeant was notified, and the information provided to the sergeant.
- c) The sergeant will document the late safety check in the supervisor's log, including the reason the check was late and any corrective action taken.

1717 - Electronic Scanning Devices

Electronic searches can play an important role in the interdiction of weapons and other potentially dangerous contraband into correctional facilities. These searches are conducted to ensure the safety and security of staff, visitors, inmates, and the facility. Correctional facility personnel shall follow the guidelines established for these searches.

- a) Electronic scanning devices are non-intrusive scanning systems, which utilize low intensity magnetic fields. They are designed to detect small weapons or contraband metal objects concealed in oral, anal or vaginal body cavities. These electronic scanning devices do not detect

non-metallic objects such as plastics, chemicals and organic substances and should not be used as a substitute for inmate strip searches.

- b) The magnetic fields produced by these electronic scanning devices pose no danger to people with heart pacemakers or women who are pregnant.

1717.1 - Use of an Electronic Scanning Device

- a) Use of an electronic scanning device should be used by staff members who have been trained in their operation.
- b) All newly booked inmate searches will be conducted using a minimum of a grasping hand search. Additionally, newly booked, returning, or inmates leaving housing areas are also subject to a non-intrusive sensor and scanning device search.

1717.2 - The Garret Walk-Through Metal Detector

- a) Walk-through metal detector screening procedure:
 1. Each walk-through metal detector is 80 inches tall and 30 inches wide and will register a false alarm if an inmate, deputy, or any other staff member touches the unit. The deputy needs to make sure inmates or other staff members do not touch or stand close to the sides of the unit, as it will register a false reading.
 2. The deputy should stand no closer than 5 feet in front of the unit and the inmates should stand no closer than 3 feet behind the unit. If a deputy is to stand adjacent to the unit, they should stand no closer than 3 feet to the unit. These distances are approximate and need to be adhered to as to not cause interference to the units.
 3. The LED indicator lights are located on the top center of each unit and the control keypad is located on the opposite side. These small green bars have a rating of 0 to 8. If the bars indicate 0 through 3 the unit has minimal interference, which is OK to send an inmate through. Anything above 3 is considered maximum interference, which is NOT OK to send an inmate through, as a false reading will be obtained.
 4. The deputy should look at the small green bars before allowing an inmate to walk through the unit. If the minimal interference is not obtained after several minutes, the scanning deputy should make sure there are no objects or personnel close to the unit causing the interference. If minimal interference is still not obtained the scanning deputy should contact jail staff responsible for recalibrating the unit.
 5. NOTE: The metal detectors have been calibrated to not register on the small aluminum wristband clasp, but will register on a handcuff key. The difference between the key and the clasp is the volume of the metal.

1717.3 - Alarm Activation

- a) If an inmate registers an alarm or the LED reaches the red zone bar, have the inmate walk through the unit again. If an alarm registers, the deputy should investigate further and consider a grasping hand search or strip search. For strip search procedures see CCOM 1710.4(e).
- b) Inmates with waist restraints, leg restraints, and/or handcuffs should not be put through a walk-through metal detector. The walk-through metal detectors are to find small pieces of metal throughout the body.
- c) The handheld metal detector should be used on all combative, waist restraints, leg restraints, and/or handcuffed inmates to prevent damage and false reading to the walk-through metal detectors. The handheld metal detectors can be located at:
 1. IRC:
 - i. [REDACTED]
 2. TLF:
 - i. [REDACTED]
 3. JAMF:
 - i. [REDACTED]
 4. CMJ:
 - i. [REDACTED]
 - ii. NOTE: Flex cuffs are also an option for combative inmates when using the handheld metal detectors.

1717.4 - Body Orifice Security Scanner (B.O.S.S.) Screening Procedure

- a) The B.O.S.S. is made operational by connecting the power cord to an AC power outlet. The unit will undergo a brief self-diagnostic routine and then indicate that it is complete when the green LED lamps illuminate.
- b) Staff should test the B.O.S.S. [REDACTED]
[REDACTED]
[REDACTED].
 1. The sensitivity can be adjusted by accessing the respective sensitivity adjustment program [REDACTED] The operating parameters can only be accessed by an authorized staff member (refer to the operator's instruction manual or CD).
 - i. Setting the sensitivity too high may result in unwanted alarms from dental fillings. The factory settings should be sufficient for use in a correctional setting.
 2. The person being screened should first momentarily place their [REDACTED]

3. After the mouth is scanned, the person should be directed to sit in the chair. The correct seating position is with the base of the back against the backrest.
 4. If a [REDACTED] audible alarm and LED light designated for the area sensor will activate.
- c) Combative or uncooperative inmates shall be restrained with plastic flex-cuffs prior to use. No restraints other than plastic flex cuffs may be worn by an inmate being scanned using the BOSS.
 - d) The BOSS is used to scan body cavities for metallic contraband only. The BOSS should be used in accordance with a strip search, or when the deputy has reason to believe the inmate is hiding a metallic object inside their body.
 - e) Inmates will not be placed in the BOSS while wearing their personal clothing. They will be dressed in jail issue smock tops and pants which have no metallic parts
 - f) Inmate workers will be changed out of their jeans and into pants which have no metallic parts.

1717.5 - Jewelry or other metallic items

- a) Metallic restraints must be removed prior to use of the chair sensor.
- b) Inmates should be questioned by staff as to the presence of metallic objects in the inmate's body. This can include surgically or otherwise implanted metallic prosthetics or plates.

1717.6 - Documentation

- a) Staff members initiating the scan of an inmate shall document all events, which detect concealed items, by written annotations in the log and pass on all the information to Main Control. Main Control will log all the appropriate information into the 24 Hour Jail Operations Log. Supervisors will check to ensure all incidents have been properly documented. The annotations on the log will include the following information:
 1. The time and date of the scan.
 2. Name and booking number of the inmate scanned.
 3. The results of the scan or comments.
 4. The name and ID# of the user/staff member.

1717.7- Body Scanner

- a) Policy
 1. The body scanner shall only be used by staff members who have been trained in its operation.
 2. Body scan searches may be conducted on all new bookings, court returns, hospital returns, inmates returning from contact visits, inmates on a work crew, or any other inmate entering or housed in an Orange County Jail facility equipped with body scanners.
 3. Inmates who cannot be safely scanned or are physically incapable of passing through the scanner will not be required to be scanned.
 4. Inmates known or suspected to be pregnant will not be scanned.

5. CHS shall be consulted if there is any medically related question as to whether an inmate can be scanned.
6. Body scan searches will not replace or prevent deputies from conducting inmate body searches as described in CCOM Policy 1710.4- Body Searches of Inmates.
7. All persons within sight of the visual display of the body scan and staff conducting the scan shall be of the same gender as the inmate being scanned, except for licensed medical personnel (refer to CCOM 1710.4(b)-Body Searches of Inmates, Gender Restrictions).
8. Body scan viewing monitors or generated images shall only be viewed by authorized personnel.
9. All staff and inmates waiting to be scanned will be kept outside the area outlined on the floor while a scan is in progress.
10. If the body scanning device is not functioning properly, the area sergeant will be notified as soon as possible.
11. All inmate scans will be tracked, including the number of times each inmate is scanned. An inmate shall not be scanned more than 250 times in one year.

b) Procedure

1. New bookings

- i. After the arrestee has completed the intake search and uncuff process, the arrestee will be escorted to the body scanner.
- ii. Arrestees will be directed to stand on the body scanner platform with their arms to their side and hold their shoes and socks in their hands.
- iii. All personnel and arrestees waiting to be scanned will be kept outside the area outlined on the floor while a scan is in progress.
- iv. As the scan is completed, a staff member of the same gender as the arrestee will monitor the display for any signs of contraband.

- vi. If contraband is detected and is easily removed from pockets or clothing, the arresting/transporting deputy or officer will be responsible for removing and retaining the contraband. The arrestee will be rescanned to ensure no additional contraband is detected prior to being accepted into custody.
- vii. If contraband is detected in or near a body cavity, the arrestee will be returned to medical triage. Medical personnel will be notified of the findings to ensure an accurate medical evaluation. If the arrestee is accepted into custody, the arrestee will be placed in a secure location and a strip search will be conducted in accordance with CCOM Policy 1710.4(e) - Strip/Visual Body Cavity Search.

2. In-custody inmates

- i. Inmates will be directed to remove their shoes, socks and anything in their pockets.

- ii. Inmates will be directed to stand on the body scanner platform with their arms to their side and hold their shoes and socks in their hands.

- f) Any tracking system issues will be noted on the respective area’s Activity Log and reported to the OCSD’s Systems’ staff for resolution.

- g) Sergeants will review the application in all their areas of responsibility to ensure it is being used and is accurate. Sergeants will note in the Supervisor's Log once per shift that each scanning location's tracking system was reviewed and reconciled.

1720 – Cross Gender Supervision

1720.1

Sheriff's Department personnel shall acknowledge inmates' bodily privacy rights they retain while in the care and custody of the Sheriff's Department. Staff will remain professional at all times and respect the dignity of each inmate. As a general rule, each shift will be sufficiently staffed to provide staff of the same gender as the inmates in a specific housing/work location. This policy shall not be applied to prohibit any work assignment on the basis of an employee's gender. (Penal Code Section 4021).

1720.2

Staff may be assigned to positions that require safety checks or observation at a distance of unclothed inmates of the opposite gender. Cross gender safety checks are permitted by the courts.

- a) Safety checks are direct visual observations of each inmate located in an area of responsibility. The purpose of conducting safety checks is to maintain the safety and health of the inmates and the security of our facilities (CCOM 1716).

1720.3

Staff entry into a housing area/cell while inmates of the opposite gender are present requires accompanying personnel of the same gender as the inmates, except in exigent circumstances. (Penal Code Section 4021).

1720.4

Staff of the opposite gender of inmates will be required to announce their presence when entering an area where inmates are likely to be showering, performing bodily functions, or changing clothing. Inmates shall be able to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine safety checks.

1720.5

The purpose of this policy is to address the use of the gurney by OCSD security staff to restore order and maintain security, in conjunction with a specific incident such as an ERT response, cell extraction, use of force etc. Nothing in this policy is intended to address gurney usage for medical purposes under the direction and supervision of CHS personnel.

- a) A gurney may be used when determined necessary to transport an uncooperative/resistant inmate who continues to resist less constricting control options and continues to disobey commands of the security staff. The gurney shall not be used if the inmate complies with commands and stops resisting when a lower level of restraint is used, i.e., handcuffs, leg restraints, or waist restraints. The following applies to transporting uncooperative/resistant inmates by the use of a gurney:

8. Approved restraint devices may be utilized to prevent the inmate from injuring themselves, injuring others, or damaging property during transport.

LPS seclusion and/or restraints are to be used only as determined by LPS mental health clinical staff for mental health treatment purposes, when deemed necessary to ensure the safety of an inmate or the safety of those around him/her and only after less restrictive interventions have been proven ineffective. The use is to be discontinued as soon as the behavior is controlled. CHS Staff and Deputies working in LPS shall receive annual training to ensure proper compliance with seclusion and/or restraint procedures.

 - iii. If the psychiatrist disagrees with the decision, the inmate will be removed from seclusion and/or restraint.
 3. The psychiatrist's order for restraints shall include the extent of restraint, type of restraint, reason for restraint, and time limit of the order.
 4. If LPS mental health clinical staff determine that an inmate will be placed in seclusion and/or restraints, including the restraint bed, the area Sergeant and Watch Commander will be notified. A J105A form will be generated by LPS mental health clinical staff and given to the deputy in the LPS indicating need of placement in seclusion and/or restraint and any restrictions. Deputies will place the inmate in the restraint device or restraint bed while LPS mental health clinical staff are present. Only deputies trained in the use of the restraint device or restraint bed will place an inmate in the restraint device or restraint bed.
 5. The least amount of restraint points shall be ordered by a CHS psychiatrist to allow the maximum freedom of movement, while ensuring the physical safety of the inmate and staff. Deputies should apply the restraints to secure extremities and waist, but not so tightly as to restrict circulation.
- c) Additional Requirements
1. Absent exigent circumstances, a supervisor will be present prior to deputies placing the inmate in the CHS-ordered seclusion and/or restraint device or the restraint bed and will remain until the inmate is properly secured.
 2. A video camera will be used to record the inmate being placed and secured in restraints or the restraint bed. All additional interactions requiring entry into the cell will also be recorded, including CHS assessments and evaluations.
 3. Any inmate in restraints and/or the restraint bed shall be secured separately from all other inmates.

CHS staff will check the person for any signs of distress and will ensure the restraints remain properly applied to protect the person's safety and wellbeing.

f) Continued Restraint

1. Inmates ordered placed in seclusion/restraints by CHS staff will remain there for at least 15 minutes. This period of time is considered the minimal amount of time for CHS staff to observe and assess the inmate's behavior to determine whether a danger by or to the inmate still exists. The inmate will be evaluated at 15 minute intervals by CHS staff to determine if the inmate has been able to regain control and can be released from the restraint. CHS orders for seclusion and/or restraint shall not exceed four hours.
 - i. There must be a second face-to-face evaluation by a psychiatrist and a new order entered into the inmate's health record when an inmate has been released from seclusion and/or restraints and requires entry again.

 2. Upon determination by LPS mental health clinical staff that an inmate should be released from the restraint device or restraint bed, deputies will release the inmate as soon as a sergeant or above can reasonably respond. A sergeant or above, and LPS mental health clinical staff must be present when the inmate is released from the device or bed. The release of the inmate from the device or bed will be video recorded.

- i) Any use of a less lethal weapon and/or chemical will be documented in a Jail Incident Report, and submitted to his/her supervisor no later than the end of the shift.

1803 - Response Procedures / [REDACTED]

- a) While the general disturbance procedures provide for an orderly, staged and planned response, it may be necessary to have a large number of personnel respond immediately to an incident. Such a response shall be termed [REDACTED] and the restrictions applicable to the use of this measure are explained below.
- b) [REDACTED] may be initiated by any Deputy in any instance where there exists a threat to employee safety, and when announced requires every Deputy within the facility (except those listed below) to secure their work area and respond to the area designated where they shall wait for further instructions.
- c) See facility specific appendix for positions that DO NOT RESPOND to [REDACTED]
- d) If a [REDACTED] response is not required, disturbances within the housing areas shall be controlled utilizing the following procedures.

1803.1 - Response Procedures / General Disturbance

- a) Initial Deputy
 1. The initial response to a disturbance should be scaled to the severity of the situation. This requires the initial Deputy discovering the disturbance to appropriately describe the incident when requesting assistance. The following criteria should be considered in determining the initial response:
 - i. How many inmates are involved?
 - ii. Is the incident contained?
 - iii. What is the severity of the injuries being sustained?
 - iv. Are there weapons involved?
 - v. Is there smoke or fire?
 - vi. Is there major structural damage?
 - vii. Is there likelihood that inmates may gain access to Guard Corridors, or Guard Stations, elevators, stairwells, or control of the roof area?
 - viii. Are inmates assaulting deputies or other non-safety personnel?
 - ix. Are conditions so violent, destructive, or dangerous that total loss of control and/or death is likely?
 2. Based on the above factors the initial response may be limited to a few deputies assigned to the area or may require all available personnel.
 - i. The initial Deputy is in charge of the scene until specifically advised by a superior that he/she has been relieved of that responsibility.

- ii. The initial Deputy shall report the incident to the responsible Guard Station and will then be responsible for observing and directing the activities of the first deputies to arrive on the scene.
- iii. All inmates will be ordered to return to their cells and close their doors.
- iv. The first one or two deputies arriving on the scene shall be directed by the initial Deputy to assess the situation and observe inmate activities.
- v. The initial Deputy may require a backup deputy for the purpose of providing access for additional help and to assist with communications.
- vi. At no time will a Housing Deputy/SSO handling/coordinating the response to a disturbance, leave the security console that controls the affected area.

b) Responding Deputies

1. Priorities of deputies during a disturbance must be ordered as follows:

- i. The safety and protection of the general public is the primary mission. Retaining custody and control of the inmates assures a safer community.
- ii. The safety, welfare, release and rescue of hostages.
- iii. Safeguarding other personnel to prevent loss of life or injuries can reduce the level of violence.
- iv. Preventing unnecessary injury to inmates also controls the level of violence. Those inmates not involved in the disturbance must be isolated and protected.
- v. Property preservation should not be allowed to supersede the value of human life. However, safeguarding property by controlling inmate movement and behavior is a valuable step toward limiting the extent of a disturbance.
- vi. Preservation and collection of evidence.
- vii. Proper documentation of the incident through initial crime reports and/or jail incident reports to ensure enforcement of crimes and/or jail rule violations.

c) Guard Station Deputy/SSO

- 1. The Guard Station Deputy/SSO will notify the appropriate Sergeant of the incident and assign a deputy to respond to the area of disturbance with the video camera from the Guard Station.
- 2. The Guard Station Deputy/SSO shall be responsible for notifying other housing locations to secure all inmates within their cells and/or dayrooms. The Housing Deputies/SSO's shall be alert for any signs of the disturbance spilling over into that area.
- 3. All inmate movement shall cease until the situation is resolved to a point where inmate movement can safely resume.

d) Sergeant

- 1. Upon arrival, the Sergeant will assess the situation and advise the Watch Commander. The Sergeant will take command of the scene until relieved by the Watch Commander.

2. If it appears that the disturbance may escalate, the Sergeant will determine whether additional deputies should be requested. The Sergeant will notify the Watch Commander, who will respond and will direct the staging of support personnel.
- e) Watch Commander
1. The Watch Commander will respond to the scene to make an assessment and may, at his/her discretion, advise the Division Commander.
 2. At the point where escalation or use of an ERT appears inevitable, the Watch Commander will, at the earliest opportunity, notify the Division Commander.
 3. During a major incident the Watch Commander may establish a Command Post.
 4. The Watch Commander will designate a staging area and prepare additional personnel for immediate response, if the situation escalates.
 - i. The Watch Commander may, if necessary, call in all or a portion of the next shift of deputies to assist in handling the disturbance.
 - ii. If the disturbance appears to be escalating, the Watch Commander may request the Patrol Watch Commander to move Patrol Deputies near the jail facility. When this is necessary, the Division Commander and Assistant Sheriff of Jail Operations will be notified first.
 5. Incidents that result in compromised security, injuries likely to result in death or death occur, the Division Commander, Assistant Sheriff of Jail Operations and Sheriff will be notified.
 6. When it appears likely that a total breach of security could occur (i.e., the disturbance will likely spread to all areas of the facility):
 - i. All non-essential personnel will be removed from the facility with Correctional Health Services (CHS) establishing an emergency first aid station in the main security parking lot.
 - ii. The Watch Commander will advise Headquarters to establish perimeter security. The Patrol Watch Commander will assign and deploy shotgun-equipped deputies, under the supervision of a patrol sergeant, to take up positions to maintain perimeter and facility security.
 - iii. Perimeter security personnel shall deny access to the facilities to all but necessary law enforcement, fire and medical personnel, and will be responsible for the apprehension of any inmate who breaches security.

