Electronic Communication

212.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the proper use and application of the Department's electronic mail (e-mail) system by Members of this Department. E-mail is a communication tool available to Members to enhance efficiency in the performance of job duties and is to be used in accordance with generally accepted business practices and current law (e.g., California Public Records Act). Messages transmitted over the e-mail system must only be those that involve official business activities or contain information essential to Members for the accomplishment of business-related tasks and/or communication directly related to the business, administration, or practices of the Department.

212.1.1 E-MAIL USAGE

All Department Members, with Department computer access shall check their Department e-mail daily, while on duty.

All first time users should obtain a logon name and temporary password by their network administrator.

If a Member works in an assignment or location that does not have Department Intranet access, the Member may contact Information Systems to gain access at their location.

Members can also check Department e-mail by using the internet. This is done by going to the following link: <https://webmail.ocsd.org/exchange>.

Members may access their Department e-mail while off duty; however, no Member shall be required to access their Department e-mail while off duty.

212.2 E-MAIL RIGHT OF PRIVACY

All e-mail messages, including attachments, transmitted over the Department computer network are considered Department records and, therefore, are the property of the Department. The Department reserves the right to access, audit, and disclose for whatever reason, all messages, including attachments, transmitted over its e-mail system or placed into its storage.

The e-mail system is not a confidential system since all communications transmitted on, to, or from the system are the property of the Department. Therefore, the e-mail system is not appropriate for confidential communications. If a communication must be private, an alternative method to communicate the message should be used instead of e-mail. Members using the Department's e-mail system shall have no expectation of privacy concerning communications utilizing the system.

212.3 PROHIBITED USE OF E-MAIL

Sending derogatory, defamatory, obscene, disrespectful, sexually suggestive, harassing, or any other inappropriate messages on the e-mail system is prohibited and may result in discipline.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Electronic Communication

E-mail messages addressed to the entire Department are only to be used for official business related items that are of particular interest to all users and must be approved by the Sheriff or an Assistant Sheriff. Personal advertisements are not acceptable.

It is a violation of this policy to transmit a message under another user's name. Users are strongly encouraged to log off the network when their computer is unattended. This added security measure minimizes the misuse of an individual's e-mail, name, and/or password by others.

212.4 MANAGEMENT OF E-MAIL

Because the e-mail system is not designed for long-term retention of messages (the mailbox size is limited to 99 GB) e-mail that the Member desires to save or that becomes part of an official record should be printed. Users of e-mail are solely responsible for the management of their mailboxes. Any message that is not needed should be deleted.

The following schedule is utilized to store and/or retain e-mail:

1. E-mail shall be kept for 12 months on the Exchange Server.
2. E-mail older than 1 year will be archived and stored for up to 2 years.

212.4.1 E-MAIL ETIQUETTE

The Department considers e-mail an important means of communication and recognizes the importance of proper e-mail content and speedy replies in conveying a professional image and delivering good customer service. Therefore the Department wishes users to adhere to the following guidelines:

1. Writing e-mails:
 - (a) Write well-structured e-mails and use short, descriptive subjects.
 - (b) The Department's e-mail style is informal. This means that sentences can be short and to the point. You can start your e-mail with 'Hi,' or 'Dear,' and the name of the person. Messages can be ended with 'Best Regards.' The use of Internet abbreviations and characters such as smileys, however is not encouraged.
 - (c) Use the spell checker before you send out an e-mail.
 - (d) Do not send unnecessary attachments.
 - (e) Do not write e-mails in all capital letters.
 - (f) Do not use cc: or bcc: fields unless the cc: or bcc: recipient is aware that you will be copying a mail to him/her and knows what action, if any, to take.
 - (g) If you forward mails, state clearly what action you expect the recipient to take.
 - (h) Only send e-mails in which the content could be displayed on a public notice board. If they cannot be displayed publicly in their current state, consider rephrasing the e-mail, using other means of communication, or protecting information by using a password.
 - (i) Only mark e-mails as important if they really are important.
2. Newsgroups:

Electronic Communication

- (a) Users need to request permission from their supervisor before subscribing to a newsletter or newsgroup.

212.4.2 PERSONAL USE

Although the Department's e-mail system is meant for business use, the Department allows the reasonable use of e-mail for personal use if certain guidelines are adhered to:

1. Personal use of e-mail should not interfere with work.
2. Personal e-mails must also adhere to the guidelines in this policy.
3. The forwarding of chain letters, junk mail, jokes, and executables is strictly forbidden.
4. Do not send mass mailings.
5. All messages distributed via the Department's e-mail system, even personal e-mails, are property of the Department.

212.4.3 TEXT MESSAGING

The purpose of this policy is also to establish guidelines for the proper use and application of text messaging by Members of this Department. Because of technical advances and varying manufacturer nomenclature, this policy refers to all Department-issued electronic communication devices and includes all mobile phones, PDAs, and other such wireless two way communication devices.

Text messaging is a communication tool available to Members to enhance efficiency in the performance of job duties and is to be used in accordance with generally accepted business practices and current law. Messages transmitted over a text messaging system must only be those that involve official business activities or contain information essential to Members for the accomplishment of business-related tasks and/or communication directly related to the business, administration, or practices of the Department.

212.4.4 TEXT MESSAGING RIGHT OF PRIVACY

All text messages transmitted on equipment issued by the Department are considered Department records and, therefore, are the property of the Department. The Department reserves the right to access, audit, and disclose for whatever reason, without notice to Members, all messages, including text transmitted on equipment issued by the Department. Therefore, text messages are not appropriate for personal communications. If a communication is personal, an alternative method to communicate the message should be used. There is no reasonable expectation of privacy in the use of Department-issued equipment.

212.4.5 PROHIBITED USE OF TEXT MESSAGING

Sending or forwarding derogatory, defamatory, obscene, disrespectful, offensive, racist, sexually suggestive, harassing, or any other inappropriate messages via text message is prohibited and will not be tolerated.

Federal Security Clearances

214.1 PURPOSE AND SCOPE

Security clearance is a determination by the United States Government. Eligibility for access to classified information, commonly known as a security clearance, is granted only to those for whom an appropriate personnel security background investigation has been completed. It must be determined that the individual's personal and professional history indicates loyalty to the United States, strength of character, trustworthiness, honesty, reliability, discretion, and sound judgment, as well as freedom from conflicting allegiances and potential for coercion, and a willingness and ability to abide by regulations governing the use, handling, and protection of classified information. A determination of eligibility for access to such information is a discretionary security decision based on judgments by appropriately trained adjudicative personnel. Eligibility shall be granted only where facts and circumstances indicate access to classified information is clearly consistent with the national security interests of the United States. Access to classified information will be terminated when an individual no longer has need for access.

This policy recognizes federal security clearances are a necessary asset and tool for Department Members in specific job assignments. The security clearances allow the Department Members to interact more closely with federal and state officials and provides the Member with access to classified information. This policy will govern the issuance and retention of security clearances for Department Members.

214.2 TYPES OF SECURITY CLEARANCES

There are two primary security clearances a Department Member may apply for and obtain. They are:

A copy of the approved memo shall be memorialized in the Department Member's personnel file.

214.4 APPLICATION PROCEDURE

Access to classified information is restricted by law to particular groups of people with the necessary security clearance and a need to know. Based on public safety, the safety of Department Members and/or operational needs, it may be necessary to share classified information with Members of Department Command Staff who do not possess a security clearance. Prior to sharing classified information, the Department Member shall obtain permission to share the information through the JTTF or OCIAC chain of command.

214.7 SECURITY CLEARANCE DEACTIVATION

Department Members who transfer out of a unit requiring a security clearance will have their clearance deactivated unless approved by the Sheriff or his/her designee. The clearance can be reactivated if the Department Member is transferred back into a unit that requires a security clearance or if the Sheriff or his/her designee deems it necessary. Deactivation and reactivation will be coordinated and completed through the JTTF Sergeant or the OCIAC security liaison, depending on what type of security clearance the Member had/has obtained.

214.8 REVOCATION OF SECURITY CLEARANCES

Security clearances may be revoked due to a number of factors. Federal agencies adhere to the Adjudication Guidelines which establish 13 potential justifications for denying or revoking federal security clearances.

The Sheriff or authorized designee may make a determination as to the good moral character at any step of the application process described above. Chapter 3 - General Operations

Use of Force

300.1 PURPOSE AND SCOPE

This policy recognizes that the use of force by law enforcement requires constant evaluation. Any use of force is a serious responsibility. The purpose of this policy is to provide Members of this Department with guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, each Member is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner.

300.1.1 DEFINITIONS

Member(s): For the purpose of Department Policy 300, a "Member(s)" is a Deputy Sheriff, Deputy Coroner, or Sheriff's Special Officer who is authorized to utilize a use of force application, has successfully completed Department approved training in the use of force application being deployed and whose job duties are such that they may be, or are likely to be, presented with the need to use force.

Use of Force: A use of force is defined as any incident in which a Member, either on or off duty, while performing a law enforcement function, overcomes resistance through the application of physical contact or any other force option.

This does not include the use of a firm grip control hold while performing routine functions such as searching, handcuffing, or escorting. It also does not include reasonable intervention necessitated by the physical incapacity of the subject (e.g., lifting an intoxicated or disabled person). However, Members shall make appropriate notifications in any instance that results in injury, the appearance of injury or complaint of pain.

Feasible: Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the Member or another person (Government Code § 7286(a)).

Deadly Force: Any force that creates a substantial risk of causing death or serious bodily physical injury, including but not limited to, the discharge of a firearm (Penal Code § 835a).

Objectively Reasonable Force: Force that is proportionate to the threat presented by, or the need to lawfully control, a subject in a particular moment. The threat or need would be perceived in that moment, and without benefit of hindsight. Force is not objectively reasonable if under the circumstances and in the relevant moment, it would be clear to a reasonable Member that lesser force would likely lead to safe control.

Serious Bodily Injury: Serious impairment of physical condition, including, but not limited to, the following: loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; a wound requiring extensive suturing; and serious disfigurement (Penal Code § 243(f)(4)).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

Physical Force: Striking, holding, pulling, pushing, throwing, or exerting strength against another person.

Hospitalized: Receiving some form of medical treatment at a medical facility, other than an x-ray or being cleared for booking.

Totality of the circumstances: All facts known to the Member at the time, including the conduct of the Member and the subject leading up to the use of force (Penal Code § 835a).

Excessive Force: A level of force that is found to have violated Section 835a of the Penal Code, the requirements on the use of force required by Section 7286 of the Government Code, or any other law or statute (Government Code § 7286(a)(2)).

Intercede: Includes but is not limited to, physically stopping the excessive use of force, recording the excessive force, if equipped with a body-worn camera, and documenting the efforts to intervene, efforts to deescalate the offending officer's excessive use of force, and confronting the offending officer about the excessive force during the use of force and, if the officer continues, reporting to dispatch or the watch commander on duty and stating the offender officer's name, unit, location, time and situation, in order to establish a duty for that officer to intervene (Government Code § 7286(a)(4)).

Retaliation: Demotion, failure to promote to a higher position when warranted by merit, denial of access to training and professional development opportunities, denial of access to resources necessary for an officer to properly perform their duties, or intimidation, harassment, or the threat of injury while on duty or off duty (Government Code § 7286(a)(6)).

300.2 POLICY

It is the policy of this Department that Members shall use only that amount of force that appears objectively reasonable, given the facts and circumstances perceived by the Member at the time of the event, to effectively bring an incident under control. "Reasonableness" of the force used must be judged from the perspective of a reasonable Member on the scene at the time of the incident. Any interpretation of reasonableness must allow for the fact the Sheriff's Department Members are often forced to make split-second decisions in circumstances that are tense, uncertain, and rapidly evolving about the amount of force that is objectively reasonable in a particular situation.

Given that no policy can realistically predict every possible situation a Member may encounter, it is recognized that each Member must be entrusted with well-reasoned discretion in determining the appropriate use of force and tactics used. While it is the ultimate objective of every law enforcement encounter to minimize injury to everyone involved, nothing in this policy requires a Member to actually sustain physical injury before applying reasonable force. Members may only use a level of force that they reasonably believe is proportional to the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance. The use of any force to accomplish unlawful objectives is prohibited. The Department will not tolerate excessive and/or punitive force.

It is recognized that circumstances may arise in which Members are unable to effectively use the tools, weapons, or methods provided by the Department. In such circumstances, the Member

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

may use alternative items or methods readily available to them, so long as the item or method was utilized in an objectively reasonable manner and only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose. In all circumstances, Members are expected to exercise sound judgment and critical decision-making when using force options.

Members are expected to carry out their duties, including the use of force, in a manner that is fair and unbiased (Government Code § 7286(b)).

300.2.1 PHILOSOPHY

The use of force by law enforcement personnel is a matter of critical concern both to the public and to the law enforcement community. Members are involved on a daily basis in numerous and varied human encounters and when warranted, may use force in carrying out their duties.

Members must have an understanding of, and true appreciation for, the limitations of their authority. This is especially true with respect to Members overcoming resistance while engaged in the performance of their duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. It is also understood that vesting Members with the authority to use reasonable force and protect the public welfare requires a careful balancing of all human interests.

The use of force is based on the "Objectively Reasonable" standard as stated in U.S. Supreme Court case *Graham vs. Connor* (1989). This is the standard considered to be the benchmark across the United States. It is contemporary, reflecting the most current judicial wisdom and it mirrors the standard prescribed by the Commission on Peace Officer Standards and Training (POST). The appropriate application of this standard requires that all factors surrounding a particular event be considered. This is true when determining whether to use force, as well as writing the requisite reports to document an event where force was used and in the supervisory review of the same event to determine the appropriateness of the action.

300.2.2 VOLUNTARY COMPLIANCE / DE-ESCALATION TECHNIQUES

When feasible, Members should ask for and allow reasonable time for compliance. Members shall evaluate the totality of the circumstances presented at the time in each situation and, when feasible, consider and utilize de-escalation techniques, crisis intervention tactics, and other alternatives to force that may persuade an individual to voluntarily comply or may mitigate the need to use a higher level of force to resolve the situation before applying force. When possible, Members will record the interaction (PVS, BWC, handheld camera). De-escalation tactics, such as time, distance, cover, and concealment, and less lethal alternatives should be part of the decision-making process leading up to the consideration of deadly force, when reasonably feasible. Other alternatives may include:

1. Summoning additional resources that are able to respond in a reasonably timely manner.
2. Formulating a plan with responding Members before entering an unstable situation that does not reasonably appear to require immediate intervention.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

3. Employing other tactics that do not unreasonably increase Member jeopardy.
4. In a custodial setting, when encountering a problem with a lone inmate in a cell, the safest and most practical solution may be to back out, close and secure the door and notify a sergeant of the situation.

300.2.3 DUTY TO INTERCEDE

Any Member present and observing another Member using force that is clearly beyond that which is necessary, as determined by an objectively reasonable Member under the circumstances, shall, when in a position to do so, intercede to prevent the use of unreasonable force.

When observing force used by another Member, each Member should take into account the totality of the circumstances and the possibility that the other Member may have additional information regarding the threat posed by the subject (Government Code § 7286(b)).

A Member who has received the required training on the duty to intercede and then fails to act to intercede when required by law, will be disciplined up to and including in the same manner as the Member that committed the excessive force (Government Code § 7286(b)).

300.2.4 WITNESS TO A USE OF FORCE

Any Member involved in or who witnesses a use of force shall notify a supervisor as soon as practical. Failure to notify a supervisor of a use of force may result in discipline pursuant to Department policy. Such notification shall be made as soon as reasonably possible.

300.2.5 DUTY TO REPORT POTENTIAL EXCESSIVE FORCE

A Member shall immediately report potential excessive force to a supervisor when present and observing another Member using force that the Member believes to be beyond that which is necessary, as determined by an objectively reasonable Member under the circumstances based upon the totality of information actually known to the Member (Government Code § 7286(b)).

300.2.6 RETALIATION PROHIBITED FOR REPORTING

Members shall not be retaliated against for reporting a suspected violation of a law or regulation of another Member to a supervisor or other person in the Department who has the authority to investigate the violation (Government Code § 7286(b)).

300.3 USE OF REASONABLE FORCE TO EFFECT AN ARREST, PREVENT ESCAPE OR OVERCOME RESISTANCE

Any Member who has reasonable cause to believe that the person to be arrested has committed a public offense may use objectively reasonable force to effect the arrest, to prevent escape, or to overcome resistance. A Member who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance of the person being arrested nor shall such officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance. Retreat does not mean tactical repositioning or other de-escalation techniques (Penal Code § 835a, 836.5(b)). A Member may only use a level of force that they reasonably believe is proportional to

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance (Government Code § 7286(b)(2)).

300.3.1 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether or not to apply any level of force and evaluating whether a Member has used reasonable force, a number of factors should be taken into consideration.

These factors include, but are not limited to:

1. The apparent immediacy and severity of the threat to officers or others (Penal Code § 835a).
2. The conduct of the individual being confronted (as reasonably perceived by the Member at the time).
3. Member/subject factors (age, size, relative strength, skill level, injury/exhaustion, and number of Members vs. subjects).
4. The conduct of the involved officer (Penal Code § 835a).
5. The individual's apparent mental state or capacity (Penal Code § 835a).
6. The effects of drugs or alcohol.
7. The individual's apparent ability to understand and comply with officer commands (Penal Code § 835a).
8. Proximity of weapons or dangerous improvised devices.
9. The degree to which the subject has been effectively restrained and their ability to resist despite being restrained.
10. Time and circumstances permitting, the availability of other reasonable and feasible options and their possible effectiveness (Penal Code § 835a).
11. Seriousness of the suspected offense or reason for contact with the individual.
12. Training and experience of the Member.
13. Potential for injury to citizens, Members, and suspects.
14. Whether the person appears to be resisting, attempting to evade arrest by flight, or is attacking the officer.
15. The risk and reasonably foreseeable consequences of escape.
16. The apparent need for immediate control of the subject or a prompt resolution of the situation.
17. Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
18. Prior contacts with the subject or awareness of any propensity for violence.
19. Any other exigent circumstances.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

It is recognized that Members are expected to make split-second decisions and that the amount of a Member's time available to evaluate and respond to changing circumstances may impact his/her decision.

While various degrees of force exist, each Member is expected to use only that degree of force reasonable under the circumstances to successfully accomplish the legitimate law enforcement purpose in accordance with this policy.

300.4 NON-DEADLY FORCE APPLICATIONS

Each Member is provided with equipment, training, and skills to assist in the apprehension and control of suspects as well as protection of Members and the public. Non-deadly force applications may include but are not limited to control holds/take downs, chemical agents, Electronic Control Device, less lethal weapons, batons, and personal body weapons.

300.4.1 CONTROL HOLD/PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be very effective in controlling a passive or actively resisting individual. Members may only apply those techniques for which the Member has received Department approved training and only when the Member reasonably believes that the use of such a technique appears necessary to further a legitimate law enforcement purpose. Members utilizing any control technique should consider the totality of the circumstances including, but not limited to:

1. The potential for injury to the Member(s) or others if the technique is not used.
2. The potential risk of serious injury to the individual being controlled.
3. The degree to which a pain compliance technique may be applied should be proportionate to the amount of resistance by the suspect.
4. Whether the person can comply with the direction or orders of the officer.
5. Whether the person has been given sufficient opportunity to comply.
6. The nature of the offense involved.
7. The level of resistance of the individual(s) involved.
8. The need for prompt resolution of the situation.
9. If time permits (e.g., passive demonstrators), other reasonable alternatives.

The application of any control technique shall be discontinued once the Member determines that compliance has been achieved.

300.4.2 FORCE WEAPONS, TOOLS, AND EQUIPMENT

All weapons, force tools, or restraint equipment carried while on-duty, or off duty under the Member's authority, shall be those issued by the Department or approved for carry by the Sheriff or his/her designee. No other such instruments shall be carried or used. No issued or approved equipment or weapon is to be altered or modified unless specifically authorized by the Sheriff or his/her designee. All weapons, tools, and equipment shall be maintained in good working order

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

and any defect shall be reported to appropriate authority and resolved expeditiously. All weapons and equipment shall be carried and used in a manner consistent with Department training as well.

300.4.3 RESTRICTIONS ON THE USE OF CAROTID RESTRAINT HOLD

Members are not authorized to use a carotid restraint hold. A carotid restraint means a vascular neck restraint or any similar restraint, hold, or other defensive tactics in which pressure is applied to the sides of a person's neck that involves a substantial risk of restricting blood flow and may render the person unconscious in order to subdue or control the person (Government Code § 7286.5).

300.4.4 RESTRICTIONS ON THE USE OF A CHOKE HOLD

Members are prohibited from using a choke hold. A choke hold means any defensive tactic or force option in which pressure is applied to a person's trachea or windpipe (Government Code § 7286.5).

300.4.5 ADDITIONAL RESTRICTIONS

Members are not authorized to use any restraint, technique or transportation method that involves a substantial risk of positional asphyxia. "Positional asphyxia" means situating a person in a manner that reduces the ability to sustain adequate breathing. This includes, without limitation, the use of any physical restraint that causes a person's respiratory airway to be compressed or impairs the person's breathing or respiratory capacity, including any action in which pressure or body weight is unreasonably applied against a restrained person's neck, torso, or back, or positioning a restrained person without reasonable monitoring for signs of asphyxia (Government Code § 7286.5).

300.4.6 PREGNANT INMATES

In Custody and Court Operations, inmates known to be pregnant shall not be tased, pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8(h)). Correctional Health Services shall evaluate inmates for pregnancy upon intake and follow-up as needed. Inmates medically confirmed to be pregnant will be issued pink pants and are required to wear them while in custody. Deputies may rely on the inmate's clothing to determine whether an inmate is pregnant.

300.5 DEADLY FORCE APPLICATIONS

Where feasible, the Member shall, prior to the use of deadly force, make reasonable efforts to identify him/herself as a peace officer and to warn that deadly force may be used, unless the Member has objectively reasonable grounds to believe the person is aware of those facts (Penal Code § 835a).

To the extent that it is reasonable under the circumstances, Members shall consider their surroundings and any potential risks to bystanders prior to discharging a firearm (Government Code § 7286(b)).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

300.5.1 DEADLY FORCE AGAINST A PERSON

While the use of a firearm is expressly considered deadly force, other force might also be considered deadly force if the Member reasonably anticipates and intends that the force applied will create a substantial risk of serious bodily injury or death. Use of deadly force is justified in the following circumstances:

1. A Member may use deadly force when the Member reasonably believes, based on the totality of the circumstances, that such force is necessary to defend against an imminent threat of death or serious bodily injury to the Member or another person.
2. A Member may use deadly force when the Member reasonably believes, based on the totality of the circumstances, that such force is necessary to apprehend a fleeing suspect for any felony that threatened or resulted in death or serious bodily injury, if the Member reasonably believes that the suspect will cause death or serious bodily injury to another unless immediately apprehended. Where feasible, a Member shall, prior to the use of force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless the Member has objectively reasonable grounds to believe the person is aware of those facts (Example: "Police/Sheriff's Department! Stop or I'll shoot!").

Officers shall not use deadly force against a person based on the danger that person poses to himself/herself, if an objectively reasonable officer would believe the person does not pose an imminent threat of death or serious bodily injury to the officer or to another person (Penal Code § 835a).

An "imminent" threat of death or serious bodily injury exists when, based on the totality of the circumstances, a reasonable officer in the same situation would believe that a person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the officer or another person. An imminent harm is not merely a fear of future harm, no matter how great the fear and no matter how great the likelihood of the harm, but is one that, from appearances, must be instantly confronted and addressed (Penal Code § 835a).

300.5.2 DEADLY FORCE AGAINST AN ANIMAL

Members are authorized to use deadly force against an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods to neutralize the threat are not reasonably available or would likely be ineffective.

In circumstances in which Members have sufficient advanced notice that a potentially dangerous domestic animal (e.g., dog) may be encountered, such as the serving of a search warrant, Members should develop reasonable contingency plans for dealing with the animal without the use of deadly force (e.g., fire extinguisher, Taser, OC Spray, animal control officer). Nothing in this policy shall prohibit any Member from resorting to deadly force to control a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

Injured animals (with the exception of dogs and cats) may be euthanized only after a reasonable search to locate the owner has been made (Penal Code § 597.1(b)). Injured dogs and cats found without their owners shall be taken to an appropriate veterinarian for determination of whether

Orange County Sheriff-Coroner Department

Use of Force

they should be treated or humanely destroyed (Penal Code § 597.1(c)). However, if any animal is too severely injured to move or where veterinarian is not available and it would be more humane to dispose of the animal, the Member may euthanize the animal after obtaining approval of a supervisor (Penal Code § 597.1(e)). **Department Commander notification shall be made as soon as reasonably possible prior to or immediately following the euthanizing of any animal.**

300.5.3 SHOOTING AT MOVING VEHICLES

Members shall actively attempt to move out of the path of an approaching motor vehicle. Members should not position themselves or intentionally remain in the path of a moving vehicle. A Member shall only discharge a weapon at a motor vehicle or at its occupants under the following conditions (Government Code § 7286(b)):

1. The vehicle or suspect poses an imminent threat of death or serious bodily injury to the Member or another person, AND
2. The Member has no reasonable alternative course of action to prevent the death or serious bodily injury.

For further information regarding the use of firearms during a vehicle pursuit, see Policy 314.7.3

300.5.4 WARNING SHOTS

Generally, warning shots or shots fired for the purpose of summoning aid are discouraged and may not be discharged unless the Member reasonably believes that they appear necessary, effective, and reasonably safe.

300.5.5 REPORT OF WEAPON DISCHARGE

Any Department Member who discharges a weapon intentionally, whether on or off duty, while exercising peace officer powers, shall notify the Department Commander as soon as circumstances permit.

Any Department Member who discharges a weapon unintentionally shall notify his/her immediate supervisor and the Department Commander as soon as circumstances permit. All unintentional discharges shall be reviewed to determine if the discharge was the result of accident, equipment malfunction, negligence, or inadequate training.

300.5.6 POST SHOOTING PROCEDURE INVOLVING INJURED SUSPECT(S), VICTIM(S), ARRESTEE(S), OR ANY SUBJECT(S) WITHIN THE CARE OR CUSTODY OF THIS DEPARTMENT

If it becomes necessary for a Member to use deadly force, the following post-shooting procedures should be followed:

1. Approach with caution; be alert for additional subjects and weapons.
2. Handcuff and immediately search the subject. Keep the subject under continuous observation and control.
3. After you have determined the subject is no longer a threat:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

- (a) Notify dispatch of your location and circumstances if it has already not been done.
- (b) Render whatever first aid that may be required.
- (c) Preserve the scene.
- (d) Assist paramedics when and if they respond, but continue to maintain control and observation of the subject until removed from the scene.
- (e) If removed from the scene in an ambulance, a Member shall accompany that subject inside the ambulance in order to preserve evidence, to ensure the recording and legitimacy of dying declarations, and to provide safety to both the injured and medical personnel.

300.5.7 DISPLAYING OF FIREARMS

Members should carefully evaluate each tactical situation and use sound discretion when drawing a firearm in public by considering the following guidelines (Government Code § 7286(b)):

1. If a Member does not initially perceive a threat but reasonably believes that the potential for such threat exists, firearms should generally be kept in the low-ready or other position not directed toward an individual.
2. If the Member reasonably believes that a threat exists based on the totality of circumstances presented at the time, firearms may be directed toward such threat until the Member no longer perceives such threat.
3. If a Member is involved in an inherently high-risk situation, which calls for the use of tactics that include directing firearms at individuals (e.g., high-risk stop, tactical entry, sniper/spotter operation, incidents requiring a tactical response), the Member may do so until the situation is resolved.
4. A Member shall not draw their firearm, direct it toward a person, and threaten to shoot if the person is compliant and does not present a danger.

300.6 MEDICAL CONSIDERATIONS

Once it is reasonable and safe to do so, Members shall promptly provide, if properly trained, or otherwise promptly procure medical assistance for any person injured or claiming to have been injured in a use of force incident (Government Code § 7286(b)).

1. Based upon the Member's initial assessment of the nature and extent of the subject's injuries, render whatever first aid that may be required until the subject can receive further medical assistance. Medical assistance may consist of examination by fire personnel, paramedics, hospital staff, or medical staff at the jail. The on-scene supervisor, or if not available, the primary handling Member shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the Member reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

2. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until medically assessed. Any individual exhibiting signs of distress after an application of force shall be medically evaluated as soon as practicable by either paramedics at the scene or taken to a hospital for examination. Signs of distress may include shortness of breath, chest pain, and/or dizziness.
3. Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain, or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Personnel who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.
4. If the subject is in custody or is the responsibility of the Department and requires transportation by ambulance/paramedic unit, a deputy shall accompany that subject inside the ambulance until properly relieved.
5. If the subject is an inmate at one of the five Orange County Sheriff's jail facilities at the time of the use of force, then Correctional Health Services will be notified and directed to respond, and once on scene will assume responsibility for medical care.
6. Any individual who refuses medical attention shall have his or her refusal fully documented in related reports and be witnessed by medical personnel and if possible, another Member. If medical staff is willing to provide a copy of the subject's medical refusal, this document should be collected and included with the report package. If possible, an audio recording of the refusal should also be made and a notation in the report indicating the subject's refusal was recorded and either booked as evidence or stored on the Department's digital video server system.

300.7 POST USE OF FORCE PROCEDURES

Supervisory notification shall be made as soon as reasonably possible following a use of force.

Any use of force by a Member of this Department shall be documented by that Member promptly, completely, and accurately in an appropriate report depending on the nature of the incident. When documenting a Use of Force event, the Department Member is encouraged to review Department audio/video recordings (e.g. Patrol Video System (PVS), jail facility cameras) as a means of ensuring factual accuracy and enhancing recollection. Use of such materials in preparation of reports shall be documented, and done on an individual rather than collective basis. For further, refer to policy 303 - Department Media.

300.7.1 LESS-LETHAL MUNITIONS PROTOCOL

Any time less lethal munitions (40mm or .12 Gauge Super Sock "bean bag") are deployed and the suspect or anyone involved in the incident sustains serious bodily injury or is hospitalized, the Homicide Unit shall be notified, via the Department Commander, and be responsible for conducting the investigation.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

In all instances, excluding ones occurring within a county detention facility, in which kinetic energy projectiles and/or chemical agents are used for crowd control, the Department's Crowd Control Less Lethal Deployment Report shall be completed. This document shall include the following:

1. A description of the assembly, protest, demonstration, or incident, including the approximate crowd size and the number of officers involved.
2. The type of kinetic energy projectile or chemical agent deployed.
3. The number of rounds or quantity of chemical agent dispersed, as applicable.
4. The number of documented injuries as a result of the kinetic energy projectile or chemical agent deployment.
5. The justification for using the kinetic energy projectile or chemical agent, including any de-escalation tactics or protocols and other measures that were taken at the time of the event to deescalate tensions and avoid the necessity of using the kinetic energy projectile or chemical agent.

This report will be completed as part of the Supervisor's Use of Force analysis.

For further Less Lethal requirements, refer to policy 384 - Less Lethal.

300.7.2 DEATH OR LIFE THREATENING INJURY NOTIFICATION PROTOCOL

Per the MOU with the Orange County District Attorney's Office, all cases where an individual dies or suffers serious injury which is life threatening while in the custody or control of a Member of this Department, or is incarcerated in an Orange County Jail facility, shall be referred to the Orange County District Attorney's Office, via the Homicide Unit. The Orange County District Attorney's Office may decline to respond.

Notwithstanding the MOU with the Orange County District Attorney's Office, when an officer-involved shooting results in the death of an unarmed civilian, the California Attorney General's Office will investigate the incident (Government Code § 12525.3).

300.7.3 CRM REPORTING PROTOCOL

If a Use of Force incident involves an investigation by the Homicide Detail and/or the District Attorney's Office, the SAFE Division shall be responsible for entering the initial notification of the use of force into the CRM database system. The SAFE Division shall also be responsible for the Administrative Investigation.

If it is determined the case will not be investigated by the Homicide Detail and/or District Attorney's Office or California Attorney General's Office, the use of force analysis shall be handled by an uninvolved supervisor and reviewed through the normal CRM database review process.

300.8 SUPERVISOR RESPONSIBILITY

Upon notification of a use of force, (with the exception of any Officer Involved Shooting - See "Shooting Incidents" Policy #310), the supervisor shall respond and conduct an investigation of the incident. If the designated supervisor is unable to respond, the Patrol Department Commander or

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Use of Force

Jail Watch Commander shall assign another available supervisor. A supervisor who is a participant and applies force during the involved incident cannot conduct the supervisory analysis.

The handling supervisor's responsibilities include but are not limited to the following:

1. Shall obtain the basic facts from the involved Member. If the Member's statement of basic facts is likely to result in the disclosure of actions that violate policy, the supervisor should adhere to Government Code section 3303(i), which states, "Whenever an interrogation focuses on matters that are likely to result in punitive action against any public safety officer, that officer, at his or her request, shall have the right to be represented by a representative of his or her choice who may be present at all times during the interrogation." If the disclosure of basic facts is not likely to result in disclosure of actions that violate policy, the supervisor may direct the Member to provide the basic facts.
2. Ensure that any injured parties are examined and treated.
3. Separately interview the subject(s) upon whom force was applied. Questioning should be related to possible injuries sustained during the use of force and/or if the subject(s) has received medical attention. Prior to investigatory questioning, the supervisor will confirm the subject(s) has been read their Miranda Rights warning due to the questioning possibly or likely eliciting an incriminating response. The entire interview shall be recorded.
4. Ensure that photographs have been taken of any areas involving visible injury or complaint of pain as well as overall photographs of uninjured areas (consistent with CPC 4030).
5. Identify and interview any witnesses. The entire interview shall be recorded.
6. Complete a summary of the audio and video/digital recording (s) and include with the incident documentation.
7. Shall ensure all audio and video/digital media are booked into evidence in accordance with Policy 802 Property and Evidence, including the identification in Remedy that the evidence relates to a use of force.
8. When possible, review and approve all related reports.
9. Complete the "Preliminary Notification" in the CRM system as soon as practical as well as the Supervisory Use of Force Analysis report to include assigning a determination to each Member involved as:
 - (a) In Policy, No further action required.
 - (b) Training or corrective action addressed.
 - (c) Refer to Command Staff for investigation.
10. In the event the Use of Force includes use kinetic energy projectiles and/or chemical agents for crowd control, complete the Department's Crowd Control Less Lethal Deployment Report. This report should be completed as soon as practical, however no later than 45 days from the incident. This requirement does not apply to incidents occurring within a county detention facility.

The Members shall be provided with a notice of disposition at the conclusion of investigation.

Incidents in which kinetic energy projectiles and/or chemical agents are used for crowd control will be summarized on the Department's Crowd Control Less Lethal Deployment Report. The summary will be limited to the information known at the time of the report. The Crowd Control Less Lethal Deployment Report will be published by the S.A.F.E. Division within 60 days, or 90 days with just cause, of the incident on the Department's public website.

Critical Incident and Administrative Reviews

301.1 GENERAL

At times, Department Members are confronted with situations in which varying degrees of force or actions are used to protect life and property, including effecting an arrest, or discharging firearms in the performance of their duties. Department Members are also involved in incidents where their actions cause great concern to the Department and general public. Therefore, in the interest of public safety and the safety of Department Members, the Orange County Sheriff's Department shall review critical incidents to ensure best practices are being utilized in policies, procedures, tactics, and training.

As determined by the Sheriff or the Sheriff's designee, critical incidents shall be given the prompt attention of Executive Command Staff utilizing the Critical Incident Review (CIR) process. When directed by the Sheriff or the Sheriff's designee, the S.A.F.E. Division shall begin to coordinate a *Critical Incident Review* meeting as soon as practical.

301.2 PURPOSE AND SCOPE

The purpose of the Critical Incident Review is to identify and discuss issues requiring immediate action and/or additional follow-up. By doing so, it increases the Department's ability to recommend necessary changes to policies, procedures, tactics, and training to assist personnel in dealing with future critical incidents.

The review shall provide to the Critical Incident Review Board and Attendees, a preliminary factual presentation by the most knowledgeable Member associated with the incident. As appropriate, a discussion of potential litigation, policy, training, and equipment issues shall occur and include subject matter experts in those areas. The Board and Attendees shall document these issues requiring further review. Prior to the close of the review, "Action Items (A/I's)" shall be provided by the Board Members on the issues requiring immediate attention.

Additionally, Members who exhibited acts of bravery, courage, and/or exceptional performance shall be discussed and recommendation for the appropriate Department commendation shall be considered.

301.2.1 DEFINITIONS

Critical Incident: any incident where the actions of Department Members in the performance of their duties, are likely to have a significant impact on the Department, community, citizens, or any other person, and/or incidents involving the use of deadly force or force resulting in serious physical injury.

Deadly Force: that which creates a substantial risk of serious bodily injury or death. See Policy 300 - Use of Force sub-section 300.2.

301.4 PROCEDURE

The Critical Incident Review process consists of three (3) phases and is overseen by the Assistant Sheriff of the Professional Services Command who is the Chairperson of the Board.

The Chairperson of the Board's responsibility and authority includes, but is not limited to, the following:

1. Authorizes the release of all pertinent documents, records, and information for the Critical Incident Review.
2. Ensures only essential Members are present during the Critical Incident Review.
3. Gives opening remarks and sets the rules or guidelines for the review to the Board and Attendees.
4. Moderates the review and assists in the transition from each topic of discussion to the next.
5. Reviews all A/I's and approves them for distribution to the responsible Divisions or Members for resolution.

301.5 PHASE I - INITIAL REVIEW

At the conclusion of an Administrative Response Team (ART) briefing, Sheriff's Executive Command may request a Critical Incident Review. This request will be made through the Chairperson of the Critical Incident Review Board. The review will be assigned to the S.A.F.E. Division and the process of coordinating, notifying personnel, and organizing the review shall begin.

The S.A.F.E. Division is the Critical Incident Review liaison and the "Presenter of Facts." They shall facilitate the review board process. The S.A.F.E. Division shall collect all documents, reports, and presentation material/equipment. Notification to Board Members/Attendees, and the scheduling of the review shall be done as soon as practical. The responsibility to prepare and design the presentation for the review shall be the "Presenter of Facts." Therefore, any Department Member or division receiving a request for documents shall comply with the request without delay. The presentation before the Board is designed to give a detailed review of the incident.

At the conclusion of the presentation, the Board shall engage in an interactive discussion on the incident relying on the "Presenter of Facts" and/or "Subject Matter Experts" for clarification. **These discussions shall focus on policies, procedures, tactics, training, equipment and use of force.**

Critical Incident and Administrative Reviews

Upon completion of the discussions, the review shall adjourn and reconvene in closed session (same day) with the **Board Members** and designated Attendees only. In this closed session meeting, the Board shall list action items for implementation and identify the appropriate divisions or responsible Members to address these action items.

Once the Board Members have identified these action items, the S.A.F.E. Division shall forward an "Action Item Summary" form to the Board Chairperson for approval. Once approved, these action items shall be forwarded to the designated Divisions or Members for resolution and should be completed prior to Phase II of the CIR process (usually within 60-90 days).

301.6 PHASE II - DISPOSITION OF ACTION ITEMS

Phase II of the Critical Incident Review shall reconvene usually within 60 to 90 days of the adjournment of Phase I. The composition of Members involved in this phase of the review shall be comprised of the Board, S.A.F.E./Risk Management Bureau Representative, and the designated Members who were assigned action items, if necessary.

Upon completion of Phase II, the S.A.F.E. Division shall submit a written "Final Summary-Findings and Disposition" report to the Chairperson of the Board for review and final approval. Based on the type of incident reviewed, this shall usually signify the conclusion of the CIR. However, the Board may recommend further review of the incident and decide to convene the Administrative Review Board (ARB).

301.7 ADMINISTRATIVE REVIEW BOARD (ARB)

Whereas, Phase I & II of the Critical Incident Review process focuses on the systemic and global impact of an incident and its immediate impact on the Department, the Administrative Review Board (ARB) examines the incident with a focus on specific conduct of personnel. The ARB serves as a quality control mechanism to ensure timely reviews of all specified critical incidents and to determine whether the facts warrant further administrative investigation.

The ARB process will support the integrity of law enforcement administrative reviews by ensuring internal investigations into officer misconduct are conducted promptly, thoroughly, and fairly. The ARB will fully appraise specified critical incidents to determine whether the facts warrant further administrative investigation(s), and examine the department member's actions from a tactics, training, policy, and agency improvement perspective. Ultimately, the ARB will identify areas for improvement and provide recommendations to the Sheriff regarding the incident. The review process shall be in addition to the Administrative Response Team's Executive Briefing, the Critical Incident Review, or any other investigation of the incident.

301.7.1 BOARD COMPOSITION

BOARD MEMBERS:

1. Board Chair: Assistant Sheriff of Patrol Operations or Assistant Sheriff of Custody Operations (if the incident arose out of Custody Operations.)

7. Member from County Counsel

The ARB may request the appearance of other uninvolved members of the department to obtain information, expertise, or documents necessary to carry out the duties of the Board.

301.7.2 INITIAL REVIEW AND PROCEDURE

At the completion of the Executive Briefing by the Administrative Response Team the Sheriff's Executive Command will determine whether the ARB should be convened. The ARB shall be convened on those incidents which are deemed by the Sheriff or the Sheriff's Executive Command, as significant enough to warrant a further review of the incident and actions of the Members. Reviewable incidents include but are not limited to: Members involved in traffic accidents resulting in serious bodily injury or death, in-custody deaths, officer-involved shootings, and uses of force resulting in hospitalization, serious bodily injury, or death.

The Board shall examine each incident, issue findings, and/or recommendations for preventative measures. The Board may issue findings and/or make recommendations based on their review of the incident. The Board's recommendations may include but are not limited to the following areas:

1. Policy
2. Tactics and Training
3. Equipment/Technology
4. Supervision
5. Continuous Improvement

Upon completion of any related administrative investigation(s), criminal investigation(s), review by any prosecutorial body, and filing decision regarding criminal charges, the ARB will recommend to the Undersheriff and Sheriff whether the Department Member's actions were within the parameters of current OCSD policies and procedures.

The Board Chair will draft the notification to the employee regarding the Administrative Review Board's findings. The Division Commander will hand-deliver the Administrative Review Board determination identifying whether the use of force was within policy, simultaneously with any related disciplinary notice to the employee.

301.7.3 PHASE I AND II

The ARB will be divided into two phases. During the first phase, the ARB will receive a case presentation from the ART Team or other appropriate SAFE Sergeant assigned to Internal Affairs. The ARB will request the presence of any experts, such as a tactical expert, to inform its review. The intent of the presentation is to show, in chronological order, the events leading up to, during, and immediately after the incident.

Critical Incident and Administrative Reviews

The presentation should include all relevant evidence including, but not limited to:

- Photos
- Videos, including body-worn camera recordings
- Audio recordings, including voluntary statements by involved department members (if any)
- Diagrams
- Other evidence developed during the investigation of the incident under review

If the ARB identifies any potential policy violations, those shall be referred to the Internal Affairs Bureau for investigation.

The second phase of the ARB will include a presentation on any material not previously available for review, including any additional information obtained from the criminal investigation(s).

301.7.4 S.A.F.E. DIVISION RESPONSIBILITIES

The S.A.F.E. Division shall coordinate in facilitating meetings, notifications, and providing the results of any Critical Incident Reviews that were conducted. S.A.F.E. shall receive all requests to convene any Administrative Review and gather all necessary documentation for the Board's presentation, review, and retention.

As a result of the confidential nature of the review and due to Department Members being involved, only Members identified by the Board shall be permitted to participate in ARB proceedings. All documentation shall be returned to and retained by the S.A.F.E. Division in accordance with the law and established records retention schedule.

Administrative Response Team (ART)

302.1 GENERAL

The essence of the law enforcement profession provides that Department Members will periodically become involved in serious incidents and events that are of critical concern to both the public and to the law enforcement community. Often, these incidents and events have significant Department implications in the areas of policy, risk management, liability, and/or other administrative factors. It is important for the Department to effectively evaluate these issues in a timely manner to determine if immediate action is needed to remedy potential deficiencies.

302.2 ADMINISTRATIVE RESPONSE TEAM (ART)

The Administrative Response Team (ART) are Members of the SAFE Division who assemble and respond to Member-involved shootings and other significant incidents and events, on behalf of the Sheriff and Executive Command, to conduct administrative assessments based on the facts of the incident.

The ART, may be comprised of Internal Affairs personnel. However, their response to an incident is in a separate capacity and they are not present to conduct a personnel investigation and/or related administrative interviews, unless otherwise directed by the Sheriff's Executive Command.

302.4 RESPONSE

The ART shall respond to all Member-involved shootings, in-custody deaths or any other incident as deemed necessary by Sheriff's Executive Command.

5. Any incident/event with increased liability and exposure to the Department.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Administrative Response Team (ART)

302.5 PROCEDURES

In the event of a Member-involved shooting or other significant incident, any Member of the Sheriff's Executive Command may request an ART Response. The on-duty Department Commander shall coordinate with Sheriff's Executive Command to notify the SAFE Division Commander or Captain(s), who will then identify and dispatch the necessary ART personnel.

The ART shall utilize information obtained at the scene and provided by the District Attorney's Office and/or OCSD Criminal Investigations Bureau.

302.6 USE OF FORCE INCIDENTS (MEMBER INVOLVED SHOOTINGS)

When the ART responds to a Member-involved shooting incident, the Supervisory Use of Force Analysis required by Policy § 300 shall be superseded by the Internal Affairs administrative investigation. Final policy determinations shall occur as part of the Internal Affairs review (Policy § 310.2).

1. The Administrative Response Team shall be responsible for entering the use of force into CRM referencing the use of force to the corresponding personnel investigation (PI) number.
2. In CRM, the use of force shall be assigned to the involved Member's divisional chain of command, who shall close out the incident without delay with the determination of "Refer to Internal Affairs."

302.7 USE OF FORCE INCIDENTS (INVOLVING RESPONSE BY HOMICIDE DETAIL AND/OR OCDA)

A Use of Force incident involving significant injury or death may require the response of the Homicide Detail and/or the District Attorney's Office. If the Homicide Detail and/or District Attorney's Office responds to an incident, the Use of Force Analysis required by Policy § 300 shall be conducted in the same manner as defined in Policy § 302.6 (Member-involved shootings):

1. The Administrative Response Team shall be responsible for entering the use of force into CRM referencing the use of force to the corresponding personnel investigation (PI) number.
2. In CRM, the use of force shall be assigned to the involved Member's division chain of command, who shall close out the incident without delay with the determination of "Refer to Internal Affairs."
3. If it is later determined the District Attorney's Office will not initiate a criminal investigation of the incident, the use of force may be reassigned in CRM to the division of origin for analysis and investigation.

The administrative briefing shall include policy-related concerns, risk-management and liability issues, training concerns, force and force options, tactics, supervisory involvement/control, equipment issues, and other administrative factors. The administrative briefing shall be reviewed by County Counsel prior to the presentation to the Sheriff's Executive Command in order for County Counsel to provide input and identify potential risk-management and liability issues.

Sheriff's Executive Command shall utilize the ART briefing to review, discuss, and evaluate administrative issues and take any necessary action. This includes initiating a Critical Incident Review or convening the Administrative Review Board. For further, refer to policy 301.

Flying While Armed

305.1 PURPOSE AND SCOPE

The Transportation Security Administration (TSA) has imposed rules governing law enforcement officers flying armed on commercial aircraft. The following requirements apply to Members who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (49 CFR 1544.219).

305.2 AUTHORITY AND RESPONSIBILITY

Must be a current, duly sworn Member of the Orange County Sheriff's Department.

Must be sworn and commissioned to enforce criminal or immigration statutes.

Must be authorized by employing agency to have a firearm in connection with assigned duties.

Those wishing to fly while armed must be flying in an official capacity. There must be a "need" for the deputy to have the firearm on a specific flight segment (as opposed to securing the firearm in checked baggage). Need is determined by the Law Enforcement Officer's employing agency, Department or service, for example (As outlined in 49CFR1544.219):

1. Protective escort duty and related travel.
2. Hazardous surveillance operation.
3. On official travel and required to arrive prepared for duty.
4. Federal Law Enforcement Officer, whether or not on official travel, armed in accordance with agency wide policy.
5. In control of a prisoner (includes traveling to or returning from). [49CFR1544.221] (f) Federal Air Marshal [49CFR1544.223]

Travel to and from training sessions where the weapon is needed during the exercise does not qualify as a "need" for flying armed.

305.3 REQUIREMENTS TO FLY ARMED

The Sheriff shall approve the travel of the Undersheriff while armed. The Undersheriff shall approve the travel of the Assistant Sheriffs while armed. The Assistant Sheriffs shall approve the travel of armed personnel within their commands.

The following protocol is intended to insure the accountability and tracking of the Department's Training practices for deputies flying armed:

1. Deputies intending to carry their firearm on a commercial flight shall be required to complete the P.O.S.T. "Extradition Procedures Update." This procedure shall satisfy the required TSA training course per [49CFR1544.219].
 - (a) To complete the POST "Extradition Procedures Update" course deputies can go on line to <http://post.ca.gov>. Click on the POST Learning Portal and complete the registration process. After registering, log on. Click on the Extradition Procedures Update and complete the course. Print out the Proof of Completion

Orange County Sheriff-Coroner Department

Flying While Armed

certificate for verification and submit it to the Fugitive Warrants Bureau. The course takes approximately two (2) hours.

2. Deputies needing to fly armed on Sheriff's Department business shall contact the Fugitive Warrants Bureau. The Fugitive Warrants staff shall verify the deputy has completed the "Law Enforcement Officers Flying Armed" training within the past year and shall then generate a teletype message as required by TSR1544. Sheriff's Teletype can assist with teletype messages when Fugitive Warrants Bureau staff is unavailable.
 - (a) The Fugitive Warrants Bureau or Teletype shall then submit a National Law Enforcement Telecommunications System (NLETS) message prior to the officer's travel. If approved, TSA shall send the Department an NLETS message containing a unique alphanumeric identifier. The officer must present the message to TSA at the Security Screening Checkpoint as authorization to travel while armed on the day of travel.
 - (b) The Fugitive Warrants Bureau or Teletype needs to be notified immediately if there are any changes to the flight itinerary. Any changes to the flight itinerary shall require a new NLETS message containing a new alphanumeric identifier.
3. Deputies must carry their Department identification card which must contain their full name, badge number, full-face picture with the officer's signature, and the signature of the Sheriff or the official seal of the Department. This Department issued identification shall be presented to airline officials and TSA when requested.
4. The Deputy shall also carry the standard photo identification needed for passenger screening by airline and TSA officials (e.g., driver's license, passport). Deputies shall also carry their flight itinerary along with their supervisor or Commander's contact information.
5. It is the Deputy's responsibility to notify the air carrier in advance of the intended armed travel. This notification can be accomplished by early check-in at the carrier's check-in counter. Deputies should inquire with the airline officials at the ticket counter regarding other law enforcement agencies that may be flying armed on their particular flight.
6. This policy applies to all deputies whether in uniform or in civilian attire. For additional information, contact the Fugitive Warrants Bureau at (714) 647- 7072 or 7073.

Note: In the event it becomes necessary to place your firearm and ammunition in checked baggage, it must be secured in a hard-sided, locked container. Declare the firearm and ammunition when the container is checked [49CFR1544.203]. The firearm must be unloaded and the ammunition stored in factory, or similar, packaging. You maintain the key to the locked container. If the hard-sided, locked container is inside a piece of checked baggage, the aircraft operator generally will place a "Firearm(s) Unloaded Declaration Form" inside the bag proximate to but not inside of the gun case. If the firearm is not inside another piece of checked baggage, the aircraft operator generally places the declaration form inside the hard-sided, locked container. Lockable gun cases are available at the Fugitive Warrants Bureau and at the Range.

Hobble Restraint

306.1 PURPOSE AND SCOPE

The proper use and application of the Hobble restraint can reduce the potential of injury and damage to property when dealing with violent or potentially violent persons. This section provides guidelines, policy, and procedures for the proper use of the Hobble restraint procedure.

306.2 POLICY

When a deputy deems it reasonable to Hobble a violent or potentially violent person during the course of detention, arrest, and/or transportation, only those restraint devices approved by the Department shall be used, and only in the Departmentally approved manner for such temporary immobilization of the legs.

306.3 AUTHORIZED EQUIPMENT

The following restraint devices shall be provided to all field supervisors by the Department and are the only restraint devices authorized in the use of the Hobble restraint procedures. Deputies who have been departmentally trained in the use of these restraint devices may purchase and carry them on-duty at their own expense*:

1. Ripp Hobble restraint device: The Ripp Hobble is made of one-inch wide polypropylene webbed belting with a tested strength of 700 lbs. The hobble has a one-inch wide side, alligator-jawed, friction-locking clip and steel-snap swivel. The overall length of the hobble shall be a minimum of 42 inches.
2. EZ Leg Control Belt: The EZ Leg Control Belt is a black nylon belt that is 2 inches wide with a 7 inch loop at the end with a tensile strength of 518 pounds. The control belt is equipped with a 2 inch black buckle, 2 inch D-Ring, and 3 inch Aluminum Carabiner. The overall length of the control belt is 90 inches.

**It shall be the responsibility of the individual Deputy to maintain and carry the device in a serviceable condition.*

NO OTHER EQUIPMENT IS AUTHORIZED.

306.4 USE OF HOBBLE RESTRAINT

In determining whether to use the Hobble restraint procedure, deputies should consider the following:

1. If the deputy and/or others are subject to harm due to the assaultive behavior of a violent, resisting, and/or attacking suspect.
2. If it is reasonable to protect the suspect from his/her own actions which would place him/her in danger e.g., hitting his/her head against the interior of the patrol unit, running away from the arresting deputy while handcuffed, kicking at objects or deputies.
3. Due caution should be considered when applying the Hobble restraint procedure on persons in the following classes:
 - (a) Juveniles

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Hobble Restraint

- (b) Pregnant women
 - (c) Persons who are visibly frail
 - (d) Individuals who have a preexisting medical condition that increases danger, and of which deputies become aware.
 - (e) Elderly
4. Other Considerations:
- (a) The distance between the Hobbled person and the transporting unit. If practical, bring the transporting unit to the Hobbled subject.
 - (b) Avoid having the Hobbled person walk long distances or challenging terrains (stairs and slopes, etc.) to the transporting unit. If the Hobbled person must be carried, a minimum of two deputies is preferred. At no time should the Hobble device be used to carry the person.
5. Deputies assigned to Custody Operations shall follow **CCOM Section 1800** in regards to the use of leg restraints, authorized equipment, and routine transportation of inmates.

306.5 PROCEDURE

Hobbling procedures:

The Hobble restraint procedure shall be used only after a person has been handcuffed. The Hobble shall only be used with either the Ripp Hobble restraint device or the EZ Leg Control Belt to bind and immobilize a person's legs. Only those deputies trained in the use of the Hobble restraint procedure are authorized to employ it on any person. The following procedures shall be used when applying the Hobble restraint device:

1. If practical, deputy(s) should notify a supervisor of the intent to apply the Hobble. In all cases, a supervisor shall be notified as soon as practical after the application of the Hobble and the Field Supervisor shall respond to the scene.
2. Once secured, the person should be placed in a seated or upright position and shall not be placed on his/her stomach for an extended period as this may potentially reduce the person's ability to breathe.
3. Absent a medical emergency, the person being Hobbled shall remain restrained until the deputy arrives at the jail or other facility or the person no longer poses a threat.
4. The deputy is to ensure the person does not roll onto and remain on his/her stomach.
5. The deputy is to look for signs of labored breathing and, where practical, take appropriate steps to relieve and minimize any obvious factors contributing to this condition.

306.5.1 MEDICAL CONSIDERATIONS

Prior to booking or release, medical assistance shall be obtained for any person(s) who has sustained visible injury, expressed a complaint of an injury or continuing pain, or who has been rendered unconscious. Based upon the deputy's initial assessment of the nature and extent of the

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Hobble Restraint

subject's injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff, or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practical, should be witnessed by another deputy and/or medical personnel and a supervisor notified. If an audio recording is made of the contact or an interview with the individual, any refusal should be included, if possible.

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond physical characteristics, unusually high tolerance to pain, or has been in a protracted physical encounter with multiple deputies to bring under control may be at an increased risk of sudden death and should be examined by qualified medical personnel as soon as practicable. Any individual exhibiting signs of distress after such an encounter shall be medically cleared prior to booking.

306.6 TRANSPORTING HOBbled PERSONS

When transporting a person who is Hobbled, deputies shall observe the following procedures:

1. Hobbled suspects may be transported in a patrol unit. They should be seated in an upright position and secured by a seatbelt. The long lead of the restraint should be placed outside the rear door and brought up through the front door to prevent the lead from dragging on the ground. When the person cannot be transported in a seated position he/she should be taken by ambulance/paramedic unit. Deputies shall inform the jail and jail medical staff that the arrestee/suspect had been Hobbled prior to arrival at the jail.
2. Deputies transporting arrestees/suspects in unmarked Department vehicles not equipped with a cage partition, may Hobble and transport arrestees/suspects who are cooperative, as an added security measure, to reduce the likelihood of escape, and for officer safety reasons (e.g., the transportation of arrestees/suspects by plain clothes personnel driving unmarked Department vehicles). However, if the arrestee/suspect is violent or may be potentially violent, they should be transported in a vehicle with a cage partition.

306.7 DOCUMENTATION

Any use or application of the Hobble restraint shall require appropriate documentation. The Member should include the following in the report:

1. The amount of time the subject was Hobbled.
2. How the subject was transported and the position of the subject.
3. Observations of the subject's physical and physiological actions.
4. Any known or suspected drug use or other medical problems by the subject.

Non-Compliant Subjects

1. All incidents where resistance was met in the application of the Hobble shall be documented in accordance with Policy 300.6.

Compliant Subjects

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Hobble Restraint

1. In incidents where the subject was compliant during the application of the Hobble and remained compliant while the Hobble was on, the use of the Hobble shall be documented promptly and accurately in an appropriate incident report.

Hate Crimes

307.1 PURPOSE AND SCOPE

Message from the Sheriff:

Hate Crimes convey a message of terror and exclusion, not just to the immediate victims but to entire communities. They often target victims who are least able to defend themselves. They cause trauma that is more extreme and longer lasting than similar crimes committed for other motivations. They can spark retaliatory crimes, escalating the cycle of crime and violence. If not addressed professionally and thoroughly, they may undermine public confidence in law enforcement.

Crimes motivated by hate are not simply assaults, property damage, or violations of civil rights. They are crimes that specifically target individuals with particular characteristics. As such, they provide fuel for the prejudices and fears that underline these crimes; thus, continuing the cycle of hatred, prejudice, and bias. Enforcement of hate crime laws are important because they send a clear message to would-be perpetrators that hate crimes do not just affect the intended victim and that law enforcement, and the communities that we serve, will not tolerate these types of crimes. The broad impact of hate crimes makes them a major concern for all law enforcement agencies.

The Orange County Sheriff's Department Vision Statement reflects, "A community where every person feels safe and valued." It is essential that our Department address hate crimes in a manner that most effectively accomplishes prevention and rapid apprehension of perpetrators.

This policy is designed to assist in identifying and handling crimes motivated by hate or other bias toward individuals and groups with legally defined protected characteristics, to define appropriate steps for assisting victims, and to provide a guide to conducting related investigations. It outlines the general policy framework for prevention, response, accessing assistance, victim assistance and follow-up, and reporting as related to law enforcement's role in handling hate crimes. It also serves as a declaration that hate crimes are taken seriously and demonstrates how the Department may best use its resources to investigate and solve an offense, in addition to building community trust and increasing police legitimacy (Penal Code § 13519.6; Penal Code § 422.87).

307.1.1 DEFINITIONS AND LAWS

In accordance with Penal Code § 422.55, Penal Code § 422.56, Penal Code § 422.6, and Penal Code § 422.87, for purposes of all other state laws, unless an explicit provision of law or the context clearly requires a different meaning, the following shall apply:

Bias motivation - Bias motivation is a pre-existing negative attitude toward actual or perceived characteristics referenced in Penal Code § 422.55. Depending on the circumstances of each case, bias motivation may include, but is not limited to, hatred, animosity, discriminatory selection of victims, resentment, revulsion, contempt, unreasonable fear, paranoia, callousness, thrill-seeking, desire for social dominance, desire for social bonding with those of one's "own kind," or a perception of the vulnerability of the victim due to the victim being perceived as being weak, worthless, or fair game because of a protected characteristic, including but not limited to, disability or gender.

Hate Crimes

Disability - Disability includes mental disability and physical disability as defined in Government Code § 12926, regardless of whether those disabilities are temporary, permanent, congenital, or acquired by heredity, accident, injury, advanced age, or illness.

Disability bias – Disability bias is a preexisting negative attitude towards persons with perceived or actual disabilities. In recognizing suspected disability bias hate crimes, consider whether there is any indication that the perpetrator:

- Was motivated by hostility or other bias, occasioned by factors such as, but not limited to, dislike of persons who arouse fear or guilt, a perception that persons with disabilities are inferior and therefore "deserving victims," a fear of persons whose visible traits are perceived as being disturbing to others, or resentment of those who need, demand, or receive alternative educational, physical, or social accommodations; and/or
- Perceived the victim to be vulnerable and, if so, if this perception is grounded, in whole or in part, in disability bias. This includes, but is not limited to, situations where a perpetrator targets a person with a particular perceived disability while avoiding other vulnerable-appearing persons, such as inebriated persons or persons with perceived disabilities different from those of the victim. Such circumstances could be evidence that the perpetrator's motivations included bias against persons with the perceived disability of the victim and that the crime must be reported as a suspected hate crime and not a mere crime of opportunity.

Gender - Gender means sex and includes a person's gender identity and gender expression.

Gender expression - Gender expression means a person's gender-related appearance and behavior, regardless of whether it is stereotypically associated with the person's assigned sex at birth.

Gender identity - Gender identity is a person's sense of being male, female, some combination of male or female, or neither male nor female. (15 CCR § 1006.)

Hate crime - Hate crime includes, but is not limited to, a violation of Penal Code § 422.6, and means a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

1. Disability
2. Gender
3. Nationality
4. Race or ethnicity
5. Religion
6. Sexual Orientation
7. Association with a person or group with one or more of these actual or perceived characteristics:

"Association with a person or group with one or more of these actual or perceived characteristics" includes advocacy for, identification with, or being on the premises owned

or rented by, or adjacent to, any of the following: a community center, educational facility, family, individual, office, meeting hall, place of worship, private institution, public agency, library, or other entity, group, or person that has, or is identified with people who have, one or more of the characteristics listed in the definition of "hate crime" under paragraphs 1 to 6, inclusive, of Penal Code § 422.55(a).

Note: A hate crime need not be motivated by hate but may be motivated by any bias against a protected characteristic.

Hate incident - Per the California Attorney General, a hate incident is an action or behavior motivated by hate or bias but which, for one or more reasons, is not a crime. Examples of hate incidents include:

- Name-calling
- Insults and epithets
- Displaying hate material on your own property
- Posting hate material that does not result in property damage
- Distribution of materials with hate messages in public places

Hate speech - The U.S. Constitution allows hate speech as long as it does not interfere with the civil rights of others. While these acts are certainly disagreeable, offensive or hurtful, they do not rise to the level of criminal violations and thus may not be prosecuted. However, these incidents have a traumatic impact on the victims as well as on the community at large:

- Fighting words
- True threats
- Perjury
- Blackmail
- Incitement to lawless action
- Conspiracy
- Solicitation to commit any crime

In whole or in part because of - "In whole or in part because of" means that the bias motivation must be a cause in fact of the offense, whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that a crime would not have been committed but for the actual or perceived characteristic.

Nationality - Nationality means country of origin, immigration status, including citizenship, and national origin.

Race or ethnicity - Race or ethnicity includes ancestry, color, and ethnic background.

Religion - Religion includes all aspects of religious belief, observance, and practice and includes agnosticism and atheism.

Religion bias - A negative attitude towards persons based upon their perceived or actual religious beliefs, lack of beliefs, membership, or lack of membership in a faith group. In recognizing suspected religion-bias hate crimes, consider whether there were targeted attacks on, or biased references to, symbols of importance to a particular religion or articles considered of spiritual significance in a particular religion.

Examples of religions and such symbols and articles include, but are not limited to:

- In Buddhism; statues of the Buddha

307.2 POLICY

It is the policy of the Orange County Sheriff's Department to safeguard the rights of all individuals irrespective of their disability, gender, nationality, race or ethnicity, religion, sexual orientation, and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by hate or bias should be viewed very seriously and given high priority.

This Department will employ reasonably available resources and vigorous law enforcement action to identify and arrest hate crime perpetrators. Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this Department should take all reasonable steps to attend to the security and related concerns of the immediate victims and their families as feasible.

All Department Members are required to be familiar with the policy and use reasonable diligence to carry out the policy unless directed by the Sheriff or designee to whom the Sheriff formally delegates this responsibility.

307.3 PREVENTION AND PREPARATION

In order to facilitate the guidelines contained within this policy, Department Members will continuously work to build and strengthen relationships with the community, engage in dialogue, and provide education to the community about this policy. Department Members are also encouraged to learn about the inherent issues concerning their communities in relation to hate crimes.

Although hate incidents are not criminal events, they can be indicators of, or precursors to, hate crimes, and should be documented for informational purposes.

Hate crimes are not only a crime against the targeted victim(s) but also have impacts on the victim's family and community. Working constructively with segments of this larger community, after such crimes helps to reduce fears, stem possible retaliation, prevent additional hate crimes, and encourage any other previously victimized individuals to step forward and report such crimes.

307.3.1 HATE CRIMES COORDINATOR

The Captain of the Counter Terrorism Bureau, appointed by the Sheriff or their authorized designee, shall assume the role of Hate Crimes Coordinator. The Hate Crimes Coordinator will be responsible for ensuring the following functions are completed, consistent with Penal Code § 422.87.

Developing and maintaining relationships with targeted communities through the Sheriff's interfaith and community councils to engage them in ongoing meetings focused on hate crime activity, trends and the importance of reporting hate crimes and hate incidents. These meetings are generally held in collaboration with nonprofits or community organizations focused on the prevention of hate activity.

The Coordinator is also responsible for ensuring that all sworn members are trained to distribute the brochure to all suspected hate crime victims and all other interested persons.
5. The Hate Crimes Coordinator will review the California Attorney General's latest opinion on hate crime statistics and targets, as well as the Orange County Hate Crime Report produced by the Orange County Human Relations Commission, in order to identify trends in hate activity and plan outreach efforts to targeted communities, such as such as immigrant, Muslim, Arab, LGBTQ, Black or African- American, Jewish, and Sikh persons and persons with disabilities.

The benefit of public disclosure of hate crime incidents includes:

1. Dissemination of correct information.
2. Assurance to affected communities or groups that the matter is being properly and promptly investigated.
3. The ability to request information regarding the commission of the crimes from the victimized community.

Information or records relating to hate crimes subject to public disclosure shall be released as provided by Policy 805 - Records Maintenance and Release or as allowed by law. In accordance with Policy 340 - News Media Relations, the Public Affairs and Community Engagement (P.A.C.E.) Division should be provided with information that can be responsibly reported to the media. When appropriate, the Department spokesperson should reiterate that hate crimes will not be tolerated, will be investigated seriously, and will be prosecuted to the fullest extent of the law.

307.4.4 ADDITIONAL RESOURCES

Refer to Patrol Operations Manual (POM) Section 52 for operational considerations when responding to a hate crime.

If additional assistance is necessary for the investigation, activate the California Department of Justice Hate Crime Rapid Response Protocol. While all hate crimes should be investigated and prosecuted to the fullest extent by the local law enforcement agencies with jurisdiction, the Rapid Response Protocol is designed to be invoked in response to the most complex and significant hate crime incidents, such as the following:

1. Hate crimes resulting in a death, especially in jurisdictions with fewer resources available to address the investigation and prosecution of a homicide or a hate crime;

308.3 PROTECTION OF RIGHTS AND PRIVACY CONCERNS

The Department shall consider the protection of individual civil rights and the reasonable expectation of privacy as a key component of any decision made to deploy the UAV. Each UAV PIC and VO shall ensure that operations of the UAV are consistent with federal, state, and local laws.

Reasonable precautions can include, for example, deactivating or turning imaging devices away from such areas or persons during UAV operations.

The Department shall adhere to the Federal Aviation Administration (FAA) 14 Code of Federal Regulations (CFR) Part 107, to ensure UAVs are deployed under the most current federal rules. This policy is intended to provide personnel who are assigned to the Department UAV program with the responsibilities associated with the deployment of UAVs. The Air Support Bureau (ASB) Captain will manage the UAV program and shall manage the program to ensure safe, effective UAV deployments are within Department policies and procedures.

This policy is to be followed with regard to general operations, information gathered, and law enforcement purposes. The Department shall operate UAVs in a manner which observes Constitutional rights, and in accordance with local, state, and federal law.

The Department shall provide qualified UAV pilots under 14 CFR Part 107 who can deploy UAVs consistent with Part 107 in a safe and efficient manner while in the performance of their official duties. The qualified individual can be any Member who successfully passes an in house written test and check flight test (If the employee fails the initial written test and/or check flight test, they will be remediated on their deficiencies and given an opportunity to retest after 7 days).

In consultation with the Air Support Bureau, the deployment of UAVs shall only be for authorized missions, and they must comply with the approval authority and Members from the matrix below:

When deployed in a timely manner, UAVs enhance safety for law enforcement and the community. Policy Sections 308.5 (b), (f), (j) and (k) require a Sworn Member to be either the PIC or VO. A supervisor, Incident Commander, or other Sworn Member with authority over the use of a UAV may authorize the operation of a UAV by any trained Members in an emergency situation if a Sworn Member is not immediately available or may otherwise be more usefully deployed elsewhere. When a trained Sworn Member later becomes available, that Sworn Member will be assigned as the PIC or VO.

308.5.1 INFORMATION DISTRIBUTION

UAV personnel are responsible for ensuring they are informed about the specifications that apply to his/her duties and responsibilities. ASB shall ensure the following material, in current form, is available:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Unmanned Aerial Vehicle (UAV)

1. 14 CFR Part 43, 61, 91, and 107
2. UAV equipment manuals, owner's manuals, and flight handbooks for each type of UAV to be used.

308.5.2 POLICY DISTRIBUTION

A hard copy of this policy shall be placed in the ASB Policy and Procedures binder located in the Ready Room. This policy is also available on Lexipol, and viewable through the Sheriff's Intranet with future revisions for all Department Members to review.

308.5.3 UAV OPERATOR'S MANUAL AND FARs

All limitations and regulatory information with respect to the specific UAV and Federal Aviation Regulations (FARs) pertaining to the use of UAVs shall be strictly followed.

308.5.4 CODE OF FEDERAL REGULATION LIBRARY

The ASB shall maintain a current library of UAV manuals, policy and procedures manuals, notices, and applicable FARs.

308.6 UAV PROCUREMENT

The Technology Management Program was adopted to create a uniform process for identifying, reviewing, vetting, planning, and approving technology for the Department. Prior to the purchase of a UAV, a request shall be submitted to the Department Technology Panel for review and approval. Upon the approval of the Technology Panel and Executive Command, a unit may operate their own UAV.

1. A unit seeking to purchase and operate a UAV may consult with the ASB prior to submitting a request to determine if their operational needs could be satisfied by the ASB.

308.7 UAV DEPLOYMENT

308.7.1 UNMANNED AIRCRAFT SYSTEMS INSURANCE APPLICATION

The PIC shall ensure both the PIC and UAV are insured. All County Aviation Insurance is coordinated through the ASB Administrative Sergeant.

308.7.2 MISSION APPROVAL

Prior to deployment, the PIC shall ensure the UAV mission has been approved by the unit supervisor.

308.7.3 PRE-FLIGHT INSPECTION

1. The PIC shall inspect each UAV prior to each mission. If the UAV is found to not be in flight worthy condition, the reason shall be documented in the UAV log book and the UAV shall be taken out of service until the discrepancy can be remedied. The UAV log book shall be maintained by the unit that owns the UAV.

Orange County Sheriff-Coroner Department

Unmanned Aerial Vehicle (UAV)

2. The preflight inspection shall include, but not be limited to, general overview of the UAV and supporting electronic equipment, battery condition and life, motors, mounts and propellers, cameras, and data cards.

308.7.4 MISSION BRIEF

1. Prior to, or as soon as practicable after deploying the UAV on a mission, the PIC and VO shall file the OCSD Mission Brief by completing the form via the ASB online link. The ASB shall maintain the mission briefs for audits and inspections of the UAV program.
2. Due to the nature of most UAV missions, the actual flight time shall be somewhat short. It is critical the crew utilizes good Crew Resource Management (CRM) to maximize the time on the mission.
3. After the mission has been completed, the crew shall conduct an After Action Report (AAR) to identify areas where they performed well and areas they can improve upon. The crew shall then file the AAR by completing the online form via the ASB online link. The AARs shall be retained in accordance with Department's Records Retention and Disposition Schedule.

308.7.5 WAIVER REVIEW

1. If required, the PIC shall ensure a waiver has been filed, and approved by the FAA prior to conducting the mission.
2. If an emergency waiver is needed, the PIC shall notify the FAA via telephone and gain appropriate written approval prior to conducting the mission. The written approval shall be forwarded to ASB at the earliest opportunity.

308.7.6 PILOT IN COMMAND / VISUAL OBSERVER

1. The PIC shall be responsible for ensuring the UAV flight is conducted safely and efficiently.
2. The PIC shall ensure the UAV and all mission equipment are ready and operational for the mission to be conducted.
3. The Visual Observer (VO) shall be used as an aid to the PIC, during all aspects of the mission, except under the following conditions. The PIC, under exigent circumstances, may fly an initial tactical mission without the aid of a VO to protect life or property, or to aid in a felony arrest under daytime conditions only. However, as soon as possible, a VO shall be used after the start of such missions. Additionally, prior to the first flight, the unit supervisor shall approve all missions when a VO is not being utilized.
4. The VO shall make sure the information is relayed to the PIC with regards to collision avoidance with other objects and dangerous conditions.
5. The VO shall assist the PIC in capturing video and data to be collected during the mission so it frees up the PIC to fly the UAV.

308.7.7 RECORDING / DATA

1. The primary purpose of Unmanned Aerial Vehicle (UAV) recordings is to document and preserve video evidence for law enforcement related and non-criminal incidents. The UAV recordings should be used to enhance criminal prosecutions, improve officer safety, limit civil liabilities, provide a visual record of significant events, and contribute to future law enforcement training.

It is recognized that not all UAV calls or assignments will require the mission to be recorded. The PIC should only record activities when, in their judgment, it would be beneficial to do so, or when requested by a patrol deputy/sergeant or collaborating partner/agency. If UAV missions are recorded, the PIC will be responsible for determining whether to download it on a designated secure drive for evidence or as a training tool. If the recording does not contain evidence or any value for training, it will not be downloaded and saved to the designated secure drive.

2. The PIC assigned to each flight shall be responsible for downloading onto the designated secure drive after their mission. All recordings containing evidence shall be booked pursuant to policy 802. Recordings made by OCSD Members shall be kept on a secure hard drive at the office of the unit making the recordings for a minimum of 2 years (per approved Board of Supervisors Retention and Disposition Schedule). Recordings which are evidence in any claim or pending litigation, shall be preserved until the claim or litigation is resolved.
3. Recordings may be copied onto a DVD or removable drive for the purpose of booking as evidence or use as a training tool. Recordings relevant to a pending criminal prosecution or pending civil claim or lawsuit will not be made for use as a training tool until the prosecution, claim, or lawsuit is resolved.
4. Every division using UAVs shall be responsible for creating and maintaining a Video Control Log. The Video Control Log shall be kept in a secure location at their division's office. The Video Control Log will consist of the date, time, deputy or officer making the copy, the deputy or officer receiving the copy, the number of copies made, and the DR number if applicable. The Video Control Log shall be signed by the deputy or officer making the copy and deputy or officer receiving the copy.
5. If a recording is needed for evidence, training, or review, OCSD Members shall make a copy of the recording then log the release in the Video Control Log.
6. If an OCSD Member books the Digital Media Evidence into evidence, they shall enter it into P.E.A.B.I.T.S. (Property/Evidence Automated Booking Information System). The evidence shall be placed in a manila envelope and stored in a locked locker in the same manner as any other piece of evidence.
7. Subpoenas, California Public Records Act (CPRA) and requests for discovery shall be filtered through the ASB and disseminated to the appropriate unit.

REVIEW OF RECORDINGS

It is the policy of the Department to extend to its members the ability to review all available Department Media when writing reports, preparing for courtroom testimony and prior to making

voluntary statements. Please refer to Policy 303 - Department Media for additional information regarding Department recordings.

308.7.8 POST FLIGHT INSPECTION

The PIC shall ensure after the mission is complete, the UAV has no damage and the equipment has been properly shut down and stored away.

308.7.9 SHIFT LOG

The Department UAV Chief Pilot shall enter the UAV deployment into the ASB Shift Log after receiving both the Mission Brief and the After Action Form.

308.7.10 UAV ACCIDENT

If an accident occurs during the operation of the UAV and results in serious injury to any person, any loss of consciousness, or if it causes damage to any property (other than UAV) in excess of \$500.00 to repair or replace the property, notification shall be made to the Flight Standards District Office within ten days per FAA guidelines. Notification shall be immediately made to the ASB for investigation of the accident. Damage to a Department UAV shall be documented on a Damage to County Property form.

308.8 UAV MAINTENANCE

308.8.1 MAINTENANCE PROCEDURES

1. Maintenance on Department UAVs is to be performed in house, by UAV maintenance personnel designated by the ASB.
2. If maintenance cannot be performed in house, it is to be sent to the Original Equipment Manufacturer (OEM) or an approved service center.
3. All UAV maintenance is to comply with manufacturer specifications, FAA Advisory Circular 43, and best practices set forth by the FAA.

308.8.2 MAINTENANCE DOCUMENTATION

1. UAV maintenance documentation is to be done utilizing the ASB Maintenance Log as a way to keep accurate tracking of Department UAVs. The ASB log shall keep records on flights, maintenance cycles, and the status of repair parts.
2. All maintenance conducted on Department UAVs shall be documented on the UAV Maintenance Spreadsheet.

308.8.3 BATTERY CARE / INSPECTION

1. Batteries are to be inspected before each flight, and at the end of each flight.
2. If a battery is found to have bulging or excessive heat it is to be placed in a fire proof container until it can be disposed of properly.
3. Batteries are to be inventoried and inspected by UAV PICs once a month, and if a battery is found to have lost charging ability, is damaged, or presents a fire danger,

Orange County Sheriff-Coroner Department

Unmanned Aerial Vehicle (UAV)

it is to be removed from service and placed into a fire proof container until it can be disposed of properly.