1803.2 - Response Procedures / Riot

- a) Remove all non-participating inmates.
1. Inmates not involved in the disturbance will be allowed to safely withdraw to a non-affected secure area. The [REDACTED] are designated as evacuation rally points and can be used for isolating non-participants.

2. These inmates must be protected as they withdraw and remain uninvolved. Care must be taken to ensure that they do not escape from their safe area during the disturbance.
- b) Establish communications.
1. From information provided from staff and inmates, the Watch Commander and sergeant will attempt to determine the cause of the disturbance.
 2. The Watch Commander will direct a sergeant to contain the situation and identify a spokesman for the inmates. When containment is achieved, the spokesman will be allowed to confer with the Division Commander or his/her designee. Use of a Crisis Negotiator may be used as the designee of the Division Commander.
 3. When hostages are taken, the Crisis Negotiations Team (CNT) will be summoned through the Emergency Communications Bureau (ECB) Commander. All negotiations will be conducted by CNT. For more information about hostage incidents, reference CCOM Policy 2612 - Hostage Plan.
- c) Gather facts from the staff.
1. Staff will be questioned about their observations. Riot leaders and participants who committed injury or damage will be identified.
 2. When possible, staff will make notes of their observations and forward them to the sergeant. This will be preparatory for any subsequent disciplinary or legal actions.
- d) After the riot is controlled:
1. Confine the riotous inmates in a secure place with enough deputies to maintain control.

 5. Correctional Health Services (CHS) will immediately attend to any serious injuries requiring emergency first aid. Other non-life threatening injuries will be prioritized for treatment at the Module Nurse's Office.
 6. Inmate programs and normal facility schedules will be interrupted until order is restored. The Division Commander will be summoned to review the incident and decide when to resume normal operations.
 7. A thorough investigation will be conducted. Staff and inmates will be interviewed. Reports will be written by all necessary staff as determined by the sergeant.
 8. Forensic Specialists will photograph the area involved in the disturbance. Evidence will be collected as appropriate.
 9. Inmates identified as instigators, agitators and those who committed crimes will be housed under increased security while awaiting appropriate discipline. Inmates found to be involved may face legal action by the District Attorney's Office.

- b) Deployment of less lethal systems will be consistent with the Orange County Sheriff-Coroner Department Policy Manual (Lexipol) 300 - Use of Force.
- c) While the option to utilize less-lethal force is available, nothing in this policy shall require any personnel to deploy such option when circumstances reasonably indicate the use of deadly force is appropriate.
- d) Only qualified sworn personnel trained in the use of less lethal systems shall be authorized to deploy them.
 1. Qualified personnel are those who have completed the required training designated for each less lethal system.
 2. Once certified, operators must complete any required update training courses. Training will consist of, but not limited to, briefings, classes, walk-through instruction, video presentations, Power Point presentations, handouts and practical applications.

 2. The seriousness of that threat as evaluated by the on scene personnel.
 3. Additional information immediately available to the personnel such as knowledge of the subject's expertise in martial arts or other unarmed defensive tactics.

- h) When practical, the operator should provide a verbal warning prior to the deployment of a less-lethal system.
- i) Deployment at a stationary target is desirable however; personnel should recognize a subject's actions might not always make this possible. If the target becomes mobile, personnel should exercise caution when deploying the Less-Lethal system against moving targets.

- j) Medical attention is required after the application of less-lethal force. Generally a medical evaluation shall be performed by Correctional Health Services (CHS) except:
 - 1. Use of the Taser in the field requires an immediate evaluation by paramedics. The paramedics will advise if further treatment is required.
- k) After the deployment of a less-lethal weapon, the operator shall notify his/her supervisor of the deployment.

1806.3 - Jaycor Pepperball

- a) Definition
 - 1. Jaycor Pepperball is a use of force option that holds the potential to successfully resolve situations involving hostile, violent, and uncooperative subjects. It is intended to provide deputies with another method of dealing with the wide variety of situations that they may face as part of their duties. Pepperball is a unique non-lethal chemical agent delivery system that uses high-pressure air launchers to deliver chemical agents and kinetic energy impact force from a distance. It can be used on individual suspects as well as large groups of people for riot and crowd control. Non-lethal force philosophy, similar to less-lethal force, is defined as a concept of planning and force application, which meets operational objectives, with the least potential for causing death or serious physical injury than conventional police tactics.
- b) Use Guidelines
 - 1. Deputies who have been trained in the use of Pepperball may deploy the non-lethal device when the use of force complies with the Orange County Sheriff-Coroner Department Policy Manual ([Lexipol](#)) 300 - Use of Force.
 - i. The option to deploy a non-lethal system shall be left to the discretion of the involved personnel based upon the circumstances at that time.
 - ii. The Pepperball may be used for the purpose of compelling an individual to cease his or her violent or potentially violent actions by using the OC powder and kinetic energy impact force directly on the suspect.
 - iii. An evaluation of the tactical situation shall be made by the personnel on scene, taking into consideration available circumstances including, but not limited to:

- A. The suspect's stated or exhibited intent to violently resist being taken into custody.
- B. The credibility of that threat as evaluated by the on scene deputy(s).
- C. Additional information immediately available to the deputy(s), such as knowledge of the subject's expertise in martial arts or other unarmed defensive tactics.
- D. The suspect is armed with a potentially deadly weapon such as a knife, club, nunchakus, etc.
- E. Indications of drug use or alcohol intoxication.
- F. The suspect's physical stature and clothing worn. For example, a subject who has a thin build and is not wearing a shirt presents a different set of conditions compared to an individual who is heavy-set and wearing a jacket.
- G. Due to their physical condition, use of less lethal munitions against children and the elderly should be avoided unless there are unique circumstances present that would justify such deployment
- H. Availability of other force options and their possible effectiveness and appropriateness.
- I. Indications that attempts to subdue the subject through the use of control holds or self-defense techniques would be ineffective.
- J. A reasonable expectation it will be more dangerous for the deputy(s) to approach to within physical contact distance of the subject.
- K. The subject's actions indicate the need for an immediate response, and the use of a non-lethal system reasonably appears to be appropriate, especially if the only other option to deal with those actions may be the use of deadly force.

c) Deadly Force

- 1. While the option to consider a non-lethal system is available, nothing in this policy shall require any deputy to deploy such an option when circumstances reasonably indicate the use of deadly force is appropriate.

d) Descriptions of Non-Lethal Launcher and Projectiles

- 1. The Jaycor Pepperball System is comprised of a launcher (SA200 Rifle), a high pressure air (HPA) bottle that attaches to the launcher, projectiles, and a fill adaptor that attaches to a SCUBA tank or Self-Contained Breathing Apparatus (SCBA) tank.
- 2. Only Jaycor Pepperball projectiles will be used in the launcher. [REDACTED]

1808 - Emergency Response Team

An Emergency Response Team (ERT) is appropriate in situations likely to result in harm to staff or inmates, such as major disturbances, riots, and cell extractions. A coordinated effort utilizing specialized equipment and training is most likely to resolve the situation in a way that reduces the likelihood of injury to staff and inmates and minimizes liability for the Department. Specialized equipment and training will be available to ERT members in order for them to respond safely and efficiently. The use of force and less lethal systems will be consistent with the Orange County Sheriff's Department Policy Manual ([Lexipol](#)) 300 - Use of Force and 384 - Less Lethal. e) Service Animals

Under the ADA, State and local governments, businesses, and nonprofit organizations that serve the public generally must allow service animals to accompany people with disabilities in all areas of the facility where the public is normally allowed to go.

1. Definitions

- i. Service animal means any dog (and in limited circumstances a miniature horse) that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition.
 - A. The work or tasks performed by service animals must be directly related to the individual's disability. Examples of work or tasks include, but are not limited to:
 1. Assisting individuals who are blind or have low vision with navigation and other tasks.
 2. Alerting individuals who are deaf or hard of hearing to the presence of people or sounds.
 3. Providing non-violent protection or rescue work.

4. Pulling a wheelchair
 5. Assisting an individual during a seizure
 6. Alerting individuals of the presence of allergens
 7. Retrieving items such as medicine or the telephone
 8. Providing physical support and assistance with balance and stability to individuals with mobility disabilities and helping patrons with psychiatric and neurological disabilities.
 9. Interrupting impulsive or destructive behaviors.
 - ii. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks for purposes of the ADA.
2. Determination and Procedures
 - i. Staff shall not ask about the nature or extent of a patron's disability.
 - ii. If it is not readily apparent that an animal is trained to do work or perform tasks for an individual with a disability, staff may make two inquiries to determine whether an animal qualifies as a service animal:
 - A. Is the animal required because of a disability?
 - B. What work or task has the animal been trained to perform?
 - iii. Staff shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal, nor ask that the animal demonstrate its ability to perform the work or task.
 - iv. Any decision to exclude an animal claimed to be a service animal shall be referred to the Facility Watch Commander or his/her designee for final determination.
 - A. If an animal is properly excluded because the Watch Commander determines it does not qualify as a service animal, staff shall provide the individual with the disability the opportunity to participate in the visit without the service animal.
3. Responsibilities
 - i. Custody personnel are not responsible for the care or supervision of a service animal.
 - ii. A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless the handler is unable to because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).
 - iii. Staff may ask an individual with a service animal to remove the animal from the premises if the animal is out of control and the handler does not take effective action to control it, or the animal is not housebroken.

- A. If the animal is properly excluded, staff shall give the individual with the disability the opportunity to participate in the visit without having the service animal on the premises.
- B. Notification will be made to the Watch Commander regarding the circumstances involved with the exclusion.

1902.3 - Regular Visit Procedure

4. Correctional Health Services (CHS) may place temporary restrictions on outdoor recreation access, such as for inmates with contagious diseases or inmates who pose a danger to themselves or others.

b) Dayrooms

1. Under normal circumstances, inmates will be afforded the opportunity to use the dayroom for a minimum of three hours per day, unless specific and articulable reasons exist for a shorter time period. In such cases, the reasons will be thoroughly documented in the guard station daily log by the respective deputy or correctional services assistant. It is expected that dayrooms will generally be available for use by inmates from 0600 through 2300 hours daily. The sergeant responsible for the housing area shall review dayroom usage as part of the required housing area checks and ensure the three hour dayroom minimum has been met. If the three hour dayroom minimum has not been met, the sergeant will confirm the reason(s) are clearly documented in the guard station daily log.
2. Staff may temporarily close the dayroom only for as long as necessary to facilitate the daily operations of the housing area, such as counts, safety checks, meals, searches, clothing exchange, commissary, med call, etc., and shall reopen the dayroom when the activity is complete. All activities shall be documented in the guard station daily log.
3. An inmate's poor behavior or violation of jail rules does not justify loss of his/her dayroom time, unless their actions pose a threat to the safety and security of the facility. These facts shall be documented in the guard station daily log. This does not apply to inmates who have received loss of dayroom privileges through the disciplinary process.
4. Documented security concerns may necessitate the reduction or cancellation of scheduled dayroom time. A sergeant or the watch commander must approve any changes prior to implementation. If an exigency prevents prior approval, staff will notify a supervisor as soon as practical for approval. The reduction or cancellation will be documented in the guard station daily log along with the name of the approving supervisor. If an inmate has an Individual Inmate Activity Log, the cancellation or reduction will also be documented there.
5. Inmates may only use the dayroom in their assigned housing area, unless otherwise directed by staff. Only those inmates who are compatible with each other will be allowed into the dayroom together. In housing areas where security concerns, classification restrictions, or separation orders prevent the inmates from using the dayroom together, staff shall follow a set schedule to ensure the equitable distribution of dayroom among inmates or groups. The schedule will rotate on a daily basis to provide a variety of dayroom times for each inmate or group. If the inmate or group scheduled declines the dayroom opportunity, bypass the declining inmate or group and offer dayroom to the next inmate or group on the scheduled rotation. If all inmates decline dayroom, staff shall continue to offer dayroom in the

scheduled rotation until an inmate or group accepts. This rotation will be ongoing until 2300 hours.

6. Dayroom activities will include television viewing, newspaper and book reading, tabletop games, and telephone access if the telephones are located in the dayroom. If there are no telephones in the dayroom, inmates will be provided access to the telephones during outdoor recreation or during designated telephone use times. Inmates will be permitted to return to their cell to use the restroom, unless restrooms are located in the dayroom area. If an inmate returns to their cell to use the restroom, the inmate will be permitted to return to the dayroom at the completion of their use of the restroom. Inmates in the dayroom must be in full jail issue.
 7. Inmates housed in Special Management units will be afforded the opportunity to use the dayroom for a minimum of two hours per day, unless specific and articulable reasons exist for a shorter time period (unforeseen security events, facility maintenance, medical emergency). In such cases, the reasons will be thoroughly documented in the guard station daily log by the respective deputy or correctional services assistant. It is expected that dayrooms will generally be available for use by inmates from 0600 through 2300 hours daily. The sergeant responsible for the housing area shall review dayroom usage as part of the required housing area checks and ensure the two-hour dayroom minimum has been met. If the two-hour dayroom minimum has not been met, the sergeant will confirm the reason(s) are clearly documented in the guard station daily log.
 8. Showers, restrooms, and telephones (attorney calls only) will be made available to inmates housed in SMU during their out of cell time.

2015 - Religious Head Coverings

2015.1 - Purpose

The purpose of this document is to establish a policy to accommodate inmates brought into the custody of the sheriff's department who wear head coverings as part of the exercise of their religious beliefs.

2015.2 - Policy

The Orange County Sheriff's Department does not allow inmates to retain personal religious head coverings while in custody. It is the policy of the Orange County Sheriff's Department (OCSD) to accommodate the religious beliefs of inmates and not impose a substantial burden on the exercise of those beliefs. However, the safety and security of our facilities are compelling interests. The following policies are considered the least restrictive means furthering the compelling interests while accommodating inmates' right to religious exercise.

2015.3 - Procedure Regarding Inmates Who Wear Religious Head Coverings

- a) When an inmate wearing a religious head covering is brought into the IRC for booking, a staff member will immediately notify the Watch Commander or his/her designee.
- b) The Watch Commander or his/her designee will have a staff member retrieve a jail issued religious head covering. The jail issued head coverings will be stored in the IRC Operation Sergeant's office.
- c) During the intake/booking process, inmates wearing religious head coverings shall be escorted to an area of privacy by staff members of the same gender, instruct them to remove their head coverings, and after reasonably ensuring their hair is free of contraband, weapons and drugs, provide them with an approved temporary Orange County Jail issued head covering.
- d) Only staff members of the same gender as the inmate shall be present during removal of the head covering. When the inmate's head is uncovered it will be done out of the view of the opposite gender.
- e) The inmate will be allowed to put the temporary head covering on before entering an area where he/she could be seen by the opposite gender.
- f) The personal head covering belonging to the inmate shall be placed in his/her property.
- g) Religious head coverings may not be worn during the booking photo process. When removing religious head coverings for booking photos, only staff members of the same gender as the inmate shall be present.
 1. Staff should make every effort to take the booking photo out of view of the opposite gender but due to the physical layout it may not be feasible.
 2. The inmate will be allowed to wear the religious head covering after the booking photo process unless there is a compelling security interest not to allow it as determined by the Watch Commander or his/her designee.
- h) Religious head coverings may not be worn during the booking photo process. When removing religious head coverings for booking photos, only staff members of the same gender as the inmate shall be present.
- i) The Correctional Programs Supervisor will meet with a religious clergy member to certify the appropriateness of the Orange County Jail issued head covering. The jail issued head covering

will be one that has been approved by the Correctional Programs Manager, Inmate Services Director and Division Commanders or their designees.

- f) District Attorney Refuses to Prosecute - Inmates returning from their first court appearance with a court paper stating "District Attorney Refuses to Prosecute," and who has no other holds or court cases pending, will be released forth with.
- g) Multiple Court Appearances - When an inmate has multiple court appearances in several jurisdictions, the following criteria are considered when determining where and when the appearances will be made:
1. Original booking charge is processed first, along with any other charges in the same jurisdiction.
 2. Felony charges usually take precedence over misdemeanor charges.
 3. The amount of bail involved is considered along with the date of issuance of the warrant.
 4. The earliest issuance date on a Remanding Order will take precedence over later dated orders. Courts will be notified by the commitment clerk of an inmate's nonappearance due to multiple appearances set for one date. A new appearance date will then be issued by the court on a "No Body Remanding Order," or verbally to the Commitment Clerk.

2504.2 - Court List Distribution

- a) Court lists will be made up by the assigned clerk. The lists will be available prior to 0100 hours each day.

2504.3 - Supplemental Bookings - Local Charges

- a) Additional charges (supplemental) against an arrestee/inmate, which originate from within an Orange County jurisdiction, will be promptly and systematically recorded. All local charges will be processed before any out of county or state charges.
- b) Upon receipt of a teletype or warrant, the Inmate Records staff will prepare a Supplemental Booking Record for the named inmate. The booking number will be the same number issued to the inmate for his/her current custody. One alphabet letter is added after the booking number, in sequence, to identify each supplemental booking. (Example: 1234567A, 1234567B, and 1234567C).
- c) The supplemental form for active charges is sent to the Housing Guard Station for processing by Module or Prowler Deputies. The white copy is returned to Records after the form is completed by the Module or Prowler Deputies.

2504.4 - Supplemental Bookings – Out of County Charges

- c) A teletype will be sent to each issuing out of county agency acknowledging the "HOLD." The agency is informed that the inmate will be booked to the agency's charges when all local charges are satisfied and that they will have five (5) days in which to pick up the inmate after he/she is booked to his/her charges (CPC 822).
1. Out of county felony holds from over 400 miles away have seven (7) days in which to pick up the inmate. Misdemeanors have five (5) days (CPC 821).

- e) When all local charges have been satisfied, the inmate will be supplementally booked to the nearest out-of-county hold. In the case of several holds, the nearest county will be booked first. If there are several holds from the same county, use discretion and book to either, the most serious charge (Felony vs. Misdemeanor), the largest bail amount, or the agency that most likely will pick the inmate up. DO NOT book to more than one hold, regardless of multiple holds from the same agency/county. The Supplemental Booking Record is prepared by Inmate Records staff and sent to the inmate's housing location for processing by the Module Deputy.
 - 1. Desires / Does Not Desire Local Arraignment: For all out-of-county jurisdictions, there are several ways to determine this.
 - i. PC 850 Form (Penal Code Advisement): Review the form to determine which option the inmate chose (e.g., desires local arraignment or does not desire local arraignment). This form will be completed by the Booking Sheriff Records Technician (SRT) at the time of booking, or completed by the Detail SRT upon receipt of the teletype abstract placing the hold.
 - ii. PC 821/822 Stamp: Located on the back of the source document and completed by the arresting officer. The stamp is not applicable when the teletype abstract was received after the booking transaction is completed.
- f) State Parole holds are processed before out of state holds.
- g) When additional out-of-county/state holds exist for a subject being sent to another jurisdiction, the hold documents are forwarded along with the inmate, if he/she is not expected to return to Orange County.
- h) Another California jurisdiction may send an "Order to Transport" requiring that the inmate be delivered to that court on a specific date. (Arrangements are usually made between the courts to prevent appearance date conflicts).
 - 1. When local charges remain unsatisfied, the Records staff will send a detainer letter along with the inmate. The letter requests the return of the inmate to Orange County before a certain date, should that jurisdiction finish its proceedings before that date.
- i) All California holds are processed before out-of-state requests. Fugitive proceedings for out-of-state charges are coordinated by the Fugitive Warrant Division Investigators. These supplemental bookings are usually initiated pursuant to receipt of a Governor's Warrant.

2504.5 - Sentence Computation/Release Date

- a) Each person sentenced by the court to the custody of the Sheriff will be assigned a specific date to be released from the Sheriff's custody.

 4. The report copies are placed in the inmate's jail file when the process is completed.
 5. The inmate's history card will be re-filed to correspond with the new release date.

Staff will pursue options to end the hunger strike, such as counseling and education about the effects of starvation. CHS staff will provide appropriate medical treatment. In extreme cases, it may be necessary to pursue legal options in an attempt to preserve the inmate's life.

2615.1 – Initial Referral

The inmate may remain in his/her current housing location if he/she is housed alone, can be housed in a medical observation unit or other available single occupancy cell. The Special Management Unit (SMU) cells shall not be used for the purposes of housing inmates on a hunger strike, with the exceptions of inmates who are scheduled to be housed or currently housed in SMU and participating in a hunger strike. During a mass hunger strike, inmates may remain in their current housing location. Factors that should be considered when determining where to house an inmate who is on a hunger strike include, but are not limited to the following:
 - 1. Can the inmate be properly monitored by health care and jail staff, without compromising the health and safety needs of the other inmates within the housing location?
 - 2. Based on the opinion of medical staff, does the inmate demonstrate a deterioration of health that would necessitate Medical Observation Unit housing to provide adequate care for the inmate?
 - 3. Would leaving the inmate in their present housing location likely cause a security or safety concern within the jail and/or interfere with the ability to effectively monitor the other inmates within the housing location?
- b) If an inmate’s housing location is changed due to hunger strike protocols, the movement will be documented in the [REDACTED] system under the [REDACTED].

otherwise directed by CHS. Regardless of the inmate's response to an offered meal, staff shall physically deliver and document each meal on the door log. Staff shall record the amount of food and beverage consumed when retrieving the trays.

- d) Staff shall remove any commissary food items while the inmate is on a hunger strike. Removal of commissary food items shall be properly documented in a Jail Incident report; non-perishable food items should be booked to the inmate's property, unless alternative storage is approved by the Facility Watch Commander. An inmate is not allowed to make commissary food purchases while under hunger strike management.
- e) Each cell is equipped with a sink/drinking fountain unit. The water supply will remain on to allow the inmate access to drinking water. If the water supply must be shut off for any reason, staff will provide drinking water at least once an hour and document on the door log whether or not the water was consumed.
- f) An inmate on a hunger strike will be counseled by CHS and advised of the medical risks associated with starvation and malnutrition. They will be encouraged to end the hunger strike or accept medical treatment. This information will be communicated in a language or other manner which the inmate can understand.
- g) Qualified medical personnel will assess whether the inmate's actions are reasonable and deliberate or the manifestation of a mental illness. Qualified medical personnel will also assess whether the inmate is incapable of giving informed consent due to age or illness.
- h) If the physician determines that due to the length of time the inmate has claimed to have been on the hunger strike or because observations of the inmate's condition indicate the inmate is in or approaching a life threatening stage, the inmate shall be transferred to the contract hospital for further care.
- i) When a physician determines that the inmate's life or health will be threatened if treatment is not initiated immediately, involuntary medical treatment of the inmate may be considered. Involuntary medical treatment will only be administered with a court order. The Watch Commander will contact County Counsel for guidance and assistance in obtaining the court order.
- j) A hunger strike will be considered to have ended when the inmate resumes eating. CHS must be consulted for concurrence that the strike has ended and will notify jail staff upon termination of the inmate's hunger strike treatment.

2800.3 - Informant Management

The proper use of informants and sources of information is a component of effective law enforcement and is permissible in the Custody Operations Command. Informants do not belong to an individual deputy

or investigator, but are agents of the Department and act on its behalf. It is the responsibility of all Sheriff's personnel to ensure compliance with OCSD policy and all constitutional, statutory, and case law when utilizing confidential jail informants and sources of information.

The use of informants within the Custody Operations Command will comply with Orange County Sheriff's Department policy 608 (Confidential Informants).

a) Confidential Informant Definitions

1. Anytime a person is directed by a deputy/investigator for any reason, whether on one occasion or on a continuous basis, to secure information on criminal activity;
2. Anytime a person is offered, promised or receives compensation, either in the form of financial compensation or any other benefit, for information or any task performed;
3. Anytime a person is offered, promised or receives a Letter of Consideration on a pending criminal case.

b) Types of Informants

1. In-custody Informant - An In-custody Informant is an inmate who provides information or testifies about matters another defendant told him/her while both were in custody. (Penal Code sections 1127a, 1191.25, and 4001)
2. Defendant Informant – A Defendant Informant is an informant who has a pending criminal matter, including probation and/or parole violations. A Defendant Informant also includes an individual who has been prosecuted, convicted and is awaiting sentencing. 3. Confidential Jail Informant - A Confidential Jail Informant is an inmate who acts under the specific direction of a deputy/investigator to secure information related to inmate/criminal activity or is offered, promised, or receives a benefit, financial compensation, or a letter of consideration on a pending criminal case; for information or any task performed.

c) Informant Screening

1. When a Deputy has contact with an inmate who expresses a desire to be an informant, the following protocols shall be followed:
 - i. Refer the inmate's request/information to the Custody Intelligence Unit (CIU). The CIU Sergeant will evaluate the request based on safety, security and the credibility of the information to be provided.
 - ii. If the information is determined to best benefit an OCSD investigative detail or outside agency, the CIU Sergeant will forward the information, once vetted, to the appropriate OCSD detail or outside agency.
 - iii. If the information is jail-related and it is determined Custody Operations personnel should manage the informant, the handling deputy will coordinate with CIU prior to contacting the Orange County Informant Index (OCCII) Coordinator to receive approval to use the informant.

- iv. Any time an informant is used in the jail, Sheriff's personnel will work in conjunction with CIU to review the proposed use of the informant to ensure it does not involve eliciting information from the target regarding the target's current criminal case.
- v. Deputies within the jail system who handle/manage informants shall comply with OCSD Policy 608 and CCOM policy 2800.3.
- vi. Informants will have the approval of the CIU Sergeant, and be signed up per OCSD policy 608.5 prior to utilization. However, if a new, unsigned informant can provide information that is critical to a major and quickly developing investigation, the informant can be used prior to being signed up with the approval of the CIU Sergeant or the deputy's immediate supervisor. The informant shall be signed up as soon as practical after the investigation is initiated.
- vii. Any benefit or consideration given to an informant in any Orange County Jail will be reported to the informant's handler and documented in the informant's file per OCSD policy 608.
- viii. All information provided by an informant and an outcome from the action taken related to that information will be documented on an intra-department memo addressed to the CIU Sergeant. This memo will be kept in the informant's file, which will be maintained by the CIU Sergeant.

d) Sources of Information

1. A Source of Information (SOI) is an inmate who provides information to law enforcement regarding criminal activity, or any non-criminal activity related to jail security; but has not been directed to do so by law enforcement and has not requested, been offered, nor received any benefit or consideration in return for the information. A Source of Information is not considered an informant.
2. When a deputy receives information from a (SOI) the following protocols shall be followed:
 - i. The deputy will be responsible for debriefing the potential SOI and vetting the information. If the information appears credible and the deputy wishes to act upon the information, he/she will notify the CIU Sergeant.
 - ii. The CIU Sergeant will confirm the SOI does not meet the definition of an informant.
 - iii. All Sources of Information will be issued a Source Control Number (SCN). This is a permanent number that is specific to the individual SOI. The SCN consists of the letters SCN, followed by the last two digits of the current calendar year, a hyphen, and a sequential number ([REDACTED]). All SOI files will be maintained by the CIU Sergeant. The file will be tracked via the SCN. All information provided by the SOI and an outcome from the action taken related to that information will be

documented on an intra-department memo addressed to the CIU Sergeant. This memo will be kept in the SOI's file.

- iv. A copy of any Department Report generated as a result of information provided by the SOI will be maintained in the SOI file.
- v. The SOI file will contain a copy of the sources CII, FBI, Driver's License, contact information, and a recent photograph.
- vi. If an SOI provides information to Sheriff's personnel on more than one occasion, the CIU Sergeant will be notified. The CIU Sergeant will review the SOI file and interview the SOI in order to determine if the SOI is actually giving information in an attempt to gain favor with the Court, which could be a benefit to the SOI, to be used during the penalty phase of his/her criminal case. If so, the SOI should be treated as a de facto Informant and handled accordingly.

e) Documentation and Criminal Case Filing

1. Whenever information obtained from a CI or SOI results in a criminal case being forwarded to the District Attorney's Office for filing, the District Attorney's Office must be notified of the CI or SOI's involvement in the case. In order to ensure the District Attorney's Office is notified of the CI or SOI's participation in a timely and proper manner, deputies assigned to the Custody Operations Command shall do the following:
 - i. Upon completion, the original initial crime report and/or related original follow-up report(s) will be forwarded to the CIU for review.
 - ii. The deputy who wrote the report will brief the CIU investigator regarding the CI or SOI's involvement in the case.
 - iii. Once reviewed, the deputy will have the report signed and approved by their immediate supervisor. After supervisor approval, the deputy will return the original reports to the CIU.
 - iv. The CIU investigator will confirm the information provided by the CI or SOI has been properly documented in the CI's file or the SOI's file.
 - v. The CIU investigator will prepare the criminal case and present it to the District Attorney's Office for filing. The CIU investigator will brief the filing deputy district attorney regarding the use of the CI or SOI.
 - vi. The CIU Sergeant will ensure all associated reports are forwarded to the Support Services Division, Records and Information Services Bureau.

2800.4 – In-custody Operations

In-custody operations include, but are not limited to, the placement of an undercover agent or informant in the jail (commonly referred to as a Perkins Operation) or covert audio/video recording within the Custody Operations Command. This does not include the covert recording of visits and phone calls.

See *Massiah v. United States*, 377 U.S. 201 (1964). The Sixth Amendment right to counsel attaches when a criminal complaint is filed against the defendant or the defendant is indicted by the Grand Jury.

The file will include a copy of the executed In-Custody Operation agreement or approval letter, a copy of any operational plans, documentation of any and all movement generated by the operation and a copy of any and all reports generated by OCSD jail personnel as a result of the operation. The file will also contain the name and contact information for any and all informants used in the operation and the case agent/handler's name and contact information.
 6. CIU will maintain a case log which will document the beginning and ending date and time of the operation.
 7. The file will be maintained for a period of three years from the termination of the operation. The CIU Sergeant will be responsible for confirming with the prosecutorial agency that the case is final and that the defendant's appellate rights have expired.

- b) Outside Agency Request: Any outside agency requesting the assistance of the OCSJ with an in-custody operation involving the use of an informant or undercover agent will submit an In-Custody Operation Agreement and abide by all terms and conditions of the agreement. The agreement will be reviewed and approved by the Assistant Sheriff of Custody Operations or his/her designee and the Sheriff or his/her designee prior to any action being taken by members of the OCSJ. Any outside agency requesting the assistance of the OCSJ with the covert recording of any area within the Custody Operations Command will coordinate the operation with CIU. Prior to any action being taken the agency will obtain written approval from the Assistant Sheriff of Custody Operations or his/her designee.
1. The agency conducting the operation will be solely responsible for coordination with the District Attorney's Office and any other state, federal, or local agency.
 2. At all levels of approval, Sheriff's personnel will review the proposed operation to ensure it does not violate the inmate's Sixth Amendment rights, which prohibit the government from deliberately eliciting incriminating statements from the defendant after the Sixth Amendment right to counsel attaches. See *Massiah v. United States*, 377 U.S. 201 (1964). The Sixth Amendment right to counsel attaches when a criminal complaint is filed against the defendant or the defendant is indicted by the grand jury.
 - i. The CIU Sergeant, in consultation with the Special Services Bureau Captain, will also review the proposed operation to ensure it is compliant with the law.
 - ii. If there are legal questions regarding the proposed operation, guidance will be sought from County Counsel and/or the District Attorney's Office.

 4. Any inmate movement required to assist in the operation will be approved by the Classification Sergeant and documented on the classification tread.
 5. The Custody Intelligence Unit will generate, update and maintain an in-custody operation file. The file will be [REDACTED]. The file will include a copy of the executed In-Custody Operation agreement or approval letter, a copy of any operational plans, documentation of any and all movement generated by the operation and a copy of any and all reports generated by OCSJ jail personnel as a result of the operation. The file will also contain the name and contact information for any and all informants used in the operation and the case agent/handler's name and contact information.
 6. CIU will maintain a case log which will document the beginning and ending date and time of the operation.
 7. The file will be maintained for a period of three years from the termination of the operation. If any cases result from the operation, the file will not be destroyed until the court proceedings and any appeal are final. The CIU Sergeant will be responsible for confirming with

the prosecutorial agency that the case is final and that the defendant's appellate rights have expired.

2800.5 - Communication Covers

- a) A Communication Cover is an authorization from the Custody Operations Assistant Sheriff allowing a specific inmate's incoming and outgoing non-legal mail; non-official visits; and non-official telephone calls to be recorded, copied, or monitored by Sheriff's staff.
 1. Communications between an inmate and their attorney, doctor, or clergy will not be recorded, copied, or monitored by any Sheriff's personnel.
- b) Law enforcement personnel may submit a written request for a communication cover to the Custody Operations—Assistant Sheriff. The request will include a justification for the communication cover. OCSO personnel will submit their request on an Intra-Department memorandum. Outside agencies will submit their requests on their department letter head.
 1. A communication cover may be authorized to maintain the security of the facility (i.e., threats to inmates, staff, or possible escape risk), or ongoing criminal activity involving public safety, (e.g., extortion, threat of assault or harm, witness intimidation, contract death threats, narcotics activity, etc.).
 2. After receiving the returned request, the Custody Intelligence Unit (CIU) Sergeant or his/her designee will notify the requestor of the approval or denial of the communication cover. This notification will also provide pickup and maintenance information.
 3. If approved, the Mailroom will make a copy of the inmate's incoming and outgoing mail and forward the original to the addressee. CIU staff will pick up the copies from the respective mailroom. Visits will be recorded by assigned staff and collected by the CIU. Recordings of telephone calls will be made by CIU staff.
 - i. CIU staff will schedule and coordinate the pick-up or delivery of these items to the approved requestor.
 4. Approved communication covers will be valid for three months. Requests to extend the communication cover another three months must be submitted upon or prior to the expiration of the current authorization.
 5. Communication covers must be picked up regularly. If a pick-up has not been made for two weeks, it will be assumed that the urgent justification for the communication cover no longer exists and the communication cover will be discontinued.

Except in circumstances where there would be an impact to safety and security, modesty screens shall be placed strategically in areas that prevent incidental viewing. In order to minimize cross gender exposure, staff of the opposite biological sex shall announce their presence when entering the housing unit. policies and procedures. The level and type of training provided to volunteers and contractors will be based on the services they provide and level of contact they have with inmates, but all volunteers and contractors who have contact with inmates will be notified of the Department's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. Training shall be documented through volunteer and contractor signature that they understand the training they have received.

2900.6 - Inmate Education

- a) Inmates shall receive education about PREA which will consist of and include the following:
 1. During the intake process, inmates will be informed of the department's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. Inmates will also be informed of their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and how the Department responds to such incidents. 2900.7 - Screening for Risk of Sexual Victimization and Abusiveness and Use of Screening Information

- a) All inmates will be screened to assess their risk of being sexually abused by other inmates or sexually abusive towards other inmates. The Department will use information from the screening to inform housing, bed, work, education and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.
 1. The screening will be completed within 72 hours of the inmate's arrival utilizing an objective screening instrument.
 2. Classification and Correctional Health Services (CHS)/HCA will share information obtained, on a need to know basis, to ensure inmates are assessed and identified appropriately, in order to ensure their safety and initiate any necessary support services. CHS/HCA has developed their own protocol for operational procedures and response.

3. Prior to placing inmates together in a holding cell, staff shall consider whether, based on the information before them, an inmate may be at a high risk of being sexually abused and, when appropriate, take necessary steps to mitigate any such danger to the inmate.
4. The classification screening will consider, at a minimum, the inmate's physical characteristics (build and appearance), age, whether the inmate has a mental, physical or development disability, previous assignment in specialized housing, alleged offense and criminal history, whether the inmate is perceived to be LGBTI or gender non-conforming, whether the inmate has previously experienced sexual victimization, the inmate's own perception of vulnerability, or concerns expressed by the inmate. A transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration.
5. Inmates may not be disciplined for refusing to answer or failing to provide information in response to screening questions.
6. Within 30 days from the inmate's arrival, classification will reassess the inmate's risk of victimization or abusiveness based upon any additional, relevant information received since intake screening.
7. Lesbian, Gay, Bisexual, Transgender, or Intersex (LGBTI) inmates will have housing and programming assigned by individual assessment on a case by case basis after consideration of whether the placement will ensure the inmate's health and safety and whether the placement would present management or security problems.
8. Inmates at high risk of sexual victimization shall not be placed in involuntary segregated housing unless a review of all available housing alternatives has shown that there are no other means of protecting the inmate. If an involuntary segregated housing assignment is made, the deputy conducting the classification screening shall clearly document the basis for the facility's concern for the inmate's safety and the reason why no alternative means of separation can be arranged. A review will be conducted every 30 days to determine if ongoing involuntary segregated housing is needed.
9. If segregated housing is used, the inmate shall have access to programs, privileges, education and work opportunities for which he/she is otherwise eligible. If the Classification Deputy restricts access to programs, privileges, education, or work opportunities the Classification Deputy shall document the limitations imposed, the duration of the limitations, and the reasons for the limitations.
10. Housing and programming for Transgender and Intersex inmates will be reassessed every 6 months on an individual basis to review any threats to safety experienced by the inmates.