308.8.4 MAINTENANCE DISCREPANCIES

1. When a maintenance discrepancy is discovered, it is the responsibility of the PIC to ensure that discrepancy is noted on the maintenance request for service on a "SQUAWK" form located in the log book for the UAV. The UAV's log book shall be retained in accordance with Department's Records Retention and Disposition Schedule.
2. Once a discrepancy has been noted in the UAV log book, the PIC will also need to log it into the digital ASB Maintenance Log located on the Sheriff's Network.
3. If the discrepancy will affect the safety of flight, the UAV is to be grounded until the maintenance discrepancy can be remedied.
4. If the discrepancy does not affect safety of flight and can be deferred, the UAV Chief Pilot shall be notified.
5. If a UAV is grounded and not considered safe for flight (Red X), a red tag shall be attached to the UAV controller with the date which it was grounded, noting the mechanical problem with the signature of the person who grounded the UAV.
6. Maintenance records shall be maintained by the ASB in accordance with Department's Records Retention and Disposition Schedule.

308.9 ONGOING POLICY MANAGEMENT

After action reviews should be generated to include the number of UAV operational deployments (not including training flights) conducted and a brief description of the missions flown along with the number of each type of mission. The Department shall continue to engage in meaningful review of UAVs and our policy as the technology advances.

Conducted Energy Device (CED) - Taser 10

309.1 PURPOSE AND SCOPE

When properly applied in accordance with this policy, the Conducted Energy Device (CED) is a less lethal device intended to temporarily incapacitate a violent or potentially violent subjects while substantially reducing the likelihood of serious injury or death. It is anticipated that the appropriate use of such a device will result in fewer serious injuries to both Members and subjects.

*****Policy 309 applies to Members carrying the Taser 10 CED. For Members carrying the Taser X26 CED, please refer to Policy 312 *****

309.2 AUTHORIZED CONDUCTED ENERGY DEVICE (CED)

Taser 10 is manufactured by Axon Enterprises, Inc.

309.3 POLICY

1. Members who have completed Department approved training may be issued a CED for use at the beginning of their shift or during their current assignment. Members shall be expected to return their issued device to the Department's inventory at the conclusion of their shift, unless the CED is assigned to the individual or when leaving a particular assignment with the approval of their Division Commander.
2. Members shall only use the CED, battery, magazine, and cartridges that have been issued by the Department. The device should be carried as a part of a uniformed Member's equipment in an approved holster. Non-uniformed Members may carry the CED in an approved holster or the device may be stored in the Member's county vehicle during their work shift in accordance with OCSD Policy 380.11.1..
3. When the CED is carried as part of a uniformed member's equipment, it shall be carried in a holster or pouch with a minimum of one level of retention. When carried on a member's duty belt, drop leg holster, or external carrier, the CED shall be carried on the side of the body opposite the member's duty weapon.
4. Members shall verify the expiration date of each cartridge prior to the start of their shift. Expired cartridges should be taken out of service, returned to the equipment room, and replaced immediately.
5. Members shall be responsible for ensuring that their issued CED is properly functioning prior to starting their shift. Member should ensure LED side lights are Blue prior to completing a function test, and Yellow before placing the CED in-service.
6. The CED's data shall be uploaded a minimum of every 30 days, or when the battery capacity reaches 20% or less, or after a deployment (see Policy 309.7 for further details).
7. Members are highly discouraged from holding a CED and a firearm at the same time due to the risk of unintentionally applying deadly force.
8. Members should not target the head, neck, hands, genital, or chest areas.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser 10

9. Utilization of a CED in any manner (horseplay or other behavior) not authorized by this policy or the Department Policy Manual (Lexipol) is strictly prohibited.

309.4 VERBAL AND VISUAL WARNINGS

1. Unless it would otherwise endanger officer safety or is impractical due to circumstances, a verbal warning of the intended use of the CED shall precede the application of the device in order to:
 - (a) Provide the individual with a reasonable opportunity to voluntarily comply.
 - (b) Provide other Members and individuals with warning that a CED may be deployed.
2. If, after a verbal warning, an individual continues to express an unwillingness to voluntarily comply with a Member's lawful orders and it appears both reasonable and practical under the circumstances, the Member may, but is not required to, activate the CED's audible tone, bright pulsing light, and/or the aiming laser in a further attempt to gain compliance prior to the application of the CED. The aiming laser should never be intentionally directed into the eyes of another person as it may permanently impair his or her vision.

309.5 USE OF THE CONDUCTED ENERGY DEVICE

As with any law enforcement equipment, the CED has limitations and restrictions requiring consideration before its use. Members should be aware that effectiveness is not guaranteed. Members should be prepared with other options in the unlikely event of such a failure. The CED should only be used when its operator can safely approach the subject within the operational range of the device.

1. Authorized Members may use the CED to subdue or control a subject who poses an immediate threat to the safety of the Member (or others), when the Member has an objective reason to believe that less intrusive tactics are unlikely to be effective. "Immediate threat" should be understood to mean the following:
 - (a) A violent or physically aggressive subject, or
 - (b) An imminent likelihood of violent or physical aggression, as indicated beyond mere agitation or non-compliance.
2. Individuals suspected of being under the influence of drugs/alcohol or exhibiting nudity, profuse sweating, extreme strength, extreme agitation, and irrational behavior may be more susceptible to collateral problems and should be closely monitored following the application of the CED until they can be examined by medical personnel.
3. Due caution should be considered when utilizing the CED on persons in the following classes:
 - (a) Juveniles.
 - (b) Women who appear or claim to be pregnant. For inmates known to be pregnant, refer to Policy 309.5(4).
 - (c) Persons who are visibly frail.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser 10

- (d) Individuals who have a preexisting medical condition that increases danger, and of which deputies become aware.
 - (e) The elderly.
4. In Custody and Court Operations, inmates known to be pregnant shall not be tased, pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8(h)). Correctional Health Services shall evaluate inmates for pregnancy upon intake and follow-up as needed. Inmates medically confirmed to be pregnant will be issued pink pants and are required to wear them while in custody. Deputies may rely on the inmate's clothing to determine whether an inmate is pregnant.
5. The CED is prohibited from being used:
- (a) To torture, psychologically torment, or inflict undue pain on any individual.
 - (b) In a punitive or coercive manner.
 - (c) On a handcuffed/secured prisoner, absent overtly assaultive behavior that cannot be reasonably dealt with in any other less intrusive fashion.
 - (d) In any environment where the Member knows that a potentially flammable, volatile, or explosive material is present (including but not limited to OC spray with volatile propellant, gasoline, natural gas, or propane).
 - (e) Any environment where the subject's fall could reasonably result in death (such as in a swimming pool or on an elevated structure).
 - (f) On any individual when a canine has engaged, except at the canine handler's direction.
 - (g) Any persons who are nonviolently participating in a public protest or passively resisting in a way that does not pose an immediate threat to the safety of the officer or others.
 - (h) To arouse an unconscious, intoxicated, or impaired individual.
 - (i) When the subject is no longer an immediate threat, the use of the CED shall be discontinued.

309.5.1 MULTIPLE APPLICATIONS OF THE DEVICE

1. If, after the initial cycle of the CED, the Member is still unable to gain compliance and circumstances allow, the Member shall:
 - (a) Determine if other options or tactics may be more appropriate; or
 - (b) Consider whether or not the probes are making proper contact; or
 - (c) Determine if the use of the CED is limiting the ability of the individual to comply.
2. Multiple uses of the CED may be reasonably necessary, but the use of the CED shall be discontinued once the subject does not pose an immediate threat:
 - (a) The Member should reassess the subject after each CED cycle to determine compliance or the presence of any possible medical issues.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser 10

3. Simultaneous applications of CEDs should be limited to high risk or exigent circumstances.
4. The first probe fired from a CED does not send conductive energy to the subject. The second probe should be deployed as quickly and as accurately as possible to achieve neuromuscular incapacitation (NMI). Additional probes may be deployed until the subject complies or is no longer an immediate threat. If multiple CED probes are deployed, the CED will automatically select the optimal probes to achieve NMI.

309.5.2 REPORT OF USE AND DOCUMENTATION

1. Members shall notify their supervisor as soon as reasonably possible following the application of a use of force.
2. All CED discharges shall be reported and documented pursuant to the guidelines articulated in the Policy 300 Use of Force.
3. Additionally, all CED discharges shall be documented in the related incident and/or crime report. Members reporting a CED discharge shall document in writing the facts and circumstances surrounding the incident that led the Member to decide to use a CED. Members should carefully and thoroughly articulate the observations made that caused them to deploy a CED. The related reports shall include whether a verbal and/or other warning was given prior to deploying a CED, if the built in warning alert was activated, or if no warnings were given, the report shall include the reason(s) it was not given.
4. If the subject is booked into the Orange County Jail system, a notation of CED deployment shall be made in the "Statement of Booking Officer" of the Intake Screening and Triage form for review by CMS.
5. Any unexpected discharge of a CED probe shall be documented in a memo directed to the Member's Commander detailing what occurred. The memo shall be maintained by the respective Bureau pursuant to the Department's retention policy.
6. Although the first probe does not send conductive energy to the subject, it is considered a deployment. A minimum of two (2) individually fired probes are required to make a connection to achieve NMI. The initial single probe deployment and additional probe deployments to the same subject count as a single deployment.

309.5.3 COLLECTING PROBES AS EVIDENCE

After all CED discharges, the probes and all attached wire shall be collected and carefully placed in a biohazard container. Care should be taken to maintain the integrity of the knots attaching the probes. All items collected shall be placed into Sheriff's property as evidence. This shall be notated on any subsequent reports. Probes and wires used as part of the initial Departmental CED certification training and subsequent recertification training or unexpected discharges are exempt unless injury results.

309.5.4 DANGEROUS ANIMALS

The CED may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternate methods are not reasonably available or would likely be ineffective.

309.6 MEDICAL TREATMENT

1. Any person who has been subjected to the electrical discharge of a CED , and/or struck by CED probes, who does not exhibit injury and/or does not appear to be in any kind of adverse medical distress, may be transported to the jail and shall be medically evaluated by Correctional Medical Services prior to booking.
2. Any individual exhibiting signs of distress after the application of a CED shall be medically evaluated as soon as practicable by either paramedics at the scene or taken to a hospital for examination. Signs of distress may include shortness of breath, chest pain, and/or dizziness.
3. The following situations require mandatory medical evaluation as soon as practicable by either paramedics at the scene or by medical personnel at a hospital:
 - (a) Persons struck in a sensitive area, e.g., eyes, hands, head, genitals, female breasts.
 - (b) Where a Member cannot safely remove probes in accordance with training.
 - (c) Persons who fall into one of the vulnerable classes such as juveniles, pregnant women, persons who are visibly frail, persons who Members become aware have a preexisting medical condition that increases danger, and the elderly.
 - (d) Individuals who are exhibiting nudity, profuse sweating, extreme strength, extreme agitation, violent or irrational behavior, or are imperviousness to pain, or require a protracted physical encounter with multiple Deputies to bring them under control. These individuals may be more susceptible to collateral medical problems and should be closely monitored following the application of the CED until they can be examined by paramedics and/or taken to a hospital for an examination.
4. If the subject is an inmate at one of the five Orange County Sheriff's jail facilities at the time of a CED application, the Supervisor on scene shall arrange for CMS medical care as soon as possible. If CMS personnel are not available at the facility, the IRC medical staff shall be immediately notified and appropriate treatment shall be arranged.
5. Any individual who refuses medical attention shall have his or her refusal fully documented in related reports and if possible be witnessed by another Department Member and/or medical personnel. If medical staff is willing to provide a copy of the subject's medical refusal, this document should be collected and included with the report package. If possible, an audio recording of the refusal should also be made and a notation in the report indicating the subject's refusal was recorded and either booked as evidence or stored on the Department's digital video server system.

309.7 SUPERVISOR RESPONSIBILITIES

Following a use of force, the supervisor shall ensure the CED data is downloaded and booked into evidence by the end of shift. A copy of the downloaded CED data shall be attached to the use of force analysis in CRM.

Refer to Policy 300.9 Use of Force – Supervisor Responsibility.

309.8 TRAINING

Any certification or re-certification in the use of the CED shall be under the direct control and supervision of the Training Division staff. In addition to the initial Department approved training required to carry and use a CED, Members shall be re-certified during each two-year Perishable Skills training cycle, by a Training Division approved CED instructor. A reassessment of a Member's knowledge and/or practical skill may be required at any time if deemed appropriate by the Training Division Commander.

309.9 STORAGE

All CEDs not carried by Members shall be secured in a equipment room, storage room, storage cabinet, or locked in a locker/security box. The CED shall be stored in the same manner as a firearm. For storage of firearms, see OCSD Policy 380.11.

309.10 INVENTORY

All CEDs from each Command shall be inventoried no less than once every 180 days by the Training Sergeant or his/her designee. All CEDs shall be accounted for and logged. The required download shall serve as inventory and accountability for each device. The records shall be kept on file for two (2) years.

Shooting Incidents

310.1 PURPOSE AND SCOPE

The intent of this policy is to establish procedures and protocols for the investigations of Shooting Incidents to ensure such incidents are investigated thoroughly, in a fair and impartial manner, and consistent with other administrative reviews (Use of Force 300, Critical Incident Reviews 301, Internal Affairs investigations 1020 & 1026).

310.1.1 DEFINITIONS

Officer-Involved Shooting (OIS): An incident in which a Deputy Sheriff, Sheriff's Special Officer, and/or Deputy Coroner discharges a firearm at another person while exercising peace officer authority. OIS incidents include Hit and Non-Hit Shootings.

1. **Hit Shooting:** Department Member intentionally or unintentionally shoots and a person is struck.
2. **Non-Hit Shooting:** Department Member intentionally shoots at a person and no one is struck.

OIS incidents require a review protocol that considers both criminal culpability and administrative issues (policy violation, training, etc.).

Firearms Discharge: An incident in which a Deputy Sheriff, Sheriff's Special Officer, and/or Deputy Coroner discharges his/her firearm without the intent to shoot at a person and no one is struck. Firearms Discharge Incidents include:

1. **Warning Shot:** Department Member intentionally shoots as a warning without intent to strike a person and no one is struck.
2. **Animal Shooting:** Department Member intentionally shoots at an animal, whether the animal is struck or not.
3. **Unintentional Discharge:** Department Member unintentionally shoots and no one is struck.
4. **Shooting (Other):** Department Member intentionally shoots at an object, other than range qualification or a training exercise.

A Firearms Discharge incident requires an administrative review. The extent of the administrative review shall depend upon the circumstances and seriousness of the matter. The handling supervisor and the Department Commander shall triage the incident and determine the appropriate recourse, which could include a response by the Administrative Response Team (ART) or documentation submitted by the handling supervisor and forwarded up the involved Department Member's chain of command for review.

Mandatory Administrative Leave: Any Department Member involved in a traumatic critical incident, which could include an Officer-Involved Shooting incident, shall be required to take three working days off (with pay). During that time, the Department Member shall attend a counseling session with a certified psychiatric counselor. The results of that session shall remain confidential.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Shooting Incidents

1. When Department Members are placed on mandatory administrative leave due to traumatic critical incidents as defined in this policy, the Department Commander shall contact The Counseling Team International (TCTI) to arrange for counseling sessions with the appropriate Department Member(s). It shall be the responsibility of the Professional Standards Division, specifically the Employee Relations team, to contact TCTI to verify counseling session(s) have been arranged for the appropriate Department Member(s).

Administrative Response Team (ART): SAFE Division personnel shall be dispatched to the scene of an Officer-Involved Shooting to collect facts relating to administrative concerns (policy compliance, use of force, liability issues). A SAFE Division Sergeant shall enter the initial notification of the incident into the CRM database system.

310.2 INVESTIGATION RESPONSIBILITY

The Department conforms to the parameters set forth in the Orange County Chiefs of Police and Sheriff's Association Operational & Procedural Protocol Number 105 (Establish Protocol for Officer-Involved Shootings).

The Office of the District Attorney shall serve as the Uninvolved Agency for all OIS Hit Shootings by Department Member(s) within the County of Orange and shall determine if there is criminal culpability on the part of the Department Member(s). The Office of the District Attorney shall review all OIS Non-Hit Shootings by Department Member(s) and shall determine if there is criminal culpability on the part of the Department Member(s).

In the event an OIS occurs outside Orange County, the agency in whose jurisdiction the incident occurred shall assume primary investigative responsibility. If geographically practical, the Criminal Investigations Bureau shall respond and conduct a parallel investigation and the ART Team shall also respond.

The Department shall conduct an administrative review of all OIS and Firearms Discharge incidents. This process shall include some or all of the following components:

1. An Administrative Review of an incident shall be completed by the ART in compliance with Policy 300.
2. The Supervisory Use of Force Analysis that is normally required per Policy 300 shall be superseded for OIS incidents by an Internal Affairs investigation. Final determinations about whether the force was "in policy" shall occur as part of the Internal Affairs review.
3. All Officer-Involved Shootings (Hit and Non-Hit Shootings) shall be the subject of a Critical Incident Review (CIR) per Policy 301.
4. An Internal Affairs investigation (I/A) shall be conducted into all Officer-Involved Shooting incidents (Hit and Non-Hit Shootings). The I/A investigation shall generally be tolled to await the District Attorney's review and conclusion into criminal culpability of the involved Department Member and potentially tolled due to other related criminal actions (i.e. suspects criminally charged as part of the incidents) and/or civil proceedings. The Sheriff may direct that the I/A investigation proceed immediately if

the circumstances warrant, which could include an order to compel statements from involved Department Members.

5. All Firearms Discharge incidents shall be administratively reviewed by the involved Department Member's Commander and may be forwarded for further action and/or investigation (CIR, I/A investigation, decentralized discipline) if the circumstances warrant.

310.3 DUTIES AND RESPONSIBILITIES OF SCENE PERSONNEL

310.3.1 DEPARTMENT COMMANDER

Upon learning of an OIS, Hit and Non-Hit Shootings, the Department Commander shall be responsible for the coordinating of resources and making the appropriate notifications.

310.3.2 NOTIFICATIONS

The following person(s) shall be notified as soon as practical:

1. Sheriff
2. Undersheriff
3. Assistant Sheriff (Patrol Operations Command)
4. Assistant Sheriff (Investigations & Special Operations Command)
5. Investigations Division Commander
6. Criminal Investigations Bureau Captain
7. District Attorney's OIS "Roll-out Team" (by CIB Team)
8. ***Homicide Unit Sergeant (first notification)***
9. SAFE-Internal Affairs Captain (ART Team)
10. Constitutional Policing Advisor
11. Peer Support Team
12. Counseling Team International (909-884-0133)
13. Association of Orange County Deputy Sheriffs (AOCDS)

All outside inquiries about the incident shall be directed to the Public Affairs & Community Engagement Division.

The Department Commander shall make notification to the involved Department Member's chain of command of all Firearms Discharge incidents (Warning Shots, an Animal Shooting, Unintentional Discharge, or Shooting (Other)).

310.3.3 CRIMINAL INVESTIGATIONS BUREAU (CIB CAPTAIN AND/OR HOMICIDE SERGEANT)

The Criminal Investigations Bureau (CIB) shall primarily be responsible for managing the scene and coordinating efforts with the Incident Commander. CIB shall notify the District Attorney's

Orange County Sheriff-Coroner Department

Shooting Incidents

OIS "Roll-out Team" and arrange for the services of the Coroner (if necessary) and Crime Lab personnel.

CIB shall evaluate the circumstances and coordinate activities that will ensue (i.e. obtaining any search warrants, conducting interviews, follow-up investigative work to apprehend outstanding suspects, etc.).

CIB shall conduct a parallel investigation with the District Attorney's Office on all OIS incidents and may be responsible for investigating any underlying criminal acts by non-Department Members (suspects).

INCIDENT COMMANDER

The Incident Commander shall assume oversight of Officer-Involved Shooting incidents upon arrival at the scene. The Incident Commander shall have broad responsibility for management of the following areas:

1. Integrity of the shooting scene, security and crime scene perimeter, and associated locations.
2. Management of on-scene and responding resources.
3. Receipt of informational updates and regular communication with the Department Commander and Public Affairs (media relations) personnel.
4. Compliance of on-scene personnel with applicable policies, laws, and Peace Officer Procedural Bill of Rights protocols.
5. The identities of deputies involved in an OIS may only be released to the media pursuant to the consent of the involved deputy(s) or upon formal request filed and processed in accordance with the Public Records ACT (Policy 346.4.1) as applicable.

310.3.4 INITIAL ON SCENE SUPERVISOR

Upon arrival at the scene of an Officer-Involved Shooting, the first responding supervisor (not involved in the shooting) should:

1. Take all reasonable steps to obtain emergency medical attention for all apparently injured individuals.
2. Attempt to obtain a brief overview of the situation from any non-shooter deputy(s).
3. In the event that there are no non-shooter deputies, the supervisor should attempt to obtain a brief voluntary overview from one shooter deputy.
4. Consult with the Incident Commander and Department Commander to determine an appropriate time to deactivate or reactivate the patrol video systems (PVS). This determination will be communicated on the primary channel. For additional, refer to policy 446 - Patrol Video System (PVS).

The supervisor shall administratively order any deputy from this Department to immediately provide public safety information necessary to secure the scene and pursue suspects. Public safety information shall be limited to such things as outstanding suspect information, involved

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Shooting Incidents

and outstanding weapons, number and direction of shots fired, parameters of the incident scene, identity of known witnesses, and similar information.

Public Safety Statement Example (see "OCSD Public Safety Statement card"):

The supervisor requiring the Public Safety Statement (PSS) may state something along the following to the shooter deputy or other involved personnel:

"Deputy, I am ordering you to provide me with critical information to assist me in providing for the safety and welfare of the public and fellow law enforcement personnel. This information will be used to pursue and capture any outstanding suspect(s), locate and provide medical care to anyone injured, and otherwise assist the law enforcement response to this incident.

Some relevant questions in this regard could include:

1. Were you involved in the deputy-involved shooting?
2. Approximately how many rounds did you fire? If so, what direction?
3. Do you know if any other deputies fired rounds?
4. Did the suspect fire any rounds? If so, from what direction?
5. Was anyone injured? Where are they?
6. Are you aware of any witnesses? If so, where are they?
7. Approximately where were you when you fired the rounds?
8. Are there any outstanding suspects? (Description, Direction, Mode of Travel)
9. Are there any weapons or evidence that needs to be protected? (Locations)

Due to the need to take immediate action, the shooter deputy is not entitled to await representation before answering.

The Deputy should be admonished that in order to preserve the integrity of the investigation, he/she is ordered to NOT discuss the incident with ANYONE, including other supervisors, prior to the arrival of assigned criminal Investigators; with the exception of a legal (AOCDS) representative.

Supervisors should also bear in mind the following:

1. Absent a voluntary statement from any deputy(s), the initial on scene supervisor should not attempt to order any deputy to provide information other than public safety information.
2. Based on statement(s) provided and crime scene, consider the need for a Public Safety Protective Sweep for injured parties or damaged property.
3. Consider number of outstanding suspects, number of witnesses, and deputies to be interviewed and possible area to be canvassed as a means of determining the amount of investigative resources needed.
4. Provide all available information to the Incident Commander, the Department Commander, and Emergency Communications Bureau (ECB). If feasible, sensitive information should be communicated over secure networks.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Shooting Incidents

Supervisors shall take command of and secure the incident scene with additional personnel until relieved by an Investigations supervisor, higher ranking, or other assigned personnel.

As soon as practical, shooter deputies should be removed from the scene and away from media attention and outside influence. The deputy should be placed with a supportive peer or supervisor for reassurance and emotional support (Crisis Response Team Member if possible). However, they shall not discuss the facts or details of the shooting with the Member. Shooter deputies should be transported (separately, if feasible) to the station or designated remote location for further direction.

1. Each involved deputy should be given an administrative order not to discuss the incident with other involved deputies.
2. When a deputy's weapon is taken or left at the scene (e.g., evidence), the deputy shall be provided with a comparable replacement weapon.

310.3.5 ADMINISTRATIVE RESPONSE TEAM

Upon being notified of an OIS incident, the SAFE Division shall dispatch a minimum of two Sergeant(s) (ART) to the scene. ART personnel shall attend briefings on the incident and collect all facts relating to administrative concerns.

ART is responsible for evaluating the incident from an administrative perspective and identify possible policy-related issues (policy language and violation), risk management and liability issues, training concerns, force and force options, tactics, supervisory involvement and control, equipment issues, and other administrative factors.

ART shall evaluate the entire incident to include the circumstances leading up to the shooting, the actual shooting, and post shooting events and activities. ART shall utilize information as provided by the District Attorney's Office and/or the Criminal Investigations Bureau. No administrative interviews shall be conducted at the scene unless specifically directed by the Sheriff. ART shall collect all additional relevant information and prepare for an administrative briefing to the Executive Command no later than three days after the shooting. The Sheriff's Executive Command shall review and evaluate the administrative issues during the briefing and take any necessary action. ART shall also complete the Use of Force statistical summary.

Juvenile Matters

311.1 PURPOSE AND SCOPE

1. It shall be of the utmost importance that all Member's attitude, demeanor, and speech toward juveniles be civil and respectful, but at the same time firm.
2. It is the responsibility of all Members of the Department to report any matter coming to their attention in which a juvenile is delinquent or the victim of an offense or neglect.
3. In cases involving juveniles, after the proper investigation or the securing of the necessary evidence for prosecution, the investigating deputies shall refer the juveniles to the appropriate authority for the processing and disposition of their cases.
4. Sections 346 and 676 of the Welfare and Institutions Code provide that the public (law enforcement personnel, media, other relatives of the minor, etc.) shall not be admitted to Juvenile Court hearings, unless requested by a parent or guardian and consented to or requested by the minor concerning whom the petition has been filed. The judge or referee may admit those persons (e.g., law enforcement personnel) deemed to have a direct and legitimate interest in the particular case of the work of the court.
5. The Juvenile Court has the exclusive authority to determine to whom juvenile record information may be disclosed and the extent to which the information can be released to third parties. Juvenile records may be obtained by juvenile justice agencies and law enforcement agencies under appropriate circumstances.
6. Juvenile record information includes, but is not limited to, any document or records in any Juvenile Court proceeding; any document relating to any juvenile contacts and arrests even if Juvenile Court proceedings were not instituted; and all other information of an evaluative or diagnostic nature available to any other person or agency in accordance with the administration of juvenile court law.

Conducted Energy Device (CED) - Taser X26

312.1 PURPOSE AND SCOPE

When properly applied in accordance with this policy, the Conducted Energy Device (CED) is a control device which provides an "intermediate" or "medium" amount of force and is intended to temporarily incapacitate a violent or potentially violent individual without causing serious injury. It is anticipated that the appropriate use of such a device will result in fewer serious injuries to Members and subjects.

*****Policy 312 applies to Members carrying the Taser X26 CED. For Members carrying the Taser 10 CED, please refer to Policy 309.*****

312.2 AUTHORIZED CONDUCTED ENERGY DEVICE (CED)

Taser X26 is manufactured by Axon Enterprises, Inc.

312.3 POLICY

1. Members who have completed Department approved training may be issued an CED for use at the beginning of their shift or during their current assignment. Members shall be expected to return their issued device to the Department's inventory at the conclusion of their shift, unless the CED is assigned to the individual or when leaving a particular assignment.
2. Members shall only use the CED and cartridges that have been issued by the Department. The device should be carried as a part of a uniformed Member's equipment in an approved holster. Non-uniformed Members may carry the CED in an approved holster or the device may be stored in the driver's compartment of the Member's county vehicle so that it is readily accessible at all times.
3. When the CED is carried as a part of a uniformed Member's equipment, it shall be carried on the side opposite from the duty weapon in a holster or a pouch attached to the Member's external carrier. The holster or pouch shall have a minimum of one level retention.
4. Whenever practical, Members should carry a total of two or more CED cartridges on their person at all times while carrying an CED. Members shall verify the expiration date of each cartridge prior to the start of their shift. Expired cartridges should be taken out of service and replaced immediately.
5. Members shall be responsible for ensuring that their issued CED is properly functioning prior to starting their shift.
6. Each CED's data shall be downloaded and stored on a Department computer network file (\\hosta\taserupload) a minimum of every 180 days.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser X26

7. Members are highly discouraged from holding an CED and a firearm at the same time due to the risk of unintentionally applying deadly force.
8. Members should not target the head, neck, hands, genital, or chest areas.
9. All Commands shall maintain an CED Log documenting the Member's name, PIN number, CED number and cartridge number(s) issued to the Member for each shift. Each Command shall retain the CED Log for two (2) years.
10. Utilization of an CED in any manner (horseplay or other behavior) not authorized by this policy or the Department Policy Manual (Lexipol) is strictly prohibited.

312.4 VERBAL AND VISUAL WARNINGS

1. Unless it would otherwise endanger officer safety or is impractical due to circumstances, a verbal warning of the intended use of the CED shall precede the application of the device in order to:
 - (a) Provide the individual with a reasonable opportunity to voluntarily comply.
 - (b) Provide other Members and individuals with warning that an CED may be deployed.
2. If, after a verbal warning, an individual continues to express an unwillingness to voluntarily comply with a Member's lawful orders and it appears both reasonable and practical under the circumstances, the Member may, but is not required to, display the electrical arc (provided there is not a cartridge loaded into the CED) or the aiming laser in a further attempt to gain compliance prior to the application of the CED. The aiming laser should never be intentionally directed into the eyes of another person as it may permanently impair his or her vision

312.5 USE OF THE CONDUCTED ENERGY DEVICE

As with any law enforcement equipment, the CED has limitations and restrictions requiring consideration before its use. Although the CED rarely fails and is generally effective in subduing most individuals, Members should be aware that effectiveness is not guaranteed. Members should be prepared with other options in the unlikely event of such a failure. The CED should only be used when its operator can safely approach the subject within the operational range of the device.

1. Authorized Members may use the CED to subdue or control a subject who poses an immediate threat to the safety of the Member (or others), when the Member has an objective reason to believe that less intrusive tactics are unlikely to be effective. "Immediate threat" should be understood to mean the following:
 - (a) A violent or physically aggressive subject, or
 - (b) An imminent likelihood of violent or physical aggression, as indicated beyond mere agitation or non-compliance.
2. Individuals suspected of being under the influence of drugs/alcohol or exhibiting nudity, profuse sweating, extreme strength, extreme agitation, and irrational behavior may be more susceptible to collateral problems and should be closely monitored following the application of the CED until they can be examined by medical personnel.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser X26

3. Due caution should be considered when utilizing the CED on persons in the following classes:
 - (a) Juveniles.
 - (b) Women who appear or claim to be pregnant. For inmates known to be pregnant, refer to section 309.5(4).
 - (c) Persons who are visibly frail.
 - (d) Individuals who have a preexisting medical condition that increases danger, and of which deputies become aware.
 - (e) The elderly.
4. In Custody and Court Operations, inmates known to be pregnant shall not be tased, pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8(h)). Correctional Health Services shall evaluate inmates for pregnancy upon intake and follow-up as needed. Inmates medically confirmed to be pregnant will be issued pink pants and are required to wear them while in custody. Deputies may rely on the inmate's clothing to determine whether an inmate is pregnant.
5. Because the application of the CED in the drive-stun mode (i.e., direct contact without darts) relies primarily on pain compliance and requires close proximity to the subject, additional caution should be exercised and Members should be aware the controlling effects may be limited. For Department Member's safety and the safety of the subject, Drive Stun mode should only be used when there is no alternative to using the CED from a safe distance with the cartridge engaged.
6. The CED is prohibited from being used:
 - (a) To torture, psychologically torment, or inflict undue pain on any individual.
 - (b) In a punitive or coercive manner.
 - (c) On a handcuffed/secured prisoner, absent overtly assaultive behavior that cannot be reasonably dealt with in any other less intrusive fashion.
 - (d) In any environment where the Member knows that a potentially flammable, volatile, or explosive material is present (including but not limited to OC spray with volatile propellant, gasoline, natural gas, or propane).
 - (e) Any environment where the subject's fall could reasonably result in death (such as in a swimming pool or on an elevated structure).
 - (f) On any individual when a canine has engaged, except at the canine handler's direction.
 - (g) Any persons who are nonviolently participating in a public protest or passively resisting in a way that does not pose an immediate threat to the safety of the officer or others.
 - (h) To arouse an unconscious, intoxicated, or impaired individual.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Conducted Energy Device (CED) - Taser X26

312.5.1 MULTIPLE APPLICATIONS OF THE DEVICE

1. If, after a five second cycle of the CED, the Member is still unable to gain compliance and circumstances allow, the Member shall:
 - (a) Determine if other options or tactics may be more appropriate; or
 - (b) Consider whether or not the probes or darts are making proper contact; or
 - (c) Determine if the use of the CED is limiting the ability of the individual to comply.
2. Multiple uses of the CED may be reasonably necessary, but the use of the CED shall be discontinued once the subject does not pose an immediate threat:
 - (a) The Member should reassess the subject after each CED five second cycle to determine compliance or the presence of any possible medical issues.
3. Simultaneous applications of CEDs should be limited to high risk or exigent circumstances

312.5.2 REPORT OF USE AND DOCUMENTATION

1. Members shall notify their supervisor as soon as reasonably possible following the application of a use of force.
2. All CED discharges shall be reported and documented pursuant to the guidelines articulated in the Policy 300 Use of Force.
3. Additionally, all CED discharges shall be documented in the related incident and/or crime report. Members reporting an CED discharge shall document in writing the facts and circumstances surrounding the incident that led the Member to decide to use an CED. Members should carefully and thoroughly articulate the observations made that caused them to deploy an CED. The related reports shall include whether a verbal and/or other warning was given prior to deploying an CED, or if no warnings were given, the report shall include the reason(s) it was not given.
4. If the subject is booked into the Orange County Jail system, a notation of CED deployment shall be made in the "Statement of Booking Officer" of the Intake Screening and Triage form for review by CMS.
5. Any unexpected discharge of an CED cartridge shall be documented in a memo directed to the Member's Commander detailing what occurred. The memo shall be maintained by the respective Bureau pursuant to the Department's retention policy.

312.5.3 COLLECTING DARTS AS EVIDENCE

After all CED discharges, the darts and all attached wire shall be collected and carefully placed in a biohazard container. Care should be taken to maintain the integrity of the knots attaching the darts. All items collected shall be placed into Sheriff's property as evidence. This shall be notated on any subsequent reports. Darts and wires used as part of the initial Departmental CED certification training and subsequent recertification training or unexpected discharges are exempt unless injury results.

312.5.4 DANGEROUS ANIMALS

The CED may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternate methods are not reasonably available or would likely be ineffective.

312.6 MEDICAL TREATMENT

1. Any person who has been subjected to the electrical discharge of an CED (either drive-stun or probe deployment), and/or struck by CED darts, who does not exhibit injury and/or does not appear to be in any kind of adverse medical distress, may be transported to the jail and shall be medically evaluated by Correctional Medical Services prior to booking.
2. Any individual exhibiting signs of distress after the application of an CED shall be medically evaluated as soon as practicable by either paramedics at the scene or taken to a hospital for examination. Signs of distress may include shortness of breath, chest pain, and/or dizziness.
3. The following situations require mandatory medical evaluation as soon as practicable by either paramedics at the scene or by medical personnel at a hospital:
 - (a) Persons struck in a sensitive area, e.g., eyes, hands, head, genitals, female breasts.
 - (b) Where a Member cannot safely remove darts in accordance with training.
 - (c) Persons who fall into one of the vulnerable classes such as juveniles, pregnant women, persons who are visibly frail, persons who Members become aware have a preexisting medical condition that increases danger, and the elderly.
 - (d) Individuals who are exhibiting nudity, profuse sweating, extreme strength, extreme agitation, violent or irrational behavior, or are imperviousness to pain, or require a protracted physical encounter with multiple Deputies to bring them under control. These individuals may be more susceptible to collateral medical problems and should be closely monitored following the application of the CED until they can be examined by paramedics and/or taken to a hospital for an examination.
4. If the subject is an inmate at one of the five Orange County Sheriff's jail facilities at the time of an CED application, the Supervisor on scene shall arrange for CMS medical care as soon as possible. If CMS personnel are not available at the facility, the IRC medical staff shall be immediately notified and appropriate treatment shall be arranged.
5. Any individual who refuses medical attention shall have his or her refusal fully documented in related reports and if possible be witnessed by another Department Member and/or medical personnel. If medical staff is willing to provide a copy of the subject's medical refusal, this document should be collected and included with the report package. If possible, an audio recording of the refusal should also be made and a notation in the report indicating the subject's refusal was recorded and either booked as evidence or stored on the Department's digital video server system.

312.7 SUPERVISOR RESPONSIBILITIES

Following a use of force, the supervisor shall ensure the CED data is downloaded and booked into evidence by the end of shift. A scanned copy of the downloaded CED data shall be attached to the use of force analysis in CRM.

Refer to Policy 300.9 Use of Force – Supervisor Responsibility.

312.8 TRAINING

Any certification or re-certification in the use of the CED shall be under the direct control and supervision of the Training Division staff. In addition to the initial Department approved training required to carry and use an CED , Members shall be re-certified during each two-year Perishable Skills training cycle, by a Training Division approved CED instructor. A reassessment of a Member's knowledge and/or practical skill may be required at any time if deemed appropriate by the Training Division Commander.

312.9 STORAGE

All CEDs not carried by Members shall be secured in a storage room, storage cabinet, or locked in a locker/security box.

312.10 INVENTORY

All CEDs from all Commands shall be inventoried no less than once every 180 days by the Training Sergeant or his/her designee, all CEDs shall be accounted for and logged. The required bi-annual download shall serve as inventory and accountability for each device. The records shall be kept on file for two (2) years.

Vice Conditions

313.1 PURPOSE AND SCOPE

It shall be the policy of the Department that an arrest shall be made in all instances wherein the deputy has reasonable cause to believe the suspect has committed a violation of any law or ordinance pertaining to vice where there is sufficient evidence to warrant an arrest. If deputies personally observe such violations, they should proceed as in any other observed crime.

If deputies receive information or suspect vice conditions exist, they shall gather all information possible, without becoming obvious to the suspects, and make a full written report of the conditions to their superior. If it appears the matter requires immediate attention, deputies should contact a superior immediately for instructions. In any event, deputies shall write a full and complete report of the findings or investigation.

It shall be the responsibility of every Member who receives information concerning vice conditions to report the same through their superior.

Vehicle Pursuits

314.1 PURPOSE AND SCOPE

Vehicle pursuits expose innocent citizens, law enforcement officers, and fleeing violators to the risk of serious injury or death. The primary purpose of this policy is to provide deputies with guidance in balancing the safety of the public and themselves against law enforcement's duty to apprehend violators of the law. Another purpose of this policy is to reduce the potential for pursuit-related collisions. Vehicular pursuits require deputies to exhibit a high degree of common sense and sound judgment. Deputies must not forget that the immediate apprehension of a suspect is generally not more important than the safety of the public and pursuing deputies.

Deciding whether to pursue a motor vehicle is a critical decision that must be made quickly and under difficult and unpredictable circumstances. In recognizing the potential risk to public safety created by vehicular pursuits, no deputy or supervisor shall be criticized or sanctioned for deciding not to engage in a vehicular pursuit because of the risk involved. This includes circumstances where Department policy would permit the initiation or continuation of the pursuit. It is recognized that vehicular pursuits are not always predictable and decisions made pursuant to this policy shall be evaluated according to the totality of the circumstances reasonably available at the time of the pursuit.

Deputies must remember that the most important factors to the successful conclusion of a pursuit are proper self-discipline and sound professional judgment. Deputy's conduct during the course of a pursuit must be objectively reasonable; that is, what a reasonable deputy would do under the circumstances. An unreasonable individual's desire to apprehend a fleeing suspect at all costs has no place in professional law enforcement.

314.1.1 VEHICLE PURSUIT DEFINED

A vehicle pursuit is an event involving one or more law enforcement officers attempting to apprehend a suspect, who is attempting to avoid arrest while operating a motor vehicle by using high-speed driving or other evasive tactics, such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to a deputy's signal to stop.

314.2 DEPUTY RESPONSIBILITIES

It shall be the policy of this Department that a vehicle pursuit shall be conducted only with red light and siren as required by Vehicle Code § 21055 for exemption from compliance with the rules of the road. The following policy is established to provide deputies with guidelines for driving with due regard and caution for the safety of all persons using the highway as required by Vehicle Code § 21056.

314.2.1 WHEN TO INITIATE A PURSUIT

Deputies are authorized to initiate a pursuit when it is reasonable to believe that a suspect is attempting to evade arrest or detention by fleeing in a vehicle.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

The following factors individually and collectively shall be considered in deciding whether to initiate a pursuit:

1. Seriousness of the known or reasonably suspected crime and its relationship to community safety.
2. The importance of protecting the public, balancing the known or reasonably suspected offense, and the apparent need for immediate capture against the risks to deputies, innocent motorists, and others.
3. Apparent nature of the fleeing suspects (e.g., whether the suspects represent a serious threat to public safety).
4. The identity of the suspects has been verified and there is comparatively minimal risk in allowing the suspects to be apprehended at a later time.
5. Safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic, and the speed of the pursuit relative to these factors.
6. Pursuing deputies familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher/supervisor, and the driving capabilities of the pursuing deputies under the conditions of the pursuit.
7. Weather, traffic, and road conditions that substantially increase the danger of the pursuit beyond the worth of apprehending the suspect.
8. Performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit.
9. Vehicle speeds.
10. Other persons in or on the pursued vehicle (e.g., passengers, co-offenders, and hostages).
11. Availability of other resources such as helicopter assistance.
12. The deputy's unit is carrying passengers other than sheriff's deputies. Pursuits should not be undertaken with a prisoner in the police vehicle.

314.2.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be discontinued whenever the totality of objective circumstances known or which reasonably ought to be known to the deputy or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect's escape.

The factors listed in § 314.2.1 of this policy are expressly included herein and shall apply equally to the decision to discontinue as well as the decision to initiate a pursuit. Deputies and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists and themselves when electing to continue a pursuit. In the context of this policy, the term "terminate" shall be construed to mean discontinue or to stop chasing the fleeing vehicle.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

In addition to the factors listed in § 314.2.1 of this policy, the following factors should also be considered in deciding whether to terminate a pursuit:

1. Distance between the pursuing deputies and the fleeing vehicle is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance.
2. Pursued vehicle's location is no longer definitely known.
3. Deputy's pursuit vehicle sustains any type of damage that renders it unsafe to drive.
4. Extended pursuits of violators for misdemeanors not involving violence or risk of serious harm (independent of the pursuit) are discouraged.
5. There are hazards to uninvolved bystanders or motorists.
6. If the identity of the offender is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit, deputies should strongly consider discontinuing the pursuit and apprehending the offender at a later time.
7. Pursuit is terminated by a Field Supervisor or Department Commander.

314.2.3 SPEED LIMITS

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the deputy and supervisor. Evaluation of vehicle speeds shall take into consideration public safety, officer safety, and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, deputies and supervisors shall also consider these factors when determining the reasonableness of the speed of the pursuit:

1. Pursuit speeds have become unreasonably unsafe for the surrounding conditions.
2. Pursuit speeds have exceeded the driving ability of the deputy.
3. Pursuit speeds are beyond the capabilities of the pursuit vehicle thus making its operation unsafe.

314.3 PURSUIT UNITS

Pursuit units should be limited to three vehicles. However, the number of units involved shall vary with the circumstances. A deputy or supervisor may request additional units to join a pursuit if, after assessing the factors outlined above, it appears that the number of deputies involved would be insufficient to safely arrest the suspects.

All other deputies should stay out of the pursuit, but should remain alert to its progress and location. Any deputy who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.

314.3.1 MOTORCYCLE OFFICERS

Motorcycle Officers are generally prohibited from initiating or joining in any pursuit. If a Motorcycle Officer does initiate a pursuit or becomes a secondary unit, a distinctively marked patrol vehicle

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

equipped with emergency overhead lighting shall replace a sheriff's motorcycle as primary and/or secondary pursuit unit as soon as practical.

314.3.2 VEHICLES WITH EMERGENCY EQUIPMENT AND NO DISTINCTIVE PATROL MARKINGS

Vehicles equipped with a red light and siren, but do not have the overhead lights and Sheriff markings on the side doors or trunk of the vehicle (i.e. SET unit, DET unit, Investigator unit) are permitted to initiate a pursuit and/or take the role as the secondary unit.

Once a distinctively marked patrol vehicle equipped with emergency overhead lights joins the pursuit, unless practical circumstances indicate otherwise, unmarked units should relinquish their role as primary or secondary units respectively to those marked patrol vehicles.

314.3.3 VEHICLES WITHOUT EMERGENCY EQUIPMENT

Vehicles not equipped with red light and siren are generally prohibited from initiating or joining in any pursuit. Deputies in such vehicles may become involved in emergency activities involving life threatening situations. Those deputies should terminate their involvement in any pursuit immediately upon arrival of a sufficient number of emergency police vehicles or any police helicopter. The exemptions provided by Vehicle Code 21055 do not apply to deputies using vehicles without emergency equipment.

314.3.4 PRIMARY UNIT RESPONSIBILITIES

The initial pursuing unit shall be designated as the primary pursuit unit and shall be responsible for the conduct of the pursuit unless it is unable to remain reasonably close enough to the violator's vehicle. The primary responsibility of the deputy initiating the pursuit is the apprehension of the suspects without unreasonable danger to him/herself or other persons.

Notify Emergency Communications Bureau that a vehicle pursuit has been initiated and as soon as practicable. Provide information including but not limited to:

1. Reason for the pursuit.
2. Location and direction of travel.
3. Speed of the fleeing vehicle.
4. Description of the fleeing vehicle and license number, if known.
5. Number of known occupants.
6. The identity or description of the known occupants.
7. Information concerning the use of firearms, threat of force, injuries, hostages, or other unusual hazards.

Unless relieved by a supervisor or secondary unit, the deputy in the primary unit shall be responsible for the broadcasting of the progress of the pursuit. Unless practical circumstances indicate otherwise, and in order to concentrate on pursuit driving, the primary deputy should relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit or aircraft joining the pursuit.

Orange County SD Policy Manual

Vehicle Pursuits

314.3.5 SECONDARY UNITS RESPONSIBILITIES

The second deputy in the pursuit is responsible for the following:

1. The deputy in the secondary unit should immediately notify the dispatcher of entry into the pursuit.
2. Remain a safe distance behind the primary unit unless directed to assume the role of primary deputy, or if the primary unit is unable to continue the pursuit.
3. The secondary deputy should be responsible for broadcasting the progress of the pursuit unless the situation indicates otherwise.

314.3.6 PURSUIT DRIVING TACTICS

The decision to use specific driving tactics requires the same assessment of considerations outlined in the factors to be considered concerning pursuit initiation and termination. The following are tactics for units involved in the pursuit:

1. Deputies, considering their driving skills and vehicle performance capabilities, shall space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle.
2. Because intersections can present increased risks, the following tactics should be considered:
 - (a) Available units not directly involved in the pursuit may proceed safely to controlled intersections ahead of the anticipated pursuit in an effort to warn cross traffic.
 - (b) Pursuing units should exercise due caution when proceeding through controlled intersections. Deputy(s) shall scan intersections for danger areas as they approach and utilize the roadway position, which allows the best visibility. It is important to look in all directions (left, front, right, left) while clearing the intersection lane by lane and to slow down or stop for safety.
 - (c) Any unit, to include those with or without distinctive patrol markings and motors, equipped with an electronic device that controls or manipulates traffic signals (such as systems like Opticom), should not join nor remain in a pursuit for the primary reason of having utilizing the device.
3. As a general rule, deputies should not pursue a vehicle driving left of center (wrong way) on a freeway. In the event that the pursued vehicle does so, the following tactics should be considered:
 - (a) Requesting assistance from an air unit.
 - (b) Maintaining visual contact with the pursued vehicle by paralleling it on the correct side of the roadway.
 - (c) Requesting other units to observe exits available to the suspects.
4. Notifying the California Highway Patrol (CHP) and/or other jurisdictional agency if it appears that the pursuit may enter their jurisdiction.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

5. Deputies involved in a pursuit should not attempt to pass other units unless the situation indicates otherwise or they are requested to do so by the primary unit or supervisor.

314.3.7 TACTICS/PROCEDURES FOR UNITS NOT INVOLVED IN THE PURSUIT

1. Deputies should remain in their assigned area and should not become involved with the pursuit unless directed otherwise by a supervisor.
2. Units are not authorized to parallel the pursuit route. Deputies are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public.

Deputies are encouraged to take up strategic positions within their patrol area along or near the anticipated route of the pursuit to assist if the pursuit should terminate nearby. These are "Code Delta" positions.

1. Deputies shall not give their Code Delta locations on the radio.
2. Deputies shall maintain area integrity, which is the strict adherence to assigned patrol areas, by establishing a Code Delta location only within their assigned patrol area.
3. Deputies shall obey all traffic laws while proceeding to a Code Delta location.

Non-pursuing personnel needed at the termination of the pursuit should respond in a non-emergency manner, observing the rules of the road.

The primary and secondary units should be the only units operating under emergency conditions (red light and siren) unless other units are assigned to the pursuit.

314.3.8 PURSUIT TRAILING

In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of a supervisor, trail the pursuit to the termination point in order to provide necessary information and assistance for the arrest of the suspects.

The term trail means to follow the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing unit shall maintain sufficient distance from the pursuit units so as to clearly indicate an absence of participation in the pursuit.

314.3.9 AIRCRAFT ASSISTANCE

When available, aircraft assistance should be requested. Once the air unit has established visual contact with the pursued vehicle, it should assume control over the pursuit. The primary and secondary ground units should consider the participation of aircraft assistance when determining whether to continue the pursuit.

The air unit should coordinate the activities of resources on the ground, report progress of the pursuit, and provide deputies and supervisors with details of upcoming traffic congestion, road hazards, or other pertinent information to evaluate whether or not to continue the pursuit. If ground

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

units are not within visual contact and the air unit determines that it is unsafe to continue the pursuit, the air unit has the authority to terminate the pursuit.

314.4 SUPERVISORY CONTROL AND RESPONSIBILITY

It is the policy of this Department that available supervisory and management control shall be exercised over all vehicle pursuits involving deputies from this Department.

The field supervisor of the deputy initiating the pursuit, or if unavailable, the nearest field supervisor shall be responsible for the following:

1. Upon becoming aware of a pursuit, immediately ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within established Department guidelines.
2. Exercising management and control of the pursuit.
3. Refraining from being an active participant in the pursuit unless the Field Supervisor determines his/her participation is necessary under the circumstances. If the Field Supervisor is an active participant in the pursuit, the Field Supervisor shall discontinue as the primary or secondary unit as soon as practical.
4. Ensuring that no more than the number of required police units needed are involved in the pursuit under the guidelines set forth in this policy.
5. Directing that the pursuit be terminated if, in his/her judgment, it is unjustified to continue the pursuit under the guidelines of this policy.
6. Ensuring that aircraft are requested if available.
7. Ensuring that the proper radio channel is being used.
8. Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this agency.
9. Controlling and managing Sheriff's Department units when a pursuit enters another jurisdiction.
10. Preparing post-pursuit critique and analysis of the pursuit for training purposes.

314.4.1 DEPARTMENT COMMANDER (ECB) RESPONSIBILITY

Upon becoming aware that a pursuit has been initiated, the Department Commander shall monitor and continually assess the situation to ensure the pursuit is conducted within the guidelines and requirements of this policy. The Department Commander has the final responsibility for the coordination, control, and termination of a vehicle pursuit and shall be in overall command.

The Department Commander shall review all pertinent reports for content and forward to the appropriate Commander.

314.5 COMMUNICATIONS

If the pursuit is confined within the County limits, radio communications shall be conducted on the primary channel unless instructed otherwise by a supervisor or communications dispatcher. If

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

the pursuit leaves the jurisdiction of this Department or such is imminent, involved units should, whenever available, switch radio communications to an emergency channel most accessible by participating agencies and units.

314.5.1 COMMUNICATION CENTER (ECB) RESPONSIBILITIES

Upon notification that a pursuit has been initiated, Emergency Communications Bureau shall:

1. Coordinate pursuit communications of the involved units and personnel.
2. Notify and coordinate with other involved or affected agencies as practicable.
3. Ensure that a field supervisor is notified of the pursuit.
4. Assign an incident number and log all pursuit activities.
5. Broadcast pursuit updates as well as other pertinent information as necessary.
6. Notify the Department Commander as soon as practicable.

314.5.2 LOSS OF PURSUED VEHICLE

When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit shall be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

314.6 INTER-JURISDICTIONAL CONSIDERATIONS

When a pursuit enters another agency's jurisdiction, the primary deputy or supervisor, taking into consideration distance traveled, unfamiliarity with the area, and other pertinent facts, should determine whether to request the other agency to assume the pursuit. Unless entry into another jurisdiction is expected to be brief, it is generally recommended that the primary deputy, supervisor, or Department Commander ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether such jurisdiction is expected to assist.

314.6.1 ASSUMPTION OF PURSUIT BY ANOTHER AGENCY

Units originally involved shall discontinue the pursuit when advised that another agency has assumed the pursuit and assistance of the Orange County Sheriff-Coroner Department is no longer needed. Upon discontinuing the pursuit, the primary unit may proceed upon request, with or at the direction of a supervisor, to the termination point to assist in the investigation.

The role and responsibilities of deputies at the termination of a pursuit initiated by this Department shall be coordinated with appropriate consideration of the units from the agency assuming the pursuit.

Notification of a pursuit in progress should not be construed as a request to join the pursuit. Requests to or from another agency to assume a pursuit should be specific. Because of communication limitations between local agencies and CHP units, a request for CHP assistance shall mean that they will assume responsibilities for the pursuit. For the same reasons, when a

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

pursuit leaves the freeway and a request for assistance is made to this Department, the CHP should relinquish control.

314.6.2 PURSUITS EXTENDING INTO THIS JURISDICTION

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Units from this Department should not join a pursuit unless specifically requested to do so by the agency whose officers are in pursuit. The exception to this is when a single unit from the initiating agency is in pursuit. Under this circumstance, a unit from this Department may join the pursuit until sufficient units from the initiating agency join the pursuit.

When a request is made for this Department to assist or take over a pursuit from another agency that has entered this jurisdiction, the supervisor should consider these additional following factors:

1. Ability to maintain the pursuit
2. Circumstances serious enough to continue the pursuit
3. Adequate staffing to continue the pursuit
4. The public's safety within this jurisdiction
5. Safety of the pursuing deputies

As soon as practicable, a supervisor or the Department Commander should review a request for assistance from another agency. The Department Commander or supervisor, after consideration of the above factors, may decline to assist in, or assume the other agency's pursuit.

Assistance to a pursuing allied agency by deputies of this Department shall terminate at the County limits provided that the pursuing officers have sufficient assistance from other sources. Ongoing participation from this Department may continue only until sufficient assistance is present.

In the event that a pursuit from another agency terminates within this jurisdiction, deputies shall provide appropriate assistance to officers from the allied agency including, but not limited to, scene control, coordination and completion of supplemental reports, and any other assistance requested or needed.

314.7 PURSUIT INTERVENTION

Pursuit intervention is an attempt to terminate the ability of a suspect to continue to flee in a motor vehicle through tactical application of technology, blocking, boxing, PIT (Pursuit Intervention Technique), or other procedures.

314.7.1 WHEN USE IS AUTHORIZED

Use of pursuit intervention tactics shall be employed only after approval of a supervisor or Department Commander. In deciding whether to use intervention tactics, deputies/supervisors should balance the risks of allowing the pursuit to continue with the potential hazards arising from the use of each tactic to the public, the deputies and persons in or on the pursued vehicle. With these risks in mind, the decision to use any intervention tactic should be reasonable in light of the circumstances confronting the deputy at the time of the decision.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

It is imperative that deputies act within the bounds of legality, good judgment, and accepted practices.

314.7.2 DEFINITIONS

Blocking or vehicle intercept: A slow-speed coordinated maneuver where two or more patrol vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop, with the goal of containment and preventing a pursuit. Blocking is not a moving or stationary road block.

Boxing-in: A tactic designed to stop a violator's vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

Pursuit Intervention Technique (PIT): A low-speed maneuver designed to cause the suspect vehicle to spin out and terminate the pursuit.

Ramming: The deliberate act of impacting a violator's vehicle with another vehicle to functionally damage or otherwise force the violator's vehicle to stop.

Roadblocks: A tactic designed to stop a violator's vehicle by intentionally placing an emergency vehicle or other immovable object in the path of the violator's vehicle.

314.7.3 USE OF FIREARMS

A deputy shall only discharge a weapon at a motor vehicle or its occupants under the following conditions:

1. The vehicle or suspect poses an imminent threat of death or serious bodily injury to the deputy or another person, AND
2. The deputy has no reasonable course of action to prevent the death or serious bodily injury.

For further information regarding shooting at moving vehicles, see Policy 300.4.1.

314.7.4 INTERVENTION STANDARDS

Any pursuit intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the deputies, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of deadly force and subject to the requirements for such use. Deputies shall consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

Pursuit intervention tactics such as: Blocking, Boxing-in, Ramming, and Roadblocks are generally not effective. These tactics shall not be deployed without Supervisor or Department Commander authorization, and then only in accordance with this policy.

1. Blocking or vehicle intercept shall only be considered in cases involving felony suspects or impaired drivers who pose a threat to public safety when deputies reasonably believe that attempting a conventional enforcement stop will likely result in the driver attempting to flee in the vehicle. Because of the potential risks involved, this

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

technique should only be employed by deputies who have received training in such tactics after giving consideration to the following:

- (a) The need to immediately stop the suspect vehicle or prevent it from leaving substantially outweighs the risks of injury or death to occupants of the suspect vehicle, deputies, or other members of the public.
 - (b) All other reasonable intervention techniques have failed or reasonably appear ineffective.
 - (c) Employing the blocking maneuver does not unreasonably increase the risk to officer safety.
 - (d) The target vehicle is stopped or traveling at a low speed.
 - (e) At no time should civilian vehicles be used to deploy this technique.
2. Ramming a fleeing vehicle shall be done only after other reasonable tactical means at the deputy's disposal have been exhausted. This tactic should be reserved for situations where there does not appear to be another reasonable alternative method. This policy is an administrative guide to direct deputies in their decision-making process before ramming another vehicle. When ramming is used as a means to stop a fleeing vehicle, one or more of the following factors should be present:
- (a) The suspect is an actual or suspected felon who reasonably appears to represent a serious threat to the public if not apprehended.
 - (b) The suspect is driving with willful or wanton disregard for the safety of other persons or is driving in a reckless and life-endangering manner.
 - (c) If there does not reasonably appear to be a present or immediately foreseeable serious threat to the public, the use of ramming is not authorized.
3. As with all intervention techniques, pursuing deputies shall obtain supervisor approval before attempting to box a suspect vehicle during a pursuit. The use of such a technique must be carefully coordinated with all involved units, taking into consideration the circumstances and conditions presented at the time as well as the potential risk of injury to deputies, the public, and occupants of the pursued vehicle.
4. Because roadblocks involve a potential for serious injury or death to occupants of the pursued vehicle if the suspect does not stop, the intentional placement of roadblocks in the direct path of a pursued vehicle is generally discouraged and shall not be deployed without prior approval of a supervisor and only then under extraordinary conditions when all other reasonable intervention techniques have failed or reasonably appear ineffective and the need to immediately stop the pursued vehicle substantially outweighs the risks of injury or death to occupants of the pursued vehicle, deputies, or other members of the public.
5. Pursuit Intervention Technique (PIT)
- (a) Only deputies trained and certified in the use of the PIT maneuver are authorized to use the technique. Training and certification are conducted and issued only by the Emergency Vehicle Operations Center (EVO) under the auspices of San Bernardino County Sheriff's Department. This is the only training and

certification that will be recognized by the Patrol Operations Command at this time. Properly trained deputies shall assure that his or her PIT maneuver certificate is placed in their respective personnel file, and shall forward a copy of the certificate to Advanced Officer Training (AOT) at the Sandra Hutchens Regional Law Enforcement Training Center.

- (b) The PIT maneuver is authorized when the deputy believes the continued pursuit would place the public in imminent danger or harm, and the danger of continuing the pursuit and the danger to the public outweigh the risk of using the PIT maneuver.
 - (c) The PIT maneuver is authorized only after other reasonable means of apprehension have been considered and exhausted or eliminated.
 - (d) A deputy must request permission from the Department Commander or Field Supervisor before executing a PIT maneuver.
 - (e) A deputy should consider and evaluate the following factors prior to using the PIT maneuver:
 - 1. Weather conditions.
 - 2. The volume of vehicular and pedestrian traffic.
 - 3. The location where the PIT maneuver is to be attempted.
 - 4. Road conditions, such as line of sight, hills, curves, road surfaces, obstructions, and parked vehicles.
 - 5. The time of day and lighting conditions.
6. Unauthorized Use of the PIT Maneuver:
- (a) The PIT maneuver is not authorized at speeds in excess of 35 mph.
 - (b) The PIT maneuver is not authorized when the pursued vehicle is a pickup truck or similar type of vehicle with subjects occupying the open bed portion of the vehicle.
 - (c) The PIT maneuver is not authorized on motorcycles.
 - (d) The deputy is not trained and certified in the use of the PIT maneuver by the designated EVOC training center.
7. The PIT Maneuver is a reportable use of force that requires documentation per Policy 300.6 of the Use of Force policy.

314.7.5 CAPTURE OF SUSPECTS

Proper self-discipline and sound professional judgment are the keys to a successful conclusion of a pursuit and apprehension of evading suspects. Deputies shall use only that amount of force, which reasonably appears necessary under the circumstances, to properly perform their lawful duties. The use of force policy shall apply under these circumstances.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Vehicle Pursuits

Unless relieved by a supervisor, the primary deputy should coordinate efforts to apprehend the suspects following the pursuit. Deputies should consider safety of the public and the involved deputies when formulating plans to contain and capture the suspects.

314.8 REPORTING REQUIREMENTS

The following reports should be completed upon conclusion of all pursuits:

1. The primary deputy should complete appropriate crime/arrest reports.
2. The Department Commander shall ensure that an Allied Agency Vehicle Pursuit Report (form CHP 187A) is filed with the CHP not later than 30 days following the pursuit Vehicle Code § 14602.1.
3. The Field Supervisor shall complete a Pursuit Report form (CHP 187A) as mandated by Vehicle Code §14602.1. The CHP 187A shall be submitted with the pursuit evaluation (copies to Training Division Commander) to the Department Commander.
4. The field supervisor shall complete a Pursuit Evaluation report, which shall contain the following information:
 - (a) Date and time of pursuit
 - (b) Starting and termination points
 - (c) Length of pursuit
 - (d) Radio frequency
 - (e) Initial reason for pursuit
 - (f) Suspect information and suspect vehicle
 - (g) Passenger information
 - (h) Primary deputy
 - (i) Involved deputies
 - (j) How terminated
 - (k) Disposition (arrest, citation), including arrestee information if applicable
 - (l) Injuries and/or property damage
 - (m) Medical treatment
 - (n) Name of supervisor at scene
 - (o) A preliminary determination whether the pursuit appears to be in compliance with this policy and whether additional review or follow-up is warranted
5. If the Field Supervisor was a participant in the pursuit, the Department Commander shall identify a non-involved Field Supervisor to respond to complete and submit the aforementioned reports.
6. All reviews and analyses of pursuits shall be reviewed for subject matter of benefit in training personnel for future operations. Post-pursuit analysis shall be conducted by the following:

Vehicle Pursuits

- (a) Immediate Supervisor
- (b) Department Commander (ECB)
- (c) Commander
- (d) Administration
- (e) Traffic Review Board (if pursuit resulted in a collision)
- (f) Training Command Note: Feedback/follow-up shall be provided pursuant to the Administrative Review.

314.8.1 REGULAR AND PERIODIC PURSUIT TRAINING

In addition to initial and supplementary Police Officer Standard Training (POST) training on pursuits required by Penal Code § 13519.8, all sworn Members of this Department shall participate no less than annually in regular and periodic Department training addressing this policy and the importance of vehicle safety and protecting the public at all times, including a recognition of the need to balance the known offense and the need for immediate capture against the risks to deputies and others (Vehicle Code § 17004.7(d)).

314.8.2 POLICY REVIEW

Each sworn Member of this Department shall certify in writing that they have received, read, and understand this policy initially and upon any amendments.

314.9 APPLICATION OF VEHICLE PURSUIT POLICY

This policy is expressly written and adopted pursuant to the provisions of Vehicle Code § 17004.7, with additional input from the POST Vehicle Pursuit Guidelines.

Animal Problems

315.1 PURPOSE AND SCOPE

Animal problems will usually be handled by Animal Control; however, deputies should make every effort to assist citizens in resolving animal related problems whenever possible.

315.1.1 BARKING DOGS

Advise the citizen to phone their local Animal Control office.

315.1.2 MOUNTAIN LION SIGHTINGS

Advise dispatch to notify Fish and Game. Consider patrol checking for the animal if the sighting was in a populated area, especially near a school.

315.1.3 INJURED ANIMAL

For specific direction regarding "Injured Animal", refer to policy 300.4 Use of Force Policy.

315.1.4 STOPPING A DANGEROUS ANIMAL

For specific direction regarding "Stopping a Dangerous Animal", refer to policy 300.4 Use of Force Policy.

315.1.5 STRAY ANIMALS

1. Animal Control will respond for dogs if loose or contained.
2. Cats or wild animals must be contained in most cases before animal control will respond.

315.1.6 DEAD ANIMALS

1. Advise dispatch to notify Animal Control.
2. Dead animals causing traffic or other hazard should be moved to a location that will eliminate the hazard until animal control can arrive.

315.1.7 ANIMAL BITES

1. Advise dispatch to notify Animal Control on all animal bites.
2. If a bite occurs in an unincorporated area, advise the victim to call the Animal Control Rabies Desk,. If a bite occurs in a contract city, advise the victim to call Animal Control for that particular city. ECB has a listing of those numbers.

315.1.8 ANIMALS VS. VEHICLE COLLISIONS

1. In an unincorporated area, advise the driver to notify the CHP if a report is requested or required by law.
2. In a contract city, take a traffic collision report if the accident meets the minimum reporting level in the Division where the accident occurred.

Animal Problems

315.2 ANIMALS TAKEN FROM AN ANIMAL CONTROL OFFICER OR ANIMAL SHELTER

1. CPC 102 is the most appropriate code section in most cases: "Every person who willfully injures or destroys, or takes or attempts to take, or assists any person in taking or attempting to take, from the custody of any officer or person, any personal property which such officer or person has in charge under any process of law, is guilty of a misdemeanor."
 - (a) In addition to the usual information gathered for a crime report, include:
 1. The date and time that the animal was impounded.
 2. The name of the officer who did the impound.
 3. Reason for impounding the animal and the appropriate penal code, municipal code, or county ordinance authorizing the impound.
 4. Location from which the animal was impounded.
 5. Fees due for the animal.
 6. Witness statements.
 7. Any identifying marks or characteristics of the animal.
 8. Estimated value of the animal.
 - (b) A supplemental DR "A" for any local ordinance that prohibits removing an animal from the custody of an animal shelter without permission should be submitted with all CPC 102 reports.
2. Other Code sections apply when the suspect does not own the animal.
 - (a) CPC 459 Burglary, 488 Petty Theft, 487 Grand Theft, 487e Grand Theft Dog, or 487f Petty Theft Dog.
 - (b) Corpus elements do not apply under these sections when a person takes his own property.

Response to Calls

316.1 PURPOSE AND SCOPE

This policy provides for the safe and appropriate response to emergency and non-emergency situations whether dispatched by the Emergency Communications Bureau (ECB) or self-initiated in the field.

316.2 RESPONSE TO CALLS

Deputies dispatched "Code-3" shall consider the call an emergency response and proceed immediately. Deputies responding Code-3 shall continuously operate emergency lighting equipment, including at minimum a steady forward facing red light, and shall sound the siren as reasonably necessary pursuant to Vehicle Code § 21055.

Responding with emergency light(s) and siren does not relieve the deputy of the duty to continue to drive with due regard for the safety of all persons. The use of any other warning equipment without a red light and siren does not provide any exemption from the Vehicle Code.

Deputies shall respond Code-3 when dispatched or when it is determined circumstances reasonably indicate an emergency response is required. All other deputies who have not been dispatched Code-3 or who have not announced they are responding Code-3 shall observe all traffic laws and proceed without the use of emergency lights and siren.

316.2.1 PRIORITY RESPONSE

ECB Personnel assign a response priority to all calls based on the nature of the call. All calls for service shall be assigned a priority on a scale of 1-4. ECB Personnel should consider the totality of the situation in assigning the priority response. Definitions of priority responses are listed below:

1. Priority 1
 - (a) The deputy shall respond Code-3 and proceed immediately, unless the circumstances warrant a different response in the Deputy's judgment or the Deputy is directed otherwise by the Field Supervisor or Department Commander. Priority 1 includes criminal or non-criminal situations where available information reasonably indicates that the public is threatened with serious injury or death and immediate police response is needed. Examples include robberies or residential burglaries in progress, injury traffic accidents, 960X, and 997 calls.
2. Priority 2
 - (a) The deputy responds immediately. Priority 2 includes serious crimes that just occurred where no one is in immediate danger or the suspect(s) have left; any incident likely to escalate to a crime against a person; or any incident where a delay in response would likely impede further investigation or cause anyone to be in jeopardy. Examples include robberies or burglaries that just occurred, bomb threats, alarm calls, major disturbances, prowler, deceased persons, suspected hazardous material, or suspected bombs.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Response to Calls

3. Priority 3
 - (a) The deputy responds immediately. Priority 3 includes most report calls, crimes where the suspects have left or late reported crimes; child or property pickup; non-injury traffic accidents; suspicious persons; or a "drunk" in the area.
4. Priority 4
 - (a) The deputy responds as soon as reasonably practical. Priority 4 includes non-emergency incidents where the informant wants no contact, such as parking problems or abandoned vehicles where there is no immediate danger.

316.3 REQUESTING EMERGENCY ASSISTANCE

Requests for emergency assistance should be limited to those situations where the involved personnel reasonably believe that there is an immediate threat to the safety of deputies, or assistance is needed to prevent immediate serious harm to a citizen. In any event, where a situation has stabilized and emergency response is not required, the requesting deputy shall immediately notify ECB.

As circumstances permit, the requesting deputy should give the following information:

1. The unit number
2. The location
3. The reason for the request and type of emergency
4. The number of units required

316.3.1 NUMBER OF UNITS ASSIGNED

Under normal circumstances, only one unit should respond to an emergency call Code-3. Other area unit(s) may respond Code-3 if they reasonably believe the incident warrants an emergency response. The Field Supervisor or Department Commander shall make the final determination in reference to the Code-3 response of all additional units.

316.4 INITIATING CODE 3 RESPONSE

Any Deputy who believes a Code-3 response to any call is appropriate, shall notify ECB as soon as reasonably possible and provide the location from which he/she is responding from. Notification can be made by radio or MDC.

316.5 RESPONSIBILITIES OF RESPONDING DEPUTY(S)

Deputies shall exercise sound judgment and care with due regard for life and property when responding to an emergency call. Deputies shall reduce speed at all street intersections to such a degree that they shall have complete control of the vehicle.

Deputy(s) shall scan intersections for danger areas as they approach and utilize the roadway position, which allows the best visibility. It is important to look in all directions (left, front, right, & left) while clearing the intersection lane by lane and to slow down or stop for safety.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Response to Calls

The decision to continue a Code-3 response is at the discretion of the deputy. If, in the deputy's judgment, circumstances, including but not limited to, the roadway conditions or traffic congestion do not permit such a response without unreasonable risk, the deputy may elect to respond to the call without the use of red lights and siren **at the legal speed limit**. In such an event, the deputy should immediately notify ECB. A deputy shall also discontinue the Code-3 response when directed by a Field Supervisor or Department Commander.

316.6 COMMUNICATIONS RESPONSIBILITIES

ECB personnel shall assign a Code-3 response when a deputy requests emergency assistance or available information reasonably indicates that the public is threatened with serious injury or death and immediate police response is needed. In all other circumstances, the call taker/dispatcher shall obtain authorization from the Field Supervisor or Department Commander prior to assigning units Code-3. The dispatcher shall:

1. Attempt to assign the closest available unit to the location requiring assistance.
2. As soon as practical, notify the Field Supervisor or Department Commander
3. Confirm the location from which the unit is responding.
4. Notify and coordinate allied emergency services (e.g., fire and ambulance).
5. Continue to obtain and broadcast information as necessary concerning the response and monitor the situation until it is stabilized or terminated.
6. Control all radio communications during the emergency and coordinate assistance under the direction of the Field Supervisor or Department Commander.

316.7 SUPERVISORY RESPONSIBILITIES

Upon being notified that a Code-3 response has been initiated, the Field Supervisor or Department Commander shall verify the following:

1. The proper response has been initiated.
2. No more than those units reasonably necessary under the circumstances are involved in the response.
3. Affected outside jurisdictions are being notified as practical.

The Field Supervisor shall monitor the response until it has been stabilized or terminated. The Field Supervisor shall maintain and assert control over the response by directing units to and from the incident. If, in the Field Supervisor's judgment, the circumstances require additional units to be assigned a Code-3 response, the Field Supervisor may do so.

It is the Field Supervisor's responsibility to terminate a Code-3 response that, in his/her judgment is inappropriate due to the circumstances.

When making the decision to authorize a Code-3 response, the Field Supervisor or Department Commander should consider the following:

1. The type of call

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Response to Calls

2. The necessity of a timely response
3. Traffic and roadway conditions
4. The location of the responding units

316.8 FAILURE OF EMERGENCY EQUIPMENT

If the emergency equipment on the vehicle should fail to operate, the deputy must terminate the Code-3 response and respond accordingly. In all cases, the deputy shall notify the Field Supervisor Department Commander or ECB of the equipment failure so that another unit may be assigned to the emergency response.

316.9 "HI-LOW" SIREN CONFIGURATION

The Hi-Low audible warning sound may be used to alert specific communities of an immediate need to evacuate. The Hi-Low warning sound is intended to provide the public with audible notice that the area they occupy is in imminent threat or danger, and there exists an urgent need for them to evacuate immediately.

Use of the Hi-Low sound will include activation of emergency lights, and all traffic laws must be obeyed during operation of the Hi-Low siren configuration.

The Hi-Low audible warning sound shall not be used while responding Code-3. If Code-3 response is necessary, Wail-Yelp is the approved Code 3 siren configuration. Indiscriminate use of the "Hi-Low" siren configuration is prohibited and may diminish the public's awareness and compliance with the uniquely identifiable sound and purpose.

Victim Confidentiality

317.1 PURPOSE AND SCOPE

By law, law enforcement is required to hold information about the victims of many crimes in strict confidence. The purpose of the Victim Confidentiality Policy is to provide a single, comprehensive point of reference for Department Members regarding such crimes and requirements.

317.1.1 CONFIDENTIALITY FOR ADULT AND MINOR VICTIMS

Deputies investigating or receiving a report of an alleged offense requiring victim confidentiality shall inform the victim that his/her name will become a matter of public record, unless the victim requests that their name not be made public.

Whether or not the victim requests confidentiality, the deputy shall complete and submit a Victim Confidentiality Report Form (Inv 43). This form must be attached to all criminal reports relating to victims, or alleged victims, of sex crimes, child abuse, felony domestic violence, civil rights violations, stalking, or other crimes addressed in PC 293 or Section 6254 of the Government Code.

The reporting deputy shall document in his/her report (1) that the victim was properly informed, and (2) any related response made by the victim. If the victim is a minor and has NOT requested confidentiality, any response made by the victim's parent or guardian (Penal Code 293 § (a) and (b)) shall also be included.

Minor victims who request 293 confidentiality have the same protections as an adult. If the minor requests 293 confidentiality, deputies shall not disclose to the victim's parents that the minor is a victim of a sexual assault unless the minor agrees to the disclosure.

Except as required or authorized by law, Members of this Department shall not publicly disclose the address of any victim of a sex crime. Except as required or authorized by law, Members of this Department shall not publicly disclose the name of any adult or minor victim of a sex crime who has exercised his/her right to confidentiality (Penal Code § 293 (c) and (d)).

317.1.2 CRIMES REQUIRING VICTIM CONFIDENTIALITY

As of the latest update of this policy, victim confidentiality is required for any crime defined by the following Penal Code Sections: 220, 261, 261.5, 262, 264, 264.1, 265, 266, 266a, 266b, 266c, 266e, 266f, 266j, 267, 269, 273a, 273d, 273.5, 285, 286, 288, 288a, 288.2, 288.3 (as added by Chapter 337 of the Statutes of 2006), 288.3 (as added by Section 6 of Proposition 83 of the November 7, 2006, statewide general election), 288.5, 288.7, 289, 422.6, 422.7, 422.75, 646.9, or 647.6.

Canine Program

318.2 GENERAL CANINE GUIDELINES

318.2.1 CANINES IN PUBLIC AREAS

All canines shall be under the direct control of their handlers in areas accessible to the public.

When the canine vehicle is left unattended all windows and doors shall be secured in such a manner as to prevent unauthorized access to the dog. The handler shall also ensure that the unattended unit remains inhabitable for the canine.

318.2.2 REQUEST FOR USE OF CANINE

Teams can be requested through the Sheriff's Emergency Communication Bureau (ECB) 24 hours a day. The opportunity for a safe and successful suspect search operation shall be enhanced with a timely request, response, and deployment of a canine team.

Members within the Department are encouraged to solicit the use of the various types of canines. Requests for canine teams from outside of the Patrol Operations Command shall go through the Department Commander.

318.2.3 REQUEST FOR CANINE ASSISTANCE FROM OTHER AGENCIES

The Department Commander or the unit supervisor should approve all requests for canine assistance from outside agencies. Requests for explosive detection canines that are TSA owned shall be coordinated through their respective canine unit supervisor. All other explosive detection canine requests shall be coordinated through the OCSD Special Operations Division Captain. All canine call-outs are subject to the following provisions:

1. Canine teams shall not be used to perform any assignment that is not consistent with this policy.
2. Upon arrival at the scene, the handler has the ultimate decision as to whether or not the canine is to be used for a specific assignment.
3. Canine teams shall not be called out while off-duty or used outside the boundaries of the County of Orange unless authorized by the Department Commander or the unit supervisor.
4. It shall be the responsibility of the canine handler to coordinate with outside agency personnel in order to minimize the risk of unintended injury.

318.2.4 REQUEST FOR PUBLIC DEMONSTRATIONS

All public demonstration requests for a canine team shall be approved by the respective canine unit supervisor prior to making any commitment.

Patrol canine handlers shall not demonstrate any apprehension work to the public unless authorized to do so by the unit supervisor and with a certified agitator who is on-duty at the time of the event.

318.3 REPORTING UNINTENTIONAL BITES AND INJURIES CAUSED BY CANINES

An unintentional bite is defined as: A bite which occurs when the canine was not directed by the handler to apprehend a suspect or the canine bites any person other than the suspect.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

Many factors can contribute to police canine's unintentional bites. These bites may be on citizens, deputies, trained canine agitators, or even canine handlers and may occur at any time. The following procedure shall be complied with during any incident, whether off-duty or on-duty, when a Department canine causes any injury to a person. Canine bites are considered when there is a break in the skin, however slight. In the event of an injury caused by a canine, the canine handler is responsible for the following:

1. Immediately provide necessary medical attention.
2. Notify the appropriate field supervisor and the Department Commander.
3. Notify the appropriate canine unit supervisor and the patrol canine unit supervisor.
4. Obtain a case number and complete the appropriate Department report.
5. Contact Sheriff's I.D. and request they respond to photograph significant injuries as soon as possible. Minor injuries may be photographed by a canine supervisor.