Once the Receiving Deputy has reviewed all documents, noted the arrestee's physical location, and accepted the booking, the Receiving Deputy will hand the Pre-Booking Form to the Receiving CST, CSA, or SSO who will input arrestee information into the computer. The computer will search the data base to determine if the person is a regular or a react booking and will assign a booking number as required. The Receiving Deputy will notify the Uncuff Deputies and 1st Floor Prowlers if the inmate is to be handled as either of the following:
 - i. Expedite Booking: In some instances an inmate may need to be expedited but may not require medical housing (e.g., late term pregnancies, insulin dependent diabetics, wheelchair bound, excessively obese or elderly and hospital returnees).
 - ii. Civil bookings or remands: All Persons detained under a civil process shall not be kept or put in the same room with someone that has been detained under a criminal process (per Penal Code Section 4002). While on the booking loop, when a subject is secured in a holding cell, a "CIVIL" placard shall be placed on the holding cell door.
 - A. The Receiving Guard Station Deputy will assign an available deputy to escort the inmate through each phase of the booking process (e.g., ID, shower, classification, etc.). After the inmate has been classified, the assigned deputy will escort the inmate to his/her assigned housing location.
 - B. It is also the responsibility of the Receiving guard station deputy to notify the Operations Sergeant of all expedites.
 - C. A personal property and money inventory form will be generated.
 - 10. The booking number will be printed on the Pre-Booking Form.
- c) Bail Calculation
- 1. Bail: If the booking is pursuant to a warrant or other court document, the bail amount will be that which is documented on the warrant or court document. If the booking is a misdemeanor or a felony or a combination of charges without a warrant or other court document, compute the bail using the Misdemeanor or Felony Bail Schedule and use the highest bail amount.
 - 2. Multiple Misdemeanor Charges:

- i. If the arrestee is charged with multiple misdemeanors (excluding vehicle code misdemeanors), bail amount will be established based upon the criminal offense having the highest bail amount listed in the Misdemeanor Bail Schedule.
 - ii. If the charges are multiple vehicle code misdemeanors, the bail is that of the highest single vehicular offense.
3. Combination of California Vehicle Code (CVC) and California Penal Code (CPC) misdemeanors:
 - i. Use only the highest single misdemeanor bail amount.
4. Felony charges:
 - i. Bail amount will be established based upon the offense having the highest bail amount as listed in the Felony Bail Schedule.
 - ii. If the arrestee is charged with a felony and a misdemeanor, the bail amount will be established based upon the felony offense having the highest bail amount listed in the Felony Bail Schedule. The arresting officer is permitted to book the arrestee to both the felony and misdemeanor.
5. Fugitive Charges:
 - i. Section 1552.1 of the Penal Code has been amended to prohibit bail on a fugitive complaint on persons charged with an offense punishable by death or life imprisonment in the demanding state, or if the person has been convicted of a felony in that state and is alleged to have escaped or violated parole.
 - ii. Therefore, fugitive bookings of this nature will be listed as NO BAIL. All other fugitive bookings will carry a bail of \$50,000.00 as specified in the bail schedule.
 - A. List state in the charge block
 - B. Jurisdiction will be Central Justice Center (CJC) for Extradition Hearing
6. Governor's Warrant:
 - i. There is no bail on a Governor's Warrant. Bail can be set only upon a Writ of Habeas Corpus proceeding and then only after the writ has been served upon the Division Commander of the Investigations Division, or, in his/her absence, the Patrol Watch Commander.
 - ii. If a notice of bail is received, the Records Manager, or, in his/her absence the Operations Sergeant, will be notified to determine whether the writ has been properly served.
7. Bail For Bond Surrender Bookings
 - i. The bail amount on the original charge will be the bail amount to be posted.
8. Declaration In Support Of Motion to Increase Bail:
 - i. The arresting officer may request that the arrestee's bail be increased.
 - ii. The Receiving Deputy will provide the arresting officer with a copy of the Declaration form upon request.
 - iii. "NOT SET" will be written in the bail box.

- iv. The Receiving Deputy will staple the completed form to the Pre-Booking Record.
- v. Inmate Records will time stamp the Declaration at the time of booking.
- vi. The Records Supervisor will notify the Pre-Trial Services Officer of the Declaration. The Pre-Trial Services Officer will contact the "on-call" judge, who will set bail.
- vii. One copy of the Declaration will be given to the Pre-Trial Services Officer and one copy will be placed in the inmate booking file. The original will be placed in the appropriate court file for forwarding to the court.
- viii. If the Declaration pertains to the booking charge, the Records clerk will use the "Other Activity" section of the History Card to document that a Declaration was filed, and the time and date it was filed according to the time stamp on the Declaration.
- ix. When a copy of a Declaration is received with an inmate transferred from a city jail and the Declaration has been acted upon by the court, we will accept the Declaration and bail setting if the police department has noted the judge's name, the amount of bail set and the signature of the police officer accepting the bail settings.
- x. Refer to the applicable rule(s) in the Uniform Bail Schedule for infractions of the California Vehicle Code.

d) Booking Without a Warrant:

1. MISDEMEANOR: Single or multiple misdemeanor charges are acceptable if they are from the same jurisdiction and agency. Criminal and vehicle charges may be on the same Pre-Booking Record if requested by the arresting officer.
2. FELONY: Single or multiple felony charges are acceptable if they are from the same jurisdiction and agency.
3. MISDEMEANOR AND FELONY: Misdemeanor and felony booking charges are acceptable on the same Pre-Booking Record if they are from the same jurisdiction and agency. The arresting or transporting officer will be advised that when a subject is booked by one agency, and there is a felony charged by another in-county agency, supplemental booking to that charge will be done on authority of a teletype requesting the booking and the charge to be booked. When booked to local charges and there is an out-of-county charge without a warrant, the Receiving Deputy will obtain the warrant or warrant abstract to be placed as a hold.
4. VIOLATION OF STATE PAROLE: (Not presently accepted into the CJX, however, if there is a change in policy approved by the Assistant Sheriff of Jail Operations, the following is applicable.) Use the applicable code section as furnished by the Parole Officer. Record the jurisdiction as Parole and Community Services. The arresting agency will normally be noted as Parole and Community Services, but may be a local police agency.
5. VIOLATION OF PAROLE-CALIFORNIA YOUTH AUTHORITY: Book the prisoner on a charge of "Violation of Parole - California Youth Authority" and record the jurisdiction as California Youth Authority (CYA). Accept the inmate only when the booking is by a CYA Agent, or upon

- a CYA written authorization (teletype must have physical description). In the latter case, the arresting agency books the inmate for CYA.
6. VIOLATION OF IMMIGRATION: (Not presently accepted. However, if the Assistant Sheriff of Custody Operations authorizes a change in policy, the following will be applicable.) The booking charge will be recorded as "Violation of Immigration," and the jurisdiction will be the Immigration and Customs Enforcement (ICE). The inmate will only be accepted when the booking is by an ICE Agent, or upon ICE written authorization (teletype must have physical description). In the latter case, the arresting agency would be the one booking the inmate for ICE.
 7. MILITARY DESERTERS: Military Deserters are not accepted at any jail facility.
 8. ENROUTE BOOKINGS: If approved by the Watch Commander, out-of-county or out-of-state law enforcement agencies may book an arrestee for a limited time while the inmate awaits transportation to another jurisdiction. The inmate will be booked as an "ENROUTE" booking. A criminal charge is not required. Jurisdiction will be the law enforcement agency having custody of the arrestee.
 - i. A private transportation company must provide a court order from a California court directing OCSD to accept the prisoner as an ENROUTE booking.
 9. LEGAL DOCUMENTS: The transporting officer's copy of the custody documents must be obtained for inclusion with the booking record. The Pre-Booking record will list the charge as "ENROUTE BOOKING".
 - i. DATE AND TIME OF PICK UP: At the top of the Pre-Booking Record write the date and time that the arrestee will be picked up. This will inform Inmate Records of the time the arrestee should be ready for pick up.
 10. VIOLATION OF COUNTY PROBATION: The booking charge will be recorded as "Violation of Probation".
 - i. BOOKING ON A WARRANT: The warrant will have the court jurisdiction noted on the face of the warrant.
 - ii. BOOKING WITHOUT A WARRANT (PC 1203.2): Determine from the Probation Officer which court has jurisdiction, the time and date of court appearance (must be within 48 court hours), and the case number. Record this information on the Pre-Booking Record on the line above the charge.
 - iii. If the arresting officer has not determined the time and date, the booking will still be accepted. The Receiving Deputy will inform the Watch Commander explaining the circumstances of the arrest, the name and number of the Probation Officer (if available), give them a copy of the Pre-Booking form. If the Watch Commander chooses to accept the booking, a Records Supervisor may call Probation if an element of arrest is missing, i.e. court date, bail, jurisdiction, etc.
 11. OUT OF COUNTY PROBATION HOLDS ARE NOT ACCEPTED.

e) Booking - Detention Only

1. CPC 849(b) (2) states: "Any Peace Officer may release from custody, instead of taking the person before a magistrate, any person arrested without a warrant whenever:"
 - i. He/she is satisfied that there are insufficient grounds for making a criminal complaint against the arrested person.
 - ii. The person was arrested for intoxication only and no other proceedings are desirable.
 - iii. These sections do not apply to persons arrested for driving under the influence of alcohol and/or drugs.
2. Persons arrested for CPC 647(f) or any city municipal code or county ordinance for public and/or private intoxication will be treated like any other misdemeanor street arrest. For more information about processing citation and release, reference CCOM 3000.3(f) - Processing Citation and Release.

f) Processing Citation and Release

1. Misdemeanor Street Arrests (no warrant):
 - i. In accordance with the Orange County Sheriff-Coroner Department Policy Manual ([Lexipol](#)) 327, most misdemeanor street arrests should be cited and released in the field. A misdemeanor street arrest should not be accepted for booking unless the arrest is exempt from being booked and released in the field as generally required by Penal Code section 853.6. In the event a misdemeanor street arrest is brought to IRC for booking the following policies apply:
 - A. IRC will not accept for booking a Misdemeanor Street Arrest (no warrant), including misdemeanor municipal code violations, unless the arrest meets one of the following criteria:
 1. The person was arrested for a misdemeanor violation of a protective order involving domestic violence as defined in subdivision (b) of PC 13700 (PC 853.6(a)(2));
 2. The person was arrested pursuant to a policy as described in PC 13701, which mandates law enforcement agencies response to domestic violence calls (PC 853.6(a)(2));
 3. The person was arrested for a crime specified in PC 1270.1, including a crime defined in each of the following: (1) PC 243(e)(1); (2) PC 273.5; (3) PC 273.6 if the detained person made threats to kill or harm, has engaged in violence against, or has gone to the residence or workplace of, the protected party; and (4) PC 646.9 (PC 853.6(a)(3));
 4. The arresting officer indicates by completing the Pre-Booking Record that one or more of the provisions in PC 853.6(i) (1)-(10) apply to the arrestee.
 - ii. Book and Release from IRC

- A. If a misdemeanor street arrest is accepted for booking because the arresting officer completes the Pre-Booking Record indicating that one or more of the provisions of 853.6(i)(1)-(10) apply to the arrestee, the arrestee may be cited and released after booking from IRC pursuant to the provisions of Penal Code section 853.6(a). If the Receiving Deputy or his/her Watch Commander determines to cite and release an arrestee pursuant to this provision, the Receiving Deputy or his/her Watch Commander is required to prepare and give the arrestee the written notice to appear pursuant to Penal Code section 853.6.
 - B. In rare cases, it may be impractical for a Sheriff's deputy, as the arresting officer, to release a person arrested for misdemeanor offenses in the field as required by the Orange County Sheriff-Coroner Department Policy Manual ([Lexipol](#)) 327.3.1. The deputy has the option to book the arrestee into the jail, to be cited and released after the booking process, only with Department Commander approval. The deputy will articulate the reason for the request on the Pre-Booking Record on the back of the deputy's (yellow) copy. The deputy will seek approval from the Department Commander through the field supervisor. If the Department Commander approves the booking the deputy will indicate the name of the Department Commander that approved the request along with the date and time on the back of the Pre-Booking Record.
 - C. A first floor deputy in the Receiving area will process Cite and Release forms, prints, etc.
2. Arrests for Violation of Probation (PC 1203.2):
- i. Misdemeanor arrests for violation of probation made by Orange County Probation may be booked into the jail and will not be subject to cite and release. We will also accept arrestees brought in on a misdemeanor probation violation when transported by a law enforcement agency for Orange County Probation.
3. Bench Warrant Arrests:
- i. Arrestees brought into the jail on a Bench Warrant will not be cited and released. An exception will apply when an out-of-county issuing authority specifically requests that citations be issued to wanted persons for warrants originating from their jurisdiction.
4. Misdemeanor Warrant Arrests:
- i. PC 827.1 prohibits cite and release if any of the following conditions exist:
 - A. The misdemeanor cited in the warrant involves violence.
 - B. The misdemeanor cited in the warrant involves a firearm.
 - C. The misdemeanor cited in the warrant involves resisting arrest.

- D. The misdemeanor cited in the warrant involves giving false information to a peace officer.
- E. The person arrested is a danger to himself or herself or others due to intoxication or being under the influence of drugs or narcotics.
- F. The person requires medical examination or medical care or was otherwise unable to care for his or her own safety.
- G. The person has other ineligible charges pending against him or her.
- H. There is reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be immediately endangered by the release of the person.
- I. The person refuses to sign the notice to appear.
- J. The person cannot provide satisfactory evidence of personal identification.
- K. The warrant of arrest indicates that the person is not eligible to be released on a citation.
- L. With the exception of violations and circumstances listed below or if grounds exist under PC 827.1 prohibiting cite and release, all FA and WA Misdemeanor Warrant Bookings will be issued a citation and released from custody after being received at the IRC.

ii. The following warrant charges are not to be cited and released:

5. Medical Screening/Triage:

- i. All arrestees will be medically screened before booking.

6. Receiving Deputy:

- ii. The deputy will accept and review the Pre-Booking Record and Statement of Booking form. After approval for the booking, the forms will be given to the Receiving CST, CSA, or SSO for processing.
- iii. The booking number will be written on the Statement of Booking Officer form and the form will be retained for pickup by the medical staff.
- iv. The booking number will be written on the Pre-Booking Record and the arresting officer will be given his/her copy.
- v. The Receiving Deputy will complete a "Notice to Appear" form which will include the necessary information:

- A. Name - last, first, middle
- B. Date of birth
- C. Booking Number
- D. Case number - arresting agency's case number
- E. Charge - all charges as listed on the Pre-Booking Record
- F. Arresting agency
- G. Appearance Date - a date thirty (30) days from the date of release; excluding Saturday, Sunday, and holidays. No Friday appearance at North Justice Center for Cite and Releases.
- H. Court - check the appropriate jurisdiction
- I. Booking required - check on all releases
- J. The Pre-Booking Record and Arrest Summary report will be given to the Uncuff Deputy.

g) Fugitive Booking

1. Persons apprehended who are wanted by law enforcement agencies outside the State of California shall be handled as Fugitive Bookings.
2. The Receiving Deputy will require proper apprehension authority, which includes:
 - i. Certified copies of the demanding state's complaint and warrant
 - ii. A full physical description and/or photograph
 - iii. A commitment by the demanding agency that upon the subject's apprehension, should the subject refuse to waive extradition, formal extradition proceedings will be initiated.
3. A subject may be booked into the CJX on a fugitive charge when the arresting officer presents the Receiving Deputy with a teletype NCIC "hit" or a teletype Warrant Abstract stating that the subject is charged with a crime punishable by imprisonment for a term exceeding one year or by death [i.e., felony, or in some states, high misdemeanor (PC 1551.1)]
4. The booking charge will specify "FUGITIVE," the offense, and jurisdiction for which the arrest was made (i.e., FUGITIVE - STATE OF ARIZONA (BURGLARY). Local jurisdiction will be the Central Justice Center (CJC).
5. Immediately upon receipt of a fugitive booking, the Receiving Deputy will concur with the Records Supervisor that the required apprehension authority and all information and papers pertaining to the arrest are delivered to the Orange County Sheriff's Department Fugitive-Warrant Division. A copy of all relevant documentation will be retained in the inmate's jail file.
6. The Sheriff's Department's Fugitive-Warrant Division will initiate a Fugitive Division Detainer Notice, and send it to Inmate Records to be placed in the inmate's file, along with the proper paperwork for a legal detainment. This Detainer will serve as notice to jail personnel to notify

the Sheriff's Fugitive-Warrant Division prior to release of the inmate. This precludes a release error when other charges are pending.

h) Governor's Warrant

1. The inmate will be booked to a copy of the Governor's Warrant. The original Governor's Warrant will be forwarded to the Sheriff's Fugitive-Warrant Division. Only the Sheriff is authorized to sign the original document following the completion of all court proceedings.
2. The charge will read, "CALIFORNIA GOVERNOR'S WARRANT." Jurisdiction is Superior Court.
3. The day after being booked, the inmate will be arraigned in court. A copy of the Writing and any bond receipts will be forwarded to the Sheriff's Department's Fugitive- Warrant Division.
4. Supplemental Bookings: If an inmate is in custody on a fugitive charge and the inmate is arraigned on a Governor's Warrant, the fugitive charge will be dismissed by the court.
 - i. To proceed with the supplemental booking, a copy of the California Governor's Warrant should be forwarded to Inmate Records by the Sheriff's Department's Fugitive-Warrant Division or prepared from the original by Inmate Records.
5. Fugitive Detainer Notice: The Sheriff's Department's Fugitive-Warrant Division will initiate a Detainer Notice and will deliver it to Inmate Records to be placed in the inmate's file, along with the proper paperwork for a legal detainment. The Detainer will serve as a notice to CJX Personnel to notify the Sheriff's Department's Fugitive-Warrant Division prior to release of the inmate. This minimizes CJX exposure to a release in error when other charges are pending.

i) FBI Booking

1. All FBI bookings will reflect the applicable U.S. Code Number as furnished by the agent. The jurisdiction will be the U.S District Court. The Watch Commander must approve all FBI bookings. Under normal conditions, they are referred to the U.S. Marshal's Office.

j) Revocation of County Parole

1. A warrant of arrest issued by the County Board of Parole Commissioners will be noted on the booking record as "Revocation of County Parole." The jurisdiction will be recorded as County Parole Board.

k) Stolen Vehicle Booking

1. When an arrestee is brought to the CJX to be booked as the result of being arrested, while in possession of a stolen vehicle, the following procedures will apply:
 - i. If the vehicle was reported stolen in the same jurisdiction where the arrest was made, normal booking procedures apply.
 - ii. If the vehicle was reported stolen in a different jurisdiction within the State of California than where the arrest occurred, the following procedure will apply
 - A. The booking charge will normally be CPC 496d (a), however CVC 10851 or CPC 487(d) (1) or any other legal booking charge is acceptable.
 - B. All correspondence or contact with the agency reporting the vehicle theft will be done by the arresting agency.

C. If the arresting agency desires to sign an "Arresting Agency Order for Release"), the Receiving Deputy should provide the form for the arresting officer. The signing of this form does not alter Jail Operations procedure. The arrested person will be sent to court per standard timing and procedures. If no legal booking authority (warrant, abstract, etc.) is received from the reporting agency, the arrestee will be released at the expiration of the statutory time limit for arraignment. For agencies outside of Orange County, the five-day pick-up statute does not apply, unless the arrestee (inmate) is booked for that agency's jurisdiction. No change if the vehicle was stolen in another state.

I) Warrant Booking

1. OBTAINING AND BOOKING TO THE AUTOMATED WARRANT: Since outside agencies are interfaced with the warrant database(s), officers may arrive at the CJX with a warrant abstract in their possession. In this case, the abstract is handled per normal procedure, except that a return of service sticker or stamp will be affixed to the back of the abstract and the arresting officer will complete the return. This applies only to automated warrant abstracts.
2. When an officer from an outside agency arrives with an arrestee with only the information that there is an outstanding warrant, the arresting officer will call the Sheriff's Department's Warrant Division [REDACTED]. The Warrant Division will forward the warrant to the Receiving Guard Station.
 - i. If the warrant number supplied by the arresting officer is incorrect, the computer will show "no warrant". In this event, the arresting officer is responsible for contacting his/her office to obtain the correct number.
 - ii. When the abstract is received in the Receiving Guard Station, the arresting officer will complete the service return and then the booking will be handled as a routine booking.
 - iii. If there are multiple local warrants, a service return must be placed on each abstract and will be completed by the arresting officer.
3. "WORK COPIES" NOT ACCEPTABLE: Local agencies will have a "work copy" which looks like a standard warrant but has the word "INFORMATION" stamped on its face. Work copies contain the same information appearing on a warrant, except the name of the issuing judge. No one will be booked to a work copy. An abstract request must be completed and the arrestee booked to the abstract when it is received from the Warrant Division.
4. ABSTRACT PULLED IN ERROR: If an abstract is pulled from the computer in error, the abstract will be given to the arresting officer with instructions to deliver the abstract to his Headquarters Records Division, who will then notify the court for re-entry into the warrant database.

5. ABSTRACT WARRANTS: Abstracts of warrants will be accepted provided they are received by telegraph, teletype or any other electronic device and contain the information required by P.C. 850(b). Additionally, many counties prepare their warrants in triplicate; first copy the original, second copy distinctly marked "abstract," and the third copy is a record supplement. This type of abstract warrant will also be accepted.
 6. COPIES: The Sheriff's Department will only accept certified and properly stamped copies of warrants. This does not include a copy of a certified copy. Though a copy of a warrant may contain all of the information required in P.C. 850, the certification stamp is required.
 - i. Without proper certification, there is no assurance that it is the only copy of the original.
 7. MULTIPLE WARRANTS: Arrestees with multiple warrants will be booked under the following priority: a) in-county warrants before out-of-county; b) felony before misdemeanor; and c) highest bail amount when warrants are of the same classification (e.g., two misdemeanor warrants, book to the one with the highest bail amount). During the initial booking, arrestees will be booked on only one warrant using the above priority listing. Additional warrants accompanying the inmate, whether from the same jurisdiction, another Orange County jurisdiction or from another California County, will be accepted by the Receiving Deputy and forwarded to Inmate Records. Enter or stamp the words, "SUPPLEMENTAL BOOKING" at the top of the Pre-Booking Record whenever an arrestee is booked on more than one in-county warrant. Enter or stamp the word "HOLD" whenever the additional warrants are out-of-county.
 8. HOLDS: Additional out-of-county warrants will be holds. Stamp or enter the word "HOLD" at the top of the Pre-Booking Record when the additional warrants are from another county.
 9. SERVICE ENDORSEMENT: Only those warrants actually used for booking or supplemental bookings are to have the service endorsement completed. The endorsement is not completed on warrants accepted as holds. On teletype warrants, the stamp will be used and signed off by the arresting or transporting officer.
 10. NOTICE REQUIRED ON OUT-OF-COUNTY WARRANTS: All persons arrested and booked on an out-of-county warrant must be advised in writing of his/her right to a local court appearance per CPC 821-822. If the warrant is not so endorsed, affix the stamp provided in the Receiving Guard Station and have the arresting or transporting officer complete and sign the endorsement.
 11. If an arrestee is booked to a warrant and he/she protests that he/she is not the individual named in the warrant, the arrestee and warrant information will be forwarded to Classification staff for confirmation.
- m) Court Returned New Booking
1. DEFINED: Inmates who were not in jail custody, but have been remanded to the custody of the Sheriff by the court.

2. RECEIPT OF COURT PAPERS: The Receiving Deputy will receive a Pre-Booking Record with a copy of the court papers attached. The transportation deputy will be responsible for delivering the original court papers to the Commitment Clerk.
3. SENTENCED AND UNSENTENCED COMMITMENTS: Whenever an inmate is received as a new booking from court and is accompanied by both, a commitment to time in an Orange County Jail facility, and a remanding order or temporary commitment, he/she will be booked to the Remanding Order or the superior Court Temporary Commitment. Superior Court Temporary Commitments are a single form by which a person can be "remanded" to the Sheriff's custody for future appearances, serve time in an Orange County Jail facility, or can be sent to state prison. The Receiving Deputy will forward commitment papers to Inmate Records after he/she stamps the word "SUPPLEMENTAL" on the top of the Pre-Booking Record and the court commitment paper.

n) Bail/Bond Surrender Booking

1. Periodically a Bail/Bond Surrender arrest may be delivered to the jail. The defendant may be surrendered by the bondsman to the custody of the Sheriff any time prior to the scheduled appearance (as shown on the bond or bail slip) or after the scheduled appearance if the defendant failed to appear (as indicated in a certified copy of the minute order issued by the court).
2. Surrender Prior to Appearance Date: If the bondsman is surrendering the defendant prior to the scheduled appearance date, he/she need only furnish a certified copy of the bond or bail slip and an appropriate means of identification for the defendant.
 - i. Acceptable identification is as follows: – Valid U.S. Government issued picture ID card (ex. State Driver's License, Identification Card, etc.).
 - A. Valid Passport
 - B. Valid United States Military Identification Card
 - C. US issued Naturalized Citizen Card
 - D. Matricula Consular Card issued after April 22, 2002.
 - ii. If the bondsman is unable to furnish identification, Classification staff will attempt to make positive identification through previous booking record, DMV photo, or Cal ID.
3. Surrender after scheduled appearance date: If the defendant failed to appear in court as scheduled, the bondsman must provide the jail with a certified bond surrender issued by the court, stating the defendant failed to appear.
4. When the arrestee is not in custody at the jail, the surety company agent will bring the arrestee to the Visiting Guard Station and shall present the Visiting Guard Station SSO with the appropriate documentation and a completed Pre-Booking Record. The Visiting Guard Station SSO will notify the Receiving Guard Station Deputy. The Receiving Deputy will send a deputy to Visiting and take custody of the arrestee.
 - i. The booking charge shall specify Bail/Bond Surrender and the original charge.

- ii. The court date is set as with any other "on site" booking.
 - iii. A copy of the certified bond/bail slip and minute order (if applicable) is retained in the inmate's jail file with copies being forwarded to the court where the appearance will be made.
- 5. When the person named on the bond/bail slip is in custody, records staff will determine if the subject has been booked to the charges listed on the bond.
 - i. If the subject has already been booked to the charges on the bond/bail slip, the Inmate Records Supervisor must refuse the surrender and direct the surety company agent to the Orange County Court of jurisdiction in the case in order to obtain an Exoneration Order.

The Receiving Deputy will fill out in duplicate an Arresting Agency Order for Release and a Property Release Authorization form. The original of each form, including the Pre-Booking Record, will be forwarded to Inmate Records once the inmate's property and the inmate is released to the arresting agency. The copies of the two forms will be forwarded with the arresting or transporting officer.

- x. The nurse will check each cell after it is cleaned to certify that it is ready for occupancy.
- xi. The Module Deputy will log the name of the nurse and the date and time the cell was inspected and approved for occupancy.

f) Inmate Housing and Movement

1. An infectious inmate will wear a surgical mask whenever he is outside of the atmospheric isolation cell.
2. Whenever a deputy is escorting or transporting an inmate who is suspected to be contagious or known to be contagious the deputy will wear a NIOSH mask and latex gloves.
3. In no instance will safety and security be jeopardized due to the inmate's medical condition.
4. No inmate will be housed in an atmospheric isolation cell that is not operating properly.
 - i. In the event that the airflow system fails, the Module Deputy should refer to the TB Cell Operations Manual. Copies are located in the Module "O" guard station, Main Control, and the Watch Commanders office.
 - ii. If the airflow system fails and cannot be restarted, the medical staff should be notified immediately and alternative measures taken to quarantine the inmate.

Officer Awareness

- a) [REDACTED]
- b) [REDACTED].

Primary Objectives

- a) Provide for the safety and security of all in attendance.
- b) Deter criminal activity.
- c) Allow all persons to exercise their right to free speech.

High Profile / High Risk Defendants

- a) Well known individuals or incidents that have had a high level of media coverage that appear in court as defendants may necessitate the use of additional personnel for security and crowd control.
 1. The bailiff should notify his/her supervisor when it is learned that a high profile defendant has a trial or hearing so that a plan may be developed to secure adequate personnel.
- b) Cases involving murder, three-strike defendants, state prisoners, death row inmates, and persons on parole are among those considered to be high-risk defendants.
 1. High-risk defendants feel that the courtroom is the weakest link in prisoner security.
 2. Additional personnel should be considered in any of these cases.
- c) Do not assume that an inmate is not a high-risk defendant just because they have not been categorized as one.
- d) Inmates appearing on lesser charges often have extensive felony records and violent tendencies.

Tactical Considerations

- a) Tactical Considerations include but are not limited to:
 1. [REDACTED]
 2. [REDACTED]

3. [REDACTED]
4. [REDACTED]
5. [REDACTED]
6. [REDACTED]

b) Location for the Incident Command Post (ICP).

Additional Considerations

- a) Ground photographs of the Justice Center.
- b) Photograph or layout of the courtroom.
- c) Additional E.R.T activation(s).
- d) Staging area for Fire/Paramedics – ambulance.

 2. Tactical communication needs – frequency clearance, alternate channel etc...

Outside Agencies

- a) Should it be necessary to call on outside agencies, Mutual Aid will be requested through the Department Commander.
- b) Additionally, should Fire/Paramedics be needed, they will also be requested through the Department Commander.

Protesters/Petitioners

- a) During a High Risk / Profile trial, protesters may show-up at the Justice Center to exercise their right to free speech.
 1. Protesters will be given an area away from the entrance outside the Justice Center to peacefully protest and voice their opinion.
- b) The protest area will be designated by the Incident Commander.

High Profile/High Risk Courtroom Entrance Screening

- a) [REDACTED]

- b) The main purpose of the courtroom entrance search is to provide additional security measures to prevent weapons, explosives, or other potentially dangerous articles from entering the courtroom.
 - 1. This is done by searching all persons with the possible exception of properly identified court attachés, attorneys, police officers, and members of the news media wanting access into the courtroom.
- c) When a bailiff believes a courtroom entrance search may be necessary, he/she shall seek approval from the court supervisor.
 - 1. The Sergeant will notify the Justice Center Lieutenant
- d) The sergeant/deputy will inform the judge assigned to the case of the particular circumstances of the case that establish the need for a search.
- e) Courtroom entrance searching shall not be done without the judge's knowledge and permission.
 - 1. If possible obtain a written order from the judge authorizing the search and post it in a conspicuous place at the screening location.
- f) Searches should be done in a professional, inoffensive, yet thorough manner.
 - 1. Persons carrying packages should be instructed to deposit them elsewhere.
 - 2. Those persons refusing to be searched will not be admitted into the courtroom.
 - 3. Arrests for minor offences detected by the search are subject to supervisory approval.
 - 4. Set up the screening area in such a position as to facilitate maximum control.
 - 5. Searches should never be conducted within sight or hearing of the prospective or impaneled jurors assigned to the case.
 - 6. The screening area will usually be staffed with two deputies/SSOs (preferably one male and one female).
 - 7. If a "pat down" search is deemed appropriate after the initial electronic screening, when possible, "pat down" search should be conducted by a person who is the same sex as the person being searched.

Enforcement

- a) OCSD Court Operations will deploy a minimum of one (1) E.R.T. during the Operational Period.
 - 1. The Deputies will provide visible patrol, provide for the safety of all in attendance, deter criminal activity and take swift enforcement action on any violations of law.

Everything a bailiff says and does represents the Sheriff and the Court, nothing less than an absolutely neutral and impartial position will be accepted. Extreme caution must be taken to avoid even the slightest perception of favoring one side or the other.

- a) New trials have been granted upon motion by the defendant where it has been shown that the bailiff has, by conduct, demeanor, or statements in the presence of the jury, expressed an opinion of what verdict the jury should reach.
- b) Failing to keep the jury together as charged by the oath given to the bailiff has been grounds for a new trial.
- c) Misconduct could result in contempt of court charges against the bailiff as well as disciplinary action by the Sheriff's Department.

10008.3 - Trial Proceedings

Criminal Trial Proceedings

- a) After the jury has been impaneled and sworn, the trial must proceed in the following order, unless otherwise directed by the court.
 - 1. Prior to taking of testimony, the bailiff should be familiar with the evidence in the case.

- b) The bailiff shall provide jurors with notebooks and pencils and instruct them that the notes will remain in the courtroom at all times.
 - 1. These materials are to be secured by the bailiff at the end of each day.
 - 2. Jurors' notes are confidential and shall not be read.
- c) The Deputy District Attorney, or other counsel for the people, must open the case and offer evidence in support of the charge.
- d) The defense counsel may then open the defense and offer evidence in support of their client(s).
- e) The parties may then offer rebutting testimony, unless the court permits them to offer new evidence.
- f) When a witness is called to testify, the bailiff shall direct the person to come forward and be sworn, after which the bailiff will direct the person to the witness stand and adjust the microphone. The bailiff shall make sure that no witness is chewing gum or tobacco when they take the witness stand.
- g) When the evidence is concluded the District Attorney, or other counsel for the people, and counsel for the defendant may argue the case to the court and jury. The District Attorney opens and closes final argument. This is avoided if the case is submitted without argument.

Court Trials

- a) A court trial is heard when the defendant or litigant has waived their right to a jury trial, thus enabling the judge to hear all the evidence in the case and make a decision based on the witnesses testimony.
 - 1. Court trials are also used in most minor traffic infractions.
- b) The order of trial is very similar to that of the jury trial. First the prosecutor or the traffic officer presents their case.
 - 1. The defendant then has the opportunity to cross-examine any witnesses.
 - 2. After the prosecution has completed their case, the defense has the opportunity to present witnesses.
 - 3. At this time the prosecutor has the opportunity to cross-examine the defense witnesses.
- c) After both sides have completed their testimony, they have a final chance to present a summary of their individual cases to the judge for determination.
- d) After the judge makes a finding of guilty or not guilty, the bailiff should be prepared to proceed if the defendant is to be remanded to custody.
 - 1. Bailiffs should keep in mind that although a court trial is usually a very simple matter, it may become very volatile.
 - 2. This is especially true in traffic matters where there is a matter of difference between the violator and the traffic officer.
 - 3. The key is to maintain control of your courtroom and all persons who are appearing.

Civil Trial Proceedings

- a) When the jury has been sworn, the trial must proceed in the following order, unless the court, for special reasons, directs otherwise:
1. The plaintiff (petitioner), after stating the issue(s) may produce evidence.
 2. The defendant (respondent) may then open the defense and offer evidence in support thereof.
 3. The parties may then respectively offer rebutting evidence only, unless the court, for good reason in the furtherance of justice, permits them to offer evidence upon their original case.
 4. When the evidence is concluded, unless the case is submitted to the jury on either side or on both sides without argument, the plaintiff must commence and may conclude the argument.
 5. In trials where several defendants are represented by different counsel, the court must determine their relative order in the presentation of evidence and argument phases.

10008.4 - High Risk Trials

High Risk Trials

Trials that require an increased security presence, special security preparations and/or the use of security screening devices are usually referred to as “high risk trials”.

Guidelines for High Risk Trials

The following guidelines have been developed to assist bailiff and supervisory personnel during the pre-planning and execution stages of those events:

Define known problems particular to the case

- a) Inmates/ Defendants
- b) How many defendants / witnesses are there (In and out of custody?)
- c) What is their gang / organization affiliation and prior history?
- d) Are they violent / non-violent?
- e) Will they be shackled or unshackled?
- f) Are they pro per, or does counsel represent them

- b) Is the community hostile to, or supportive of, the defendant?
- c) Are there “special interest” groups involved? If so, who are they and what is their background

The Press

- a) Will cameras be allowed in the courtroom? If so, where is the most secure place for them? If not, do we need a separate press area in or outside of the Justice Center?
- b) Will audio recording devices be allowed in the courtroom?
- c) Will there be a limit on the number of reporters allowed in the courtroom?
- d) Is it possible to create a special section for press seating?
- e) Should we provide a liaison officer for the press?

Conduct a pre-event meeting, request the following people be in attendance

- a) Trial Judge
- b) Prosecutor
- c) Defense attorney(s)
- d) Sheriff Incident Commander

Discuss the following

- a) Whether the inmate(s) will be shackled / unshackled
- b) The incident "Incident Action Plan", including:
 1. The responsibilities of court participants
 2. The point at which contingency plans will be implemented
 3. Proposed security measures designed specifically for the safety / control of the defendant(s)

- c) Witnesses, including recommendations for their handling (both custody and non-custody) and transportation
- d) The issuance of a court order granting permission for all or part of the above (offer to generate the order for the judge's signature)

NOTE For additional information see CCOM section [10005.5](#) High Profile / High Risk Trials and Defendants

10009 – Juries

10009.1 - Jury Selection

Jury Panel Selection

- a) Once the courtroom is prepared and the trial is ready to begin, the clerk will call for a panel of jurors. The panel will be sent from the Jury Assembly Room and each panel will vary in number depending on the judge's evaluation of that particular case.
- b) Prior to the arrival of the prospective jury panel, the bailiff shall reserve seats in the courtroom to accommodate the panel. Spectators will be directed to sit on one side of the courtroom so the jury panel can be kept together.
- c) When the jurors first arrive, one juror will have an envelope containing a random list with the names of each juror in the panel. This envelope shall be given to the clerk.

- d) The bailiff shall, prior to the judge taking the bench, ascertain if the jury panel is complete and instruct them on how to enter the jury box.
- e) The defendant shall be present during these and all other proceedings of trial unless otherwise ordered by the court.
- f) The court clerk will call twelve or more names from the panel of prospective jurors from the list. Each prospective juror will be assigned a seat in the jury box in the order in which their names were drawn. The clerk will continue to call names from the panel to replace any juror excused from the original twelve prospective jurors drawn.

Examination of Jurors

- a) The judge will examine the prospective jurors in an attempt to select a fair and impartial jury. The judge will then permit reasonable examination of jurors by counsel for the people and counsel for the defendant. This is also known as "Voir dire."
- b) Once a juror is challenged and excused, the judge will instruct the juror to return to the Jury Assembly Room.
- c) Once the panel is selected and is accepted by both the court and the parties to the litigation, the clerk will swear-in the jury to try the case before the court. The remaining jurors may then be excused to return to the jury assembly room.