Every unintentional bite shall be reviewed by the patrol canine unit supervisor as well as the Special Operations Division Captain. Depending on the circumstances, unintentional bites may result in the temporary kenneling of the dog and/or additional training at the Sheriff's contracted trainer. Unintentional bites or injuries caused by canines in TSA assignments shall be investigated and reviewed by TSA in addition to the patrol canine unit supervisor.

Canine teams in TSA assignments shall notify the TSA Field Canine Coordinator (FCC) as soon as reasonable about the incident and the FCC shall be provided with all the information related to the incident.

1. The information shall be forwarded to the National Explosives Department Canine Training Program (NEDCTP) by the sergeant supervising the particular TSA canine unit. The NEDCTP Incident Adjudication Review Board shall review all incidents involving TSA canines. Through the NEDCTP Incident Adjudication Review Board findings, if a canine handler is found to be non-compliant in their duties, which results in any canine-induced injury to any party, the handler may be permanently removed from the program.
2. At the discretion of the NEDCTP Incident Adjudication Review Board, if it is determined the TSA Canine will be removed from the program, the NEDCTP shall ensure a new canine is assigned to the unit and shall be responsible for the cost of the new canine.

318.4 DAMAGE TO PROPERTY

In the event a Department canine damages private property, the canine handler shall notify the property owner or a responsible person and do the following:

1. Notify the appropriate field supervisor and the Department Commander.
2. Notify the canine supervisor.
3. Obtain a case number and complete the appropriate Department report.
4. Photograph minor damage and maintain photos in Sheriff's evidence.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

5. For significant damage, contact Sheriff's I.D., and request they respond to photograph damage as soon as possible.

318.5 USE OF PATROL CANINES

The prompt and proper utilization of a trained patrol canine team has proven to be a valuable resource in law enforcement. When properly used, a patrol canine team greatly increases the degree of safety to all persons (including suspects) within a contained search area, enhances officer safety, significantly increases the likelihood of suspect apprehension, and dramatically reduces the amount of time necessary to conduct a search.

1. A canine may be used to locate and apprehend a suspect if the canine handler reasonably believes that the individual has either committed or threatened to commit any serious offense and if the following conditions exist:
 - (a) There is a reasonable belief that the individual poses an imminent threat of violence or serious harm to the public, any deputy, or the handler.
 - (b) The individual is physically resisting or threatening to resist arrest and the use of a canine reasonably appears to be necessary to overcome such resistance.
 - (c) The individual(s) is/are believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of deputies or the public.
2. It is recognized that situations may arise that do not fall within the provisions set forth in this policy. In such case, a standard of objective reasonableness shall be used to review the decision to use a canine, taking into consideration the totality of the circumstances.
3. Absent a reasonable belief that an individual has committed or threatened to commit a serious offense, mere flight from pursuing deputy(s) shall not serve as good cause for the use of a canine to apprehend the individual.
4. Canine deployment and use of force policies of other departments can be quite different from that of the Orange County Sheriff's Department. As such, the use of patrol canines from other law enforcement agencies, in support of a Sheriff's Department operation, should be avoided, except in extreme emergencies which clearly dictate the immediate need for a canine search. When exceptional circumstances dictate the need to utilize a canine team from another agency, the following procedures shall be adhered to:
 - (a) The appropriate supervisor on-scene shall first contact the Department Commander and request that an OCSD patrol canine be called out from home, whenever time permits.
 - (b) The supervisor authorizing the deployment shall contact a patrol canine unit supervisor and provide the details of the incident as soon as practicable.
 - (c) When a canine team from another agency is requested and whenever possible prior to them being deployed, they shall be briefed on the details of the situation. In situations where an outside agency canine is used and a bite occurs, the Department Commander shall notify a patrol canine unit supervisor. Additionally,

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

the canine handler from the outside agency shall provide a detailed written report explaining the events.

318.5.1 PREPARATION FOR UTILIZING A PATROL CANINE

Prior to the use of a patrol canine to search for or apprehend any individual, the canine handler and/or the supervisor on scene shall carefully consider all pertinent information that is reasonably available at the time. The information should include, but is not limited to the following:

1. The individual's estimated age, physical description, and clothing description.
2. The nature of the suspected offense; what crime the suspect will be booked to once apprehended by the canine.
3. Any potential danger to the public and/or other deputies at the scene if the canine is released.
4. Criminal history and records check of the suspect if time allows and if available.
5. The degree of resistance or threatened resistance, if any, the subject has shown.
6. The potential for escape or flight if the canine is not utilized, including the presence of traditional and non-traditional weapons, risk of ambush to deputies, etc.
7. Contact should be made with the building owner to determine whether there may be tenants, residents, animals, etc. present. Also attempt to obtain a key and a building layout.
8. The potential for injury to deputies or the public caused by the suspect if the canine is not utilized.
9. If the suspect is believed to be armed, threatening resistance or violence, or in a barricaded position TSE/SWAT shall be consulted.

The canine handler should make every reasonable effort to communicate and coordinate with other involved personnel to minimize the risk of unintended injury.

318.5.2 SUPERVISOR ROLE

The on-scene supervisor should also take the following steps in preparation for the canine search:

1. Ensure there is a secure perimeter.
2. Evacuate all tenants, workers or others from the facility or search area.
3. Ensure no preliminary searches by patrol personnel are conducted within the canine search area.

318.5.3 DEPLOYMENT OF PATROL CANINES FOR SUSPECT SEARCHES

1. Deployment Procedure:
 - (a) The use of a canine provides deputies with a tactical advantage when searching for criminal suspects. This advantage is an invaluable tool in the successful detection of criminal suspects and protection of officers, all to the end of assuring the safety of the community. Therefore, a primary function of the deployment

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

of a canine is to locate suspects, although depending upon the circumstances, application of the canine for protection and safety purposes may be required.

- (b) A canine handler shall have the ultimate authority not to deploy the dog. The handler shall evaluate each situation and determine if the use of a canine is technically feasible. Generally, the decision whether to deploy the dog shall remain with the handler; however, a supervisor sufficiently apprised of the situation may decide not to deploy the dog.

2. Canine Warning Announcements:

- (a) Unless it would otherwise increase the risk of injury or escape, a clearly audible warning to announce that a canine will be released if the person does not come forth and surrender, shall be made prior to releasing a canine. In the event of an apprehension, the handler shall document in any related report whether or not a verbal warning was given and, if none was given, the reasons why.

1. Announcements shall be made in a loud and clear manner.
2. Deputies shall wait sufficient time to ensure that anyone within the search area has ample opportunity to comply with instructions.
3. Deputies should make additional canine announcements as they progress through a search, especially when entering new or separated areas where prior announcements may not have been heard.
4. Deputies on perimeter or containment positions shall advise via radio whether they are able to hear the canine warning announcements from their position.

3. Apprehensions/Canine Bites:

- (a) If a canine makes a physical apprehension, the dog must be recalled or otherwise restrained as soon as the suspect is in custody or no longer poses a reasonable threat. Once the individual has been located and no longer reasonably appears to represent a threat or risk of escape, the canine should be placed in a down-stay or otherwise secured as soon as it becomes reasonably practicable.
- (b) Once a suspect is located and/or the canine is recalled, it is the search team deputies' responsibility to take control of the suspect.
- (c) Should the suspect attempt to escape, the search team deputies should not give chase and follow the directions of the canine handler.

4. Canine Search Tactics:

- (a) Canine teams are not deployed as regular patrol units; however they can easily become involved in many different tactical/patrol situations. In a case where the canine handler is in imminent danger, the canine is trained to protect the canine handler and when necessary, should be used to do so.
- (b) Absent a Canine Unit supervisor, during a deployment, the canine handler has primary responsibility for directing the activities of the search team.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

- (c) Whenever possible, the deputies handling the original call or incident will assist the search team. This enhances immediate suspect identification, ensures continuity, and increases experience in canine searches over a broader range of patrol deputies. However, based upon the tactical considerations of the incident, search teams may be comprised of Patrol personnel, additional Canine personnel, and/or members of the Tactical Support Element (TSE) - Special Weapons and Tactics (SWAT) detail. A canine unit supervisor or the canine handler shall determine the composition of the search team(s) and direct their activities.
- (d) Suspect searches are generally considered pre-planned activities, and as such, all canine unit personnel shall wear appropriate protective body armor while searching.
- (e) Prior to initiating the search, the search team deputies shall be briefed by the canine unit supervisor or the handler on the general search pattern and tactical plan.
- (f) If there is any indication the suspect is armed and isolated or barricaded, tactical options for requesting TSE/SWAT should be considered.
- (g) If the canine gives a positive alert identifying a suspect's location, all members of the search team are to take positions of advantage. The handler shall call the canine back and gain physical control of the animal, if tactically sound and can be done safely. Whenever appropriate the handler shall consider ordering the suspect out from their place of concealment after the canine is recalled and under control. Tactical considerations may preclude recalling of the search dog until the search team members have taken positions of cover. The canine may be used as a tactical tool in appropriate circumstances. Appropriate arrest and control tactics shall then be utilized to apprehend the suspect as safely as possible.

318.6 REPORTING CANINE USE, BITES AND INJURIES TO SUSPECTS

Whenever the canine is deployed, an appropriate Departmental report (Initial Crime Report, Follow-up Report, etc.) and a Canine Use Report shall be completed by the handler and submitted as soon as practical.

1. Whenever the use of the canine results in a bite or any injury to a suspect, a Canine Use Report form, along with any related incident report (Initial Crime Report, Follow-up report, etc.) shall be completed. The patrol canine unit supervisor, or designee, shall be responsible for all Supervisory Use of Force reports that include patrol canine apprehensions.
2. The injured party should be transported to an appropriate medical facility if the injury requires medical attention beyond first aid. If the injured party is in-custody, a deputy shall remain with the suspect until treatment has been rendered.
3. Photographs shall be taken of the bite or injury as soon as practicable after tending to the immediate needs of the injured party. Photographs shall be retained as evidence in accordance with current Department evidence procedures. It shall be the responsibility

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

of the unit supervisor to ensure that such photographs are retained until the potential need for use in any related civil proceeding has expired. Contact Sheriff's I.D. and request they respond to photograph injuries as soon as possible.

- (a) Photographs of injuries to the suspect shall only be taken by the patrol canine supervisor, their designee, or Sheriff's ID. Field personnel shall not photograph or video record injuries to suspects.
4. If a subject alleges an injury that is not visible, the patrol canine supervisor shall be notified and the location of the alleged injury should be photographed as described above.
5. The patrol canine unit supervisor shall maintain liaison with the local animal control department to ensure that information regarding canine bites is not retained by its office. Canines used by law enforcement agencies are exempt from impoundments and reporting requirements to the local animal control department (Food and Agriculture Code § 31609(b)).

318.7 NON-APPREHENSION USE OF PATROL CANINES

Because canines have senses far superior to those of humans, they may often be effectively utilized to locate articles of evidence, track/search for non-criminals (e.g. lost children, individuals who may be disoriented or in need of medical attention), or even suspects wanted for minor criminal offenses. In such circumstances, it will be necessary for the handler to evaluate the conditions and ability of the canine to determine the feasibility of such an application.

1. Absent a change in circumstances that present an immediate threat to deputies, the canine, or the public, such applications should be conducted on leash or under such conditions that will minimize the likelihood that the canine will bite or otherwise injure the individual.
2. Throughout the deployment of the canine in such circumstances, the handler should consider issuing periodic verbal assurances that the canine will not bite or hurt the person.
3. Unless otherwise directed by a supervisor, assisting personnel should take direction from the handler in order to minimize interference with the canine.

318.8 USE OF NARCOTIC DETECTION CANINES

Narcotics detection canines may be assigned to patrol operations, custody operations, and investigations details. A narcotic-detection-trained canine may be used in accordance with current law under the following circumstances:

1. To assist in the sniff for controlled substances.
 - (a) To obtain a search warrant by using the detection canine in support of probable cause;
 - (a) See vehicle exception rules.
 - (b) To sniff vehicles, buildings, bags, open areas, vessels, aircraft, parcels, and any other articles deemed necessary.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

- (c) For cash seizures related to narcotics trafficking activities.
- (d) Narcotics detection canines assigned to custody operations may be trained to detect cell phones and electronic media.
- (e) A narcotic-detection canine shall not be used to sniff a person for narcotics.

When requesting a narcotics detection canine to assist with locating concealed narcotics, avoid conducting a preliminary search of the area as this may contaminate the area and make it more difficult for the canine.

318.9 EXPLOSIVE DETECTION CANINES (EDC)

Explosive detection canines may be assigned to the Orange County Transit Authority (OCTA), John Wayne Airport (JWA), and the Hazardous Device Section (HDS). An explosive detection canine may be used in accordance with current law and in compliance with the Other Transaction Agreement (OTA) between OCTA, JWA, the Transportation Security Administration (TSA), and OCSD when assigned to a TSA supported assignment.

318.9.1 USE OF EXPLOSIVE DETECTION CANINES (HDS, OCTA, JWA)

1. The following are examples of locations where EDC Teams will deploy on a daily basis when conducting proactive public visibility sweeps:
 - (a) Sweep of a mode of mass transportation
 - (b) Sweep of a mass transportation facility
 - (c) Security sweeps of public and private events
 - (d) Other reasons the EDC teams may be deployed to support as requested include:
 1. Hazardous threat
 2. Unattended bag/item
 3. VIP/Dignitary Sweep
 4. Other special events (i.e. a major league sporting event, etc.)
2. EDC Teams shall not be used to search an item that has been deemed suspicious based upon the following:
 - (a) Canine handler's assessment of the totality of the circumstances and the presence or appearance of a specific item; or information from any relevant source.
 - (b) EDC Teams shall not be utilized to confirm the presence of explosive odors once another detection system has indicated the possible presence of explosive or other hazardous material.
 - (c) EDC Teams shall not be utilized to search liquids, loose powders, or known/unknown hazardous material items.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

- (d) EDC Teams shall not be utilized to search in dangerous/unsafe locations where EDC injury is likely (e.g. in and around energized machinery or hazardous material, condemned areas, etc.).
- (e) Once an EDC Team has provided a final response, the OCSD Hazardous Device Section shall be notified and an emergency plan shall be initiated.
- (f) It is recognized that situations may arise that do not fall within the provisions set forth in this policy. In any such case, a standard of objective reasonableness shall be used to review the decision to use an EDC in view of the totality of the circumstances.
- (g) An EDC is not permitted to be utilized in an odor detection role or a visible deterrent role by anyone other than the EDC's assigned handler.

318.9.2 EXPLOSIVE DETECTION ALERT PROCEDURES FOR HANDLERS IN TSA ASSIGNMENTS

In the event of a final response by a canine and it is safe to do so, the handler will follow the TSA emergency plan. This plan describes the roles and responsibilities of the canine handler and others at an incident.

Once the incident is over, the handler shall take a sample with the NEDCTP swab kit in accordance with the sampling procedures. The handler shall then submit the completed Canine Final Response Form with the swab to TSA.

318.9.3 WARNINGS GIVEN TO ANNOUNCE THE USE OF A EDC

Prior to entering an area that is intended for the sole use by the opposite sex of the handler, an announcement that an OCSD canine and handler will be entering the area shall be made.

318.10 USE OF SEARCH AND RESCUE CANINES

Search and Rescue canine teams are comprised of specially trained deputies and canines assigned to the Reserve Bureau. Bloodhound teams are primarily utilized to track or trail missing persons. Human Remains Detection Canines (Cadaver Dogs) are primarily utilized to assist in locating and recovering human remains.

Bloodhound teams shall not be utilized to conduct suspect searches in OCSD jurisdiction without first consulting with the OCSD patrol canine unit.

318.11 CANINE HANDLER RESPONSIBILITIES

318.11.1 CARE FOR THE CANINE AND EQUIPMENT

The handler shall ultimately be responsible for the health and welfare of the canine and shall ensure that the canine receives proper nutrition, grooming, training, medical care, and living conditions. In addition to the below policy, canine handlers in TSA assignments shall adhere to all guidelines outlined in the Other Transaction Agreement (OTA) between Orange County Transportation Authority (OCTA), John Wayne Airport (JWA), the Transportation Security Administration (TSA), and OCSD.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

The handler shall be responsible for the following:

1. Unless required by a particular application, the handler shall not expose the canine to any foreseeable risks outside of standardized canine working conditions.
2. The handler shall maintain all Department equipment under his/her control in a clean and serviceable condition. Any damaged equipment shall be reported to the appropriate canine unit supervisor in a timely manner.
3. Canines shall be transported in vehicles configured to ensure the proper health, safety, and security of the canine to include a stable and secured transport kennel/crate, except in the event of unforeseen emergency. When in use, the canine transport kennel/crate must be properly ventilated and appropriately protected from the elements.
4. Assigned canine vehicles are to be maintained in good operating order with a clean interior. The handler shall ensure the vehicle is serviced in a timely manner. The handler will report all mechanical issues with the vehicle in a timely manner.
5. In-service canine vehicles shall be equipped with a functioning heat alarm to ensure the safety of the canine. In the event the heat alarm fails while in-service, the handler shall avoid leaving the canine unattended in the vehicle for a lengthy time. The handler shall take additional precautions to prevent the canine from overheating, such as parking under shade, leaving the windows down, etc.
6. When not on duty the canine handler shall maintain a marked, black and white canine vehicle in a garage, secured from public view. Unmarked canine vehicles shall be parked in appropriate off-street parking.
7. When a handler takes a vacation or extended number of days off, it may be necessary to temporarily relocate the canine. The canine shall be boarded at a Departmentally approved boarding facility or location. In those situations, the handler shall give reasonable notice to the unit supervisor so that appropriate arrangements can be made. During this time, the assigned canine vehicle may be maintained at a Sheriff's Department approved facility.
8. With their unit supervisor's approval, handlers assigned to the search and rescue canine may make arrangements to have another handler care for the assigned canine during vacations or extended periods off.
9. Handlers shall permit the unit supervisor to conduct spontaneous on-site inspections of affected areas of their residence as well as the canine vehicle, to verify that conditions and equipment conform to this policy.
10. Any changes in the living status of the handler which may affect the lodging or environment of the canine shall be reported to the unit supervisor within 24 hours.
11. When off-duty, canines shall be maintained in kennels, provided by the county, at the homes of their handlers. When a canine is kenneled at the handler's home, the gate shall be secured with a lock. When off-duty, canines may be let out of their kennels while under the direct control of their handlers.
12. The canine should be permitted to socialize in the home with the handler's family for short periods of time and under the direct control of the handler.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Canine Program

13. Under no circumstances shall the canine be lodged at another location unless approved by the unit supervisor or Department Commander.
14. When off-duty, handlers shall not involve their canines in any activity or conduct unless approved in advance by the unit supervisor or Department Commander.
15. For handlers in TSA assignments, if through the NEDCTP Incident Adjudication Review Board findings, it is determined that a canine handler fails to adhere to NEDCTP policies, procedures, or instructions which results in the loss of physical accountability or physical abuse of their canine, the handler may be permanently removed from the program.

318.11.2 MEDICAL CARE OF THE CANINE

1. The handler shall ensure routine examinations and emergency care are performed by licensed, board certified veterinary medical professionals for the canine. Routine care includes semi-annual examinations, scheduled immunizations, disease prevention, and weight management programs. Handlers shall administer medication as directed by their veterinarian professional and follow all health related guidance.
2. For canines in TSA assignments, semi-annual examination reports shall be requested for review by the assigned FCC.
3. For canines in TSA assignments, the NEDCTP reserves the right to consult with a Department of Defense (DOD) veterinarian for any proposed medical treatment of an EDC prescribed by the unit's veterinarian.
4. If a canine is found to have any medical/health related issues attributed to a handler's negligence in providing adequate care, the canine may be immediately removed from service. For canines in TSA assignments, the NEDCTP Branch Chief may request that the handler be permanently removed from the Program.
5. All medical attention shall be rendered by the designated canine veterinarian, except during an emergency as provided in Policy Manual § 318.11.4.

318.11.3 NON-EMERGENCY MEDICAL CARE

1. Non-emergency medical care, such as vaccines and routine physical exams, shall be coordinated through the unit supervisor.
2. Any indication that a canine is not in good physical condition shall be reported to the unit supervisor or the Department Commander as soon as practical. For canines in TSA assignments, if the condition affects the canine's ability to perform its duties then the handler shall immediately notify the FCC.

2. Suspicious Activity Reporting (SAR) is defined as unusual or suspicious activity that may have a nexus to terrorism.
 - (a) The Orange County Intelligence Assessment Center (OCIAC) must be immediately notified of any suspicious incident, which may have a nexus to terrorism. Any information, which may be suspicious in nature, shall be reported to the OCIAC. It is critical that all personnel understand reporting procedures in order to ensure the effective and efficient flow of information.
 1. It shall be the duty of all Members to report any unusual or suspicious activity that may have a nexus to terrorism, whether or not they deem such information to be a credible or viable threat.

320.6 TERRORIST SCREENING CENTER MATCH - NCIC QUERY

The Terrorist Screening Center (TSC) is located in Washington D.C. and maintains the U.S. Government's consolidated Terrorist Watch list. This resource is a single database of identifying information about those known or reasonably suspected of being involved in terrorist activity. Access to the TSC database is accomplished via CLETS/NCIC queries.

1. Upon receiving a possible match to a known or suspected terrorist, pursuant to an NCIC query, deputies shall contact the TSC immediately at (866) 872-9001. NOTE: Terrorist Screening Center handling codes are not related to, or the same as OCSD radio codes. A TSC "Handling Code 3" return does NOT require an emergency vehicle response.
2. All personnel who receive a TSC match in response to a NCIC query shall contact the TSC and then notify the OCIAC immediately.
3. Each TSC match will indicate an associated Handling Code. Deputies shall handle TSC subject query matches in the following manner:
 - (a) TSC Handling Code 1: Approach with caution. The individual may be the subject of an arrest warrant. If a warrant is returned, detain the individual pursuant to Departmental procedures for handling an outstanding warrant. Call the TSC immediately at 866-872-9001
 - (b) TSC Handling Code 2: Approach with caution. There may be a detainer for this individual. Detain the individual for a reasonable amount of time for questioning. Call the TSC immediately at 866-872-9001
 - (c) TSC Handling Code 3: Approach with caution. Do not alert the individual that he/she may be on the terrorist watch list. Contact the TSC during this encounter at 866-872-9001. If this would expand the scope or duration of the encounter, contact the TSC immediately thereafter. Do not detain or arrest this individual unless there is evidence of a violation of Federal, State, or local statutes.

Tire Deflation Device

321.1 DISCONTINUED USE

Patrol Operations will no longer use tire deflation devices (spike strips), as previously described in OCSD Policy 321. After some review of the current standards and practices, the Department has determined these devices to be ineffective and, in some instances, could result in possible injury to the deputies during deployment. As a result, the use of any tire deflation device in Patrol Operations is no longer authorized.

SWAT will continue to use tire deflation devices as it applies to SWAT operations.

Department Incident Management Teams (IMT)

322.1 PURPOSE AND SCOPE

The Department Incident Management Teams (IMT), when activated, supports the management of major incidents within the Department's jurisdiction that require a significant number of Department personnel and/or resources. These incidents can extend into multiple operational periods (12 hours or more) and require a written Incident Action Plan (IAP). The IMT is a resource utilized by Department personnel to provide incident management capabilities, respond to large scale/complex incidents, and strengthen command, control, and coordination to major incidents within the Department's jurisdiction. IMTs shall meet with the Department and other stakeholders to clarify management objectives to mitigate the effects of the incident.

The Department IMT shall act as a support element to an ongoing incident. The current Incident Commander shall continue in the position while the IMT supports and strengthens the command, control, and coordination aspects of the incident by providing position-specific trained personnel.

322.2 CAPABILITIES

Incident Management Teams are classified in 5 "Types":

| | |
|--------|--|
| Type 1 | National or State team for incidents of national significance |
| Type 2 | National or State team for incidents of regional significance |
| Type 3 | Multiagency/multijurisdictional team for extended incidents and multiple operational |
| Type 4 | Single and/or multiagency team for expanded incidents |
| Type 5 | Single-discipline team for initial action and small incident |

Each patrol area is responsible for their individual Type 5 IMT, which is already established in day-to-day operation. The Department IMT is modeled as a Type 4 IMT for expanded incidents. The Federal Emergency Management Agency (FEMA) defines a Type 4 IMT as a designated team of fire, EMS, and possibly law enforcement officers from a larger and generally more populated area, typically within a single jurisdiction (city or county), activated when necessary to manage a major or complex incident during the first 6-12 hours and possibly transition to a Type 3 IMT.

322.3 DEFINITIONS

The following are definitions of terms used in this section:

1. **Incident Commander (I/C):** The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and the release of resources. The I/C has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.

Orange County Sheriff-Coroner Department

2. **Agency Administrator or Executive:** Chief executive officer (or designee) of the agency or jurisdiction that has responsibility for the incident.
3. **Incident Command Post (ICP):** The field location at which the primary tactical-level, on-scene incident command functions are performed. The ICP may be collocated with the incident base or other incident facilities.
4. **Incident Action Plan (IAP):** A written plan containing general objectives reflecting the overall strategy for managing an incident. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods.
5. **Event Action Plan (EAP):** A written plan containing general objectives reflecting the overall strategy for managing a planned event for a single or set number of operational periods. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the event should it extend into additional operational periods.
6. **Delegation of Authority:** A statement provided to the Incident Commander by the Agency Executive delegating authority and assigning responsibility. The Delegation of Authority can include objectives, priorities, expectations, constraints, and other considerations or guidelines as needed. Many agencies require written Delegation of Authority to be given to Incident Commanders prior to their assuming command on larger incidents.
7. **Incident Command System (ICS):** A standardized approach to the command, control, and coordination of emergency response providing a common hierarchy within which responders from multiple agencies can be effective.
8. **National Incident Management System (NIMS):** A standardized approach to incident management developed by the Department of Homeland Security that is based on the core concepts of the Incident Command System.

322.4 ORGANIZATION

The IMT shall follow standard organization under the Incident Command System (ICS), and is flexible and scalable based on the necessity or perceived severity of an incident or event.

The IMT Deputy Incident Commander (IMT Deputy I/C) shall consider a combination of the following positions under the Incident Command System (ICS) for staffing:

1. Deputy Incident Commander (Deputy I/C)
2. Operations Section Chief (OSC)
3. Logistics Section Chief (LSC)
4. Planning Section Chief (PSC)

322.5 REQUEST FOR USE OF IMT

Activation of the Department IMT can be initiated for different types of incidents and planned events that may necessitate coordination and support from the lead jurisdiction. A request for the Department IMT can be made from the Incident Commander, Commander, or OCSD Executive Command.

The Department IMT can be requested through the Department Commander, 24 hours a day. The opportunity for safe and successful mitigation of a major incident extending multiple operational periods may be enhanced with a timely request. The IMT may be requested for planned events which have the potential to extend to more than one operational period.

Incidents where the Department IMT may be used include, but are not limited to:

1. Coordination of on-scene operations
2. Natural disasters, e.g., earthquakes, floods, fire, etc.
3. Planned exercise or public event requiring the cooperation and joint participation of two or more patrol areas
4. Public health emergency
5. Acts of Terrorism
6. Train derailments, aircraft incidents, and other large/complex accidents
7. Mass casualty incidents
8. Jail escapes

322.6 NOTIFICATIONS

Upon request of the IMT, the Department Commander shall contact the Mutual Aid Bureau Captain or designee. For pre-planned events, the Chief of Police Services or designee may contact the Mutual Aid Bureau Captain directly. The IMT Deputy I/C shall be notified by the Homeland Security Division representative and given incident specific information regarding nature of the incident, location of the Incident Command Post, resources involved, current incident status, and any mission critical information. Based on the Deputy I/C's evaluation, they shall contact the appropriate number of IMT Members to respond to the Incident Command Post.

Major Incident Notifications shall continue to be made by the Department Commander per Policy Manual 358.

322.7 IMT RESPONSIBILITIES

The following explain the main responsibilities of the IMT:

1. Upon deployment to a major incident, the current I/C shall brief the IMT Deputy I/C on the incident and provide a situational update including staffing levels, resource allocation, location of incident, current assessment of capabilities, and assignment of responsibilities.
2. The IMT Deputy I/C shall coordinate with the Incident Commander in establishing a meeting with the Agency Administrator (County Executive, Chief of Police Services, and/or City Manager, etc.) to assist in obtaining any necessary Delegation of Authority and to develop Management Objectives which shall be included in the Incident Action Plan (IAP).
3. The Incident Commander and IMT Deputy I/C shall brief the IMT Members on their roles and responsibilities prior to integrating as requested into the current Incident Command System (ICS) structure.
4. Assess current deployment model and determine if any changes need to be made e.g., deployment allocation, location of the Incident Command Post, and/or resource requests.
5. Provide situational updates to their Department Chain of Command, Agency Administrators, major stakeholders, and mutual aid partner agencies that may impact overall Department readiness and law enforcement response capability.
6. Develop Operational Period timeframes and IAPs for each Operational Period.
7. Determine management needs and coordinate for the deployment of a relief IMT, as needed.
8. Liaison with the Department Public Information Officer (PIO) to release incident specific information to the general public.
9. Help mitigate the effects of the incident to bring about a peaceful and timely resolution to the major event.
10. In the event an incident evolves into a Unified Command with additional agencies, the Incident Commander shall act as the Department Agency Representative in Unified Command.

322.8 DOCUMENTATION

An IAP is required for each operational period. An IAP formally documents incident goals (known as control objectives in NIMS), operational period objectives, and the response strategy defined by Incident Command during response planning. It contains general tactics to achieve goals and objectives within the overall strategy, while providing important information on event and response parameters. Equally important, the IAP facilitates dissemination of critical information about the status of response assets themselves. Because incident parameters evolve, action plans should be revised on a regular basis (at least once per operational period) to maintain consistent, up-to-date guidance across the system.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Department Incident Management Teams (IMT)

An EAP is required for each planned event. Documentation needs are the same as the IAP, but are designed for a single or planned number of operational periods. Events extending past the planned operational period(s) become incidents by default and require an IAP for all subsequent periods.

ICS FORMS FOR AN INCIDENT:

| | |
|--|--|
| ICS-201 (Incident Briefing) | Used at the beginning of the first operational period |
| ICS-202 (Incident Summary) | Operational period objectives, information, and contents |
| ICS-203 (Organization List) | ICS position assignments |
| ICS-204 (Assignment List) | Branch objectives, assignments, personnel, and resources |
| ICS-205 (Communications) | Communications Plan |

| ICS-208 (Safety Message) | General safety information for the incident |
| ICS-209 (Incident Status Summary) | Incident Information Summary |

Copies of Incident Management Team IAPs and/or EAPs shall be maintained by the OCSD Homeland Security Division, pursuant to the Department's records retention policy. For incidents where a State of Emergency or official proclamation is made, documentation shall be retained until FEMA or CalOES officially closes the matter.

322.9 IMT TRAINING

The Homeland Security and Training Divisions shall coordinate with the individual Department IMTs in designing, conducting, and reviewing functional training exercises, drills, or tabletop scenarios. These training exercises shall be conducted on a bi-annual basis.

Mobile Field Force

323.1 INTRODUCTION

It is important that all Department personnel understand the Mobile Field Force (MFF) concept, the procedures for assembling a Mobile Field Force, and be prepared to respond to any unusual occurrence in an organized, disciplined, and trained manner. Reference sections for MFF operations are found in the Field Operations Manual Sections 72 "*Motorcycle Strike Team*"; and 12 "*Crowd and Mob Control*."

(This replaces OPM Section 71 Mobile Field Force)

323.1.1 MOBILE FIELD FORCE CONCEPT

The "Mobile Field Force Concept" was developed to provide an efficient and effective method to assemble, deploy, and control a platoon or squad sized tactical element from on-duty personnel. It can be used for both spontaneous and planned events that require the rapid deployment of personnel.

323.2 MOBILE FIELD FORCE (MFF) CONFIGURATION

Ideally, a Mobile Field Force is a platoon-sized unit commanded by a captain or lieutenant (MFF Leader) with a sergeant as an assistant (Deputy MFF Leader). At maximum strength, a MFF consists of four, 12-person squads (1-Sergeant and 11-Deputies). Two additional personnel can be added to provide a transportation arrest team. This constitutes a platoon sized force of 52 personnel which is in compliance with the California Office of Emergency Services standards. These numbers are a guideline only and can be modified as needed.

Sergeants and Deputies assigned to MFF positions must be ready to deploy immediately. To do so, Squad Leaders are required to know who is in their squad and be able to contact them immediately.

323.3 "VIRTUAL" MOBILE FIELD FORCE CONCEPT

Pre-designated Mobile Field Force positions are identified on the Virtual Mobile Field Force Roster, which ensures MFF personnel are readily available at all times. This staffing concept is referred to as a "Virtual Mobile Field Force." Should a MFF component be required for local assistance or mutual aid, deputies assigned to the pre-designated MFF would be activated first.

The utility of the "Virtual" MFF lies in the increased level of readiness it provides the Operational Area. The "Virtual" MFF concept is merely a readiness measure. During normal day-to-day operations, personnel assigned to MFF positions are not required to do anything MFF related other than be aware of their responsibilities and be prepared to respond if activated. Shift Sergeants and supervisors are responsible for inputting assigned personnel information into the Virtual Mobile Field Force Roster and immediately updating the roster to reflect any changes due to modified hours, absence, reassignment, priority calls, etc. The shift or scheduling Sergeant has the discretion to replace the Member with other available personnel.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Mobile Field Force

MFF rosters are a compilation of the personnel assigned to dedicated MFF positions. They must, however, ensure that the dedicated Mobile Field Force positions on the Virtual Mobile Field Force Roster are staffed. This should be done by realigning existing personnel and not by using overtime. All information shall be entered no later than 0600 hours for Shift I and no later than 1800 hours for Shift IV. Department Commanders will review the rosters to confirm the information is updated, complete and all positions are filled.

1. Access the Department intranet
2. Access MY18
3. Select WE ARE OCSD
4. Select Field Ops & Investigations
5. Select Virtual Mobile Field Force Roster
6. Input Shift I and Shift IV personnel information (save in real time)
7. To print, select File, Print
8. Or select File, Save As and save the document to your computer. Open the newly saved document in Excel and select File, and Print.

323.4 SPECIFIC MISSIONS

1. Response to natural disasters
2. Conventional crowd management
3. High profile patrol operations
4. Evacuation
5. Security/Patrol of evacuated areas and critical facilities
6. Jail disturbances
7. Force Protection
8. Mass arrest/processing
9. Mutual Aid requests

323.4.1 SELECTION OF STAGING LOCATIONS

1. A staging location should be strategically located proximate to within the area of occurrence.
2. Wide streets are more desirable than parking lots with only one entrance and exit because they provide easy ingress/egress.
3. Contract Cities "Standing Plans" should pre-designate staging locations within their cities.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Mobile Field Force

4. The designated MFF Leader shall identify and designate a subordinate MFF supervisor to assemble the MFF (generally the responsibility of the Deputy MFF Leader). The MFF supervisor can be assisted by a Staging Manager with this task.

Based on the circumstances, the MFF Leader shall determine whether to respond directly to the incident location and meet with the Incident Commander or respond directly to the MFF staging location.

323.5 INCIDENT ACTION PLANS (IAP)

Virtual Mobile Field Force squads can be included in the Incident Action Plan (IAP) for a planned event. They can be listed in an IAP as a source of additional law enforcement resources in an emergency. The appropriate chain of command must authorize the use of their personnel before they can be included in an IAP.

323.5.1 CODE CHARLIE

A Code Charlie is defined in the Orange County Chiefs of Police and Sheriff's Association Protocol 102, Section 4.2 as:

1. *Code Charlie is an emergency alert plan to notify neighboring agencies of the impending need for manpower and resource assistance. It is normally put into effect when emergency or riotous conditions exist and the need for mutual aid is anticipated.*

Virtual Mobile Field Force squads can be used as the designated response element for a Code Charlie request. Use of a Virtual Mobile Field Force must be authorized by the appropriate chain of command.

323.5.2 AVAILABLE RESOURCES

Daily, there are four MFF squads available (each comprised of eleven deputies and one sergeant), covering two shifts: Shift I (0600-1800) and Shift IV (1800-0600).

1. Shift I squads shall be designated as **Alpha** (South Patrol), **Bravo** (CJX), **Charlie** (North Patrol, South Patrol, and JAMF), and **Delta** (Theo Lacy).
2. Shift IV squads shall be designated as **Echo** (South Patrol), **Foxtrot** (CJX), **Golf** (North Patrol, South Patrol, and JAMF), and **Hotel** (Theo Lacy).
3. MFF elements can be activated in any order depending on the circumstances. Consideration should be given to location, nature, expected duration, and potential consequences of the event.
 - (a) **Alpha** and **Echo** squads are the most mobile.
 - (b) **Bravo** and **Foxtrot** squads are closest to the Civic Center complex.
 - (c) **Delta** and **Hotel** squads are closest to Anaheim Stadium and Honda Center.
 - (d) **Charlie** and **Golf** squads are composite squads that may take longer to assemble, but would have less of an operational impact on any one work location.

323.5.3 RADIO DESIGNATIONS

The assignment designator for Mobile Field Force shall be "69." The position designator (1 thru 13) shall be indicated next to each squad Member's name on the MFF Roster.

1. The call sign for the Alpha Squad Leader shall be 18-69-Alpha 1 (The station number is "18," the assignment designator is "69," the squad designator is "Alpha," the position designator is "1.")
2. The call sign for the MFF Leader shall be 18-69-Lima 1.

There is no shift designator. Alpha, Bravo, Charlie, and Delta squads are on Shift I and Echo, Foxtrot, Golf, and Hotel squads are on Shift IV.

323.5.4 ACTIVATION

Requests for a Mobile Field Force can come from a variety of sources (any sworn Department Member, watch commander, outside law enforcement agencies, fire departments, State officials, Federal officials, etc.). Once the Department Commander or his/her designee approves the request, MFF personnel shall be directed to respond immediately to a staging area prior to deployment. Properly equipped units should respond immediately to the staging area while using the appropriate emergency driving protocols.

The Department Commander may deploy a Staging Manager to assist in the assembly of the MFF. The Staging Manager shall organize responding personnel at the staging area before they are deployed to the incident.

323.6 MOBILE FIELD FORCE COMMAND STRUCTURE

The Department Commander shall be responsible for the following:

1. Review the MFF Roster at the beginning of each shift. Contact squad leaders to address any concerns.
2. Activate and deploy MFF squads as needed.
3. Activate a Staging Manager if needed.
4. Be prepared to deploy as the MFF Leader if needed.
5. Be responsive to the needs of the deployed MFF (logistics and planning for multiple operational periods).

323.6.1 MOBILE FIELD FORCE LEADER

1. The Department Commander shall either serve as the MFF Leader or designate a MFF Leader whenever more than one MFF Squad is deployed.
2. The MFF Leader shall assume the command and control function for all Department MFF personnel and assets. (Note: The MFF Leader should have a span of control of one MFF. A second MFF deployed shall require another MFF Leader.)

323.7.3 FIRST RESPONDER CHECKLIST

The first officer at the scene of an emergency is responsible for establishing on-scene command, broadcasting a situation assessment, setting up a command post, requesting necessary personnel and equipment, and designating a Staging Area for responding personnel. To accomplish these tasks, the first responder (or field supervisor) must assume command responsibility, assign missions, gather intelligence, and delegate tasks as necessary to establish control until relieved.

Situation Assessment:

A situation assessment is that information developed by the first officer at the scene of an emergency and is basic intelligence transmitted to the communication center, and then additionally conveyed to other concerned agency elements concerned with the control of the event. Situation assessments should be updated as the event changes and control measures are implemented to return the situation to normal. The initial situation assessment should include:

1. Type of emergency
2. Location of emergency

Orange County Sheriff-Coroner Department

Mobile Field Force

3. Type of structure/vehicles involved
4. Size of area involved
5. Number of additional officers required
6. Incident Command Post location
7. Staging Area locations
8. Access routes for emergency vehicles
9. Assistance required (e.g., ambulance, fire, public utility)
10. Number and type of casualties/injuries

Once the situation assessment has been completed, the first responder (as Acting Incident Commander) can direct attention to control measures related to the event. These would include:

1. Establish a journal/log for recording major activities
2. Establish a communication link with the communications center

323.7.6 HAZARDOUS MATERIALS INCIDENT CHECKLIST

This checklist is intended to assist the field supervisor with the initial stages of a spill or release of a hazardous material (Haz Mat) substance or waste. These guidelines are flexible and can be modified to deal with specific situations.

Special Considerations:

1. Be aware of and avoid self-contamination
2. Do not drive thru the contaminated area
3. Do not eat, drink, or smoke near the area
4. Do not use flares. Request barricades for traffic blocks
5. Do not touch any substances or articles involved. Treat all as contaminated until otherwise determined

2. May be jointly conducted with other involved agencies
3. Should provide all available information and assistance to other agencies

323.7.7 AIRCRAFT CRASH CHECKLIST

This checklist is intended to assist the field supervisor with the initial response to an aircraft crash. It is recommended that unified command be established to ensure a coordinated response with other involved agencies. Local law enforcement will generally not have an investigative responsibility for aircraft crashes, but will provide perimeter control, site security, evidence protection, and facilitate response with the fire service, medical-rescue, and federal authorities that have investigative responsibility.

Situation Assessment:

Ensure that a situation estimate has been obtained and communicated to the communication center and that it contains the following information:

323.7.8 EARTHQUAKE CHECKLIST

This checklist is intended to assist the field supervisor with the initial response to an earthquake.

Immediate Considerations:

1. Initiate a roll call of all field units
2. Initiate a check of "Critical Facilities" by field units. Checks to include:
 - (a) High occupancy structures (depends on time of day)
 - (b) Damage to roads, critical emergency facilities (police stations, fire stations, hospitals), refineries, dams, etc.
 - (c) (Note: every jurisdiction should have a pre-established list of critical facilities)
3. Confirm that all "Critical Facilities" have been checked
4. Initiate a critical facilities log that indicates which facilities have been checked and their disposition
5. Direct field units to initiate a general area survey after completing their critical facility checks

Accurate Situation Assessment is essential in an earthquake:

A quick evaluation of the situation must be made so that:

1. Appropriate decisions can be made to coordinate response efforts.
2. Situation reports can be sent to local or regional Emergency Operations Centers (EOC) so that appropriate emergency resources can be obtained and safely deployed to the areas with the most critical need.

Specifics to Look For:

1. Utility Disruptions
2. Flooding
3. Fires
4. Haz Mat Spills or Plumes
5. Collapsed Buildings
6. Casualties (Injuries vs. Fatalities)
7. Damaged Roadways and Bridges

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Mobile Field Force

Deploy Personnel To:

1. Conduct evacuations, if required
2. Assist in establishing evacuation centers and directing people to them
3. Establish ingress/egress routes for emergency vehicles
4. Maintain perimeter control to keep unauthorized people and vehicles out of the involved area (size of area depends on magnitude of the earthquake - which may be beyond your resources and require mutual aid)
5. Direct traffic around major damaged sites
6. Provide emergency information to residents of area
7. Determine operability of telephone, water, gas, electricity, public transportation, and other systems serving residents of the area
8. Assist other emergency agencies, as needed

Special Considerations:

1. Contrary to other emergencies, after an earthquake, watch commanders should consider remaining at their stations to facilitate the damage assessment process until the extent of damage and casualties is known and has been communicated to the EOC.
2. Field officers should generally not become involved in rescue operations unless such incidents are immediately life threatening and rescue can be accomplished rapidly. Officers must fulfill their primary functions of observing, estimating, and communicating the overall situation estimate. This approach will ultimately save numerous lives in a major disaster, instead of the few that each officer could personally rescue.
3. Upon establishing magnitude and scope of the disaster, begin applying the principles of ICS.
4. If a significant after-shock occurs - "START ALL OVER".

323.7.9 CIVIL DISORDER CHECKLIST

This checklist is intended to assist the Incident Commander and field supervisors with the initial response to a riot or crowd/looting situation. Law enforcement agencies should concentrate on the basic law enforcement mission of protecting life and property. This should be done in a rapid, firm, fair and impartial manner, using only the minimum force necessary to accomplish the mission.

Tactical Objectives:

1. **CONTAIN:** Confine the disorder to the smallest area possible
2. **ISOLATE:** Prevent the growth of the disorder. Cordon off the area. Deny access to those not involved
3. **DISPERSE:** Make arrests if appropriate
4. Establish an Incident Command Post and Staging Area

Orange County Sheriff-Coroner Department

Mobile Field Force

Situation Assessment:

1. Location of Emergency
2. Number of Participants
3. Activities of Participants (e.g. looting, burning, blocking traffic, passive demonstration, etc.)
4. Direction of Movement
5. Additional Law Enforcement Personnel Required
6. Access to Incident Command
7. Post/Staging Area by Responding Personnel

Initial Response:

1. Assemble Responding Personnel into Squads and Mobile Field Forces (MFF)
2. Assign a Public Information Officer to work with the Media
3. Brief Squad/MFF Leaders as soon as possible
4. Establish Tactical Missions (e.g. crowd control, traffic control, site security, etc.)
5. Request Air Support (e.g. a police helicopter for observation and assistance in coordinating tactical missions)

Liaison:

1. Establish liaison with Law Enforcement Mutual Aid Coordinator and OES

Other Considerations:

1. Know location of emergency medical services
2. Maintain an operations log
3. Determine the less than lethal and chemical agents capabilities of the squads
4. Utilize a tactical and command radio frequency
5. Use serialized flex cuffs
6. Use a video camcorder
7. Arrange for the response of a field booking team
8. Arrange for transportation of suspects from field booking area to detention facility

Helpful Hints:

1. Individual action should be avoided (e.g., maintain squad formation integrity)
2. Simple Formations (e.g., Squad Skirmish Line or Arrest Circles) need minimal explanation and/or coordination
3. Passive Demonstrators --- Don't get involved until you have sufficient personnel
4. Use standby time for scouting (gathering information and analyzing intelligence)

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

After Dispersal:

1. Establish a highly visible law enforcement presence
2. Use mobile units to respond to problems (squad size is the smallest recommended maneuverable tactical element)
3. Arrange for relief and feeding of personnel

Temporary Custody of Juveniles

324.1 PURPOSE AND SCOPE

This policy provides guidelines consistent with the Juvenile Justice and Delinquency Prevention Act for juveniles taken into temporary custody by Members of the Orange County Sheriff-Coroner Department (34 USC § 11133).

Guidance regarding contacting juveniles at schools or who may be victims is provided in the Child Abuse Policy.

324.2 POLICY

Legal authority for taking custody of juvenile offenders is found in Welfare and Institutions Code § 625.

324.2.1 CONSTITUTIONAL RIGHTS ADVISEMENT

In any case where a juvenile is taken into temporary custody, the juvenile should be promptly advised of his/her constitutional rights to ensure the admissibility of any spontaneous statements, whether or not questioning is intended (Welfare & Institutions Code § 625).

324.2.2 CHILDREN UNDER THE AGE OF 14

Whenever a child under the age of 14 is arrested, the arresting deputy should take reasonable steps to verify and document the child's ability to differentiate between right and wrong, particularly in relation to the alleged offense (Penal Code § 26).

324.3 JUVENILES WHO SHOULD NOT BE HELD

Juveniles who exhibit any of the following conditions should not be held at the Orange County Sheriff-Coroner Department:

1. Unconscious
2. Seriously injured
3. A known suicide risk or obviously severely emotionally disturbed
4. Significantly intoxicated except when approved by the Department Commander. A medical clearance shall be obtained for minors who are under the influence of drugs, alcohol or any other intoxicating substance to the extent that they are unable to care for themselves (15 CCR 1151).
5. Extremely violent or continuously violent

Deputies taking custody of a juvenile who exhibits any of the above conditions should take reasonable steps to provide medical attention or mental health assistance and notify a supervisor of the situation (15 CCR 1142; 15 CCR 1151).

These juveniles should not be held at the Orange County Sheriff-Coroner Department unless they have been evaluated by a qualified medical and/or mental health professional (15 CCR 1142).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Temporary Custody of Juveniles

If the deputy taking custody of the juvenile believes the juvenile may be a suicide risk, the juvenile shall be under continuous direct supervision until evaluation, release or a transfer is completed (15 CCR 1142).

324.3.1 EMERGENCY MEDICAL CARE OF JUVENILES IN CUSTODY

When emergency medical attention is required for a juvenile, medical assistance shall be called immediately. The Department Commander shall be notified of the need for medical attention for the juvenile. [Department/Office] Members should administer first aid as applicable (15 CCR 1142).

324.3.2 SUICIDE PREVENTION OF JUVENILES IN CUSTODY

[Department/Office] Members should be alert to potential symptoms based upon exhibited behavior that may indicate the juvenile is a suicide risk. These symptoms may include depression, refusal to communicate, verbally threatening to kill him/herself, or any unusual behavior which may indicate the juvenile may harm him/herself while in either secure or non-secure custody (15 CCR 1142).

324.4 CUSTODY OF JUVENILES

Deputies should take custody of a juvenile and temporarily hold the juvenile at the Orange County Sheriff-Coroner Department when there is no other lawful and practicable alternative to temporary custody. Refer to the Child Abuse Policy for additional information regarding detaining a juvenile that is suspected of being a victim.

No juvenile should be held in temporary custody at the Orange County Sheriff-Coroner Department without authorization of the arresting deputy's supervisor or the Department Commander. Juveniles taken into custody shall be held in non-secure custody unless otherwise authorized by this policy.

Any juvenile taken into custody shall be released to the care of the juvenile's parent or other responsible adult or transferred to a juvenile custody facility or to other authority as soon as practicable and in no event shall a juvenile be held beyond six hours from the time of his/her entry into the Orange County Sheriff-Coroner Department (34 USC § 11133; Welfare and Institutions Code § 207.1(d)).

324.4.1 CUSTODY OF JUVENILE NON-OFFENDERS

Non-offenders taken into protective custody in compliance with the Child Abuse Policy should generally not be held at the Orange County Sheriff-Coroner Department. Custodial arrangements should be made for non-offenders as soon as reasonably possible. Juvenile non-offenders shall not be held in secure custody (34 USC § 11133; Welfare and Institutions Code § 206).

324.4.2 CUSTODY OF JUVENILE STATUS OFFENDERS

Status offenders should generally be released by citation or with a warning rather than taken into temporary custody. However, deputies may take custody of a status offender if requested to do so by a parent or legal guardian in order to facilitate reunification (e.g., transported home or to

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

the station to await a parent). Juvenile status offenders shall not be held in secure custody (34 USC § 11133).

324.4.3 CUSTODY OF JUVENILE OFFENDERS

Juvenile offenders should be held in non-secure custody while at the Orange County Sheriff-Coroner Department unless another form of custody is authorized by this policy or is necessary due to exigent circumstances.

Generally, a juvenile offender may be taken into custody when authorized by a court order or when there is probable cause to believe the juvenile has committed an offense that would subject an adult to arrest (Welfare and Institutions Code § 625).

A juvenile offender who is 14 years of age or older and suspected of using a firearm in violation of Welfare and Institutions Code § 625.3 shall be transported to a juvenile facility.

A juvenile offender suspected of committing murder or a sex offense that may subject a juvenile to criminal jurisdiction under Welfare and Institutions Code § 602(b), or a serious or violent felony should be referred to a probation officer for a decision on further detention.

In all other cases the juvenile offender may be:

1. Released upon warning or citation.
2. Released to a parent or other responsible adult after processing at the [Department/Office].
3. Referred to a probation officer for a decision regarding whether to transport the juvenile offender to a juvenile facility.
4. Transported to his/her home or to the place where the juvenile offender was taken into custody (Welfare and Institutions Code § 207.2).

In determining which disposition is appropriate, the investigating deputy or supervisor shall prefer the alternative which least restricts the juvenile's freedom of movement, provided that alternative is compatible with the best interests of the juvenile and the community (Welfare and Institutions Code § 626).

Whenever a juvenile offender under the age of 14 is taken into custody, the deputy should take reasonable steps to verify and document the child's ability to differentiate between right and wrong, particularly in relation to the alleged offense (Penal Code § 26).

324.4.4 JUVENILE DETENTION ROOMS

The Orange County Sheriff Coroner Department has provided juvenile detention rooms outside of the adult jail facility. These rooms are designed for the temporary detention of juveniles meeting the criteria of secure custody. Deputies or investigators placing juveniles in secure detention rooms shall comply with the following:

1. It is the deputy's responsibility to notify the Department Commander and/or supervisor that a detention has begun. The juvenile must be told the reason for incarceration, the length of time secure detention will last and that it may not exceed a total of six hours.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Temporary Custody of Juveniles

2. Any juvenile placed in a locked detention room shall be separated according to sex and the severity of the crime (felony or misdemeanor) unless emergency circumstances will not allow for this type of segregation.
3. A written record will be maintained on a Juvenile In-Custody form. This form will include the charges for which the juvenile is being detained, the circumstances that warrant a secured detention, the time the detention began, and the time it ended (See 324.3 TEMPORARY CUSTODY (a) and (b) for routing of the form).
4. It is the responsibility of arresting personnel to monitor the custody of the juvenile and to prepare the necessary paperwork to process the juvenile for release to a parent, guardian, or the appropriate juvenile custody facility.
5. A thorough inspection of the detention room shall be conducted before placing a juvenile into the room. The inspection should identify damage, unsafe conditions, or contraband. A second inspection shall be conducted after removing the juvenile. Any changes noted to the room shall be photographed and documented.

Firearm Safety

325.1 PURPOSE AND SCOPE

Peace Officers are entrusted with a great amount of responsibility when it comes to the carrying and handling of a firearm. With this responsibility, comes the expectation that you as a Peace Officer shall place safety first and foremost. The purpose of this policy is to give clear direction as to the extreme care to be utilized when handling any Firearm. Although 325.2 may not be inclusive of all potential situations which may arise, safety shall always be of utmost concern of all Department Members.

325.2 SAFETY EXPECTATIONS

1. Firearms shall not be used in any training exercise that is not under the direct control and supervision of Training Division staff. The only exception to this, is training performed by the Special Weapons and Tactics team and only under the direct supervision of one or more team supervisors.

 - (g) Loaded firearms shall not be pointed at any person or thing unless the need for lethal force exists.

Department Operations Center (DOC)

326.1 PURPOSE AND SCOPE

The Department Operations Center (DOC), when activated, serves as a coordination point for Orange County Sheriff's Department (OCSD) Emergency Response activities during major incidents and planned events. It provides direct support to any field level command post(s), established OCSD Incident Management Teams (IMTs), and provides situational updates to key Department Members.

326.2 DEFINITIONS

The following are definitions of terms used in this section:

1. **Department Operations Center:** Location used by the Department as a coordination point for agency resources and facilities during major incidents and planned events.
2. **Emergency Operations Center:** Facility that provides coordination for emergency response among all local governments (cities, county agencies, special districts, community organizations, etc.) within Orange County. This facility also coordinates the County's response to emergencies in its unincorporated areas.
3. **Incident Command System:** A standardized approach to the command, control, and coordination of emergency response providing a common hierarchy within which responders from multiple agencies can be effective.
4. **National Incident Management System:** A standardized approach to incident management developed by the Department of Homeland Security that is based on the core concepts of the Incident Command System.
5. **Standardized Emergency Management System (SEMS):** The fundamental structure of the emergency response system in California. SEMS incorporates the Incident Command System, multi-agency coordination, mutual aid, and Operational Area concepts into a single integrated approach to emergency management.

326.3 ORGANIZATION

The DOC shall follow standard organization under the Incident Command System (ICS), and can be scaled up or down based on the necessity or perceived severity of an incident or event.

The Special Operations Division Commander or designee shall designate a member of the Department to serve as the DOC Director based on the circumstances surrounding an event or incident. The DOC Director can be sworn or professional staff with the appropriate experience and training needed to perform the duties.

The DOC Director shall consider a combination of the following positions under the Incident Command System (ICS) for staffing:

1. Deputy Incident Commander (Deputy I/C)
2. Liaison Officer (LOFR)
3. Operations Section Chief (OSC)

Orange County Sheriff-Coroner Department

4. Logistics Section Chief (LSC)
5. Planning Section Chief (PSC)
6. Finance and Administration Section Chief (FSC)

326.4 ACTIVATION AUTHORITY

Activation of the DOC can be initiated for different types of incidents and planned events that may necessitate coordination and support from the DOC.

The following Department Members have the authority to activate the Department Operations Center (DOC) for incidents or pre-planned events:

1. OCSD Executive Command
2. OCSD Special Operations Division Commander
3. OCSD Department Commander
4. OCSD Mutual Aid Bureau Captain

326.5 NOTIFICATIONS

Upon DOC Activation, the DOC Director shall be responsible for making notifications regarding a DOC activation, and the estimated timeframe of the Operational Period(s) to Department Members (See Policy Manual § 358) and the Members listed below. This can be accomplished either through the Department Commander, or through the DOC Liaison Officer.

1. OCSD Special Operations Division Commander
2. OCSD Department Commander
3. OCSD Mutual Aid Bureau Captain
4. OCSD Emergency Management Division Director/ Operational Area EOC Manager
5. Control One Supervisor
6. OCSD Facility that will house the DOC (if applicable)

326.6 DOC DUTIES

The following information explains the primary responsibilities of the DOC:

1. Provide situational updates to Executive Command, Operational Area, and other mutual aid partner agencies that may impact overall Department readiness and law enforcement response capability.
2. Develop specific plans that provide emergency preparedness and response information for impending incidents/events throughout the Department.
3. Coordinate and manage the assignment of law enforcement resources to report to Incident Commands.
4. Establish and maintain agency liaison functions during incidents/events that involve the Department, County, or mutual aid agencies or resources.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Department Operations Center (DOC)

5. Serve as the central coordination point for gathering, analyzing, and disseminating emergency information or intelligence internally and externally to other agencies/divisions, contract cities, County/OA EOC, and mutual aid partners.
6. Coordinate appropriate resource requests through the Department, for law enforcement mutual aid with Orange County municipal partners, law enforcement region 1, and state law enforcement mutual aid coordinator (LEMAC).
7. Provide extended or expanded emergency incidents with appropriate communications, and logistical support.
8. Maintain and display current and accurate incident situation and resource status information.

326.7 DOC ACTIVATION LEVELS

The Department's DOC operates on 3 general levels or phases of activation/operation:

1. Level 3 (Heightened Awareness)
 - (a) Level 3 is the lowest level of activation and may require the least amount of personnel. This level requires the Department Commander to be aware of potential situations and make any required notifications outlined in documentation of the activation. This level can be as low as routine day-to-day operations or a virtual activation in which positions are designated and personnel are identified, however staffing may not be immediately required.
2. Level 2 (Modified Tactical Alert)
 - (a) Level 2 is a moderate level of activation that may require a pre-determined cadre of personnel or an OCSD specific Incident Management Team (IMT) to operate. These personnel shall fill designated DOC positions based on the type of hazard. An additional IMT may be designated for shift relief if an event extends into multiple operational periods.
3. Level 1 (Tactical Alert)
 - (a) Level 1 is the full activation of the OCSD Department Operations Center. This level may require a team of eight employees or an OCSD specific Incident Management Team (IMT) to operate. These personnel shall fill positions designated by the DOC Director and may require deployment to a pre-determined location of mobile command vehicle. The DOC may become the single point of ordering for all of the Department. Continued communication with the Department Commander may be necessary for level 1 activations.

These activation levels are consistent with the Standardized Emergency Management System (SEMS), the California Office of Emergency Services (CalOES), and the Orange County and Operational Area EOC activation levels derived from the County of Orange and Orange County Operational Area Emergency Operations Plan (EOP).

The level of staffing in the DOC is flexible and scalable driven by the type, size, and requested resources for individual incidents/events. The DOC Director will determine the appropriate staffing level.

Activity logs for each staffed DOC position shall be required. These documents are critical and shall be given the utmost priority. Logs shall be accurately maintained for the duration of the DOC activation.

Activity logs shall be used to document all actions taken during the course of the DOC activation, and the DOC Director shall have the responsibility of ensuring this task is completed.

Documentation surrounding the DOC activation shall be maintained by the Mutual Aid Bureau, pursuant to the Department's records retention policy.

Cite and Release Policy for Misdemeanor Non-Warrant (Street) Arrests

327.1 PURPOSE AND SCOPE

The purpose of this policy is to make deputies aware of the statutory requirements related to the handling of misdemeanor street arrests in order to facilitate the proper disposition of these cases.

This policy does not apply to misdemeanor warrant arrests, which are governed by Penal Code § 827.1.

327.2 STATUTORY REQUIREMENTS

Penal Code § 853.6 is the operative section to determine if a misdemeanor street booking may be cited and released. It requires that, unless an exception applies, arresting officers cite and release all persons arrested for an offense "declared to be a misdemeanor" (the "declared to be a misdemeanor" language means arresting officers cannot cite and release for offenses which could be charged either as a felony or a misdemeanor).

There are statutory exceptions to the general rule that misdemeanor street arrestees are subject to cite and release. Cite and release is prohibited if:

1. The person was arrested for a misdemeanor violation of a protective order involving domestic violence as defined in subdivision (b) of Penal Code § 13700; or,
2. The person was arrested pursuant to a policy as described in Penal Code § 13701 which mandates law enforcement agencies response to domestic violence calls. (See Field Operations Manual § 55).

These prohibitions against cite and release apply unless the arresting officer determines that there is not a reasonable likelihood that the offense will continue or resume or that the safety of persons or property would be imminently endangered by release of the person arrested. (Penal Code § 853.6(a)(2).)

Cite and release is also prohibited for crimes specified in Penal Code § 1270.1, including crimes defined in each of the following: (1) paragraph (1) of subdivision (e) of Penal Code § 243; (2) Penal Code § 273.5; (3) Penal Code § 273.6 if the detained person made threats to kill or harm, has engaged in violence against, or has gone to the residence or workplace of, the protected party; and (4) Penal Code § 646.9. (Penal Code § 853.6(a)(3).)

As explained below in Policy 327.3.2, if the arresting officer indicates on the Pre-Booking Record that any of the provisions in Penal Code § 853.6 (i) apply to the person, those are additional grounds to not cite and release.

327.3 HANDLING MISDEMEANOR STREET ARRESTS

The following procedure will be followed to comply with Penal Code § 853.6:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Cite and Release Policy for Misdemeanor Non-Warrant (Street) Arrests

327.3.1 FIELD CITATIONS

In most misdemeanor street arrests an arrestee 18 years or older shall be released on citation in the field provided the individual can be satisfactorily identified, there is no outstanding arrest warrant for the individual and none of the statutory exceptions or disqualifying circumstances are present (Penal Code 853.6 and Penal Code 1270.1).

Any misdemeanor arrestee who is the subject of a use of force, shall receive medical treatment in accordance with Policy 300.6 and be transported to the jail for booking or citation and release.

EXCEPTION: After the misdemeanor arrestee who is the subject of a use of force is treated by medical personnel, the Department Commander or Watch Commander may direct that the arrestee be cited and released in the field. If the use of force subject is cited and released in the field, the sergeant conducting the use of force review shall document in the Supervisory Analysis that the use of force subject was released in the field at the direction of the on duty Department Commander or Watch Commander.

327.3.2 DISQUALIFYING CIRCUMSTANCES

If one of the statutory exceptions which prohibit cite and release set forth above in Policy 327.2 does not apply, a misdemeanor street arrestee shall be cited and released unless the arresting officer determines to not cite and release because one of the following reasons applies (Penal Code § 853.6(i)):

1. The person arrested is so intoxicated that he/she could be a danger to him/herself or to others. Release may occur as soon as this condition no longer exists.
2. The person arrested requires medical examination or medical care or is otherwise unable to care for his/her own safety.
3. The person is arrested for one or more of the offenses listed in Vehicle Code §§ 40302 and 40303.
4. There are one or more outstanding arrest warrants for the person.
5. The person could not provide satisfactory evidence of personal identification.
6. The prosecution of the offense or offenses for which the person was arrested or the prosecution of any other offense or offenses would be jeopardized by the immediate release of the person arrested.
7. There is a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by the release of the person arrested.
8. The person arrested demands to be taken before a magistrate or has refused to sign the notice to appear.
9. There is reason to believe that the person would not appear at the time and place specified in the notice to appear. The basis for this determination shall be specifically documented. An arrest warrant or failure to appear that is pending at the time of the current offense shall constitute reason to believe that the person would not appear as specified in the notice.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Cite and Release Policy for Misdemeanor Non-Warrant (Street) Arrests

10. The charges fall under Penal Code § 1270.1 (Statutory exception prohibiting cite and release for serious or violent felonies, domestic violence, etc.)
11. The person has been cited, arrested, or convicted for misdemeanor or felony theft from a store or from a vehicle in the previous six months.
12. There is probable cause to believe that the person arrested is guilty of committing organized retail theft, as defined in subdivision (a) of Section 490.4.

When a person is arrested on a misdemeanor offense and is not released by criminal citation, the reason for non-release shall be noted on the Pre-Booking Record on the back of the deputy's copy by checking one of the boxes. The deputy's copy of the Pre-Booking Record shall be submitted with the arrest report and maintained as a part of the original report. The reason for non-release should also be noted in the narrative of the arrest report.

327.3.3 JAIL RELEASE

In rare cases, it may be impractical to release a person arrested for misdemeanor offenses in the field as required by Policy 327.3.1 above. The deputy has the option to book the arrestee into the jail, to be cited and released after the booking process, only with Department Commander approval. The deputy shall articulate the reason for the request on the Pre-Booking Record on the back of the deputy's (yellow) copy. The deputy shall seek approval from the Department Commander through the field supervisor. If the Department Commander approves the booking the deputy shall indicate the name of the Department Commander that approved the request along with the date and time on the back of the Pre-Booking Record.

Any person arrested for a misdemeanor offense who has been subjected to a use of force shall be medically evaluated prior to booking in accordance with Policy 300.5. If the person is medically cleared for booking, the person shall then be booked, cited and released after the booking process in accordance with this section.

327.3.4 INSTRUCTIONS TO THE CITED PERSON

The citing deputy shall, at the time he/she asks the defendant to sign the notice to appear, call attention to the time and place for appearance, and take any other steps he/she deems necessary to ensure that the defendant understands his/her written promise to appear.

Prohibition on Harassment and Discrimination

328.1 PURPOSE AND SCOPE

The Orange County Sheriff's Department is committed to providing a professional and supportive work environment free from harassment, discrimination, and retaliation for participating in any protected activity. Department policy prohibits harassment and/or discrimination, against or by any individual subject to this policy, based on the following protected categories: race, color, religion, religious creed (including religious dress and grooming practices), national origin, ancestry, citizenship, physical or mental disability, medical condition (including cancer and genetic conditions), genetic information, marital status, sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), gender, gender identity, gender expression, age (40 years and over), sexual orientation, veteran or military status, and reproductive health decision-making and any other characteristic protected by federal, state or local anti-discrimination laws covering employment.

This policy applies to Members, applicants, independent contractors, interns, and volunteers. Discrimination and harassing behavior can not only be personally damaging to the individual(s) involved, but can also be damaging to the workplace in terms of conflict, decreased productivity, unpleasant environment, the degradation of interpersonal relationships and overall morale.

The prohibitions in this policy also extend to locations and situations where individuals may find themselves in connection with their jobs as well as to other settings that impact the workplace, even if offsite.

The Department will implement appropriate disciplinary action, up to and including termination, for violations of this policy, even if the violation does not rise to the level of unlawful conduct.

328.2 DEFINITIONS

Discrimination is defined as unequal treatment in any aspect of employment based solely or in part on an individual's protected characteristic listed above, including their perceived protected characteristic. Discrimination also includes unequal treatment based upon a person's association with a member of these protected classes.

Examples of discrimination include, but are not limited to, hostile or demeaning behavior because of a person's protected characteristic; allowing a person's protected characteristic to be a factor in hiring, promotion, compensation, or other employment-related decisions unless otherwise permitted by applicable law; and providing unwarranted assistance or withholding work-related assistance, cooperation, and/or information to a person because of their protected characteristic.

Harassment is defined as unwelcome, disrespectful, or unprofessional conduct based on any of the protected characteristics listed above.

Harassment can be verbal (such as slurs, jokes, insults, epithets, gestures, or teasing), visual (such as the posting or distribution of offensive posters, symbols, cartoons, drawings, computer displays, or emails), or physical conduct (such as physically threatening another person, blocking someone's way, or making physical contact in an unwelcome manner).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Prohibition on Harassment and Discrimination

Sexual Harassment is defined as harassment based on sex (including pregnancy, childbirth, breastfeeding, or related medical conditions), gender, gender identity, gender expression, or sexual orientation. It may include all the actions described above as harassment, as well as other unwelcome sex-based conduct, such as unwelcome or unsolicited sexual advances, request(s) for sexual favors, conversations regarding sexual activities, or other verbal or physical conduct of a sexual nature. Sexually harassing conduct need not be of a sexual nature or be motivated by sexual desire. It may include situations that began as reciprocal relationships, but then later cease to be reciprocal.

Sexual harassment may generally be categorized into two types:

1. Quid Pro Quo Sexual Harassment ("this for that")
 - Submission to sexual conduct (or other harassing conduct) is made explicitly or implicitly a term or condition of an individual's employment.
 - Submission to or rejection of the conduct is used as the basis for employment decisions affecting the individual.
1. Hostile Work Environment Sexual Harassment
 - Unwelcome conduct based on sex, gender, gender identity, gender expression, or sexual orientation by any person in the workplace that unreasonably interferes with a person's work performance and/or creates an intimidating, hostile, or otherwise offensive working environment. When unwelcome, examples include but are not limited to:
 - Sexual advances, flirtation, teasing, sexually suggestive or obscene letters, invitations, notes, emails, voicemails, or gifts.
 - Sex, gender, or sexual orientation-related comments, slurs, jokes, remarks, or epithets.
 - Leering, obscene, or vulgar gestures or making sexual gestures.
 - Displaying or distributing sexually suggestive or derogatory objects, pictures, cartoons, or posters.
 - Impeding or blocking movement, touching, or assaulting others.
 - Reprisals or threats after a negative response to sexual advances.
 - Conduct or comments consistently targeted at one gender, even if the content is not sexual.

Sexual harassment can happen regardless of the gender, gender identity, orientation, or gender expression of the individuals involved. When determining whether conduct constitutes sexual harassment, a person's intent does not excuse inappropriate conduct.

Retaliation is defined as any adverse action that materially affects the terms and conditions of a person's employment status or is reasonably likely to deter a person from making or supporting a claim of harassment or discrimination.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Prohibition on Harassment and Discrimination

Examples of retaliation include, but are not limited to, demotion; suspension; reduction in pay; denial of a merit salary increase; failure to hire or consider for hire; refusing to promote or consider for promotion due to reporting of a violation of this policy; intimidating, threatening, or harassing a person for filing a complaint; denying employment or other opportunities for making a complaint or for cooperating in an investigation; changing someone's work assignments for identifying harassment or other forms of discrimination in the workplace; treating someone differently such as denying an accommodation or not communicating with an employee when otherwise required by job duties; or intentionally excluding the person from job-related activities because of engagement in activities protected under this policy.

328.3 REPORTING VIOLATIONS

Supervisors and/or Managers who learn of any potential violation of this policy are required to promptly report such conduct to the Professional Standards Division. Supervisors and managers have a specific responsibility to maintain a professional and respectful work environment. Failure by supervisors and managers to report such conduct is a violation of Policy and could result in disciplinary action. The Sheriff's Human Resources/Professional Standards Division ("HR/PSD") shall report violations within this policy to the County's Equal Employment Opportunity Access Office.

If you believe you are being unlawfully harassed and/or discriminated against by another person, you are encouraged to tell that person that their conduct is unwelcome and that you want it to stop. The affected individual or witness should also report the matter to any of the following: their immediate supervisor or manager, or any supervisor or manager, or the Sheriff's Human Resources/Professional Standards Division ("HR/PSD") at (714) 834-5100, or the County's Equal Employment Opportunity Access ("EEO") Office at (714) 834-5259 or by email at eeo.support@ocgov.com, or the County Compliance Line at (855) 387-4432. The Compliance Line is a hotline run by live operators 24 hours a day, 7 days a week. Complaints through this line may be made anonymously. If your immediate supervisor is the offending person, you should report the conduct to another supervisor, HR/PSD, or the EEO Office.

A person making a report does not need supervisor or manager approval to make a report and there is no chain of command when reporting violations of this policy.

328.4 INVESTIGATING COMPLAINTS

Every complaint of harassment and/or discrimination reported to the Department shall be investigated in a fair, timely, thorough, impartial, and confidential manner by qualified personnel. The investigation will reach reasonable conclusions based on the evidence collected. A Department representative will notify the complainant and respondent of the results of the Department's investigation in a timely manner.

To the extent possible, the Department will endeavor to keep reporting of the complainant's concerns confidential; however, complete confidentiality cannot be guaranteed if it interferes with the Department's ability to fulfill its obligations under this Policy or any applicable law or order. All individuals subject to this policy are required to cooperate fully with any investigation.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Prohibition on Harassment and Discrimination

This includes, but is not limited to, maintaining an appropriate level of discretion regarding the investigation, and disclosing all information that may be pertinent to the investigation.

If, upon completion of the investigation, the Department determines that harassment and/or discrimination has occurred in violation of Department Policy, effective remedial action shall be taken appropriate to the circumstances. Any Member determined by the Department to be responsible for harassment and/or discrimination shall be subject to appropriate disciplinary action, up to and including termination.

To ensure all Members are aware of this policy, it shall be posted in common areas, reissued annually with the Member's performance evaluations, distributed during new Member orientations, incorporated in the Policy manual, and shall be available for copy or review at the Professional Standards Division.

328.5 PROHIBITED RETALIATION

It is prohibited to retaliate against anyone subject to this policy who reports, assists in reporting, or expresses an intent to report perceived discrimination, harassment, or other violations of this policy, or who participates in the investigation of or in proceedings related to any claim of discrimination, harassment, or other violations of this policy.

Anyone covered by this Policy who makes a good-faith allegation of potential harassment and/or discrimination can be assured that the matter will be handled with sensitivity, and the person reporting will not experience retaliation from any source, regardless of the ultimate disposition of the matter. The maintenance of an environment where Members feel comfortable bringing matters of this nature to the attention of the Department is critical.

328.6 TRAINING REQUIREMENTS

All Members must take the County's workplace harassment prevention training as assigned by the EEO Office in partnership with the Learning and Organizational Development Office. In addition, the California Civil Rights Department provides free online training courses on preventing sexual harassment in the workplace.

For additional information see:

Issuance of Order

329.1 POLICY

Superior officers of the Department shall not issue written or verbal orders directed to Members outside of their usual command except in an unusual situation or an emergency in which such order is necessary to accomplish the objectives of the Sheriff-Coroner Department.

Prohibition on Abusive Conduct

The Orange County Sheriff's Department is committed to providing a professional and supportive work environment free from abusive conduct. Department policy prohibits any Member to engage in abusive conduct towards other employees, interns, volunteers, applicants, clients, independent contractors, or members of the public. 330.2 BACKGROUND

Abusive conduct, as used in this policy, includes bullying and hazing. Abusive conduct can be written, verbal, visual, or physical in nature. Abusive conduct is contrary to the Department's Core Values of integrity without compromise, service above self, and professionalism in the performance of duty. Retaliation for reporting abusive conduct is also strictly prohibited.

330.4 DEFINITIONS AND EXAMPLES

Abusive conduct:

Abusive conduct is defined as conduct in or in connection with the workplace that a reasonable person would find hostile, offensive, and unrelated to an employer's legitimate business interests. Abusive conduct may include the use of derogatory remarks, insults, and/or epithets; verbal, or physical conduct that a reasonable person would find threatening, intimidating, or humiliating; or the purposeful sabotage or undermining of a person's work performance. Abusive conduct can take many forms, and may occur in different settings, including through electronic communication or messages, also known as "cyber bullying".

330.5 DISCRIMINATION AND HARASSMENT BASED ON PROTECTED CHARACTERISTICS

Abusive conduct that is directed at or based on a person's protected characteristics may also violate Department Policy 328 – Prohibition on Harassment and Discrimination and the County's EEO Anti-Harassment and Discrimination Policy, which prohibits such harassment and discrimination.

330.6 REPORTING VIOLATIONS

Anyone who experiences or witnesses behavior that they believe violates this policy is encouraged to immediately tell the offending individual that the behavior is inappropriate and, if they feel comfortable doing so, to tell the offending individual to stop the behavior.

The affected person or witness should also immediately report the alleged violation to any of the following:

- Their supervisor or manager or any other supervisor or manager; or
- Any Professional Standards Division (PSD) Human Resources (HR) team member

Sheriff's Response Team (SRT)

331.1 PURPOSE AND SCOPE

The Sheriff's Response Team consists of a core group of trained personnel that can be mobilized quickly and are able to respond to a variety of emergencies and disasters in support of primary civil authorities. The SRT is an ancillary duty managed by the Mutual Aid Bureau under the command of the Special Operations Division.

SRT is an experienced and well-disciplined force, specifically trained to address crowd management and deal with large congregations that can deteriorate into an unlawful assembly or civil unrest. The team operates within the Incident Command System (ICS) under the Operations Section as a Strike Team that can be assigned as a law enforcement resource.

331.2 CAPABILITIES

The SRT consists of three (3) platoons separated into ten (10) squads. Platoons 1, 2 and 4 are each comprised of four (4) squads. These platoons consist of 3 Lieutenants or Captains, 12 Sergeants, and 52 full time Deputies. Platoon 3 is comprised of two (2) squads of Reserve Deputies. The minimal deployed staffing for Platoons 1, 2 and 4 will be one Lieutenant or Captain, one Sergeant, and four squads of 11 SRT members, unless authorized by the SRT Captain or designee. Platoon 3 can deploy with 2 squads in support of another platoon with a fulltime sworn Sergeant.

The SRT unit is also comprised of personnel trained in Field Force Extrication (FFE). Equipment and tools needed for FFE activity is maintained by the Mutual Aid Bureau. FFE equipment is stored in a manner for quick deployment and delivery.

The SRT unit is also comprised of personnel trained in the deployment of less lethal weapon systems. These members are known as Grenadiers. Grenadiers are authorized to carry and use less lethal weapons during an SRT activation in accordance with Policies 300 Use of Force and 384 Less Lethal.

331.3 DEFINITIONS

The following are definitions of terms used in this section:

Incident Commander (IC): The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and the release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.

Unified Command (UC): An ICS application used when more than one agency has incident jurisdiction or when incidents cross political jurisdictions.

Incident Command Post (ICP): The field location at which the primary tactical-level, on-scene incident command functions are performed. The ICP may be co-located with the incident base or other incident facilities.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Sheriff's Response Team (SRT)

Incident Action Plan (IAP): A written plan containing general objectives reflecting the overall strategy for managing an incident. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods.

Event Action Plan (EAP): A written plan containing general objectives reflecting the overall strategy for managing a planned event for a single or set number of operational periods. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the event should it extend into additional operational periods.

Incident Command System (ICS): A standardized approach to the command, control, and coordination of emergency response providing a common hierarchy within which responders from multiple agencies can be effective.

Strike Team (ST): A set number of resources of the same kind and type that have an established minimum number of personnel, common communications, and a leader. In the law enforcement community, strike teams are sometimes referred to as resource teams.

Staging Area: A temporary location for available resources in which personnel, supplies, and equipment await operational assignment.

Check-In: The process through which resources first report to an incident. All responders, regardless of agency affiliation, report in to receive an assignment in accordance with the Incident Commander or Unified Command's established procedures.

Grenadier: Personnel trained in deployment of less lethal munitions during an SRT activation. Grenadiers are assigned to individual squads and are authorized to carry less lethal munitions (PepperBall launcher, less lethal shotgun, 40mm launcher, and etc.) during a SRT activation.

Squad leaders will ensure SRT documentation is complete after an activation. A supervisor will staff the position unless authorized by the SRT Captain or designee.

Squad: Group of SRT members who work as a unit to accomplish an assigned mission. A squad may consist of 10-16 members.

Platoon: A group of squads, usually four (4), that work under the direction and control of a platoon Lieutenant or Captain to accomplish assigned missions.

331.4 ORGANIZATION

The SRT command structure is comprised of an Incident Management Team (IMT), which includes the Mutual Aid Bureau Captain and Special Enforcement Bureau Captain under the direction of the Special Operations Division Commander. The SRT IMT will not replace any Incident Command structure already in place during an activation and will function in support of the SRT platoons only.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Sheriff's Response Team (SRT)

The Mutual Aid Captain is the SRT Captain and is responsible for the overall readiness of the SRT program. The SRT Coordinator, Mutual Aid Sergeant, is responsible for the day-to-day operational needs, staffing, and training of the SRT platoons. SRT eligibility and selection will be the responsibility of the Mutual Aid Bureau.

331.5 REQUEST FOR USE OF SRT

Activation of the SRT can be initiated for different types of incidents and planned events that may necessitate coordination and support from the lead jurisdiction. A request for the SRT can be made from an Incident Commander, Commander, or OCSO Executive Command.

The SRT can be requested through the Department Commander, 24 hours a day. The opportunity for safe and successful mitigation of a major incident may be enhanced with a timely request. The SRT may be requested for planned events that have the potential to evolve into civil unrest or riot.

The SRT may be activated to respond to a variety of incidents, including but not limited to:

- Civil unrest
- Force protection
- Dignitary protection
- Mobile Field Force (MFF)
- Custody facility emergencies
- Critical infrastructure protection

SRT can provide additional personnel for:

- Searches
- Perimeters

- Crime scene security

331.6 NOTIFICATIONS

Upon request for the SRT, the Department Commander will contact the SRT Captain or designee. For pre-planned events, a Chief of Police Services or designee may contact the Mutual Aid Bureau Captain directly. The SRT Captain or designee will be informed of incident specific information regarding the nature of the incident, location of the Incident Command Post, resources involved, current incident status, and any mission critical information. Based on the situational analysis, the SRT Captain or designee will evaluate the appropriateness of an SRT response/activation, determine the type/amount of personnel required, and notify the Special Operations Division Commander.

Should an SRT response be appropriate, Mutual Aid staff can activate the Everbridge system to notify members of the SRT activation. Mutual Aid staff has the ability to activate the Everbridge

system remotely. SRT members will be informed to respond to the incident Staging Area for Check-in and assignment.

Major Incident Notifications will continue to be made by the Department Commander per Policy 358.

331.7 SRT RESPONSIBILITIES

The following explains the main responsibilities of the SRT.

- Support the department's mission and other local law enforcement agencies in the Operational Area with tactical response to critical incidents and emergency situations in a manner that reduces the likelihood for violence and disorder (Fires, Floods, Mudslides, Civil Unrest, etc.).
- Be prepared for significant events (Protests, Political Rallies, Natural Disasters, etc.).
- Provide a Law Enforcement Mutual Aid response to major incidents outside the Operational Area (Fires, Floods, Mudslides, Civil Unrest, etc.).
- Deploy rapidly.
- Produce a peaceful resolution to the given situation.
- Respond to spontaneous or pre-planned event.

331.8 SRT TRAINING SCHEDULE

The Special Operations Division's Mutual Aid Bureau is responsible for the design, coordination, and scheduling of SRT training. SRT training exercises will be conducted on a quarterly basis. 335.1 NOTICE

The purpose of this Notice is to remind all Members - line, supervisory, and management - of their obligation to comply with the Department's overtime policy. The Department requires that all eligible Members receive overtime compensation for any legitimate overtime hours worked. Below are detailed rules to ensure compliance with this policy. Failure to follow the overtime policy is misconduct.

Any knowing violation of these rules by any Member, regardless of rank, title or position, shall be immediately investigated and, if sustained, shall be considered misconduct and may result in discipline. Any Member who becomes aware of a violation of these rules shall promptly report it through their chain of command, bypassing the source (individual) of the problem or to the Professional Standards Division. Anyone who believes that they are being pressured or coerced to work overtime without compensation shall report it to his/her chain of command bypassing the source (individual) of the problem or the Professional Standards Division. Supervisors and managers shall not discourage or intimidate Members from submitting overtime requests that are mandated by law and/or Department policy.

Members are strongly encouraged to contact the Professional Standards Division with any questions about this Notice or the Department's overtime policy.

335.2 RESPONSIBILITIES

335.2.1 MEMBER'S RESPONSIBILITIES

1. No work may be done outside the Member's scheduled work hours unless approved in advance by his/her immediate supervisor. Court appearances and emergency situations requiring immediate law enforcement intervention or other immediate response are exceptions. In these critical situations, the Member shall notify a supervisor of his/her overtime status as soon as the incident or situation allows the Member to do so, but in no event later than the end of the Member's scheduled work shift for that day.
2. The Member shall not perform Department duties outside his/her scheduled work hours without reporting overtime worked on his/her timecard. Department policy is that all legitimate overtime shall be compensated. The Department does not permit Members to work overtime without compensation.
 - (a) Note: The Department has no "unwritten" rule or policy that Members should work overtime without compensation.
3. Members shall take their meal periods during their work shift and are required to properly document this time. In the event a Member is unable to take a meal break, they are required to report their inability to take a meal break to a supervisor before the end of their shift.

FLSA Employee Notice and Acknowledgement

4. To account for all hours (or fractions of hours) worked by all Members, all time worked shall be documented on the Member's timecard, even if the time was not pre-approved. The timecard entries shall include the Member's ability or inability to take a meal break. Further, Members who submit daily logs or other documentation of their daily activity shall ensure that the reports accurately document both their meal break and their duty time in conjunction with their respective timecards. Members who are not released for a free-time meal period must contact a supervisor before the end of their shift and record their overtime if the supervisor is unable to provide them with a free-time meal period. Moreover, Members are required to use the correct overtime code when documenting their overtime. Failure to request overtime compensation for any overtime worked, whether pre-approved or not, is a violation of Department policy.
 - (a) Note: The Department has no "unwritten" rule or policy that Members cannot request overtime for 15 minutes or less. If the Member worked the overtime, even for one-tenth of an hour, then the Member is required to document the overtime.
5. Under no circumstances may a Member who is eligible to receive overtime compensation maintain overtime hours in an informal manner that is inconsistent with established Department policies and procedures.

335.2.2 SUPERVISOR'S RESPONSIBILITIES

1. Supervisors must ensure that a subordinate is compensated for all legitimately worked overtime, whether pre-approved or not. If a Member violates the Department's overtime policy or procedures, a supervisor shall ensure that the Member signs in or reports the overtime and the supervisor shall counsel (or when appropriate initiate disciplinary actions against) the Member. All violations of the Department's overtime policy shall be documented.
2. In an effort to ensure that Members comply with Department policy regarding overtime, supervisors shall:
 - (a) Monitor Members to make sure they are not working outside their scheduled work hours without compensation and;
 - (b) Review timecards for completion and accuracy. If a timecard is missing a meal break notation, determine if the Member worked through his/her unpaid meal break.
3. If a watch commander or supervisor believes he or she needs to report to work early to prepare for roll call or other duties, he/she shall obtain prior approval from his/her immediate supervisor. If a watch commander or supervisor receives approval to report early for a shift, his/her work hours should be adjusted, if possible, so that they remain consistent with his or her total number of scheduled work hours, barring exigent circumstances.
4. It is a violation of Department policy to unnecessarily inhibit by action, statement, or other means any Member's legitimate submission of a report of lawfully earned overtime. If a Member worked the overtime, then the Member is required to submit for the overtime.

Electronic Communications Policy

336.1 INTRODUCTION

With the spread of telecommunications throughout the modern work place, the Department recognizes that Members shall shift the ways they share ideas, transmit information and contact others. As Members are connected to outside resources via the Internet, their use of new tools and systems brings new responsibilities as well as opportunities.

The "Internet" or "The Net" is not a single network; rather, it is a group of thousands of individual networks, which have chosen to allow traffic to pass among them. The traffic sent out to the Internet may actually traverse several different networks before it reaches its destination. Therefore, users involved in this internetworking must be aware of the load placed on other participating networks.

As a user of the network, you may be allowed to access other networks and/or the computer systems attached to those networks. Each network or system has its own set of policies and procedures. Actions, which are routinely allowed on one network system, may be controlled, or even forbidden, on others. It is the user responsibility to abide by the policies and procedures of these other networks.

This policy covers official dissemination tools such as Electronic mail, Gopher, World Wide Web, FTP, LOCIS, WAIS, and the establishment and management of electronic discussion groups (Listservs and USENET Newsgroups).

This policy is interpreted through the following guidelines.

336.2 USE OF THE INTERNET BY SHERIFF-CORONER'S DEPARTMENT STAFF

The Internet provides access to a wide variety of information resources that can aid Department Members in the performance of their jobs. Examples of job-related use of the Internet at the Department include, but are not limited to: accessing external databases and files to obtain reference information or conduct research; corresponding with other municipal Members, including those outside of Orange County; communicating with fellow committee members in professional organizations; collaborating on articles and other writing; connecting to resources that provide information related to Department functions.

- **GUIDELINE #1:** Department Members may use the Internet for reasonable exploration and sharpening of skills in accordance with the conditions governing access to their work areas.

Members may use the Internet during work hours to enhance their knowledge of electronic information resources and sharpen information technology skills. Internet use provides cost-effective self-training opportunities. By encouraging reasonable exploration of the Internet at work, the Department builds a pool of Internet-literate Members who can guide and encourage other Members in using the Internet. (It shall be eachcommander's responsibility to define "reasonable exploration" for their respective division).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Electronic Communications Policy

- **GUIDELINE #2:** Department Members must conform to the detailed "Standards of Conduct" which set out specific rules of etiquette for each of the available Internet vehicles.

OCSD Members have an obligation to learn about network etiquette (netiquette), customs and courtesies. Accepted procedures and guidelines should be followed when using electronic mail communications, participating in electronic mail discussion groups, using remote computer server, transferring files from other computers or disseminating information to others on the Internet. Members also have an obligation to be aware of computer security and privacy concerns and to guard against computer viruses.

- **GUIDELINE #3:** Use of the Internet by Department Members is a privilege, not a right, and may be revoked at any time for inappropriate conduct. All Department Members are responsible for complying with the policies, guidelines, and standards of conduct contained in this document. Violations may result in a revocation of Internet access privileges and other applicable penalties.

336.3 STANDARDS OF CONDUCT

In General:

Department Members have an obligation to use their access to the Internet in a responsible and informed way, conforming to network etiquette, customs, and courtesies. Use of the Internet encompasses many different interconnected networks and computer systems. Many of these systems are provided free of charge by universities, public service organizations, and commercial companies. Each system has its own rules and limitations and guests on these systems have an obligation to learn and abide by the rules.

Users should identify themselves properly when using any Internet service. They should also be careful about how they represent themselves, given that what they say or do could be interpreted as Department opinion or policy. Users should be aware that their conduct could reflect on the reputation of the Department and its Members.

As noted in Guideline #3, Policy 343.2, use of the Internet is a privilege, which may be revoked at any time for inappropriate conduct. The user is ultimately responsible for his/her actions in accessing network services.

Examples of inappropriate conduct include but are not limited to:

1. Use of the Internet for unlawful activities
2. Use of abusive or objectionable language in either public or private messages
3. Viewing or sending obscene material
4. Misrepresentation of oneself or the Department
5. Sending chain letters
6. Using official dissemination tools to distribute personal information
7. Harassment in any form, including the persistent annoyance of others or interference in others work, including the sending of unwanted mail

8. Other activities that could cause congestion and disruption of networks and systems
9. Sharing of jokes

336.4 APPROPRIATE USE: INTERNET ELECTRONIC MAIL AND FILE STORAGE AREAS

1. Whenever you send electronic mail, your e-mail address is included in each mail message. You are responsible for all electronic mail originating from your userID. Use caution when revealing your address, credit card numbers, or phone number or those of others.
2. Attempts to read, delete, copy, or modify the electronic mail of other users are prohibited.
3. The content and maintenance of a user's electronic mailbox and shared file storage areas are the user's responsibility.
4. Check your electronic mail daily.
5. Be aware that electronic mail is not private communication because others may be able to read or access mail. Electronic mail may best be regarded as a postcard rather than as a sealed letter.
6. Delete unwanted messages or files immediately because they take up disk storage space.
7. Keep messages stored in electronic mailboxes to a minimum.
8. Use capitalization sparingly. Capitalizing long portions of a communication is considered SHOUTING! Use *Asterisks* or _underscores_ for emphasis.
9. Transfer to disks for future reference any messages or files to be saved.
10. It is the responsibility of the user to scan any downloaded files for viruses

336.5 APPROPRIATE USE: ELECTRONIC DISCUSSION GROUPS

Members who participate in electronic discussion groups (listservs, Usenet newsgroups, etc.) should learn and abide by the rules and etiquette of those groups. Some general guidelines are:

1. When not officially representing the Department, if the message could be perceived as Department business or opinion, add a disclaimer to the message. An example of a disclaimer is:
 - (a) "The opinions expressed here are my own and do not necessarily represent those of the Sheriff-Coroners Department."
2. Keep messages short and to the point. Generally, limit messages to one subject.
3. Act in a professional and courteous manner. Avoid gossip and remember that statements about others may find their way back to them. Be patient with new users. Be clear and concise. Re-read messages before sending them to be sure that they will not be misunderstood. Read all messages carefully before responding.
4. Be aware of the potential audience in any discussion group and address them accordingly.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Electronic Communications Policy

5. Be careful when using sarcasm and humor. Identify intended humor with standard statements (e.g., "only joking folks" or with symbols (e.g.,-) smiley face.
6. Limit line length to fewer than 80 characters, because many systems cannot display longer lines.

336.6 APPROPRIATE USE: TELNET (USING REMOTE COMPUTERS)

When using TELNET to access remote computer systems, users should remember that they are guests on another institution's machine. To help ensure that other Internet users have access to the same information in a timely manner, remote users should observe a few basic courtesies:

1. Logoff a remote computer system when finished. Maintaining a connection that is not actively being used may prevent others from connecting to that system.
2. Read or obtain instructions or documentation files when using a system for the first time.
3. Be aware of time and resource limitations of remote systems. Adhere to any stated restrictions.

336.7 APPROPRIATE USE: FTP (FILE TRANSFER PROTOCOL)

When using FTP, users are guests on other systems. To ensure that other Internet users have access to the information, a few basic guidelines should be followed:

1. Login as anonymous and respond to the PASSWORD prompt with your electronic mail address, unless the system specifies otherwise. (If your e-mail address causes an error, enter GUEST for the password). Logoff the remote computer system when finished.
2. Avoid transferring files during peak business hours for the remote system, whenever possible.
3. Respect copyright and licensing agreements of transferred files.
4. It is the responsibility of the user to scan any downloaded files.

336.8 APPROPRIATE USE: PROVIDING ELECTRONIC INFORMATION

To ensure that information is disseminated properly, Members should observe a few basic guidelines:

1. Obtain the appropriate approvals, prior to placing any information on the Internet.
2. Restrict information that should only be available to Department Members.
3. Make every attempt to ensure that the information being provided is accurate and is kept up to date.
4. Never use official dissemination tools to distribute personal information.

336.9 SHERIFF-CORONER'S DATA NETWORK (SDN)

The Sheriff-Coroner's Data Network (SDN) is under the administration of the Technology Division.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Electronic Communications Policy

The Sheriff's Data Network is a high-speed network connecting all Department facilities, participating Orange County municipal police Departments and other state and federal law enforcement agencies. The SDN provides connectivity between desktop computers throughout the Department, as well as connection to other networks such as the Internet, C.L.E.T.S and the Statewide Integrated Narcotics System. The SDN currently provides access to a wide range of applications, such as AJS, LARS, AWSS, ACS, ROS, Cal Gangs (formerly GREAT) and the Department's Intranet Server. For an up-to-date list of applications available on the Sheriff's Data Network, contact the Technology Division help-desk.

Electronic mail and faxes, which are transmitted over both the Internet and Sheriff's Data Network, are subject to all provisions of this policy. The Technology Division is responsible for the administration of electronic communications via the Internet, Sheriff's Data Network and Orange County Intranet.

- (a) It is strongly recommended that users store important data files in their personal folder in the unit file server. These files shall be "backed up" daily to prevent loss of information. They cannot be accessed by other users and offer the highest degree of individual security. Any files stored on the local drive ("C" drive) of the computer are not secure against access by other users and will not be backed up to prevent loss of information. During routine maintenance computers may be replaced or hard drives erased without notice to the user. Data contained on the local drive ("C" drive) of these machines/hard drives may be lost to the user.

Members shall be allocated space for the storage of their files in the personal folder on the server, however, Members are encouraged to delete or archive personal, unused or obsolete data stored in Department computers (local hard drive or assigned space on server) as soon as practical. When maximum storage capacity is reached, Members shall be advised to remove files.

336.12 PERMISSIBLE USE

The use of any Department computer resource is restricted to those activities related to Department business. Use of computers and electronic communications by Members is authorized in support of the law enforcement mission of the Department and the administrative functions that support that mission. Department Members and other authorized users shall adhere to this policy as well as the guidelines set forth in the county Electronic Data Communications and Intranet/Internet Policies.

Members are expected to abide by the standards of conduct delineated in other volumes, chapters and sections of the Department's Manual of Policy and Procedures as they may be applied to the use of electronic communications and use and release of information.

336.13 AUTHORIZED PERSONS

Access to computers, networks, and electronic communications on behalf of the Department is limited to Department Members, reserves, volunteers, county Members, and expanded SDN participating police agency Members, contractors, subcontractors, and their Members conducting Department business. This does not prohibit the receiver of e-mail from divulging the contents of electronic communications messages to a Member's supervisor or to Department management.
- (b) Members who receive an electronic communication intended for another person shall attempt to notify the sender as soon as possible of the error.
- (c) Members who are authorized users of e-mail are responsible for reading their electronic mail as frequently as possible, or notify their supervisor that they are unable to read e-mail.

- (b) The Technology Division will ensure that all requests for any of the above connections are reviewed by knowledgeable staff. The purpose of the review will be to evaluate the risk and potential for illegal access to Departmental systems, stored records, and confidential information. These findings will be reported to the requesting Commander so that an informed decision can be made.

4. GUIDELINES

336.17 SECURITY

Only Department Members or other persons authorized by the Technology Division may access the Sheriff's Data Network. Those authorized shall be assigned a logon identification code (i.e., USERID or ID). Only the authorized owner of the ID is permitted to use the ID. Those assigned an ID shall be required to select a password. Members shall not disclose their computer passwords to another person, except as required under this policy. Members are responsible to keep their passwords secret and to change them if compromised. Any electronic communications sent using an Member's USERID and password is prima facie evidence the Member assigned the USERID and password generated the communications. Gun Violence Restraining Order

339.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for petitioning and serving gun violence restraining orders and accounting for the firearms obtained pursuant to those orders.

339.1.1 DEFINITIONS

Definitions related to this policy include:

Temporary Firearms Restraining Order: An order, in writing, signed by the court, prohibiting a named person from having in his or her custody or control, owning, purchasing, possessing, or receiving any firearms or ammunition. (Penal Code § 18100).

Gun Violence Restraining Order Property Receipt: A property receipt containing the following language:

"The release of firearms is subject to a California Department of Justice Bureau of Firearms Law Enforcement Gun Release (LEGR) Application (Penal Code § 33850). Application forms are available online at <http://ocsd.org/legr> or by calling (916) 227-7527. If you are notified the Department of Justice has determined you are eligible for return of the firearm to you, you will have 180 days to claim the firearm at 320 N. Flower St. Santa Ana, CA 92703. Please call 714-834-6482 to make an appointment. Any unclaimed firearm may be disposed of after the 180- day period has expired."

339.2 POLICY

It is the policy of the Orange County Sheriff's Department to petition and serve gun violence restraining orders in compliance with state law and to properly account for firearms and ammunition obtained by the Department pursuant to such orders.

339.3 GUN VIOLENCE RESTRAINING ORDERS

A deputy who reasonably believes a person is a present danger or danger in the near future to him/herself or another person by controlling, owning, purchasing, possessing, receiving, or otherwise having custody of a firearm should petition the court for a temporary firearms restraining order or a firearms emergency protective order. A deputy petitioning the court for a gun violence restraining order shall comply with notice, hearing and renewal requirements set forth in Penal Code § 18100, et seq.

Petitions should also describe why the order is necessary to prevent personal injury to the subject of the petition or another person because less-restrictive alternatives are ineffective or inadequate for the circumstances (Penal Code § 18125; Penal Code § 18150; Penal Code § 18175).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Gun Violence Restraining Order

Deputies petitioning the court should use the forms established by the Judicial Council (Penal Code § 18105). Form GV-100 is the Petition for Firearms Restraining Order; Form GV-110 is the Temporary Firearms Restraining Order; Form GV-109 is the Notice of Court Hearing; Form GV-200 is the Proof of Personal Service; and Form EPO-002 is the Firearms Emergency Protective Order. Forms can be located on the Orange County Sheriff's Department Document Center.

339.3.1 TEMPORARY FIREARMS RESTRAINING ORDER

Temporary firearms restraining orders may be obtained by a deputy sheriff or a family member of the person named on the order. If the criteria mentioned in section 345.3 are met, a deputy sheriff should seek a temporary firearms restraining order by completing a Petition for Firearms Restraining Order (GV-100), and completing sections one and two of the Temporary Firearms Restraining Order (GV-110) and completing the Notice of Court Hearing form (GV-109). A temporary firearms restraining order signed by a judicial officer shall be served in accordance with section 345.4 of this policy.

339.3.2 FIREARMS EMERGENCY PROTECTIVE ORDER

Under many circumstances it may not be practical to submit a written petition to the court. A deputy may orally request an order using the procedures for obtaining an Emergency Protective Order and using Judicial Council Form EPO-002 which is a Firearms Emergency Protective Order (Penal Code § 18140; Penal Code § 18145). A Firearms Emergency Protective Order approved by a judicial officer shall be served in accordance with section 345.4 of this policy.

A Firearms Emergency Protective Order is valid for 21 days beginning the day after the date of issuance. If a Firearms Emergency Protective Order is granted, the Firearms Emergency Protective Order should be forwarded to the responsible investigative unit for determination of further action including whether a Petition for a Firearms Restraining Order should be sought which, if granted, is valid for one year.

339.4 SERVICE OF GUN VIOLENCE RESTRAINING ORDERS

A deputy serving any gun violence restraining order shall:

1. Serve the order on the restrained person if the restrained person can reasonably be located.
2. Request that any firearms or ammunition be immediately surrendered and issue a Gun Violence Restraining Order Property Receipt, located on the Orange County Sheriff's Department Document Center, for the surrendered items. (Penal Code § 18120).
3. Take into temporary custody any firearm or other deadly weapon discovered in plain view or pursuant to consent or other lawful search (Penal Code § 18250).

5. File a copy of the proof of personal service form or emergency firearms protection order with the court as soon as practicable after issuance by faxing the order and proof

The deputy should also inform the restrained person that he/she is required, within 24 hours, to surrender to a law enforcement agency any other firearms and ammunition he/she owns or that are in his/her custody or control or sell them to a firearms dealer. This notification should be documented.

All firearms and ammunition collected shall be handled and booked in accordance with the Property and Evidence Policy.

As soon as practicable, the deputy SHALL also inform County Counsel at GVRO@occourts.org of the issuance of any temporary firearms restraining order (GV-110) to allow for a deputy county counsel to be assigned in the event of a hearing.

339.5 SEARCH WARRANTS

If a person who has been served with a gun violence restraining order refuses to surrender any firearm or ammunition, the deputy should consider whether to contact Investigations to seek a search warrant (Penal Code § 1524(a)(14)). If a search warrant is to be obtained, the preparation and service of the search warrant shall be done in accordance with applicable laws. Additionally, Penal Code § 1542.5 requires:

1. The deputy serving the warrant shall take custody of any firearm or ammunition that is controlled, possessed, or owned by the person who is the subject of the gun violence restraining order, including any discovered pursuant to the warrant, a consensual search, or other lawful search.

 - (a) The firearm or ammunition can be stored in a manner that does not allow the restrained person to have control or access.
 - (b) There is no evidence that the owner unlawfully possesses the firearm or ammunition.
3. If a locked gun safe owned by a person other than the subject of a gun violence restraining order is discovered, the deputy shall not search the contents of the safe unless the owner consents or there is a valid search warrant for the safe. Any search of the safe must be done in the owner's presence.

Command Posts are areas of land which may or may not contain multiple structures and/or vehicles. Command Posts are not defined solely as the structure or vehicle on the designated area of land. The space abutting a command post which may be closed to the public must remain open to media representatives. The legislature does not define the size of a command post, but the intent is to allow the media access to the immediate area surrounding the command post.

7. Members of the media are granted access to closed areas during demonstrations, marches, protests, and rallies. Those areas include the immediate areas surrounding a command post and areas closed by an established police line or rolling closure. Any exceptions to the above should only be considered for the furtherance of legitimate law enforcement purposes. The Department shall provide information, upon request, to media representatives through the PACE Division or the Records Division. Special Weapons and Tactics (SWAT)

342.1 PURPOSE AND SCOPE

The Orange County Sheriff's Department Special Weapons and Tactics (SWAT) Team was established to provide specialized support in the handling of critical incidents that may potentially exceed the scope and tactical capabilities of patrol personnel or investigative units.

These missions include but are not limited to hostage situations, barricaded suspects, sniper activities, high-risk search/arrest warrants, weapons of mass destruction (WMD), terrorist events, and other hazardous incidents.

342.2 MISSION STATEMENT

The mission of SWAT is to preserve and protect the lives of the people of Orange County. We stand ready to manage high-risk situations by providing effective and professional tactical support through superior training, tactics, and equipment, in order to safely resolve any event in which conventional law enforcement response has proven ineffective. We serve the people of Orange County through our unwavering commitment, maintaining our tradition of professionalism and tactical excellence.

342.3 SWAT USE OF FORCE POLICY

All Deputies assigned to SWAT will adhere to the Orange County Sheriff's Department Use of Force Policy, Policy 300.

342.4 SWAT TEAM ACTIVATION AND SUPPORT

342.4.1 TACTICAL SUPPORT ELEMENT (TSE) ACTIVATION

Any Deputy, Sergeant, or Supervisor managing a critical, ongoing incident, may request a Tactical Support Element (TSE), per POM Section 73, for consultation regarding the appropriateness of a SWAT activation or tactical advice and support. A tactical response may involve SWAT, Tactical Apprehension Team (TAT), the Crisis Negotiation Team (CNT), Hazardous Devices Squad (HDS), or a combination of any of the four. Requests must be made through the Emergency Communication Bureau Department Commander, who will then contact the Bureau Commander of the Special Enforcement Bureau, or their designee, to authorize tactical support.

342.4.2 SWAT TEAM ACTIVATION

If a tactical response is deemed appropriate, the SWAT Commander, or their designee, will notify the Department Commander that the SWAT team will be activated and respond. The number of operators and resources deployed will be at the discretion of the SWAT Sergeants and Team Leaders.

The following are some of the high-risk elements that may often necessitate a SWAT team response:

1. Barricaded suspect(s) who are armed or believed to be armed

To qualify for designation by the Sheriff as a Level I-D reserve, the reserve deputy must have completed two years and five hundred (500) working hours of field experience as a reserve deputy (OCCO 1-2-120.).

348.6 RESERVE DEPUTY MEETINGS

All reserve deputy meetings shall be scheduled and conducted by the Reserve Coordinator. All reserve deputies are required to attend scheduled meetings. Any absences must be satisfactorily explained to the Reserve Coordinator.

348.6.1 IDENTIFICATION OF RESERVE DEPUTIES/PROFESSIONAL SERVICE RESPONDERS

All reserve deputies shall be issued a uniform badge and a Department identification card. The uniform badge shall be the same as that worn by a regular full-time deputy. No "rank" badges shall be issued to reserve deputies. The identification card shall be white with a green header and footer. "Reserve" shall be indicated on the card.

Active Level 1D reserve deputies that have successfully completed the FTO Training Program may be issued a non-rank flat badge in addition to their uniform pin on badge.

Professional Services Responders (PSR) shall be issued the standard identification card (blue) indicating "Professional Services Responder." PSR shall not be issued badges.

348.6.2 INVESTIGATIONS AND COMPLAINTS

If a reserve deputy has a complaint made against them or becomes involved in an internal investigation, that complaint or internal investigation may be investigated by the Reserve Coordinator at the discretion of the Patrol Operations Command Assistant Sheriff.

348.6.3 RESERVE DEPUTY EVALUATIONS

While in training, reserves shall be continuously evaluated using standardized daily and weekly observation reports. The reserve shall be considered a trainee until all of the training phases have been completed. Reserves having completed their field training shall be evaluated annually using performance dimensions applicable to the duties and authorities granted to that reserve.

348.7 FIREARMS REQUIREMENTS

Penal Code § 830.6(a)(1) designates a reserve deputy as having peace officer powers during their assigned tour of duty, provided the reserve deputy qualifies or falls within the provisions of Penal Code § 832.6.

348.7.1 CARRYING WEAPON ON DUTY

Penal Code § 830.6(a)(1) permits qualified reserve deputies to carry a loaded firearm while on-duty. It is the policy of this Department to allow reserves to carry firearms only while on-duty or to and from duty.

348.7.2 CONCEALED FIREARMS PROHIBITED

No reserve deputy shall be permitted to carry a concealed firearm while in an off-duty capacity, other than to and from work, except those reserve deputies who are classified as Level I-D or possess a valid CCW license. An instance may arise where a reserve deputy is assigned to a plainclothes detail for their assigned tour of duty. Under these circumstances, the reserve deputy may be permitted to carry a weapon more suited to the assignment with the knowledge and approval of the supervisor in charge of the detail.

Any reserve deputy who is permitted to carry a firearm other than the assigned duty weapon may do so only after verifying that the weapon conforms to Departmental standards. The weapon must be registered by the reserve deputy and be inspected and certified as fit for service by a Departmental armorer.

Before being allowed to carry any optional firearm during an assigned tour of duty, the reserve deputy shall have demonstrated their proficiency with said weapon.

When a reserve deputy has satisfactorily completed all three phases of training as outlined in Policy Manual § 350.4, they may apply to the Professional Standards Division for a CCW License per Penal Code §26170. The decision to issue a concealed weapon license shall be made by the Sheriff with input from the Reserve Program Coordinator and administrative staff. In issuing a concealed weapon license, a reserve deputy's qualification shall be individually judged. A reserve deputy's dedication to the program and demonstrated maturity, among other factors, shall be considered before a concealed weapon permit shall be issued. Once issued, the concealed weapon license shall be valid only for as long as the reserve deputy remains in good standing with the Orange County Sheriff-Coroner Department Reserve Deputy Program.

348.7.3 RESERVE DEPUTY FIREARM TRAINING

All reserve deputies are required to maintain proficiency with firearms used in the course of their assignments. Reserve deputies shall comply with all areas of the firearms training section of the Policy Manual, with the following exceptions:

1. All reserve deputies are required to qualify quarterly
2. Reserve deputies may fire at the Department approved range at least once each month and more often with the approval of the Reserve Coordinator
3. Should a reserve deputy fail to qualify quarterly, that reserve deputy shall not be allowed to carry a firearm until they have reestablished their proficiency

348.8 EMERGENCY CALL-OUT FOR RESERVE PERSONNEL

The Reserve Coordinator shall develop a plan outlining an emergency call-out procedure for reserve personnel.

348.9 SEPARATION FROM SERVICE

1. Depending on the length of service and age at separation, reserve deputies honorably separating from service to the Department may be issued a Department identification card in accordance with guidelines in Policy § 1053.6.2 Department Badge(s) /

Identification Card. The issued Department identification card shall state, "Honorably Served" with dates of service to the Department and shall NOT indicate a "CCW Approved" endorsement unless the reserve deputy meets the requirements of Penal Code § 26300(c)(2).

2. Reserve deputies honorably separating from service who meet the guidelines for issuance of a Department identification card may also receive a flat badge, subject to the approval of the Sheriff (Policy § 1053.6.2).
3. Reserve deputies separating from service to the Department who meet the requirements of Penal Code § 26300(c)(2) shall be issued a CCW endorsement. All other reserve deputies separating from service to the Department shall not be issued a CCW endorsement. CCW licenses may be applied for under the provisions of Policy § 218 Carry Concealed Weapon License and Penal Code § 26150.

The Department also expressly reserves the right to access and audit any and all communications, including content that is sent, received, and/or stored through the use of such service.

352.1.2 DEFINITIONS

The following definitions relate to terms used within this policy:

Computer System: All computers (on-site and portable), hardware, software, and resources owned, leased, rented, or licensed by the Orange County Sheriff-Coroner Department, which are provided for official use by agency Members. This shall include all access to, and use of, Internet Service Providers (ISP) or other service providers provided by or through the agency or agency funding.

When requested by a Member's supervisor, or during the course of regular duties requiring such information, a member(s) of the agency's information systems staff may extract, download, or otherwise obtain any and all temporary or permanent files residing or located in or on the system.

Orange County Sheriff-Coroner Department

Department Computer Use

Reasons for inspection or review may include, but are not limited to system malfunctions, problems, or general system failure; a lawsuit against the agency involving the Member, or related to the Member's duties; an alleged or suspected violation of a Department policy; or a need to perform or provide a service when the Member is unavailable.

352.3 AGENCY PROPERTY

All information, data, documents, communications, and other entries initiated on, sent to or from, or accessed on any Department computer, or through the Department computer system on any other computer, whether downloaded or transferred from the original Department computer, shall remain the exclusive property of the Department and shall not be available for personal or non-Departmental use without the expressed authorization of a Member's supervisor.

352.4 UNAUTHORIZED USE OF SOFTWARE

Members shall not copy or duplicate any copyrighted or licensed software except for a single copy for backup purposes in accordance with the software company's copyright and license agreement. To reduce the risk of computer virus or malicious software infection, Members shall not install any unlicensed or unauthorized software on any Department computer. Members shall not install personal copies of any software onto any Department computer. Any files or software that a Member finds necessary to upload onto a Department computer or network shall be done so only with the approval of the Department IT specialist and only after being properly scanned for malicious attachments.

No Member shall knowingly make, acquire, or use unauthorized copies of computer software not licensed to the agency while on agency premises or on an agency computer system. Such unauthorized use of software exposes the agency and involved Members to severe civil and criminal penalties.

352.5 INTERNET USE

Internet access is primarily for County business. You may access the Internet for limited personal use only during non-working time and in strict compliance with policy. If there is any doubt about whether an activity is appropriate, consult with your Department Head or his/her designee.

The Department shall actively monitor use of the Internet, to ensure that anyone using Department access to the Internet does not engage in any unethical, illegal, or unacceptable activity. Examples of unethical, illegal, or unacceptable activities include, but are not limited to:

1. Activities outlined in the section "Prohibited Activities" within the latest Orange County's Information Technology Usage Policy.
2. Seeking to gain or gaining unauthorized access to information resources.
3. Gaining, communicating, or using passwords belonging to other users.

10. Downloading copyrighted media and/or unlicensed software program files.

The use of the Internet is a privilege, not a right. If a Member is found to have engaged in any unethical, illegal, unacceptable activities, or violation of this policy, such activity shall subject the user to discipline consistent with any applicable labor agreement or policy including revocation of rights to Internet access.

In order to maintain network security, all Members using County access to the Internet are expected to comply with the following:

1. All files downloaded from the Internet must be scanned with anti-virus software approved by Information Services.
2. Make sure the computer which is used for Internet access is protected by anti-virus software.
3. No computer used for Internet access can be connected to another Internet Service Provider other than what is provided by the Department.

Any Member that feels he or she can identify a security concern or feels that his or her system may be infected or intruded with a computer virus should perform no further work on the computer and immediately contact the System help desk.

The Information Service Bureau reserves the rights to block accesses which are determined to pose security threats or excessive loads to the information and network infrastructure.

352.6 PROTECTION OF AGENCY SYSTEMS AND FILES

All Members have a duty to protect the system and related systems and devices from physical and environmental damage and are responsible for the correct use, operation, care, and maintenance of the system.

It is expressly prohibited for a Member to allow an unauthorized user to access the system at any time or for any reason.

352.6.1 STORAGE

Network drive space is a resource provided for the purpose of storing work-related materials and files. All Members are responsible for managing this space, which includes deleting nonessential or obsolete files to keep space utilization at a minimum. Personal media files such as music files, personal images, or personal video clips are not to be stored on network drives. The Department allots a specific amount of network drive space to meet the needs of individuals and Departments. Information Systems is responsible for monitoring network drive space and notifying individuals and Departments when they exceed the allotted space. Individuals and Departments may request a quota increase. Upon receipt of a request, the drive space shall be reviewed for compliance with the data storage policy. Additional space may be allocated based upon need and availability of resources.

352.6.2 NETWORK DRIVES

The following is a list of the most common drives accessible to Members:

1. The H:\ drive is the individual network drive. Disk space on this drive is to be used to store work related information. Each Member is allotted 500 megabytes of individual network drive space. If additional disk space is needed, please place a service request with your command's designated staff to submit an authorization request. Once approved for more allocated space you will be contacted by Systems Personnel.
2. The S:\ drive is the commandal drive. This drive serves as active file storage and file sharing within each command.

352.6.3 BACKUP SCHEDULE

All network drives are backed up nightly. Local drives on individual desktops and laptops are not backed up. Local drives typically include C:\, D:\, and E:\ drives. The "My Documents" folder is usually saved on a local drive, typically the C:\ drive on computers. Peripheral devices such as thumb drives (other names include jump drives or thumb drives) are not backed up. If a failure occurs on the local drives or on a thumb drive, there is the risk that files may not be retrievable.

352.6.4 PROCEDURES

Members should review the contents of their drives that they have access to and delete any files that are not allowed within this policy. Suggestions for reducing the size of the network drives include:

1. Remove personal files from all network drives.
2. Remove outdated files that are no longer needed or have been replaced by new files.
3. Review with the Departmental supervisor to identify any materials that should be removed from the Departmental drive. If there are old materials that should be archived, the Departments can send a request to the Help Desk to arrange for archiving to media.

352.6.5 RATIONALE & RESPONSIBILITIES

Network drive resources are provided to ensure safe and secure locations where Members may store current, work-related documents. Prudent use of this resource ensures that everyone has the storage they need to execute their daily tasks and maintain documents and files.

Users are expected to use Department resources in a responsible manner. Information Systems is responsible for ensuring that the storage resources are sufficient to meet the Member and Department needs. When an exception to this policy is granted, Information Systems is responsible for reviewing all requests for additional allotments and making appropriate adjustments as deemed essential to the operation of the Department.

Major Incident Notification

358.1 PURPOSE AND SCOPE

Incidents that are of significant nature and that fall into listed criteria require notification to certain Members of this Department. It is critical that staff Members are informed of certain incidents in order to apprise their superiors and properly address inquiries from members of the press.

358.2 MINIMUM CRITERIA FOR NOTIFICATION

Most situations where the media show a strong interest are also of interest to the Sheriff and the affected Commander. The following list of incident types is provided as a guide for notification and is not intended to be all-inclusive:

1. Homicides
2. Traffic accidents with fatalities
3. Officer-involved shooting - on or off duty (See Policy Manual § 310.53 for special notifications)
4. Significant injury or death to Member - on or off duty
5. Death of a prominent Orange County official
6. Arrest of Department Member or prominent Orange County official
7. Aircraft crash with major damage and/or injury or death

The Department Commander shall attempt to make the notifications as soon as practicable. Notification should be made by calling the home telephone number first and then by any other available contact numbers.

Limited English Proficiency Services

368.1 PURPOSE AND SCOPE

Language barriers can sometimes inhibit or even prohibit individuals with limited English proficiency (LEP) from gaining meaningful access to, or an understanding of important rights, obligations, and services. It is therefore the policy of this Department to take all reasonable steps to ensure timely and equal access to all individuals, regardless of national origin or primary language (Title VI of the Civil Rights Act of 1964, § 601, 42 United States Code 2000d and the Omnibus Crime Control and Safe Streets Act of 1968).

368.1.1 DEFINITIONS

The following definitions relate to terms used within this policy:

Authorized interpreter: Any Member who is bilingual and has successfully completed Department-prescribed interpreter training and is authorized to act as an interpreter or translator.

Bilingual: The ability to communicate in two languages fluently, including the ability to communicate technical and law enforcement terminology. Bilingual includes a variety of skill levels. For example, some bilingual individuals may be fluent enough to engage in direct communications in a non-English language but insufficiently fluent to interpret or translate from one language into another. For example, a bilingual individual, depending on his/her skill level, could be utilized to communicate fluently in a non-English language but not to interpret between two languages if he/she does not possess the specialized skills necessary to interpret between two languages effectively. In order to be utilized to interpret or translate from one language into another, an individual must possess the skill, training and demonstrated competence to do so. For purposes of this policy, Members, in order to be identified as bilingual, must initially and periodically demonstrate, through a procedure to be established by the Department, their level of skill and competence such that the Department is able to determine the purposes for which an Member's language skills may be used.

Interpretation: The act of listening to a communication in one language (source language) and orally converting it to another language (target language) while retaining the same meaning.

Limited English Proficient (LEP): Designates individuals whose primary language is not English and who have a limited ability to read, write, speak or understand English. LEP individuals may be competent in certain types of communication (e.g., speaking or understanding), but still be LEP for other purposes (e.g., reading or writing). Similarly, LEP designations are context-specific: An individual may possess sufficient English language skills to function in one setting but these skills may be insufficient in other situations.

Translation: The replacement of written text from one language (source language) into an equivalent written text (target language).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Limited English Proficiency Services

368.2 POLICY

Since there are potentially hundreds of languages Department Members could encounter, the Department shall utilize the four-factor analysis outlined in the Department of Justice LEP *Guidance to Federal Financial Assistance Recipients* available at the DOJ [website](#) in determining which measures will provide reasonable and meaningful access to various rights, obligations, services, and programs to everyone. It is recognized that law enforcement contacts and circumstances shall vary considerably. This analysis therefore, must remain flexible and requires an ongoing balance of the following four factors:

1. The number or proportion of LEP individuals eligible to be served or likely to be encountered by Department personnel or who may benefit from programs or services within the Department's jurisdiction or a particular geographic area.
2. The frequency with which LEP individuals are likely to come in contact with Department personnel, programs, or services.
3. The nature and importance of the contact, program, information, or service provided.
4. The cost of providing LEP assistance and the resources available.

As indicated above, the intent of this analysis is to provide a balance that reasonably ensures meaningful access by LEP individuals to critical services while not imposing undue burdens on the Department its Members.

While this Department shall not discriminate against or deny any individual access to services, rights, or programs based upon national origin or any other protected interest or right, the above analysis shall be utilized to determine the availability and level of assistance provided to any LEP individual or group.

368.2.1 IDENTIFICATION OF LEP INDIVIDUAL'S LANGUAGE

The Department shall utilize all reasonably available tools, such as language identification cards, when attempting to determine an LEP individual's primary language in an effort to avoid misidentifying that language.

368.3 LEP COORDINATOR

Depending on the balance of the above four factors, this Department shall make every reasonable effort to provide meaningful and timely assistance to LEP individuals through a variety of services, where available. LEP individuals may elect to accept interpreter services offered by the Department at no cost or choose to provide their own interpreter services at their own expense. Department Members should document in any related report whether the LEP individual elected to use interpreter services provided by the Department or some other source. Department-provided interpreter services may include, but are not limited to, the assistance methods described in this section.

368.3.1 BILINGUAL STAFF

Members utilized for LEP services need not be certified as interpreters, but must have demonstrated, through established Department procedures, a level of competence to ascertain

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Limited English Proficiency Services

whether the Member's language skills are best suited to monolingual communications, interpretation, translation, or all or none of these functions. All Members used for communication with LEP individuals must demonstrate knowledge of the ethical issues involved when functioning as a language conduit. In addition, Members who serve as interpreters and/or translators must have demonstrated competence in both English and the non-English language involved and knowledge of the functions of an interpreter including but not limited to the ethics requirements of interpretation. When bilingual Members of this Department are not available, members from other city departments who have the requisite training may be requested.

368.3.2 WRITTEN FORMS AND GUIDELINES

This Department shall determine the most frequently used and critical forms and guidelines and translate these documents into the languages most likely to be requested. The Department shall arrange to make these translated forms available to Departmental Members and other appropriate individuals.

368.3.3 AUDIO RECORDINGS

From time to time, the Department may develop audio recordings of important information needed by LEP individuals for broadcast in a language most likely to be understood by involved LEP individuals.

368.3.4 TELEPHONE INTERPRETER SERVICES

The Department Commander and Emergency Communications Bureau Captain will maintain a list of qualified interpreter services which, upon approval of a supervisor can be contacted to assist LEP individuals. Such services shall be available to, among others, Department personnel who utilize official cellular telephones.

368.3.5 COMMUNITY VOLUNTEERS AND OTHER SOURCES OF INTERPRETATION

Where competent bilingual Departmental Members or other County-certified staff are unavailable to assist, responsible members of the community who have demonstrated competence in either monolingual (direct) communication and/or in interpretation and translation (as noted in above) may be called upon to assist in communication efforts. Sources for these individuals may include neighboring police departments, university languages and linguistics departments, local businesses, banks, churches, neighborhood leaders, and school officials. Department Members should ensure that community members are able to provide unbiased assistance. The nature of the contact and relationship between the LEP individual and the individual offering services must be carefully considered (e.g., victim/suspect).

Except for exigent or very informal and non-confrontational circumstances, the use of an LEP individual's bilingual friends or family members, particularly children, are generally not recommended and Department Members shall make case-by-case determinations on the appropriateness of using such individuals (for further guidance see: Section V(3) of the DOJ Final Guidance available at the DOJ [website](#)).

Orange County SD Policy Manual

368.4 FOUR-FACTOR ANALYSIS

While all law enforcement contacts, services and individual rights are important, this Department shall utilize the four-factor analysis to prioritize language services so that they may be targeted where they are most needed.

Whenever any Member of this Department is required to complete a report or when other documentation and interpretation or translation services are provided to any involved LEP individual, such services should be noted in the related report.

368.4.1 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

In order to provide LEP individuals with meaningful access to police services when they are victims of, or witnesses to, alleged criminal activity or other emergencies, this Department has designated its 9-1-1 lines as its top priority for language services. Department Members shall make every reasonable effort to promptly accommodate such LEP individuals utilizing 9-1-1 lines through any or all of the above resources.

While 9-1-1 calls shall receive top priority, it is also important that reasonable efforts be made to accommodate LEP individuals seeking more routine access to services and information from this Department by utilizing all the methods listed in § 368.3 above.

368.4.2 EMERGENCY CALLS TO 9-1-1

When a 9-1-1 call-taker receives a call and determines that the caller is an LEP individual the call-taker should quickly determine whether or not sufficient information can be obtained to initiate an appropriate emergency response. If language assistance is still needed and the language is known, the call-taker should immediately transfer the LEP caller to an available authorized interpreter to handle the call.

If an appropriate authorized interpreter is not available, the call-taker shall promptly contact the contracted telephonic interpretation service directly for assistance in completing the call. Dispatchers shall make every reasonable effort to dispatch a bilingual officer to the assignment, if available.

The Department shall take reasonable steps and shall work with the Professional Standards Division to hire and develop in-house language capacity in Emergency Communications Bureau by hiring qualified personnel with specific language skills.

368.4.3 FIELD ENFORCEMENT AND INVESTIGATIONS

Field enforcement shall generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control, and other routine field contacts which may involve LEP individuals. The scope and nature of these activities and contacts shall inevitably vary. Department Members must assess each situation to determine the need and availability for translation services to all involved LEP individuals and utilize the methods outlined in § 368.3 to provide appropriate language assistance.

Although not every situation can be addressed in this policy, it is important that Department Members are able to effectively communicate the reason for a contact, the need for information,

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Limited English Proficiency Services

and the meaning or consequences of any enforcement action taken with an LEP individual. It would, for example, be meaningless to request consent to search if the person requesting is unable to effectively communicate with an LEP individual.

368.4.4 INVESTIGATIVE INTERVIEWS

In any situation where the translation of an interview may contain information that might be used in a criminal trial, it is important to take certain steps to improve the chances of admissibility. This includes interviews conducted during an investigation with victims, witnesses, and suspects. In such situations, audio recordings of the interviews should be made when reasonably possible. Identification and contact information for the interpreter (e.g., name, address) should be documented so that the person can be subpoenaed for trial if necessary.

Any person selected as an interpreter and/or translator must have demonstrated competence in both English and the non-English language involved and knowledge of the functions of an interpreter that allows for correct and effective translation, and should not be a person with an interest in the case. The person providing interpretation or translation services may be required to establish the accuracy and trustworthiness of the interpretation or translation to the court.

368.4.5 CUSTODIAL INTERROGATIONS AND BOOKINGS

In an effort to ensure the rights of LEP individuals are protected during arrest and custodial interrogation, this Department places a high priority on providing competent interpretation during such situations. It is further recognized that miscommunication during custodial interrogations may have a substantial impact on the evidence presented in any related criminal prosecution. As such, Department Members providing interpretation services or translated forms in these situations shall have demonstrated competence in interpretation/translation and make every reasonable effort to accurately interpret/translate all communications with LEP individuals.

In order to ensure that translations during criminal investigations are documented accurately and admissible as evidence, audio recordings of interrogations, victim interviews, and witness interviews should be used whenever reasonably possible.

Members providing interpretation or translation services shall also be aware of the inherent communication impediments to gathering information from the LEP individual throughout the booking process or any other situation in which an LEP individual is within the control of Department Members. Medical screening questions are commonly used to elicit information on an individual's medical needs, suicidal inclinations, presence of contagious diseases, potential illness, resulting symptoms upon withdrawal from certain medications, or the need to segregate the arrestee from other prisoners, therefore it is important for Members of this Department to make every reasonable effort to provide effective language services in these situations.

368.4.6 COMPLAINTS

The Department shall ensure access to LEP persons who wish to file a complaint regarding the discharge of Department duties. The Department may do so by providing interpretation assistance

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Limited English Proficiency Services

or translated forms to such individuals. If the Department responds to complaints filed by LEP individuals, the Department shall attempt to communicate its response in an accessible manner.

368.4.7 COMMUNITY OUTREACH

Community outreach programs and other such services offered by this Department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. As such, this Department shall continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services to LEP individuals and groups.

368.5 TYPES OF LEP ASSISTANCE AVAILABLE

In an effort to ensure that all Members in public contact positions (or having contact with those in custody) are properly trained, the Department shall provide periodic training to Members about Departmental LEP policies and procedure, including how to access Department-authorized, telephonic, and in-person interpreters and other available resources. LEP training shall be provided for new Members and refresher training shall be provided at least once every two years thereafter.

368.6 WRITTEN FORMS AND GUIDELINES

1. Department Members who are called upon to interpret, translate, or provide other language assistance shall be trained annually on language skills competency including specialized terminology and ethical considerations.
2. Assessment: The Department Member identified as bilingual, who are willing to act as authorized interpreters, shall have their language skills assessed by a professional interpreter using a structured assessment tool established by the Commander. Members found proficient in interpreting into and from the target language shall be placed conditionally on the authorized interpreters list.
3. Training: All Members conditionally placed on the authorized interpreter list must successfully complete the prescribed interpreter training within one year. After successful completion of interpreter training, the individual shall be unconditionally placed on the authorized interpreter list. To complete interpreter training successfully, an interpreter must demonstrate proficiency in and ability to communicate information accurately in both English and in the target language; demonstrate knowledge in both languages of any specialized terms or phraseology and understand and adhere to the interpreter role without deviating into other roles, such as counselor or legal advisor.
4. Refresher course for authorized interpreters: Members who have been unconditionally placed on the authorized interpreter list must receive refresher training annually or they shall be removed from the authorized interpreter list. The Training Division shall be responsible for coordinating the annual refresher training and shall maintain a record of training that the interpreters have received.

The LEP Coordinator shall ensure that the authorized interpreters list is kept current and a copy is forwarded to Emergency Communications Bureau.

368.7 AUDIO RECORDINGS

The following materials shall be made available to Members to assist in providing access and service to LEP individuals:

1. A list of Departmental bilingual Members, languages spoken, and contact and shift information
2. A list of Department-certified interpretation services, bilingual interpreters, languages spoken, and contact and availability information
3. The telephone number and access code of telephonic interpretation services
4. Language identification cards
5. Translated *Miranda* warning cards and other frequently used documents
6. Audio recordings/warnings that are developed in non-English languages

368.8 QUALIFIED BILINGUAL MEMBERS

368.8.1 LEP COORDINATOR

The Sheriff shall appoint an LEP Coordinator who is responsible for coordinating and implementing all aspects of the Department LEP services to LEP individuals.

The LEP Coordinator shall assess demographic data, review contracted language access services utilization data, and consult with community-based organizations annually in order to determine if there are additional languages into which vital documents should be translated.

The LEP Coordinator shall also be responsible for annually reviewing all new documents issued by the Department to assess whether they should be considered vital documents and be translated.

Transgender Policy

375.1 PURPOSE

The Orange County Sheriff's Department is committed to working with the diverse communities it serves. The Department has been working with the LGBTQ (lesbian, gay, bisexual, transgender, and queer (and/or questioning) Community to establish procedures that create mutual understanding, prevent discrimination and conflict, and ensure the appropriate treatment of transgender individuals. This policy will apply to all Department Members.

Department Members are also required to comply with Policies 328 (Policy Against Unlawful Harassment and Discrimination) and 402 (Bias Free Policing).

375.1.1 DEFINITIONS

Transgender: A term used to refer to a person who is born with the genetic traits and anatomy of one sex (i.e., male or female) and self identifies as another gender (i.e., feminine or masculine). A transgender person can be pre-operative, post-operative, or non-operative.

Gender identity: A person's sense of being a man or a woman.

Gender expression: Displays of gender identity through dress, demeanor, language and which may or may not conform to the socially defined behaviors and characteristics typically associated with being either masculine or feminine.

Gender Non-Conforming: Individuals who display gender traits which are not generally associated with the sex assigned to them at birth. Gender Non-Conforming individuals may or may not identify as male, female, or transgender.

Cisgender: A term used for a person who is not transgender.

Sex assigned at birth: The designation of "female" or "male" sex based on a visual inspection of anatomy at birth by a medical professional.

Apart from one's birth sex as male or female, an individual may identify as a particular gender and express the gender in various ways. For example, males express masculinity in different ways and females express femininity in different ways. Likewise, transgender individuals express femininity and masculinity in different ways and in ways that may not be consistent with their sex at birth.

375.2 POLICY

The Equal Protection Clause of the Fourteenth Amendment to the United States Constitution prohibits differential treatment of similarly situated people based on certain protected characteristics, including sex, transgender status, and perceived failure to conform to gender stereotypes. Discrimination against transgender and gender-non-conforming people is also prohibited in virtually every area of life in California including housing, employment, education, insurance, and public accommodations.

375.4 DETERMINING HOW TO ADDRESS A TRANSGENDER INDIVIDUAL

1. When a person identifies himself/herself as transgender, Department Members shall respect the expressed gender.
2. If the individual does not self-identify as transgender, the following shall apply:
 - (a) When the intention of a person's gender presentation is clear to a reasonable person (based on attire and other cues), it is appropriate to use this as a basis for gender determination.
 - (b) When a person's gender is unclear or the Department Member is not certain of the person's gender identity, it is appropriate to inquire how the individual wishes to be addressed (e.g., Sir, Ma'am) and the name by which the individual wishes to be addressed. This name shall be noted as an "also known as" (AKA) if it differs from the individual's legal name.
 - (c) If a transgender person is unwilling to provide information that enables the Department Member to know what name and/or gender is preferable, then the Department Member should make a determination about the person's gender based on the person's gender expression (i.e., clothing, language, demeanor) and any other evidence available to the Department Member. For example, if the person is clearly dressed like a woman and is presenting as a woman, then the person should be recognized and addressed as a woman.
3. Any information obtained about an individual's transgender status (e.g., preferred name and gender pronoun) should be documented and provided to relevant Department Members for the purpose of ensuring continuity of appropriate treatment.

Less Lethal

384.1 POLICY

The Department is committed to reducing the potential for violent confrontations. Less lethal systems are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation. While the option to consider a less lethal system is available, nothing in this policy shall require any Member to deploy such an option when the Member reasonably believes, based on the totality of the circumstances, that the use of deadly force is necessary, in accordance with policy 300. This Policy identifies the types of less lethal systems authorized by the Department and requirements and guidelines for use.

384.1.1 DEFINITIONS

Kinetic energy projectile: Any type of device designed as less lethal, to be launched from any device as a projectile that may cause bodily injury through the transfer of kinetic energy and blunt force trauma. The term includes but is not limited to items commonly referred to as rubber bullets, plastic bullets, beanbag rounds, and foam tipped plastic rounds (Penal Code § 13652).

Chemical agents: Any chemical that can rapidly produce sensory irritation or disabling physical effects in humans, which disappear within a short time following termination of exposure. The term includes, but is not limited to, chloroacetophenone tear gas, commonly known as CN tear gas; 2-chlorobenzalmalononitrile gas, commonly known as CS gas; and items commonly referred to as pepperballs, pepper spray, or oleoresin capsicum (Penal Code § 13652).

384.2 USER REQUIREMENTS

1. Only Members who have completed the course of instruction on the use of the Department's less lethal systems are authorized to carry or use them. Members who have been trained in the use of less lethal systems may deploy the device when the use of force complies with Department policies. The option to deploy a less lethal system shall be left to the discretion of the involved Members based upon the totality of the circumstances at that time.
2. The less lethal system may be used for the purpose of compelling an individual to cease his or her violent or potentially violent actions by using the less lethal munitions and kinetic energy projectile directly on the suspect.
3. An evaluation of the tactical situation shall be made by the Members on scene, taking into consideration available circumstances which may include but not limited to the following:
 - (a) The suspect's stated or exhibited intent to violently resist being taken into custody and the credibility of that threat as evaluated by the on scene Member(s).
 - (b) Additional information immediately available to the Member(s), such as knowledge of the subject's expertise in martial arts or other unarmed defensive tactics.

Orange County Sheriff-Coroner Department

Less Lethal

- (c) The suspect is armed with a potentially deadly weapon such as a knife, club, nunchakus, etc.
 - (d) Indications of drug use or alcohol intoxication.
 - (e) The suspect's physical stature and clothing worn. For example, a subject who has a thin build and is not wearing a shirt presents a different set of conditions compared to an individual who is heavy-set and wearing a jacket.
 - (f) Due to their physical condition, use of less lethal munitions against minors, the elderly, and pregnant women (For inmates known to be pregnant, refer to section 384.2.3(g)) should be avoided unless there are unique circumstances present that would justify such deployment.
 - (g) In Custody and Court Operations, inmates known to be pregnant shall not be tased, pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8(h)). Correctional Health Services shall evaluate inmates for pregnancy upon intake and follow-up as needed. Inmates medically confirmed to be pregnant will be issued pink pants and are required to wear them while in custody. Deputies may rely on the inmate's clothing to determine whether an inmate is pregnant.
 - (h) Availability of other force options and their possible effectiveness and appropriateness.
 - (i) Indications that attempts to subdue the subject through the use of control holds or self-defense techniques would be ineffective.
 - (j) A reasonable expectation it will be more dangerous for the deputy(s) to approach to within physical contact distance of the subject.
 - (k) The subject's actions indicate the need for an immediate response, and the use of a less lethal system reasonably appears to be appropriate, especially if the only other option to deal with those actions may be the use of deadly force.
4. When practical and unless required by section 384.2.1, the Member should provide a verbal warning prior to the deployment of a less lethal system.

384.2.1 CROWD CONTROL

- 1. Kinetic energy projectiles and chemical agents shall not be used to disperse any assembly. Protest, or demonstration and shall not be used solely due to a violation of an imposed curfew, verbal threat, or noncompliance with a law enforcement directive.
- 2. Kinetic energy projectiles and chemical agents shall only be deployed by Members that have received training on their proper use by POST for crowd control if the use is objectively reasonable to defend against a threat to life or serious bodily injury to any individual, including any peace officer, or to bring an objectively dangerous and unlawful situation safely and effectively under control, and only in accordance with all of the following requirements:
 - (a) De-escalation techniques or other alternatives to force have been attempted when objectively reasonable, and have failed.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Less Lethal

The announcements shall be made from various locations, if necessary, and delivered in multiple languages, if appropriate.
- (c) Persons are given an objectively reasonable opportunity to disperse and leave the scene.
- (d) An objectively reasonable effort has been made to identify persons engaged in violent acts and those who are not, and kinetic energy projectiles or chemical agents are targeted toward those individuals engaged in violent acts. Projectiles shall not be aimed indiscriminately into a crowd or group of persons.
- (e) Kinetic energy projectiles and chemical agents are used only with the frequency, intensity, and in a manner that is proportional to the threat and objectively reasonable.
- (f) Members shall minimize the possible incidental impact of their use of kinetic energy projectiles and chemical agents on bystanders, medical personnel, journalists, or other unintended targets.
- (g) An objectively reasonable effort has been made to extract individuals in distress.
- (h) Medical assistance is promptly provided, if properly trained personnel are present, or procured, for injured persons, when it is reasonable to do so.
- (i) Kinetic energy projectiles shall not be aimed at the head, neck, or any other vital organs.

These requirements for the use of kinetic energy projectiles and chemical agents do not apply within any county detention facility (Penal Code § 13652).

384.3 PEPPERBALL LESS LETHAL SYSTEM

Pepperball is a unique less lethal kinetic energy delivery system that uses high-pressure air launchers to deliver chemical agents and/or kinetic energy impact force from a distance.

384.3.1 AUTHORIZED PEPPERBALL LAUNCHERS AND MUNITIONS

An addendum of Department-approved authorized manufacturers shall be maintained by the Training Division Commander.

384.4 12 GAUGE LESS LETHAL SHOTGUN

Shotguns specifically used to deploy less lethal munitions shall be identified by the receiver-mounted, orange sidesaddle ammunition holder for carrying less lethal munitions, and shall be equipped with a fore-end mounted flashlight and a sling. The stock shall be painted orange.

Less lethal should only be used in shotguns designated specifically for less lethal munitions.

384.5.1 AUTHORIZED 40MM LAUNCHERS, LAUNCHER ACCESSORIES, AND MUNITIONS

An addendum of Department-approved authorized manufacturers shall be maintained by the Training Division Commander.

384.5.2 DEPLOYMENT CONSIDERATIONS

In general, the use of 40mm sting-ball round (i.e., skip round) and CS gas are restricted. Only a supervisor at the scene of an assembly, protest or demonstration may authorize the use of tear gas. For routine Patrol Operations, only the 40mm foam baton munition is authorized. For further deployment considerations and restrictions, refer to the Patrol Operations Manual (POM) and the Custody & Court Operations Manual (CCOM).

384.6 STING-BALL GRENADES

The Sting-Ball Grenade is most widely used as a crowd management tool for Law Enforcement and Correctional Institutions. It's unique design, allows for effective deployments in both indoor and outdoor operations. Protective gloves and safety glasses should be worn when deploying. As with any pyrotechnic device, firefighting equipment should be available.

Authorization for the deployment of the Sting-Ball grenades will be given by a sergeant, Watch Commander, or higher authority in the chain of command. The supervisor shall review the situation and provide direction based upon his/her assessment.

384.6.1 AUTHORIZED STING-BALL GRENADES

An addendum of Department-approved authorized manufacturers shall be maintained by the Training Division Commander.

384.7 MEDICAL TREATMENT

Generally, lesslethal munitions should not be intentionally directed at a person's head, neck, or throat, unless imminent danger is present and lethal force would be justified. In the event a person is struck with a less lethal munitions projectile, once it is reasonable and safe to do so, Members shall promptly provide medical assistance, if properly trained. A Member shall then ensure the

The only exception would be when a subject flees the scene after deployment and an effort to locate him/her has been unsuccessful.

Any individual who refuses medical attention shall have his or her refusal fully documented in related reports and if possible be witnessed by another deputy/SSO and/or medical personnel. If medical staff is willing to provide a copy of the subject's medical refusal, this document should be collected and included with the report package. If possible, an audio recording of the refusal should also be made with a notation in the report indicating the subject's refusal was recorded and booked as evidence.

384.7.1 DECONTAMINATION AND MEDICAL CARE INSIDE CUSTODY OPERATIONS

384.8 DOCUMENTATION OF LESS LETHAL MUNITIONS USE

Discharge of a less lethal weapon for any reason other than an approved training exercise shall be documented and treated like any other use of force incident.

If a supervisor is not present, one shall be notified, as soon as practical that less lethal munitions have been deployed.

All relevant information concerning the use of less lethal munitions shall be documented in accordance with Policy 300.6. Post Use of Force Procedures.

All information shall be documented on a Department crime report, incident report, arrest, or follow-up report. The report should include the following:

LONG RANGE ACOUSTIC DEVICE (LRAD)

385.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines and procedures related to the proper use and deployment of a Long Range Acoustic Device (LRAD).

385.2 POLICY

It is the policy of the Orange County Sheriff's Department (OCSD) that a Long Range Acoustic Device (LRAD) be used with live or recorded voice messages to communicate with the community during natural disasters, crowd management and control situations, or when other forms of communication are ineffective or inoperable to unequivocally communicate messages from OCSD and safely resolve uncertain situations where communicating with the public, or an individual, is paramount. All usage of the LRAD will be documented on the AB 481 Military Equipment Tracker (MET) in accordance with Assembly Bill 481 and OCSD Policy 711.

385.3 DEFINITION

The Orange County Sheriff's Department currently utilizes one model of the LRAD System;

- LRAD 100XSTD System. This system is a portable device which can be carried and operated by a single user. It can also be mounted to a vehicle via a magnetic mount and operated by a vehicle passenger.

The LRAD system has the capability to provide highly effective long range communication. The system will broadcast clear messages or voice commands. The system can be used to de-escalate situations through clear unambiguous direction and communication. The system has the capability to provide highly effective long range communication. The system will broadcast clear messages or voice commands. The system can be used to de-escalate situations through clear unambiguous direction and communication.

The LRAD system can broadcast instructions and messages with greater clarity and distance than traditional loudspeakers or public address (PA) systems. The system can effectively broadcast messages through wind, crowds, and engine/background noise. Broadcasts can be clearly heard by people inside vehicles and buildings. The LRAD's clear communication leads to a safer environment during critical incidents and enhances the safety of the community, criminal subjects, and public safety personnel.

The tone function of the LRAD has been permanently disabled by the manufacturer from the device and shall not be reinstalled.

385.4 OPERATION OF THE LRAD

The LRAD can play pre-recorded messages and work as a PA system. It has the capability to emit acoustic sound levels in excess of accepted OCHA noise hazard levels, so Members operating the LRAD must stay behind the device, wear appropriate hearing protection, and follow the below guidelines:

1. Never operate the LRAD at maximum power.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

LONG RANGE ACOUSTIC DEVICE (LRAD)

2. Never operate the LRAD where persons may be within 32 feet of the device, or where the reflected distance between Members and an acoustically reflective object (e.g., a building, a wall, or a bulkhead) is located closer than 32 feet in front of the device and 3 feet to each side.
3. Never point the LRAD at Members in the immediate vicinity of its operating position.
4. Operators must ensure the device is positioned, aimed, and operated in a manner that avoids exposing nearby Members and bystanders to excessive sound pressure levels.

Examples of potential LRAD deployments include:

- (a) Communicate information to residents during disasters.
- (b) Communicate with large crowds (e.g., during demonstrations, parades, festivals, concerts, and sporting events).
- (c) Crowd management and control.
- (d) Establish safety zones and enforce perimeters.
- (e) Traffic control management.
- (f) Conduct Special Weapons and Tactics (SWAT) operations.
- (g) Conduct Mobile Field Force (MFF) operations.
- (h) Communicate during hostage and barricaded subject situations.
- (i) Serve high risk search warrants.
- (j) Communicate with subjects threatening suicide who are in an inaccessible location.
- (k) Conduct search and rescue operations.

385.5 APPROVAL

The LRAD may only be deployed with the approval of the Special Enforcement Bureau (SEB) Commander or designee. If a rapidly evolving situation places the public or law enforcement in danger or where serious property damage is probable, trained Members are permitted to deploy the LRAD prior to approval. The scene supervisor shall ensure that the SEB Commander or designee is notified as soon as practical.

385.6 MAINTENANCE

The Crisis Negotiation Team (CNT) will be responsible for proper storage and maintenance of the LRAD system. The LRAD device should be checked for proper functionality during CNT training when applicable.

385.7 TRAINING

All CNT Members shall receive initial training on the LRAD before utilizing it in the field. The training will consist of the LRAD set up, proper usage, and safety considerations. The LRAD may only be deployed by Members who have been properly trained in its use and procedures. A record of trained Members will be kept and maintained by the CNT Sergeants.

Chapter 4 - Patrol Operations

Bias Free Policing

402.1 PURPOSE AND SCOPE

The Department strives to provide law enforcement services to our community with the proper care and concern for the racial and cultural differences of those we serve. It shall therefore be the policy and practice of this Department to provide law enforcement services and to enforce the law equally and fairly without discrimination toward any individual(s) or group because of their race, color, ethnicity, national origin, age, religion,, gender identity or expression, sexual orientation, socio-economic status, cultural group, or mental or physical disability.

402.2 DEFINITIONS

Bias-Free Policing: The provision of law enforcement services, whether in the jails, the courts, or on patrol, that is accomplished without the selective enforcement or non-enforcement of the law, including the selection or rejection of particular policing tactics or strategies, based on the subject's membership in a demographic category. Bias-free policing is policing that is free of discriminatory effect as well as discriminatory intent.

Biased Policing: The provision of law enforcement services, or declining to provide law enforcement services, whether in the jails, the courts, or on patrol, based upon the inappropriate consideration of a person's demographic category.

Demographic category: Refers to a person's race, color, ethnicity, national origin, age, religion, gender identity or expression, sexual orientation, socio-economic status, cultural group, or mental or physical disability.

Implicit Bias: Refers to the attitudes or stereotypes that affect a person's understanding, actions, and decisions in an unconscious manner. These biases, which encompass both favorable and unfavorable assessments, are activated involuntarily and without an individual's awareness or intentional control. Implicit biases are different from known biases that individuals may choose to conceal.

Racial or identity profiling: The consideration of, or reliance on, to any degree, a person's actual or perceived race, color, ethnicity, national origin, age, religion, gender identity or expression, sexual orientation, or mental or physical disability in deciding which persons to subject to a stop or in deciding upon the scope or substance of law enforcement activities following a stop, except that an officer may consider or rely on characteristics listed in a specific suspect description. The activities include, but are not limited to, traffic or pedestrian stops, or actions during a stop, such as asking questions, frisks, consensual and nonconsensual searches of a person or any property, seizing any property, removing vehicle occupants during a traffic stop, issuing a citation, and making an arrest. (Penal Code § 13519.4(e)).

402.3 RACIAL OR IDENTITY PROFILING AND BIASED POLICING PROHIBITED

Members shall not engage in biased policing or racial or identity profiling, and any such practice will not be tolerated by this Department (Penal Code § 13519.4(f)).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bias Free Policing

1. It is the responsibility of every Member of this Department to prevent, report, and respond appropriately to clear discriminatory or biased practices.
2. Every Member of this Department engaging in a non-consensual detention shall be prepared to articulate sufficient reasonable suspicion or probable cause to justify the detention independent of the individual's membership in a demographic category.
 - (a) To the extent that written documentation would otherwise be completed (e.g., arrest report, F.I. card, etc.), the involved deputy should include those facts giving rise to the deputy's reasonable suspicion or probable cause for the contact.
 - (b) Nothing in this policy shall require any deputy to prepare documentation of a contact that would not otherwise involve such reporting.

402.4 STANDARDS OF CONDUCT TO ENSURE BIAS FREE POLICING

In an effort to prevent perceptions of biased policing, in accordance with officer safety, do the following:

1. Treat everyone with dignity, respect, courtesy, and professionalism, without harassing, intimidating, or using derogatory language verbally, in writing, or by gesture.
2. Ensure bias-free encounters by relying on information that is accurate, specific, and free from bias while developing reasonable suspicion and/or probable cause.
3. When initiating a search of a cell, dormitory, or incarcerated person, or when issuing directives to or responding to inquires from an incarcerated person, ensure that motivations and actions are free of bias and racial or identity profiling.
4. When initiating a pedestrian or vehicular stop, approach the person(s) being stopped and provide an explanation for the stop as soon as practical and safe.
5. Ensure that detentions are no longer than necessary.

While the practice of racial profiling is strictly prohibited, it is recognized that race or ethnicity may be legitimately considered by a deputy in combination with other legitimate factors to establish reasonable suspicion or probable cause (e.g., suspect description includes a specific race or group).

The Orange County Sheriff-Coroner Department shall investigate all complaints of alleged bias-based policing or racial or identity profiling against its Members. Members found to be in violation of this policy are subject to discipline in accordance with this Department's disciplinary policy.

402.5 TRAINING

1. All sworn Members of this Department shall participate in training prescribed by the Department.
2. All sworn Members of this Department shall participate in expanded training as prescribed and certified by the Commission on Peace Officer Standards and Training (POST) (Penal Code § 13519.4(g)).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bias Free Policing

3. Pending participation in such POST approved training and at all times, all Members of this Department are encouraged to familiarize themselves with and consider racial, identity, and cultural differences among members of our community.
4. Upon completion of initial POST approved training all sworn members of this Department shall be required to complete an approved refresher course every five years or sooner if deemed necessary in order to keep current with changing racial, identity, and cultural trends (Penal Code §13519.4(i)).

402.5.1 BIAS BY PROXY

Bias by proxy occurs when individuals call the police and make false or ill-informed claims of misconduct about persons they dislike or are biased against based on explicit racial and identity profiling or implicit bias. When the police act on a request of service rooted in implicit or explicit bias, they risk perpetuating the caller's bias. Members should use their critical decision-making skills drawing upon their training to assess whether there is criminal or non-criminal conduct regardless of bias.

402.6 CALIFORNIA RELIGIOUS FREEDOM ACT

Members shall not collect or disclose information regarding the religious beliefs, practice or affiliation of any individual unless permitted under state or federal law (Government Code § 8310.3).

Per Government Code § 8310.3:

- Notwithstanding any other law, a state or local agency or public employee acting under color of law shall not:
 - Provide or disclose to federal government authorities personal information regarding the religious beliefs, practices, or affiliation of any individual for the purpose of compiling a list, registry, or database of individuals based on religious affiliation, national origin, or ethnicity.
 - Use agency money, facilities, property, equipment, or personnel to assist in creation, implementation, or enforcement of any government program compiling a list, registry, or database of personal information about individuals based on religious belief, practice, or affiliation, or national origin or ethnicity, for law enforcement or immigration purposes.
 - Make personal information from agency databases available, including any databases maintained by private vendors contracting with the agency, to anyone or any entity for the purpose of investigation or enforcement under any government program compiling a list, registry, or database of individuals based on religious belief, practice, or affiliation, or national origin or ethnicity for law enforcement or immigration purposes.
- Notwithstanding any other law, state and local law enforcement agencies and their employees shall not:
 - Collect information on the religious belief, practice, or affiliation of any individual except (A) as part of a targeted investigation of an individual based on

Orange County Sheriff-Coroner Department

reasonable suspicion to believe that individual has engaged in, or been the victim of, criminal activity, and when there is a clear nexus between the criminal activity and the specific information collected about religious belief, or affiliation, or (B) where necessary to provide religious accommodations.

- Use agency money, facilities, property, equipment, or personnel to investigate, enforce, or assist in the investigation or enforcement of any criminal, civil, or administrative violation, or warrant for a violation, of any requirement that individuals register with the federal government or any federal agency based on religious belief, practice, or affiliation, national origin, or ethnicity.
- An agency or employee will only be deemed to be in violation of this section if the agency or employee acted with actual knowledge that the information shared would be used for purposes prohibited by this section..

402.7 SUPERVISOR RESPONSIBILITY

Supervisors should monitor those individuals under their command for compliance with this policy and shall handle any alleged or observed violations in accordance with the Personnel Complaint Procedure (Policy 1020).

Annually, upon publication of the Racial and Identity Profiling Advisory Board Report, the S.A.F.E Division Commander shall review the report and the Department's effort to prevent racial or identity profiling and submit an overview, including public concerns, to the Sheriff. This overview shall not contain any identifying information regarding any specific complaint, citizen, or officer.

402.8 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE

The S.A.F.E. Division Commander or the authorized designee shall ensure that all data required by the Department of Justice (DOJ) regarding citizen complaints of racial bias against deputies is collected and provided to the Records Division to be reported annually to DOJ (Penal Code § 13012; Penal Code § 13020).

Racial and Identity Profiling Act (RIPA)

403.1 PURPOSE AND SCOPE

On or before January 1, 2019, the Department was required to begin collecting stop data for all contacts meeting the criteria outlined in the Racial and Identity Profiling Act (RIPA) and related regulations. Moving forward, the Department is required to annually report this data to the California Attorney General (Government Code § 12525.5).

403.1.1 DEFINITIONS

It is important to note that, while many of the terms used in association with RIPA may seem familiar, their actual meaning might be different than what has historically been held to be common law enforcement terminology. Select terms have been included below; however, personnel are encouraged to refer to the California Code of Regulations for the full list of RIPA terms and guidelines. The terms "non-force related" and "force-related" in section 403.3, as defined by the California State Legislature (AB953), may not align with Orange County Sheriff's Department reporting standards or definitions within Policy 300 – Use of Force.

The following definitions relate to terms used within this policy, as applied to RIPA stops only, and have been taken directly from the California Code of Regulations (11 CCR § 999.224):

Detention: A seizure of a person by an officer that results from physical restraint, unequivocal verbal commands, or words or conduct by an officer that would result in a reasonable person believing that they are not free to leave or otherwise disregard the officer.

Stop: (1) Any detention, as defined in these regulations, by a peace officer of a person; or (2) any peace officer interaction with a person in which the officer conducts a search, as defined in these regulations.

Search: For the purpose of RIPA, means a search of a person's body or property in the person's possession or under their control, and includes a pat-down search of a person's outer clothing as well as a consensual search, as defined in these regulations.

Custodial Setting: Correctional institutions, juvenile detention facilities, and jails, including parking lots and grounds within the perimeter of these enumerated facilities. "Custodial setting" also includes a courtroom or courthouse in the limited circumstances where a court orders a person remanded into custody. "Custodial setting" does not include home detention or any circumstances where persons are under house arrest outside of correctional institutions, juvenile detention facilities, or jails.