Alternate Jurors

- a) Alternate jurors are often selected to sit with the jury. Throughout the trial, up to the time of deliberation, the alternates are treated the same and are subject to the same rules as are the members of the regular jury panel.
- b) Alternate jurors are seated as closely as possible to the regular jury panel. Care should be taken to insure that they are in a position to observe the entire proceedings. Should a member of the regular panel become ill or unable to finish the case, the alternate juror will be appointed by the court to take the excused member's place in the jury box.
- c) The alternate jurors receive the same instructions as the regular jurors, but only the regular jurors go into the jury deliberation room to decide the case.
- d) Until otherwise instructed by the court, the bailiff shall not speak to alternate jurors or allow anyone else to speak to them upon any matter connected with the case except by order of the court. Absent an order from the court to the contrary, any time the jury is brought back into the courtroom during their deliberations, the alternate jurors must also be present.

10009.2 - Courtroom Procedures for Jurors

- a) At the first opportunity, the bailiff shall instruct the jury on the rules and procedures of that court.
- b) The bailiff shall instruct the jury when to enter the courtroom upon reporting, at recesses and upon adjourning. An emergency telephone number is usually provided to prospective jurors by the Jury Commissioner's Office. The Jury Commissioner's Office phone number or the courtroom

telephone number should be made available to the jury for notifying the court if for any reason they will be reporting late or unable to report at all.

10009.3 - Court Recesses

- a) When court recesses during the course of a trial, normally everyone is to remain seated until the judge and jurors leave the courtroom. Defendants in custody shall be returned to the holding area or cell after the jurors have been directed to the jury room.
- b) Before court is to reconvene, the bailiff shall return the in-custody defendant to the courtroom. The judge shall then be informed when all parties are ready to resume.
- c) The jury must also, at each adjournment of the court, be admonished by the court that it is their duty not to converse among themselves or with anyone else on any subject connected with the trial, nor to form or express any opinion thereon until the cause is finally submitted to them Penal Code Section 1121 [\[1\]](#).

10009.4 - Jury Instructions

- a) When the attorneys have made their final argument and the case is concluded, the judge will then instruct the jury.
- b) The bailiff shall post a notice on the outside of the courtroom door, stating: "No Admittance, Jury Being Instructed." While the instructions are being given, no one is permitted to enter or leave the courtroom, unless otherwise directed by the judge.
- c) At the completion of the instructions to the jury, the bailiff shall stand with right hand raised and be sworn by the Clerk of the Court to take charge of the jury.

10009.5 - Jury Deliberations

- a) After being sworn to take charge of the jury, the bailiff will escort the jury to the jury deliberation room and make sure that necessary articles are furnished to them, such as pencils, paper, etc., and see that all facilities are in order.
- b) The jury shall be secured in the jury room. The bailiff shall explain the use of the alarm panel or other signaling device to the jury and remain available during their deliberation to respond to the needs of the jury. If the jury room is locked, the bailiff shall be available with the key in the event of an emergency.
- c) If it becomes necessary for the bailiff to assume other duties which will limit his ability to respond to a jury's call, a bailiff in an adjacent court may be sworn to handle the jury's needs.
- d) "Upon retiring for deliberation, the jury may take with them all papers (except depositions) which have been received as evidence...." (California Penal Code section 113 [\[1\]](#)). The bailiff shall be responsible for placing exhibits into the jury room; this policy does not apply to physical evidence. For physical evidence instructions see CCOM policy 10007.4.

- e) When the jury leaves the jury room while deliberations are ongoing, the bailiff shall secure the jury room and its contents.

Bailiff Summoned by Jury

- a) The bailiff, when summoned to the jury room by signal or alarm, shall knock before entering. When granted permission, the bailiff may enter and inquire of the reason for being summoned.
- b) Any questions regarding the case shall be relayed to the judge in written form and signed by the foreperson of the jury. The bailiff shall not inform anyone except the judge of the inquiry or message from the jury except upon order of the court
- c) After the jury has retired for deliberation, if there is any disagreement between them as to the testimony, if they desire to be informed on any point of law arising in the case, or request to view any evidence that was not taken into the jury room, they must summon the bailiff using the alarm panel or other signaling device, and inform the judge in writing of their request.

10009.6 - Verdict Reached by Jury

- a) When the jury has agreed upon its verdict, they must be brought into court by the bailiff having charge of them.
 - 1. When the jury appears, the judge will ask if they have agreed upon a verdict.
 - 2. If the foreperson answers in the affirmative, the judge will instruct the jury foreperson to hand the verdict forms to the bailiff.
 - 3. The bailiff will then take all the verdict forms from the foreperson, without looking at them, and hand them to the judge.
- b) After the courtroom clerk has read the verdict, the judge will discharge the jury. The defendant will remain seated until all jurors have left the courtroom, then the judge will finalize the proceedings on the record.

10009.7 - Juror Illness or Injury

- a) If a juror becomes ill or is injured and paramedics or an ambulance are needed, the bailiff shall immediately activate the procedures for a medical emergency.
 - 1. The judge shall be informed of the extent of the illness or injury as soon as possible.
 - 2. The jury commissioner shall also be informed.
 - 3. If the juror is to be taken by ambulance to a hospital, the judge may request that a deputy accompany the juror.
 - 4. The bailiff shall prepare a report and submit it to their supervisor as soon as possible.
- b) Jurors, whether impaneled or not, are classified as county employees. Report all juror injuries to the appropriate Jury Commissioner who will fill out the necessary reports for Industrial Injury.
- c) The Jury Commissioner shall be called even if the juror declines medical treatment. In all cases where the bailiff has personal knowledge of the injury, the bailiff shall assist the Jury Commissioner in preparing the injury report.

10010 – Court Hearings

10010.1 - Court Hearings - Overview

Hearings take on many forms and situations in a courtroom. They may be a simple small claims hearing to a more serious sentencing hearing where an individual may be going to jail. The bailiff should be aware that all court proceedings have a potential for a violent outbreak.

Probation and Sentencing Hearings

- a) This type of hearing is usually held after a defendant has been found guilty of committing the crime alleged by the prosecutor.
- b) At the conclusion of the trial, the judge will normally request a report from the Probation Department to ascertain recommendations for sentencing.
- c) When the defendant is called before the judge, if the defendant is on bail, the judge should alert the bailiff if the sentence includes a commitment to a jail facility.
 1. In this instance, the bailiff should be in a position that will block any effort by the defendant to leave the courtroom.
- d) Immediately on sentencing to a jail term, the bailiff shall remove the defendant from the courtroom and immediately conduct a pat down search for weapons and contraband. For additional information on remand procedures refer to CCOM Section 10006.12.
- e) Defendants who are already in custody should be returned to the court holding facility for transportation back to county jail.
- f) When the defendant is on bail and is released on probation without a jail sentence, the bailiff will give the defendant a copy of the terms and conditions of probation, prepared by the clerk, and release the defendant from the court.
- g) In custody defendants shall not be released from the courtroom; they shall be returned to the jail for processing.

Order to Show Cause

- a) An order to show cause hearing may involve a contempt matter, restraining order or a motion by an attorney to have evidence produced, etc. Since there are many types of order to show cause matters, it is imperative that a bailiff, in a courtroom that hears these types of orders, be familiar with the proceedings.
- b) Restraining order hearings may involve domestic violence, harassment, and child custody or divorce hearings. All of these hearings are potentially violent. A bailiff must be aware of all persons in the courtroom and not be distracted by outside influences.

Family Law

- a) Matters in this type of hearing usually involve separation, divorce, or order to show cause matters involving families. The very nature of this court involves conflict between two parties. This can create situations that will be volatile.

- b) Bailiffs should be knowledgeable and vigilant of any situations of violence against either party. This knowledge can prevent a violent outbreak in court.

10010.2 - Mental Health Hearings

- a) The Superior Court designates and conducts examinations and hearings for the purpose of determining a defendant's state of mental health.
- b) Persons alleged to be mentally ill and who have had petitions filed on their behalf, or have had proceedings suspended in the Superior Court regarding the person's competency to stand trial on felony criminal charges appear in these courts. Narcotic commitments to the California Rehabilitation Center, (CRC) are also heard in this court.
- c) A bailiff assigned to the Mental Health Court performs a variety of duties, as follows:
 - 1. Prisoners held in the county jail who are involved in cases being heard in mental health cases shall be ordered for court by the bailiff on the Transportation Order form. Custodies may also be brought in from outside sources such as county, state or contract hospitals.
 - 2. The bailiff will escort the prisoners from the holding area. In the courtroom, the bailiff shall be as attentive as possible to the patient who appears for a hearing. Every measure of assurance should be given the patient during the proceedings. If the patient displays violent or erratic behavior, it is the duty of the bailiff to control the patient and call for assistance. Because of the type of individual in these hearings, the bailiff will generally be stationed directly behind the patient during such hearings.
- d) "Bedside Court Hearings" may be conducted in the wards of the Psychiatric Unit, at County Mental Health, or at any state or county institution or any place so designated by the court. Many patients are not ambulatory due to their state of physical or mental health. These bedside hearings are lawful court sessions. Therefore, the bailiff shall abide by the rules of courtroom procedure in maintaining order and preserving the dignity of the court.

10011 – Juvenile Court

10011.1 - Juvenile Court - Overview

- a) Juvenile Court proceedings require special handling due to the emotional involvement of the families of the juveniles appearing before the court.
 - 1. Some juveniles require extremely close supervision; particularly the older minors, who may, at any time, require physical restraint or special handling.
- b) Bailiffs assigned to the Juvenile Court must be acutely alert and responsive to the needs of the court.

10011.2 - Public and Media Access

- a) The Juvenile Court is statutorily responsible for protecting the confidentiality of juvenile court records and its proceedings. Of utmost confidentiality are the identities of minors under, or about to come under, its jurisdiction.
- b) The Juvenile Court's duty to safeguard the confidentiality of a minor's contact with the judicial system is essential to facilitating and promoting the court's goals of treatment, rehabilitation, and protection from public scandal, curiosity and humiliation.
- c) Bailiffs shall adhere to the requirements for the confidentiality of Juvenile Court proceedings. Any deviation to this requirement shall be done only by court order.
- d) The media shall not directly contact a minor, the minor's family members, any juvenile detention facility, or any court ordered juvenile placement facility.

For additional information refer to CCOM Section 10003.7

10011.3 - Juvenile Court Procedures

Juvenile Court Calendar

- a) The general public shall not view the court calendar in order to preserve the confidentiality of the proceedings.
- b) Each bailiff assigned to a specific courtroom shall check the daily court calendar to be sure that all juveniles and in-custody adults scheduled to appear are present and, if not, alert the Detention Guard Station Deputies that a party is missing so that the matter can receive immediate attention and the court be given an adequate explanation.
- c) The Court Officer (Department of Social Services for Dependency matters and Department of Probation for Delinquency matters) shall ordinarily check to see which cases have all the necessary witnesses, parents, attorneys, etc., present so that priority can be given those cases where all concerned parties are assembled. If it is necessary to page participants in a juvenile proceeding in the public hallway, call out the case name using only the first name and last initial of the involved juvenile.

Juvenile Court Hearings

Bailiffs assigned to regular Juvenile Court hearings shall follow the general procedures as outlined below:

- a) As in detention hearings, cases are given priority when all the parties concerned are present.
- b) When a case is called, the bailiff shall notify persons having business with the court in regard to that case, direct them to the hearing room, and instruct them to be seated in a manner so as to provide the most security for the court until they are sworn.
- c) If in custody, the bailiff shall escort the ward of the court from the detention corridor into the hearing room, maintaining custody of the juvenile during the hearing.

- d) If an adult witness or adult defendant in a juvenile case is in custody in the county jail, the witness or defendant is ordered on an "Order to Produce" signed by the judge. This order is forwarded by the bailiff to the jail where the adult's name will be placed on the court list of prisoners for the date of the hearing.
 - 1. The prisoner is transported to the court by Sheriff's Transportation and turned over to the bailiffs for placing in the court holding facilities that are separate from the juveniles.
 - 2. The witness or defendant shall be brought into the hearing room by the bailiff when the case is called and returned to the holding facility at the conclusion of the hearing to await transportation back to the county jail.
 - 3. The witness or defendant should remain handcuffed or in waist restraints while appearing in court.
- e) At the conclusion of a hearing, the juvenile involved is returned to the custody corridor for return to Juvenile Hall.
 - 1. Juveniles who had not been in custody, but are now remanded or ordered detained by the court, are taken to the custody corridor and relieved of personal property by the bailiff.
 - 2. The minor and his/her property shall be delivered to the Juvenile Hall ADPO.
 - 3. The bailiff shall notify the Juvenile Hall ADPO of the disposition of each case and provide a release or detaining order to cover each juvenile that is returned.
- f) Juveniles remanded to custody are searched and placed in the holding facility by the bailiff. They are to be placed in a detention area separate from any adult prisoners. If a juvenile is ordered to be tried as an adult, the juvenile is still to be placed in a detention area separate from any adult prisoners.
- g) When an individual in Juvenile Court, for any reason, is remanded to custody as an adult, they shall be processed as a regular adult court commit.

NOTE: Parents or guardians of juveniles in custody are afforded visiting privileges with the juveniles at Juvenile Hall after the hearing, if so ordered by the court, under the supervision of the Juvenile Hall staff.

- a) Violence on a school campus or business is an everyday occurrence. You watch the news and you hear about another student, teacher or worker getting killed or injured at a school or workplace somewhere in the United States. To deal with these types of violence at these locations, law enforcement in this country had to develop an "Extraordinary Deployment" plan. Immediate Action/Rapid Deployment is such a plan. It utilizes the initial responders, who are the first deputy's on scene of an "Active Shooter" incident, and they immediately deploy into the school campus, business or Justice Center to save as many lives as possible, while additional resources, such as the Special Weapons and Tactics Team (SWAT), are responding to the scene. The initial responders will organize into a "Contact Team" made up ideally, but not limited to, four officers. They will then aggressively seek out the shooter and stop him or her from continuing with the violent action.

1. Court Operations personnel assigned to CIRT will adhere the policies and procedures outlined in the Orange County Sheriff's Department Patrol Operations Manual (POM) Section 67 -Critical Incident Response Team (CIRT) and Section 74 - Rapid Deployment Tactics.

5. The arriving medical personnel shall perform the appropriate medical evaluation and take over lifesaving measures.
6. Protect items of apparent evidentiary value.

12004 – Money Writs

12004.1 - Vehicle Levies, Execution Levy (ELC) & CHP 180

One of the most common ways to collect a civil judgment is to levy upon the debtor's vehicle. It is also one of the most potentially volatile situations that civil deputies handle.

Execution Levy Car (ELC)

- a) The primary method of service a civil field deputy will encounter is an "ELC", a levy on tangible personal property in possession of the defendant.
- b) The purpose of a vehicle levy under a writ of execution is to satisfy a money judgment out of the proceeds derived from the sale of the levied vehicle.

Guidelines for determining when/when not to Levy on a Vehicle:

- a) If the vehicle is registered to the defendant, perform the levy.
- b) If the vehicle is registered to another and the R/O is not present, but the defendant is present, perform the levy.
- c) If the vehicle is registered to another and the defendant is not present, do not perform the levy.
- d) Superior Court may issue a "Warrant" on a vehicle.
 1. In this case, the R/O, location of the defendant, etc. is inconsequential, perform the levy.
- e) Registration is not the sole factor which determines if the vehicle is taken or not.
 1. The levy is on "all rights, title, and interests" of the defendant in the vehicle.
 2. A vehicle registered to another person yet it is in the possession of the defendant can be construed to show the defendant has rights in/to the vehicle.
- f) If the subject vehicle is located, contact the defendant, serve a copy of the writ and seek a payoff.
 1. If the defendant is unable to pay the judgment and costs, tow the car.
 2. Serve a copy of the writ on the person having custody of the vehicle if the defendant is not present.
- g) If no one is present, post a copy of the writ in a conspicuous place.
 1. Complete a CHP 180 and notify Support Services/Teletype at [REDACTED] immediately so the impound information can be entered into the CLETS system and obtain a FCN number.
 2. The FCN number is written on the CHP 180 form adjacent to the REMARKS box.
 3. The CHP 180 form shall be used in conjunction with all civil vehicle levies.

- h) If a payoff is accepted in lieu of seizure, it should be in the form of cash, cashier's check or money order payable to the Sheriff, and a field receipt is issued. A personal check is never acceptable for a payoff on a vehicle levy.

12004.3 - Moving and Storage Guidelines for Civil Bureau

The Orange County Sheriff's Department has entered into formal contracts with moving companies to provide moving and storage services for civil levies. They have all agreed to the same hourly and storage rates.

Using authorized Moving and Storage Companies

- a) Civil enforcement Deputies will use the authorized Moving and Storage Companies listed in Post Order [11-17](#). No other companies are authorized for use.
- b) Field supervisors will ensure that moving and storage companies are being used on a rotational basis.
 - 1. If a company cannot perform the job, the deputy or sergeant will document that they were offered the job and declined. The deputy or sergeant will then go to the next company on the list.
 - 2. If service problems arise with any of the listed companies that cannot be resolved, contact the Civil Committee for their review.
- c) When the plaintiff or their attorney requests us to use a different Moving and Storage Company, we will inform them that the company they choose must go through the County Vendor process. This could lead to a delay in their levy request.

- d) The plaintiff has two options when moving, storing, and selling defendant's property to satisfy a Writ.
 - 1. The plaintiff can have us place a keeper in the business so that a complete inventory of the property to be seized can be taken beforehand. This also allows the Moving and Storage Company to visit the site and give an accurate moving and storage estimate.
 - 2. In this case the plaintiff must initially give us a deposit to cover the keeper fees and then deposit additional monies to cover the moving and storage costs.
- e) The plaintiff can have us immediately move and store the property to be levied. While this method is good for seizing one or two identifiable pieces of property, it is a poor method to seize property when the plaintiff requests us to "seize any and all property of the defendant."
 - 1. A keeper will be placed to conduct the inventory.

Blind Estimates

- a) If the plaintiff insists on immediately moving and storing the property, the deputy will get as good of an estimate of property to be moved from the plaintiff.
- b) The deputy will call the moving and storage facility and tell them we need a blind estimate on the seizure.
- c) Call the plaintiff back, give them the estimate and inform them that they must be immediately available to deposit additional funds if the costs go over the estimate.
 - 1. Also inform them that if there is no break in order and that if the business is closed, they will be charged a dry-run fee by the moving company.

Insurance on Seized Property

- a) The department must notify the plaintiff, or their attorney, that under state law, moving companies are only liable for lost or damaged goods in the amount of \$.60 per pound.
- b) If the plaintiff or their attorney want, or require, additional insurance they must purchase it from the moving company through us and include that amount in their deposit.
- c) The plaintiff or their attorney must check one of the boxes on the Levy/Garnishment Instruction Sheet either declining additional insurance or they must check the box requesting additional insurance.
 - 1. If the plaintiff or their attorney mailed in the instructions we will notify them of the insurance valuation limits by faxing them our instruction sheet so they can formally decline or purchase additional insurance.
 - 2. If no fax number is available we will mail them an instruction sheet.
 - 3. We will hold the case for one month and return the writ and fees if the plaintiff or their attorney does not respond to our request to return the instruction sheet.