Please note: Peace officers shall not report stops that occur in a custodial setting. Peace officers who work in custodial settings are subject to this chapter for stops that occur in non-custodial settings (11 CCR § 999.225). For home detention or home arrest while an officer is on home detention or house arrest assignment, the following interactions with persons in the home who are not under home detention or home arrest are to be reported: the officer handcuffs or flex cuffs the person; arrests the person; points a firearm at the person; discharges or uses a firearm, electronic

control device, impact projectile, baton or other impact weapon, or chemical spray on the person; or if a canine bit/held the person (11 CCR § 999.227 (d)(3)).

403.2 DATA REPORTING

The Director of the Records Division is the custodian of all data collected. The Director of the Records Division or his/her authorized designee shall ensure data is collected and reported in accordance with Government Code section 12525.5 and related regulations and that all data collected is used strictly within the scope of compliance with this policy. The data provided to the California Attorney General shall not include the name, address, social security number or other unique personal identifying information of persons stopped, searched, or subjected to a property seizure, and shall not include any name, badge number or PID of any peace officer collecting the data.

All RIPA data collected is public record and open to public inspection. No identifying information about the peace officers collecting the data shall be publicly disclosed.

Department Members, other than the Director of the Records Division, or his/her designee, may not access the Department's server to view RIPA data without authorization from the Sheriff. The RIPA data collected shall not be used for disciplinary purposes or for use in performance evaluations.

403.3 DATA COLLECTION

Peace Officers within the Department shall complete all applicable data fields in the Department's AB 953 RIPA Stop Application for each stop. The data fields include, but are not limited to, the following:

When reporting the required data elements, the peace officer shall make their determination based on personal observation only. For motor vehicle stops, this section only applies to the driver, unless the passenger is observed or suspected of violating the Vehicle Code or any other applicable law or ordinance, or is subjected to any actions specified under subsection 15 (excluding "vehicle impounded" and "none"), in which case the characteristics specified in this section shall also be reported for the passenger.

Elder and Dependent Adult Abuse

406.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the investigation and reporting of suspected abuse of certain adults who may be more vulnerable than others. This policy also addresses mandatory notification for Department Members as required by law.

406.1.1 DEFINITIONS

Definitions related to this policy include:

Adult abuse: Any offense or attempted offense involving violence or neglect of an adult victim when committed by a person responsible for the adult's care, or any other act that would mandate reporting or notification to a social service agency or law enforcement (Penal Code § 368). For purposes of this policy, all references to "adult abuse" mean the abuse of an elder (age 65 or older) or dependent adult.

Abuse of an elder (age 65 or older) or dependent adult: Physical abuse, neglect, financial abuse, abandonment, isolation, abduction, or other treatment with resulting physical harm or pain or mental suffering; or the deprivation by a care custodian of goods or services that are necessary to avoid physical harm or mental suffering (Welfare and Institutions Code § 15610.07; Penal Code § 368.5). Neglect includes self-neglect (Welfare and Institutions Code § 15610.57).

Dependent adult: An individual, regardless of whether the individual lives independently, between 18 and 64 years of age who has physical or mental limitations that restrict his/her ability to carry out normal activities or to protect his/her rights, including but not limited to persons who have physical or developmental disabilities or whose physical or mental abilities have diminished because of age. This also includes those between the ages of 18 and 64 who are admitted as inpatients to a 24-hour health facility, as defined in state law (Welfare and Institutions Code § 15610.23; Penal Code § 368(h)).

406.2 POLICY

The Department shall investigate all reported incidents of alleged adult abuse and ensure proper reporting and notification as required by law.

406.3 MANDATORY NOTIFICATION AND REPORTING REQUIREMENTS

Department Members are mandated reporters of suspected elder or dependent adult abuse (Welfare and Institutions Code § 15630(a)). A Department Member who, in his or her professional capacity or within the scope of his or her employment, has observed or has knowledge of an incident that reasonably appears to be abuse, or is told by an elder or dependent adult that he or she has experienced behavior, including an act or omission, constituting abuse, or reasonably suspects that abuse, shall report the known or suspected abuse to the law enforcement agency in whose jurisdiction the known or suspected abuse occurred.

The Department Member shall forward all reports of known or suspected abuse occurring in the Department's jurisdiction to the corresponding Detail of the Investigations Division, according

to the nature of incident. In any incident in which immediate investigative follow-up would be beneficial or required, notification shall be made to the Department Commander and a response will be coordinated through the appropriate Investigative Detail Sergeant. The Department Member shall also ensure that notification is made by telephone to APS as soon as practicably possible and the Report of Suspected Dependent Adult/Elder Abuse (Form SOC 341) is provided to APS by the end of their assigned shift. For further refer to Welfare and Institutions Code 15630.

The corresponding Investigative Detail Sergeant is responsible for ensuring that proper notifications have occurred to the District Attorney's Office and any other regulatory agency that may be applicable based upon where the abuse took place (e.g., care facility, hospital)(Welfare and Institutions Code § 15630(b)).

Notification is not required for a person who was merely present when a person self-administered a prescribed aid-in-dying drug or a person prepared an aid-in-dying drug so long as the person did not assist the individual in ingesting the aid-in-dying drug (Health and Safety Code § 443.14 and 443.18).

406.4 INVESTIGATIONS AND REPORTING

All reported or suspected cases of adult abuse require investigation and a report, even if the allegations appear unfounded or unsubstantiated.

Investigations and reports related to suspected cases of adult abuse should address, as applicable:

1. The overall basis for the contact. This should be done by the investigating officer in all circumstances where a suspected adult abuse victim is contacted.
2. Any relevant statements the victim may have made and to whom he/she made the statements.
3. If a person is taken into protective custody, the reasons, the name and title of the person making the decision, and why other alternatives were not appropriate.
4. Documentation of any visible injuries or any injuries identified by the victim. This should include photographs of such injuries, if practicable.
5. Whether the victim was transported for medical treatment or a medical examination.
6. Whether the victim identified a household member as the alleged perpetrator, and a list of the names of any other potential victims or witnesses who may reside in the residence.
7. Identification of any prior related reports or allegations of abuse, including other jurisdictions, as reasonably known.
8. Previous addresses of the victim and suspect.
9. Other potential witnesses who have not yet been interviewed, such as relatives or others close to the victim's environment.

 - (a) Whether or not assistance was provided to the person beyond that allowed by law (Health and Safety Code § 443.14)
 - (b) Whether an individual knowingly altered or forged a request for an aid-in-dying drug to end a person's life without his/her authorization, or concealed or destroyed a withdrawal or rescission of a request for an aid-in-dying drug (Health and Safety Code § 443.17)
 - (c) Whether coercion or undue influence was exerted on the person to request or ingest an aid-in-dying drug or to destroy a withdrawal or rescission of a request for such medication (Health and Safety Code § 443.17).
 - (d) Whether an aid-in-dying drug was administered to a person without his/her knowledge or consent (Health and Safety Code § 443.17).

Any unexplained death of an adult who was in the care of a guardian or caretaker should be considered as potential adult abuse and investigated similarly.

406.5 QUALIFIED INVESTIGATORS

Qualified investigators should be available to investigate cases of adult abuse. These investigators should:

1. Conduct interviews in appropriate interview facilities.
2. Be familiar with forensic interview techniques specific to adult abuse investigations.
3. Present all cases of alleged adult abuse to the prosecutor for review.
4. Coordinate with other enforcement agencies, social service agencies and facility administrators as needed.
5. Provide referrals to therapy services, victim advocates, guardians and support for the victim and family as appropriate.
6. Participate in or coordinate with multidisciplinary investigative teams as applicable (Welfare and Institutions Code § 15610.55).

406.6 EMERGENCY PROTECTIVE ORDERS

In any situation which a Member reasonably believes that an elder or dependent adult is in immediate and present danger of abuse based on an allegation of a recent incident of abuse or threat of abuse (other than financial abuse alone), the Member may seek an emergency protective order against the person alleged to have committed or threatened such abuse (Family Code § 6250(d)).

406.7 INTERVIEWS

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Elder and Dependent Adult Abuse

406.7.1 PRELIMINARY INTERVIEWS

Absent extenuating circumstances or impracticality, Members should audio record the preliminary interview with a suspected adult abuse victim. Members should avoid multiple interviews with the victim and should attempt to gather only the information necessary to begin an investigation. In certain circumstances, investigating officers may defer interviews when a person who is specially trained in such interviews is available.

406.7.2 DETAINING VICTIMS FOR INTERVIEWS

A Member should not detain an adult involuntarily who is suspected of being a victim of abuse solely for the purpose of an interview or physical exam without his/her consent or the consent of a guardian unless one of the following applies:

1. Exigent circumstances exist, such as:
 - (a) A reasonable belief that medical issues of the adult need to be addressed immediately.
 - (b) A reasonable belief that the adult is or will be in danger of harm if the interview or physical exam is not immediately completed.
 - (c) The alleged offender is a family member or guardian and there is reason to believe the adult may be in continued danger.
2. A court order or warrant has been issued.

406.8 MEDICAL EXAMINATIONS

When an adult abuse investigation requires a medical examination, the investigating officer should obtain consent for such examination from the victim, guardian, agency or entity having legal custody of the adult. The Member should also arrange for the adult's transportation to the appropriate medical facility.

In cases where the alleged offender is a family member, guardian, agency, or entity having legal custody and is refusing to give consent for the medical examination, Members should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for Members to take the adult for a medical examination, the sergeant should consider other government agencies or services that may obtain a court order for such an examination.

406.9 DRUG-ENDANGERED VICTIMS

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and longer-term medical and safety needs of an adult abuse victim who has been exposed to the manufacturing, trafficking or use of narcotics.

406.9.1 MEMBER RESPONSIBILITIES

Members responding to a drug lab or other narcotics crime scene where an adult abuse victim is present or where there is evidence that an adult abuse victim lives at the location should:

1. Document the environmental, medical, social and other conditions of the adult, using photography as appropriate.

Orange County Sheriff-Coroner Department

406.9.2 SUPERVISOR RESPONSIBILITIES

The Family Protection Detail Sergeant should:

1. Work with professionals from the appropriate agencies, including APS, other law enforcement agencies, medical service providers and local prosecutors, to develop community specific procedures for responding to situations where there are adult abuse victims endangered by exposure to methamphetamine labs or the manufacture and trafficking of other drugs.
2. Activate any available interagency response when a Member notifies the Investigations Sergeant that he/she has responded to a drug lab or other narcotics crime scene where an adult abuse victim is present or where evidence indicates that an adult abuse victim lives.

406.10 TRAINING

The Department shall provide training on best practices in adult abuse investigations to Members tasked with investigating these cases. The training shall include:

1. Participating in multidisciplinary investigations, as appropriate.

6. Availability of victim advocates or other support.

406.11 RECORDS DIVISION RESPONSIBILITIES

Records Division is responsible for retaining the original adult abuse report with the initial case file.

406.12 JURISDICTION

The Department has concurrent jurisdiction with state law enforcement agencies when investigating elder and dependent adult abuse and all other crimes against elder victims and victims with disabilities (Penal Code § 368.5).

Adult protective services agencies and local long-term care ombudsman programs also have jurisdiction within their statutory authority to investigate elder and dependent adult abuse and criminal neglect and may assist in criminal investigations if requested and consistent with federal law. However, the Department shall retain responsibility for the criminal investigations (Penal Code § 368.5).

Homeless Outreach and Liaison

408.1 DEFINITION

According to the U.S. Department of Housing and Urban Development (HUD) Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009, homelessness is defined as, "An individual or family with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings including: a car, park, abandoned building, bus or train station, airport, or campground".

408.2 GOALS

1. When working with the homeless, the Department's mission is to work collaboratively with all other agencies and organizations with a focus on outreach and enforcement to assist the homeless population and provide them with access to available resources and services, while protecting the quality of life for the citizens of Orange County.
2. The Department shall be part of a multidisciplinary effort including law enforcement (OCSD and allied agencies), OC Healthcare, mental health workers, fire, hospitals, public works, code enforcement, park rangers, residents, businesses, Service Providers, and homeless advocate groups to transition homeless individuals off the streets.
3. A major short term goal is the immediate transition of a homeless individual into either a shelter or other form of bridge housing. Although this transition is often accomplished by linking the homeless individual with an appropriate case manager such as the Health Care Agency (HCA), City Net, Mercy House, Illumination Foundation, or other entity, nothing prevents the individual patrol deputy or Behavioral Health Liaison from transporting a subject to shelter/housing if the resource is available and the subject is willing to utilize the service. The deputy shall remain with the subject until they are accepted into the facility. The Department shall not transport homeless individuals across Service Planning Areas (SPAs) for the purposes of shelter placement. "Service Planning Area" refers to the designated North, Central and South geographical areas of the County as set forth in the SPA map. See link <http://www.ocgov.com/civicax/filebank/blobdownload.aspx?BlobID=6911>

408.3 ENFORCEMENT CONSIDERATIONS

1. The Department has a primary focus on outreach and shall not enforce any law criminalizing a homeless subject for illegal camping or loitering in public when there is no other shelter option available for the person. This does not forbid the Department from enforcing non-status violations and enforcement of all laws on private property.
 - (a) Status violations are defined as violations of anti-camping, anti-loitering, and trespassing ordinances in public locations. This also includes violations of park closure ordinances in the North SPA Cities of Stanton, Yorba Linda and Villa Park.
2. Absent exigent circumstances, anti-camping or anti-loitering ordinances shall not be enforced prior to Field Screening by System of Care/Outreach and Engagement

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Homeless Outreach and Liaison

Personnel (HOT, BHL, HCA, SSA, or contracted providers) to locate an immediately available placement for the individual within his or her respective Service Planning Area.

3. A homeless individual who declines the offered placement shall, where feasible, be given a warning and an opportunity to immediately relocate to a location where they may lawfully be prior to citation or custodial arrest for anti-camping or anti-loitering ordinances.
4. Prior to making an arrest for an anti-camping or anti-loitering law, the deputy shall verify with County personnel for unincorporated areas or with City personnel for contract city areas that there is a shelter option available to the intended arrestee. To locate an available shelter bed, the deputy shall use the Health Care Agency or appropriate service provider for the area or city where the subject is contacted. The deputy shall also verify whether or not the intended arrestee refuses the available shelter bed. The deputy shall document in his or her report the availability of the shelter bed and the intended arrestee's refusal to accept the shelter bed. The report shall list where the available bed is and list as a witness who the deputy contacted to confirm the availability of the bed. In addition to the deputy recording the conversation with the intended arrestee, it is advisable for the deputy to have his/her cell phone on speaker and recording the conversation with the witness on PVS or BWC.
5. Unless the initial call for service or interaction is immediately dangerous, it is important for deputies to take their time during an investigation. Mental illness and drug addiction are potential problems which can be addressed through patience and understanding while maintaining officer safety.
6. Mental health issues are a component of dealing with homeless individuals. Refer to FOM Section 29 for guidance in dealing with Mental Health and 5150 issues.
7. Patrol deputy contacts with homeless individuals should be documented with an appropriate CAD entry. The individual's biographic information should be entered, along with a narrative entry describing contact. Any information that may assist with connecting the individual to services should be forwarded to a Behavioral Health Liaison or Homeless Outreach Team member by sharing the incident number. These contacts shall be cleared with the Homeless disposition.
8. Search and seizure of a homeless subject's property is no different from search and seizure as it relates to any other law enforcement function. The Fourth Amendment prevents searches and seizures which are unreasonable. As a result, the "totality of the circumstances" shall be well documented and fact specific in all incidents involving a search/seizure of property. Examples of specific facts include posted "no trespassing" signs, previous outreach efforts, previous warnings, prior citations at the same location, the surrounding environment (fencing, barricades, ease of public access), condition of the property (degree to which the contents are exposed to public view reducing expectation of privacy), knowledge of trespass, probable cause for the search, and length of time the property has remained occupied continuously at a specific location.
9. Repeat Interactions - Most interactions with the homeless population will be one of repeat interactions. Over time, Homeless Liaison Officers and patrol deputies shall be

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Homeless Outreach and Liaison

able to establish working relationships with the homeless population which shall result in the homeless being more receptive to accepting services. As a result, voluntary compliance is the preferred method when conducting enforcement. By presenting a firm, fair, professional, and understanding demeanor and attitude, deputies will be in a better position to understand the specific needs of the subject and offer the best resource to begin the transition process.

10. Identification - When issuing misdemeanor citations, deputies shall document how the subject was identified. Verbal identification by the subject is not positive identification. Furthermore, possession of California Benefits Cards (EBT) or other paperwork without a photograph does not qualify as valid identification for purposes of charging a crime. Identification of subjects should be via DMV photograph, criminal records (booking photos), prior knowledge, or unique and distinguishing features such as tattoos.
11. Whenever possible, enforcement documentation shall include the availability of shelter beds at the time of enforcement, attitude or degree of willingness of the subject toward participating in outreach services, past efforts at outreach, and agencies contacted for possible follow-up and case management (HCA, City Net, Mercy House, OC Link, city specific services, non-profits etc.).
12. Deputies shall not cite or arrest a homeless subject for obstructing public property unless the subject or/and his or her property actually interferes with the intended use of the property and the subject declines to remove the obstruction.
13. Referral to Collaborative Courts:
 - (a) While issuing a citation or making a custodial arrest for an anti-camping or anti-loitering ordinance, deputies shall advise a homeless individual they can request acceptance into the Collaborative Court and providing the Public Defender's phone number of (657) 251-6090, providing the subject with the OC Resource Guide that contains the number or providing the County of Orange Superior Court Outreach Court pamphlet.
14. In addition to the other requirements set forth in this policy, subjects cited or placed under custodial arrest in the (NORTH SPA) Cities of Stanton, Yorba Linda or Villa Park for trespass, loitering, anti-camping, and park closure ordinances shall be provided a form, approved by the City, advising of the dispute resolution process, per the NORTH SPA CITIES SETTLEMENT AGREEMENT (Orange County Catholic Workers et al. v. Orange County et al. California Central District Case No. 8:18-cv-00155). The form shall include the contact information for the Plaintiffs' counsel.
 - (a) If a homeless person has initiated the Dispute-Resolution Process, deputies shall not make a custodial arrest for Anti-Nuisance Ordinances prior to the exhaustion of the Dispute Resolution Process. The fact that a person has initiated the Dispute-Resolution Process does not preclude the issuance of citations to the person.
 - (b) Once a ruling has been made regarding the dispute and the city has complied with the ruling, another claim by the same subject related to the same issue shall not preclude a custodial arrest where the individual does not comply with a warning, or leave once a citation has been issued.

408.4 CITE/RELEASE (FIELD) VS CITE/RELEASE (JAIL)

1. Penal Code section 853.6 mandates that misdemeanor arrestees be cited and released in the field, unless the subject meets one or more of the 12 exceptions listed in Penal Code Section (Penal Code § 853.6(i)). Please see Policy Section 327 Cite and Release Policy for Misdemeanor Non-warrant (Street) Arrest.
2. Homeless subjects commonly do not possess acceptable forms of identification. Verbal identification needs to be corroborated with things such as a DMV photograph or booking photo. If these things cannot be accomplished or if the subject remains “unable to identify”, the subject can be transported to jail for a citation and release with Live Scan/fingerprinting for positive identification.

408.5 RESTRICTED AREAS AND COUNTY PARKS

1. If a violation of an anti-camping or anti-loitering law occurs within a Restricted Area listed below or a County Park outside of the established operational hours and there is no appropriate and immediately available placement for the person, the Department shall advise the homeless subject they may move to any public area outside the restricted area or park as allowed by *Martin v. Boise*.
2. Restricted Areas are defined as:
 - (a) Orange County Flood Control District Property.
 - (b) The John Wayne Airport.
 - (c) Interior spaces of County Libraries outside of posted hours of operation.
 - (d) Custodial Facilities or other areas where in-custody subjects are taken.
 - (e) Contracted right-of-way railroad areas.
 - (f) County property or facilities not open to the public.
 - (g) Any other special use property as approved by the court.
3. If the homeless individual does not leave the restricted area or park after receiving a warning and a reasonable opportunity to gather their property, deputies may cite or make a custodial arrest of the subject.

408.6 PROPERTY

1. Safekeeping is non-evidentiary property that is temporarily stored with the Property-Evidence Unit for protection on behalf of the owner.
2. Temporary Safekeeping of Property is governed by California Civil Code 2080.10.
 - (a) When the Department takes possession of personal property for temporary safekeeping, the Department shall do all of the following:
 1. Take responsibility for the storage, documentation, and disposition of the property.
 2. Provide the person from whom the property was taken with a receipt and instructions for the retrieval of the property. The receipt and instructions shall either be given to the person from whom the property was taken at the

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

- time the Department obtains the property or immediately mailed, by first-class mail, to the person from whom the property was taken. For homeless persons, the receipt and instructions shall be given to the person.
3. If the Department has knowledge that the person from whom the property was taken is not the owner, the Department shall make reasonable efforts to identify the owner. If the owner is identified, the Department shall mail, by first-class mail, a receipt and instructions for the retrieval of the property. If the owner is homeless without a mailing address and is able to be located with reasonable efforts, the receipt and instructions shall be given to the owner.
 4. The receipt and instructions shall notify the person from whom the property was taken that the property must be claimed within 90 days after the Department obtains possession or the property shall be disposed of in accordance with the disposal provisions of this article. Within 90 days (the 90 days is per Department Policy), the person may do one of the following:
 - (a) Retrieve the property.
 - (b) Authorize in writing another person to retrieve the property.
 - (c) Notify the Department in writing that he or she is unable to retrieve the property, because he or she is in custody, and request the Department to hold the property. If a person notifies the Department that he or she is unable to retrieve the property within 90 days, or have an authorized person retrieve the property, the Department shall hold the property for not longer than 10 additional months.
 3. Release of property to owner is governed by California Civil Code 2080.2.
 - (a) If the owner appears within 90 days, after receipt of the property by the Department, proves his/her ownership of the property, and pays all reasonable charges, if any, the Department shall restore the property to him/her.
 4. If deputies collect non-evidentiary property, the "Safekeeping" form shall be utilized which can be located on the Document Center of the Intranet. See Field Operations Advisory Issue 56 dated February 9, 2018 and FOM Section 44 Tagging-Booking Evidence for further information. Per department safekeeping policy and the California Civil Code, property shall be retained for a minimum of 90 days.
 5. When a homeless person is arrested or otherwise removed from a public place, deputies should make reasonable accommodations to permit the person to lawfully secure his/her personal property, which includes transferring control to a designated responsible person. If the above cannot be accomplished, the property should be collected for safekeeping.
 - (a) If the arrestee has more personal property than can reasonably be collected and transported by the deputy, a supervisor should be consulted for disposition and possible collection by an allied agency such as city/county public works. The arrestee shall be provided written notice of the location where the arrestee's property may be claimed if the property is collected by an allied agency.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Homeless Outreach and Liaison

6. Deputies should not conduct or assist in clean-up operations of homeless encampments aside from possible security (AOA) for agencies such as city/county public works. During these types of operations, collection and documentation of property shall be the responsibility of the agency conducting the cleanup.
7. Any agency (i.e. County or City Public Works) conducting clean-up of a potential homeless encampment shall be made aware of the Schuler Settlement. This settlement requires a minimum of 24 hours notice of any intended clean-up or remediation project unless exigent circumstances exist. Although this settlement applies only to sections of the Santa Ana Riverbed, it is the best practice and should be followed by any agency doing clean up in Department jurisdiction. It is County Public Works' practice to give 72 hours notice when feasible.
8. Deputies who encounter encampments or large collections of property in public areas should inform the city Behavioral Health Liaison or county Homeless Outreach Team for guidance in finding a long term disposition.
9. Documentation of property goes beyond written documentation in reports. Best practice includes taking photographs and/or video. Documentation includes the initial state of the property (long, mid, close range photos), and a detailed inventory of property recovered. If a video camera is not available, consider vehicle placement for permanent capture of the incident on Patrol Video System (PVS). Furthermore, consider verbal narration during the incident: describe sights, smells, hazards, items of value, and items which a reasonable person would classify as having no intrinsic value.
10. Property that need not be stored:
 - (a) Property that presents a danger to Department personnel including but not limited to: hazardous, flammable, or biohazard materials, items contaminated with human or animal waste, items that are wet and present a mold hazard, batteries.
 - (b) Property that is obviously abandoned or trash.
 - (c) Property whose owner has identified it as trash or no longer wanted.

408.7 HAZARDS

1. Dealing with Homeless populations requires an officer safety mindset beyond tactical considerations. Deputies should be aware of health and environmental hazards such as uncapped needles, fecal matter and other bodily fluids, and potential communicable diseases like MRSA transmitted by open wounds and sores.
 - (a) Wear gloves while searching subjects and property. Remove gloves while using your MDC or before entering your vehicle. Replace your gloves frequently while transitioning between searches and bagging evidence.
 - (b) Be aware of open fires, dust, and confined spaces which may present health hazards that require the use of special equipment or training.

408.8 HOMELESS SERVICES SYSTEM (ESRI APPLICATION AND SURVEY123)

1. Department surveys published through the ESRI Survey 123 application and maintained via the ArcGIS platform shall be the only Database used by members of the Department's HOT and BHLs when documenting encounters and dispositions with homeless subjects. Access to the ESRI suite of applications shall only be done through Department or government issued electronic devices.
2. The ESRI ArcGIS Survey 123, Collector, and Dashboard applications provide a mobile application and software suite used by the Department and their Adult and Family Multidisciplinary Personnel Team (MPT) partners to identify homeless subjects, and assist in linking those homeless subjects to services. This Database shall be used collaboratively by members of the MPT with the primary intent of outreach and engagement. The application will allow participating agencies to share information for the purpose of facilitating expedited identification, assessment, and linkage of homeless individuals or families to housing and supportive services.
3. Any member of the MPT who receives information or records from this application shall agree to keep the information or records confidential, to be used only for purposes set forth in Policy 408.8.2 above.
4. All Department Members who have access to the information shared by the participating agencies shall sign a confidentiality statement that includes at a minimum general use, security safeguards, acceptable use, and enforcement policies.
5. The sharing of information shall be governed by an MOU or protocols developed by the County of Orange.
6. Department IT or OCIT shall employ security controls to ensure data confidentiality, integrity, and prevention of unauthorized or inappropriate access, use, or disclosure.
7. Information entered in the Database shall be retained indefinitely or until a record retention schedule is approved by the Orange County Board of Supervisors, setting a retention period.

Mental Illness Commitments

409.1 PURPOSE AND SCOPE

This policy provides Deputy Sheriffs of the Orange County Sheriff's Department guidelines for taking a person into custody for psychiatric evaluation and treatment (5150 commitment) (Welfare and Institutions Code § 5150).

409.2 POLICY

It is the policy of the Orange County Sheriff's Department to protect the public and individuals through legal and appropriate use of the 72-hour treatment and evaluation commitment (5150 commitment) process.

409.3 AUTHORITY

A deputy having probable cause may take a person into custody and place the person in an approved mental health facility for 72-hour treatment and evaluation when the deputy believes that, as a result of a mental disorder, the person is a danger to him/herself or others, or the person is gravely disabled (Welfare and Institutions Code § 5150; Welfare and Institutions Code § 5585.50).

When determining whether to take a person into custody, deputies are not limited to determining the person is an imminent danger and shall consider reasonably available information about the historical course of the person's mental disorder, which may include evidence presented from any of the following (Welfare and Institutions Code § 5150; Welfare and Institutions Code § 5150.05):

- (a) An individual who is providing or has provided mental health treatment or related support services to the person,
- (b) The person subject to the determination or anyone designated by the person,
- (c) A family member.

409.3.1 VOLUNTARY EVALUATION

If a deputy encounters an individual who may qualify for a 5150 commitment, he/she may inquire as to whether the person desires to voluntarily be evaluated at an appropriate facility. If the person so desires, the deputy should:

- (a) Transport the person to an appropriate facility that is able to conduct the evaluation and admit the person pursuant to a 5150 commitment.
- (b) If at any point the person changes his/her mind regarding voluntary evaluation, the deputy should proceed with the 5150 commitment, if appropriate.
- (c) Document the circumstances surrounding the individual's desire to pursue voluntary evaluation and/or admission.

409.4 SECURING OF PROPERTY

When the person is taken into custody for evaluation or within a reasonable time thereafter, and unless a responsible relative, guardian or conservator is in possession of the person's personal property, the deputy shall take reasonable precautions to safeguard the individual's personal

property in his/her possession or on the premises occupied by the person (Welfare and Institutions Code § 5150).

The disposition of the property shall be detailed in a Casualty Report or “Non-criminal” template within the FBR application (if applicable) and a Property Receipt shall be provided to the person if property is taken for safekeeping or when a weapon/s has been seized. Any property seized or taken for safekeeping shall be booked into Sheriff’s Evidence in accordance with the policies and procedures of the Department.

409.5 DOCUMENTATION

Immigration Violations

414.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines and the legal requirements relating to immigration in a non-custodial setting. The Custody and Court Operations Manual section 1206 addresses immigration guidelines related to custodial settings.

414.1.1 DEFINITIONS

The following definitions apply to this policy (Government Code §§ 7283):

Criminal immigration violation - Any federal criminal immigration violation that penalizes a person's presence in, entry or reentry to, or employment in, the United States. This does not include any offense where a judicial warrant already has been issued.

Hold request - A federal Immigration and Customs Enforcement (ICE) request that a local law enforcement agency maintain custody of an individual currently in its custody beyond the time he or she would otherwise be eligible for release in order to facilitate transfer to ICE.

Immigration enforcement - Any and all efforts to investigate, enforce, or assist in the investigation or enforcement of any federal civil immigration law, including any and all efforts to investigate, enforce, or assist in the investigation or enforcement of any federal criminal immigration law that penalizes a person's presence in, entry or reentry to, or employment in the United States.

Judicial warrant - An arrest warrant for a violation of federal criminal immigration law and issued by a federal judge or a federal magistrate judge.

414.2 POLICY

It is the policy of the Orange County Sheriff's Department that all Members make a personal and professional commitment to equal enforcement of the law and equal service to the public. Confidence in this commitment will increase the effectiveness of this Department in protecting and serving the entire community and recognizing the dignity of all persons, regardless of their national origin or immigration status.

414.3 VICTIMS AND WITNESSES

To encourage crime reporting and cooperation in the investigation of criminal activity, all individuals, regardless of their immigration status, must feel secure that contacting or being addressed by members of law enforcement will not automatically lead to immigration inquiry and/or deportation. While it may be necessary to determine the identity of a victim or witness, Members shall treat all individuals equally and not in any way that would violate the United States or California constitutions.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Immigration Violations

414.4 IMMIGRATION INQUIRIES PROHIBITED

Members shall not inquire into an individual's immigration status for immigration enforcement purposes (Government Code § 7284.6). This does not prevent Members from inquiring into a victim's immigration status in order to determine whether they are a victim of a crime or trafficking victim in order to obtain a U or T Visa, or asking arrestees/inmates about place of birth or citizenship to comply with consular notification requirements (see 414.5.1).

414.4.1 CALIFORNIA LAW ENFORCEMENT TELECOMMUNICATIONS SYSTEM (CLETS)

Members shall not use information transmitted through CLETS for immigration enforcement purposes except for criminal history information and only when consistent with the California Values Act (Government Code § 15160).

Members shall not use the system to investigate immigration violations of 8 USC § 1325 (improper entry) if that violation is the only criminal history in an individual's record (Government Code § 15160).

414.5 DETENTIONS AND ARRESTS

The immigration status of a suspect does not limit a Member's ability to contact, investigate, detain based on reasonable suspicion, or arrest a suspect based on probable cause for a violation of a California state statute or local ordinance as long as the Member did not initiate the investigation because of the suspect's immigration status. However, Members shall not detain any individual, for any length of time, for a civil violation of federal immigration laws, a civil immigration warrant, a hold request, or any other immigration enforcement purposes except as set forth below.(Government Code § 7284.6).

A Member who has a reasonable suspicion that an individual already lawfully contacted or detained has committed a criminal violation of 8 USC § 1326(a) (unlawful reentry) that may be subject to an enhancement due to a previous conviction of an aggravated felony under 8 USC § 1326(b)(2), may detain the person for a reasonable period of time to contact federal immigration officials to verify whether the United States Attorney General has granted the individual permission for reentry and whether the violation is subject to enhancement (Government Code § 7284.6). No individual who is otherwise ready to be released should continue to be detained only because questions about the individual's status are unresolved.

If the Member has facts that establish probable cause to believe that a person already lawfully detained has violated 8 USC § 1326(a) and the penalty may be subject to enhancement due to prior conviction for specified aggravated felonies, he/she may arrest the individual for that offense (Government Code § 7284.6).

A Member should notify a supervisor as soon as practicable whenever an individual is arrested for violation of 8 USC § 1326(a).

Immigration Violations

414.5.1 CONSULAR NOTIFICATION

In the event a known or suspected foreign national is arrested and booked or detained for more than two hours, they shall be advised of their right to communicate with an official from the consulate of their country. This notification shall be done by the arresting officer. If the foreign national is a citizen of one of the Countries requiring mandatory notification, the notification shall be done by the arresting officer regardless of the foreign national's request to the contrary (Penal Code § 834c).

414.6 FEDERAL REQUESTS FOR ASSISTANCE

A Member shall not assist immigration authorities with the enforcement of immigration law or perform the functions of an immigration officer. Absent an urgent issue of officer safety or other emergency circumstances, requests by federal immigration officials for assistance from this Department should be directed to a supervisor. The supervisor, with guidance from the Department Commander, is responsible for determining whether the requested assistance would be permitted under the California Values Act (Government Code § 7284.2 et seq.).

414.6.1 SCOPE OF DEPARTMENT PARTICIPATION

The Orange County Sheriff's Department may participate in joint law enforcement task forces with federal authorities if the primary purpose of the task force is not immigration enforcement. The primary purpose must be both lawful and related to a violation of state or federal law that is unrelated to immigration enforcement. While on a task force with federal authorities, confidential information may be shared for the purpose of the investigation being conducted. Federal immigration authorities cannot be used as interpreters.

414.6.2 FEDERAL USE OF DEPARTMENT FACILITIES

Immigration authorities cannot be provided with dedicated office space within Department facilities, or house federal detainees for purposes of civil immigration custody (Government Code § 7284.6).

414.7 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE

1) The Population Management Unit Sergeant shall ensure that data regarding the number of transfers of an individual to immigration authorities, as permitted by Government Code § 7284.6(a) (4), and the offense that allowed for the transfer is collected and provided for required annual reporting to the DOJ (Government Code § 7284.6(c)(2)).

2) If the Orange County Sheriff's Department participates in a joint law enforcement task force, where personnel or resources are dedicated on an ongoing basis, the Investigative Administration Manager(s) will report the following information to the Attorney General annually (Government Code § 7284.6(c)(1):

School Resource Officer Program

415.1 PURPOSE AND SCOPE

It is the policy of the Orange County Sheriff's Department to establish and maintain a School Resource Officer Program. The success of the program depends upon the respect and confidence deputies earn from the students, parents and staff. The integrity of each deputy, as well as the organization, is necessary for students, parents, teachers and school administrators to give the Department their trust. Without this trust, deputies cannot expect to form partnerships on campus. Fundamental to building trust on campus is the fair and equitable treatment of all individuals. Whether student, parent or staff, all persons must be treated with dignity and respect.

415.2 SCHOOL RESOURCE OFFICER'S MISSION STATEMENT

- Interact with students in a setting that builds self-esteem and trust and reinforces the police as role models.
- Interact with students, faculty, community, parents, and civic leaders to promote positive relations.
- Educate students about the law and importance of individual responsibility as well as team building and cooperation within our community.
- Serve as a resource for the students, teachers, and parents.

415.5 AUTHORITY

The Orange County Sheriff's Department recognizes and respects the authority of the principal, and their designee, to be the primary leader and manager of the school campus. The SRO, however, has the authority and responsibility to ensure proper decisions are made in reference to crimes, crime scenes, and any incidents that pose a threat to public safety.

- During any law enforcement-related event on a school campus, the SRO will advise the principal or designee of the law enforcement decisions being made to resolve the incident, when feasible. During any law enforcement-related event, it may become necessary for the SRO to temporarily take charge of the incident and/or school campus to protect the integrity of the investigation and/or crime scene, and ensure the safety of the students and staff, until properly relieved.

The School Resource Officer Program will be commanded by the School Resource Officer Program Captain and supervised by the School Resource Officer Program Sergeant.

All Orange County Sheriff's Department SROs will be sworn peace officers. As such, the SROs possess the same authority and powers of arrest as any other state or local law enforcement official regardless of whether they are on or off school property.

- When performing the duties of a SRO in the school environment, the SRO shall have an understanding of the administrative responsibilities the school has in resolving misbehavior.
- The SRO will be familiar with the student handbook of their respective schools.
- They will support the concept that teachers have the right to teach and students have the right to learn in a safe and respectful environment.
- When dealing with misconduct and disruptive behavior, the SRO will be mindful of the fact that respect for others is an extension of one's own self-respect.
- Conduct with students should be of quality that reinforces positive self-image, self-esteem, and professionalism.

415.6 CHAIN OF COMMAND

The chain of command for the School Resource Officer Program will be:

- Field Supervisor (Responsible for day to day operations)

The following outline is meant to be a guide that reflects the "philosophy" of the Orange County Sheriff's Department School Resource Officer Program. The program is based on the premise that the SRO serves the following basic functions:

The Department's SRO Program will adhere to the "Triad Concept" supported by the National Association of School Resource Officers (NASRO). The Triad Concept of SRO responsibility is: educator, informal counselor and law enforcer.

Law Enforcer: The SRO's primary role on campus is that of a law enforcement officer. They will enforce all applicable laws in a fair and consistent manner. Generally, SROs will not investigate or enforce school rule violations unless there is a violation of law, as well.

- The SRO will conduct investigations for crimes that occur on their designated school campus.
- The SRO, when available, may offer assistance in conducting investigations for other crimes off campus that may have a direct effect on a student or the school community.
- The SRO, when available, should be the "case deputy" for most crimes committed at their designated school. This means the SRO will then complete the investigation and all the necessary follow-up unless an investigation unit is required. This may include the collection of evidence and interviewing victims, witnesses and suspects.
- When necessary, the SRO may arrest, detain and or hold suspects in-custody as prescribed by law and Department policy.

Some serious crimes require specialized expertise or logistical support to investigate. Under these circumstances, an appropriate investigator will be assigned as the case investigator. The SRO will then assist the investigator, and function as the liaison between the victim, the school staff, and Department.

- The SRO can address parking and traffic concerns that affect the school and surrounding community, and should consult with school officials and city/county traffic engineers as needed.
- The SRO may conduct and/or coordinate traffic enforcement details to encourage compliance with State and local traffic laws.
- The SRO will coordinate with school staff to promote crime prevention programs and enhance the police/community relationship with the surrounding neighborhoods. This may be accomplished through foot and vehicle patrol of the school grounds and adjacent areas.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

School Resource Officer Program

- The SRO will work with the District to address truancy issues.

Teacher: As a guest teacher, the SRO can present a diverse curriculum in the area of Law-Related Education (LRE) to the students, parents and the staff. LRE includes classes in the areas of personal safety, wellness, and criminal and traffic law. Presentations developed by SROs will be approved in accordance with department policy and procedure.

Counselor: As an informal counselor, the SRO can act as an advisor, mentor and mediator to students, parents and staff. They may use their professional experience to counsel and educate people on law-related issues. When a higher level of expertise is required, the SRO should refer the person seeking aid or guidance to the appropriate agency or resource.

415.8 DUTIES AND RESPONSIBILITIES

- Conduct classroom instruction on prevention and education on appropriate subjects for students, faculty and staff, in accordance with the SRO and Department mission statements, utilizing approved lesson plans.
- Take appropriate action for any on-site situations requiring police attention.
- Act as a liaison and resource between the law enforcement community, other governmental agencies and the school.
- Maintain availability to all students in the schools via office phone, e-mail, or other electronic medium that may be accessed by the SRO Sergeant for quality control purposes. All School District Internet/Computer Policies will be adhered to at all times. In cases of conflict, the SRO will consider the device being used and apply the respective policy of the organization that owns that device. SROs will not directly engage with students via the SRO's personal cell phone, e-mail or social media accounts, and will always adhere to our Code of Professional Conduct and Responsibility for Peace Officers as stipulated in Policy 1001 of this manual.
- Interact with students to promote and reinforce the development of basic life skills and personal control and responsibility for one's actions.
- Conduct or assist the school with investigations involving the school or students. The main function of the SRO is to be on their assigned campus(es) during school hours. Follow-up investigations requiring the deputy to be off campus may be conducted; however, these should generally be conducted after school hours (Overtime requires supervisor approval).
- Only under exigent circumstances should SROs be absent from their designated campuses during school hours on follow-up investigations.
- The SRO may have input into intervention and preventive strategies and community resources available.
- The SRO should participate and be the point of contact for any departmental activities related to major school events.

Orange County Sheriff-Coroner Department

School Resource Officer Program

- Inform the school administration of current student criminal involvement and criminal trends that affect the safe environment of the school, as needed and allowed by law. Privacy and case integrity will be paramount.
- Perform preventive patrol around school campus for students traveling to and from school. Attention will be directed to observations pertinent to the safety and wellbeing of children.
- Interact with uniform patrol in order to share information and work together on matters of mutual concern.
- Attend special events, with the permission of the Shift Supervisor, as necessary to interact and prevent problems.
- Participate in various Department-sponsored and endorsed activities that foster a positive relationship between the students and the SRO.
- Maintain contact with the SRO Administrative Sergeant in order to facilitate administrative needs.
- Attend scheduled meetings established by the supervisors for information exchange and resolution of special problems.
- Transport students in patrol cars in accordance with the law and Department Policy.

415.9 TRAINING

School Resource Officers work in an educational environment with school administrators. School Resource Officers must build positive relationships with both students and staff to ensure a safe learning environment. It is recommended SROs complete the following training prior to being assigned as an SRO when feasible but no later than one year of assignment.

- Basic SRO
- Patrol Rifle/MACTAC
- Annual SRO Summer Summit (OCSD)
- Threat Assessment training
- Advanced officer training
- Annual completion of re-certification of Patrol Rifle and MACTAC Active Shooter training
- Attend annual professional development conferences

415.10 SCHOOL ENFORCEMENT

Truancy - In most instances, truancy will be handled at the school administrative level. The SRO may participate in student interventions, especially when potential delinquency is a factor.

Searches - The SRO must follow Departmental Policy, applicable law and respect the school's policy in conducting searches. The rules of criminal evidence apply in school the same as they apply under normal circumstances. The school administration cannot be used as an agent of law

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

School Resource Officer Program

enforcement to search a student's locker or person. The school administrator has the authority to search prior to the SRO knowing a crime has been committed.

Interviews and interrogations - SROs will adhere to Department Policy and applicable law on juvenile investigations when conducting interviews and interrogations.

Emergency/Non-Emergency Calls - The criteria set forth is designed as a guide. In most cases, the SRO will handle a call for service on their designated campus. However, when an arrest is necessary or imminent, a patrol deputy may be dispatched to the campus to handle the arrest and transportation of the juvenile to Juvenile Hall.

Immediate Police Response: Schools should call 9-1-1 and then call the SRO. Examples include:

- Immediate life-threatening emergency
- Large or serious fight in progress
- Unruly crowd
- Disruptive parent who will not leave or calm down
- Bomb threats
- Child abuse
- Crime in progress where the protection of evidence is essential, or the apprehension of the violator is possible
- Safety hazards (i.e. chlorine, natural gas leaks)

Police Services Not Immediately Required: Schools should call the SRO assigned to the school. If the SRO is not able to respond, the school should call dispatch for an on-duty patrol deputy. Examples include:

- Burglary (where the school is the victim and evidence may be present)
- Vehicle burglaries with the victim standing by
- Assaults (which are over and under control with little or no injury, or where students are not on campus, no suspects, no witnesses)

Where police services are required, but where time is not of the essence, the school should call the SRO assigned to the school and advise them of the situation. Examples include:

- Theft (no suspects, no witnesses)
- Threats or intimidation (no suspects, no witnesses)
- Criminal damage (no suspects, no witnesses)
- Any other incident of minor nature, status offense, City Code violation, etc.

415.11 SRO WORK HOURS

SRO work hours may be varied according to individual school needs. SROs will work four days a week, ten hours per day, 0600 hours to 1630 hours, unless prior approval has been obtained from the Shift Supervisor or as directed by the city/area Captain.

Work schedules should remain flexible based upon the needs of the school on any given day/event.

SROs are required to obtain prior approval from a Supervisor for any overtime. This can be accomplished by calling the SRO Administrative Sergeant.

Although not mandatory, SROs are encouraged to take vacation when school is not in session.

When sick leave/family sick leave is necessary, the SRO must also notify the Shift Supervisor per department policy. The SRO should also inform the Principal or the Principal's designee by telephone of their absence prior to the start of school. The SRO and Shift Supervisor will ensure notification is made to the school.

415.12 GUIDELINES AND PROCEDURES

Uniform Procedures and Dress Code - The SRO standard dress and appearance is set by Department Policy. Each deputy is responsible for the professional image of the Department by assuring their appearance is in accordance with these guidelines.

Radio Procedures - SROs shall check in and out of service on their police radio. SROs shall be required to check out with a location by police radio during school visits or other police business.

Cellular Phone Use - All SROs will be assigned and issued a Departmental cellular telephone.

- The Principal should be informed that the cell number is confidential and not to be released to any office staff, teachers, or parents without the SRO's permission.
- Each call received by the SRO should be answered as soon as possible during school/work hours.
- The SRO's cellular telephone will only be used for work related purposes.

E-Mail - Each SRO will check their e-mail accounts daily per Department Policy.

Monthly Activity Log - Activity Logs will be due to the SRO Administrative Sergeant on the Monday following the last day of the month.

Portable Audio/Video Recorders

424.1 PURPOSE AND SCOPE

This policy provides guidelines for the use of portable audio/video recording devices to include the surreptitious use of audio/video recorders/monitors by Members of this Department while in the performance of their duties. Portable audio/video recording devices include equipment issued by the Orange County Sheriff's Department or contract partner such as digital recorders, cameras, body wires, key fob recorders, and cellular phones and applications with similar recording functions.

This policy does not apply to mobile audio/video recordings (see Policy 446 Patrol Video System (PVS)) or body worn cameras (see Policy 447 Body Worn Camera).

424.2 POLICY

The Department or contract partner may provide Members with portable recorders, either audio or video or both, for use in the performance of their duties. Members working investigative details may be provided recorders/monitors for surreptitious use. All devices and/or applications shall require approval from the Sheriff or appropriate designee.

The use of recorders and/or monitors is intended to:

1. Accurately capture statements and interactions between Members of the Department and the public, including interviews with suspects, victims, and witnesses
2. Provide evidence for criminal prosecution and improve subsequent courtroom testimony
3. Assess allegations of Departmental wrongdoing
4. Provide evidence during civil litigation
5. Enhance officer safety and the safety of informants
6. Increase report writing proficiency

Use of personally owned portable audio/video recording devices or camera, including a personal cell phone, absent critical evidentiary issues, is prohibited. In a critical situation with an urgency to collect/document evidence which may dissipate or otherwise be destroyed, a Member may use a device other than what is Department-issued. The supervisor should be advised as soon as possible and the necessity thoroughly documented in a report.

424.3 MEMBER PRIVACY EXPECTATION

All recordings made by Members acting in their official capacity as Members of this Department are the property of the Department and should not be considered private, regardless of whether those recordings were made with Department-issued or personally owned devices. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Portable Audio/Video Recorders

Any device, regardless of whether it is Department-issued or personally owned, used for recording, documenting, or photographing in an official capacity may be subject to a discovery request, subpoena, or Public Records Act request.

424.4 MEMBER RESPONSIBILITIES

Members using a portable recording device should make sure it is in good working order. Any portable recording device should also produce universally accepted audio/video files and not be proprietary to the device.

When using a recorder, the Member should, when possible, verbally record his/her name, Member number, case number if applicable, and the current date and time at the beginning or the end of the period of use (i.e. interview, activity, etc.). This procedure is not required when the recording device and related software captures the user's unique identification and the date and time of each recording. Recordings and/or photographs are to be booked in accordance with Policy 802. Under extenuating circumstances, a supervisor may authorize a Member to maintain their recordings and/or photographs on personal devices until such time when the file(s) can be converted to a data storage device (i.e. flash drive, hard drive, cd/dvd rom) for evidence/booking purposes.

Members shall document the existence of a recording (audio or visual) in any report, daily log, or other official record of the contact, including any instance where the recorder malfunctioned or the Member deactivated the recording. Members should include the reason for deactivation. After recordings and/or photographs of evidentiary or investigative value are transferred out of the recording device and onto a "data storage device", the Member shall document the removal of the media from the original device.

424.5 ACTIVATION OF THE PORTABLE RECORDER

This policy is not intended to describe every possible situation in which the portable recorder should be used, although there are many situations where its use is appropriate. Members should activate the recorder any time the Member believes it would be appropriate or valuable to record an incident.

The following situations are examples of activities where a portable recording may be useful:

1. All enforcement and investigative contacts including stops and field interview (FI) situations
2. Traffic stops including, but not limited to, traffic violations, stranded motorist assistance and all crime interdiction stops
3. Self-initiated activity in which a Member would normally notify dispatch
4. Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording

The following situations are examples of activities where the surreptitious use of a recording/monitoring device may be useful:

1. Criminal investigations utilizing undercover investigators and/or testifying informants

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Portable Audio/Video Recorders

2. VICE operations such as illicit massage parlor investigations, prostitution stings and "John" Operations
3. Murder for hire investigations
4. Any other investigation where covert recording/monitoring would increase officer safety or assist in successful prosecution

At no time is a Member expected to jeopardize his/her safety in order to activate a portable recorder or change the recording media. However, the recorder should be activated in situations described above as soon as it is safe to do so.

424.5.1 SURREPTITIOUS USE OF THE PORTABLE RECORDER

1. Penal Code 632 prohibits any individual from surreptitiously recording any conversation in which any party to the conversation has a reasonable belief that the conversation was private or confidential. Penal Code 633 provides a law enforcement exception to the normal prohibition against surreptitious recording of certain conversations. This includes the Sheriff, Undersheriff, Deputy Sheriffs, or any other person acting pursuant to the direction of one of these law enforcement officers. However, this exception does not ordinarily cover non-sworn personnel, unless the Member is acting at the direction of a Deputy Sheriff during the course of a criminal investigation, with supervisor approval. Accordingly:
 - (a) **Non-sworn personnel** wearing a conspicuously mounted recording device, or using a recording device that is reasonably recognizable as a recording device, may record any member of the public without notice in a public setting where there is no objectively reasonable expectation of privacy, such as in the public area of a business or outside of a residence front door (i.e. while taking a traffic collision report).
 - (b) If **non-sworn personnel** have a citizen contact in a private area of a business or residence, the Member **shall** notify the other party that the conversation is about to be recorded, unless the Member is acting at the direction of a Deputy Sheriff to surreptitiously record the conversation, with supervisor approval. If the Member was acting at the direction of a Deputy Sheriff, this shall be documented in a Department Report (DR) or daily log.
2. **Non-sworn personnel** shall not record a person in a private or confidential setting if the person objects after notification and the objection shall be documented in their DR or daily log.
3. No Member of the Department may surreptitiously record/monitor a conversation of any other Member of this Department without the expressed knowledge and consent of all other parties. This prohibition does not apply to any criminal investigation involving said Departmental Member.

424.5.2 CESSATION OF RECORDING

Once activated, the portable recorder/monitor should remain on continuously until the Member's direct participation in the incident is complete or the situation no longer fits the criteria for activation.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Portable Audio/Video Recorders

Members shall document any instance where the recorder malfunctioned or the Member deactivated the recording. Members should include the reason for the deactivation.

424.5.3 EXPLOSIVE DEVICE

Many portable recorders, including body-worn cameras and audio/video transmitters, emit radio waves that could trigger an explosive device. Therefore, these devices should not be used where an explosive device may be present.

424.6 PROHIBITED USE OF PORTABLE RECORDERS

Members are prohibited from using Department-issued or personally owned portable recorders and recording media for personal use. Any Member who uses a Department-issued or personally owned recorder for Department-related activities shall comply with the provisions of this policy, including retention and release requirements. Any Member who may have questions regarding the application of this policy is encouraged to seek clarification from supervisory personnel.

424.7 RETENTION OF RECORDINGS

Any time a Department Member submits any portion of a contact that he/she reasonably believes constitutes evidence in a criminal case, the Member shall document the date and time, location and associated case number (if known).

The entire recording of the contact shall be converted to disc format, submitted into evidence in accordance with Policy 802 and the existence of the disc shall be documented in the related case report number. If the recordings are completed within one shift in their entirety, this procedure shall be done at the end of each shift. In investigations where the conversation and recordings have a potential to span over multiple days, this procedure shall be done at the conclusion of the conversation in its entirety for continuity purposes with supervisor approval.

Once the evidentiary material has been transferred from the device used by the Member and the evidence has been booked into the Sheriff's Property/Evidence Bureau, the device's memory shall be cleared of the evidentiary material.

Any time a Member reasonably believes a recorded contact may be beneficial in a non-criminal matter (i.e. a hostile contact), the Member should request a DR number for an information report, convert the file to disc format, and submit it into evidence under the associated case report.

424.7.1 RETENTION REQUIREMENTS

All recordings submitted into evidence shall be retained for a minimum of two years (per approved Board of Supervisors Retention and Disposition Schedule) unless the recordings are evidence in any claim, civil litigation, or criminal case.

If a notice of a "litigation hold" is issued by Risk Management, County Counsel, or otherwise, any recording related to a claim or lawsuit and/or subject to litigation hold shall be retained and/or copy provided at the direction of Risk Management.

424.8 REVIEW OF RECORDINGS

When preparing written reports, Members may review their recordings as a resource. However, members should not use the fact that a recording was made as a reason to write a less detailed report use the recording as a substitute for their own perceptions and observations. When writing a report, Members shall indicate, in their report, that a recording of the incident exists and that the recording was reviewed prior to the report being written.

Review of recordings by a supervisor without a specific reason to do so is prohibited. Specific reasons to review recordings may include but are not limited to commendations, training, the investigation of complaints, reasonable concern for unprofessional conduct, quality assurance, and the review of critical incidents.

Recorded files may also be reviewed:

1. Upon approval by a supervisor, by any Member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation, or criminal investigation.
2. Pursuant to lawful process or by court personnel who are otherwise authorized to review evidence in a related case.
3. By media personnel with permission of the Sheriff or the Sheriff's authorized designee.
4. In compliance with a public records act request, if permitted, and in accordance with the Records Maintenance and Release Policy.

424.9 RELEASE OF RECORDINGS

Recordings made using portable recording devices pursuant to this policy are Department records and may only be released as provided by the California Public Records Act or pursuant to a court order, District Attorney's discovery request or proper subpoena, or for other authorized legitimate Department business purposes.

Patrol Video System (PVS)

446.1 POLICY STATEMENT

The use of a Patrol Video System (PVS) can provide powerful evidence in support of public safety. Therefore, to assist with keeping the public trust and maximizing the effectiveness of this valuable tool, procedures for use of the PVS system are set forth below.

It is the policy of the Orange County Sheriff's Department for Sergeants, Deputy Sheriffs, Sheriff's Special Officers (SSO) and Community Service Officers (CSO) (hereinafter, collectively referred to as Members) to deploy the PVS every shift worked in a Department vehicle equipped with the PVS system.

446.2 PURPOSE

The primary purpose of the PVS system is documentation and preservation of video evidence. In addition, the recording of our Department's interactions with the citizens the Department serves, provides transparency and accountability for the citizens of Orange County. The PVS is designed to assist and compliment Members in the performance of their duties. Through proper utilization, the PVS can aid in the prosecution of criminal offenders, refute allegations of Departmental wrongdoing, assist and provide evidence during civil litigation, and provide video documentation for future training needs.

The PVS system is intended to support Members' actions during various citizen encounters by providing a visual and audio record of contacts. Video provides an one-dimensional, unbiased account of the incident being recorded and, as such, supplement the Member's report.

The Department permits and encourages Members to review available audio/video recordings as a means of reinsuring factual accuracy and enhancing recollection when documenting an event. For additional information, refer to sections 300.6 Post Use of Force Procedures and 424.8 Review of Recordings.

Additionally, PVS footage has been valuable in refuting false allegations against Department Members or assisting the Department to complete Internal Affairs investigations.

446.2.1 EXPLORATORY SEARCHES OF PVS FOOTAGE

Review of PVS footage by a supervisor without a specific reason is prohibited. Authorized reasons to review PVS footage may include but are not limited to commendations, training, the investigation of complaints, use of force reviews, an unambiguous and reasonable concern of unprofessional conduct, quality assurance and review of critical incidents.

446.3 TRAINING

It is the policy of the Department for all Members assigned to Patrol Operations to be properly trained in the use and operation of the PVS system. In those unique situations where a Member has not received PVS training, he/she shall secure supervisor approval prior to operating a PVS equipped vehicle. Please note when the vehicle is started, the PVS switches to an active record mode whenever the forward red light is turned on, all emergency lights are turned on, VLP

microphone is activated, the operator manually depresses the red record button, when a vehicle reaches a predetermined speed, or the vehicle is involved in a collision, which activates the crash box sensors. Members not trained in the use of PVS system, should contact the PVS custodian or a field supervisor for guidance prior to operating a PVS equipped vehicle and/or when the PVS records information of evidentiary value or of interest to the Department.

In-service training shall be provided for Members newly assigned to Patrol Operations Command who are using the digital PVS for the first time. This training shall be provided by the Sheriff's Technology Division, or personnel trained in the use of PVS. The in-service training will consist of the following:

1. Instruction in the function and use of the PVS.
2. Use of the "DEP/L3/Flashback" software.
3. How to make a "case."
4. How to preserve a "case" as evidence.
5. How to report a PVS that is in need of repair.
6. When and when not to utilize the Nightwatch function.
 - (a) Note: To prevent *overexposure of the video images*, the Nightwatch function should only be used in very low light condition; i.e. a dark alley which has little to no ambient lighting.

Members assigned to the Patrol Operations Command shall be provided additional instruction on the PVS by their Field Training Officer during training. The additional instruction shall consist of the following:

1. Review of the function and use of the PVS.
2. Instruction in the proper times to activate or deactivate the PVS.
3. Review how to make a "case".
4. Review how to preserve a "case" as evidence.
5. How to request a digital copy of a recording for Court.
6. Review how to report a PVS that is in need of repair.
7. Review of when and when not to utilize the Nightwatch function.

The individual conducting the additional instruction shall ensure the Member receiving the instruction fully understands the PVS system and its proper operation.

Additional instruction shall be consistent with other patrol training a deputy receives during Field training and shall be recorded in the deputy's ADORE training file by the Field Training Officer. For Members, other than deputies, the additional training will be documented in the Members training file by the Field Training Officer and retained by the respective Training Sergeant.

Patrol Video System (PVS)

446.3.1 PVS USAGE

At the start of a shift, the Member shall check to ensure the video files from the previous shift were successfully downloaded. Downloading is indicated at the top of the PVS screen as the available free memory on the system's memory card. A completely downloaded memory card is indicated as "29.7 GB". (Note: If a completely downloaded card reads "15.4 GB", notify your supervisor or PVS custodian so a 32 GB card can be installed. 16 GB cards are being taken out of service). When the PVS screen reads "29.7 GB", there are no video files left on the PVS and downloading is complete. Any malfunction or failures during the download must be immediately reported to the shift supervisor and a PVS Trouble Report shall be filled out and submitted to the PVS custodian by the reporting Member.

1. Any digital recordings on the PVS shall automatically begin to download wirelessly whenever the patrol car comes within a few hundred yards of designated stations if the unit is not in active record mode.
2. Any digital recordings from a prior shift which were not downloaded prior to returning the unit to service should be reported to a field supervisor.
3. Vehicles returning to service that have not fully downloaded previous recordings, may have their respective memory card changed by a field supervisor. Members should not utilize a memory card that does not have a minimum of approximately fifteen gigabytes (15 GB) of remaining memory. Available memory is indicated on the top of the PVS video screen as a numeric value; e.g.29.47 GB.
4. Field supervisors shall have extra memory cards for the PVS system for those times where a shift may run longer than normal or an extended shift is scheduled or anticipated and the vehicle cannot go to one of the download locations.
5. Field supervisors, who have changed out a memory card, as described above, shall turn the full or partially used memory card in to the appropriate PVS custodian, maintaining the chain of custody of evidence.
6. The PVS system records onto a memory card that has an approximate 24 - hour recording capacity. To ensure a memory card will last an entire tour of duty and to maximize system storage capacity, deputies should only record active "events" as described in paragraph "8" of this policy.
7. Once the power to the vehicle has been turned off, the system will shut-down approximately sixty minutes thereafter. The PVS will not record video footage during shut-down mode; however, it will continue to download video files to the server. If the vehicle is restarted while the PVS is in shutdown mode the PVS will take approximately one minute to reboot.
8. Each Member shall record, both visually and audibly, the following:
 - (a) All calls for service.
 1. This shall include all Member who arrive to a call for service whether or not he/she was assigned to the call.
 2. PVS shall be activated prior to arriving to the call and remain on until the call is completed.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Patrol Video System (PVS)

- (b) Pursuits.
 - 1. Audio and Video recording shall begin automatically with the activation of the overhead lights.
 - 2. Video recording shall continue until the unit is manually deactivated.
 - (c) Car stops.
 - (d) Arrests.
 - (e) DUI observations and field balance and coordination tests.
 - (f) Traffic enforcement and pedestrian stops.
 - (g) Contacts with the public whenever possible.
9. Each unit is equipped with a rear seat camera and microphone, except for K-9 patrol cars.

The above list is not all-inclusive and each Member is encouraged to use his or her judgment regarding PVS usage. If a Member fails to record an incident, he/she must provide justification for the lack of a recording. The Member will document the justification in the incident report. If no report was taken, the Member will document the justification in the CAD Call Narrative. The Member shall notify their supervisor who shall also document the justification in the Supervisor's log. For example: A crime in progress happening unexpectedly without sufficient time to activate the PVS. During incidents as described, a deputy should activate their PVS as soon as practical and safe to do so. Then follow the documentation procedure outlined above.

Exemptions to the above PVS Usage Policy:

- 1. When a confidential informant's identity must be protected, or for other reasons authorized by California Evidence Code 1040, 1041, and 1042. Deputies shall be required to provide justification for not recording a particular incident or contact as described above. This justification should be documented in the incident report and should read similar to, "Unit XXXX's PVS recording was stopped at XXXX hours on XX/XX/XXXX (date) in accordance with Policy 446."
- 2. After a critical incident, the Incident Commander and Department Commander shall determine an appropriate time to deactivate or reactivate the PVS systems. This determination will be communicated on the primary channel.
- 3. When the PVS has been activated to document an event, it shall not be deactivated until the event had been concluded, except during an extended incident, e.g., traffic control or accident scene, the Member may deactivate the system to conserve recording time. In such cases, the Member shall document the reason for stopping the recording by verbally noting, on the recording, the intent to stop capturing a specific event or incident prior to stoppage as well as articulate the reason for making that decision.

When the PVS system is activated, the system will retain 60 seconds of recording prior to activation. This will allow traffic violations, erratic driving, suspicious activity and other unusual happenings to be captured.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Patrol Video System (PVS)

Members should be aware of the additional applications or limitations of the PVS system, including the use of the audio recording capability when incidents occur outside the view of the camera. Such applications or limitations, may include but are not limited to, recording conversations during domestic disputes occurring inside a residence or recording statements made during a "keep the peace" call occurring behind an apartment complex. By being aware of the PVS capability and limitations, such as the distance from the vehicle and potential geographic obstacles, Members can determine its recording effectiveness.

446.3.2 MEMBERS' RESPONSIBILITIES

Prior to the beginning of each shift, each Member utilizing a PVS system shall verify the memory card has at least 15 GB of available memory. If the available memory is less than 15 GB, the Member shall notify their field supervisor, so the memory card may be replaced. The Member shall also log onto their respective PVS with their assigned USB key. If the PVS is utilized without a USB key, the Member shall notify the PVS custodian, so the PVS recording may be properly marked with the appropriate Member's information. After log-on is complete, Members shall perform the below pre-operational and operational inspection to ensure the PVS is functioning correctly.

Perform a Pre-operational Inspection Test:

1. VoiceLink Plus® (**VLP**), digital wireless microphone:
 - (a) Adequate power source (batteries).
 - (b) Connected to the recording equipment (remote links with onboard vehicle system).
 - (c) Remote activation of system via transmitter (microphone).
2. Camera Lens:
 - (a) Windshield and camera lens are free of debris.
 - (b) Camera facing intended direction.
3. PVS Recording mechanism:
 - (a) Powers up when car is turned on.

Perform an Operational Inspection Test:

- (a) Remove the microphone from the charger and place it in an accessible location on your belt, shirt pocket, etc. At the end of a patrol shift, microphones should be powered and kept in the vehicle charger or returned to the equipment room.
- (b) Start recording for a short period, it is recommended that the recording be initiated by turning the microphone on, then walk in front of the vehicle (camera), state your name, date and unit number, then play it back to confirm the audio and video were recorded properly.
- (c) Unless authorized by a supervisor, vehicles shall not be utilized for patrol without a properly functioning PVS system, which includes video and audio capabilities. Sheriff's K-9 patrol vehicles shall be equipped with a power control switch to turn off the PVS. K-9 deputies shall only turn the power off to their PVS at the end of watch (EOW)

and/or prior to driving their patrol car home. This provision is in place for officer safety reasons.

- (d) Any malfunctions of the PVS equipment shall be documented on a "PVS Trouble Report" which shall be given to the PVS custodian for processing. Additionally, the Member's immediate supervisor shall be informed verbally of the PVS malfunction prior to the unit being placed in service.
 - (a) When the PVS is not operating properly, the appropriate supervisor shall make the determination of whether or not the patrol vehicle shall be utilized. If the vehicle is placed in service without an operating PVS, a notation shall be entered into the Supervisor's log.
 - (b) Damage or theft of a PVS shall be documented on the appropriate Department form and reported to the Member's immediate supervisor. Lost or damaged PVS USB keys may be replaced by the PVS custodian.

446.4 VIDEO STORAGE

PVS video files shall not be duplicated and/or a copy of a video file released except by court order, District Attorney Discovery request, Risk Management Bureau request, Public Records Act request, or upon written authorization of a sergeant.

Each Division/Bureau that houses a download server shall designate a custodian of records to coordinate the production of copies to be released to authorized persons as described above.

Each Division/Bureau shall also house back-up storage devices for the PVS stored files. The back-up storage devices shall be removed by a communications technician who shall in turn release them to the respective authorized PVS custodian after the custodian completes a receipt for the device.

Each Division/Bureau shall also be responsible for the secure storage of the back-up storage devices. The storage devices shall be kept for a minimum of 2 years (per approved Board of Supervisors Retention Schedule) from the date of the last recording on the device. In the event that the recordings are evidence in any claim filed or any pending litigation, they shall be preserved until pending litigation is resolved.

446.5 PVS MALFUNCTIONS

For in-car PVS equipment repairs, the PVS Custodian who received a "PVS Trouble Report" shall notify their local fleet manager or call Sheriff's Technology Division at 714-704-7999.

Field supervisors shall report a complete system failure or malfunction to Sheriff's Technology Division at 714-704-7999. After normal support hours (M-F 07:00 - 16:30 PST), a supervisor should call Control One at 714-628-7008. Control One shall contact the Sheriff's Technology Division.

The Sheriff's Technology Division shall notify Sheriff Dispatch if they become aware of system failure or malfunction. Dispatch shall in turn notify the affected supervisors. In addition, Communications shall notify the Sheriff Dispatch when the system is repaired and fully functional.

446.6 EVIDENCE PRESERVATION

A PVS recording of evidentiary value shall be saved by creating a "case" for the digital recording and by checking the "do not dispose" box prior to the end of shift.

Evidentiary value means PVS recordings obtained in the course of an incident that can later serve a purpose in civil, criminal, or administrative proceedings.

Once a case has been created it shall be "named" or labeled by its assigned DR number, call number or citation number.

Cases saved by checking the "Do Not Dispose" box shall not be purged from the system until the case in question has been adjudicated. Once the case has been adjudicated, the Sheriff's Technology Division, will be responsible for purging the recording.

A case saved in the above manner shall be considered saved as evidence.

Any report related to a digital recording, which has been saved as described above, should indicate in the evidence section of the report that a digital recording of the incident was preserved and saved as evidence.

Only those digital files which have been saved as a "case" can be burned to a DVD, as authorized by Policy 446 Section 446.4.

Should questions arise, further guidance is available from Sheriff's Technology Division at 714-704-7999.

446.7 MOTOR-DEPUTIES' AUDIO RECORDINGS

In lieu of a PVS, deputies who are assigned to motorcycle duty shall carry and utilize a digital audio recording device. The recording device shall be used in the same manner as the PVS system.

1. All digital recordings/audio files made during the course of a motor-deputy's duties should be downloaded to the Puma software application, which is a read-only system. No changes may be made to the audio file once the file has been downloaded.
2. Digital recordings/audio files should be downloaded daily, if possible, and no later than the first day the motor-deputy returns to work after any recording is made.
3. All digital/audio files recordings shall be retained pursuant to the Board of Supervisors Retention Schedule for a period of 2 years, unless the recordings are evidence in any claim or pending litigation.
4. In addition to downloading digital recording/audio files to the Puma software application, digital recording/audio files of evidentiary value (civil, criminal, or administrative) should be burned to a digital media source, i.e., C.D./DVD/memory card, etc. and booked into evidence per policy 802.
5. Once downloaded to the Puma software application, recordings shall not be duplicated and/or a copy of a recording be released except by court order, District Attorney's discovery request, or upon written authorization of the motor supervisor, or his designee.

Body Worn Camera & In-Car Video Systems

447.1 PURPOSE AND SCOPE

The Orange County Sheriff's Department recognizes that audio and video recording of contacts between Department Members and the public can provide an objective record of these events and a record of enforcement and investigative contacts. Also, a recording of an event or contact improves the Department's ability to evaluate and improve Department practices, tactics, strategy, officer training, safety practices, and community policing objectives.

The Department provides Body Worn Cameras (BWC) to its Members and outfits patrol vehicles with an integrated In-Car Video (ICV) system. The primary purpose and objective of the BWC and ICV Program is to collect evidence for use in criminal investigations, identify and apprehend offenders, and obtain, collect, and preserve evidence for use in criminal prosecutions.

In all circumstances where a Member is issued a BWC and assigned a vehicle with an ICV, the systems shall be paired and used together. This policy applies to BWC and ICV as applicable.

In addition, to the primary above-mentioned purpose the use of the BWC/ICV is intended to:

1. Accurately capture statements and interactions between Department Members and the public, including interviews with suspects, victims, and witnesses.
2. Promote accountability and enhance public trust.
3. Assist in the resolution of public complaints and administrative investigations.
4. Enhance officer safety by providing a record for possible future training needs and continuous improvement.
5. Enhance the Member's recollection for the accuracy of reports and court testimony.
6. Deter criminal activity and uncooperative behavior during police-public interactions.

BWC/ICV systems provide a limited view of an incident which may, in its totality, not give a complete view into an incident. While recordings obtained by the BWC/ICV system provide an objective record of events, it is understood those recordings do not necessarily reflect the view, experience or state of mind of the Member in each incident. Recordings have limitations and may depict events differently than the event is perceived or recalled by the involved Member. Also, the BWC/ICV system may capture information that may not have been heard and/or observed by the Member.

BWC/ICV recordings shall be considered alongside all other available evidence(e.g., witness statements, personnel interviews, forensic analysis, and documentary evidence)when evaluating the appropriateness of a Member's actions. Unless, the BWC/ICV recordings is the only evidence, it shall not be used as the sole source when vetting an incident for training, corrective measures, or policy violations.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

The Department shall not install, activate, or use any biometric surveillance system in connection with the use of or data collected by BWC/ICV. Biometric surveillance systems include any computer software or application that performs facial recognition or other biometric surveillance.

447.2 GENERAL GUIDELINES

447.2.1 NO MEMBER EXPECTATION OF PRIVACY

All BWC/ICV recordings are the property of the Department. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

447.2.2 CONFIDENTIAL NATURE OF BWC/ICV RECORDINGS

BWC/ICV use is limited to enforcement and investigative activities involving members of the public. The BWC/ICV recordings will capture video and audio evidence for use in criminal investigations, administrative reviews, and other proceedings protected by confidentiality and Department Policy 215 (Confidential Information). Members shall comply with all applicable laws and policies regarding confidential information. Unauthorized release of BWC/ICV recordings may compromise ongoing criminal and administrative investigations or violate privacy rights of those recorded.

447.2.3 VIEWING OF BWC/ICV RECORDINGS

It is the policy of the Department to extend to its Members the ability to review all available Department media when writing reports, preparing for courtroom testimony and prior to making voluntary statements, for further refer to policy 303-Department Media. The viewing of BWC/ICV recordings shall be done only by means of a Department owned and/or issued device. The viewing of BWC/ICV recordings by means of personally owned PCDs (Personal Communication Devices), to include all mobile phones, and other such wireless two-way communication and/or portable internet access devices, is prohibited.

The reviewing of BWC/ICV by Executive Command, Managers, and Supervisors for a specific business purpose such as commendations, training, an official investigation (such as a personnel complaint, administrative investigation or criminal investigation), a clear and reasonable concern of unprofessional conduct, and the review of critical incidents, is permitted. The exploratory searches or viewing without a specific reason of BWC/ICV recordings, is prohibited. For further, refer to policy 303-Department Media.

447.2.4 PROHIBITED USE OF BWC/ICV RECORDINGS

Members shall not use BWC/ICV for personal use. Members shall not duplicate, copy, edit, alter, erase, or otherwise modify in any manner BWC/ICV recordings except as authorized by law and Department policy, for further refer to policy 802-Property and Evidence. The use of personally owned BWC/ICV recording devices, absent critical evidentiary issues, is prohibited.

447.2.5 SURREPTITIOUS USE OF THE BWC/ICV

1. Penal Code 632 prohibits any individual from surreptitiously recording any conversation in which any party to the conversation has a reasonable belief that

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

the conversation was private or confidential. Penal Code 633 provides a law enforcement exception to the normal prohibition against surreptitious recording of certain conversations. This includes the Sheriff, Undersheriff, Deputy Sheriffs, or any other person acting pursuant to the direction of one of these law enforcement officers. However, this exception does not ordinarily cover non-sworn personnel, unless the Member is acting at the direction of a Deputy Sheriff during a criminal investigation, with supervisor approval. Accordingly:

- (a) Non-sworn personnel wearing a conspicuously mounted recording device, or using a recording device that is reasonably recognizable as a recording device, may record any member of the public without notice in a public setting where there is no objectively reasonable expectation of privacy, such as in the public area of a business or outside of a residence front door (i.e., while taking a traffic collision report).
 - (b) If non-sworn personnel have a citizen contact in a private area of a business or residence, the Member shall notify the other party that the conversation is about to be recorded, unless the Member is acting at the direction of a Deputy Sheriff to surreptitiously record the conversation, with supervisor approval. If the Member was acting at the direction of a Deputy Sheriff, this shall be documented in a Department Report (DR) or daily log.
2. Non-sworn personnel shall not record a person in a private or confidential setting if the person objects after notification and the objection shall be documented in their DR or daily log.
 3. No Member of the Department may surreptitiously record/monitor a conversation of any other Member of this Department without the expressed knowledge and consent of all other parties. This prohibition does not apply to any criminal investigation involving a Department Member.

447.2.6 ACTIVATION OF LIVESTREAMING

The purpose of this technology is to promote situational awareness and officer safety. Remote live viewing, also known as livestreaming, is not intended to replace proper response by Members.

Livestreaming of BWC/ICV can only occur when the camera is actively recording. Livestreaming may only be accessed by an authorized user when there is a specific department business need that meets the activation criteria. Members should be informed via radio prior to remote viewing, but if that pre-notification is not practical or compromises officer safety, the member whose BWC/ICV was accessed must be notified as soon as practical following the event. When the BWC/ICV livestreaming feature is activated, the device will notify the member via a unique tone, and the LED light will turn purple. Additionally, the BWC will emit haptic feedback (vibration). The following shall be documented in the CAD: 1. Duration; 2. Specific reason for the activation (in addition to and beyond situational awareness); and 3. In instances when Members are not informed via radio prior to remote viewing, the reason that pre-notification did not occur. Livestreaming is restricted to the authorized users outlined below.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

BWC/ICV systems provide a limited view of an incident which may, in its totality, not give a complete view into an incident. While recordings and livestreaming obtained by the BWC/ICV system provide an objective record of events, it is understood those recordings and livestreaming do not necessarily reflect the view, experience or state of mind of the Member in a given incident. Recordings and livestreaming does have limitations and may depict events differently than the event is perceived or recalled by the involved Member. Also, the BWC/ICV system may capture information that may not have been heard and/or observed by the Member.

447.2.7 AUTHORIZED LIVESTREAMING USERS

1. Real Time Operations Center personnel
2. Sworn members at the rank of sergeant and higher
3. The on-scene incident commander (regardless of rank)
4. ECB personnel at the rank of dispatch supervisor and higher

447.2.8 LIVESTREAMING ACTIVATION CRITERIA

Authorized users may activate the livestreaming feature when any of the following criteria are met:

1. Exigent circumstances when there is a direct threat to officer and/or public safety.
2. To enhance tactical operations and situational awareness during a significant incident, observation activity or call for service. The Member whose BWC/ICV was accessed must be notified prior to activation or after activation as soon as practical; and a specific reason for activation must be entered into the CAD.
3. Any situation in which a Member has not responded to the radio.
4. Members may request RTOC assistance to an incident, activity or call for service which will include livestreaming activation. Members may specifically request activation of BWC/ICV to the RTOC or authorized livestreaming users.
5. For training of authorized users of livestreaming, during tactical training scenarios (e.g., Laser Village, Active Shooter Training, IMT and RTOC personnel), and technical troubleshooting (requires approval from the rank of Lieutenant or higher.)

447.2.9 GPS FUNCTIONALITY

Each BWC/ICV includes GPS capabilities, which allow the Member's location to be visible at all times. The following personnel are authorized to utilize the real time GPS function:

1. Real Time Operations Center personnel
2. Supervisors and Managers
3. Dispatch personnel

447.2.10 LIVESTREAMING AUDIT

The Records Division (Media Analysis Bureau) will create a monthly report of livestreaming activations which will be sent to the Administrative Sergeant of the bureau responsible for the Member who accessed the livestreaming function. The Administrative Sergeant will perform monthly audits to ensure compliance with this policy including user authorization, activation criteria, and CAD documentation. The Lieutenant/Captain of the Member who accessed the livestreaming will finalize the audit to ensure compliance with policy and send it to the Division

Commander for retention. The audit documents will be maintained in the division where the livestreaming occurred and preserved in accordance with the County retention schedule.

447.2.11 AUTOMATED RECORDING ACTIVATIONS

The BWC system employs Bluetooth technology that allows signals to be sent from specific department devices to the BWC that results in automatic BWC activation. This capability is designed to promote officer safety and enable the member to maintain situational awareness. Devices capable of interacting with the BWC include the patrol unit lights and siren control system, and the ICV patrol unit signal activation button.

Activation of the BWC occurs automatically under the following circumstances:

1. When a Member activates the emergency lights and siren of the patrol unit (Code 3 response)
2. When a Member depresses the patrol unit activation button
3. When a Member is within Bluetooth range of approximately 100 feet of an activated Axon Signal

447.3 MEMBER RESPONSIBILITIES

447.3.1 TRAINING

All Members who are authorized to use BWC/ICV equipment must complete mandatory training provided by the Department to familiarize themselves with the system before the Member deploys with the equipment.

447.3.2 BWC PLACEMENT

BWC equipment generally consists of a body-mounted camera with a built-in microphone and separate viewing device. The BWC camera is to be worn by uniformed personnel, utilizing an approved mount, in a forward-facing position; and above the midline torso to maximize the recording field of view. Other acceptable mounting positions include forward facing on a helmet if equipped with the proper BWC and mount. Non-uniformed personnel issued a BWC, may wear the camera on the belt or above, in a forward-facing position as an alternative to an audio-recording device for interviews or for use during deployment in the field. When recording interviews, Members may place the BWC in a position that would better capture the interview, (e.g., a table-top).

447.3.3 INSPECTION AND TESTING OF EQUIPMENT

Prior to going in service, each Member shall be responsible for ensuring they are equipped with a Department issued BWC and their vehicle (if applicable) is equipped with an ICV system. The Member shall test the operability of both the BWC and the ICV by visually inspecting its condition, powering it on, and ensuring all prior recordings are downloaded. In the event, a BWC has not fully downloaded the prior recordings, the Member will request a different BWC for the shift.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

447.3.4 DAMAGED, MALFUNCTIONING, OR INOPERABLE EQUIPMENT

If the BWC or ICV equipment is damaged, malfunctioning, or is inoperable prior to going into service, the Member shall verbally notify their supervisor, and the BWC Coordinator via email including information regarding any pending recordings for upload and obtain a properly functioning replacement BWC/ICV.

If the BWC/ICV equipment becomes damaged, malfunctions, or inoperable while deployed in the field, the Member shall notify their immediate supervisor as soon as practicable. The supervisor shall determine whether or not to continue utilizing the Member in the field or temporarily remove them so the Member can resolve the issue. The Member shall document this action in the Patrol Daily Activity Report and appropriate Incident or Crime Report (if applicable).

447.4 PROCEDURES FOR THE USE OF THE BWC/ICV AND ITS RECORDINGS

447.4.1 PRE-EVENT BUFFER RECORDING

When the BWC/ICV is activated, the system will automatically retain 60 seconds of video recording prior to activation. This will allow traffic violations, suspicious activity and other unusual happenings to be captured. The BWC/ICV does not record any audio during this 60 second period.

447.4.2 REQUIRED ACTIVATION OF THE BWC/ICV

This policy is not intended to include every possible situation where the BWC/ICV may be used, as there are many situations where its use is appropriate. A Member may activate the system any time the Member believes it would be appropriate and valuable to document an investigation, incident, or contact.

In general, BWC/ICV activation shall begin prior to arriving at a call or initiating enforcement action and shall terminate once the Member has cleared their self from the call or the contact and/or the incident has concluded.

Consistent with this policy, Members may lawfully record in any location where the Member has the legal right to be present. Members will not turn off the BWC/ICV if a citizen requests it, unless there is an exception (see section 447.4.3 for exceptions). However, when practical to do so, Members may inform individuals they are recording, particularly when the advisement may gain compliance, cooperation, or assist in an investigation.

EXAMPLES OF WHEN MEMBERS ISSUED BWC/ICV ARE REQUIRED TO ACTIVATE BWC/ICV:

1. All calls for service. This shall include all Members who arrive to a call for service whether or not they were assigned to the call.
2. Detentions and arrests, (e.g., vehicle stops, bicycle stops, pedestrian stops, etc.)
3. DUI observations and field balance and coordination tests.
4. Officer-initiated consensual encounters.
5. Searches, subject to the exemptions in Section 447.4.8.

Orange County Sheriff-Coroner Department

6. Witness and victim interviews (except as described in Section 447.3.2).
7. Arrestee/Prisoner transportation.
8. Crowd management and control, for further refer to Section 447.4.7.
9. Any contact with members of the public that may become adversarial or confrontational.

447.4.3 EXCEPTIONS TO REQUIRED ACTIVATION OF THE BWC/ICV

Circumstances when a BWC/ICV may not be used include, but are not limited to:

1. If a Member is unable to activate the BWC/ICV prior to initiating enforcement or investigative activities due to officer safety, public safety, or any other critical circumstance.
2. In the Member's judgment, a recording would interfere with their ability to conduct an investigation or may be inappropriate, due to the victim or witness's sensitive circumstances e.g., nudity, a victim of sexual assault. Members must also consider Policy 317 (Victim Confidentiality) with the use of a BWC/ICV.
3. In the Member's judgment, recording would risk the safety of a confidential informant, citizen informant, undercover officer, or investigative technique (as authorized by California Evidence Code sections 1040, 1041, and 1042).
4. For officer safety, when Members are handling, reviewing, or discussing an operational plan, conducting undercover surveillance, discussing, developing, planning or engaging in police/investigative tactics or strategies during a pending investigation, or pre and post incident de-briefs.
5. While the Member is on break or otherwise engaged in personal activities or in a location where there is a reasonable expectation of privacy, e.g., restrooms, locker rooms, or during briefings, meetings, or roll calls.
6. In patient-care areas of a medical facility, hospital, sexual assault treatment center, or other healthcare facility where persons are receiving treatment, except when escorting an arrestee, anticipating an enforcement action related to a crime in progress, a criminal investigation, or an encounter with an uncooperative person in these areas.
7. Inside public restrooms, dressing rooms, or locker rooms, unless responding to an emergency, crime in progress, or other circumstance which takes precedence over elevated privacy concerns.
8. When a Member reasonably believes there is no legitimate law enforcement purpose.

Members should always remain mindful to protect personal, confidential, or sensitive information from being recorded during BWC usage.

447.4.4 CESSATION OF RECORDING

Once the BWC/ICV is activated, it shall remain on and shall not be turned off until the Member has cleared from the call or the contact or the incident has concluded. In any instance in which cessation of the recording prior to the conclusion of the contact or incident occurs, the reason for

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

the termination of the recording shall be documented. Prior to any deactivation of the BWC/ICV, Members shall verbally note the date, time, and reason for the deactivation on the recording itself.

In the event of an extended incident, such as traffic control or an accident scene, Members may deactivate the BWC/ICV to conserve recording time. In such cases, the Member shall orally document the reason on the BWC/ICV prior to deactivation.

After a critical incident, the Incident Commander shall determine when the incident has concluded. After conferring with the Department Commander, the Incident Commander shall ensure BWC/ICV of involved personnel are deactivated.

Some incidents may produce extenuating circumstances, where parts of a critical incident have concluded, and other parts would be considered still active. During these incidents, on-scene Supervisors are authorized to advise specific Members to deactivate their BWC/ICV, depending on the Member's involvement in the incident. In such cases, the on-scene Supervisor shall orally document the reason on the specific Member's BWC/ICV prior to deactivation.

Members shall cease recording whenever necessary to ensure conversations are not recorded between a person in custody and the person's attorney, religious advisor, or licensed physician, unless there is explicit consent from all parties (Penal Code sections 636 and 851.5(b)(1)).

447.4.5 SLEEP MODE FUNCTION

Members may use the "Sleep Mode" function to temporarily disable recording and buffering. Use of this function shall be limited to the exceptions listed in 2 through 6 of 447.4.3 Exceptions to Required Activation of the BWC/ICV.

447.4.6 INABILITY TO ACTIVATE THE BWC/ICV PRIOR TO INITIATING ENFORCEMENT OR INVESTIGATIVE ACTIVITY

If a Member is unable to activate the BWC/ICV prior to initiating enforcement or investigative activities due to officer safety, public safety, or any other critical circumstance, the Member shall activate the device as soon as it is safe and practicable to do so.

Members shall also document in a written report or Daily Activity Report reasons why the Member failed to or was unable to activate the BWC/ICV, if a malfunction occurred, if the recording was terminated, or interrupted for any reason. Those reasons should be thoroughly narrated in the details of the documentation.

A Member who believed they activated the BWC/ICV, when in fact the BWC/ICV was not activated, shall not be subject to discipline if the belief was objectively reasonable.

If a written report results from an incident, the Member shall document in the report the existence of their BWC recording using the "Body Worn Camera Used" drop-down box specified in the FBR report template. Members shall also document in their report whether or not they reviewed their BWC/ICV recording prior to writing their report. This shall be documented in the Member's Daily Activity Report if an Incident or Crime Report was not taken.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

BWC/ICV recordings are not a replacement for written reports, Daily Activity Reports, or CAD updates.

447.4.7 CROWD CONTROL SCENARIOS

When there is a reason to believe a planned event has the potential for unlawful activity, Incident Commanders should make the determination whether visual recording with BWCs is appropriate and should indicate it in the Event Action Plan.

During demonstrations, Members should operate cameras in buffering/stand-by mode. If Members witness crimes occurring among the demonstrators, and/or believe an arrest is likely, they should begin recording in Event mode or if they have been directed to do so by a supervisor or the Incident Commander.

447.4.8 EXPLOSIVE DEVICES

Many portable recorders, including BWC/ICV and audio/video transmitters, emit radio waves that could trigger an explosive device. Therefore, these devices should not be used where an explosive device may be present.

447.4.9 NON-UNIFORMED PERSONNEL BWC

Managers or Members working administrative, non-uniformed or plain-clothes assignments issued a BWC, may wear the camera on the belt or above, in a forward-facing position as an alternative to an audio-recording device for interviews or for use during deployment in the field, unless they are wearing body armor or an exterior tactical vest, in which case the camera shall be mounted the same as uniformed personnel. All non-uniformed personnel who are engaging in pre-planned enforcement activities such as serving a search or arrest warrant, or conducting/participating in parole/probation searches, shall utilize a BWC, unless the use of the BWC unreasonably compromises the identity of undercover Members, jeopardizes tactics, or the Member is assigned to an outside Multi-Agency Task Force. Members not wearing a BWC during a search/arrest warrants and parole/probation searches must have prior approval from a manager at the rank of Lieutenant or higher.

447.4.10 ACCIDENTAL ACTIVATION OF THE BWC/ICV

An immediate supervisor should be notified as soon as possible following incidents of erroneous, accidental or inadvertent recordings of personal events and/or conversations with no evidentiary/business purpose. These events shall be categorized as accidental by the Member. If the Member requests the accidental recording be redacted or deleted, the Assistant Sheriff of the Professional Services Command shall review the recording and make a determination as to whether the recording was accidental. The Member and the Sheriff's designated Custodian of Record shall be notified of the possible outcomes of that request including:

1. If the Assistant Sheriff determines the recording was accidental, with no evidentiary/business purpose, the recording shall be redacted within 30 business days from the date of the Assistant Sheriff's determination. The redacted recording will be saved as a copy; the original recording will be unaltered and retained. After a minimum of 60 days, both the original recording and the redacted copy may be deleted (CPC 832.18)

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Body Worn Camera & In-Car Video Systems

unless deletion of the recording would violate the law. If deletion would not violate the law, both the redacted and original recording shall be deleted by the department within 90 days. The Member shall be notified of the Assistant Sheriff's determination. A recording determined to be accidental by the Assistant Sheriff, with no evidentiary/business purpose, shall not be shared with anyone absent a court order.

2. If the Assistant Sheriff determines the recording was accidental, but a portion is of evidentiary/business purpose, the portion of the recording containing the personal event or conversation shall be redacted within 30 days from the date of the Assistant Sheriff's determination, unless redaction of the recording would violate the law. The redacted recording will be saved as a copy; the original recording will be unaltered and retained in accord with record retention requirements. The Member shall be notified of the Assistant Sheriff's determination. The portion of the recording determined to be accidental by the Assistant Sheriff, with no evidentiary/business purpose, shall not be shared with anyone absent a court order.

If the Assistant Sheriff determines the recording was not accidental, and/or shall not be deleted or redacted, the Member may appeal that determination to the Undersheriff.

447.5 DOCUMENTATION AND STORAGE

447.5.1 LABELING RECORDINGS

Following any BWC and/or ICV recording or official recorded event (see section 447.4.2), Members shall assign the recording the appropriate I.D., and category. All recordings, including accidental recordings, equipment check recordings and recordings with no identifying number (e.g. DR, incident, or cite), require minimally to be categorized and the term "NO ID" shall be used in the ID field.

To comply with Discovery, Retention and Evidence procedures, all BWC and ICV recordings shall be labeled within 5 days from the creation of a recording. Supervisors may grant approval for an extension when the Member is prevented from working for an extended period of time due to approved or other excused absences, illness, or on Workers' Compensation.

447.5.2 UPLOADING OF RECORDINGS

At the end of each shift, the Member shall dock their BWC device at an approved location to upload the recorded files, unless otherwise approved by a supervisor. The supervisor shall document the reason(s) for granting the Member an extension to upload the recordings and the time period for the extension. Patrol operations and K-9 units shall document the approval within the Sergeant's Daily Log. All other supervisors who grant an extension shall document the approval in writing to his or her Captain. Any extension granted may not exceed four working days for the Member. The Member should park their patrol vehicle in an area that enables the wireless downloading of ICV recorded files whenever feasible.

447.5.3 EVIDENCE PRESERVATION

Members are required to ensure that BWC/ICV recordings of evidentiary value are properly categorized in order to ensure the recording is retained for the necessary retention period.

447.5.4 BWC STORAGE MEDIA AS EVIDENCE

In exceptional circumstances, the BWC itself may be booked into evidence prior to any uploading of media storage. Exceptional circumstances may include a major or significant incident at the direction of a Sergeant or above; or in the event the data cannot be uploaded due to a mechanical or technological malfunction. If the BWC is booked into evidence, established booking procedures shall be followed and referenced in the report.

447.6 ADMINISTRATION AND RECORD KEEPING

447.6.1 BWC/ICV CUSTODIAN OF RECORDS

The Director of the Records Division or their designee shall be the Custodian of Records.

447.6.2 RECORD KEEPING REQUIREMENTS

See Department Policy 303.5 for Department Media record keeping requirements.

447.6.3 BWC/ICV PROGRAM COORDINATOR - MEDIA ANALYSIS BUREAU

The Department shall designate BWC and ICV Program Coordinators in the Media Analysis Bureau to have program oversight including, but not limited to:

1. Documenting system malfunctions and equipment failures related to BWC and ICV.
2. Conducts training to all users.
3. Ensuring media files are only released in accordance with Department Policy and applicable laws.
4. May assist with the coordinating issuance of devices.
5. Providing Department management recommendations on policy development and equipment integrity.
6. Conducts audits of BWC/ICV program compliance.

Foot Pursuit Policy

458.1 PURPOSE AND SCOPE

Foot pursuits are inherently dangerous and require heightened officer safety awareness, keen perception, common sense and sound tactics. It is the Department's position that although surveillance and containment are safer tactics for apprehending fleeing persons, it is understood a foot pursuit may sometimes be necessary. The purpose of this policy is to establish Department-wide guidelines, which can be applied to most foot pursuits, in an effort to standardize tactics and procedures that have been proven to be effective.

458.1.1 POLICY

It is the policy of the Orange County Sheriff's Department to assertively apprehend fleeing suspects in a manner maximizing both public and deputy safety, while acting in accordance with established policy and procedures.

The safety of Department Members and the public is paramount and should be the overriding consideration in determining whether or not a foot pursuit shall be initiated and/or continued. Any doubt by participating deputies or their supervisors regarding the overall safety of any foot pursuit should be decided in favor of communication, coordination, surveillance, and containment.

458.2 FOOT PURSUIT DEFINED

A foot pursuit is an incident where a deputy chases (on foot) a person who is evading detention or arrest.

458.3 MULTIPLE DEPUTY FOOT PURSUIT

When conducted by multiple (two or more) deputies, foot pursuits can be an appropriate and effective tactic. Should partner splitting occur for any reason, deputies should follow the guidelines of "One-Person Foot Pursuits."

Partner splitting occurs when loss of visual contact, distance, or obstacles separate partners to a degree they cannot immediately assist each other should a confrontation take place.

458.4 ONE-PERSON FOOT PURSUIT

One-person foot pursuits and the splitting of partners during foot pursuits present additional dangers to the deputy involved. The deputy's decision to pursue must weigh the dangers of the pursuit against the necessity to apprehend. If a lone deputy initiates a foot pursuit and the immediate apprehension of the suspect fails or is not possible, the objective should be to set up a containment perimeter. The initiating deputy should wait for additional deputies to arrive and in a coordinated effort take the suspect into custody.

Should the decision to initiate a one-person foot pursuit occur, the deputy should adhere to the following guidelines which include but are not limited to:

1. If a deputy decides to chase a suspect into a building, use extreme caution and consider the following:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Foot Pursuit Policy

- (a) The suspect(s) increased access to weapons
 - (b) The potential threat of additional suspect(s) or associates to the deputy inside the building
 - (c) The suspect(s) knowledge of the buildings floor plan (e.g. suspects' home)
 - (d) The suspect(s) ability to ambush the pursuing deputy
 - (e) Possible diminished radio reception
2. If the immediate apprehension of a fleeing suspect fails or is not possible, the deputy should broadcast identifying information about the suspect and location in order to initiate a containment perimeter by assisting deputies (Refer to Initiating Deputy Responsibility below).
3. If you can no longer see or hear the suspect, the deputy should consider setting up a containment perimeter in the area of the last known location.
4. Should containment be established and the suspect is believed to be within the containment, a coordinated search for the suspect begins. However, if the suspect is seen fleeing outside or beyond the containment perimeter, then a foot pursuit can be initiated again.
5. Should communication with dispatch be lost and cannot be re-established (e.g. Damaged pac-set or out of range), the pursuing deputy should consider terminating the pursuit.
6. If the suspect surrenders during the foot pursuit, the deputy should follow the Arrest Techniques in Section 5 of the Patrol Operations Procedures Manual:
 - (a) *Superiority in Manpower and Firearms: Avoid making arrests alone; whenever possible, wait for sufficient back-up. Always attempt to have superiority in manpower and firearms before attempting the arrest. Don't try to go it alone; wait for your back-up. Don't get caught up in the excitement of the chase; think and plan the entire time.*
7. A deputy initiating a foot pursuit should broadcast, as soon as practical, the following information to dispatch:
 - (a) Unit identifier and location
 - (b) Number and location/direction of suspect(s)
 - (c) Suspect(s) description
 - (d) Reason for the foot pursuit
 - (e) Whether or not the suspect is armed, if known

458.4.1 ASSISTING DEPUTY RESPONSIBILITIES

Whenever any deputy announces that he/she is engaged in a foot pursuit, all other deputies should minimize non-essential radio traffic to permit the involved deputies maximum access to the radio.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Foot Pursuit Policy

Any deputy who is in a position to intercept a fleeing suspect or who can assist the primary deputy with the apprehension of the suspect shall act reasonably and in accordance with Department policy, based upon available information and his/her own observations.

458.4.2 TACTICAL CONSIDERATIONS

A deputy should consider the following factors when determining whether to initiate and/or continue a foot pursuit:

1. Deputy and Public Safety

- Is the suspect fleeing in a manner that significantly increases the level of danger or risk to the deputy or public? (e.g. Running across a freeway)

2. Weapons

3. Ability to communicate effectively with dispatch.

4. Seriousness of the crime (e.g. CPC 187, 245, or H&S 11350).

5. Availability of resources to assist in the foot pursuit (e.g. Air Support, K-9 and available units to assist), if known at the time.

6. Conditions and abilities of the deputy, including physical and mental conditions.

Based on these factors, if the deputy determines not to pursue, a containment perimeter should be coordinated immediately.

This policy does not restrict Deputy Sheriffs in their mission of apprehending violators of the law nor does it restrict situations involving "Exigent Circumstances."

- (a) "Exigent Circumstances"- means an emergency situation requiring swift action to prevent imminent danger to life or serious damage to property, or to forestall the imminent escape of a suspect or the destruction of evidence or property.

458.4.3 FIREARMS

Running with a firearm in hand can increase a deputy's chance of having a negligent discharge. The drawing, exhibiting, and running with a firearm in hand is based solely upon the deputy's reasonable belief the situation may escalate to the use of deadly force. In all other instances, it is recommended the firearm be holstered.

458.4.4 CONTAINMENT PERIMETERS

A perimeter is used to contain a suspect in a specific area, thus making apprehension more likely and when combined with discontinuing the foot pursuit, it removes the inherent risks associated with pursuing. When a suspect flees on foot, using a perimeter rather than chasing a suspect greatly decreases the likelihood of an ambush.

For further guidelines/tactical considerations for perimeters and requesting for other resources, see Field Operations Manual (FOM) Sections 46-Unusual Occurrences/Hot Calls and 51-Critical Incident Management.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Foot Pursuit Policy

458.5 FIELD SUPERVISOR RESPONSIBILITIES

As with any tactical field incident, the field supervisor should; but does not have to be physically present to assert control over the situation and may order the termination of the pursuit based upon information received. It shall be the field supervisor's responsibility to monitor the event and to assist in requesting additional resources as needed (e.g. Air Support, K-9, and additional deputies).

The field supervisor shall respond to the termination point of the foot pursuit and assert control as needed. The field supervisor shall ensure compliance with all Department policies; specifically those relating to the use of force.

*The Department Commander (DC) can also terminate the foot pursuit at any time.

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

463.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the capture, storage, access, sharing, and use of digital data obtained through the use of Automated License Plate Reader (ALPR) technology.

ALPR technology, also known as License Plate Recognition, provides automated detection of license plates. ALPRs are used by the Orange County Sheriff-Coroner Department to link data associated with vehicle license plates for official law enforcement purposes, including identifying and locating stolen or wanted vehicles, stolen license plates and missing persons. ALPRs may also be used to gather or disseminate information related to active warrants, homeland security advisories (as permitted by California law), law enforcement bulletins, electronic surveillance, suspect interdiction, and stolen property recovery. It is the intent of the Department to ensure that the access and use of ALPR data is consistent with the law and with respect for individuals' privacy and civil liberties. The Department will also investigate and enforce unauthorized disclosure of confidential information. See Policy 215 and Civil Code 1792.29.

463.2 ADMINISTRATION

All installation and maintenance of department owned/leased ALPR equipment shall be managed by the Technology Division. The acquisition of ALPR systems and data shall be the responsibility of the Technology Division. The Technology Division will be responsible for ensuring vendors have the required safeguards that comply with CJIS standards. Data collected by Department owned/leased ALPR equipment, unless copied and booked as evidence, shall be managed by the ALPR provider. The Technology Division shall oversee the access, sharing, and technical requirements of this policy. The Patrol Operations Command shall oversee compliance, training, audit and use requirements of this policy. The administration of this policy shall be in compliance with the requirements of Civil Code Section 1798.90.5 et seq.

463.3 OPERATIONS

Use of an ALPR is restricted to the purposes outlined in this policy. Only Department Members assigned as Sergeants, Deputy Sheriffs, Investigators, Investigative Assistants, Dispatchers, Analysts, Sheriff Special Officers (SSO) or Community Service Officers (CSO) AND assigned to the Patrol Operations Command, Investigations and Special Operations Command, Judicial Protection Unit, Orange County Intelligence Assessment Center (OCIAC), Internal Affairs Bureau, or Regional Narcotics Suppression Program (RNSP) are authorized to operate ALPR equipment and access ALPR data, provided they have first received Department approved training. Department Members shall not use, or allow others to use the equipment or database records for any unauthorized purpose (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

1. An ALPR shall only be used for official law enforcement business.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

2. An ALPR may be used in conjunction with any routine patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an ALPR.
3. While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR equipped cars to canvass areas around homicides, shootings, arson events, bombings, and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.
4. No Member of this Department shall operate ALPR equipment or access ALPR data without first completing Department-approved training.
5. No ALPR operator may access Department, state, or federal data unless otherwise authorized to do so.
6. The user shall verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.
7. Department Members shall access ALPR only from an approved Department workstation, MDC, or Department-issued mobile device.
8. Deputies are not authorized to respond Code 3 to an ALPR "hit" unless exigent circumstances exist and must comply with OCSD Policy 316.
9. No member of this Department is authorized to leave a call for service in response to an ALPR "hit" unless there is an exigent circumstance.
10. Non-criminal history information contained within databases accessed through CLETS, NCIC or other DOJ criminal justice systems, as well as California LEAs' individual databases should not be used for the purpose of immigration enforcement.
11. Users should not include criminal history information or other personal identifying information of a target suspect (beyond the suspect's last name) or information obtained from CLETS into ALPR information fields accessed by those not authorized to receive CLETS information.

463.4 DATA COLLECTION AND RETENTION

All ALPR data is hosted or otherwise provided using a "Third Party ALPR Provider" (such as those contracts originated by the Department, law enforcement contract partners, businesses, homeowners' associations ("HOAs", etc.). ALPR data that is provided by the Third Party ALPR provider is the sole responsibility of that company (service provider). The Third Party ALPR Provider owns and is solely responsible for the data it makes available, its data will not be stored outside of the United States or Canada, and its employees who have access to unencrypted criminal justice information will undergo training and background checks.

ALPR data collected by the Department will be retained for six months to allow for the proper investigation into reported criminal activity. All data captured after six months will be purged unless it is part of an active criminal investigation or booked as evidence.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

ALPR data used in a criminal investigation may be considered evidence and should be exported, submitted into evidence, and documented in the related case report. All ALPR data uploaded to the Department's Digital Evidence Management System (DEMS) or copied and booked as evidence, shall follow the Department's evidence booking, handling, storage, and retention requirements.

463.5 ACCOUNTABILITY

All data shall be closely safeguarded and protected by both procedural and technological means. Each Member is responsible for safeguarding their personal login and password. The Orange County Sheriff-Coroner Department shall observe the following safeguards regarding access to and use of stored data (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

1. All ALPR data shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date, time, and purpose (Case #) (Civil Code § 1798.90.52). If applicable, multi-factor or two-factor authentication will be utilized in addition to login/password.
2. Members approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relates to a specific criminal investigation or Department-related civil or administrative action. A report number or CAD call number shall be inputted into the search justification field before searching the ALPR data.
3. Members approved to access ALPR data will receive relevant training prior to independently accessing the data.
4. Any time an authorized Member reasonably believes ALPR data may be beneficial in a criminal or non-criminal matter, the Member shall input a detailed reason for access, report number or CAD call number into the search reason field, to access the ALPR database.
5. ALPR system audits shall be conducted on a regular basis to ensure the security of the information accessed or used is in compliance with all applicable privacy laws. The Technology Division will generate an ALPR use report. The report will be used to conduct monthly audits of ALPR responses. The audits will be conducted by the supervisor responsible for administrative duties where the ALPR user is assigned. Any potential violation of the law or Department policy will be forwarded to the Command of the involved member for further investigation which may result in revocation of ALPR system access, training and/or discipline.
6. Members of the Technology Division will be the only members to have and grant administrator access. Upon separation from the Department, access to any ALPR data will be immediately revoked.
7. The Technology Division Director or designee will be the official custodian of the ALPR systems. The Technology Division will provide a list of users during the Employee Life Cycle review. The list will be given to the divisions to conduct a user audit by the supervisor responsible for administrative duties where the ALPR user is assigned.
8. Members using ALPR must recognize that the data collected from the ALPR device, and the content of the referenced Hot Lists, consists of data that may or may not be accurate. To the greatest extent possible, information obtained from ALPRs should be

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

verified from separate law enforcement information sources to confirm the vehicle or subject's identity and justification for contact. Users of ALPR data must, to the fullest extent possible, visually confirm the license plate or vehicle characteristics correspond with the digital image of the license plate or vehicle generated by the ALPR.

9. Members using ALPR will be required to implement the reasonable security features outlined in this policy pursuant to Cal. Civil Code 1798.90.51.
10. All Members using ALPR equipment or accessing ALPR data are required to acknowledge that they have read and understood this policy prior to use of the ALPR System.

463.6 AUDITS

Access to, and use of, ALPR data is logged for audit purposes. Audit reports will be structured in a format that is understandable, useful, and will contain:

1. The name of the user;
2. The date and time of access;
3. The specific data accessed;
4. The supplied authorized law enforcement or public safety justification for access; and
5. A case, tip, or CAD call number associated with the investigative effort generating the ALPR data query.

463.7 THIRD PARTY ALPR

Many local governments, businesses and HOAs have entered contracts with companies who provide ALPR services ("Third Party ALPR" providers). The Orange County Sheriff's Department can use ALPR equipment and data owned by Third Party ALPR providers if there is an agreement with the contracting entity. Allied law enforcement agencies can also share their ALPR data with members from the Orange County Sheriff's Department. Third Party ALPR data is to be handled consistent with California Civil Code sections 1798.90.5 et seq.

The owner of the "Third Party ALPR" system is responsible for the retention of data, as well as, any PRA requests related to the system they own. Any PRA requests for data from a Third Party ALPR system shall be governed by the Third Party ALPR provider's PRA policy and practices. Members of the Orange County Sheriff's Department will not retain data from "Third Party ALPR" systems unless that specific information is used during official OCSD duties and saved by OCSD.

463.8 CREATION AND USE OF "HOT LIST" OR "CUSTOM HOT LISTS"

Hot Lists are lists of vehicles or license plates associated with active investigations. Third party ALPR systems may automatically generate Hot Lists for license plate information that has been entered into the California Law Enforcement Telecommunication System (CLETS). Examples of investigations include Amber Alerts or other missing children, Silver Alerts or other critical missing elderly persons, missing adults, stolen vehicles, or stolen license plates. The purpose of these lists is to alert OCSD personnel that a vehicle displaying a license plate number that is included on a Hot List has been observed by an ALPR camera.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

Custom Hot Lists can also be created for active investigations or official department business but may only be created by authorized members.

1. Authorized members permitted to create a "Custom Hot List" include:
 - (a) Deputies assigned to the Real Time Operations Center (RTOC)
 - (b) Investigators
 - (c) Investigative Assistants
 - (d) Research/Crime Analysts
 - (e) Sergeants
 - (f) Deputy IIs assigned to the Traffic Office responsible for Traffic Collision Investigations
2. All Custom Hot Lists must be approved by a Sergeant prior to posting or distributing.
3. When a member receives a Hot List or Custom Hot List alert, the member must verify:
 - (a) The ALPR read was accurate.
 - (b) The issuing state matches the plate on record.
 - (c) The circumstances that triggered the alert for a stolen vehicle or lost/missing/stolen license plate are still valid by verifying through CLETS.
 - (d) Circumstances that triggered the alert for all other cases not listed in subsection (c) must be accompanied with independent reasonable suspicion or legal justification for a detention.
 - (e) The type of response requested in a Custom Hot List entry (e.g., Stop and FI, Crime Vehicle, Felony Warrant, etc.).
4. If the record in the Hot List or Custom Hot List was created based on the wanted status of the registered owner (the registered owner has an outstanding warrant for their arrest), the Department Member must be cognizant of the fact the driver may not be the wanted subject and should have independent reasonable suspicion or legal justification for the stop.
5. Members must have reasonable suspicion to initiate a traffic enforcement stop on the vehicle, independent from the Hot List or Custom Hot List alert.

463.9 SHARING AND RELEASING ALPR DATA

Pursuant to Civil Code Section 1798.90.55, subdivision (b), ALPR data shall not be sold, shared, or transferred, except to another public agency, and only as otherwise permitted by law. SB 34 does not permit California LEAs to share ALPR information with private entities or out-of-state or federal agencies, including out-of-state and federal law enforcement agencies. Members may share ALPR data on a case-by-case basis with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law, using the following procedures:

1. The agency makes a written request for the ALPR data that includes:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Automated License Plate Readers (ALPRs) Usage and Privacy Policy

- (a) The name and description of the agency.
 - (b) The name of the person requesting the information.
 - (c) The intended purpose of obtaining the information.
 - (d) A statement that the data will be kept confidential and will not be used or disclosed in any manner that is prohibited by California Civil Code section 1798.90.5 et seq.; Penal Code section 13778.2; Government Code sections 7284.6 and 7921.505, subdivision (c)(5); or any other laws that currently exist.
2. The request must be reviewed by the authorized designee within the Records Division and approved before the request is fulfilled.
 3. The approved request is sent to the Technology Division and is retained on file by the Technology Division according to the County of Orange retention requirements.

ALPR data authorized to be shared with other Law Enforcement agencies for access to the requesting agency's independent ALPR searches must be accompanied by the Department's ALPR Sharing MOU. The Technology Division will retain all ALPR MOUs, grant/deny access to the requesting agency, and ensure compliance with MOU requirements.

Requests for ALPR data by non-law enforcement or non-prosecutorial public agencies shall be processed at the direction of the Records Division. (See Section 463.7 Third Party ALPR above regarding PRA requests involving Third Party Providers.)

In responding to a Public Records Act request or compulsory process in litigation seeking the production of ALPR information, California LEAs should consider all applicable privileges and exemptions depending on the nature of the request, bearing in mind the command in Civil Code section 1798.90.55, subdivision (b), that an ALPR end-user or operator "shall not sell, share, or transfer ALPR information, except to another public agency, and only as otherwise permitted by law."

The release of ALPR data which has been uploaded to the DEMS or copied to disc format and booked into evidence shall be released in accordance with Policy 802 - Property and Evidence.

463.10 TRAINING

Department training for use of ALPR systems shall address compliance with this policy including data privacy and security.

The Field Training Bureau shall ensure that members assigned to the Patrol Operations Command receive Department-approved training for those authorized to use or access the ALPR system (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

The Real Time Operations Center Supervisor will ensure that Members assigned to the Operations Support & Intelligence Division, and any other authorized user receive Department-approved training for those authorized to use or access the ALPR system through OCSD access (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

Naloxone Policy

490.1 PURPOSE AND SCOPE

Deputy Sheriffs, Sheriff's Special Officers (SSOs), Correctional Service Assistants (CSAs), Community Service Officers (CSOs), Forensic Scientists, Forensic Specialists, Legal Property Technicians and Deputy Coroners are occasionally the first to respond to a person who is experiencing or suspected of experiencing an opioid-related overdose. The purpose of this policy is to establish procedures to govern an "Overdose Prevention Program" through the deployment of Naloxone by these Department Members. The objective is to reduce injuries and fatalities resulting from opioid overdoses, in the instances where emergency medical personnel have not yet arrived.

For purposes of this Policy, all references to "Members" mean Deputy Sheriffs, SSOs, CSAs, CSOs, Forensic Scientists, Forensic Specialists, Legal Property Technicians and Deputy Coroners.

490.2 POLICY

It is the policy of the Orange County Sheriff's Department that Members shall be trained to administer Naloxone in accordance with mandated training guidelines as determined and established by the Orange County Health Care Agency/Emergency Medical Services (HCA/EMS) pursuant to Health & Safety Code 1797.197 and California Civil Code 1714.22.

1. Members who are trained in accordance with mandated training guidelines shall deploy with Naloxone kits in the field. Naloxone kits will be made available to Members working custody operations at specific locations, as determined by the facility Program Manager. However, the Member shall retain the discretion to administer or not administer Naloxone to persons experiencing or suspected of experiencing opioid-related overdoses. There is no legal obligation to administer Naloxone.
2. Members who administer Naloxone, are protected from civil and criminal liability if they "act with reasonable care" and "in good faith". This is accomplished by administering Naloxone according to established training protocol.
3. If a Member has a valid reason for not participating in the program, such as religious objections, they shall be excused with the approval of his/her Commander.

490.3 PROGRAM COORDINATOR

The Southwest Operations Captain shall serve as the Department's Program Coordinator and shall work in collaboration with the HCA/EMS. The Program Coordinator shall designate Program Managers at each participating location to provide support to the Program Coordinator. The Program Managers shall be responsible for tracking, storage, maintenance, replacement of Naloxone kits, and reporting to the Program Coordinator.

490.4 TRAINING

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Naloxone Policy

490.4.1 INITIAL TRAINING

Members may not administer Naloxone without the completion of mandated training by HCA/EMS. All Members at participating locations shall receive initial training that shall include, at a minimum, an overview of California Civil Code 1714.22, patient assessment (signs/symptomology of overdose), universal precautions, rescue breathing, seeking medical attention, and the use of intra-nasal Naloxone. Upon completion of training, Members shall have their training recorded with the Program Coordinator.

490.4.2 CONTINUING TRAINING

Members shall receive refresher training as deemed appropriate by HCA/EMS.

490.5 NALOXONE DEPLOYMENT

The Department shall deploy Naloxone kits as deemed appropriate by the Sheriff or the Sheriff's designee.

490.6 NALOXONE KITS

Naloxone kits shall include at a minimum: gloves, mask, eye protection, atomizer, and Naloxone. Members at participating patrol locations shall check out a Naloxone kit and deploy with the kit during their tour of duty. Naloxone kits will be made available to Members working custody operations at specific locations, as determined by the facility Program Manager. If no kits are available, the Member must notify their supervisor.

490.6.1 NALOXONE STORAGE

Naloxone kits must be returned to the local equipment cage or administrator at the end of shift and shall not be kept in patrol vehicles for extended periods of time.

490.7 NALOXONE USE

In a non-custodial setting, Members are authorized to administer Naloxone when they reasonably believe someone is experiencing an opioid-related overdose.

In a custodial setting, if a sworn Member is not immediately available, CSAs and SSOs may administer Naloxone and provide first aid. Upon arrival, a sworn Member will assume responsibility of the scene, conduct an investigation, and document the incident.

Members shall treat the incident as a medical emergency and shall follow these steps when performing this intervention:

1. Members should have a heightened officer safety when responding to a possible overdose. The patient receiving the Naloxone may regain consciousness in a combative or altered state, the area may contain hazardous substances such as Fentanyl and the incident could be staged to distract you;
2. Request emergency personnel (including but not limited to sworn Members, medical staff, paramedics) to respond;
3. Maintain universal precautions and when possible, use Personal Protective Equipment;

Orange County Sheriff-Coroner Department

4. Perform patient assessment;
5. Determine unresponsiveness;
6. Update your activity (via dispatch, pac-set, steno, panic button, Main Control) of potential overdose state;
7. Follow Naloxone use protocol;
8. Immediately notify responding emergency medical personnel that Naloxone has been administered; and
9. Supervisor notification shall be made as soon as reasonably possible, prior to or immediately following the deployment of Naloxone.

490.8 DOCUMENTATION/NALOXONE REPORTS

Upon completion of the incident, Members shall submit a report detailing the nature of the incident, the care the patient received, and the fact Naloxone was deployed.

490.8.1 REPORTING RESPONSIBILITY

The supervisor shall be responsible to ensure the report was completed and submitted to the local Program Manager in a timely manner. The local Program Manager shall ensure a copy of the report is forwarded to the Program Coordinator.

490.9 MAINTENANCE AND REPLACEMENT

The maintenance and replacement of Naloxone kits shall be the responsibility of the Program Manager (or their designee) assigned to each location where the kits are used. Kits should be inspected regularly to ensure they are not damaged or expired. Used, lost, expired or damaged Naloxone kits shall be reported to the immediate supervisor and returned to the local Program Manager for replacement.

Chapter 5 - Traffic Operations

Traffic Collision Review Board (TCRB)

501.1 PURPOSE AND SCOPE

1. The TCRB will review all incidents involving an unintended event that produces damage, injury or death involving a Department Member and a Department assigned motor vehicle or watercraft; regardless of whether the vehicle is owned by the county, a city, or leased.
2. The TCRB does not review incidents involving damage to Department assigned motor vehicles or watercraft caused by acts of nature, legal intervention, or criminal actions (i.e. arrestee kicks out window to patrol vehicle).
 - (a) Legal intervention is defined as injury or damage caused by enforcement intervention (e.g., Pursuit Intervention Technique).
 - (b) If during the course of legal intervention injury or damage occurs outside of the original intent this would then be considered accidental and meet the criteria for a motor vehicle collision (see policy 502 – Traffic Collision Reporting).
3. In all situations involving damage to county property, a D.R. shall be requested and a County of Orange Vehicle Collision/Incident Report shall be completed. Supplemental reports may include a traffic collision report, initial crime report, or follow up report.

501.2 NOTIFICATIONS

1. If a Member is involved in a collision, the Member shall immediately notify his/her supervisor. The local law enforcement agency should be notified of the collision and asked to respond to the scene. A traffic collision investigation should be conducted and the appropriate reports should be completed by the investigating agency. In addition, the Member shall request a D.R. from ECB.
2. All supervisors investigating a Department related collision shall notify the on-duty Department Commander (DC) and ensure that the following information is given for the Department Commander's log:
 - (a) D.R. Number
 - (b) Outside Agency D. R. / Officer ID (if applicable)
 - (c) Type of Collision (e.g. Fatal, Injury, and Property Damage)
 - (d) Date & Time of Incident
 - (e) Parties Involved / Department Operator
 - (f) Unit Number
 - (g) Damage Description (e.g. Minor, Moderate, Major)
 - (h) Disposition of Vehicle
 - (i) Responding Supervisor
 - (j) Summary of Incident

- 3. In addition to notifying the Department Commander, the supervisor shall document the incident in the automated Supervisors Log under the classification of (Traffic Collision Emp. Involved). The following information should be entered as a minimum:
 - (a) D.R. Number
 - (b) Outside Agency D. R. / Officer ID (if applicable)
 - (c) Type of Collision (e.g. Fatal, Injury, Property Damage)

Traffic Collision Reporting

502.1 PURPOSE AND SCOPE

The Orange County Sheriff-Coroner Department prepares traffic collision reports in compliance with the California Highway Patrol Collision Investigation Manual (CIM) and makes traffic collision reports available in accordance with Vehicle Code § 20012.

502.2 TRAFFIC COLLISION REPORTING

All traffic collision reports taken by Members of this Department shall be forwarded to the Regional Traffic Bureau for approval. Upon approval, all reports are submitted to the Records Bureau for data entry into the Records Management System.

Reports involving Sheriff's Department Members or Department assigned vehicles (County owned or leased) shall be submitted to the S.A.F.E. Division for data entry into the TCRB database. The S.A.F.E. Division shall be responsible for quarterly reports on traffic collision statistics to be forwarded to Executive Command.

502.3 REPORTING SITUATIONS

502.3.1 TRAFFIC COLLISIONS INVOLVING DEPARTMENT VEHICLES

Traffic collision investigation reports shall be taken when a Department assigned vehicle (CHP 555) or watercraft (DBW VAR-1) is involved in a traffic collision upon a roadway, highway or waterway wherein any damage or injury results.

An information report may be taken in lieu of a traffic collision report (CHP 555) at the direction of a supervisor when:

1. The collision occurs on private property or
2. Does not involve another vehicle or
3. Results in no vehicular or property damage

Whenever there is damage to a Department assigned vehicle, a Vehicle Collision/Incident Report (aka: damage to county property) shall be completed by the Member and submitted to his/her immediate supervisor.

Driver Responsibility:

1. Report the collision immediately to his/her direct supervisor or Department Commander.
2. Report the collision to the law enforcement agency having traffic investigation and enforcement responsibilities.
 - (a) If the collision occurs within a jurisdiction where the Sheriff's Department has complete traffic responsibility and the collision results in injury to any party involved, the California Highway Patrol shall investigate the collision.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Traffic Collision Reporting

- (b) A Sheriff's sergeant and an appropriate area unit shall be sent to assist in the investigation in cases not requiring CHP assistance at the direction of the Department Commander. The involved Member shall not write the traffic collision report (CHP 555).
 - (c) Any collision that occurs on private property will be reported to the responsible law enforcement agency.
3. Deputies shall make no comments or statements to anyone except the investigating officer and the Sheriff's sergeant.
4. Submit a County Vehicle Collision/Incident Report. Include DR# on upper right-hand corner.

Supervisor Responsibility:

1. A Sergeant or Supervisor shall respond to all traffic collisions involving Sheriff's Department vehicles. It is the responsibility of that supervisor to ensure that a complete investigation at the scene is conducted. These responsibilities are:
 - (a) That the deputy/Sheriff's Member makes no comment or statements except to the investigating officer.
 - (b) That all names of involved parties, witnesses, injured persons, and investigating officers are obtained.
 - (c) That physical evidence is collected; length of skid marks are measured, damage is noted, photographs taken, etc.
 - (d) Determine, if possible, who was at fault and what violations occurred (Vehicle Code, Department Rules and Regulation, and/or Department Policy, etc.).
 - (e) That the Department's case number is obtained from the investigating agency and our Department's case number is furnished to the investigating officer.
 - (f) Determine the appropriate action to be taken as to:
 1. Disposition of the involved Sheriff's vehicle
 2. Completion of the Worker's Compensation forms as required.
 3. Completion of the report by the deputy/Sheriff's Member, including the County Vehicle Collision Incident Report. This report is to be completed by the driver of the involved vehicle.
 4. Department Commander is notified of the situation and of the action taken.
2. The supervisor shall complete a Supervisor Synopsis for Member Involved Collision report (this report can be found in the Department intranet document center). This report shall include the supervisor's opinion as to whether the collision was preventable or non-preventable. The Supervisor Synopsis report, County of Orange Vehicle Collision/Incident Report, and the traffic collision report (CHP 555) shall be forwarded through the supervisor's chain of command for approval.

Traffic Collision Reporting

502.3.2 TRAFFIC COLLISIONS WITH SHERIFF DEPARTMENT MEMBERS

When a Member of this Department, on-duty or off-duty, is involved in a traffic collision within Sheriff's Department jurisdiction resulting in a serious injury or fatality, or the collision is suspected to be the result of impairment, the Department Commander shall notify the California Highway Patrol for assistance.

The term serious injury is defined as any injury that may result in a fatality.

502.3.3 TRAFFIC COLLISIONS WITH OTHER COUNTY OR CITY MEMBERS OR OFFICIALS

The Department Commander may request assistance from the California Highway Patrol for the investigation of any traffic collision involving any county official, contract-city official or Member where a serious injury or fatality has occurred.

502.3.4 TRAFFIC COLLISIONS ON PRIVATE PROPERTY

A traffic collision report shall not be taken for traffic collisions involving the public that occur on private property unless there is a death or injury to any person involved, a hit-and-run violation, or Vehicle Code violation. An Information Report may be taken at the discretion of any supervisor.

502.3.5 TRAFFIC COLLISIONS ON ROADWAYS OR HIGHWAYS

Traffic collision reports shall be taken when they occur on a roadway or highway where the Sheriff's Department has complete traffic responsibility under any of the following circumstances:

1. When there is a death or injury to any persons involved in the collision.
2. When there is an identifiable violation of the Vehicle Code.
3. When a report is requested by any involved driver.

502.3.6 TRAFFIC COLLISIONS AND PURSUIT INTERVENTION TECHNIQUE

If the suspect is successfully "pitted" and crashes as a result of the maneuver, an accident report is not necessary. This aspect of the policy is because the PIT maneuver is an intentional act and therefore does not qualify as a reportable traffic accident.

If the suspect crashes into a third party, a patrol unit, or other property and causes damage, then a traffic collision report (CHP 555) is required.

502.3.7 PURSUIT RELATED TRAFFIC COLLISIONS

1. If **any** injury or non-injury collision occurs during the course of a pursuit initiated or commanded by Department personnel where a Department vehicle or pursued vehicle is involved in a collision, the collision shall be investigated by the local agency having jurisdiction where the collision occurred. If the collision occurs in the unincorporated areas of Orange County or in areas where OCSD has jurisdiction for traffic accident investigation (Contract Cities), the collision will be investigated by the CHP.
 - (a) If the collision only involves the suspect vehicle and/or a Department vehicle and no occupied third party vehicles are involved, and the collision is minor in nature with property damage only, the Department Commander shall make a

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Traffic Collision Reporting

determination of whether or not to have the collision investigated by the CHP or OCSD personnel if the collision occurs in an area where OCSD has jurisdiction for traffic accident investigation.

2. In the event a death or injury occurs as a result of the collision to individuals in the suspect vehicle, the deputy in the Department vehicle, or any other person, the collision shall be investigated by the local agency having jurisdiction where the collision occurred. If the collision occurs in the unincorporated areas of Orange County or in areas where OCSD has jurisdiction for traffic accident investigation (Contract Cities), the collision shall be investigated by the CHP.
 - (a) If a fatal collision does not require a response from the CHP Multi-Disciplinary Accident Investigation Team (M.A.I.T.) or the local agencies equivalent, then the assistance of the Orange County Sheriff's Department Major Accident Investigation Team (M.A.I.T.) may be requested via the Department Commander. The M.A.I.T. response shall be a minimum of two (2) Members who will assist with mapping only. All identification and documentation of evidence will be conducted by the CHP or local agency.

502.4 REPORTING SITUATIONS

In the event of serious injury or death related traffic collision, the Department Commander shall notify the Traffic Bureau Supervisor to relate the circumstances of the traffic collision and seek assistance from the Traffic Bureau or M.A.R.T. Team.

Impaired Driving and Evidence Collection

514.1 PURPOSE AND SCOPE

This policy explains the procedures to be followed while collecting evidence to establish the blood alcohol and/or drug content level of drivers arrested for driving while intoxicated and unconscious drivers who are suspected of driving while intoxicated.

514.2 POLICY

When a person is arrested for driving under the influence of an alcoholic beverage, the arresting deputy shall advise the person that he/she has a choice of whether the chemical test shall be of the breath or blood (Vehicle Code § 23612 (a)(2)(A)). When a person is arrested for driving under the influence of any drug or the combined influence of an alcoholic beverage and any drug, the arresting deputy shall advise the person that he/she has a choice of whether the test shall be of the blood or breath (Vehicle Code § 23612 (a)(2)(B)).

If the person chooses to submit to a breath test, the deputy should also require the person to submit to a blood test if the deputy has a clear indication that a blood test will reveal evidence of any drug or the combined influence of an alcoholic beverage and any drug. The deputy shall state in his or her report the facts upon which that clear indication is based. The deputy shall advise the person that he or she is required to submit to an additional test. The person shall submit to and complete a blood test. If the person arrested is incapable of completing a blood test, the person shall submit to and complete a urine test (Vehicle Code § 23612(a)(2)(C)).

If a blood or breath test are unavailable, the person shall submit to a urine test (Vehicle Code § 23612(d)(2)).

The deputy shall also advise the person that he or she does not have the right to have an attorney present before stating whether he or she will submit to a test, before deciding which test to take, or during administration of the test, and that, in the event of refusal to submit to a test, the refusal may be used against him or her in a court of law (Vehicle Code § 23612(a) (4)).

Any person who is unable to submit to a chemical test due to any of the following conditions shall not be considered as refusing to comply with the provisions of Vehicle Code § 23612:

1. The Department is unable to furnish a selected test.
2. There are verifiable medical reasons for noncompliance.
3. An attending physician refuses to allow it.

514.2.1 COLLECTING BLOOD EVIDENCE

Only a certified phlebotomy technician, licensed physician, nurse or other individual authorized by Vehicle Code § 23158(a) may withdraw a blood sample. Whether such evidence is collected at the Department or other location, the withdrawal of the blood sample shall be witnessed by the assigned deputy.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Impaired Driving and Evidence Collection

A person who is a hemophiliac or is using an anticoagulant under the direction of a physician for a heart condition, shall not be required to take a blood test, but shall submit to and complete a urine test (Vehicle Code § 23612(b) and (c)).

All blood samples shall be booked into evidence for later transfer to the crime laboratory for analysis.

514.2.2 COLLECTING BREATH AS EVIDENCE

If the arrested person chooses a breath test, the arrested person shall be given a breath test in the field utilizing the Intoximeter AlcoSensor IV-XL Point of Arrest System (Yellow Box). This test shall be administered by a deputy who has been trained in the use of the device and is a qualified operator.

When the arrested person chooses a breath test the handling deputy shall advise the person that the breath-testing equipment does not retain a sample and that no breath sample will be available after the test which could be analyzed later by that person or any other person, and the person may, if desired, provide a blood or urine sample which shall be retained at no cost to the person to facilitate subsequent verification testing (Vehicle Code § 23614(a) and (b)). The person shall also be advised that the blood or urine sample may be tested by either party in any criminal prosecution (Vehicle Code § 23614(c)).

514.2.3 COLLECTING URINE AS EVIDENCE

If the arrested person chooses a urine test, as permitted by law, he/she shall be promptly transported to the jail. Urine evidence collection kits are maintained in the jail. The deputy shall follow the directions listed on the instruction sheet accompanying the urine evidence collection kit. If the arrested person's urine is necessarily collected elsewhere, the procedure will remain the same.

Urine samples shall be collected and/or witnessed by a deputy of the same gender as the person giving the sample. The person tested shall be given such privacy in the taking of the urine specimen as will ensure the accuracy of the specimen and, at the same time, maintain the dignity of the individual involved (Vehicle Code § 23158(i)).

The urine evidence collection kit shall be marked with the arrestee's name, offense, department, case number and the name of the witnessing deputy. The urine evidence collection kit shall then be placed in the evidence refrigerator to await transportation to the crime laboratory.

514.2.4 TESTING OF CONSCIOUS PERSON AT A HOSPITAL

If because of the need for medical treatment, the arrested person is first transported to a medical facility where it is not feasible to administer a particular test of, or to obtain a particular sample of, the person's blood, breath or urine, the person has the choice of those tests that are available at the facility to which that person has been transported. In that case, the deputy shall advise the person of those tests that are available at the medical facility and that the person's choice is limited to those tests that are available (Vehicle Code § 23612(a) (3)).

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Impaired Driving and Evidence Collection

514.2.5 TESTING OF UNCONSCIOUS PERSON AT A HOSPITAL

When a person is suspected of driving under the influence of alcohol and/or drugs and the person is unconscious or in a condition rendering him or her incapable of consent, the deputy shall advise the attending physician of the intention to collect a sample of the person's blood as evidence. If the physician does not object based on medical reasons, the deputy shall contact the Department Commander to obtain a search warrant for the blood to be drawn. If the deputy believes there are exigent circumstances to justify not obtaining a warrant, the deputy shall contact the Department Commander, who will review the circumstances and determine whether a search warrant will be requested. **The fact of the dissipation of alcohol in the arrestee's bloodstream alone does not constitute an exigency.**

If the person is dead, the handling deputy should coordinate with the Coroner's Office to ensure that a viable test shall be obtained (Vehicle Code § 23612(a)(5)).

514.3 REFUSAL OR FAILURE TO TEST

If a person who has been arrested for a violation of Vehicle Code § 23140; Vehicle Code § 23152; or Vehicle Code § 23153, after having been advised of his/her rights per Vehicle Code § 23612, refuses or fails through statements or actions to complete a chemical test, the handling officer shall serve the notice of order of suspension on behalf of the Department of Motor Vehicles and confiscate all California driver's licenses in the person's possession (Vehicle Code § 23612(e); Vehicle Code § 23612(f)).

Blood may only be taken by force in any impaired driver investigation when the person refuses to submit to a chemical test and when **all** the following circumstances have been met:

1. The person must be in custody for DUI and a search warrant has been obtained to draw the person's blood by force or there are exigent circumstances which justify not obtaining a search warrant. The deputy shall contact the Department Commander to request that a search warrant be obtained for the blood to be drawn by force. If the deputy believes there are exigent circumstances to justify not obtaining a search warrant, the deputy shall contact the Department Commander, who shall review the circumstances and determine whether a search warrant will be requested. **The fact of the dissipation of alcohol in the arrestee's bloodstream alone does not constitute an exigency.**
2. The person's alternative choice, if selected, is either unavailable or not a viable test for the nature of the suspected intoxication (e.g., breath is not a viable test for suspected drug influence).
3. The blood is taken in a medically approved manner.
4. All forced blood extractions are to be conducted in a secure location out of the view of the public.
5. If a forced blood extraction must occur at an Orange County Jail Facility, deputies shall comply with CCOM Policy 1502 Blood Extraction.
6. Only reasonable force may be used to restrain the arrestee.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Impaired Driving and Evidence Collection

After a search warrant has been obtained or after the Department Commander has determined that exigent circumstances exist which justify not obtaining a search warrant, and with a supervisor present, blood may be forcibly extracted from a person arrested for DUI who is physically uncooperative and has refused a chemical test. The amount of force used to accomplish the collection of this evidence shall be controlled by that supervisor, keeping in mind the seriousness of the suspected offense and the factors used to determine the reasonableness of force in accordance with the Use of Force Policy.

The circumstances surrounding any blood draw by force shall be thoroughly documented in all arrest reports including whether or not a search warrant was obtained and, if not, the circumstances (beyond the mere dissipation of evidence) which precluded obtaining a search warrant. The amount of force and methods used to accomplish the blood sample draw shall also be detailed in the report.

Disabled Vehicles

520.1 PURPOSE AND SCOPE

Vehicle Code § 20018 provides that all law enforcement agencies having responsibility for traffic enforcement may develop and adopt a written policy to provide assistance to motorists in disabled vehicles within their primary jurisdiction.

520.2 DEPUTY RESPONSIBILITY

When an on-duty deputy observes a disabled vehicle on the roadway, the deputy should make a reasonable effort to provide assistance. If that deputy is assigned to a call of higher priority, the dispatcher should be advised of the location of the disabled vehicle and the need for assistance. The dispatcher should then assign another available deputy to respond for assistance as soon as practical.

520.3 EXTENT OF ASSISTANCE

In most cases, a disabled motorist will require assistance. After arrangements for assistance are made, continued involvement by Department Members shall be contingent on the time of day, the location, the availability of Departmental resources, and the vulnerability of the disabled motorist.

520.3.1 MECHANICAL REPAIRS

Department Members shall not make mechanical repairs to a disabled vehicle. The use of push bumpers to relocate vehicles to a position of safety is not considered a mechanical repair.

520.3.2 PUSH BARS

Push bars are to be used in situations where property damage and/or injury would be likely to occur if immediate clearing of the road hazard did not take place. Use whatever means available to clear the traffic lanes, including the use of push bars. Except in the most serious cases, restoration of the traffic flow shall take precedence to allow minimum discomfort and time loss to the motoring public.

In a more serious scenario, when a full investigation is warranted, remember to leave the vehicles at their original points of rest until measurements and photographs can be taken. Although contract tow vehicles should be used to clear the traffic lanes, do not leave a lane blocked merely because the summoned tow has not yet arrived.

Some examples of proper use of push bars would be:

1. Pushing a stalled vehicle creating a traffic hazard blocking the roadway or intersection to a point of safety.
2. Moving a vehicle from a point of danger after being involved in a traffic collision and use of the roadway is required.

The above situations are examples only and would be the most common times push bars would be used.

Push bars should not be used for:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Disabled Vehicles

1. Push-starting another vehicle.
2. Pushing another vehicle when immediate clearing of the roadway is not necessary or when alternative traffic control techniques could be used.

Any intentional misuse of County equipment is a violation of the Sheriff's Department Rules and Regulations and is subject to review and/or discipline.

Chapter 6 - Investigation Operations

Extraditions

605.1 PURPOSE AND SCOPE

The criminal courts process requires appearances in the courtroom by a fugitive(s) involved with the case who may be in custody in jurisdictions outside of the State of California. This policy defines the process and procedure for the transport of a fugitive(s) by Orange County Sheriff's Department deputy sheriffs to and from other states for the purpose of appearing in court in California. This policy establishes procedures for the safe and secure transport of the fugitive(s) in custody, as well as for the safety of the deputies escorting the fugitive.

605.1.1 DEFINITIONS

Extradition: The surrender, by one nation or state to another, of an individual accused or convicted of an offense outside its own territory and within the territorial jurisdiction of the other, which being competent to try and punish the individual, demands the surrender.

Fugitive: An individual who is accused or convicted of a crime in one state and is later found in another state, regardless of the manner of or reason for the individual's departure from the first state. (New Mexico, ex rel. Ortiz v. Reed, 524 U.S. 151 (1998); Appleyard v. Massachusetts, 203 U.S. 222, 227 (1906).

605.2 POLICY

The Department shall provide safe, secure, and efficient extradition of fugitives to and from custody facilities outside of California. The Fugitive Warrants/Extraditions Unit shall oversee the processes that shall include travel planning and the National Law Enforcement Telecommunications System (NLETS) authorization process.

605.3 RULES AND PROCEDURES

605.3.1 FUGITIVE TRANSPORT

1. Fugitives shall not be permitted to influence, determine or know the travel itinerary.
2. Deputies shall be on alert for conversation between fugitives regarding escapes or other investigative leads concerning ongoing criminal investigations.
3. Fugitives are not allowed to possess or spend any money, checks, etc., while in transit. All prisoner funds and valuables shall be kept/stored away from the prisoner.
4. Fugitives shall not be allowed to smoke.
5. Fugitives shall not be allowed to speak to anyone except deputies, correctional officers, or other fugitives while in transit.
6. No medication shall be administered unless prescribed by a physician or as indicated by an institution.
7. Fugitives shall not be allowed to place telephone calls while in custody of deputies until they have reached the Orange County Jail.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Extraditions

8. All vehicles utilized to transport fugitives shall be searched by the transporting deputies prior to and after each individual transport to ensure no weapons or contraband are present, nothing has been introduced into the confinement area, and the vehicle is in proper working order. This search shall be completed in a timely manner.
9. Two deputies are required to pick up one fugitive.
 - (a) If it is a male fugitive, at least one male deputy must go. If it is a female fugitive, at least one female deputy must go.
 - (b) At least one of the deputies needs to be patrol trained.
 - (c) Should it become necessary for a third deputy to assist with the extradition due to safety concerns, the Commander overseeing the Fugitive Warrants/Extraditions Unit shall authorize that request.

605.3.2 EXTRADITION BY COMMERCIAL AND CHARTER AIR

1. Deputies required to carry a loaded firearm on-board any commercial aircraft must complete the Transportation Security Administration's (TSA) "Law Enforcement Officers Flying Armed" course prior to carrying loaded firearms on any commercial aircraft. This course satisfies the requirements of Title 49 CFR 1544.219 and Title 49 CFR 1544.221. See Policy 305 - Flying While Armed for further details.
2. Deputies shall notify the airline at least one hour in advance of their departure time or, in an emergency, as soon as possible. Deputies shall display their credentials and advise their travel is for escorting a fugitive.
3. Deputies shall identify themselves by their respective titles and notify the air carrier they are armed; this shall include the pilot(s) and flight crew.
4. Weapons SHALL NOT be surrendered to airline or airport security personnel when transporting fugitives or when flying enroute to pick up a fugitive.
5. Deputies shall inform the airline whether the fugitive is considered to be high risk or low risk. A high risk fugitive is considered an escape risk and/or violent.
6. Only one high risk fugitive per flight is allowable.
7. The Federal Aviation Administration permits use of restraints on fugitives while flying. Individual airlines should be contacted in regards to their respective policies.
8. A non-obtrusive restraint device is mandatory on all extraditions. Deputies shall not remove the restraint device while in transport and the fugitive shall be instructed to stay within arm's reach of deputies at all times. Fugitives must sit in the last row next to the window on the airplane.
9. Aboard the aircraft, deputies should remain anonymous and care should be taken not to display any firearms. Care should also be taken to conceal the fact that the fugitive is in custody. A jacket or similar covering should be used to conceal the fugitive's restraints.
10. In the event of a delay, deputies shall make reasonable attempts to notify that jurisdiction's responsible law enforcement agency of the delay and potential safety risk.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Extraditions

11. The consumption of alcoholic beverages by deputies while on duty, armed or while transporting fugitives is strictly prohibited.
12. All deputies shall remain awake and alert at all times when flying armed or transporting fugitives.
13. In the event of a hijacking, no action shall be taken by deputies unless the pilot-in-charge requests intervention to restore flight safety. Each airline has procedures to follow in the event of a hijacking.

605.3.3 FUGITIVE CARE

1. If a fugitive needs medical attention while being transported by deputies, they shall be taken to the nearest medical facility that is available to the transporting deputies.
2. If temporary treatment of the medical problem can be accomplished in a timely manner, deputies shall stay with the fugitive and then continue on with the transport to the original destination without delay.
3. If the treatment of a fugitive becomes of such a nature as to cause his/her admission into a medical facility, deputies shall immediately call their supervisor(s) so that proper arrangements can be made as to the guarding of the fugitive, as well as to ensure proper medical attention is received.

605.3.4 AUTHORIZED RESTRAINTS

Fugitives being transported for an extradition shall wear Martin chains. Martin chains consist of both waist restraints and handcuffs.

Extraditions west of the Mississippi River shall be considered an overnight trip and will be considered a two working day trip, including travel. Each day shall be allotted ten (10) hours of pay, unless circumstances require additional hours be logged. An extradition to Hawaii or Alaska shall be considered a three working day trip.

Informants/Sources of Information

608.1 PURPOSE AND SCOPE

In some instances, a successful investigation cannot be conducted without the use of Informants. In a custodial setting, Sources of Information present themselves to staff and will require proper handling. To protect the integrity of the Orange County Sheriff's Department and Members using Informants and Sources of Information, it shall be the policy of this Department to take appropriate precautions by developing sound policies.

Informants do not belong to an individual deputy or investigator, but they are agents of the Department and act on its behalf. As with any case management, it is important to maintain proper Informant management to ensure officer safety, proper legal and ethical standards, and to limit civil liability to the Department and the Informant handler.

Sources of Information are not agents of the Department and are not considered Informants. However, they still require documentation and tracking to ensure proper legal and ethical standards, and to limit civil liability to the Department.

608.1.1 DEFINITIONS

Informant: An Informant is any person who knowingly provides information to law enforcement related to another's criminal activity, whose motivations for doing so are other than that of an uninvolved witness, victim, or private citizen primarily acting through a sense of civic responsibility and who, as a general rule, but not necessarily, expects some form of benefit or advantage for himself, herself, or another person in return.

Source of Information (SOI): A Source of Information (SOI) is an inmate who provides information to law enforcement regarding criminal activity, or any non-criminal activity related to jail security; but has not been directed to do so by law enforcement, and, upon providing such information, the inmate has not requested or been offered, nor received any benefit or consideration in return for the information. An SOI is not an Informant, a victim or potential suspect.

Informant Consideration and Benefits: A benefit includes any consideration or advantage an Informant was offered, promised or received in exchange for information or testimony provided. It includes a benefit for the Informant or a benefit for another person at the Informant's request. Refer to section 608.3 for further information.

608.2 INFORMANT AND SOURCE OF INFORMATION FILE SYSTEMS AND STORAGE

Informant files generated by Members within the Special Investigations Bureau (North/South Narcotics, North/South GET and the Advanced Surveillance and Protection team), shall be maintained by the unit supervisor of the specific unit that generated the Informant file.

The North Narcotics Unit Supervisor shall be responsible for maintaining Informant files generated within the Transit Operations Division, Special Operations Division, North Operations Division, Criminal Investigations Bureau (excluding the Custody Intelligence Unit) and the Professional Services Command.

The South Narcotics Unit Supervisor shall be responsible for maintaining Informant files generated within the Southeast Operations Division and Southwest Operations Division.

The Custody Intelligence Unit Supervisor shall be responsible for maintaining Informant and Source of Information (SOI) files generated within the Custody Operations Command.

A separate file shall be maintained on each Informant and SOI. These files shall be the complete set of records about the information provided by the Informant or SOI; shall enable review and evaluation of information given by the Informant or SOI; shall be available for discovery purposes when legal authority is provided; and shall minimize incidents that could be used to question the integrity of deputies/investigators or the reliability of the Informant or SOI. Informant and SOI files shall be maintained and locked in a secure area.

Access to Informant and SOI files shall be restricted to the Sheriff, the Undersheriff, the Investigations & Special Operations Command Assistant Sheriff, the Constitutional Policing Advisor, the Investigations Division Commander, the Special Investigations Bureau Captain, the Criminal Investigations Bureau Captain, the Special Investigations Unit Supervisors, the Custody Intelligence Unit Supervisors, and the Informant Handler or their designees. Members are prohibited from maintaining their own databases, files, and logs on SOIs and Informants.

Each Informant file shall be coded with an assigned Informant Control Number (ICN). The Special Investigations Bureau Captain or the Criminal Investigations Bureau Captain shall assign the ICN from their respective Master Control Logs. - (s) Consideration Letter (If applicable)
- (t) Current Jail Management System documents related to the Informant, including any Jail Incident Reports, Classification Review Forms, and any grievances directly related to the inmate's Informant status (If applicable).

608.2.2 SOURCE OF INFORMATION

A Source of Information (SOI) is an inmate who provides information to law enforcement regarding criminal activity, or any non-criminal activity related to jail security; but has not been directed to do so by law enforcement, and, upon providing such information, the inmate has not requested or been offered, nor received any benefit or consideration in return for the information. An SOI is not an Informant, a victim or potential suspect. When an inmate is a potential SOI the following protocols shall be followed:

- (a) Every instance in which a deputy is contacted by a potential SOI, the following admonishment shall be read:

"Your disclosure of any information to me is voluntary and completely of your own free will. You will not receive leniency as it pertains to your prior, current, or future cases. You will not receive any special privileges or compensation. Do you understand what I have read to you? Do you still want to talk to me?"

- (a) The deputy shall document on an intra-departmental memo the admonishment was given and the inmate's response. All information provided by the SOI and the outcome of any action taken shall be included in the memo and addressed to the CIU Sergeant. This memo will be kept in the SOI's file. The Memorandum does not absolve the Member of their responsibilities to document the incident on the appropriate report.
- (b) If the potential SOI agrees to voluntarily disclose information to the deputy without a benefit or consideration in return, then the deputy will debrief the inmate and preliminarily vet the information. If the information appears credible and the deputy wishes to act upon the information, they shall notify their immediate supervisor and the CIU Sergeant. The CIU Sergeant will begin the SOI documentation and approval process.
- (c) No deputy will obtain information from a potential SOI who requests a benefit after being read the above admonishment. The CIU Sergeant will be notified if the individual chooses not to provide information unless they receive a benefit. The CIU Sergeant, in consultation with the Criminal Investigations Bureau Captain, will determine whether the person should be documented as an Informant in accordance with this policy.
- (a) In all cases involving an SOI, the CIU Sergeant will confirm the SOI does not meet the definition of an Informant. If the SOI has a previous OCII entry, the SOI file will

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

reflect the inmate's prior Informant status and handling law enforcement agency. The designation of an inmate as an SOI shall be reviewed by the Criminal Investigations Bureau Captain and, if there is any question about whether the inmate may meet the definition of an informant, the Criminal Investigations Bureau Captain will consult with the Orange County District Attorney's Office.

- (b) A repeating SOI is an inmate who has voluntarily provided information a third time within the inmate's current incarceration period. If an inmate is a repeating SOI, the CIU Sergeant shall interview the inmate to determine if the inmate is seeking a benefit. The CIU Sergeant shall reiterate to the inmate that OCSD Policy prohibits promises or offers of consideration when inmates provide information to law enforcement. The CIU Sergeant shall document this interview in an internal memorandum and include it in the SOI file. The CIU Captain's audit of the SOI file shall confirm that the CIU Sergeant interviewed the repeating SOIs and the SOI file contains complete documentation and further action as necessary.
- (c) If an SOI provides information regarding an exigent or quickly developing situation, staff may act upon the SOI's information to ensure the safety and security of a facility, staff, or inmates. Staff shall admonish the SOI and notify their immediate supervisor and the CIU Sergeant as soon as practical. Under no circumstances will a benefit be provided to an SOI. All SOI's will be issued a Source Control Number (SCN). This is a permanent number that is specific to the individual SOI and shall be used anytime an SOI is reactivated. The SCN consists of the letters SCN, followed by the last two digits of the current calendar year, a hyphen, and a sequential number (Example: SCN16-001). All SOI files will be maintained by the CIU Sergeant. The file will be tracked via the SCN.
- (d) A copy of any Department Reports generated because of information provided by the SOI will be maintained in the SOI file.
- (e) SOI files have a 99 year retention period, beginning on the date of inactivation. The transitory nature of the County Jail population requires OCSD to maintain consistency in the records derived from a particular inmate. If an SOI were released from OCSD custody and later returned to an OC Jail facility, their previous SCN number which is specific to the individual SOI, and their respective SOI file shall be reopened and updated with any additional and continuing information.
- (f) The Criminal Investigations Bureau Captain shall audit all active SOI files quarterly. The audit will review all SOI records, confirm accuracy, and ensure all records are up to date within the SOI file. The audits will be documented on the SOI Quarterly Audit Form within the SOI file. For more information regarding this audit please refer to section 608.11.
- (a) Annually, and no later than January 15th of the calendar year, the Criminal Investigations Bureau Captain shall provide the OCII Coordinator at the Orange County District Attorney's Office a list of all SOI files created in the preceding calendar year as part of the OCSD/OCDA Annual Informant/SOI Joint Audit. Any errors or omissions identified by OCSD or OCDA shall be corrected immediately. The Criminal Investigations Bureau Captain will provide audit results, deviations from policy (if

any), and areas for improvement identified (if any) to the Division Commander of Investigations.

608.2.3 FILE SYSTEM PROCEDURE FOR SOURCES OF INFORMATION (SOI)

Each SOI file shall be coded with an assigned Source Control Number (SCN). The Criminal Investigations Bureau Captain shall assign the SCN from the Master Control Log. An SOI history shall be prepared to correspond to each SOI file. The SOI file shall contain the following:

- (a) SOI Cover Sheet
- (b) SOI Approval Form
- (c) SOI Quarterly Audit Form
- (d) SOI's Booking Photograph
- (e) Copy of SOI's criminal history (CII/FBI/warrant checks)
- (f) Copy of the Orange County Sheriff's Department Source of Information Card. The original SOI card shall be forwarded to Orange County District Attorney's Office upon creation of the SOI file.
- (g) SOI Memo (to include admonishment)
- (h) All reports resulting from the information provided by the SOI
- (i) SOI Activity Log
- (j) Current Jail Management System documents related to the SOI, including any Jail Incident Reports, Classification Review Forms, and any grievances directly related to the inmate's SOI status (If applicable)

608.3 USE OF INFORMANTS

Prior to approval supervisors will consider the suitability of the informant. Informants may not be suitable due to their criminal history. Those serious offenses involving violence or sex crimes, etc. should be considered before approval to avoid compromising an investigation or embarrassing the Department. Before using an individual as an Informant, the Informant packet must be completed and approved by the proper Special Investigations Unit Supervisor or Custody Intelligence Unit Supervisor, and the Special Investigations Bureau Captain or the Criminal Investigations Bureau Captain. In the event a new, unsigned Informant can provide information or assistance crucial to a quickly developing investigation, the Informant packet shall be completed as soon as practical. However, unit supervisor approval is required. An OCII card shall be submitted to the Orange County District Attorney's Office for all Informants at the first possible opportunity, but no later than five business days from the date the Informant Admonishment and Informant Agreement forms are signed by the Informant.

608.3.1 TYPES OF INFORMANTS

Defendant Informant: A Defendant Informant is an Informant who has a pending criminal matter, including probation and/or parole violations; or who awaits sentencing after conviction; or is serving a custodial sentence; or is on probation or parole. A Defendant Informant acts under the specific

direction of law enforcement to secure information and/or may have been offered, promised, or provided a benefit or any type of consideration for the information he/she provides.

In-Custody Informant: An In-Custody Informant is "a person, other than a co-defendant, percipient witness, accomplice, or co-conspirator whose testimony is based upon statements made by the defendant while both the defendant and the Informant are held within a correctional institution." Penal Code sections 1127a, 1191.25 and 4001.1 govern their use.

Paid Informant: A Paid Informant is an out of custody individual, excluding a Defendant Informant, who receives any form of consideration from law enforcement in return for information regarding criminal activity.

Accomplice Informant: An Accomplice Informant is an Informant who has a pending criminal matter and provides information about one or more co-defendants in return for a benefit or consideration in the pending criminal matter.

608.4 INFORMANTS REQUIRING SPECIAL REVIEW

Some persons being considered for use as Informants may require special review for approval before being activated. These include juveniles, persons on probation or parole, or those who hold privileged positions, e.g., attorneys, doctors, clergy, reporters, persons in the Witness Protection Program and former law enforcement officers.

Persons on probation or parole present specific concerns. The Department cannot place a probationer or parolee in a position that violates the terms or conditions of their probation or parole. The Department has no authority to override the conditions set forth by a court or the authority of the controlling agency.

Guidance from the Constitutional Policing Advisor, County Counsel and the Orange County District Attorney's Narcotics Enforcement Team should be sought when persons of privileged status are being considered for use as Informants.

608.4.1 INFORMANTS ON COUNTY PROBATION

The handling deputy/investigator shall determine if the person is on Summary (Informal) Probation or Formal Probation. If the person is on Formal Probation the handling deputy/investigator shall do the following:

- (a) Contact the court or probation officer to determine if the Informants use will not violate the conditions of their probation;
- (b) Document the concerns if notification will jeopardize a major case investigation.

If the use of the Informant is in conflict with the terms of their probation, the handling deputy/investigator can attempt to amend the terms of probation through the court. If the court requests written documentation, the handling deputy/investigator shall submit the request on Department letterhead with the proper Departmental approvals. A request should be made with the court to refrain from placing a copy of the letter in the probationer's file to preserve the confidentiality of the Informant.

608.4.2 INFORMANTS ON FEDERAL PROBATION

The handling deputy/investigator shall contact the person's probation officer. Federal probationers can only be used as Informants when the court of jurisdiction has been formally contacted and approved for use. A formal request to use a federal probationer as an Informant shall be made on Department letterhead with the proper Departmental approvals. If the request is approved, the probation officer shall complete and submit the necessary paperwork to the concerned federal court for approval.

608.4.4 INFORMANTS ON FEDERAL PAROLE

Currently, the United States Parole Commission discourages the use of federal parolees as Informants. If the use of a federal parolee is essential in a major case, the Assistant Sheriff commanding the Investigations & Special Operations Command shall submit a written request to the Chairperson of the United States Parole Commission for the use of that Informant. If the Commission approves the request, the Informant may be used for only 90 days. Extensions may only be requested by the Assistant Sheriff through the Commission.

608.4.5 JUVENILE INFORMANTS

The use of Juvenile Informants under the age of 13-years is prohibited. Except as provided for in the enforcement of the Tobacco Enforcement Act, Business & Professions Code Section 22950, et seq., the use of any Juvenile Informant between the ages of 13 and 18 years is only authorized by court order obtained pursuant to Penal Code Section 701.5.

For purposes of this policy, a "Juvenile Informant" means any juvenile who participates, on behalf of this Department, in a prearranged transaction or series of prearranged transactions with direct face-to-face contact with any party, when the juvenile's participation in the transaction is for the purpose of obtaining or attempting to obtain evidence of illegal activity by a third party and where the juvenile is participating in the transaction for the purpose of reducing or dismissing a pending juvenile petition against the juvenile.

608.5 GUIDELINES FOR HANDLING INFORMANTS

All Informants are required to sign and abide by the provisions of the Department Informant Admonishment form. The deputy/investigator using the Informant shall discuss each of the provisions of the Admonishment form with the Informant. No personnel assigned to Custody Operations shall handle informants.

The fee paid to an Informant shall be based on the type of information given and to what extent the information given assists in an investigation.

608.6.3 CASH DISBURSEMENT POLICY

The following establishes a cash disbursement policy for Informants. No Informant shall be told in advance or given an exact amount or percentage for services rendered.