- b) The deputy will obtain a DR number and fill out a CHP180 form on all seizures and turnovers.
 - 1. The deputy must obtain an FCN Number, this is done by calling teletype at [REDACTED]
 - 2. Teletype needs the removal authority to enter the FCN number, the removal authority for teletype is CCP 687.030 [\[1\]](#).
 - 3. After the deputy gives teletype the vehicle information, teletype will assign a FCN number that the deputy will include in the narrative section of the CHP 180 form.
 - 4. If the vehicle is seized, the deputy will mark the "Impounded" and "Agency Hold" boxes.
 - 5. If the vehicle is turned over to the plaintiff, the deputy and the plaintiff will complete the release sections of the form.
 - 6. In both cases, "Civil Seizure" will be written boldly in the narrative section.

Report Distribution

- a) Report Distribution to be completed by the deputy:
 - 1. Original - Support Services
 - 2. Copy - Attached to Civil Worksheet to be placed in case file
 - 3. Copy - Placed in Detail's DR log book

Professional Staff

- a) The professional staff member assigned to the case will query DTS to ensure the tow company entered all of the required fields when the deputy returns the service ticket along with the CHP180 form.
 - 1. The professional staff member will write the following in the "Hold" notes section: "Civil Seizure - Vehicle only to be release by Sheriff's Civil Office."

Vehicle Turned over to Plaintiff

- a) If the vehicle was turned over directly to the plaintiff and a tow company was used, the professional staff must do all of the data entry.
 - 1. The DTS system should be periodically checked while the vehicle is in storage to ensure the plaintiff has enough fees to cover the storage costs.
 - 2. Prior to the sale, the assigned staff member will tally the storage costs to ensure the tow company is paid in full prior to the disbursements of sale funds to the plaintiff.
 - 3. After a sheriff sale has been completed and the buyer has met all obligations, the staff member will send a release through DTS authorizing the tow company to release the vehicle to the winning bidder.

Additional Information

- a) The seizure of boats and planes will also be tracked through DTS.
 - 1. When these types of assets are seized, professional staff must manually enter all the data into the system since they will not be stored in a private tow yard.

12008 – Writ of Possession

12008.1 - Defendants Re-entering Real Property Following Eviction

Local law enforcement agencies are frequently confronted with a problem that usually occurs shortly after a Writ of Possession for Real Property has been enforced by Sheriff's Department personnel.

Attempt to Re-Enter or Re-Occupy after Eviction

Defendants who have been evicted from real properties frequently return and re-enter or re-occupy the premises, in violation of the court order. Landlords are usually directed by the local police agency to contact the Sheriff's Department, and are informed by the local police agency that the eviction process is a civil matter and must be handled exclusively by the Sheriff's Department.

- a) The re-entry of a defendant to premises following the enforcement of a Writ of Possession, without the consent of the property owner or landlord, is a criminal violation.
- b) These crimes are misdemeanors and are enforceable by the local police agency [\[1\]](#).
 1. Penal Code 419 Repossession of lands after removal by legal process
 2. Penal Code 166 Contempt of Court
 3. Penal Code 602(o) Trespass – Refusal to leave private property
 4. Penal Code 602(t) Trespass – Refusal to leave private property
 5. Penal Code 602.5 Unauthorized entry of property

Plaintiff's Receipt for Possession

- a) In addition to the posting of the "Notice of Eviction" on the subject property following a successful eviction, the landlord or plaintiff in the case is provided with a receipt by the Deputy conducting the eviction that is entitled the "Plaintiff's Receipt for Possession".
- b) This form is provided to the landlord or agent in order to provide the property owner with written documentation confirming that they have been legally provided with the right to possession of the property.
- c) The plaintiff is instructed to present the receipt to the local law enforcement agency along with a copy of the writ or court order that was enforced to obtain possession of the property, should the defendant return to the premises.
- d) This form also includes on its face the citation of Penal Code 419 [\[2\]](#), Repossession of land after removal by legal process.

Recommended Actions

- a) When a landlord presents a copy of the "Eviction Restoration Notice" and requests assistance in removing a previously evicted tenant, a peace officers should inspect both the "Writ of Possession" and court order and the "Eviction Restoration Notice" carefully.
- b) Officers should validate the case number identified in the upper left-hand corner of the receipt and compare it to the attached copy of the court order or Writ of Possession.
 1. The writ or court order will specifically identify the affected property location or address.
 2. If the Writ is not attached, the landlord should be asked to provide a copy.

- c) After determining the validity of the order and the receipt, a peace officer may proceed with the enforcement of the applicable sections of the law as shown above.

Policy:

When we respond to an eviction and animal(s) are present, the deputy will make a determination if there is reasonable grounds to believe that very prompt action is required to protect the health or safety of the animal or the health or safety of others (PC 597.1)[\[1\]](#). If the deputy believes these conditions exist, the deputy will contact Animal Control. Animal Control will take possession of the animal(s) if the elements of PC 597.1 [\[2\]](#) are met. If the elements of PC 597.1 [\[3\]](#) are not met, Animal Control will leave the animals in the care of the landlord, new owners, or their representatives and will accept the animal(s) after the time period in Civil Code 1983 has expired.

No Protective Action Necessary

If the deputy determines no protective action is necessary, the animal(s) will be left with the landlord, new owner, or their representative who must then comply with CC 1815, 1816, and CCP 1174 [\[4\]](#). The landlord is the involuntary depositary not the Sheriff's Office. If the landlord, new owner, or their representative refuses to take possession of the animal, the deputy will not complete the eviction.

Tenant or Previous Owner Present

If the evicted tenants or previous owners are present at the time of the eviction they should be encouraged to take the animals with them when they leave. However, the Sheriff's Department has no authority to force them to take the animals when they vacate the property.

- a) The Sheriff's Department could be liable if a deputy forces the evictees to leave with an animal and the animal injures them or someone else.

[12008.7 - Writ of Possession - Claim and Delivery](#)

NOTE:

A Claim and Delivery is not an action in and of itself. It is a provisional remedy, which allows the plaintiff to recover specific property in the possession of a defendant. Until a court action determines otherwise, possession of the property is only temporary. Property may be seized from the possession of the defendant, or a person acting as an agent for the defendant with no ownership interest.

Writ

- a) The writ must have the following:
 1. Directed to the Sheriff.
 2. Describe the specific property to be seized.
 3. Specify any private place to be entered to take possession of property.
 4. Direct the Sheriff to levy on the property if found. Hold until released or sold.
 5. Inform the defendant of the right to object to the undertaking, or obtain redelivery by filing an undertaking.

Seizing Property

- a) The Sheriff's Department may seize the described property located in any public place.
- b) It may be seized only from the defendant or the defendant's agent.
 1. The definition of an agent is not always clear.
 2. In most cases, this is the person in possession of the property not claiming ownership or lien.

Forcible Entry

- a) If the property to be seized is located in a private place, all efforts to have the property delivered to the levying deputy must be attempted.
 1. Caution should be exercised when executing this type of levy.
- b) A Writ of Possession (Claim and Delivery) has a provision for an automatic break in order; if the plaintiff followed CCP 514.010(c) [\[1\]](#), the judge signed the Writ, and the address to be forcibly entered, if necessary, is located in box 2 of the writ.
 1. The deputy should always make every reasonable effort to obtain peaceful entry.

2. If the property is not voluntarily delivered, the deputy may then make forcible entry in such a manner as she/he reasonably believes will cause the least damage to the building.
- c) If no one is present when the property is levied, the writ authorizing the levy must be posted in the most conspicuous place closest to where the property was seized.
 1. Copies of all documents will then be mailed to the defendant.
- d) If a deputy believes that entry and seizure will involve substantial risk or serious injury to anyone, the deputy shall not enter.
 1. The deputy will return the writ to court for further direction.

Property in Possession of Lien Holder

- a) If the property is in the possession of a lien holder, we shall not levy unless:
 1. The lien holder is a named defendant and covered by an undertaking, or
 2. The lien holder is paid, thus releasing the lien.

Withholdings

- a) Withholdings already received from the employer are paid over to the employer for payment to the defendant.
- b) If additional monies are received later they are returned to the employer for disbursement to the defendant.
- c) The employer is sent a Notice of Termination of Withholding Order which advises the employer to terminate the levy and to return to the defendant any earnings which they may be holding for transmittal to the levying officer.
- d) The plaintiff receives no funds whatsoever from the levy and the EWO is no longer in force.

Modification

 1. The Notice of Modification of Earnings form will have the date of the levy inserted on Part 2(b) of the form.
- b) Based on the amount of earnings per pay period the defendant has agreed to have withheld on the EWO, the employer and the levying officer must calculate;

 2. How much excess withholdings must be returned to the defendant.
- c) Any excess amounts withheld by the employer are returned to the defendant, and the balance still due on the execution is re figured and increased accordingly.

12012 – Stays

12012.1 - Stays

Stay of Execution – Writ of Possession Real Property

The purpose of this section is to establish a standard response when a five-day notice to vacate on a Writ of Possession Real Property is interrupted by a stay of execution, and the stay is later lifted by the court without specifying a certain date by which the defendant must vacate the property.

Third Party Claim of Right to Possession Stay

- a) When a third party claim of right to possession is received after a five-day notice to vacate has been served or posted, but before a forcible eviction has taken place, all proceedings are stayed.
- b) When an order is received lifting the stay and no specific date is given by the court for enforcement of the writ, there is no requirement that the defendant be given an additional notice to vacate.

Bankruptcy Stay

- a) All proceedings must stop when we receive an automatic stay from the Federal Bankruptcy Court.
- b) The stay takes effect on the date it was filed with the court; it does not matter when we receive it.
 1. We are not liable for any violations of the automatic stay unless we have been given proper notice.

Third Party Claim of Right to Possession Stay

- a) Upon receipt of a Minute Order on an eviction case, the processing clerk shall:
 1. Examine the document to determine the date of the order.
- b) Calculate the new evict date.
 1. Go to CHGDEL, change EVICT DATE.
 2. Go to REPRNT, generate another service ticket, clearly highlighting the new EVICT DATE.
- c) Issue the case to the field.

Eviction Date Calculation

- a) The defendant is entitled to a full five-day Notice to Vacate before we can perform the eviction.
- b) When the five-days is interrupted by any Stay Order, the defendant is entitled to the days remaining.
 1. Since we are stayed from the day we receive the Arrieta Claim until the date the Minute Order or Stay is issued, we cannot count those days in the five-day calculation.

2. In order to calculate the new evict date, you must first calculate the number of days that had expired on the notice prior to our receipt of the Arrieta claim.
3. Subtract this number from five-days to compute the remaining days' notice which must be given (if any) before the eviction takes place.

Bankruptcies filed prior to the Notice to Vacate Posting

- a) If the defendant filed bankruptcy before we posted the Notice to Vacate but did not notify us until after the posting, the Posting is voided.
- b) A new Notice to Vacate will need to be posted before we can continue with the eviction.
- c) The plaintiff is required to notify us to stop all enforcement actions after the defendant files bankruptcy.
 1. The plaintiff is to be charged for the additional posting costs.
 2. We will not undo a completed eviction if the defendant waits until after the eviction is completed to notify us of a bankruptcy.

If a bankruptcy petition was filed before an unlawful detainer hearing, all enforcement actions are stayed until the Civil Bureau receives a relief of stay or a dismissal from the bankruptcy court.

Bankruptcy Petition filed after Unlawful Detainer Hearing

- a) If the bankruptcy petition was filed after the unlawful detainer hearing then we must follow one of the rules listed below:
 1. When evicting a defendant in a non-residential property, the eviction is stayed.
 2. If the lease has expired under the terms of the contract, we will go forward with the eviction after the plaintiff has given us instructions that states the lease has expired and directs us to proceed.
 3. When evicting a defendant in a residential property the eviction is stayed, we will continue with the eviction after receiving instructions from the plaintiff that states the eviction can go

forward due to stay exceptions from the federal bankruptcy court or the plaintiff gets a relief of stay or the bankruptcy is dismissed.

Third Party files a Bankruptcy

- a) If a third party files a bankruptcy; we will stay the eviction so long as the property address is listed in the bankruptcy filing.
- b) We will continue with the eviction after receiving one of the following:
 1. A relief of stay
 2. Additional instructions from the plaintiff stating the automatic bankruptcy stay does not apply in their particular case.
 - i. The instructions should quote the applicable USC code section.
 3. Absent a USC code section it is recommended that county counsel review the instructions before proceeding.

Bankruptcy before Judgment date

- a) After receiving a bankruptcy filing from the defendant in an unlawful detainer hearing we will first check the date of the bankruptcy petition and compare it with the date of the judgment on the Writ of Possession.
- b) If the date on the bankruptcy petition is before the Judgment date on the Writ of Possession then all enforcement actions are stayed pending a relief of stay or dismissal from the bankruptcy court.
- c) With multiple Bankruptcies, the automatic stay provisions may have an expiration date. After confirming with the issuing Bankruptcy Court that the automatic stay has expired, a relief of stay or dismissal is not required.

Bankruptcy after Judgment date

- a) If the Judgment date on the bankruptcy petition is after the date on the Writ of Possession then we will follow the below procedures:
 1. After receiving a bankruptcy filing from a defendant in a non-residential property, we will stay the eviction unless we receive written instructions from the landlord or their attorney based on language in 11 USC 362 (b) (10).
 2. After receiving a bankruptcy filing from a defendant in a residential property, we will continue the eviction process after we receive instructions from the landlord or their attorney based on language in 11 USC 362 (b) (22).
 3. We will also continue the eviction after receiving instructions from the landlord or their attorney based on language in 11 USC 362 (b) (23).

Bankruptcies on Foreclosure Evictions

- a) The automatic stay exceptions listed above do not apply to foreclosure evictions unless there is a landlord tenant relationship between the current legal owner (Plaintiff) and the foreclosed upon former owner (Defendant)."
- b) All bankruptcy filings of a named defendant in a foreclosure will result in a stayed eviction.

- c) The plaintiff must obtain a relief of stay or dismissal from the Bankruptcy Court, unless the stay is voided due to multiple bankruptcies.

Therefore, Sheriff’s personnel shall not confiscate any recording device without judicial direction.

15009.3.12 - Audio Video Recordings within Courts

a) Purpose and Scope

1. The Orange County Sheriff Department provides court security services to all Orange County Justice Centers. The purpose of this policy is to provide deputies and sheriff special officers assigned to Court Operations with guidelines for enforcing the Court Rules regarding photographing, recording, and broadcasting. These Court Rules are not criminal laws or statutes in nature. Therefore, enforcement should be focused on gaining compliance with the Court Rules rather than arrest or prosecution unless there is a separate citable criminal offense.

b) Policy and Guidelines Inside Courtroom Protocol:

1. Local Rule of Court ("L.R.C.")180 states "No filming, photography or electronic recording is permitted in the justice centers except as permitted in the courtroom consistent with rule 1.150- California Rules of Court"- The California Rules of Court ("C.R.C") rule 1.150 in turn provides that court proceedings may not be recorded without written permission from the

Court. An individual who attempts to record inside a courtroom without authorization can be sanctioned and held in contempt of court.

2. Bailiff or security officer responsibilities: Deputies or SSOs assigned to the courtroom should consult or work together with the bench officer (judge, commissioner, or referee) when a possible unauthorized recording device is used in the courtroom.
3. Inquire of the person using the recording device if they have a court order allowing them to record inside the courtroom. Alternatively, inquire of the Clerk of the Court or the Judge/Bench Officer whether the Court has authorized the recording in the courtroom.
 - i. If there is no court order authorizing the recording ask the person to stop using the recording device, turn it off, or put it away.
 - ii. Advise the judge or Bench Officer that the unauthorized recording device may have been used inside the courtroom. Follow the instructions of the Judge or Bench Officer in regards to taking any action.
 - iii. Confiscate or seize the device ONLY at the explicit direction of the Judge or Bench Officer.
4. The primary concern should be to gain compliance and have the individual stop recording or turn off the electronic recording device.

c) Supervisor notification and documentation

1. A supervisor should be notified as soon as possible and the incident documented in the Court Operations Log or in an appropriate departmental report.
 - i. All audible electronic devices must be turned off when they are in courtrooms

d) Outside Courtroom Protocol

1. The court policy in place at all justice centers states, "Videotaping, photographing, or electronic recording by the media and general public is not permitted in any part of the court including but not limited to lobby areas, cafeterias, halls, stairs, escalators, and elevators. L.R.C. 180 designates specific areas in each justice center where recording devices may be used without prior authorization or court order (see below).

e) Security Officer & Deputy Responsibilities:

1. The primary concern is to get the person or person(s) recording or attempting to record to stop recording. Verbal requests should be given to gain compliance. Confiscation of the recording device should be avoided outside the confines of the courtroom. Such action would be considered a warrantless search and seizure and there is no criminal foundation to detain someone for this alone.
2. When Sheriff's personnel encounter someone refusing an order to stop recording outside the courtroom they should not independently take action against the offending party unless

that person has violated a different provision of the law (something other than the rules of the court). However they should:

- i. Notify a supervisor.
 - ii. Contact a Judge or Judicial Officer for direction.
 - iii. Continue to monitor the person violating the court rules.
3. Violators should not be directed to “delete” images unless directed to do so by a Judge or a Bench Officer.
 4. Absent an intervening order from the court directing Sheriff’s personnel to take action to confiscate the recording device, any confiscation could be a violation of due process, 1st Amendment Rights and/or an unreasonable seizure under the 4th Amendment. Therefore, Sheriff’s personnel shall not confiscate any recording device without judicial direction.

f) Media Protocol:

1. Requests of any type for video, still photography, or audio coverage including pool cameras must be made to the court and submitted to the Judicial Officer assigned to hear the case on Judicial Council Form MC-510 “Order of Media Request” Form. If the request is granted the limits of the media coverage will be specified and a copy provided to the court Public Information Office.
2. Prohibited Coverage (per C.R.C. or L.R.C. rule 1.150 (e)(6))

[15010.3.12 - Audio Video Recordings within Courts](#)

a) Purpose and Scope

1. The Orange County Sheriff Department provides court security services to all Orange County Justice Centers. The purpose of this policy is to provide deputies and sheriff special officers assigned to Court Operations with guidelines for enforcing the Court Rules regarding photographing, recording, and broadcasting. These Court Rules are not criminal laws or

statutes in nature. Therefore, enforcement should be focused on gaining compliance with the Court Rules rather than arrest or prosecution unless there is a separate citable criminal offense.

b) Policy and Guidelines

1. Inside Courtroom Protocol:

- i. Local Rule of Court (“L.R.C.”)180 states “No filming, photography or electronic recording is permitted in the justice centers except as permitted in the courtroom consistent with rule 1.150- California Rules of Court”-The California Rules of Court (“C.R.C”) rule 1.150 in turn provides that court proceedings may not be recorded without written permission from the Court. An individual who attempts to record inside a courtroom without authorization can be sanctioned and held in contempt of court.
- ii. Bailiff or security officer responsibilities: Deputies or SSOs assigned to the courtroom should consult or work together with the bench officer (judge, commissioner, or referee) when a possible unauthorized recording device is used in the courtroom.
- iii. Inquire of the person using the recording device if they have a court order allowing them to record inside the courtroom. Alternatively, inquire of the Clerk of the Court or the Judge/Bench Officer whether the Court has authorized the recording in the courtroom.
 - A. If there is no court order authorizing the recording ask the person to stop using the recording device, turn it off, or put it away.
 - B. Advise the judge or Bench Officer that the unauthorized recording device may have been used inside the courtroom. Follow the instructions of the Judge or Bench Officer in regards to taking any action.
 - C. Confiscate or seize the device ONLY at the explicit direction of the Judge or Bench Officer.
- iv. The primary concern should be to gain compliance and have the individual stop recording or turn off the electronic recording device.