When both assets and drugs have been seized, the Informant shall receive payment based upon their overall assistance in the investigation. 608.7 INACTIVATING INFORMANTS

Informants may be inactivated at any time. There are several reasons detailed in the Informant Update form. box stating the reason, then submit it to the appropriate Special Investigations or Custody Intelligence Unit Supervisor for review. Once reviewed, the unit supervisor shall forward the file to the Special Investigations Bureau Captain or Criminal Investigations Bureau Captain. If approved by the Bureau Captain for inactivation, the unit supervisor shall place the Informant file into the "undesirable/unreliable" file.

The handling deputy/investigator should then notify the Informant as to their change in status and make it clear to the Informant he/she shall no longer be providing services to the Department. In all cases, the OCII Coordinator at the District Attorney's Office shall be notified whenever an Informant is classified as undesirable and/ or unreliable. Additionally, if an Informant was used in a criminal case that was filed by the District Attorney's Office and it was later determined the Informant was untruthful and/ or unreliable, the handling Deputy District Attorney on the criminal case shall be notified.

608.8 NOTIFICATION AND INFORMATION SHARING WITH THE DISTRICT ATTORNEY'S OFFICE

It is essential that deputies and/or investigators inform the District Attorney's Office when a case involves an Informant or an SOI in any capacity. This is vital in order to ensure the proper evaluation of discovery and any Brady material at the earliest possible time, to determine the best effective filing strategy, and to preserve the integrity of the criminal prosecutions within Orange County. (**Brady v. Maryland** (1963) 373 US 83, 87). The case agent is responsible for notifying the OCII Coordinator if their case involved an SOI or Informant. Additionally, the case agent is responsible for notifying the OCII Coordinator of any potential exculpatory information. For example, if an Informant is related to a criminal matter, the prosecutor may consider such information when making a filing determination to better protect and ensure the confidentiality of the Informant. Also, if an Informant or SOI is related to a criminal matter, the prosecutor will need to request all appropriate discovery materials under federal, state, and statutory laws to meet their obligations as part of the prosecution team.

To assist in protecting the integrity of the Orange County criminal justice system and fulfilling OCSD's constitutional and ethical obligations, OCSD shall notify OCDA of any Informants or Sources of Information by providing OCDA with the OCII card or the SOI card. OCII cards shall be submitted to the Orange County District Attorney's Office at the first possible opportunity, but no later than five business days from the date the Informant Admonishment and Informant Agreement forms are signed by the Informant. SOI cards shall be submitted to the Orange County District Attorney's Office at the first possible opportunity, but no later than five business days from the date the SOI provides information. OCSD shall notify OCDA whether an Informant had previously provided information in a custody setting as an SOI. The respective Informant and SOI files will include all relevant materials regarding the specific cooperating individual in possession of OCSD.

In the event OCDA receives an SOI notification from OCSD where the individual has been previously entered into the OCII database due to a submission from another law enforcement agency, OCDA shall notify the Captain of the Criminal Investigations Bureau of the OCII

Orange County Sheriff-Coroner Department

submission and the identity of the submitting law enforcement agent and agency. The Captain of the Criminal Investigations Bureau will document the information received in the SOI file.

The OCSD/OCDA Annual Informant/SOI Joint Audit will be conducted to ensure compliance with the relevant policies of both agencies. For more information regarding this audit please refer to sections 608.2.2(11), 608.10, and 608.11, and to the Orange County Sheriff's Department and Orange County District Attorney's Office Memorandum of Understanding Regarding Custodial Informants and Sources of Information.

608.9 IN-CUSTODY INFORMANT-SCREENING

When a deputy has contact with an inmate who expresses a desire to be an Informant, the following protocols shall be followed:

- (a) Refer the inmate's request/information to the Custody Intelligence Unit (CIU). The CIU Sergeant will evaluate the request based on safety, security and the credibility of the information to be provided. The Criminal Investigations Bureau Captain will consult with the Investigations Division Commander and Executive Command. The Sheriff must approve the decision to utilize an Informant within the jail prior to the use of an Informant. In the event the Sheriff is unavailable, and approval is immediately required due to an exigent situation, then the Undersheriff may approve the use of the Informant. In that case, the Undersheriff must notify the Sheriff at the earliest possible opportunity.
- (b) If the information is determined to best benefit an OCSD investigative detail or outside agency, the CIU Sergeant will forward the information, once vetted, to the appropriate OCSD detail or outside agency.
- (c) If the information is jail-related and it is determined CIU personnel should manage the Informant, CIU shall coordinate with the Orange County Informant Index (OCII) Coordinator to determine eligibility for consideration, in conjunction with OCDA's Cooperating Informant Review Committee (CIRC) approval, prior to using the Informant.
- (d) In the event a new, unsigned Informant can provide information or assistance crucial to a quickly developing investigation, the Informant packet shall be completed as soon as practical. However, unit supervisor approval is required. An OCII card shall be submitted to the Orange County District Attorney's Office for all Informants.
- (e) Any time an Informant is used in the jail, the Custody Intelligence Unit Supervisors will ensure the use of the Informant does not involve eliciting information from a person regarding any of his or her pending criminal case(s).

608.10 INFORMANT AUDITS

An audit of active Informant files shall be performed on a yearly basis by the Special Investigations Bureau Captain and the Criminal Investigations Bureau Captain. These audits are in addition to the OCSD/OCDA Annual Informant/SOI Joint Audits. The unit Supervisors shall obtain all updated material and information from the deputies and investigators who manage the Informants. The unit Supervisor shall review the material for completeness and thoroughness prior to the audit and sign the Informant Update Sheet. The approved form and material shall be forwarded to the Special

Investigations Bureau Captain or the Criminal Investigations Bureau Captain for approval. The respective Bureau Captain shall place the update form and material into the Informant packet file.

Information/action to be included in the yearly audit shall include:

- (a) Informant Update Form;

Similar immigration protection, known as a T Visa, is available for certain qualifying victims of human trafficking (8 USC § 1101(a)(15)(T)). The purpose of the T Visa is give victims of certain crimes temporary legal status and work eligibility in the United States for up to 4 years. To begin the process of applying for this benefit, a petition for a T Visa from the U.S. Citizenship and Immigration Services must be completed on DHS Form I-914 and be certified by the designated certifying officer.

609.3 DEFINITIONS

CELLULAR SITE SIMULATOR USAGE AND PRIVACY

610.1 PURPOSE AND SCOPE

The purpose of this policy is to set guidelines and requirements pertaining to cellular site simulator technology usage and privacy. Any changes to this policy - including authorized uses of the cellular site simulator technology by the Orange County Sheriff's Department - will be made in compliance with California Government Code Section 53166.

610.2 POLICY

It is the policy of the Orange County Sheriff's Department to respect the privacy rights and civil liberties of individuals and to follow the United States Constitution, including the First and Fourth Amendments, the California Constitution, and all applicable laws.

610.3 BASIS FOR POLICY

Government Code § 53166(b) requires all law enforcement organizations that use cellular communications interception technology, including cellular site simulator technology, to:

- (a) Maintain reasonable security procedures and practices, including operational, administrative, technical and physical safeguards, to protect information gathered through the use of cellular communications interception technology from unauthorized access, destruction, use, modification or disclosure.
- (b) Implement a usage and privacy policy to ensure that the collection, use, maintenance, sharing and dissemination of information gathered through the use of cellular communications interception technology complies with all applicable law and is consistent with respect for an individual's privacy and civil liberties. The usage and privacy policy shall be available in writing to the public, and, if the local agency has an internet website, the usage and privacy policy shall be posted conspicuously on that internet website. The usage and privacy policy shall, at a minimum, include all of the following:
 1. The authorized purposes for using cellular communications interception technology and for collecting information using that technology.
 2. A description of the job title or other designation of the employees who are authorized to use or access information collected through the use of cellular communications interception technology. The policy shall identify the training process and time period system audits.
 3. A description of how the local agency will monitor its own use of cellular communications interception technology to ensure the accuracy of the information collected and compliance with all applicable laws, including laws providing for process and time period system audits.
 4. The existence of a memorandum of understanding or other agreement with another local agency or any other party for the shared use of cellular

communications interception technology or the sharing of information collected through its use, including the identity of signatory parties.

5. The purpose of, the process for, and restrictions on the sharing of information gathered through the use of cellular communications interception technology with other local agencies and persons.
6. The length of time information gathered through the use of cellular communications interception technology will be retained and the process the local agency will utilize to determine if and when to destroy retained information.

Members shall use only department-approved devices and usage shall be in compliance with department security procedures, the department's usage and privacy procedures and all applicable laws.

610.4 HOW THE TECHNOLOGY WORKS

Cellular site simulator technology relies on the use of cellular site simulators. Cellular site simulators, as governed by this policy, function by transmitting as a cell tower. In response to the signals emitted by the simulator, cellular devices in proximity of the simulator identify it as the most attractive cell tower in the area and thus transmit signals to the simulator that identifies the device in the same way that they would a networked tower. **Cellular site simulator technology does not capture nor receive any content such as text messages, voicemails, applications, multimedia messages, etc. It does not have the capability of listening to phone calls.**

A cellular site simulator receives signals and uses an industry-standard unique identifying number assigned by a device manufacturer or cellular network provider to distinguish between the incoming signals until the targeted device is located. Once the cellular site simulator identifies the specific cellular device for which it is looking, it will obtain the signaling information relating only to that particular phone, rejecting all others.

When used in a mass casualty event, the cellular site simulator will obtain signaling information from all devices in the simulator's target vicinity for the limited purpose of locating persons in need of assistance or to further recovery efforts. Any information received from the cellular devices during this time will only be used for these limited purposes and all such information received will be purged at the conclusion of the effort in accordance with this policy. A mass casualty incident is a natural disaster such as an earthquake or fire; a terrorist attack; or any event resulting in imminent loss of life or injury.

610.4.1 INFORMATION OBTAINED

By transmitting as a cell tower, cellular site simulators acquire identifying information from cellular devices. As employed by the Orange County Sheriff's Department, this information is limited. Cellular site simulators employed by the Orange County Sheriff's Department will be limited to providing only:

- (a) Azimuth (an angular measurement in a spherical coordinate system)
- (b) Signal strength

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

CELLULAR SITE SIMULATOR USAGE AND PRIVACY

- (c) Device identifier for the target device when locating a single individual or all device identifiers when necessary, i.e. mass casualty event.

Cellular site simulators do not function as GPS locators, as they will not obtain or download any location information from the device or its applications.

Cellular site simulators used by the Orange County Sheriff's Department shall not be used to collect the contents of any communication, in accordance with 18 U.S.C § 3121 (c).

Cellular site simulators employed by the Orange County Sheriff's Department shall not capture emails, texts, contact lists, images or any other data contained on the phone. In addition, the cellular site simulators shall not be used by the Orange County Sheriff's Department to collect subscriber account information (for example, an account holder's name, address or telephone number).

610.5 AUTHORIZED PURPOSES

The authorized purposes for using cellular communications interception technology and for collecting information using that technology are to:

- (a) Locate missing persons
- (b) Locate at-risk individuals
- (c) Locate victims of mass casualty incidents
- (d) Assist in felony investigations
- (e) Apprehend fugitives

610.5.1 LEGAL AUTHORITY

Cellular site simulator technology may only be used by the Orange County Sheriff's Department with a search warrant or for an identified exigency, with a concurrent application for a search warrant whenever possible and no later than 72 hours after use.

When using cellular site simulator technology to assist in an investigation, Sheriff's personnel may use cellular site simulators to help locate cellular devices whose unique identifiers are already known to law enforcement, or to determine the unique identifiers of an unknown device by collecting limited signaling information from devices in the simulator user's vicinity. Sheriff's personnel must make reasonable efforts to:

- (a) Minimize the capture of signals emitted from cellular telephones used by people other than the target of the investigation.
- (b) Must immediately destroy all data other than the data identifying the cellular telephones used by the target, such destruction must occur within seventy-two (72) hours after the data is captured, and the destruction must be evidenced by a verification provided to the Court with the return of the warrant.
- (c) Prohibited from using the data acquired beyond that necessary to determine the cellular telephones used by the target.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

CELLULAR SITE SIMULATOR USAGE AND PRIVACY

When making any application to a court, members of the Orange County Sheriff's Department shall disclose appropriately and accurately the underlying purpose and activities for which an order or authorization is sought. Search warrants for the use of a cellular site simulator must include sufficient information to ensure that the courts are aware that the technology is being used. An application for the use of a cellular site simulator shall inform the court about how law enforcement intends to address the deletion of data not associated with the target phone.

If cellular site simulator technology is used based on exigency, then the above requirements will be met by applying for a search warrant concurrently with the use of the device whenever possible and no later than 72 hours after use. An exigency is defined as an emergency involving the danger of death or serious physical injury to any person.

Sheriff's personnel will make no affirmative investigative use of any non-target data absent further order of the court, except to identify and distinguish the target device from other devices.

610.6 JOB TITLES, DESIGNATIONS AND TRAINING REQUIREMENTS

The Orange County Sheriff's Department's cellular site simulator shall be operated and maintained by sworn members of the Orange County Sheriff's Department Technical Investigations Unit. Personnel shall be specifically trained in such technology and authorized for its use by the Orange County Sheriff or his designee. Such personnel shall be limited to designated Sheriff's sworn personnel unless otherwise authorized.

Training requirements for the above employees include completion of training by the manufacturer of the cellular site simulator interception technology or appropriate subject matter experts as identified by the Orange County Sheriff's Department. Such training shall include and follow applicable State and Federal laws. Personnel assigned to the Technical Investigations Unit at the time of the approval of this policy shall be trained by the manufacturer regarding use of the cellular site simulator. Prior to its use by subsequent personnel assigned to the Technical Investigations Unit, those personnel shall receive instruction by persons who were trained by the manufacturer.

The Technical Investigations Unit Supervisor will be designated the Cellular Site Simulator Program Coordinator ensuring compliance with all State, Federal laws and regulations.

610.7 AGENCY MONITORING AND CONTROLS

The Orange County Sheriff's Department will monitor its use of cellular site simulator technology to ensure the accuracy of the information collected and compliance with all applicable laws, including laws providing for process and time period system audits. Prior to approving use of the cellular site simulator, the Investigations Division Commander or their designee shall ensure that the proposed use complies with all applicable laws and this policy. The Investigations Division Commander or their designee shall conduct reviews every six months of all deployment logs for compliance with applicable laws and policy, and shall conduct any further audits required by law. The Investigations Division Commander, or their designee, shall ensure that process and time period system audits are conducted in accordance with the law and this policy.

Should there be simultaneous requests from outside agencies to utilize the cellular site simulator, the Investigations Division Commander or their designee will determine which agency incident has priority.

610.9 SHARING OF INFORMATION

The Orange County Sheriff's Department will share information gathered through the use of cellular site simulator technology with other law enforcement agencies that have a right to know and a need to know the information requested. A right to know is the legal authority to receive information pursuant to a court order, statutory law or case law. A need to know is a compelling reason to request information such as direct involvement in an investigation.

Information will be shared only with a written agreement with the agencies and in accordance with a lawful purpose and limited to a court order, search warrant or identified exigency on the part of the agency. The Orange County Sheriff's Department will not share information outside of the legal parameters necessary for the lawful purpose. All requests for information shall be reviewed by the Cellular Site Simulator Program Coordinator or other individual as designated by the Orange County Sheriff.

The agency with which the information is shared ("recipient agency") shall be designated as the custodian of such information. The recipient agency shall be responsible for observance of all conditions of the use of the information including the prevention of unauthorized use, retention of information and destruction of information.

610.10 RETENTION AND DISPOSAL OF INFORMATION

Captured data may be kept as evidence for use in a felony criminal investigation only when specifically authorized in a search warrant and in accordance with applicable state laws regarding search warrants and electronic information. Any storage of this information shall be documented in a departmental report by the case agent.

In all other circumstances where captured data is not evidence nor specifically authorized by a search warrant, the Orange County Sheriff's Department shall destroy all information intercepted by the cellular site simulator equipment as soon as the objective of the information request is accomplished in accordance with the following:

- (a) When the cellular site simulator equipment is used to locate a known cellular device, all data shall be deleted upon locating the cellular device and no fewer than once daily for a known cellular device.
- (b) When the cellular site simulator equipment is used in a search and rescue operation, all data must be deleted as soon as the person or persons in need of assistance have been located, and in any event no less than once every ten days.
- (c) The deletion of data must be evidenced by a verification provided to the Court with the Return to Search Warrant.

CELLULAR SITE SIMULATOR USAGE AND PRIVACY

- (d) Prior to deploying the cellular site simulator equipment for a subsequent operation, personnel will ensure the equipment has been cleared of any previous operational data.
- (e) No data derived or recorded by cellular site simulator software or equipment will be stored on any server, device, cloud-based storage system or in any capacity.
- (f) It is not likely, given the limited type of data cell-site simulators collect (as discussed above), that exculpatory evidence would be obtained by a cell-site simulator in the course of criminal law enforcement investigations. As in other circumstances, however, to the extent investigators know or have reason to believe that information is exculpatory or impeaching they have a duty to memorialize that information.

Disclosing Potential Brady Information to the Prosecution

613.1 PURPOSE AND SCOPE

This policy establishes guidelines for identifying and releasing potentially exculpatory, favorable or impeachment information to a prosecuting attorney.

613.1.1 DEFINITIONS

Definitions related to this policy:

Brady information: Information known or possessed by the Orange County Sheriff-Coroner Department that is both favorable and material to the current prosecution or defense of a criminal defendant. In a landmark decision, *Brady v. Maryland*, 373 U.S. 83 (1963), the United States Supreme Court held that the prosecution has an affirmative duty to disclose to the defendant evidence which is both favorable and material to the guilt and/or punishment of the defendant. Such evidence may either directly impact the issue of guilt or innocence or impeach, i.e., undermine the credibility of a prosecution witness.

Moral turpitude: Acts of dishonesty and untrustworthiness.

Material: Evidence is "material" if there is a reasonable probability that the result of the trial would have been different had the evidence be disclosed.

Sustained Finding: A final determination "by an investigating agency, commission, board, hearing officer or arbitrator, as applicable, following an investigation and opportunity for an administrative appeal pursuant to Sections 3304 and 3304.5 of the Government Code, that the actions of the peace officer were found to violate law or department policy." Penal Code § 832.8(b).

613.2 POLICY

The Orange County Sheriff-Coroner Department will conduct fair and impartial criminal investigations and will provide the prosecution with both incriminating and exculpatory evidence, as well as information that may adversely affect the credibility of a witness. In addition to reporting all evidence of guilt, the Orange County Sheriff-Coroner Department will assist the prosecution by complying with its obligation to disclose information that is both favorable and material to the defense. The Department will identify and disclose to the prosecution potentially exculpatory, or impeachment information, as provided in this policy. The determination of what constitutes *Brady* material that must be disclosed to the defendant is a legal determination that must ultimately be made by the prosecutor or the court handling the case.

613.3 DISCLOSURE OF INVESTIGATIVE INFORMATION

Personnel must include in their reports adequate investigative information and reference to all material evidence and facts that are reasonably believed to be either incriminating or exculpatory to any individual in the case. If a member of this Department learns of potentially incriminating or exculpatory information any time after submission of a case, the member must prepare and

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Disclosing Potential Brady Information to the Prosecution

submit a supplemental report documenting such information as soon as practicable. Supplemental reports shall be promptly processed and transmitted to the prosecutor's office.

If information is believed to be protected personnel information, the member shall discuss the matter with a supervisor to determine the appropriate manner in which to proceed.

If a member is unsure whether evidence or facts are material, the member shall address the issue with a supervisor without undue delay. Determining whether evidence or facts are material often requires legal or even judicial review.

Supervisors who are uncertain about whether evidence or facts may be material should address the issue in a written memo to an appropriate prosecutor. Employee personnel information shall not be included in the memo. A copy of the memo should be retained in the Department case file.

613.4 REVIEWING POTENTIAL BRADY ISSUES

(a) Sustained Finding: If, following a personnel investigation, an employee has a sustained finding of untruthfulness, bias, excessive force, or it has been determined the employee engaged in an act of moral turpitude, the Internal Affairs Lieutenant will send the information in a written memorandum to the Constitutional Policing Advisor. The Constitutional Policing Advisor will then convene the three member review panel, which will consist of a representative from Executive Command, the Constitutional Policing Advisor, and a representative from County Counsel.

The written memorandum shall include the name of the employee, the date the information was received, and the nature of the information. The memorandum shall include any relevant source documents that are available that bear on the decision.

(b) Not-Sustained Finding: If, following a personnel investigation, a charge of untruthfulness, bias, excessive force or an act of moral turpitude against the employee was "not sustained", meaning the investigation failed to discover sufficient evidence to clearly prove or disprove misconduct on the part of the employee, the Internal Affairs Captain will send the information in a written memorandum described in subsection (a) to the Constitutional Policing Advisor.

(c) The Internal Affairs Captain will notify the employee at the conclusion of a personnel investigation if there will be notification to the Constitutional Policing Advisor. The employee may elect to have their representative provide relevant case law or legal analysis to the Constitutional Policing Advisor within 20 calendar days.

(d) If a charge of untruthfulness, bias, excessive force, or an act of moral turpitude is pending against the employee and the employee resigns or retires before the personnel investigation is completed or the employee is still active and likely will be called as a witness in a criminal case before the personnel investigation can be completed, the Internal Affairs Captain will send the information in a written memorandum described in subsection (a) to the Constitutional Policing Advisor. If a charge of untruthfulness, bias, excessive force, or an act of moral turpitude pertains to an employee's involvement in a pending criminal case, the Internal Affairs Captain will instead send the information, as soon as the Captain becomes aware of the charge, to the Commander of the SAFE Division. The Commander of the SAFE Division shall notify the employee and

Orange County Sheriff-Coroner Department

Disclosing Potential Brady Information to the Prosecution

the Assistant District Attorney in charge of Special Prosecutions at the Orange County District Attorney's Office (hereinafter "Assistant District Attorney") or prosecuting attorney from an agency other than the Orange County District Attorney's Office as provided in section 613.5, subdivision (b).

(e) The three member review panel, defined in 613.4(a), will examine and discuss the information provided by the Internal Affairs Captain. The Constitutional Policing Advisor will provide the panel with case law or legal analysis timely provided by the employee's representative. The panel will determine if there is potential *Brady* information by evaluating facts that objective data supports, and will not consider rumor, speculation, or opinion. If the panel determines there is potential *Brady* information, the Commander of the SAFE Division will notify the employee and the Assistant District Attorney in a confidential letter, that there is potential *Brady* information in the employee's personnel records (personnel records are defined in Cal. Penal Code § 832.8). If the panel determines there is no potential *Brady* information, no further action will be taken.

613.5 NOTIFICATION OF POTENTIAL BRADY INFORMATION

(a) If the three member review panel determines there is potential Brady information relating to an employee of the Orange County Sheriff's-Coroner Department, the Commander of the SAFE Division will simultaneously send a written letter to the employee and a confidential letter to the Assistant District Attorney by certified mail. The letter to the Assistant District Attorney will identify the name of the employee, job position/title, and the date of the earliest such conduct that is potential Brady information. The conduct itself is not to be described in the letter.

(b) If a charge of untruthfulness, bias, excessive force, or act of moral turpitude pertains to an employee's involvement in a pending criminal case, the Commander of the SAFE Division shall simultaneously notify the employee, and the Assistant District Attorney or prosecuting attorney from an agency other than the Orange County District Attorney's Office, by certified mail. The letter will identify the name of the employee, job position/title, and the date of the earliest such conduct that is potential Brady information. The conduct itself is not to be described in the letter.

(c) Subpoenas received from prosecuting agencies other than the Orange County District Attorney's Office will be individually evaluated by the Internal Affairs Captain, or designee. If potential Brady information exists, the Commander of the SAFE Division will send a confidential letter by certified mail to the prosecuting attorney who initiated the subpoena. The letter to the prosecuting attorney will identify the name of the employee, job position/title, and the date of the earliest such conduct that is potential Brady information. The conduct itself is not to be described in the letter.

(d) Copies of the letters to the employee, the Assistant District Attorney, and the prosecuting attorney from an agency other than the Orange County District Attorney's Office (if any), will be placed in the personnel investigation file. The employee may choose to add information or any objections to their personnel investigation file after receiving notification from the Department.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Disclosing Potential Brady Information to the Prosecution

(e) If the employee later successfully challenges any departmental decision regarding the misconduct, the Department shall notify the Assistant District Attorney, and the prosecuting attorney from an agency other than the Orange County District Attorney's Office (if any).

613.6 DISCLOSURE OF PERSONNEL INFORMATION

Whenever it is determined that potential *Brady* information is located in the personnel records of a department member who is a material witness in a criminal case, the Assistant District Attorney and the prosecuting attorney from an agency other than the Orange County District Attorney's Office (if any) are to be notified as indicated above. Subsequently, the following procedure shall apply:

Potential *Brady* Information in Sworn members' Personnel Records:

- (a) A *Pitchess* motion is required in order to initiate an in camera review by the court.
- (b) Any member who is the subject of such a motion shall be notified in writing that a motion has been filed.
- (c) The Custodian of Records shall review the motion and determine which portions of the department member's personnel records are relevant to the motion before the Court, and may consult with County Counsel as needed.
- (d) The Custodian of Records shall accompany all relevant records during any in camera inspection and address any issues or questions raised by the court in determining whether any information contained in the records is both material and favorable to the criminal defendant.
- (e) If the court determines that there is relevant *Brady* information contained in the records, only that information ordered released will be copied and released to the party(s) that filed the motion.
 - 1. Prior to the release of any information pursuant to this process, the Custodian of Records shall request a protective order from the court limiting the use of such information to the involved case.

Potential *Brady* information in Professional Staff members' Personnel Records (*Pitchess* Motion Inapplicable):

- (a) A subpoena is required for the personnel information.
- (b) Once the subpoena is received from the prosecutor, County Counsel should be consulted to request that the court conduct an in camera review of the records to determine whether *Brady* material exists and, if so, to request that the court issue a protective order limiting the use of such information to the involved case.

613.7 CONFIDENTIALITY AND MAINTENANCE OF FILES

All department documents relating to an employee's potential *Brady* information shall be treated as confidential and protected as a confidential personnel record. The potential *Brady* information

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Disclosing Potential Brady Information to the Prosecution

is to be maintained until the employee has separated from employment and there is no longer a reasonable probability that the employee will be called as a witness in a criminal case.

613.8 DISTRICT ATTORNEY'S AUTHORITY UNDER PENAL CODE SECTION 832.7(A)

Nothing in this policy shall apply to or in any way limit the District Attorney's authority pursuant to the exception set forth in Penal Code section 832.7(a). The District Attorney has a right to review peace officer personnel records when the District Attorney is investigating the peace officer for criminal conduct.

613.9 NO PUNITIVE ACTION

No punitive action, or denial of promotion on grounds other than merit, shall not be undertaken by any public agency against any public safety officer solely because that officer's name has been placed on a *Brady* list, or that the officer's name may otherwise be subject to disclosure pursuant to *Brady v. Maryland*, 373 U.S. 83 (1963). See Cal. Government Code § 3305.5.

613.10 DISCLOSURE OF RECORDS PURSUANT TO PENAL CODE SECTION 832.7(B)(SB 1421)

Notwithstanding any other section of Policy 613, records subject to disclosure under Penal Code section 832.7(b) will be released, upon request, in accord with Policy 805.

Personal Communication Devices

702.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the use of Department-issued mobile phones and personal communication devices, and the on-duty use of such devices personally-owned by personnel.

Because of technical advances and varying manufacturer nomenclature, this policy shall generically refer to all Personal Communication Devices (PCD) as such, but is intended to include all mobile phones, Personal Digital Assistants (PDA), and other such wireless two-way communication and/or portable Internet access devices.

702.1.1 PRIVACY POLICY

Any Member utilizing any computer, internet service, phone service or other wireless service provided by or funded by the Department expressly acknowledges and agrees that the use of such service, whether for business or personal use, shall remove any expectation of privacy the Member, sender and recipient of any communication utilizing such service might otherwise have, including as to the content of any such communication. The Department also expressly reserves the right to access and audit any and all communications (including content) sent, received and/or stored using such service.

702.2 DEPARTMENTALLY ISSUED PCD

Depending on a Member's assignment and needs of the position, the Department may, at its discretion, issue a PCD. Such devices shall remain the sole property of the Department and shall be subject to inspection or monitoring (including all related records and content) at any time without notice and without reason.

702.2.1 INDIVIDUALLY OWNED PCD

Members may carry their own PCD while on duty subject to the following conditions:

1. Carrying an individually-owned personal communication device is optional.
2. The device shall be purchased, used and maintained at the Member's expense.

702.2.2 USE OF PERSONAL COMMUNICATION DEVICES

PCDs, whether provided by the Department or personally-owned, should only be used by on-duty Members for legitimate Department business except as provided for below. Members may use a PCD to communicate with other personnel in those situations where the use of the radio is either impractical or not feasible. PCDs however, should not be used to replace regular radio communications.

1. PCDs shall not be carried in a manner that allows them to be generally visible while in uniform.
2. PCD's may not be used to conduct personal business while on duty except when brief personal communications may be warranted by the circumstances (e.g., inform family

of extended hours). While Member's may use personally owned PCDs for personal business during authorized breaks, such usage should be limited as much as practical to areas where the communication will not be seen or heard by members of the public.

3. Extended or frequent use of Department-issued PCDs or personally owned PCDs while on duty for personal use is prohibited and may be subject to discipline. Members may be responsible for reimbursing the Department for any charges incurred as a result of personal use.

702.2.3 USE WHILE DRIVING

The use of a PCD while driving can cause unnecessary distractions and presents a negative image to the public. Deputies operating emergency vehicles should restrict the use of these devices while driving to matters of an urgent nature and should, where practical, stop the vehicle at an appropriate location to complete their call.

Except in the case of an emergency, Members who are operating non-emergency vehicles shall not use cellular phones or other personal communication devices while driving unless the telephone is specifically designed and configured to allow hands-free listening and talking (Vehicle Code 23123 (a)). Such use should be restricted to business related calls or calls of an urgent nature.

702.2.4 OFFICIAL USE

The use of personal communication devices may be appropriate in the following situations. This list is not all inclusive:

1. Barricaded suspects.
2. Hostage situations
3. Mobile Command Post.
4. Catastrophic disasters, such as plane crashes, earthquakes, floods, etc.
5. Major political/community events.
6. Investigative stakeouts where regular phone usage is not practical.
7. Emergency contact with outside agency or outside agency field unit equipped with PCDs.
8. When immediate communication is needed and the use of the radio is not appropriate and other means are not readily available.

Executive Order 13688 - Federally Controlled Equipment

703.1 POLICY

The Department shall provide training, oversight, and documentation for the use of federally controlled equipment.

703.2 PURPOSE

The purpose of this policy is to identify the strategies and oversight required for the appropriate use of federally controlled equipment. To ensure that federally controlled equipment acquired from the 1033 program (a Federal program that allows the acquisition of Military surplus equipment through Defense Logistics Agency/Law Enforcement Support Office (DLA/LESO) of the Department of Defense (DOD)) is used appropriately and complies with Executive Order 13688, the Department shall embrace a system that supports transparency, supervision, evaluation, and accountability.

703.3 DEFINITIONS OF FEDERALLY CONTROLLED EQUIPMENT

Federally controlled equipment is defined as any equipment received or requested from the Defense Logistics Agency/Law Enforcement Support Office (DLA/LESO) under the 1033 program or purchased with federal funds. This includes the following:

1. **Manned Aircraft (Fixed wing):** Powered aircraft with a crew aboard, such as airplanes that use a fixed wing for lift.
2. **Manned Aircraft (Rotary wing):** Powered aircraft with a crew aboard, such as helicopters that use a rotary wing for lift.
3. **Unmanned Aerial Vehicles:** A remotely piloted, powered aircraft without a crew aboard.
4. **Wheeled Armored Vehicles:** Any wheeled vehicle with purpose-built or modified to provide ballistic protection to its occupants, such as Mine Resistant Ambush Protected (MRAP) vehicle or an armored personnel carrier also referred to as armored rescue vehicles (ARV'S).
5. **Wheeled Tactical Vehicle:** A vehicle purposely built to operate on and off road in support of military operations, such as HMMWV (Humvee), 2.5 ton truck, 5 ton truck, or a vehicle with a breaching or entry apparatus attached.

9. **Riot Batons:** Non-expandable baton of greater length (generally in excess of 24 inches) than service issued types and are intended to protect its wielder during melees by providing distance from assailants. These batons offer a greater level of safety for deputies by extending the distance between them and a violent or non-compliant subject.
10. **Riot Helmets:** Helmets designed to protect the wearer's face and head from injury during demonstrations or civil order events from projectiles including rocks, bricks, liquids, etc. Riot helmets include a visor which protects the face.

5. Command and Control Vehicles - Serve as a centralized location for command decision making, enhanced communication and other situational awareness capabilities.

8. Riot Batons - Deployed during demonstrations or civil disorder events.
9. Riot Helmets - Worn by deputies during demonstrations or civil disorder events where the threat or presence of dangerous projectiles is likely.
10. Riot Shields - Utilized in conjunction with riot helmets to protect deputies from projectiles and other hazards while trying to contain, move or disperse people during

demonstrations or civil disorder events where the threat or presence of dangerous projectiles is likely.

703.5 AUDITING AND ACCOUNTABILITY

The Department shall maintain these training records in accordance with the requirements of the agency or program which provided the equipment.

703.7 AUTHORIZATION OF DEPLOYMENT AND USE

Absent exigent circumstances, federally controlled equipment should only be utilized for previously approved purposes and with the appropriate level of supervision. It shall be the policy of this Department that any deployment or use of federally controlled equipment shall be authorized by a supervisor/incident commander. Authorization for use of the equipment in another jurisdiction must be approved in advance by the Sheriff or the Sheriff's designee.

703.8 AFTER ACTION REVIEW

The Department shall review and document all significant incidents that involve the use of federally controlled equipment. Significant incidents are defined as an incident where there is:

1. A violent encounter among civilians, or between civilians and police.
2. A use of force which results in death or serious bodily injury.

2. Description of the law enforcement operation involving the federally controlled equipment.
3. Identification of Members who used the equipment and, if possible, civilians involved in the incident.

706.11 CONTRACT AGREEMENTS

Contract agreements that require specific Department positions to home garage vehicles due to "emergency response" and/or "operational necessity" shall continue to meet those contract requirements. Home Garaging a vehicle funded by an outside agency (contract partner) shall be approved, in writing, by an authorized member of that agency. This written authorization shall be submitted in writing to the Department Vehicle Coordinator, Director, Research and Development Division.

2. Axon Capture – An application built for smartphones that allows Members to capture digital evidence from a Department-issued mobile device. Evidence is automatically assigned with GPS locations, and metadata is synced to the D.E.M.S. This is not a substitute for assigning identification numbers and categories as noted above.
- A. If digital evidence exists, Members shall attempt to collect the digital evidence using the Axon Capture application. If a Member is unable to collect the digital evidence, the reason(s) for a Member's inability to collect the digital evidence must be documented in the narrative of the report. If a mailing address is available, Property and Evidence Bureau personnel will mail a notice to the owner, notifying the owner that he/she must claim the property or it will be scheduled for disposal. Property not held for any other purpose and not claimed within 90 days after notification, may be auctioned to the highest bidder at a properly published public auction. Found property with no known owner and valued at \$250.00 or more shall be posted in the newspaper for two weeks prior to being sent to a properly published auction. If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed (Civil Code § 2080.6). If the Department was unable to make notification to the owner of the property, or if the owner provides written notification that they are in custody and unable to pick up the property, or have an authorized person retrieve the property, the property will be retained no longer than 12 months. It will then be scheduled for disposal.

A property officer shall release the property upon proper identification being presented by the owner for which an authorized release has been received. A signature of the person receiving the property shall be recorded on the public release document. After release of each item, the corresponding documents will be scanned into the Records Management System and retained pursuant to the Department's records retention and disposition schedule.

The Department is not required to retain any firearm, or other deadly weapon, longer than 180 days after notice has been provided to the owner that such firearm or other deadly weapon is available for return. At the expiration of such period, the firearm or other deadly weapon may be processed for disposal in accordance with applicable law (Penal Code § 33875). Although, this is the correct way to maintain & process firearms, our department holds firearms for the OC Bullet Program (See OC Crime Lab PPM requirements for firearms).

If the person fails to respond to the request for a hearing, the Department may request entry of a default order authorizing the destruction of the firearm in 180 days from the date of the default order unless the person contacts the Department to facilitate a transfer or sale of the firearm as allowed under Penal Code section 33870.
 - B. If, after the hearing, the court determines the firearm should not be returned to the person, the Department may destroy the firearm within 180 days of the date of the order unless the person contacts the Department to facilitate transfer or sale of the firearm as allowed under Penal Code section 33870.
2. If no petition is initiated pursuant to Welfare and Institutions Code § 8102(c) and there is no other legitimate basis for the Department to retain the weapon, the Department shall make the weapon available for return subject to the requirements of Penal Code sections 33850, et seq.

802.5.8 RELEASE OF FIREARMS IN GUN VIOLENCE RESTRAINING ORDER MATTERS

Firearms and ammunition that were taken into temporary custody, or surrendered pursuant to a gun violence restraining order, shall be returned to the restrained person upon the expiration of the order and in accordance with the requirements of Penal Code § 33850 (Penal Code § 18120). NARCOTICS ANALYZER POLICY

803.1 PURPOSE AND SCOPE

The purpose of this policy is to set guidelines and requirements pertaining to the use of the TruNarc Handheld Analyzer, which is designed for trained Members to conduct a scan of narcotics to obtain clear and definitive results for identification.

803.2 POLICY

It is the policy of the Orange County Sheriff's Department to use the TruNarc Handheld Analyzer, hereafter referred to as the TruNarc Analyzer, to provide documentary evidence of chemical identifications. This handheld narcotics identification system analyzes most substances through sealed packaging and provides clear, definitive results. Members who have received department approved training on the use of the TruNarc Analyzer, shall be authorized to utilize this device to identify substances believed to be illicit drugs.

803.3 DEFINITIONS

Spectrum- A graphical representation of the wavelengths of light that a substance emits when it is stimulated by light energy.

Cutting Agents- A chemical or substance used to "cut" (dilute) an illicit drug with something less expensive than the drug itself.

Precursors- A substance produced primarily for use, or likely to be used, in the manufacturing of a controlled substance or narcotics.

803.4 PROCEDURES

Unauthorized use of the TruNarc Analyzer is prohibited.

- (a) Members shall attend and successfully complete training approved by the department on the use of the TruNarc Analyzer prior to utilizing the device.
- (b) Members shall not dismantle, tamper, or remove the TruNarc Analyzer from the designated assigned station without prior approval of the on-duty shift supervisor.
- (c) The TruNarc H-Kits (Ethanol Vials) shall not be utilized.

 - (b) Do not operate the TruNarc Analyzer if the laser aperture is cracked. When the laser aperture is cracked, the instrument's laser beam is collimated rather than divergent, and the laser is no longer safe to operate under any circumstances. If the laser aperture is cracked, take the instrument out of service and contact an immediate supervisor.
 - (c) Do not point the instrument at the eyes of other people.
 - (d) Do not look at the laser aperture when the laser is on. Keep your eyes outside the laser's Hazard Zone, approximately 14 inches measured from the laser's aperture.

CopLogic On-line Reporting

807.1 PURPOSE

To establish guidelines and procedures to determine when and how the On-line Reporting System shall be used.

It is the policy of the Orange County Sheriff's Department to use CopLogic to provide On-line Reporting Services to the community.

807.2 PROCEDURE

CopLogic shall be utilized for "cold calls", those where there are no known suspects, no known forensic evidence, and would not normally lead to an active investigation. The following crimes and reports may be referred to the On-line Reporting System:

1. All petty/grand thefts without suspect information, excluding firearms and materials threatening to public safety, i.e., explosives or highly toxic substances. No specific dollar loss limit is specified. The Reviewer shall determine if the dollar loss justifies a report in person (counter or dispatch).
2. Auto burglaries without suspect information.
3. Garage burglaries without forced entry or suspect information.
4. Vandalism without suspect information, which is not a Hate Crime.
5. Annoying telephone calls without suspect information.
6. Lost property reports.
7. Hit and run accidents without a valid suspect license plate or current location of suspect or suspect vehicle.
8. Identity Theft without a local suspect.
9. If field personnel are dispatched to a location, and the information indicates that this could be handled by an On-line Report, they shall take the report for that incident and inform the reporting party that this type of call can be reported on-line in the future.
10. Supplementals shall be allowed for both on-line reports and Deputy-submitted reports.
11. Assist Outside Agency (AOA) or courtesy reports for lost or stolen property only.

807.2.1 COMMUNICATIONS PERSONNEL RESPONSIBILITIES

1. When Communications personnel receives a call from a citizen wishing to report an incident, the Communications Dispatcher shall determine if the call falls within the scope of on-line reporting. If so, Communications personnel shall:
 - (a) Determine if the citizen has Internet access.
 - (b) Inform the caller that on-line reporting is available as an option which allows them to file the report immediately, as well as print a copy of the report for free.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

CopLogic On-line Reporting

- (c) Advise the caller of the link on the Sheriff's Internet page where they can access the On-line Reporting System.
2. If the call screener determines the report is not suitable for on-line reporting based on the listed criteria or if the citizen refuses or is unable to submit an on-line report, they shall enter the call into the CAD system for normal dispatching.

807.2.2 AUTHORIZED REVIEWER

Sworn, or non-sworn staff, as determined by the Records & Property Division Director, will be authorized to approve reports. Once approved or rejected, an electronic version shall be sent electronically to the Imaging Server for permanent retention and storage. Only an approved copy shall be emailed to the appropriate Investigations group for handling.

807.2.3 REVIEWERS RESPONSIBILITIES

1. The Reviewer shall review, return, reject, and approve reports in a timely manner, but always within five business days, using the On-line Reporting System. Instructions for reviewing reports shall be provided to the Reviewers by Systems. If the citizen report is misclassified, such as vandalism, instead of an auto burglary, the Reviewer shall classify the report according to the elements of the offense described by the citizen author and pursuant to current policies and procedures, including but not limited to Training Bulletins, Department's Operations and Procedures Manual, and the National Incident Based Reporting System (NIBRS) guidelines.
2. The Reviewer shall refrain from making grammatical corrections to citizens' reports, unless they are minor in nature, such as, "California" spelled as "Calefournia," etc. The Reviewer may add more notes to the Narrative for clarification, but not delete any entry by the Submitter. If the Reviewer determines the Incident Type was misclassified, it may be modified to fit the most appropriate section.
3. If there is a question as to the report's content, the Reviewer should attempt to contact the reporting citizen by telephone or email prior to rejecting the report and make the correction to the on-line Report.
4. If the citizen is reporting an incident that is minor in nature and occurred in another jurisdiction and the citizen is a resident of the OCSD jurisdiction, the report may be re-classified as an outside assist and approved. The Reviewer is responsible for sending a hard copy of the report to the assisted agency.
5. If a Reviewer rejects a report, the reason for rejection shall be appropriately and professionally noted in the rejection email which is sent to the citizen and a duplicate to a Department storage mailbox. The Training Manual shall specify reasons for rejecting an on-line report.
6. When, in the reasonable judgment of the Reviewer, circumstances indicate that an investigation is warranted, the Reviewer shall notify the Submitter to call in the incident for dispatching of a deputy to the location. In this circumstance, a rejection should be sent to the citizen and the Reviewer shall ill state in the rejection box that a response was recommended.
7. The on-line form shall indicate which fields are mandatory.

Discovery Requests

814.1 INTRODUCTION

Legal discovery is the investigative phase of the pre-trial process that allows opposing parties to obtain information to help them build their claims or defenses. Discovery often involves an order for “document production,” broadly defined as a request for records in paper or electronic formats.

The United States Supreme Court has long held that evidence, which can possibly assist in the defense of an individual accused of a crime, must be disclosed to the attorney representing that individual. Failure to provide that information can result in the overturning of a conviction and for extreme violations of the rule, prosecution of violators of that rule.

The duty to make disclosure rests primarily with the prosecuting attorneys, but the Supreme Court has also held that information known to law enforcement agencies but never disclosed by those agencies to the district attorney, must nevertheless be imputed to the prosecution. *Brady v. Maryland* (1963), *Giglio v. United States* (1972), and Penal Code section 1054.5(b).

814.2 DUTIES OF PERSONNEL RESPONSIBLE FOR PROVIDING DISCOVERY

Orange County Sheriff’s Department (OCSD) personnel charged with responding to discovery requests from the District Attorney’s (DA) Office shall document and disclose all records that are requested, including potentially exculpatory information and witness credibility information, to the DA’s office within 15 days. The only exceptions to this disclosure are personnel records. A *Pitchess* motion is required for sworn Member’s personnel records unless the personnel records are subject to disclosure under Penal Code section 832.7(b) (see Policy 805). A subpoena is required for professional staff Member’s personnel records. County Counsel shall be consulted prior to the release of any personnel records pursuant to a *Pitchess* motion or subpoena.

It is the role and responsibility of prosecutors and not OCSD personnel to reach conclusions regarding what shall be disclosed to a criminal defendant in the discovery process. However, OCSD personnel shall not, by either action or inaction, withhold material related to a case from a prosecutor responsible for that case.

814.3 USE OF DISCOVERY TRACKER APPLICATION

All discovery requests received from the DA’s office, in any format, must be processed using the Discovery Tracker application, located on OCSD’s Intranet, under *Services*. There are no exceptions.

Chapter 9 - Custody

ALTERNATIVE TO CONFINEMENT

900.1 ALTERNATIVE TO CONFINEMENT

The Alternative to Confinement policy seeks to maximize custody bed space through alternative custody programs for eligible inmates. These programs consist of the Community Work Program, the Conservation Camp, and the Electronic Monitoring Program.

These programs are authorized under California Penal Code (CPC) sections 1203.017, 1203.018, 2057, 4024.2, 4024.3, and Orange County Board of Supervisors' Resolutions 82-553, 12-137, and 14-064.

900.2 COMMUNITY WORK PROGRAM

Per California Penal Code section 4024.3 and Board Resolution No. 14-064, the Sheriff is authorized to have a mandatory Community Work Program (CWP) for qualified inmates when the average daily inmate population is 90 percent of the jail system's rated capacity. The average daily jail population is the average total number of inmates computed on an annual basis.

If the average daily inmate population is below 90 percent of the jail system's rated capacity, California Penal Code section 4024.2 and Board Resolution No. 82-553 authorize the Sheriff to have a voluntary Community Work Program for qualified inmates.

Board Resolution 14-064 authorized an administrative fee of \$90 to be charged to participating inmates. The authority to collect these fees as provided in CPC 4024.2(e) and CPC 4024.3(f) has been repealed as of July 1, 2021. Administrative fees are no longer collectable.

Inmates who participate in CWP will serve their sentences by performing manual labor, in lieu of confinement, on the public works or ways. Any inmate who is not able to perform manual labor because of a medical condition, physical disability, or age, may participate in a work release program involving any other type of public sector work that is designated and approved by the Sheriff or the Sheriff's designee.

Any violation of law or work program rules may be handled in the following manner:

- (a) Minor Violation (informal reprimand punishable by counseling or denial of privileges).
- (b) Major Violation (written jail incident report including a disciplinary hearing, punishable by loss of privileges, loss of good time, removal from CWP, and/or placement in Special Management Unit).
- (c) Discharge from worksite by worksite supervisor with no work credit received for the day.
- (d) Removal from Community Work Program and return to custody. Removal from CWP will be documented in the CWP Portal.
- (e) Citation.
- (f) Crime Report.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

ALTERNATIVE TO CONFINEMENT

Inmates may use the jail grievance process to grieve a condition in, or their removal from, the work program. Inmates assigned to CWP will be provided an inmate grievance form as soon as possible when requested.

900.2.1 REQUIREMENTS FOR PARTICIPATION

Inmates in all facilities will be screened for program qualification. Inmates to be screened fall into two categories:

- (a) Weekenders
- (b) Straight time inmates: Includes all inmates with commitments of more than five (5) days and no more than three hundred and sixty-five (365) days, to their release date.

The court may restrict or deny a person's eligibility for the program, but the courts cannot require the Sheriff to assign a person to the program if the Sheriff or the Sheriff's assigned CWP staff has concluded that the person is unfit for release to the program.

Inmates assigned to CWP will perform eight (8) to ten (10) hours of labor in lieu of one day of confinement. Inmates who participate in CWP are eligible for good time/work time credit under CPC 4019.

With supervisor approval, inmates residing out-of-county may be assigned to CWP. This exception will be based on the inmate's ability to report to the worksite.

Various forms of information are used while screening inmates for CWP. This information may include but is not limited to the following:

1. Current/Prior charges:

- i. Any inmate currently arrested for, or previously convicted of, a serious or violent felony as defined in CPC 1192.7(c) and CPC 667.5(c) will be disqualified.
- ii. Any inmate currently required to register as a sex offender pursuant to CPC 290 will be disqualified.
- iii. Any inmate currently charged for sex-related offenses not specified under CPC 290 will be disqualified.
- iv. Any inmate currently arrested for, or previously convicted of, CPC 136.1 where punishment is imposed pursuant to subdivision (c) of section 136.1, Section 262, 273.5, or 422 where the offense is punished as a felony, or Section 646.9, will be disqualified.
- v. Any inmate currently arrested for CPC 243(e)(1), or CPC 273.6 will be disqualified.
- vi. Any inmate currently arrested for, or previously convicted of, any of the following violations will be disqualified – CPC 653f, 245(a)(4), 210.5, 273.5, 140, 148.10, 422.7, 368(b), 289(b), (d) or (e), 286(f), (g) or (i), 288a(f), (g) or (i), 267, 236.1(a), (b) or (c), 273(a), 18740.

2. Interview of inmate (one on one in-person interview)

3. Criminal history/sophistication

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

ALTERNATIVE TO CONFINEMENT

- i. Any inmate who, based on their classification interview, was classified as a GP-4 or higher will be disqualified.
 - ii. Any inmate who, despite having met the criteria specified in subsection (1), is determined by CWP staff to have a criminal history which precludes his/her participation in the program may be disqualified.
 - (a) Additional factors which may lead to disqualification include but are not limited to past arrests for serious/violent felonies, documented history of gang membership, participation in jail/prison politics or past failure to complete work programs. Any disqualification based on these additional factors must be approved by the CWP Sergeant.
4. Personal references (two CA residence references not living in the same household).
 5. Overall background (criminal records, institutional behavior).
 6. Means of transportation (likelihood of reporting to a worksite and on time based on license status).

The same disqualifying factors are used for Weekender inmates as are set for straight time inmates; however, only current booking charges are taken into consideration.

Medical clearance is a requirement prior to being released to either the CWP or Weekender programs.

900.2.2 INJURIES

A medical aid report is required for all inmate injuries, minor, significant or serious.

900.2.3 REMOVAL FROM CWP

Examples of reasons for removal from the Community Work Program include but are not limited to:

- (a) Repeated no-shows
- (b) Poor work performance
- (c) Violation of rules
- (d) Creating a disturbance at the worksite
- (e) Warrant
- (f) Significant physical injury
- (g) Inability to report to work
- (h) Voluntary removal

Unless the court has issued an arrest warrant for retaking the person into custody, all non-voluntary returns to custody must be accompanied by an "Order to Retake Community Work Program Participant into Custody" signed by the Sheriff, the Sheriff's designee, or the Special Services Bureau Captain as required by CPC 4024.2(c)(2) and CPC 4024.3(c)(3).

900.3 CONSERVATION CAMP

Pursuant to CPC 2057, the County of Orange and the California Department of Corrections and Rehabilitation (CDCR) have entered into an agreement authorizing the Sheriff-Coroner to permit County inmates to voluntarily participate in the CDCR Fire Camp Program.

Qualified inmates will serve their sentences by participating in the Conservation Camp Program (CCP) at designated California Department of Corrections and Rehabilitation (CDCR) Fire Camps.

Only previously screened and approved inmates may participate in the Conservation Camp Program. The CDCR shall confine and supervise adult male and female inmates who are transferred to the Conservation Camp Program pursuant to the terms and conditions of the contract between Orange County and the CDCR.

The inmates assigned to a CDCR Fire Camp will be confined and supervised in accordance with CDCR policies. The CDCR shall provide security and supervision of Orange County inmates consistent with CDCR policies.

Orange County inmates shall be subjected to an initial intake and annual program review to be conducted by the respective Camp Administrative Office to confirm initial and continued Fire Camp placement are appropriate.

All inmates assigned to the Conservation Camp Program shall participate in the Fire Camp programs, firefighter training, in-camp work assignments, and work at the Fire Camp, unless otherwise medically or administratively precluded. Inmates who refuse to participate in the Fire Camp Work/Training Program shall be returned to the Intake Release Center (IRC).

900.3.1 REQUIREMENTS FOR PARTICIPATION

After sentencing, inmates will be screened for participation in the Conservation Camp Program.

Male and female inmates must have at least six (6) months, but no more than five (5) years to serve on their sentence (projected at a two-for-one credit earning). Any sentencing outside of these parameters must be approved by the CDCR.

The court may restrict or deny a person's eligibility for the program, but the courts cannot require the Sheriff to assign a person to the program if the Sheriff, the CDCR, or the Conservation Camp Deputy has determined that the person is unfit to participate in the program.

900.3.2 CDCR EXCLUSIONARY CRITERIA

The Conservation Camp Deputy shall use various forms of information while screening inmates for the Conservation Camp Program. Disqualifying factors shall include the following:

- (a) Length of sentence:
 - 1. Less than six (6) months, excluded from program
 - 2. More than five (5) years, excluded from program
- (b) Charges:
 - (a) Any charges under CPC 667.5 (violent felony)

Orange County Sheriff-Coroner Department

900.3.3 MEDICAL/MENTAL HEALTH/DENTAL SCREENING

If the Conservation Camp Deputy determines that the inmate is eligible after the inmate's criminal history screening and interview, Correctional Health Services (CHS) staff shall conduct a physical examination of the inmate to recommend or deny participation in the Conservation Camp Program. CHS staff will use CDCR eligibility criteria; however, even if the inmate meets CDCR eligibility, CHS may deny an inmate's participation in the Conservation Camp Program based on the inmate's medical and/or mental health condition and/or history.

900.3.4 CONSERVATION CAMP REMOVAL OR RETURN OF INMATES

Inmates may be returned to the Orange County Jail for several reasons. Some examples of reasons for removing inmates from the Conservation Camp Program include but are not limited to:

- (a) Sentence ending
- (b) Poor work performance
- (c) Violation of conservation camp rules
- (d) Additional disqualifying charges
- (e) Conservation camp supervisor recommendation
- (f) Significant physical injury
- (g) Voluntary removal
- (h) Local/state/federal court appearances

The Orange County Sheriff's Department is responsible for transportation and costs thereof for local, state and federal court appearances. If sufficient advanced notice is provided, the CDCR will transport the inmate(s) to the designated Fire Camp to be picked up by Sheriff's Transportation.

900.4 ELECTRONIC MONITORING PROGRAM

Board of Supervisors' Resolution 12-137 authorizes home detention Electronic Monitoring Programs in accordance with Penal Code Sections 1203.017 and 1203.018 and the adopted rules and regulations governing the programs.

CPC Sections 1203.017 and 1203.018 authorize the Sheriff as the Correctional Administrator to establish an electronic monitoring program for both sentenced and unsentenced inmates under certain conditions. Under CPC 1203.017, sentenced misdemeanor inmates may be required to participate in an involuntary home detention program that includes electronic monitoring, due to lack of adequate jail space. Under CPC 1203.018, unsentenced misdemeanor inmates may voluntarily participate in a home detention program that includes electronic monitoring. Inmates must meet specific criteria before consideration. Although CPC 1203.018 includes unsentenced

Orange County Sheriff-Coroner Department

ALTERNATIVE TO CONFINEMENT

felony inmates, Board Resolution 12-137 limits the participants to unsentenced misdemeanor inmates.

The Sheriff or Sheriff's designee shall have the sole discretionary authority, consistent with the statutes and the rules and regulations of the electronic monitoring program, to review and determine eligibility to permit program participation as an alternative to physical custody.

Failure of program participants to comply with the established rules and regulations of the Electronic Monitoring Program may result in the program participant being retaken into custody. Willful failure of the program participant to return to the place of home detention prior to the expiration of any period during which he or she is authorized to be away from the place of home detention and unauthorized departures from the place of home detention are punishable as provided in CPC 4532.

The Sheriff may permit Electronic Monitoring Program participants to seek and retain employment in the community, attend psychological counseling sessions or educational or vocational training classes, or seek medical and dental assistance.

Any violation of law or rules and regulations of the program may be handled in the following manner:

- (a) Report of violation of rules and regulations of the program
- (b) Crime report

Violations of the rules and regulations of the program will be documented in the jail reporting system. Sanctions may be imposed for violations of the rules and regulations of the program, including retaking the participant into custody. The program participant may utilize the jail grievance process to appeal any disciplinary action against them.

900.4.1 ELECTRONIC MONITORING IN EMERGENCIES

In responding to any existing or imminent emergency endangering the lives of inmates in any county jail, under Government Code 8658, the Sheriff may remove the inmates from the institution. The Sheriff shall, if possible, remove them to a safe and convenient place and there confine them if it may be necessary to avoid the danger. If that is not possible, the Sheriff may release them. See Policy 901.

900.4.2 PROGRAM FEES

Board Resolution 12-137 authorizes an administrative fee to be charged to participating inmates. The authority to collect these fees as provided in CPC 1203.017 and CPC 1203.018 has been repealed as of July 1, 2021. Administrative fees are no longer collectable.

900.4.3 ELIGIBILITY CRITERIA

All participants placed on the Electronic Monitoring Program must successfully pass all areas of the screening criteria. Exceptions to this policy will be made only with authorization from the Sheriff or Sheriff's designee.

EARLY RELEASE FROM CUSTODY IN AN EMERGENCY

901.1 EARLY RELEASE FROM CUSTODY IN AN EMERGENCY

Government Code Section 8658 gives the Sheriff the authority to conduct early releases from custody in any case in which an emergency endangering the lives of inmates has occurred or is imminent. The Sheriff shall, if possible, remove the inmates to a safe and convenient place and there confine them as long as may be necessary to avoid the danger, or, if that is not possible, may release them. There is no civil or criminal liability for acts performed pursuant to this law.

901.2 CRITERIA FOR EARLY RELEASE

The below listed crimes are used as a guideline when considering early releases from custody under Government Code Section 8658. These guidelines, approved by the Honorable Judge Kirk H. Nakamura as reasonable and non-binding on the Sheriff, were instituted on March 27, 2020 in response to the COVID-19 emergency.

Any deviations from these guidelines will require approval from the Sheriff.

An inmate does not qualify for early release if the inmate has a current arrest or previous conviction for the following crimes:

Crimes under the California Penal Code (CPC)

- (c) A violation of CPC 243(e)(1).
- (d) A violation of CPC 273.6 if the detained person made threats to kill or harm, has engaged in violence against, or has gone to the residence or workplace of, the protected party.

When possible, these conditions will be issued in written memorandum. If that is not possible due to extenuating circumstances, the directive issued by the Sheriff verbally will be documented by the Assistant Sheriff of Custody Operations.

INMATE SAFETY CHECKS

902.1 DEFINITION AND PURPOSE

1. An inmate safety check is a direct visual observation (i.e., direct personal view of the inmate/area without the aid of audio/video equipment), performed at random and varied intervals of each inmate located in an area of responsibility. The purpose of conducting inmate safety checks is to ensure there are no inmates displaying any obvious signs of distress requiring assistance, maintaining the safety and welfare of each inmate and ensuring the security of our facilities.
 - (a) During inmate safety checks, deputies will check for obvious signs of life, which can include but are not limited to the following:
 1. Talking/eating
 2. Head movement (i.e., lifting their head from their mattress)
 3. Movement of the inmate's extremities
2. For an inmate who is sleeping or appears to be sleeping, deputies will check for obvious signs of trauma or distress as well as obvious signs of life.

902.2 DOCUMENTATION OF INMATE SAFETY CHECKS

Every inmate safety check will be documented in the most appropriate documentation log, (e.g., guard station log, module log, area log, or door log).

All guard stations responsible for securing inmates in a cell or dormitory will maintain a Safety Check Log. The Safety Check Log will be generated by guard station staff and begin at 0000 hours.

The documentation entry will include the name(s) of the personnel who conducted the inmate safety check and the actual starting times of each inmate safety check. The entry will also include appropriate details of the check and the conditions observed.

Some examples could be, but are not limited to:

1. No problems to report.
2. No unusual activity noted.
3. No suspicious activity observed.
4. Roof leaking in W-18. Sgt. X and Facility Manager notified.
5. Light is not functioning in courtroom 13 holding cell. Facility Manager notified.
6. Inmate X was found crying on bench. Stated, "Family trouble". No injuries observed, inmate transported back to jail facility. Court Operations Log entry made, Sgt. X notified court clerk, Presiding Judge, and CHS staff.

Each sergeant will check the logs in his/her area of responsibility to verify staff is properly documenting the inmate safety checks. A notation will be made in the log with the sergeant's name and the time the log was checked.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

INMATE SAFETY CHECKS

902.3 LATE INMATE SAFETY CHECKS

1. If it appears an inmate safety check cannot be conducted within the required time frame, the area sergeant will be notified as soon as possible, preferably prior to the time the check will be due. The sergeant will locate and assign available staff to complete the inmate safety check.
2. If an inmate safety check is not completed within the required time frame, staff must:
 - (a) Complete the inmate safety check as soon as possible.
 - (b) Notify the area sergeant as soon as possible.
 - (c) If staff is still not available to conduct the inmate safety check, advise the sergeant of the apparent conditions, including any unusual circumstances or activity, and continue to observe the area.
 - (d) Make an entry in the Safety Check Log describing the circumstances which caused the inmate safety check to be delayed, which sergeant was notified, and the information provided to the sergeant.
3. The sergeant will document the late inmate safety check in the log, including the reason the inmate safety check was late and any corrective action taken.

902.4 CONDUCTING INMATE SAFETY CHECKS

1. Deputies will conduct all inmate safety checks.
2. Deputies will conduct timely, thorough inmate safety checks. Due to the variety of housing designs within our facilities (modules, tanks, barracks, dorms, tents, holding cells, and areas such as dayrooms, showers, recreation and program related classrooms, etc.), methods of conducting inmate safety checks may vary. Inmate safety checks must be conducted in any area inmates are present, and from a location which provides a clear, direct view of each inmate. Deputies shall be close enough to each inmate to ascertain their presence and apparent physical condition. Deputies shall investigate any unusual circumstances or situations.
3. Inmate safety checks may not be conducted from a guard station. For linear style housing units, inmate safety checks must be conducted from the beach and the upper tier within the housing unit. In addition to the beach and upper tier, other locations for the inmate safety check may need to be utilized (e.g.: the guard corridor and rear-guard corridors) in order to ascertain the presence and apparent physical condition of every inmate.
4. Audio/visual electronic surveillance systems shall not be used to conduct inmate safety checks, but may be used to supplement and verify checks.
5. Diligent enforcement of the jail rules will help prevent inmates from covering lights or placing items which obstruct deputies' view. This will increase deputies' ability to do comprehensive visual inmate safety checks.
6. Inmate safety checks shall occur at random and varied intervals (CCR Title 15, Section 1027.5(d)-Safety Checks)
7. In the event an inmate safety check is needed, but immediate resources are not available, the staff members (Deputy, SSO, CSA) of the affected area will attempt

Orange County Sheriff-Coroner Department

Code of Professional Conduct and Responsibility for Peace Officers

1001.1 PREAMBLE

WHEREAS, peace officers are vested with a public trust which requires that they consistently demonstrate the highest degree of integrity and good moral character; and

WHEREAS, the need to maintain high standards of moral character, integrity, knowledge, and trust requires the establishment of a Code of Professional Conduct and Responsibility for Peace Officers as a matter of the highest significance to the health, welfare, and safety of the citizens of this state; and

WHEREAS, the establishment of a Code of Professional Conduct and Responsibility for Peace Officers, which includes Canons of Ethics and minimum standards, requires the granting of authority to enforce these standards of professional conduct through disciplinary action as necessary for the protection of the health, welfare, and safety of the public; therefore,

BE IT RESOLVED that the need to maintain high standards of moral character, integrity, knowledge, and trust require that peace officers establish and conform to a Code of Professional Conduct and Responsibility for Peace Officers.

1001.1.1 GENERAL STATEMENT

Peace Officers are granted a public trust, which requires that they consistently demonstrate the highest degree of integrity. To be worthy of this public trust, and to ensure that their professional conduct is above reproach, members of the peace officer profession must not only conform to a Code of Ethics but must also abide by these Canons of Ethics and Ethical Standards which constitute this Code of Professional Conduct and Responsibility as a means of internal regulation.

The essence of a profession requires that in addition to prescribing a desired level of performance, it must establish minimum standards of ethical conduct with prescribed rules for internal discipline to ensure compliance. Accordingly, this Code of Professional Conduct and Responsibility is established for the peace officer profession.

Nothing in the Code of Professional Conduct and Responsibility for Peace Officers is intended to limit or supersede any provision of law relating to the duties and obligations of peace officers or the consequences of a violation thereof. Whereas these rules specify certain conduct as unprofessional, this is not to be interpreted as approval of conduct not specifically mentioned.

Nothing in this Code is intended to limit the authority of an agency to adopt and enforce rules and regulations that are more stringent or comprehensive than those that are contained in this Code of Professional Conduct and Responsibility for Peace Officers.

Code of Professional Conduct and Responsibility for Peace Officers

1001.1.2 DEFINITIONS

This Code of Professional Conduct and Responsibility for Peace Officers is comprised of nine Canons of Ethics, with explanatory statements in the form of Ethical Standards. The following are definitions of these terms, as used in the context of the Code.

- "PEACE OFFICER" means a regular employed and full time sheriff, undersheriff, assistant sheriff or deputy sheriff of a county; a chief of police or any police officer of a city or any other person within the state who is defined as a peace officer.
- "CANONS" are statements, which express in general terms standards of professional conduct expected of peace officers in their relationship with the public, the criminal justice system, and the peace officer profession. They embody the general concepts from which the Ethical Standards and the Disciplinary Rules are derived.
- "ETHICAL STANDARDS" are statements that represent the objectives toward which every peace officer shall strive. They constitute principles that can be relied upon by the peace officer for guidance in specific situations.
- "DISCIPLINARY RULES" specify an unacceptable level of conduct for all peace officers, regardless of their rank or the nature of their assignment. Any peace officer that violates any agency rule that applies to these canons and standards is guilty of unprofessional conduct, and is subject to disciplinary action. Violation of disciplinary rules requires appropriate adjudication and disciplinary action ranging from oral reprimand to termination and/or criminal prosecution or other administrative action sanctioned by law, as dictated by the individual case.
- "ENFORCEMENT PROCEDURES" are the fundamental rights of an accused officer which are applicable to a disciplinary investigation or proceeding against the officer.
- "ADMINISTRATIVE INVESTIGATION" is an investigation conducted to determine whether an officer has violated any provision of this Code, or an agency rule or regulation; or whether an officer is impaired or unfit to perform the duties and responsibilities of a peace officer.
- "FORMAL DISCIPLINE" refers to the final adjudication of administrative or disciplinary charges. Formal discipline shall be deemed final only after an officer has exhausted or waived all legal remedies available and actual discipline has been invoked.

1004.7 PROMOTIONAL PROBATION REQUIREMENTS

1. All Members receiving promotions are placed on probation for a period of twelve (12) months. In order to pass probation, the individual must demonstrate proficiency in their new assignment and some classifications must meet additional requirements.
 - (a) Sergeant: Promotion to the rank of Sergeant requires the Member to successfully complete the certified Supervisory Course within the time frames established by POST.
 - (b) Lieutenant: Promotions require the successful completion of the certified POST Management Course within the time frames established by POST.

1004.8 PROMOTION WITH PENDING INVESTIGATION FOR MISCONDUCT OR POLICY VIOLATION(S)

Department Members on existing promotion eligibility lists who are the subject of a pending investigation for alleged misconduct or policy violation(s) may be denied promotion while the investigation is pending. Being subject to an investigation shall not, however, automatically prevent a Member from being considered for promotion.

1004.8.1 NON-ADMINISTRATIVE LEAVE

The management's prerogative to promote shall rest with the Sheriff or the Sheriff's designee whose decision to promote shall be based, among other factors, on the totality of the circumstances known about the alleged misconduct or policy violation being investigated and the range of potential disciplinary measures to which the Member could be subjected if the investigation reveals that misconduct or policy violations occurred.

1004.8.2 ADMINISTRATIVE LEAVE

Members on administrative leave due to pending investigation(s) shall not be considered for promotion while the Member is on such leave.

Grievance Procedure

1006.1 PURPOSE AND SCOPE

It is the policy of this Department that all grievances be handled quickly and fairly without discrimination against Members who file a grievance; whether or not there is a basis for the grievance. The philosophy of the Department is to promote respectful and productive verbal communication between Members and supervisors.

1006.1.1 GRIEVANCE DEFINED

A grievance is any difference of opinion concerning terms or conditions of employment or the dispute involving the interpretation or application of any of the following documents by the person(s) affected:

1. The Member bargaining agreement (Memorandum of Understanding)
2. This Policy Manual
3. County rules & regulations covering personnel practices or working conditions

Grievances may be brought by an individual affected Member or by a group representative.

Specifically outside the category of grievances are complaints related to alleged acts of sexual, racial, ethnic, or other forms of unlawful harassment, as well as complaints related to allegations of discrimination on the basis of sex, race, religion, ethnic background, and other lawfully protected status or activity. These complaints are subject to the complaint options set forth in Policy Manual § 328. Personnel complaints consisting of any allegation of misconduct or improper job performance against any Department Member shall be processed under the guidelines set forth in Policy Manual §1020.

1006.2 PROCEDURE

Except as otherwise required under a collective bargaining agreement, if a Member believes that he or she has a grievance as defined above, then that Member shall observe the following procedure:

1. Attempt to resolve the issue through informal discussion with immediate supervisor.
2. If after a reasonable amount of time, generally seven days, the grievance cannot be settled by the immediate supervisor, the Member may request an interview with the Commander of the affected Division or Bureau.
3. If a successful resolution is not found with the Commander, the Member may request a meeting with the Sheriff.
4. If the Member and the Sheriff are unable to arrive at a mutual solution, then the Member shall proceed as follows:
 - (a) Submit in writing a written statement of the grievance and deliver one copy to the Sheriff and another copy to the immediate supervisor and include the following information:

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Grievance Procedure

1. The basis for the grievance (i.e., what are the facts of the case?).
 2. Allegation of the specific wrongful act and the harm done.
 3. The specific policies, rules or regulations that were violated.
 4. What remedy or goal is being sought by this grievance.
5. The Member shall receive a copy of the acknowledgment signed by the supervisor including the date and time of receipt.
 6. The Sheriff shall receive the grievance in writing. The Sheriff and the Board of Supervisors shall review and analyze the facts or allegations and respond to the Member within 14 calendar days. The response shall be in writing, and shall affirm or deny the allegations. The response shall include any remedies if appropriate. The decision of the Board of Supervisors is considered final.

1006.3 MEMBER REPRESENTATION

Members are entitled to have representation during the grievance process. The representative may be selected by the Member from the appropriate Member bargaining group.

1006.4 GRIEVANCE RECORDS

At the conclusion of the grievance process, all documents pertaining to the process shall be forwarded to Professional Standards for inclusion into a secure file for all written grievances. A second copy of the written grievance shall be maintained by the Board of Supervisors' office to monitor the grievance process.

1006.5 GRIEVANCE AUDITS

The Professional Standards Division Commander shall perform an annual audit of all grievances filed the previous calendar year to evaluate whether or not any policy/procedure changes or training may be appropriate to avoid future filings of grievances. The Commander shall record these findings in a confidential and generic memorandum to the Sheriff without including any identifying information from any individual grievance. If the audit identifies any recommended changes or content that may warrant a critical revision to this policy manual, the Commander should promptly notify the Sheriff.

Reporting of Member Convictions

1010.1 PURPOSE AND SCOPE

Convictions of certain offenses may restrict or prohibit a Member's ability to properly perform official duties; therefore, all Members shall be required to promptly notify the Department of any past and current criminal convictions.

1010.2 DOMESTIC VIOLENCE CONVICTIONS AND RESTRAINING ORDERS

Pursuant to the Federal Domestic Violence Gun Control Act (18 United States Code §§ 921(a) and 922(d)), any person who has been convicted of a misdemeanor domestic violence offense is prohibited from possessing any firearm or ammunition.

Misdemeanor crimes of domestic violence are defined as misdemeanors under federal or state law, having as an element, the use or attempted use of physical force, or the threatened use of a deadly weapon, committed by a current or former spouse, parent or guardian of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse, parent or guardian, or by a person similarly situated to a spouse, parent or guardian of the victim.

Federal law also prohibits firearm possession by any individual who is the subject of a domestic violence restraining order. This federal restriction, however, does not apply to Temporary Restraining Orders (18 United States Code § 922(d)(8)).

Penal Code § 12021(c)(1) prohibits any person convicted of certain offenses including, but not limited to Penal Code §§ 273.5, 273.6 and 646.9, from lawfully possessing a firearm.

Family Code § 6389 prohibits any person from carrying a firearm if they are currently the subject of a domestic violence restraining order (including temporary and emergency orders).

1010.3 OTHER CRIMINAL CONVICTIONS

Government Code § 1029 prohibits any person convicted of a felony from being a peace officer in the State of California. This prohibition applies regardless of whether the guilt was established by way of a verdict, guilty or nolo contendere plea.

Convictions of certain violations of the Vehicle Code and other provisions of law may also place restrictions on a Member's ability to fully perform the duties of the job.

Moreover, while legal restrictions may or may not be imposed by statute or by the courts upon conviction of any criminal offense, criminal conduct by Members of this Department may be inherently in conflict with law enforcement duties and the public trust.

1010.4 REPORTING PROCEDURE

All Members of this Department and all retired deputies with a CCW endorsement shall promptly notify their immediate supervisor (or the Sheriff in the case of retired deputies) in writing of any past or current criminal arrest or conviction regardless of whether or not the matter is currently on appeal and regardless of the penalty or sentence, if any.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Reporting of Member Convictions

All sworn Members and all retired deputies with a CCW endorsement shall further promptly notify their immediate supervisor (or the Sheriff in the case of retired deputies) in writing if the Member becomes the subject of a domestic violence restraining order issued by a court of competent jurisdiction.

Any Member whose criminal conviction unduly restricts or prohibits that Member from fully and properly performing his/her duties may be disciplined including, but not limited to being placed on administrative leave, reassignment, and/or termination.

Any Member failing to provide prompt written notice pursuant to this policy shall be subject to discipline.

1010.5 PROCEDURE FOR RELIEF

Pursuant to Penal Code § 29855, a peace officer may petition the court for permission to carry a firearm following a conviction under state law. Federal law, however, does not provide for any such similar judicial relief and the granting of a state court petition under Penal Code § 29855 will not relieve one of the restrictions imposed by federal law. Therefore, relief for any Member falling under the restrictions imposed by federal law may only be obtained by expungement of the conviction. Each Member shall seek relief from firearm restrictions on their own time and through their own resources.

Pursuant to Family Code § 6389(h), an individual may petition the court for an exemption to any restraining order, which would thereafter permit the individual to carry a firearm as a part of their employment. Relief from any domestic violence or other restriction shall also be pursued through the Member's own resources and on the Member's own time.

Pending satisfactory proof of relief from any legal restriction imposed on an Member's duties, the Member may be placed on administrative leave, reassigned or disciplined. The Department may, but is not required to return an Member to any assignment, reinstate any Member, or reverse any pending or imposed discipline upon presentation of satisfactory proof of relief from any legal restriction set forth in this policy.

1010.6 ESTABLISHING ELEMENTS OF A VIOLATION OF LAW

The existence of facts establishing a violation of the law or ordinance is all that is necessary to support any allegation. When a violation of law occurs, the lack of criminal prosecution shall be no bar to administrative discipline.

Drug Testing

1011.1 PURPOSE

The Department has a legal responsibility and a moral obligation to protect the citizens of the County of Orange and to ensure a safe, drug free work environment for all its Members. The Department has a compelling need to employ and retain only those persons who are both qualified and able to perform the duties and responsibilities of their position.

When Members of a law enforcement agency use drugs there is a tremendous potential for misconduct and negligence. Law enforcement, on a routine basis, makes life and death decisions in the course of discharging their official duties. The responsibility of providing public safety requires Department Members to perform under conditions that are recurrently hazardous and sometimes hostile. The use of debilitating drugs, under these conditions, significantly increases the probability of offense of conduct by employees, decreases their capability to perform assigned duties, has an adverse effect on fellow employees, which is the Department's obligation to preserve public safety and diminishes the public's confidence.

In order to balance the interest of the Department, the County of Orange, Members of the Department, and while maintaining the public's trust, it shall be the policy of the Department to implement the random and reasonable suspicious drug testing program.

1011.1.1 DEFINITIONS

Drug Test: The compulsory production and submission of urine and/or saliva by a Member, in accordance with Department procedures, for chemical analysis to detect the presence or absence of controlled substances.

Reasonable Suspicion: Quantity of specific and objective facts that can be articulated which are more than mere speculation but less than probable cause, based on:

1. Observable symptoms,
2. Non-observable symptoms,
 - (a) Reliable information and/or physical evidence,
 - (b) Citizen complaints,
 - (c) Fellow Member complaints corroborated by other Members,
 - (d) Reports of recent use.

Calendar Year: Beginning January 1 of each calendar year and ending on December 31 of the same year.

Medical Review Officer (MRO): Designated by and works for contract laboratory.

Random Selection: Blind selection by computer program.

SAMHSA: Substance Abuse and Mental Health Services Administration.

Department Program Administrator: SAFE Division Commander.

3. The selection process shall never be used as punishment.

1011.6 SPECIMEN COLLECTION

1. Members will be directed to provide a urine and/or saliva sample for testing at a recognized collection site.
2. Failure to provide a specimen within a reasonable time period (not more than four (4) hours) may be considered a refusal to take a drug test.

The Member shall be provided with documentation pertaining to the positive test results.
3. Negative Dilute Specimens - Consistent with DOT regulations, when a test result is reported as a negative dilute specimen, the Member shall be retested. The second test shall become the test of record. Should a Member decline to take the second test, he/she shall be subject to the same remedies as if they had refused to take the original test.

3. A member who is on extended military leave at the beginning of a new fiscal year is considered to be completing their leave from the prior fiscal year. The Member will be eligible for a new fiscal year's 30 days of paid military leave once they have returned to work and submitted new military leave orders qualifying the Member for a new military leave.

as saliva or vomitus, and all body fluids in situations where it is difficult or impossible to differentiate between body fluids such as emergency response;

2. Any unfixed tissue or organ (other than intact skin) from a human (living or dead); and
3. Any of the following, if known or reasonably likely to contain or be infected with HIV, HBV, or HCV:
 - (a) Cell, tissue, or organ cultures from humans or experimental animals;
 - (b) Blood, organs, or other tissues from experimental animals; or
 - (c) Culture medium or other solutions

Parenteral Contact: piercing mucous membranes or the skin barrier through such events as needle sticks, human bites, cuts, and abrasions.

Personal Protective Equipment: specialized clothing or equipment worn or used by a Member for protection against a hazard. General work clothes (e.g., uniforms, pants, shirts or blouses) not intended to function as protection against a hazard are not considered to be personal protective equipment.