The court policy in place at all justice centers states, "Videotaping, photographing, or electronic recording by the media and general public is not permitted in any part of the court including but not limited to lobby areas, cafeterias, halls, stairs, escalators, and elevators. L.R.C. 180 designates specific areas in each justice center where recording devices may be used without prior authorization or court order (see below).

e) Security Officer & Deputy Responsibilities:

1. The primary concern is to get the person or person(s) recording or attempting to record to stop recording. Verbal requests should be given to gain compliance. Confiscation of the recording device should be avoided outside the confines of the courtroom. Such action would be considered a warrantless search and seizure and there is no criminal foundation to detain someone for this alone.
2. When Sheriff's personnel encounter someone refusing an order to stop recording outside the courtroom they should not independently take action against the offending party unless that person has violated a different provision of the law (something other than the rules of the court). However they should:
 - i. Notify a supervisor.
 - ii. Contact a Judge or Judicial Officer for direction.
 - iii. Continue to monitor the person violating the court rules.
3. Violators should not be directed to "delete" images unless directed to do so by a Judge or a Bench Officer.
4. Absent an intervening order from the court directing Sheriff's personnel to take action to confiscate the recording device, any confiscation could be a violation of due process, 1st Amendment Rights and/or an unreasonable seizure under the 4th Amendment. Therefore, Sheriff's personnel shall not confiscate any recording device without judicial direction.

f) Media Protocol:

1. Requests of any type for video, still photography, or audio coverage including pool cameras must be made to the court and submitted to the Judicial Officer assigned to hear the case on Judicial Council Form MC-510 "Order of Media Request" Form. If the request is granted the limits of the media coverage will be specified and a copy provided to the court Public Information Office.
2. Prohibited Coverage (per C.R.C. or L.R.C. rule 1.150 (e)(6))

[16003.12 - Audio Video Recordings within Courts](#)

a) Purpose and Scope

1. The Orange County Sheriff's Department provides court security services to all Orange County Justice Centers. The purpose of this policy is to provide deputies and sheriff special officers assigned to Court Operations with guidelines for enforcing the Court Rules regarding photographing, recording, and broadcasting. These Court Rules are not criminal laws or statutes in nature. Therefore, enforcement should be focused on gaining compliance with the Court Rules rather than arrest or prosecution unless there is a separate citable criminal offense.

b) Policy and Guidelines

1. Inside Courtroom Protocol:

- i. Local Rule of Court (“L.R.C.”)180 states “No filming, photography or electronic recording is permitted in the justice centers except as permitted in the courtroom consistent with rule 1.150- California Rules of Court”- The California Rules of Court (“C.R.C”) rule 1.150 in turn provides that court proceedings may not be recorded without written permission from the Court. An individual who attempts to record inside a courtroom without authorization can be sanctioned and held in contempt of court.
- ii. Bailiff or security officer responsibilities: Deputies or SSOs assigned to the courtroom should consult or work together with the bench officer (judge, commissioner, or referee) when a possible unauthorized recording device is used in the courtroom.
- iii. Inquire of the person using the recording device if they have a court order allowing them to record inside the courtroom. Alternatively, inquire of the Clerk of the Court or the Judge/Bench Officer whether the Court has authorized the recording in the courtroom.
 - A. If there is no court order authorizing the recording ask the person to stop using the recording device, turn it off, or put it away.
 - B. Advise the judge or Bench Officer that the unauthorized recording device may have been used inside the courtroom. Follow the instructions of the Judge or Bench Officer in regards to taking any action.
 - C. Confiscate or seize the device ONLY at the explicit direction of the Judge or Bench Officer.
- iv. The primary concern should be to gain compliance and have the individual stop recording or turn off the electronic recording device.

2. Supervisor Notification and Documentation

- i. A supervisor should be notified as soon as possible and the incident documented in the Court Operations Log or in an appropriate departmental report.
 - A. All audible electronic devices must be turned off when they are in courtrooms

3. Outside Courtroom Protocol

- i. The court policy in place at all justice centers states, “Videotaping, photographing, or electronic recording by the media and general public is not permitted in any part of the court including but not limited to lobby areas, cafeterias, halls, stairs, escalators, and elevators. L.R.C. 180 designates specific areas in each justice center where recording devices may be used without prior authorization or court order (see below).

c) Security Officer & Deputy Responsibilities:

1. The primary concern is to get the person or person(s) recording or attempting to record to stop recording. Verbal requests should be given to gain compliance. Confiscation of the recording device should be avoided outside the confines of the courtroom. Such action would be considered a warrantless search and seizure and there is no criminal foundation to detain someone for this alone.
2. When Sheriff's personnel encounter someone refusing an order to stop recording outside the courtroom they should not independently take action against the offending party unless that person has violated a different provision of the law (something other than the rules of the court). However they should:
 - i. Notify a supervisor.
 - ii. Contact a Judge or Judicial Officer for direction.
 - iii. Continue to monitor the person violating the court rules.
3. Violators should not be directed to "delete" images unless directed to do so by a Judge or a Bench Officer.
4. Absent an intervening order from the court directing Sheriff's personnel to take action to confiscate the recording device, any confiscation could be a violation of due process, 1st Amendment Rights and/or an unreasonable seizure under the 4th Amendment. Therefore, Sheriff's personnel shall not confiscate any recording device without judicial direction.

d) Media Protocol:

1. Requests of any type for video, still photography, or audio coverage including pool cameras must be made to the court and submitted to the Judicial Officer assigned to hear the case on Judicial Council Form MC-510 "Order of Media Request" Form. If the request is granted the limits of the media coverage will be specified and a copy provided to the court Public Information Office.
2. Prohibited Coverage (per C.R.C. or L.R.C. rule 1.150 (e)(6))
 - i. A proceeding closed to the public (e.g. juvenile cases)

17003.12 - Audio Video Recordings within Courts

a) Purpose and Scope

1. The Orange County Sheriff's Department provides court security services to all Orange County Justice Centers. The purpose of this policy is to provide deputies and sheriff special officers assigned to Court Operations with guidelines for enforcing the Court Rules regarding photographing, recording, and broadcasting. These Court Rules are not criminal laws or statutes in nature. Therefore, enforcement should be focused on gaining compliance with the Court Rules rather than arrest or prosecution unless there is a separate citable criminal offense.

b) Policy and Guidelines

1. Inside Courtroom Protocol:

- i. Local Rule of Court (“L.R.C.”)180 states “No filming, photography or electronic recording is permitted in the justice centers except as permitted in the courtroom consistent with rule 1.150- California Rules of Court”- The California Rules of Court (“C.R.C”) rule 1.150 in turn provides that court proceedings may not be recorded without written permission from the Court. An individual who attempts to record inside a courtroom without authorization can be sanctioned and held in contempt of court.
- ii. Bailiff or security officer responsibilities: Deputies or SSOs assigned to the courtroom should consult or work together with the bench officer (judge, commissioner, or referee) when a possible unauthorized recording device is used in the courtroom.
- iii. Inquire of the person using the recording device if they have a court order allowing them to record inside the courtroom. Alternatively, inquire of the Clerk of the Court or the Judge/Bench Officer whether the Court has authorized the recording in the courtroom.
 - A. If there is no court order authorizing the recording ask the person to stop using the recording device, turn it off, or put it away.
 - B. Advise the judge or Bench Officer that the unauthorized recording device may have been used inside the courtroom. Follow the instructions of the Judge or Bench Officer in regards to taking any action.
 - C. Confiscate or seize the device ONLY at the explicit direction of the Judge or Bench Officer.
- iv. The primary concern should be to gain compliance and have the individual stop recording or turn off the electronic recording device.

2. Supervisor notification and documentation

- i. A supervisor should be notified as soon as possible and the incident documented in the Court Operations Log or in an appropriate departmental report.
 - A. All audible electronic devices must be turned off when they are in courtrooms.

3. Outside Courtroom Protocol

- i. The court policy in place at all justice centers states, “Videotaping, photographing, or electronic recording by the media and general public is not permitted in any part of the court including but not limited to lobby areas, cafeterias, halls, stairs, escalators, and elevators. L.R.C. 180 designates specific areas in each justice center where recording devices may be used without prior authorization or court order (see below).

4. Security Officer & Deputy Responsibilities:

- i. The primary concern is to get the person or person(s) recording or attempting to record to stop recording. Verbal requests should be given to gain compliance. Confiscation of the recording device should be avoided outside the confines of the courtroom. Such action would be considered a warrantless search and seizure and there is no criminal foundation to detain someone for this alone.
- ii. When Sheriff's personnel encounter someone refusing an order to stop recording outside the courtroom they should not independently take action against the offending party unless that person has violated a different provision of the law (something other than the rules of the court). However they should:
 - A. Notify a supervisor.
 - B. Contact a Judge or Judicial Officer for direction.
 - C. Continue to monitor the person violating the court rules.
- iii. Violators should not be directed to "delete" images unless directed to do so by a Judge or a Bench Officer.
- iv. Absent an intervening order from the court directing Sheriff's personnel to take action to confiscate the recording device, any confiscation could be a violation of due process, 1st Amendment Rights and/or an unreasonable seizure under the 4th Amendment. Therefore, Sheriff's personnel shall not confiscate any recording device without judicial direction.

5. Media Protocol:

- i. Requests of any type for video, still photography, or audio coverage including pool cameras must be made to the court and submitted to the Judicial Officer assigned to hear the case on Judicial Council Form MC-510 "Order of Media Request" Form. If the request is granted the limits of the media coverage will be specified and a copy provided to the court Public Information Office.
- ii. Prohibited Coverage (per C.R.C. or L.R.C. rule 1.150 (e)(6))

17004.2 - Emergency Response Team (ERT)

The Court Operations Emergency Response Team will be comprised of a Captain, Sergeant, Deputies and one Team Leader who are assigned at each of the Justice Centers. It is suggested that initially the assignments be filled by deputies who are classified as Prowlers. Sending Prowlers will affect the courts with the least amount of impact.

A team will only be deployed at the direction of a sergeant or above, with notifications to the Captain and Division Commander.

E.R.T deputies should have all of their issued equipment staged at their work locations and be ready for deployment. Deputies should be able to depart from their respective facilities within █ minutes of notification. The team members will be designated daily on the watch list, making them easily identifiable as a team member during that particular shift.

Each Justice Center will have a █ team, with each team consisting █. CJC should consider forming multiple teams based on staffing. All members will be MFF / ERT trained. All training, supervision and assignments will be in accordance with Custody & Court Operations Manual (CCOM) Section 1808. Team members will respond to the requesting area/facility and report to the facility Sergeant for deployment.

The Incident Commander will be designated as the E.R.T. Supervisor and will be charged with accountability of OCSO personnel during deployment, coordinating operations, determining resource needs, setting up the command post and implementing the Incident Action Plan (IAP). If an ERT Sergeant is present, he/she will directly supervise the team at the direction of the Incident Commander.

The Captain/Incident Commander is tasked with handling all notifications to the various Justice Centers as well as making the notification to the Division Commander.

a) Selection of Personnel

1. Participation in the Court Operations Emergency Response Team is voluntary. Members will be paid for training and qualification consistent with the policies of the current Memorandum of Understanding.
2. Court personnel desiring to serve on ERT shall submit a memorandum describing their knowledge, experience and technical competence in firearms, and operations and tactics to their Captain.
3. Suitability for team membership will be determined upon demonstrated field performance, judgment, decision--making ability, fitness, performance history, and overall work record.
4. Following initial review by the responsible Captain, requests will be forwarded to the Division Commander for review and final selection.

b) Training

1. All team members, including team leaders, shall train a minimum of █ and complete all Department mandated classes in less lethal systems. Training exercises will consist of, but not be limited to, E.R.T briefings, classes, walk-through demonstrations, video presentations, Power Point presentations, handouts, and practical application scenarios.

2. Team leader training consists of E.R.T. Team Leader courses, handouts, Power Point presentations, practical application scenarios; armorer's training for less lethal weapon systems, and other relevant training.
3. The E.R.T. Liaison Sergeant will ensure that each team member is capable of effectively functioning in every position on the team, with the exception of the team leader's position.
4. Failure to complete mandatory training will result in removal from the Court Operations Emergency Response Team.

The incident commander, with notification to the facility watch commander as soon as practical, may authorize staff to conduct an immediate extraction.
2. Calculated extractions occur in situations where an inmate/detainee is in an area that can be isolated or controlled. It does not normally involve the immediate threat to life, substantial loss of property, or institutional security (e.g., removal for court appearance, housing relocation, contraband recovery, etc.). The incident commander, with prior notification to the facility watch commander, may authorize staff to conduct a calculated extraction.
 - i. Staff shall utilize all reasonable efforts and resources to gain an inmate's/detainee's compliance prior to using an extraction team. If the purpose of the extraction is to recover contraband, potential weapons, or other material, and this can be achieved without using force or creating a security risk, the proposed extraction should not be initiated.
 - ii. If practical, staff will consult with medical staff prior to deployment to determine if the inmate/detainee has any medical issues requiring specific precautions, such as allergies, severe asthma, heart condition, pregnancy, etc. The incident commander will request medical staff to respond to the location. Medical staff will stand by in a designated safe area to provide medical care if necessary.

b) Conducting Safety Checks

1. Staff will conduct safety checks from a location which provides a clear, direct view of each inmate. Staff will observe each inmate's presence and apparent condition and investigate any unusual circumstances or situations.
2. Audio/visual electronic surveillance systems shall not be used to conduct safety checks, but may be used to supplement and verify the checks.
3. Staff will pay special attention to areas with low visibility. Diligent enforcement of the jail rules will help prevent inmates from covering the lights or hanging or placing items which obstruct staff's view. This will increase staff's ability to do comprehensive visual checks.
4. Activities which provide staff with a clear, direct view of all inmates in the area of responsibility will meet the safety check requirement.
 - i. Distribution of lunches.

18003.12 - Audio Video Recordings within Courts

a) Purpose and Scope

1. The Orange County Sheriff's Department provides court security services to all Orange County Justice Centers. The purpose of this policy is to provide deputies and sheriff special officers assigned to Court Operations with guidelines for enforcing the Court Rules regarding

photographing, recording, and broadcasting. These Court Rules are not criminal laws or statutes in nature. Therefore, enforcement should be focused on gaining compliance with the Court Rules rather than arrest or prosecution unless there is a separate citable criminal offense.

b) Policy and Guidelines

1. Inside Courtroom Protocol:

- i. Local Rule of Court (“L.R.C.”)180 states “No filming, photography or electronic recording is permitted in the justice centers except as permitted in the courtroom consistent with rule 1.150- California Rules of Court”- The California Rules of Court (“C.R.C”) rule 1.150 in turn provides that court proceedings may not be recorded without written permission from the Court. An individual who attempts to record inside a courtroom without authorization can be sanctioned and held in contempt of court.
- ii. Bailiff or security officer responsibilities: Deputies or SSOs assigned to the courtroom should consult or work together with the bench officer (judge, commissioner, or referee) when a possible unauthorized recording device is used in the courtroom.
- iii. Inquire of the person using the recording device if they have a court order allowing them to record inside the courtroom. Alternatively, inquire of the Clerk of the Court or the Judge/Bench Officer whether the Court has authorized the recording in the courtroom.
 - A. If there is no court order authorizing the recording ask the person to stop using the recording device, turn it off, or put it away.
 - B. Advise the judge or Bench Officer that the unauthorized recording device may have been used inside the courtroom. Follow the instructions of the Judge or Bench Officer in regards to taking any action.
 - C. Confiscate or seize the device ONLY at the explicit direction of the Judge or Bench Officer.
- iv. The primary concern should be to gain compliance and have the individual stop recording or turn off the electronic recording device.

c) Supervisor Notification and Documentation

1. A supervisor should be notified as soon as possible and the incident documented in the Court Operations Log or in an appropriate departmental report.
 - i. All audible electronic devices must be turned off when they are in courtrooms

d) Outside Courtroom Protocol

1. The court policy in place at all justice centers states, “Videotaping, photographing, or electronic recording by the media and general public is not permitted in any part of the court

including but not limited to lobby areas, cafeterias, halls, stairs, escalators, and elevators. L.R.C. 180 designates specific areas in each justice center where recording devices may be used without prior authorization or court order (see below).

e) Security Officer & Deputy Responsibilities:

- a) The primary concern is to get the person or person(s) recording or attempting to record to stop recording. Verbal requests should be given to gain compliance. Confiscation of the recording device should be avoided outside the confines of the courtroom. Such action would be considered a warrantless search and seizure and there is no criminal foundation to detain someone for this alone.
- b) When Sheriff's personnel encounter someone refusing an order to stop recording outside the courtroom they should not independently take action against the offending party unless that person has violated a different provision of the law (something other than the rules of the court). However they should:
 - i. Notify a supervisor.
 - ii. Contact a Judge or Judicial Officer for direction.
 - iii. Continue to monitor the person violating the court rules.
- c) Violators should not be directed to "delete" images unless directed to do so by a Judge or a Bench Officer.
- d) Absent an intervening order from the court directing Sheriff's personnel to take action to confiscate the recording device, any confiscation could be a violation of due process, 1st Amendment Rights and/or an unreasonable seizure under the 4th Amendment. Therefore, Sheriff's personnel shall not confiscate any recording device without judicial direction.

e) Media Protocol:

1. Requests of any type for video, still photography, or audio coverage including pool cameras must be made to the court and submitted to the Judicial Officer assigned to hear the case on Judicial Council Form MC-510 "Order of Media Request" Form. If the request is granted the limits of the media coverage will be specified and a copy provided to the court Public Information Office.
2. Prohibited Coverage (per C.R.C. or L.R.C. rule 1.150 (e)(6))
 - i. A proceeding closed to the public (e.g. juvenile cases)