Regulated Waste: waste that is any of the following:

1. Liquid or semiliquid blood or OPIM;
2. Contaminated items that:
 - (a) Contain liquid or semiliquid blood, or are caked with dried blood or OPIM; and
 - (b) Are capable of releasing these materials when handled or compressed.
3. Contaminated sharps.
4. Pathological and microbiological wastes containing blood or OPIM.
5. Regulated Waste includes "medical waste" regulated by Health and Safety Code Sections 117600 through 118360.

Sharp: any object used or encountered in the industries covered by subsection (a) that can be reasonably anticipated to penetrate the skin or any other part of the body, and to result in an exposure incident, including, but not limited to, needle devices, scalpels, lancets, broken glass, broken capillary tubes, exposed ends of dental wires and dental knives, drills, and burs.

Sharps Injury: any injury caused by a sharp, including, but not limited to, cuts, abrasions, or needle sticks.

Sharps Injury Log: a written or electronic record satisfying the requirements of 5193 subsection (c)(2).

Source Individual: any individual, living or dead, whose blood or OPIM may be a source of occupational exposure to the Member. Examples include, but are not limited to, hospital and clinical patients; clients in institutions for the developmentally disabled; trauma victims; clients of drug and alcohol treatment facilities; residents of hospices and nursing homes; human remains; and individuals who donate or sell blood or blood components.

Universal Precautions: an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, HCV, and other bloodborne pathogens.

Work Practice Controls: controls that reduce the likelihood of exposure by defining the manner in which a task is performed (e.g., prohibiting recapping of needles by a two-handed technique and use of patient handling techniques).

1016.2 CONTACT WITH BLOOD OR BODY FLUIDS

All Department Members who may be involved in providing emergency medical care, or who come in contact with another person's blood or body fluids (e.g., during an altercation or while attending to any injured person), shall follow the procedures and guidelines in this policy. Department supervisors are responsible for exposure control in their respective areas. They shall work directly with affected Members to ensure that the proper exposure control procedures are followed.

Occupational exposure to bloodborne disease is possible when another person's infected blood, certain body fluids, or other potentially infectious materials **enter a Member's bloodstream through a break in the skin or a splash to the mucous membranes** during the performance of his or her duties. This type of contact with blood and body fluids may transmit infection of the Hepatitis B virus (HBV), Hepatitis C virus (HCV) and/or Human Immunodeficiency Virus (HIV).

Blood and body fluids linked to transmission of HBV, HCV, and HIV:

1. Blood
2. Semen
3. Vaginal secretions (including menstrual discharge)
4. Amniotic fluid
5. Cerebrospinal fluid, Synovial (joint) fluid
6. Pleural (chest) fluid, Peritoneal (abdomen) fluid
7. Pericardial (heart) fluid

Unless visible blood is present, the following body fluids are not linked to transmission of HBV, HCV, and HIV:

1. Feces
2. Nasal secretions
3. Saliva Sputum (lung/mucous)
4. Tears
5. Urine
6. Vomit

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

Under circumstances where differentiation between body fluid types is difficult or impossible, all body fluids shall be considered potentially infectious materials. All blood shall be considered infectious, regardless of the perceived status of the source individual.

Other Potentially Infectious Materials (OPIM) include:

1. Any unfixed tissue or organ (other than intact skin) from a human (living or dead)
2. Cell, tissue, or organ cultures
3. Culture medium or other solutions

1016.2.1 UNIVERSAL PRECAUTIONS

Universal Precautions is an approach to infection control where you treat all blood and body fluids as if they are known to be infected with a bloodborne disease. Always use personal protective equipment (PPE) and other infection control practices when you come in contact with blood or body fluids.

In addition to using PPE, infection control practices for universal precautions include covering cuts, open sores, and abrasions on skin with a bandage, and decontaminating skin, mucous membranes, equipment, clothing, and the worksite as applicable.

1016.2.2 PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment is the last line of defense against bloodborne pathogens.

Members shall use appropriate personal protective equipment (PPE) when performing tasks involving reasonably anticipated contact with blood or body fluids. Appropriate PPE for any task should be chosen based on the likelihood of exposure to blood or body fluids (including the possibility of spilling, splashing, spraying, or soaking).

The only exception to the requirement above shall be those rare and extraordinary occasions when, in the professional judgment of the Member, wearing the required PPE would have prevented delivery of health or public safety services or would have posed an increased hazard to the Member or coworkers. If an exposure incident occurred in such a situation, the circumstances must be investigated and documented to determine whether such occurrences can be prevented in the future. Document the findings on the Supervisor's Investigation of Member's Injury or Illness form and on form CDPH 8459. Members should report all such instances to their Supervisor without fear of reprisal (per Cal/OSHA regulation 3203).

GLOVES

1. Gloves shall be worn when hand contact with blood, body fluids, mucous membranes, non-intact skin; or contaminated items or surfaces can be reasonably anticipated.
2. Members with known minor skin defects (e.g. cuts, abrasions, burns, etc.) shall cover the areas with a bandage, in addition to using gloves.
3. If disposable gloves are torn, punctured, contaminated, or when their ability as a barrier is compromised, they shall be replaced as soon as feasible.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

MASKS, EYE PROTECTION, FACE SHIELDS

1. Face and eye protection shall be used whenever splashes, sprays, spatters, or droplets of blood or OPIM may be generated and eye, nose, or mouth contamination can be reasonably anticipated.

PROTECTIVE OUTER GARMENTS

1. Appropriate protective outer garments shall be worn in occupational situations where there is a reasonably anticipated risk of exposure to blood or OPIM. Examples of protective outer garments include coveralls, gowns, aprons, and/or lab coats.

SURGICAL CAPS/HOODS AND SHOE COVERS

1. Surgical caps/hoods and/or shoe covers shall be worn in instances when gross contamination can reasonably be anticipated.

1016.2.3 DECONTAMINATION OF SKIN AND MUCOUS MEMBRANES

If someone else's blood or other potentially infectious materials contact a Member's skin, the Member shall immediately wash the exposed body part(s) with soap and warm water as soon as practicable. If hand washing facilities are not readily available, an antiseptic towelette or hand cleaner shall be used. Then, as soon as feasible, hands shall be washed with soap and warm water (Antiseptic wipes are available in first aid kits). If large areas of the Member's skin are contaminated, the Member shall shower as soon as possible, using warm water and soap.

Contaminated non-intact skin (e.g., injured skin or open wound) shall also be dressed or bandaged, as needed. Medical treatment is required; contact a Workers' Compensation Treatment Facility and follow the procedures in section 1016.4.

1016.2.4 IMMUNIZATIONS

The Orange County Health Care Agency (HCA)/Employee Health Services provides services for Hepatitis B vaccination. HCA has received justification that Members in job classifications listed in sections 1016.6 may have occupational exposure to a communicable disease, and shall be offered the Hepatitis B vaccination free of charge.

Per HCA/Employee Health Services, designated First Aid responders who respond only as a collateral duty, and who are not public safety personnel, will only be vaccinated after response to an incident where blood/OPIM is present (unless their job classification is listed in sections 1016.6).

1016.2.5 WORK PRACTICES

Whenever contact with blood, body fluid, or OPIM is reasonably anticipated, all Members shall use the appropriate barrier precautions to prevent exposure to non-intact skin or mucous membranes.

Members shall bandage open wounds, cuts, or rashes on hands and arms to avoid direct contact with blood or OPIM. Bandages should be changed if they become wet or soiled.

Disposable gloves shall be worn on all medical emergency responses and as soon as conditions permit when a suspect or inmate displays combative or threatening behavior and/or when blood

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

or OPIM is present. Disposable gloves shall also be worn when cleaning or handling items or surfaces soiled with blood or other body fluids. Care should be taken to avoid touching other items (e.g., pens, books, surfaces, and personal items, etc.) while wearing the disposable gloves in a potentially contaminated environment.

Any personal protective equipment that becomes punctured, torn, or loses its integrity, shall be removed as soon as feasible. The Member shall wash up with soap and warm water and replace the personal protective equipment if the job has not been completed. If this situation resulted in blood or OPIM exposure to non-intact skin or mucous membranes, follow sections 1016.4 through 1016.4.2.

When removing personal protective equipment (PPE), gloves shall be the last item of PPE removed. Members shall wash their hands immediately (on scene if possible), or as soon as possible following the removal of potentially contaminated gloves. Soap and warm water shall be used to wash hands, paying particular attention to the fingernails. When hand washing facilities are not readily available, waterless antiseptic hand cleanser in conjunction with clean paper towels or antiseptic towelettes shall be used. Then, hands shall be washed with soap and running water as soon as feasible.

All procedures involving blood or OPIM shall be done in a way to minimize splashing, spraying, or otherwise generating droplets of those materials.

Eating, drinking, smoking, applying lip balm, and handling contact lenses shall be prohibited in areas where there is a reasonable likelihood of occupational exposure to blood or OPIM.

Use a protective barrier or a CPR mask ("pocket mask" with a one way valve) when performing mouth to mouth resuscitation.

Wear gloves when conducting searches, and do not search blindly by reaching where you cannot see.

Additional policies and procedures may be included in (but not limited to) the following:

1. Custody and Court Operations Manual (CCOM): 1710, 1808, 2100, 2108, 2110, 2400, 2402, 2404, and 3000.
2. Field Operations Manual: Section 5, Section 23, and Section 44.
3. Training Bulletins: 07-02, 10-08, and 10-10.
4. Department Postings: Exposure to Bodily Fluids/Revised Procedures, and Work Related Hospitalizations and Serious Injuries and Illnesses.

1016.3 DISPOSAL AND DECONTAMINATION

Most items contaminated with blood, body fluids, or OPIM do NOT qualify for biohazard disposal. In general, anything that can be cleaned, should be cleaned. This includes but is not limited to surfaces, jail bed mats, and riot gear. Follow the manufacturer's instructions.

For cleaning and decontamination, use a germicide effective against HIV and Hepatitis B or a bleach solution (e.g., 1:10 concentration, one part bleach to 10 parts water). Follow the

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

manufacturer's instructions for the product used including recommended saturation times. The Environmental Protection Agency's (EPA) lists of products effective against HIV and Hepatitis B can be found on the intranet, under Knowledge Center/Safety. Bleach solutions shall be dated when mixed and shall not be used more than 24 hours after mixing.

If contaminated items (such as paper towels and disposable gloves) will not release liquid or semiliquid blood, caked/dried blood, or OPIM when handled or compressed, they may be disposed of in the regular trash.

Whenever possible, disposable items shall be used to contain and cleanup blood or OPIM. To allow for disposing of clean-up materials into the regular trash, use a large number of paper towels (or other disposable materials) so that fluid blood, caked/dried blood, or OPIM will not be released from any of the materials when they are handled or compressed.

1016.3.1 USE OF WASTE CONTAINERS

Biohazard waste capable of releasing fluid blood, caked/dried blood, or OPIM when handled or compressed shall be disposed of in either a red biohazard bag or a leakproof bag with an affixed biohazard label; then, the bag shall be placed into an appropriately marked biohazard waste container. Some options for use of biohazard containers may include the onscene fire response vehicle, the hospital, or Correctional Medical Services, with their approval.

Note: If using a leakproof bag (such as a trash can liner) in lieu of a red biohazard bag, a biohazard label must be affixed. See section 1016.3.2 for details on container labels.

*If contaminated items (such as paper towels and disposable gloves) will **not** release liquid or semiliquid blood, caked/dried blood, or OPIM when handled or compressed, the items may be disposed of in the regular trash.*

For details on sharps, see section 1016.3.3.

1016.3.2 BIOHAZARD CONTAINER LABELS

Container labels shall include either the symbol/graphic for biohazard or an inscription to indicate BIOHAZARDOUS WASTE or SHARPS WASTE. Labels shall be fluorescent orange or orange-red or predominantly so, with lettering and symbols in a contrasting color. Labels shall either be an integral part of the container or shall be affixed as close as feasible to the container by string, wire, adhesive, or other method that prevents their loss or unintentional removal.

1016.3.3 SHARPS AND ITEMS THAT CUT OR PUNCTURE

All sharps and objects that cut or puncture (e.g., broken glass, razors, syringes, knives or any other item that could pose a risk) shall be treated cautiously to avoid cutting, stabbing, or puncturing yourself or any other person. Use a device such as a broom and a dustpan or tongs to clean up the object or debris. If the object must be hand held, protective gloves must be worn. If a sharp contains known or suspected blood or OPIM, the object is to be treated as contaminated.

Use established procedures for handling, packaging, and sealing sharps that will be booked as evidence. Comply with OCSD's General Evidence Packaging Guidelines. Unless required

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

for evidentiary reasons related to evidence preservation, Members are not to recap sharps. If recapping is necessary, a one-handed method shall be employed to avoid a finger prick. Disposal of sharps, when applicable (such as when not being booked as evidence), shall be into an appropriately labeled, rigid, puncture-proof, leak-proof on the sides and bottom, and portable, biohazard sharps container. Biohazard sharps containers shall be easily accessible to personnel and located as close as feasible to the immediate area where sharps are used or can be reasonably anticipated to be found. The containers shall also be maintained upright throughout use, where feasible and replaced as necessary to avoid overfilling.

Supervisors shall document injuries caused by a sharp (needle, razor, scalpel, etc.), on a Sharps Injury Log (Form F042-24.1362), which is available on the Intranet under Knowledge Center/Forms and/or Knowledge Center/Safety. Supervisors shall retain the original, and pony mail a copy to OCSD/SAFE Division/Safety within 14 days of the exposure.

1016.3.4 DISPOSABLE PROTECTIVE EQUIPMENT

Disposable gloves shall not be washed or decontaminated for reuse. Used, disposable gloves can be disposed of in a regular trash can - **provided** they will **not** release liquid or semi-liquid blood, caked/dried blood, or body fluids when handled or compressed. If gloves are saturated with blood or body fluids, use paper towels to absorb the excess before removing gloves.

1016.3.5 DECONTAMINATION OF PERSONAL PROTECTIVE EQUIPMENT

After using any reusable personal protective equipment, it shall be washed or disinfected (see section 1016.3) and stored appropriately. Contaminated reusable personal protective equipment that must be transported prior to cleaning shall be placed into a biohazard waste bag or leak-proof bag with an affixed biohazard label. If the personal protective equipment is non-reusable (e.g., disposable gloves), it shall be discarded as described in section 1016.3.4.

Utility gloves may be decontaminated for reuse if the integrity is not compromised. However, they must be discarded if they are cracked, peeling, torn, punctured, or exhibit other signs of deterioration or when their ability to function as a barrier is compromised.

1016.3.6 DECONTAMINATION OF NON-DISPOSABLE EQUIPMENT

Contaminated non-disposable equipment (e.g., flashlight, gun, baton, portable radio) shall be decontaminated as soon as possible, using products described under section 1016.3. Large particles of contaminants such as, vomit, feces, etc. should first be removed and disposed of (use a disposable towel or other means to prevent direct contact).

Porous surfaces such as nylon bags and straps shall be brushed and scrubbed with a detergent and hot water, laundered, and allowed to dry. Non-porous surfaces (e.g., plastic or metal) shall be brushed and scrubbed with detergent and hot water, sprayed with a bleach solution or approved germicide, rinsed, and allowed to dry. Delicate equipment should be brushed and scrubbed very carefully using a minimal amount of an approved germicide (See section 1016.3). While cleaning equipment, pay close attention to handles, controls, corners, and tight spots.

Orange County Sheriff-Coroner Department

Bloodborne Pathogens Exposure Control Plan

1016.3.7 DECONTAMINATION OF LAUNDRY

Personal protective equipment shall be used to prevent contact with laundry contaminated with blood or Other Potentially Infectious Materials (OPIM).

Whenever contaminated laundry is wet and presents a reasonable likelihood of soaking through or leaking from the bag or container, the laundry shall be placed and transported in secondary bags or containers that prevent soak-through of fluids to the exterior.

Laundry contaminated with blood or OPIM shall be handled as little as possible, with a minimum of agitation.

Inmate Laundry:

Follow procedures in the Custody and Court Operations Manual (CCOM) and/or all other Departmental or facility-specific laundry policies.

Member Uniforms or Clothing:

As quickly after the exposure as practicable, gloves shall be used to remove uniforms or clothing contaminated with another person's visible blood or OPIM in the line of duty. Garments shall be placed in a leak-proof bag, labeled as biohazard, and taken for cleaning using the procedures below. Use either a red, biohazard bag or affix a biohazard label to a leak-proof bag, such as a trash can liner.

Removal of the contaminated uniform or clothing should be done at the work location. The only exception to this should be Members in special assignments who respond from home to an incident. However, in all instances, all of the other steps in the paragraph above and those below, should still be followed.

Members shall notify their supervisor of the garments contaminated with another person's visible blood or OPIM, and obtain approval for department-paid cleaning.

Note: Department-paid cleaning only applies to garments contaminated with another person's visible blood or OPIM. **Garments containing mucous, saliva, vomit, urine, feces, or tears do not qualify unless visible blood is present.** These body fluids are not linked to transmission of HBV, HCV, or HIV unless visible blood is present. Dirt or grease, etc., also do not qualify for Department-paid cleaning.

The uniform or other clothing contaminated with another person's blood or OPIM should be taken to the nearest dry cleaning drop-off closet in the Department. A cleaning ticket must be completed. In the event that the Member has to initially pay for the cleaning at the time of the drop-off, reimbursement shall be provided, based on their supervisor's prior approval, as outlined above.

Extensive Contamination:

For uniforms that are so extensively contaminated with another person's blood or OPIM that the Member would not feel comfortable wearing it even after it was laundered, the Member should seek their supervisor's permission for biohazard disposal and uniform replacement. If the Member

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

has already used their maximum uniform exchange allowance for the year, additional approvals from the Member's Chain of Command may be needed for uniform replacement.

Garments extensively contaminated with blood should be bio-hazard bagged and taken to the Coroner's Office for biohazard disposal. Any Member handling the biohazard bag shall wear personal protective equipment (PPE).

1016.3.8 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios, and doors shall be washed with soap and warm water and disinfected with a germicide effective against HIV and Hepatitis B (see section 1016.3) as soon as feasible and prior to reuse. For gross contamination and/or if fluids have seeped into areas that would require dismantling or removal of parts, contact a supervisor to determine the course of action.

1016.3.9 DECONTAMINATION OF WORKSITE

All worksites shall be maintained in a clean and sanitary condition.

Equipment and work surfaces contaminated with blood or OPIM shall be cleaned and decontaminated immediately or as soon as feasible but no later than the end of the shift when:

1. Surfaces become overtly contaminated;
2. There is a spill of blood or OPIM;
3. Procedures are completed (autopsies, forensic blood examination, etc.);
4. At the end of the work shift, if the surfaces have become contaminated since the last cleaning.

See section 1016.3 regarding decontamination products.

1016.4 POST-EXPOSURE REPORTING AND FOLLOW-UP

In actual or suspected exposure incidents, proper documentation and follow up action must occur by following the procedures in sections 1016.4.1 and 1016.4.2.

Exposure incident

An exposure incident means a specific eye, mouth, mucous membrane, non-intact skin, or parenteral (piercing mucous membrane or skin) contact with blood or OPIM that results from the performance of occupational duties. See section 1016.2 for additional information about exposure incidents. The Orange County Health Care Agency (HCA) provides services for Hepatitis B vaccination. Workers' Compensation Treatment Facilities provide post exposure evaluation and follow-up.

1016.4.1 MEMBER RESPONSIBILITY TO REPORT EXPOSURE

In order to provide appropriate and timely treatment, all Members shall complete the following steps after an exposure incident:

1. Immediately clean/wash the exposed area and obtain first aid, as needed.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

2. Report the exposure incident to your supervisor.
3. Complete Form (CDPH 8459) California Department of Public Health Report of Request and Decision for HIV Testing (available on the Intranet, under Knowledge Center/Forms or Knowledge Center/Safety).
 - (a) Complete fields 1-10 and the "Date Report was Filed" field; and, sign the "Signature of Person Reporting Incident" field. The bottom of the form should be left blank, for completion by the County of Orange Health Care Agency (HCA).
 - (b) Fax the completed Form CDPH 8459 to (714) 565-3788 (Employee Health) **before the end of your shift.**
4. Immediately call or visit a Worker's Compensation Treatment Facility to discuss the exposure incident and determine if testing and/or treatment is needed.
 - (a) It is important to seek medical treatment within 2 hours of the exposure.
 - (b) For details on what constitutes an exposure incident, see sections 1016.2 and 1016.4.

1016.4.2 SUPERVISOR REPORTING REQUIREMENTS

Supervisors shall take the following steps when a Member reports an exposure incident:

1. Complete the required forms from the Employee Injury and Illness Packet (available on the intranet, under Knowledge Center/Forms.).
2. Provide the Member with the following documents:
 - (a) Form (CDPH 8459) California Department of Public Health Report of Request and Decision for HIV Testing. This form must be completed by the Member and faxed before the end of his or her shift. Obtain the form from the Intranet, under Knowledge Center/Forms or Knowledge Center/Safety.
 - (b) Applicable forms from the Employee Injury and Illness Packet.
3. Fax completed forms to Sheriff's Workers' Compensation at (714) 834-3183.
4. For all exposure incidents involving a sharp (needle, scalpel, etc.), complete a Sharps Injury Log [Form F042-24.1362] (available on the Intranet, under Knowledge Center/Forms and/or Knowledge Center/Safety). Retain the original, and pony mail a copy to OCSD/SAFE Division/Safety within 14 days of the exposure.
5. If the exposure incident involves a deceased source individual, contact the Coroner's Office to verify if they will receive the body and be able to obtain a blood sample for source testing. Contact can be made in person at the scene, or by calling the Coroner's office/Investigations Unit at (714) 647-7411. A request for disease testing must be made prior to the autopsy.
 - (a) If the Coroner's office will not receive the body, investigate where the body will be taken, as well as contact information for relatives of the deceased. Provide this information to Employee Health Services on form CDPH 8459 so they can work toward obtaining consent for disease testing.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Bloodborne Pathogens Exposure Control Plan

- (b) The Orange County Health Care Agency/Employee Health Services (EHS) is responsible for providing the results of the source testing to the Member. To ensure that EHS is aware of the request for source testing, the Member must complete and submit the CDPH 8459 (Report of Request and Decision for HIV Testing) as instructed under "Employee Responsibility to Report Exposure".

1016.4.3 RECORDKEEPING AND CONFIDENTIALITY OF REPORTS

The Orange County Health Care Agency (HCA)/Employee Health Services shall ensure that medical records related to exposure incidents are maintained and kept confidential in accordance with Cal/OSHA Regulation 5193.

1016.5 COMMUNICATION

Access to the Exposure Control Plan shall be accessible in accordance with Title 8, Section 3204(e). A complete copy of the Bloodborne Pathogens regulation (Title 8, Section 5193) and a copy of this Exposure Control Plan are available on the Intranet, under Knowledge Center/Safety.

1016.5.1 TRAINING CONTENT

Bloodborne Pathogens training shall contain, at a minimum, the elements required under Title 8, Section 5193(g)(2)(G).

1016.5.2 TRAINING DOCUMENTATION

Training for each Member shall be documented on the County of Orange Documentation of Training for Occupational Exposure to Bloodborne Pathogens form F042-24.1373 (R07/10). Forms can be obtained through a supply order or printed from the Intranet, under Knowledge Center/Safety.

Members in job classifications not listed in 1016.6 may still attend the Bloodborne Pathogens training. However, they will not be eligible to receive the Hepatitis vaccine free of charge from HCA/Employee Services. One example of this is Supervisors who oversee Members with occupational exposure to blood or OPIM, but do not have occupational exposure themselves. Members who are not eligible for free vaccination from HCA should decline the vaccination on the County of Orange Documentation of Training for Occupational Exposure to Bloodborne Pathogens form.

A training roster shall also be completed and collected, and a copy shall be forwarded to OCSD/SAFE Division/Safety. As required by Cal/OSHA, it shall include the name and qualifications of the instructor such as, attended HCA's Bloodborne Pathogens Train-the-Trainer Class on mm/dd/yyyy. A copy of the recommended training roster is available on the Intranet, under Knowledge Center/Safety.

During Bloodborne Pathogens training, Members shall be polled for their feedback regarding the procedures performed by them in their respective work areas. The recommended form for collecting this feedback is available on the Intranet, under Knowledge Center/Safety (Titled: BBP Class Employee Survey) or on the reference DVD provided by HCA to staff who attended the Bloodborne Pathogens Train-the-trainer course (Titled: BBP Exp Control Plan Review and Update Survey). Feedback provided shall be forwarded to OCSD/SAFE Division/Safety, and it shall be used to review and update the Exposure Control Plan, if needed. A method for obtaining Member feedback is required per Title 8, Section 5193(c)(1)(B)(8).

1016.5.3 REQUIREMENTS FOR TRAINERS

Instructors are required to attend an initial Bloodborne Pathogens Train-the-Trainer course, presented by the Orange County Health Care Agency; then, attend annual update classes. If an instructor does not attend an annual update class, he or she shall be required to retake the initial course for new trainers.

1016.6 EXPOSURE DETERMINATION

The California Occupational Safety and Health Administration (Cal/OSHA) requires employers to perform an exposure determination concerning which employees may incur occupational exposure to blood or Other Potentially Infectious Materials (OPIM). The exposure determination is made without regard to the use of personal protective equipment.

Exposure Categories:

The Orange County Health Care Agency (HCA)/Employee Health Services has received justification that Members in the following exposure categories are eligible to receive the Hepatitis B vaccine free of charge. To propose additional Job Classifications for consideration for free Hepatitis B vaccination eligibility, Commanders should submit a memo to HCA/Employee Health Services, listing the job classifications being submitted for consideration for Hepatitis B vaccination eligibility, justifying specific routine tasks or procedures associated with a reasonably anticipated risk of occupational exposure to blood or OPIM, and providing detailed examples of the occupational exposure scenarios. A copy of this memo should also be submitted to S.A.F.E. Division/Safety.

- The following is a list of job classifications in which **ALL** Members in those job classifications have a reasonably anticipated risk of occupational exposure to blood or OPIM:

The purpose of this policy is to provide guidelines for the Department to professionally and thoroughly give the appropriate supervisory attention to public feedback received regarding Departmental service or individual performance. This policy explains the required actions for the collection, processing and preservation of complaints to ensure the proper attention is given to the incident.

1020.1.1 PERSONNEL COMPLAINTS

Public complaints shall be used to help shape programs, priorities, training, and discipline in order to provide the best law enforcement service to the community.

Complaints shall be classified into one of the following categories:

Servicecomplaint: Any allegation of dissatisfaction with Department service, procedure or practice, not involving a personnel complaint, i.e. response time, vehicle operation while responding code-3, waiting too long to visit an inmate.

Personnel complaint: Any allegation of misconduct or improper job performance against any Department Member that, if true, would constitute a violation of Department policy, federal, state, or local law, i.e. rudeness, profanity, excessive force, criminal act. All investigations of personnel complaints shall be considered confidential.

1020.2 DOCUMENTING COMPLAINTS

In these instances, the involved Member's Commander shall be notified and consulted.

1020.2.3 COMPLAINT DOCUMENTATION

Complaints of alleged misconduct shall be documented by a manager and/or supervisor by creating a new "Initial Report" on the Sheriff's Intranet. The supervisor shall ensure that the nature of the complaint is defined as clearly as possible.

After the Initial Report has been reviewed by the Commander, the system will generate an email to the Member's supervisor which contains an "Employee Notification" form. This shall be printed and reviewed by the Member. After review, the form will be signed by both the Member and his or her supervisor. 1020.4.1 CONTENTS OF PERSONNEL FILE

Contents of a Member's personnel file shall be retained in accordance to the Member's respective Memorandum of Understanding or applicable laws.

Seat Belt Procedure

1022.1 PURPOSE AND SCOPE

The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic collision. This policy establishes guidelines for seat belt and child safety seat use to promote maximum operator and passenger safety, thus reducing the possibility of death or injury as the result of a motor vehicle crash. This policy shall apply to all Members operating or riding in Department vehicles (Vehicle Code § 27315.5).

1022.1.1 DATE POLICY APPROVED OR REVISED

Effective: June 17,2010

1022.2 WEARING OF SAFETY RESTRAINTS

All Members shall wear properly adjusted safety restraints when operating or riding in Department-owned, leased or rented vehicles and while operating or riding in privately owned vehicles while on duty. The driver is responsible for ensuring all occupants, including non-Members, are in compliance with this policy.

It is the intent of this policy that all Members wear seat belts whenever possible. However, sworn deputies may dispense with wearing safety restraints in specific tactical situations or when it reasonably appears that, due to unusual circumstances, wearing a seat belt would hinder rather than increase safety.

1022.2.1 TRANSPORTING CHILDREN

An approved child safety restraint system should be used for all children of age, size or weight for which such restraints are required by law (Vehicle Code § 27360). In the event that an appropriate approved child safety restraint system is not available, the child may be transported by sworn personnel and should be restrained in a seat belt (Vehicle Code 27363(b)).

Rear-seat passengers in a cage-equipped vehicle may have reduced clearance, which requires careful seating and positioning of seat belts. Due to this reduced clearance, children and the child restraint system or booster seat should be secured properly in the front seat of these vehicles, provided this positioning meets the vehicle and child restraint system manufacturer's design and use recommendations. In the event that a child is transported in the front seat of a vehicle, the passenger side air bag should be deactivated. In the event this is not possible, officers should consider arranging alternative transportation.

1022.3 TRANSPORTING PRISONERS

Whenever possible, prisoners should be secured in the prisoner restraint system in the rear seat of the patrol vehicle or, when a prisoner restraint system is not available, by seat belts. The prisoner should be in seating position for which seat belts have been provided by the vehicle manufacturer. The prisoner restraint system is not intended to be a substitute for handcuffs or other appendage restraints.

Seat Belt Procedure

1022.4 INOPERABLE SEAT BELTS

No person shall operate a Department vehicle in which the seat belt in the driver's position is inoperable. No person shall be transported in a seating position in which the seat belt is inoperable.

No person shall modify, remove, deactivate or otherwise tamper with the vehicle safety belts, except for vehicle maintenance and repair staff who shall do so only with the express authorization of the Sheriff.

Members who discover an inoperable restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

1024.2 ISSUANCE AND REPLACEMENT

The Member's body armor shall be issued through Quartermaster and replaced every three to five years depending on the rated life of the vest.

1024.3 EXTERNAL BODY ARMOR CARRIERS

The use of an external body armor carrier is not mandatory. The purpose of this uniform item is to provide Department Members with an alternative method to carry standardized equipment in a safe, efficient, and comfortable manner. Members may choose to wear their body armor in the traditional method by concealing the armor beneath their uniform shirt or they may choose to utilize the external carrier. A Member may remove an external body armor carrier under the following circumstance: 1) in a secured environment, 2) outside of public view, and 3) where no expectation of enforcement action or public interaction is likely.

Lactation Break Policy

1045.1 PURPOSE AND SCOPE

The purpose of this policy is to provide reasonable accommodations to Members desiring to express breast milk for the Member's infant child while at work.

1045.2 POLICY

It is the policy of the Department to provide, in compliance with the Fair Labor Standards Act and state law, reasonable break time, and appropriate facilities to accommodate any Member desiring to express breast milk for an infant child. A Member has a right to request a lactation accommodation in the workplace. This request should be done through the Member's immediate supervisor. If the supervisor determines the Department cannot meet the requirements listed within this policy, the supervisor shall in writing notify the Member. However, prior to doing so, supervisors shall in good faith with the Member attempt to identify reasonable accommodations. Members have the right to file a complaint with the State of California Labor Commissioner's Office for any violation of law governing lactation accommodation in the workplace.

1045.3 LACTATION BREAK TIME

A rest period should be permitted each time the Member has the need to express breast milk. In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable.

However, individual circumstances may require more or less time. Such breaks, if feasible, should be taken at the same time as the Member's regularly scheduled rest or meal periods.

While a reasonable effort will be made to provide additional time beyond authorized breaks, any such time exceeding regularly scheduled and paid break time will be unpaid (Labor Code § 1030). The Member can either post earned accrued time, or at the supervisor's discretion, the Member can make-up the time.

A Member shall not be required to make-up any lost time due to time spent expressing breast milk.

Members desiring to take a lactation break shall notify Emergency Communications Bureau or a supervisor prior to taking such a break. Such breaks may be reasonably delayed if they would seriously disrupt Department operations (Labor Code § 1032).

Once a lactation break has been approved, the break should not be interrupted except for emergency or exigent circumstances.

1045.4 PRIVATE LOCATION

The Department shall make reasonable efforts to accommodate Members with the use of an appropriate room or other location to express milk in private. Such room or place should be in close proximity to the Member's work area and shall be other than a bathroom. The location shall comply with the following requirements pursuant to Labor Code § 1031:

1. Be safe, clean, and free of hazardous materials.

5. Access to a sink with running water and a refrigerator suitable for storing milk in close proximity to the employee's workspace. If a refrigerator cannot be provided, an employer may provide another cooling device suitable for storing milk, such as an employer-provided cooler.

The location must be shielded from view and free from intrusion from co-workers and the public.

Members occupying such private areas shall either secure the door or otherwise make it clear to others that the area is occupied with a need for privacy. All other Members should avoid interrupting a Member during an authorized break, except to announce an emergency or other urgent circumstance. If the designated area is used for multiple purposes, the use of the area for lactation shall take precedence for the time it is being used for that purpose.

Authorized lactation breaks for Members assigned to Patrol Operations may be taken at the nearest appropriate private area.

1045.5 STORAGE OF EXPRESSED MILK

Modified Duty Assignments

1054.1 PURPOSE AND SCOPE

The purpose of this policy is to establish procedures for assigning Members to modified duty. Temporary modified-duty assignments may be available to Members who have incurred a duty-related illness or injury and, due to restrictions or limitations, are unable to perform their regular assigned duties. Non-duty related illnesses or injuries may also be considered for eligibility in accordance with this policy. Eligibility for modified-duty assignment is subject to the approval of the Sheriff or his/her designee.

Modified-duty assignments are intended to provide a Member with the ability to continue working within the limits of his/her restrictions and limitations on a temporary basis while providing the Department with a productive Member during the interim period.

The Department shall engage in a good faith interactive process to consider reasonable accommodations for any Member with a temporary or permanent disability.

1054.1.1 DEFINITIONS

Modified Duty: A temporary, limited-term assignment not requiring performance of the full range of duties associated with the regular job classification. Modified duty also may be termed as light-duty assignments.

1054.2 LIMITATIONS

Modified-duty assignments are a management prerogative and not a Member right. Modified-duty assignments shall be subject to continuous re-assessment dependent upon Department need and the Member's ability to perform in a modified-duty capacity.

An injured Member may be assigned to a modified-duty position outside of his/her normal assignment or duties if it becomes available. If the injury or illness is non-duty related, the Member shall be given the option to either accept the position or continue to draw on sick leave or other leave accounts as applicable.

1. If a Member cannot adequately perform in a modified-duty assignment, such assignment may be modified or terminated.
2. The lack of Department need or a change in priorities may result in the Member's removal from or modification of a modified-duty assignment.
3. The Department may place conditions as deemed appropriate upon any modified-duty assignment.
4. Members accommodated in modified duty assignments are expected to respond to subpoenas and provide court testimony as necessary. Members who are unable to appear and testify in response to a subpoena because of an industrial or non-industrial injury or illness must provide written documentation from their health care provider indicating their inability to appear and testify.

1054.3 PROCEDURE

Members may request assignment to modified duty by providing a signed statement from their health care provider describing their restrictions, limitations, and expected duration to their Commander or his/her designee and the Return to Work Unit. The statement must also indicate if the Member requires any workplace accommodations, mobility aids, or medical devices.

The Commander shall determine what modified-duty assignments may be available based on the needs of the Department, limitations of the Member, and suitability of the Member to work a particular assignment.

1054.3.1 MODIFIED-DUTY SCHEDULES

The schedules of Members assigned to modified duty may be adjusted to suit medical appointments or Department needs at the discretion of the Commander.

The Member and his/her supervisors should be informed in writing of the schedule, assignment, limitations, and restrictions as determined by the Member's health care provider.

1054.3.2 ACCOUNTABILITY

1. Members on modified duty are responsible for coordinating required doctor visits and physical therapy appointments in advance with their supervisor to appropriately account for any duty time taken. Doctor visits and appointments for treatment of injuries or illnesses shall be arranged during off-duty time or otherwise charged to the Member's sick leave or other leave accounts as applicable.
2. Members shall promptly submit a status report for each visit to their treating health care provider and shall immediately notify their supervisor and the Return to Work Unit of any change in restrictions or limitations as determined by their health care provider. A Member assigned to a modified-duty assignment shall provide a duty status report to the Return to Work Unit no less than once every 30 days while the Member is on modified duty.
3. Supervisors shall keep the Commander apprised of the Member's status and ability to perform the modified-duty assignment. Modified-duty assignments that extend beyond 60 days shall require a written status report and a request for an extension to the Commander with an update of the Member's current status and anticipated date of return to regular duty. Extensions require approval of the Sheriff or his/her designee.
4. When it is determined that a Member on modified duty shall return to regular duty, all training and certification necessary for return to duty shall be reviewed and updated as necessary.

1054.3.3 MEDICAL EXAMINATIONS

The Department reserves the right to require, prior to returning to full-duty status, a fitness-for-duty examination of any Member assigned to a modified-duty assignment or of any Member having been on such assignment. Such examinations shall be at the expense of the Department.

Members assigned to modified duty shall maintain all certification, training, and qualifications appropriate to both their regular and temporary duties, provided the certification, training, or qualifications are not in conflict with any limitations or restrictions. Members who are assigned to modified duty shall inform their supervisor of any inability to maintain any certification, training, or qualifications.

Social Media

1055.1 PURPOSE

The purpose of this policy is to define the process for creating and approving social media accounts related to the Orange County Sheriff's Department, as well as to provide guidelines for branding, content, and administration of those accounts. This policy shall ensure a unified brand in the realm of social media that is consistent with the Orange County Sheriff's Department mission and purpose.

This policy is not intended to interfere with the rights of Members of the Orange County Sheriff's Department to form, join, and participate in the activities of recognized Member organizations of their own choosing for the purpose of representation on all matters of employee-employer relations or to refrain from such activities. It is also not intended to interfere with, restrain, or prevent Member communications regarding wages, hours, or other terms and conditions of employment.

For policy regarding personal social media accounts, refer to Policy 1058.

1055.2 MISSION

The Orange County Sheriff's Department seeks to create a dynamic virtual online community that embodies our core values: integrity without compromise, service above self, professionalism in the performance of duty, and vigilance in safeguarding the community. The Orange County Sheriff's Department welcomes positive engagement that seeks to inform and educate the public.

1055.3 AUTHORIZED AND UNAUTHORIZED SOCIAL MEDIA ACCOUNTS

1055.3.1 PRIMARY ACCOUNTS

A primary social media account refers to any authorized account that posts on behalf of the entire Orange County Sheriff's Department. This is currently limited to accounts representing the entire Department. Primary accounts must be authorized by the Public Affairs and Community Engagement Division (PACE). The PACE Division will create the accounts to ensure branding alignment. The PACE Division must be included as an administrator and provided with account passwords. The PACE Division also reserves the right to determine whether or not a social media account qualifies as primary.

1055.3.2 SECONDARY ACCOUNTS

A secondary social media account refers to any authorized account that does not post on behalf of the entire Orange County Sheriff's Department. This includes any account that may represent groups, individuals, or canines within the OCSD community, but are not regularly administered by the PACE Division. These accounts must adhere to the overall mission of the Department while providing a subgroup community to share content (e.g. Contract city police services of OCSD). Secondary accounts also must be authorized by the PACE Division and follow the guidelines for secondary accounts in order to protect the integrity of the OCSD brand. The PACE Division also reserves the right to determine whether or not a social media account qualifies as secondary. The PACE Division will be the account administrator, will determine and approve additional OCSD

Members as administrators, and will not be removed as an administrator. The PACE Division will be provided with password information for all secondary accounts, and reserves the right to edit and delete posts, and/or terminate secondary accounts.

1055.3.3 UNAUTHORIZED ACCOUNTS

An unauthorized social media account refers to any account creating content related to OCSD which has not been authorized by the PACE Division to post publicly on behalf of the Orange County Sheriff's Department. Such unauthorized accounts, may include, but do not have to include, actual misrepresentation of OCSD through branding, content, administration, etc. The existence of an unauthorized account may or may not be known to the PACE Division (e.g. Retired OCSD personnel groups, supporters of OCSD, law enforcement watchdog groups, etc.). Anyone who discovers an unauthorized account is encouraged to alert the PACE Division. The PACE Division will work to determine what steps to be taken, if any.

Social media accounts created by recognized Member organizations are not considered unauthorized accounts.

1055.4 CREATING AND APPROVING ACCOUNTS

The PACE Division will set up approved accounts to ensure branding alignment. Once an account is approved, the administrators must meet with the Public Affairs team for a training session. During the training session, the Public Affairs team will provide counseling regarding setting up the account, branding, creating a content calendar, photo guidelines, rules of engagement and more.

If a secondary account currently exists, the Department Member will contact the PACE Division and provide them with the name of the account, a brief history of why it was started, when it was started, what it hopes to accomplish, and the names of administrators and passwords. The PACE Division will review the account and decide if the account needs to be deleted or changed to adhere to this policy.

All accounts will be created and maintained with a PACE Division approved email account. The PACE Division will maintain a list of official primary and secondary accounts, as well as, recommended and approved social media platforms.

1055.5 BRANDING, CONTENT AND ADMINISTRATION GUIDELINES

1055.5.1 GUIDELINES FOR PRIMARY ACCOUNTS

1. **Branding:** A primary account uses the Orange County Sheriff's Department name in the title and clearly defines itself as an official voice of the Department. 1055.5.2 GUIDELINES FOR SECONDARY ACCOUNTS

1. Accounts created and associated with a specific Department Member with the intention of distributing department information on the department's behalf are considered secondary accounts. The OCSD badge/city seal must be used as the profile picture with approval from both the OCSD PACE Division and the City Manager for Contract City accounts and official Department portraits will be used for Member accounts. Administrators of secondary accounts are allowed and encouraged to take advantage of official Department colors and fonts (e.g. Contract city Facebook account- OCSD Laguna Hills Police Services).

Operators of primary and secondary accounts should respond in a timely manner to questions and comments from our social media followers, when appropriate. The tone should be positive, factual and in line with the Department's mission. However, Members should not answer questions if they do not know the answer and they must consult the PACE Division whenever they receive a comment or question that appears inappropriate.

Employee Speech, Expression and Social Networking

1058.1 PURPOSE AND SCOPE

Public employees are public servants and are entrusted with the public trust. Because of this public trust, law enforcement personnel are held to a higher standard of professionalism than private citizens. Law enforcement personnel must work hard to gain the trust and confidence of the community they serve. This policy applies to all members of the Department, including sworn and professional staff, volunteers, contract employees, and Reserve personnel.

This policy is intended to address workplace privacy expectations, and issues associated with the necessary regulation and balancing of Member speech and expression (including social networking and other electronic communication) with the legitimate operational needs of the Department.

Nothing in this policy is intended to prohibit or infringe upon any communication, speech, or expression that is protected or privileged under law. This includes speech and expression protected under the Constitution of the United States and the Constitution of the State of California, labor statutes and regulations (e.g., Meyers-Milias-Brown Act), and other applicable laws. For example, this policy does not restrict a Member from engaging in protected labor-speech and activities.

Employees are encouraged to consult with their supervisor regarding any questions arising from the application or potential application of this policy.

1058.1.1 APPLICABILITY

This policy applies to all forms of communication including, but not limited to, film, video, print media, public or private speech, use of all Internet services, including e-mail, news services, social networking, social media, instant messaging, text messaging, blogs, podcasts, forums, video and other file-sharing sites.

1058.2 POLICY

Public employees, especially deputy sheriffs and Department personnel, occupy a trusted position in the community, and thus, their statements have the potential to contravene the policies, performance, and legitimate operational interests of this Department. Due to the nature of the work and influence associated with the law enforcement profession, it is necessary that Members of this Department be subject to certain reasonable limitations on their speech and expression. To achieve its mission and efficiently provide service to the public, the Orange County Sheriff-Coroner Department will carefully balance the individual rights of Members against the Department's needs and interests when exercising a reasonable degree of control over its Members' speech and expression.

Employee Speech, Expression and Social Networking

1058.3 SAFETY

Members should carefully consider the implications of their speech or any other form of expression, particularly when using the Internet and other technology that can be widely disseminated. Speech and expression that negatively affects the safety of Orange County Sheriff's Department Members, such as posting personal information in a public forum, can result in compromising a Member's home address or family ties. Members should therefore not disseminate or post any information on any forum or medium that could reasonably be anticipated to compromise the safety of any Member, or a Member's family or associates. Examples of this type of information that, depending on the circumstances, could reasonably be expected to compromise Member safety include:

1. Disclosing a photograph and name or address of a Member who is working undercover.
2. Disclosing the home address and other personal contact information (e.g. telephone number or personal email address) of another Member.
3. Publicly disclosing where another Member can be located off-duty.
4. Publicly identifying another Member's family as having a relationship with the law enforcement community.

While such conduct is not expressly prohibited in every circumstance, Members are cautioned to exercise reasonable judgment before providing another Member's personal information to any outside party to the extent such information could threaten or adversely affect the other Member's safety.

1058.4 PROHIBITED SPEECH, EXPRESSION AND CONDUCT

To meet the Department's safety, performance, and public-trust needs, the following are prohibited unless the speech is otherwise protected (for example, a Member speaking as a private citizen on a matter of public concern, or as an authorized member of a recognized bargaining unit):

1. Speech or expression made pursuant to an official job duty that tends to compromise or damage the mission, function, reputation, professionalism, or the ability of the Orange County Sheriff-Coroner Department or its Members to serve the public. The determination of whether speech is made pursuant to an "official job duty" is made on a case-by-case basis. *Garcetti v. Ceballos*, 547 U.S. 410 (2006).
2. Speech or expression that, while not made pursuant to an official duty, is significantly linked to, or related to, the Orange County Sheriff-Coroner Department and tends to compromise or damage the mission, function, reputation or professionalism of the Orange County Sheriff-Coroner Department or its Members. Examples may include:
 - Statements that indicate disregard for the law or the state or U.S. Constitution.
 - Expression that demonstrates support for criminal activity.
 - Participating in sexually explicit photographs or videos for compensation or distribution.

Orange County Sheriff-Coroner Department

Employee Speech, Expression and Social Networking

3. Speech or expression that could reasonably be foreseen as having a negative impact on the credibility of the Member as a witness. For example, posting statements or expressions to a public website that glorify or endorse dishonesty by the Member, endorse unlawful discrimination, express racial bias, or promote illegal behavior may compromise a Member's credibility as a witness.
4. Speech or expression of any form that could reasonably be foreseen as having a negative impact on the safety of the Members of the Orange County Sheriff's Department. For example, a statement on a blog that provides specific details as to how and when a tactical operation will be made could reasonably be foreseen as potentially jeopardizing Members by informing criminals of details that could facilitate an armed response or escape by the target of the operation. Similarly, advising a suspect that s/he is under surveillance could threaten officer safety.
5. Speech or expression that is contrary to the canons of the Law Enforcement Code of Ethics as adopted by the Orange County Sheriff-Coroner Department.
6. Use or disclosure, through whatever means, of any information, photograph, video or other recording obtained or accessible as a result of employment with the Department, and not otherwise available to the public, without the express authorization of the Sheriff or the authorized designee, including for financial or personal gain. (Penal Code § 146g.)

Members must take reasonable and prompt action to remove any content, including content posted by others, that is in violation of this policy from any web page or website maintained by the Member (e.g., social or personal website). In order for the Member to remove such content, reasonable accommodations shall be made as necessary to permit the Member to access his/her personal accounts in a manner that will not compromise the privacy rights of the Member.

1058.4.1 UNAUTHORIZED ENDORSEMENTS AND ADVERTISEMENTS

Members are not restricted from engaging in any political endorsements or social activities as private citizens, or as authorized members of a recognized bargaining unit. While nothing in this policy shall prevent a Member from identifying himself or herself as a member of a law enforcement agency in conjunction with his or her political speech, Members may not represent that their political, social, or other personal views are those of the Orange County Sheriff-Coroner Department. Unless specifically authorized by the Sheriff, Members shall not identify themselves in any way that could be reasonably perceived as speaking on behalf of, or officially representing the Orange County Sheriff's Department in order to do any of the following:

1. Endorse, support, oppose or contradict any political campaign or initiative.
2. Endorse, support, oppose, or contradict any social issue, cause or religion.
3. Endorse, support or oppose any product, service, company or other commercial entity.
4. Appear in any commercial, social or nonprofit publication or any motion picture, film, video, public broadcast or on any website.

Members retain their right to vote as they choose, to support candidates of their choice, and to express their opinions as private citizens, including as authorized members of a recognized

bargaining unit, on political subjects and candidates at all times while off-duty. However, Members may not use their official authority or influence to interfere with or affect the result of an election or a nomination for office. Members are also prohibited from directly or indirectly using their official authority to coerce, command or advise another employee to pay, lend, or contribute anything of value to a party, committee, organization, agency, or person for political purposes. (5 USC § 1502.)

1058.5 PRIVACY EXPECTATION

The Department retains the right to require a Member to divulge social media reasonably believed to be relevant to an investigation of allegations of Member misconduct or Member violation of applicable laws and regulations, provided that the social media information is used solely for purposes of that investigation or a related proceeding.

The Department also retains the right to require a Member to disclose a username, password, or other method for the purpose of accessing an employer-issued electronic device.

The Department will not request or require a Member to disclose his or her username or password for the purpose of accessing personal social media. Also, when unrelated to an investigation or related proceeding, the Department will not request the Member to access personal social media in the presence of the Department. The Department will not discharge, discipline, threaten to discharge or discipline, or otherwise retaliate against a Member solely for not complying with a request to access his or her personal media in the presence of the Department.

Members are cautioned that they should have no expectation of privacy regarding any communication or information accessed, transmitted, reviewed, or received over any technology issued or maintained by the Department, including but not limited to the Department e-mail system, computer network, department-issued cellular phones, laptops, or tablets. The Department reserves the right to access, audit and disclose any such information or communication. This includes records of all key strokes or web-browsing history made at any Department computer or over any Department network. The fact that access to a database, service or website requires a user name or password will not create an expectation of privacy if accessed through a Department computer or network.

Members are advised that the content of personal cameras and audio recording devices acquired by a Member while acting in an official capacity at a crime scene, accident, or natural disaster shall be provided to the Department as case evidence in a manner that will not compromise the privacy of other personal or unrelated content maintained on the device. Absent the express authorization of the Sheriff, a Member shall not make available to any member of the public such content provided to the Department as case evidence.

Members should also be aware that even where the Department recognizes a Member's privacy interest, certain communications may nonetheless be legally subject to disclosure. (For example, under the Public Records Act or civil or criminal discovery rules, etc.)

1101.1 PURPOSE AND SCOPE

Establishing a decedent's identification is a core duty of the Coroner established in Government Code 27491. The purpose of this policy is to provide rules and guidelines to members of the Coroner Division for establishing the identity of a decedent.

1101.2 PROMPT IDENTIFICATION

Accurate identification of a decedent shall be established at the onset of the death investigation or as soon as possible thereafter.

1101.3 METHODS OF IDENTIFICATION

Decedents falling under the jurisdiction of the Coroner Division shall be identified by one of the following means, each of which is explained more fully herein:

- (a) Visual identification
- (b) Fingerprint search or comparison
- (c) Dental comparison
- (d) Medical appliance
- (e) DNA search or comparison
- (f) Circumstantial evidence

1101.4 VISUAL IDENTIFICATION

Establishing the identity of a decedent by visual identification is permissible only when the facial features are not distorted by trauma, decomposition, thermal injury, or other factors that may change his or her appearance. Such visual identification may be performed by:

- (a) Source of Information
 1. The source of information will preferably be the most immediate relative to the decedent available at the time of the Deputy Coroner's body examination.
 2. If an immediate relative is unavailable, the source of information must have had qualified knowledge of the decedent during life.
 - (a) The responsibility to determine "qualified knowledge" lies with the Deputy Coroner.
 - (b) When the source of information is a non-immediate relative, the relation to and length of association with the decedent shall be documented in the Deputy Coroner's written report.
 3. The source of information must view the decedent's face to confirm identification.

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Identification

(a) The viewing shall be performed in person at the death location, or via a clear facial photograph taken by the Deputy Coroner or Coroner Technician and shown to a source of information at the Coroner Division Facility.

1. Deputy Coroners or Coroner Technicians shall make every effort to minimize the appearance of blood, injury, or other facial distortion prior to taking the photograph.

2. The shown photograph shall be approved by the on-duty Watch Commander prior to the source of information's viewing.

4. Visual identification shall not be accepted from a source of information suffering from obvious intoxication, developmental delay, or other condition causing the Deputy Coroner to have reasonable doubt in his/her ability to make an accurate visual identification.

(b) Photograph Identification

1. Identification via photograph comparison is permitted only by using an official government photo.

(a) Authorized government photos include a state driver's license or identification card, passport, immigration, or military identification card.

(b) Using any other photos (example: a minor's school identification card, a college identification card) for photograph identification shall be approved by the on duty Watch Commander.

2. Identification via photograph comparison shall be performed only by the Deputy Coroner performing the body examination.

(a) Deputy Coroners shall not delegate the duty of identifying the deceased via photograph comparison to a law enforcement officer or medical personnel.

(b) A name obtained by law enforcement and/or medical personnel may be accepted as a tentative identification only, and shall be confirmed by the Deputy Coroner via some other method.

(c) Deputy Coroners shall personally examine the deceased and make the comparison to the photo identification. Under no circumstances will a Deputy Coroner rely on photographs of the deceased provided remotely (example: email, text message) by law enforcement or medical personnel as the basis to compare the photo identification.

3. If the Deputy Coroner has any level of uncertainty when performing a visual photograph comparison to establish a decedent's identity, he/she shall treat

that decedent as an unidentified person until identification is confirmed by other means.

1. The Coroner Technician processing the decedent may use his/her discretion when evaluating a case for the presence of quality ridge detail.
2. The Coroner Technician shall notify the on-duty Watch Commander if he/she is unable to obtain fingerprints for any reason.

1101.5.2 SUBMISSION TO CAL-ID

All fingerprints shall be submitted to CAL-ID for search or comparison. This submission shall be performed electronically via Livescan whenever possible; however, ink, silicone casts, and kinder prints may be hand delivered to the CAL-ID Bureau, with the proper examination request form, as needed. Refer to Policy 1108 of this manual for further.

1101.6 DENTAL IDENTIFICATION

Deputy Coroners shall be responsible for obtaining a familial comparison sample, when available, and submitting the sample along with required paperwork (if applicable) to the Forensic Unit. The Forensic Unit shall be responsible for obtaining sample(s) from the decedent and submitting both specimens for DNA comparison.

The Rapid DNA Machine shall be the preferred method of DNA identification. If results were unsuccessful or negative, then specimens may be submitted to Department of Justice forensic lab or Orange County Crime Lab for further processing.

1101.8.1 RETENTION OF DNA PROFILE, SAMPLES, AND RESULTS

If the results of the DNA test reflect a match and a positive identification is made, the results will be printed and retained in the Coroner case file. DNA profiles obtained from both the familial comparison sample and decedent sample will be deleted from the Rapid DNA machine software. If any part of the familial comparison sample remains after the DNA test is run, the sample shall be discarded.

If the results of the DNA test are not a match, leaving the decedent unidentified, the results will be printed and retained in the Coroner case file. Any profile obtained from the familial comparison sample will be deleted from the Rapid DNA machine software. The DNA profile of the decedent may be retained in the software for the purpose of identifying the decedent in the future. If any part of the familial comparison sample remains after the DNA test is run, the sample shall be discarded.

Except for the sample from the decedent, no DNA samples used for identification of a decedent shall be retained by the Sheriff-Coroner. Under no circumstances will a familial comparison sample be used for any purpose other than identifying a decedent.

1145.1 DEFINITION

A SONA case involves the process of the Coroner signing a death certificate based upon review of clinical diagnoses in lieu of performing an autopsy. SONA cases are deaths:

- (a) Occurring in a medical facility or on hospice care
- (b) Where the cause of death has been diagnosed by the treating physician
- (c) The cause of death falls under the jurisdiction of the Coroner
- (d) The treating physician is willing and able to co-sign the death certificate with the Coroner
- (e) The manner of death is accident or suicide
 - 1. A homicide death may very rarely qualify for SONA; refer to section 1145.2.1(a) of this policy
- (f) A postmortem examination and/or related testing will not augment the death investigation.

Deaths with nuances outside of this definition may be considered for SONA at the discretion of the Coroner Watch Commander.

1145.2 CASES EXCLUDED FROM SONA

The following deaths are not eligible for SONA consideration and shall undergo a postmortem examination prior to Coroner death certificate signature:

- (a) Homicide deaths or those related to an active criminal investigation
 - 1. A significantly delayed homicide, where criminal charges have been adjudicated, may be considered for the SONA process with approval of the Coroner Division Commander or his/her designee.
- (b) In-custody deaths
- (c) Officer-involved deaths
- (d) Any traffic related fatality with pending major criminal charges, or where the death occurs less than 48 hours after the incident
 - 1. Traffic related fatality deaths with pending criminal charges may be considered for SONA with consent from the handling law enforcement agency and approval of the Coroner Watch Commander
- (e) Any suspected overdose or poisoning where admitting antemortem blood samples are available and toxicology levels have not been quantitated by a laboratory

Sign-Out No Autopsy (SONA) Cases

(f) Any death where the cause is only presumed or suspected and has not been established diagnostically

(g) Any death where there is an investigative need for autopsy examination, or where the manner of death may be in question

1145.3 BODY EXAMS

SONA cases do not require a body examination unless requested by the Coroner Watch Commander, assigned Deputy Coroner, or pathologist.

1145.4 INVESTIGATION

Upon receiving the report of a death and determining the case to be a possible candidate for SONA consideration, Deputy Coroners shall initiate an investigation to include:

- (a) Statements from medical providers, family members, witnesses, or other person(s) most knowledgeable
- (b) Obtain, review, and summarize pertinent medical records
- (c) Obtain, review, and summarize pertinent police, incident, or social service (example: Adult Protective Services) reports
- (d) Search criminal histories
- (e) Obtain the treating physician's proposed cause of death, and determine his/her willingness to co-sign the death certificate with the Coroner
- (f) Place a hold on antemortem blood specimens, if available
- (g) Document his/her progress in CME on the page titled "SONA Tracking"

1145.5 REVIEW PROCESS

The on-duty dayshift Coroner Watch Commander or his/her designee shall review the Deputy Coroner's case report and present the facts to a pathologist along with all available medical records. Together, both parties shall assess the case history and circumstances. The pathologist will then indicate his/her agreement with the cause of death proposed by the treating physician. If he/she agrees with said proposed cause, the case shall continue through the SONA process and the death certificate shall be co-signed by the Coroner. If he/she disagrees with the proposed cause, the case shall be transported to the Coroner Division for autopsy examination.

The Coroner Watch Commander shall document the name of the pathologist reviewing the case in CME on the page titled "SONA Tracking."

1145.6 SIGNING THE DEATH CERTIFICATE

When the cause of death has been mutually agreed upon by the treating physician and pathologist, the Coroner Watch Commander shall determine that all investigative elements have been satisfied and then notify the Clerical Unit to initiate processing of the death certificate. The Clerical Unit will coordinate with the selected mortuary for physician and Coroner attestation. All actions shall be

Orange County Sheriff-Coroner Department

Sign-Out No Autopsy (SONA) Cases

documented via completion of the applicable fields in CME on the page titled "SONA Tracking." Once the death certificate has been attested by all parties, the case shall be returned to the assigned Deputy Coroner who may submit the case for closure.

Organ Procurement

1151.1 PURPOSE AND SCOPE

Health and Safety Code 7151.15 mandates the Coroner to cooperate with procurement organizations in order to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education. This policy shall apply to all deaths where an organ procurement organization (OPO) is pursuing organ procurement. One Legacy is a federally designated OPO; One Legacy is presently assigned by Donate Life California as the OPO for the region that includes Orange County. Notwithstanding One Legacy's designation as the OPO for Orange County, the Coroner recognizes that other OPOs may be selected by decedents before their death or by other authorized persons for organ procurement. The Coroner will cooperate with any federally designated OPO.

1151.2 FIRST CALL

Due to the inherent time sensitivity of the organ donation process, an OPO representative may report an expected death to the Coroner prior to the legal pronouncement. Deputy Coroners receiving this report shall assist in evaluating the case for Coroner jurisdiction and potential autopsy.

1151.3 REQUIREMENTS FOR CORONER ALLOWING ORGAN PROCUREMENT

Pursuant to Government Code 27491.45(b), the Coroner may allow organ procurement only when the following criteria are met:

- (a) The provision of the part(s) will not unnecessarily mutilate the body or interfere with the autopsy
- (b) The decedent or other authorized person, as specified in Section 7151 of the Health and Safety Code, has consented to the provision of the part(s)
- (c) The Coroner may consent to procurement in the absence of consent from the decedent/authorized person(s) only after the Coroner has made a reasonable effort to locate and inform authorized person(s) of their option to consent or object to the organ procurement but has been unable to locate any authorized person(s).

1. A reasonable effort to locate authorized person(s) shall be deemed to have been made when a search for the persons has been underway for at least 12 hours. The search shall include a check of local police missing persons records, examination of personal effects, and the questioning of any persons visiting the decedent before his or her death or in the hospital, accompanying the decedent's body, or reporting the death, in order to obtain information that might lead to the location of any persons listed in subdivision (a) of Section 7151 of the Health and Safety Code.

2. The 12 hours described above applies to the minimum time that must be spent trying to locate an authorized person who may consent to the organ procurement

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

Organ Procurement

in the absence of a pre-mortem consent by the decedent. If the Coroner actually knows the location of an authorized person listed in subdivision (a) of Section 7151 of the Health and Safety Code, the Coroner cannot consent to organ procurement.

1151.4 AUTOPSY CASES

Any death reported to the Coroner which, at the completion of the investigation, is determined to require autopsy examination shall be evaluated by the Coroner Watch Commander and/or Forensic Pathologist prior to giving OPO access to the body for procurement. If either the Coroner Watch Commander or Forensic Pathologist determine that organ procurement will not interfere with the subsequent course of an investigation or autopsy, the Watch Commander may authorize an OPO to procure specified organs as identified by the Watch Commander. The autopsy shall be performed following the removal of the organs.

1151.5 DEATHS WHERE CRIMINAL INVESTIGATION IS ANTICIPATED

The assigned Deputy Coroner shall contact the investigating law enforcement agency when an OPO requests procurement on any death where criminal investigation is anticipated. Deputy Coroners shall inform the agency of the OPO's intent to procure organs, determine whether the law enforcement agency has any objection(s) to the Coroner giving authorization for procurement, and relay said objection(s) to the Coroner Watch Commander for consideration.

1151.6 DENYING REQUESTS FOR ORGAN PROCUREMENT

If, based on the preliminary investigative findings of any case, the Coroner Watch Commander and/or Forensic Pathologist determine that organ procurement may interfere with the determination of cause or manner of death, the case shall be elevated to the Manager of Investigations to discuss with the management team. Denial of requests for organ procurement may be made only by the Sheriff-Coroner or his/her designee.

1151.7 BODY EXAMINATIONS

Deputy Coroners shall not conduct a field response or body examination on any patient where death has not been legally pronounced. Field responses and body examinations on patients whom are legally deceased shall be made in accordance with policy 1104 – Field Responses of this manual.

Handling of Bone/Tissue Specimens

1152.1 PURPOSE AND SCOPE

Bones, tissues, and other specimens are commonly collected by or delivered to Coroner Division personnel by law enforcement officers, medical professionals, or members of the public. This policy serves to establish rules and guidelines for the handling of these specimens.

1152.2 DEFINITIONS

- (a) Specimen: Bones, tissues, organs, products of conception, and human remains of no forensic value
- (b) Forensic Value: Human remains or portions thereof that show evidence of a modern murder or evidence necessary to determine the cause or manner of death, or identity of a deceased person.
- (c) Human remains: The body of a deceased person, or portion thereof.

1152.3 FIELD RESPONSES AND TRANSPORTING OF BONE/TISSUE SPECIMENS

Deputy Coroners receiving report of a bone or tissue specimen found in the field is not required to respond to the scene when there are no reports of additional evidence in close proximity to the specimen, and collection of the specimen by the finder or reporting law enforcement agency will not result in loss or destruction of the specimen. Deputy Coroners may direct the finder or reporting law enforcement agency to instead collect the specimen and deliver it to the Coroner Division Facility for examination.

If the finder or reporting law enforcement agency reports multiple specimens and/or skeletal remains located in or near a potential gravesite, Deputy Coroners shall conduct a field response. Any reports of specimens found under suspicious circumstances shall also require a field response by the Deputy Coroner. The remains may be transported by Deputy Coroners in the trunk of the Deputy Coroner's vehicle, so long as he/she can properly secure the item in a sealed bag or an appropriate spill proof container.

All bone or tissue specimens in this policy section shall be documented in CME as a Coroner Case. The assigned manner shall be determined based on known case circumstances.

1152.4 NON-HUMAN REMAINS

Any remains determined to be non-human by Deputy Coroners need not be documented nor transported to the Coroner Division Facility. Any remains where the potential of human origin cannot be ruled out shall be documented in CME with the assigned manner of "Jurisdictional Inquiry" and transported to the Coroner Division Facility for examination by the Forensic Pathologist and/or Forensic Anthropologist.

1152.5 HUMAN REMAINS OF NO FORENSIC VALUE

Any remains thought to be human but of no forensic value (example: educational displays, war relics, museum collections, etc.) shall be documented in CME by the Deputy Coroner and assigned

Orange County Sheriff-Coroner Department

Orange County SD Policy Manual

a manner of "Jurisdictional Inquiry." The remains shall be photographed and delivered to the Forensics Unit for examination by the Forensic Pathologist and/or Forensic Anthropologist.

1152.6 HUMAN REMAINS WITH FORENSIC VALUE

If at any point a Deputy Coroner, Forensic Pathologist, or Forensic Anthropologist determine remains to be human and have some forensic value, the remains shall be handled in accordance with Policy 1117 of this manual.

FOREWORD

Hate Crimes (i.e. crimes motivated by bias) convey a message of terror and exclusion, not just to the immediate victims but to entire communities. They often target victims who are least able to defend themselves. They cause trauma that is more extreme and longer lasting than similar crimes committed for other motivations. They can spark retaliatory crimes, escalating the cycle of crime and violence. If not addressed professionally and thoroughly they may undermine public confidence in law enforcement.

The 2018 California State Auditor's Report, titled "Hate Crimes in California," found that California law enforcement has not taken adequate action to identify, report, and respond to hate crimes. The report found that agencies did not properly identify some hate crimes, and underreported or misreported hate crimes as well. The report also noted that hate crimes are on the rise in California, increasing in both 2015 and 2016.

California Penal Code (CPC) 422.87 added new language and requirements to any newly created or updated agency hate crimes policy. Effective January 1, 2019, any local law enforcement agency that updates an existing hate crimes policy, or adopts a new one, shall include the content of the model policy framework provided in this document as well as any revisions or additions to the model policy in the future.

These guidelines are the primary elements that law enforcement executives are now required to incorporate into their hate crimes policy if an agency creates a new hate crimes policy or updates an existing one. The guidelines are designed for department-wide application and are intended to reflect a values-driven "top-down" process. They are intended to assist with the development and delivery of training and ensure proper identification, investigation, and reporting of hate crimes within each agency's jurisdiction.

POLICY GUIDELINES

GUIDELINE #1

Develop the foundation for the agency's hate crimes policy.

The law enforcement executive is responsible for providing leadership, communicating organizational values to the department and the community, paying attention to hate crime trends and current events that could trigger hate incidents and/or hate crimes in the community, and providing education and training to establish the foundation for the agency's hate crimes policy. Employees' ability to respond appropriately to hate crimes and hate incidents is maximized when the executive effectively establishes and communicates the foundational values of the organization.

GUIDELINE #2

Develop a hate crimes policy for the agency.

- I. An agency's hate crimes policy shall include the statutory definition of a hate crime, and its policy and programs should minimally include the following:
 - A. Response
 - B. Training
 - C. Planning and Prevention
 - D. Reporting

The law enforcement executive is responsible for the initial development of the policy and should be actively involved in its implementation. See the appendix for the exemplar "Message from the Agency Chief Executive".

GUIDELINE #3

Develop expertise to identify and investigate hate crimes.

The law enforcement executive is responsible for ensuring that the agency possesses expertise to identify and investigate hate crimes, as well as ensuring compliance with state and federal

reporting and public information requirements. Agencies should assign identified personnel to appropriate training to develop expertise and knowledge to investigate hate crimes.

Hate crimes are low-frequency events with high-risk consequences for the agency and community. Agencies shall provide a checklist to first responders to provide direction for the investigation of all hate crimes as mandated by CPC 422.87.

GUIDELINE #4

Develop and implement cooperative hate crimes plans with other law enforcement agencies.

- I. Coordinate cooperative efforts among regional, state, federal, and tribal law enforcement agencies to share information and training, and develop strategies to prevent hate crime activity.
- II. Develop and/or participate in law enforcement intelligence networks to enhance the agency's ability to anticipate potential hate crime targets. This interaction should include sharing intelligence information with other jurisdictions and cooperative investigations, arrests, and prosecutions if appropriate.

GUIDELINE #5

Develop and implement cooperative hate crime plans with the community and related governmental and non-governmental organizations, as appropriate.

- I. Collaborate with the community, including human relations/civil rights organizations, advocacy groups, service organizations, neighborhood associations, religious institutions, local schools and colleges, to do the following:
 - Develop a network to build rapport with community groups

-
- Develop a protocol for response to hate crimes
 - Obtain witness and victim cooperation
 - Provide support services to victims
 - Collect demographic information about specific communities
 - Identify hate crime trends based upon current events and activity (hate crimes and/or hate incidents)
 - Identify periods of increased vulnerability based on significant dates and events for affected communities
- II. Law enforcement should identify and seek out cultural diversity training and information from/about specific communities within its jurisdiction (immigrant, Muslim, Arab, LGBTQ, Black or African American, Jewish, Sikh, disability, etc.) to strengthen agency awareness.

GUIDELINE #6

Conduct an annual assessment of the agency's hate crimes policy and its ongoing implementation.

The assessment should include:

- I. A review to ensure compliance with the POST Hate Crimes Model Policy and California law.
- II. A review and analysis of the agency's data collection, policy, and annual mandated reporting of hate crimes.
- III. A review and updating of the agency's hate crimes brochure to ensure compliance with CPC 422.92.
- IV. A review of any existing or available data or reports, including the annual California Attorney General's report on hate crimes, in preparation for, and response to, future hate crime trends.

- V. Annual outreach to the community including human relations/civil rights organizations, advocacy groups, service organizations, neighborhood associations, religious institutions, local schools, and colleges assessing the agency's responsiveness to hate crimes.

MINIMUM LEGAL REQUIREMENTS FOR AN AGENCY'S HATE CRIMES POLICY

CPC 13519.6, effective January 1, 2005, minimally requires:

1. A message from the law enforcement agency's chief executive officer to the agency's officers and staff concerning the importance of hate crime laws and the agency's commitment to enforcement.
2. The definition of "hate crime" in Penal Code section 422.55.
3. References to hate crime statutes including Penal Code section 422.6.
4. A title-by-title specific protocol that agency personnel are required to follow, including, but not limited to, the following:

MODEL POLICY FRAMEWORK

Purpose

This model policy framework is designed to assist in identifying and handling crimes motivated by hate or other bias toward individuals and groups with legally defined protected characteristics, to define appropriate steps for assisting victims, and to provide a guide to conducting related investigations. It outlines the general policy framework for prevention, response, accessing assistance, victim assistance and follow up, and reporting as related to law enforcement's role in handling hate crimes. It also serves as a declaration that hate crimes are taken seriously and demonstrates how law enforcement agencies may best use its resources to investigate and solve an offense, in addition to building community trust and increasing police legitimacy.

Policy

It is the policy of this agency to safeguard the rights of all individuals irrespective of their disability, gender, nationality, race or ethnicity, religion, sexual orientation, and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by hate or bias should be viewed very seriously and given high priority.

This agency will employ necessary resources and vigorous law enforcement action to identify and arrest hate crime perpetrators. Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this agency should attend to the security and related concerns of the immediate victims and their families as feasible.

The agency policy shall include a requirement that all officers be familiar with the policy and carry out the policy at all times unless directed by the chief, sheriff, director, or other chief executive of the law enforcement agency or other command-level officer to whom the chief executive officer formally delegates this responsibility.

The agency policy shall provide a specific procedure for transmitting and periodically retransmitting the policy and any related orders to all officers, including a simple and immediate way for officers to access the policy in the field when needed.

POST offers training and video courses to assist law enforcement in the identification, investigation, documentation and reporting of hate crimes. These courses provide officers with information and skills necessary to effectively identify, investigate, document and report hate crimes. Various training programs include the history and definitions of hate crimes, recognition of hate groups, international terrorism, legal considerations, victims' considerations, initial response duties, victim interviewing and care, suspect identification and interrogation, evidence identification, report writing, the role of law enforcement, investigative strategies, intelligence collection, supervisory roles, community relations, media relations and local program training development, and other topics such as proper use of computer systems and methods for reporting. POST also maintains an extensive array of training videos on applicable topics such as working with those with mental illness and intellectual disabilities, hate crimes, and working with minority communities.

For more information on POST training opportunities and available videos, visit the POST website at www.post.ca.gov. In conjunction with POST training opportunities, trainers may utilize other state and federal agencies that offer training courses, such as the U.S. Department of Justice.

Planning and Prevention

The general underreporting of hate crimes is an identified issue in California. Underreporting is caused by victims not reporting hate crimes or hate incidents due to a number of factors, including fear of reprisal and the belief that law enforcement will not properly investigate them. A report by the State Auditor in 2018 determined that California law enforcement has not taken adequate action to identify, report and respond to hate crimes. There is also an extreme underreporting of anti-disability and anti-gender hate crimes. The agency's plan to remedy this underreporting *shall be inserted into the policy* (emphasis added).

In order to facilitate the recommendations contained within this policy, it is strongly recommended that agencies build and strengthen relationships with the community, engage in dialogue, and provide education to the community about this policy. Agency personnel are also encouraged to learn about the inherent issues concerning their communities in relation to hate crimes. Assigned personnel should perform the following:

1. Meet with residents in target communities to allay fears; emphasize the agency's concern over this and related incidents; reduce the potential for counter-violence; and provide safety, security, and crime prevention information. Cultural diversity education and immersion programs (if available) could facilitate this process.
2. Provide direct and referral assistance to the victim and his/her family.
3. Conduct public meetings on hate crime threats and violence in general.
4. Establish relationships with formal community-based organizations and leaders.
5. Expand, where appropriate, preventive programs such as hate, bias, and crime reduction seminars for school children.

-
6. Review the Attorney General's latest opinion on hate crime statistics and targets in order to prepare and plan for future crimes, specifically for Arab/Middle Eastern and Islamic communities.²
 7. Provide orientation of and with communities of specific targeted victims such as immigrants, Muslims, Arabs, LGBTQ, Black or African-American, Jewish, Sikh, disabled persons, etc.

Hate crimes are not only a crime against the targeted victim(s) but also have impacts on the victim's family and community. Working constructively with segments of this larger community after such crimes is essential to help reduce fears, stem possible retaliation, prevent additional hate crimes, and encourage any other previously victimized individuals to step forward and report such crimes. This is particularly important if an upward trend has been identified in these crimes.

Although hate incidents are not criminal events, they can be indicators of, or precursors to, hate crimes. Most California law enforcement agencies do not track hate incidents. It is recommended that hate incidents be investigated and documented, if directed by policy, as part of the overall planning to prevent hate crime.

Tracking social media is also another identified area to find indicators of, or precursors to, hate crimes. It is recommended that agencies assign personnel to find, evaluate and monitor public social media sources to identify possible suspects in reported hate crimes, or to determine suspects or suspect groups in future hate crimes or hate incidents affecting the identified individuals, groups or communities that may be victimized, and planned hate-based events.

Release of Information

Agencies should have procedure and/or policy on public disclosure of hate crimes. Establishing a relationship with stakeholders, before any incident occurs, to develop a network and protocol for disclosure would assist greatly in any disclosure.

The benefit of public disclosure of hate crime incidents includes:

1. Dissemination of correct information.
2. Assurance to affected communities or groups that the matter is being properly and promptly investigated.
3. The ability to request information regarding the commission of the crime(s) from the victimized community.

Agencies should provide the supervisor, public information officer, or designee with information that can be responsibly reported to the media. When appropriate, the law enforcement media spokesperson should reiterate that the hate crimes will not be tolerated, will be taken seriously, and will be prosecuted to the full extent of the law.

Agencies are encouraged to consider the following when releasing information to the public regarding hate crimes and hate incidents that have been reported within the jurisdiction:

²As described in CPC 13519.6(b)(8)

-
1. Informing community organizations in a timely manner when a community group has been the target of a hate crime.
 2. Informing the community of the impact of these crimes on the victim, the victim's family, and the community, and the assistance and compensation available to victims.
 3. Informing the community regarding hate crime law and the legal rights of, and the remedies available to, victims of hate crimes.
 4. Providing the community with on-going information regarding hate crime and/or hate incidents (if policy requires it).

Reporting

The agency policy shall require development of a procedure for data collection, documentation, and mandated reporting requirements. The agency shall:

1. Ensure that hate crimes are properly investigated, documented and reported.
2. During documentation, ensure hate crimes are flagged properly to allow for required reporting to the California Department of Justice. This is typically indicated by the title/penal code section identifying the report as a hate crime. Some agencies have added a check box specifically indicating a hate crime that could, if required by the agency policy, require a secondary review by an investigator/detective, supervisor or other identified party. It is the agency executive's responsibility to determine the form of documentation and type of indicators on crime reports.
3. The agency head or their designee (identified in the agency policy) should make a final determination as to whether the incident should be classified as a hate crime by the agency.
4. Agencies shall develop procedures to comply with legally mandated reporting, including the California Department of Justice, pursuant to CPC 13023.

Hate crime

“Hate crime” means a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

The following types of speech are generally not protected: fighting words, true threats, perjury, blackmail, incitement to lawless action, conspiracy and solicitation to commit any crime.

Disability Bias

In recognizing suspected disability-bias hate crimes, officers should consider whether there is any indication that the perpetrator was motivated by hostility or other bias, occasioned by factors such as, but not limited to, dislike of persons who arouse fear or guilt, a perception that persons with disabilities are inferior and therefore "deserving victims," a fear of persons whose visible traits are perceived as being disturbing to others, or resentment of those who need, demand, or receive alternative educational, physical, or social accommodations.

This includes, but is not limited to, if a perpetrator targets a person with a particular perceived disability while avoiding other vulnerable-appearing persons such as inebriated persons or persons with perceived disabilities different than those of the victim, those circumstances could be evidence that the perpetrator's motivations included bias against persons with the perceived disability of the victim and that the crime must be reported as a suspected hate crime and not a mere crime of opportunity.
